The image shows a smartphone screen with the "Set 'Money Safe'" app interface. At the top, there is a back arrow and the title "Set 'Money Safe'". Below this is a section titled "Set Amount" in red. The text explains that the service safeguards funds by protecting them from being transferred or withdrawn via all channels, and that users will need to visit branches to release the protected funds. It also states that the maximum amount to be protected is the sum of the available balance and the amount already set, and that users should reserve sufficient funds for daily and emergency needs. There are three input fields for different currencies: HKD, AUD, and CAD. The HKD field is currently active, showing a value of 50,000.00 and a maximum amount of HKD 100,000.00. The AUD field shows a value of 10,000.00 and a maximum amount of AUD 100,000.00. The CAD field is empty. At the bottom, there is a red "Next" button, which is highlighted with a blue circle.
