Industry Scheme Member Update
Register for eMPF Today and Enjoy a Smarter MPF Management Experience

As Hong Kong's MPF system reaches a new milestone in its digital transformation, the BEA (MPF) Industry Scheme successfully migrated to the eMPF Platform in the second quarter of 2026. We encourage all BEA (MPF) Industry Scheme members, whether holding a relevant Employee Account, Casual Employee Account or other account types, to register for eMPF and make full use of its digital services. Through eMPF, you can manage your MPF accounts and view contribution records anytime, anywhere, enabling you to better manage your retirement savings.

MPF is an important part of your retirement savings. Managing your account information early can help you plan for the future with greater confidence. Simply download and register for the eMPF mobile app to access and manage your MPF accounts anytime, anywhere.

Three Benefits of Registering for eMPF

Keep Your Digital Casual Employee Card Handy
Using the QR code or account number in the eMPF mobile app, members can provide the required information to new employers for contribution arrangements without carrying a physical Casual Employee Card.

Easy Access to Contribution Records
Members can view their contribution records anytime on their mobile devices, helping them track contribution status across different employers and better manage their MPF benefits.

One-stop Management of All MPF Accounts
Industry Scheme account information is consolidated on a single platform. Even if you change employers, you can access all relevant account information through one account, making MPF management more convenient and efficient.

Focus

How to Register for an eMPF Account

1. Download the eMPF mobile app
2. Prepare your Hong Kong Identity Card and complete identity verification through the Government's "iAM Smart" mobile application
3. Enter and confirm your personal information
4. Set up your login ID and password, activate your eMPF account, and complete the registration process

Finally, whether you are a member of the BEA (MPF) Industry Scheme or any other MPF scheme, we encourage you to register for eMPF and take full advantage of its digital services, making it easier to stay on top of your retirement savings.
