Important Notice:

Investment involves risks. The prices of securities fluctuate, sometimes dramatically. The price of a security may move up or down, and may become valueless. It is as likely that losses will be incurred rather than profit made as a result of buying and selling securities. It is possible that you may lose some or all of your investment as a result of conducting securities transaction. Information contained herein is for reference only. Past performance is not

indicative of future performance. It does not constitute any offer, solicitation, or recommendation for the purchase or sale of any investment products or the provision of investment services.

The value of your investment portfolio or your foreign currency or USD deposit will be subject to the risk of exchange rate fluctuation. If you choose to convert your investment portfolio or your foreign currency or USD deposit to other currencies at an exchange rate that is less favourable than the exchange rate in which you made your original conversion to build that investment portfolio or foreign currency or USD, you may suffer loss in principal.

Investing in foreign market securities carries foreign exchange risk and additional risks not generally associated with securities in the domestic market. The value or income (if any) of foreign market securities may be volatile due to the fluctuation of exchange rate and adversely affected by changes in many factors. Investors should read in detail the relevant Risk Disclosure Statements before making any investment decision.
