The Bank of East Asia, Limited

東亞銀行有限公司

(incorporated with limited liability in Hong Kong)

U.S.\$6,000,000,000

Medium Term Note Programme

Under the Medium Term Note Programme described in this Offering Circular (the “Programme”), The Bank of East Asia, Limited (東亞銀行有限公司 (“BEA” or the “Issuer”), subject to compliance with all relevant laws, regulations and directives, from time to time issue medium term notes (the “Notes”) and undated capital securities (the “Undated Capital Securities”). The Notes may include Senior (Preferred) Notes, Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes (each as defined under “Terms and Conditions of the Notes other than the Undated Capital Securities”) and Undated Capital Securities (as defined under “Terms and Conditions of the Undated Capital Securities”) issued by the Issuer, which may qualify as regulatory capital of the Issuer. The aggregate principal amount of Notes and Undated Capital Securities outstanding will not at any time exceed U.S.\$6,000,000,000 (or the equivalent in other currencies).

An investment in Notes or Undated Capital Securities issued under the Programme involves certain risks. For a discussion of these risks see “Investment Considerations”. The Notes and the Undated Capital Securities are complex and high risk financial instruments. There are risks inherent in the holding of any Notes or Undated Capital Securities, including for example in respect of the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes and the Undated Capital Securities including the risks in relation to their subordination and the circumstances in which Noteholders (as defined in “Terms and Conditions of the Notes other than the Undated Capital Securities”) or Securityholders (as defined in “Terms and Conditions of the Undated Capital Securities”) may suffer loss as a result of holding any Notes or Undated Capital Securities. Prospective investors should have regard to the factors described under the section headed “Investment Considerations” in this Offering Circular for a discussion of certain considerations to be taken into account in connection with an investment in the Notes or the Undated Capital Securities. Investors should have sufficient knowledge and experience in financial and business matters to evaluate the information contained in this Offering Circular and the relevant Pricing Supplement (as defined in “Summary of the Programme”) and the merits and risks of investing in the Notes or the Undated Capital Securities in the context of their financial position and particular circumstances. Investors also should have the financial capacity to bear the risks associated with an investment in the Notes or the Undated Capital Securities. Investors must not purchase the Notes or the Undated Capital Securities unless they understand and are able to bear risks associated with the Notes or the Undated Capital Securities.

The Notes or the Undated Capital Securities may be issued on a continuing basis to one or more of the dealers appointed under the Programme from time to time by the Issuer (each a “Dealer” and together the “Dealers”), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the “relevant Dealer” shall, in the case of an issue of Notes or Undated Capital Securities being (or intended to be) subscribed for by more than one Dealer, be to all Dealers agreeing to subscribe for such Notes or Undated Capital Securities.

Application has been made to The Stock Exchange of Hong Kong Limited (the “HKSE”) for the listing of the Programme under which Notes or Undated Capital Securities may be issued by way of debt issues to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”)) (“Professional Investors”) only during the 12-month period after the date of this Offering Circular on the HKSE. Separate application may be made for the listing of the Notes or the Undated Capital Securities on the HKSE. This document is for distribution to Professional Investors only.

Notice to Hong Kong investors: The Issuer confirms that the Notes and the Undated Capital Securities are intended for purchase by Professional Investors only and will be listed on the HKSE on that basis. Accordingly, the Issuer confirms that the Notes and the Undated Capital Securities are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

The HKSE has not reviewed the contents of this document, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this document to Professional Investors only have been reproduced in this document. Listing of the Programme, the Notes or the Undated Capital Securities on the HKSE is not to be taken as an indication of the commercial merits or credit quality of the Programme, the Notes, the Undated Capital Securities, the Issuer, the Group (as defined below) or quality of disclosure in this document. Hong Kong Exchanges and Clearing Limited and the HKSE take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

Notice of the aggregate principal amount of Notes or Undated Capital Securities, interest (if any) or distribution (if any) payable in respect of Notes or Undated Capital Securities (as applicable), the issue price of Notes or Undated Capital Securities and any other terms and conditions not contained herein which are applicable to each Tranche (as defined in “Summary of the Programme”) of Notes or Undated Capital Securities will be set out in a Pricing Supplement which, with respect to Notes or Undated Capital Securities to be listed on the HKSE, will be delivered to the HKSE, on or before the date of issue of the Notes or the Undated Capital Securities of such Tranche.

Each Series (as defined in “Summary of the Programme”) of Notes in bearer form will be represented on issue by a temporary global note in bearer form (each a “temporary Global Note”) or a permanent global note in bearer form (each a “permanent Global Note”) and, together with the temporary Global Notes, the “Global Notes”). Notes or Undated Capital Securities in registered form (“Registered Notes”) will be represented by registered certificates (each a “Certificate”), one Certificate being issued in respect of each Noteholder’s entire holding of Registered Notes of one Series. The Notes or the Undated Capital Securities of each Series in registered form will initially be represented by a permanent global certificate (each a “Global Certificate”) without interest coupons. The Global Notes and Global Certificates may be deposited on the relevant issue date (a) in the case of a Series intended to be cleared through Euroclear and/or Clearstream, with a common depository on behalf of Euroclear Bank S.A.M.V. (“Euroclear”) and Clearstream Banking S.A. (“Clearstream”) or with a sub-custodian for the Central Moneymarkets Unit Service, operated by the Hong Kong Monetary Authority (the “Monetary Authority”) (the “CMU”) and (b) in the case of a Series intended to be cleared through a clearing system other than, or in addition to, Euroclear and/or Clearstream and/or the CMU, or delivered outside a clearing system, as agreed between the Issuer and the relevant Dealer. The provisions governing the exchange of interests in Global Notes for other Global Notes and Definitive Notes (as defined in “Summary of Provisions Relating to the Notes and the Undated Capital Securities while in Global Form”) or Global Certificates for Certificates are described in “Summary of Provisions Relating to the Notes and the Undated Capital Securities while in Global Form”.

The Notes and the Undated Capital Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”) or with any securities regulatory authority of any state or other jurisdiction of the United States, and the Notes may include Bearer Notes that are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes and the Undated Capital Securities will not be offered, sold, or, in the case of Bearer Notes, delivered within the United States. Registered Notes are subject to certain restrictions on transfer, see “Subscription and Sale”.

MiFID II product governance / target market — The Pricing Supplement in respect of any Notes or Undated Capital Securities may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes or the Undated Capital Securities and which channels for distribution of the Notes or the Undated Capital Securities are appropriate. Any person subsequently offering, selling or recommending the Notes or the Undated Capital Securities (a “distributor”) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, “MiFID II”) is responsible for undertaking its own target market assessment in respect of the Notes or the Undated Capital Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “MiFID Product Governance Rules”), any Dealer subscribing for any Notes or Undated Capital Securities is a manufacturer in respect of such Notes or Undated Capital Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market — The Pricing Supplement in respect of any Notes or Undated Capital Securities may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes or the Undated Capital Securities and which channels for distribution of the Notes or the Undated Capital Securities are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes or the Undated Capital Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes or Undated Capital Securities is a manufacturer in respect of such Notes or Undated Capital Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

IMPORTANT — EEA RETAIL INVESTORS — If the Pricing Supplement in respect of any Notes or Undated Capital Securities includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes or the Undated Capital Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “Prospectus Regulation”). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the Notes or the Undated Capital Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT — UK RETAIL INVESTORS — If the Pricing Supplement in respect of any Notes or Undated Capital Securities includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes or the Undated Capital Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (“FSMA”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA (the “UK MiFIR”); or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA (the “UK Prospectus Regulation”). Consequently no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes or the Undated Capital Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Notes or Undated Capital Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation.

Singapore Securities and Futures Act Product Classification: In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), unless otherwise specified before an offer of Notes or Undated Capital Securities, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes or the Undated Capital Securities are “prescribed capital markets products” (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The Issuer may agree with any Dealer and the Trustee (as defined herein) that Notes or Undated Capital Securities may be issued in a form not contemplated by the terms and conditions of the Notes other than the Undated Capital Securities herein (the “Note Conditions”) and the terms and conditions of the Undated Capital Securities (the “Undated Capital Securities Conditions”), in which event a supplementary Offering Circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes or Undated Capital Securities.

Investing in the Notes and the Undated Capital Securities issued under the Programme involves certain risks and may not be suitable for all investors. Investors should have sufficient knowledge and experience in financial and business matters to evaluate the information contained in this Offering Circular and in the relevant Pricing Supplement and the merits and risks of investing in a particular issue of Notes or Undated Capital Securities in the context of their financial position and particular circumstances. Investors also should have the financial capacity to bear the risks associated with an investment in the Notes or the Undated Capital Securities. Investors should not purchase the Notes or the Undated Capital Securities unless they understand and are able to bear risks associated with the Notes or the Undated Capital Securities. Prospective investors should have regard to the factors described under the section headed “Investment Considerations” in this Offering Circular. Investors should be aware that the Undated Capital Securities are perpetual and have no fixed redemption date, and there are various other risks relating to the Undated Capital Securities, the Issuer, the Group and their respective business and jurisdictions of operations which investors should familiarise themselves with before making an investment in the Undated Capital Securities. See “Investment Considerations” in relation to the Undated Capital Securities beginning on page 32 of this Offering Circular.

Moody’s Investors Service, Inc. (“Moody’s”) is expected to rate Dated Subordinated Notes to be issued under the Programme “Baa2” and Undated Capital Securities to be issued under the Programme “Ba2”. S&P Global Ratings (“S&P”) is expected to rate Dated Subordinated Notes to be issued under the Programme “BBB-” and Undated Capital Securities to be issued under the Programme “BB”. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction, revision or withdrawal at any time by the assigning rating agency.

This Offering Circular is to be read in conjunction with all documents which are incorporated herein by reference (see “Documents Incorporated by Reference”).

MiFID II product governance / target market — The Pricing Supplement in respect of any Notes or Undated Capital Securities may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes or the Undated Capital Securities and which channels for distribution of the Notes or the Undated Capital Securities are appropriate. A distributor should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes or the Undated Capital Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance Rules, any Dealer subscribing for any Notes or Undated Capital Securities is a manufacturer in respect of such Notes or Undated Capital Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

A distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Notes or the Undated Capital Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes or Undated Capital Securities is a manufacturer in respect of such Notes or Undated Capital Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Important — EEA Retail Investors — If the Pricing Supplement in respect of any Notes or Undated Capital Securities includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes and the Undated Capital Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by the PRIIPs Regulation for offering or selling the Notes or the Undated Capital Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or the Undated Capital Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Important — UK Retail Investors — If the Pricing Supplement in respect of any Notes or Undated Capital Securities includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes and the Undated Capital Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom. Admission to the HKSE and quotation of any Notes or Undated Capital Securities on the HKSE is not to be taken as an indication of the merits of the Programme, the Notes or the Undated Capital Securities or the Issuer or the Group. In making an investment decision, investors must rely on their own examination of the Issuer, the Group and the terms of the offering, including the merits and risks involved. Neither this Offering Circular nor any other information supplied in connection with the Programme or the issue of any Notes or Undated Capital Securities constitutes an offer or invitation by or on behalf of the Issuer, any Dealer, any Arranger or the Trustee or the Agents to any person to subscribe for or to purchase any Notes or Undated Capital Securities.

Neither the delivery of this Offering Circular nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer or the Group since the date hereof or the date upon which this Offering Circular has been most recently amended or supplemented or that there has been no adverse change in the financial position of the Group since the date hereof or the date upon which this Offering Circular has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Offering Circular and the offering or sale of the Notes or the Undated Capital Securities in certain jurisdictions may be restricted by law. Persons into whose possession this Offering Circular comes are required by the Issuer, the Arranger and the Dealers to inform themselves about and to observe any such restriction.

The Notes or the Undated Capital Securities are being offered and sold outside the United States in reliance on Regulation S (“**Regulation S**”) under the Securities Act. For a description of these and certain further restrictions on offers, sales and transfers of Notes or Undated Capital Securities and distribution of this Offering Circular, see “*Subscription and Sale*”.

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes or Undated Capital Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. None of the Issuer, any Dealer, the Arranger, the Trustee or the Agents makes any representation to any investor in the Notes or the Undated Capital Securities regarding the legality of its investment under any applicable law. The distribution of this Offering Circular and the offer or sale of Notes or Undated Capital Securities may be restricted by law in certain jurisdictions.

None of the Issuer, the Arranger, the Dealers, the Trustee or the Agents represents that this Offering Circular may be lawfully distributed, or that any Notes or Undated Capital Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Pricing Supplement, no action has been taken by the Issuer, the Dealers, the Arranger, the Trustee or the Agents which is intended to permit a public offering of any Notes or Undated Capital Securities or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes or Undated Capital Securities may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes or Undated Capital Securities may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes or Undated Capital Securities. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes or Undated Capital Securities in the United States, the EEA, the United Kingdom, Hong Kong and Singapore. To the fullest extent permitted by law, none of the Arranger, the Dealers, the Trustee or the Agents accept any responsibility for the contents of this Offering Circular or for any other statement, made or purported to be made by the Arranger or a Dealer or the Trustee or any Agent or on its behalf in connection with the Issuer, the Group or the issue and offering of the Notes or the Undated Capital Securities. The Arranger, each Dealer, the Trustee and each Agent accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Offering Circular or any such statement. Neither this Offering Circular nor any financial statements of the Issuer or the Group are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Arranger, the Dealers, the Trustee or the Agents that any recipient of this Offering Circular or any financial statements of the Issuer or the Group should purchase the Notes or the Undated Capital Securities. Each potential investor of Notes or Undated Capital Securities should determine for itself the relevance of the information contained in this Offering Circular and its purchase of Notes or Undated Capital Securities should be based upon such investigation as it deems necessary. None of

the Arranger, the Dealers, the Trustee or the Agents undertakes to review the financial condition or affairs of the Issuer during the life of the arrangements contemplated by this Offering Circular nor to advise any investor or potential investor in the Notes or the Undated Capital Securities of any information coming to the attention of any of the Arranger, the Dealers, the Trustee or the Agents.

From time to time, in the ordinary course of business, certain of the Dealers and their affiliates have provided advisory and investment banking services, and entered into other commercial transactions with the Issuer and its affiliates, including commercial banking services, for which customary compensation has been received. It is expected that the Dealers and their affiliates will continue to provide such services to, and enter into such transactions with, the Issuer and its affiliates in the future.

The Dealers or certain of their respective affiliates may purchase the Notes or the Undated Capital Securities and be allocated Notes or Undated Capital Securities for asset management and/or proprietary purposes but not with a view to distribution. References herein to the Notes or the Undated Capital Securities being offered should be read as including any offering of the Notes or the Undated Capital Securities to the Dealers and/or their respective affiliates acting in such capacity. In the ordinary course of their various business activities, the Dealers and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. In this Offering Circular, where information has been presented in thousands or millions of units, amounts may have been rounded up or down especially when rounding into another currency. Certain monetary amounts in this Offering Circular have been subject to rounding adjustments. Accordingly, figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

The Hong Kong dollar has been linked to the U.S. dollar at the rate of HK\$7.80 to U.S.\$1.00 since 17 October 1983 (the “**Linked Exchange Rate System**”). In May 2005, the Monetary Authority broadened the 22-year old trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar.

For convenience only, all Hong Kong dollar amounts in this Offering Circular have been translated into U.S. dollar amounts at the rate of U.S.\$1.00 = HK\$7.80. Such translations should not be construed as representations that the Hong Kong dollar amounts referred to could have been, or could be, converted into U.S. dollars at that or any other rate or at all.

INDUSTRY AND MARKET DATA

Market data and certain industry forecasts and statistics used throughout this Offering Circular have been obtained from, among other sources, internal surveys, market research, publicly available information and industry publications. Industry publications generally state that the information that they contain has been obtained from sources believed to be reliable but that the accuracy and completeness of that information is not guaranteed. Similarly, internal surveys, industry forecasts and market research, while believed to be reliable, have not been independently verified, and none of the Issuer, the Dealers, the Arranger, the Trustee or the Agents or their respective affiliates, directors, officers, employees, representatives, advisers, agents and each person who controls any of them makes any representation as to the correctness, accuracy or completeness of that information. Such information may not be consistent with other information compiled. In addition, third-party information providers may have obtained information from market participants and such information may not have been independently verified.

FINANCIAL INFORMATION

The consolidated annual financial statements of the Group for the year ended 31 December 2019 (the “**2019 Financial Statements**”) and the consolidated annual financial statements of the Group for the year ended 31 December 2020 (the “**2020 Financial Statements**”), which are included elsewhere in this Offering Circular, were prepared and presented in accordance with the Hong Kong Financial Reporting Standards (“**HKFRS**”) and have been audited by KPMG.

The unaudited consolidated interim financial statements of the Group for the six months ended 30 June 2021 (the “**2021 Interim Financial Statements**”), which are included elsewhere in this Offering Circular, were prepared and presented in accordance with HKFRS and have been reviewed by KPMG. Consequently the 2021 Interim Financial Statements should not be relied upon by potential investors to provide the same quality of information associated with information that has been subject to an audit by an independent auditor or accountant. None of the Arranger or the Dealers or any of their respective affiliates, directors, officers or advisers makes any representation or warranty, express or implied, regarding the accuracy or sufficiency of such unaudited financial statements for an assessment of, and potential investors must exercise caution when using such data to evaluate the Issuer’s financial condition and results of operations. The 2021 Interim Financial Statements should not be taken as an indication of the expected financial condition or results of operations of the Issuer for the full financial year ended 31 December 2021.

The Issuer adopted HKFRS 16 — Leases (“**HKFRS 16**”) on 1 January 2019. The Issuer has applied HKFRS 16 using the modified retrospective approach, under which the comparative information presented for the year ended 31 December 2018 has not been restated.

Furthermore, the Issuer has initially adopted the Amendments to HKFRS 9 — Financial Instruments, HKAS 39 — Financial Instruments: Recognition and Measurement and HKFRS 7 — Financial Instruments: Disclosures (the “**Amendments to HKFRS 9, HKAS 39 and HKFRS 7**”) in respect of interest rate benchmark reform and early adopted the Amendment to HKFRS 16 in respect of COVID-19-Related Rent Concessions (“**Amendment to HKFRS 16**”) from 1 January 2020. As at 31 December 2020, the Issuer believes it is too early to reliably estimate when interest rate benchmark uncertainty will be resolved for all benchmarks in scope of the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 and so the temporary exceptions in respect of the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 applied to the Group’s hedge accounting relationships that reference benchmarks which are subject to reform or replacement. The Amendment to HKFRS 16 exempts lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications. The Group has early adopted the Amendment to HKFRS 16 to all rent concessions that met certain conditions and as such certain rent concessions were recognised as a credit to variable lease payments that were not included in the measurement of lease liabilities. Please see note 3 to the 2020 Financial Statements for further information.

Save for the 2019 Financial Statements and the 2020 Financial Statements, the financial information contained in this Offering Circular does not constitute specified financial statements (as defined in the Companies Ordinance (Cap. 622) of Hong Kong (the “**CO**”)) in relation to BEA. BEA has delivered its specified financial statements for the years ended 31 December 2018, 2019 and 2020 to the Registrar of Companies of Hong Kong. KPMG, the auditors of BEA, has issued auditor’s reports on the specified financial statements in relation to BEA for the financial years ended 31 December 2018, 2019 and 2020. Such reports were not qualified or otherwise modified, did not refer to any matters to which the auditor drew attention by way of emphasis without qualifying the reports and did not contain any statement under Sections 406(2) or 407(2) or (3) of the CO.

FORWARD-LOOKING STATEMENTS

This Offering Circular includes statements that are, or may be deemed to be, “*forward-looking statements*”. These forward-looking statements can be identified by the use of forward-looking terminology, including the terms “believes”, “estimates”, “intends”, “may”, “will” or “should” or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Offering Circular and include statements regarding the intentions, beliefs or current expectations of the Issuer concerning, among other things, the results of operations, financial condition, liquidity, prospects, growth, strategies and the industries in which the Group operates. By their nature, forward-looking statements are subject to numerous assumptions, risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Forward-looking statements are not guarantees of future performance and that the Group’s actual results of operations, financial condition and liquidity, and the development of the industries in which the Group operates, may differ materially from those made in or suggested by the forward-looking statements contained in this Offering Circular. In addition, even if the results of operations, financial condition and liquidity and the development of the industries in which the Group operates are consistent with the forward-looking statements contained in this Offering Circular, those results or developments may not be indicative of results or developments in subsequent periods. The Issuer and its directors, employees and agents respectively do not assume: (i) any obligation or undertaking to release any updates or revisions to any forward-looking statements contained herein to reflect any change in the Issuer’s expectation with regard thereto or any change or events, conditions or circumstances, on which any such statements were based; or (ii) any liability in the event that any of the forward-looking statements does not materialise or turns out to be incorrect.

The cautionary statements set forth above should be considered in connection with any subsequent written or oral forward-looking statements that the Issuer or persons acting on its behalf may issue. The Issuer does not undertake any obligation to review or confirm analysts’ expectations or estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this Offering Circular.

The following list includes some, but not necessarily all, of the factors that may cause actual results to differ from those anticipated or predicted:

- changes in the general operating environment of the Hong Kong or Mainland China banking industry;
- changes in general economic, market, business and regulatory conditions in Hong Kong, Mainland China, the United States and other countries;
- changes in the monetary and credit policies of the United States, Hong Kong and Mainland China;

- the performance of the real property and financial markets in Hong Kong and Mainland China.

Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under “*Investment Considerations*”.

Any forward-looking statements that the Issuer make in this Offering Circular speak only as at the date of such statements, and the Issuer undertakes no obligation to update such statements. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, and should only be viewed as historical data.

DOCUMENTS INCORPORATED BY REFERENCE

The Issuer hereby incorporates by reference (i) each relevant Pricing Supplement, (ii) the most recently published audited or reviewed consolidated financial statements of the Issuer and/or the Group published from time to time after the date of this Offering Circular, in each case together with any audit or review reports prepared in connection therewith, and (iii) all amendments and supplements from time to time to this Offering Circular, each of which shall be deemed to be incorporated in, and to form part of, this Offering Circular and which shall be deemed to modify or supersede the contents of this Offering Circular to the extent that a statement contained in any such document is inconsistent with the contents of this Offering Circular.

Any documents themselves incorporated by reference in the documents incorporated by reference in this Offering Circular shall not form part of this Offering Circular.

Any statement contained in this Offering Circular or in a document incorporated by reference into this Offering Circular will be deemed to be modified or superseded for purposes of this Offering Circular to the extent that a statement contained in any such subsequent document modifies or supersedes that statement. Any statement that is modified or superseded in this manner will no longer be a part of this Offering Circular, except as modified or superseded.

Copies of all such documents which are so deemed to be incorporated in, and to form part of, this Offering Circular will be available for inspection free of charge at all reasonable times (upon prior written request and satisfactory proof of holding and identity) during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) from the office of the Issuer and the specified offices of the Paying Agents set out at the end of this Offering Circular, in the case of any inspection at the specified office of any Paying Agent, subject to such Paying Agent having first been provided with copies of all such documents by the Issuer.

Save for the Issuer’s audited consolidated financial statements as at and for the years ended 31 December 2019 and 2020, the financial information contained in this Offering Circular does not constitute BEA’s specified financial statements (as defined in the CO) for the financial years ended 31 December 2019 or 2020 but, in respect of financial information relating to a full financial year, is derived from those specified financial statements. BEA has delivered the specified financial statements for the financial years ended 31 December 2019 and 2020 to the Registrar of Companies of Hong Kong. BEA’s auditor has issued unqualified reports on the specified financial statements for both years.

SUPPLEMENTAL OFFERING CIRCULAR

The summary below is only intended to provide a limited overview of information described in more detail elsewhere in this Offering Circular. As it is a summary, it does not contain all of the information that may be important to investors and terms defined elsewhere in this Offering Circular shall have the same meanings when used in this summary. Prospective investors should therefore read this Offering Circular in its entirety.

OVERVIEW

Incorporated in 1918, BEA is a leading Hong Kong-based financial services group listed on the HKSE.

The Group provides a comprehensive range of corporate banking, personal banking, wealth management and investment services. BEA (China) provides comprehensive RMB and foreign currency banking services to all customers. Services include personal banking and wealth management, loans and advances, debit cards and credit cards, Cyberbanking and cash management, private banking, investment and derivative products, agency services for life and general insurance, remittance and settlement, RMB cross-border business, trade finance facilities, supply chain financing, standby letters of credit, bank guarantees and distribution of local mutual funds.

STRATEGY

BEA's core objectives are to strengthen its position and to further develop its domestic franchise as the largest independent local bank in Hong Kong, and to further diversify its operations and expand its operations in Mainland China and other overseas countries. The Group will continue to maintain its growth strategy for its businesses and operations and, at the same time, keep up the process of enhancing its total shareholder return. Given the increasingly close economic connection among Mainland China, Hong Kong and the countries of Southeast Asia, the Group will continue to integrate its services across Hong Kong, Mainland China and international networks and capitalise new business opportunities in the Guangdong — Hong Kong — Macau Greater Bay Area (the “**Greater Bay Area**”). The key components of the Group's strategy are below.

- Further expansion in Mainland China and other overseas countries;
- Development of green and sustainable finance;
- Diversification of non-interest income;
- Enhancement of profitability via active capital management;
- Transformation of its branch network;
- Organic growth and partnership; and
- Focus on enhancing operational efficiency.

SUMMARY FINANCIAL INFORMATION

The summary audited consolidated financial information of the Issuer as at and for the years ended 31 December 2018, 2019 and 2020 set forth below is derived from the 2019 Financial Statements and the 2020 Financial Statements. The 2019 Financial Statements and the 2020 Financial Statements were prepared and presented in accordance with HKFRS and have been audited by KPMG.

The summary unaudited consolidated interim financial information of the Issuer as at and for the six months ended 30 June 2020 and 2021 set forth below is derived from the 2021 Interim Financial Statements. The 2021 Interim Financial Statements were prepared and presented in accordance with HKFRS and have been reviewed by KPMG. Consequently the 2021 Interim Financial Statements should not be relied upon by potential investors to provide the same quality of information associated with information that has been subject to an audit by an independent auditor or accountant. None of the Arranger or the Dealers or any of their respective affiliates, directors, officers or advisers makes any representation or warranty, express or implied, regarding the accuracy or sufficiency of such unaudited financial statements for an assessment of, and potential investors must exercise caution when using such data to evaluate the Issuer's financial condition and results of operations. The 2021 Interim Financial Statements should not be taken as an indication of the expected financial condition or results of operations of the Issuer for the full financial year ended 31 December 2021.

The Issuer adopted HKFRS 16 on 1 January 2019. The Issuer has applied HKFRS 16 using the modified retrospective approach, under which the comparative information presented for the year ended 31 December 2018 has not been restated.

Furthermore, the Issuer has initially adopted the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 in respect of interest rate benchmark reform and early adopted the Amendment to HKFRS 16 in respect of COVID-19-Related Rent Concessions from 1 January 2020. As at 31 December 2020, the Issuer believes it is too early to reliably estimate when interest rate benchmark uncertainty will be resolved for all benchmarks in scope of the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 and so the temporary exceptions in respect of the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 applied to the Group's hedge accounting relationships that reference benchmarks which are subject to reform or replacement. The Amendment to HKFRS 16 exempts lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications. The Group has early adopted the Amendment to HKFRS 16 to all rent concessions that met certain conditions and as such certain rent concessions were recognised as a credit to variable lease payments that were not included in the measurement of lease liabilities. Please see note 3 to the 2020 Financial Statements for further information.

The information set out below should be read in conjunction with, and is qualified in its entirety by reference to, the relevant consolidated financial statements of the Issuer, including the notes thereto, incorporated in this Offering Circular by reference.

INVESTMENT CONSIDERATIONS

Prospective investors should carefully take into account the following considerations, in addition to the other information contained in this Offering Circular, before investing in the Notes or the Undated Capital Securities. The occurrence of one or more events described below could have an adverse effect on the Group's business, financial condition, or results of operations, and could affect its ability to make payments of principal, premium and/or interest or distribution (as the case may be) (if any) under the Notes or the Undated Capital Securities. The following considerations and uncertainties may not be exhaustive. Additional considerations and uncertainties not currently known to BEA, or which BEA currently deems immaterial, may also have an adverse effect on an investment in the Notes or the Undated Capital Securities.

CONSIDERATIONS RELATING TO THE GROUP

Hong Kong Economy

The Group conducts most of its operations⁽¹⁾ and generates most of its revenue in Hong Kong. The Group's performance and the quality and growth of its assets are necessarily dependent on the overall economy and the local social and political stability in Hong Kong. As a result, any downturn in the Hong Kong economy or any instability in the local social, political, legal and regulatory landscape of Hong Kong which may arise from events beyond the Group's control, in particular if significant and prolonged, may adversely affect the Group's business, financial condition and the results of its operations. Further, civil unrest and an uncertain political environment may impact the Hong Kong economy and result in an economic slowdown. Protests, demonstrations or rioting causing disruption to businesses, commercial activities and transportation systems, such as the recent escalation of the political tensions due to the implementation of the national security legislation, the anti-extradition bill protests since June 2019, which are outside the control of the Group may adversely impact consumer and investor confidence, dampen consumer spending and affect inbound tourism to Hong Kong, which in turn may have a negative impact on the local economy. In addition, any spread of communicable diseases or public health emergencies may impact the Hong Kong economy. For example, the ongoing wide spread of the novel coronavirus disease, COVID-19, since January 2020 has caused severe disruptions to business and economic activities in Hong Kong, the PRC and globally and restricted cross-border travel. Consumer confidence or consumer sentiment in Hong Kong and elsewhere has been materially impacted due to the continued escalation of the COVID-19 pandemic. The Group's borrowers may experience difficulties meeting their obligations or seek to forebear payment on or refinance their loans for lower rates. While the Government of HKSAR ("HKSARG") has introduced certain economic relief measures to support the Hong Kong economy, there can be no assurance that such measures will have the intended effects. There can be no assurance that further protests, demonstrations or rioting will not occur in the future and any significant or sudden economic slowdown, recession or other adverse changes or developments in the local social and economic environment or political arrangements in Hong Kong may adversely affect the Group's business, financial condition, results of operations, profitability and prospects.

The Hong Kong economy is sensitive to global economic conditions and depends in part upon economic performance of the United States, the PRC and other developed countries. It is impossible to predict how the Hong Kong economy will develop in the future and whether it may slow down due to a global crisis or experience a financial crisis. For example, the United Kingdom's exit from the European Union, geopolitical events such as continued tensions in the Middle East and the Korean peninsula, as well as escalation of tension between the United States and the PRC over trade policies, political and other issues, the significant decrease in the crude oil price due to COVID-19 pandemic related international-wide travel restrictions and the 2020 Russia-Saudi Arabia oil price war have resulted in volatility in global financial markets and significantly undermined the stability of the

⁽¹⁾ Operations based on size of total assets.

global economies. In addition, more recently, the ongoing COVID-19 pandemic has adversely affected global financial, foreign exchange, commodity and energy markets. In December 2019, the first case of a novel strain of coronavirus, COVID-19, was identified. The pandemic has since spread globally and there have been increased initial infection and fatality rates across the world. On 11 March 2020, the World Health Organization declared the COVID-19 outbreak a pandemic. The COVID-19 pandemic and policies implemented by governments to deter the spread of the disease have had and may continue to have an adverse effect on consumer confidence and the general economic conditions which the Group's business is subject to. Governments of many countries (including the PRC) have declared a state of emergency, closed their borders to international travellers and issued stay-at-home orders with a view to containing the pandemic. There can be no assurance that such measures will be effective in ending or deterring the spread of COVID-19. As COVID-19 continues to spread globally, many more countries may be affected, which may result in the extension or implementation of further restrictive measures. The resultant disruptions to the supply chain and reduced levels of consumption, commercial activities and industrial production in the affected countries may result in an economic slowdown in such economies which, if prolonged, could cause a global recession. Furthermore, the COVID-19 pandemic has caused stock markets worldwide to lose significant value since February 2020. Market interest rates have declined significantly, with the 10-year United States Treasury bond falling below 1.00 per cent. for the first time on 3 March 2020. As the situation of the COVID-19 pandemic is still evolving, the heightened uncertainties surrounding the pandemic may pose a material adverse impact on the Group's business, financial condition, results of operations and prospects.

While central banks of different countries, including the Federal Reserve Board of Governors of the United States (the "**Federal Reserve**"), have cut policy rates and/or announced stimulus packages, and national governments have proposed or adopted various forms of economic relief to contain the economic impacts of the COVID-19 pandemic and stabilise the markets, there can be no assurance that such monetary and fiscal policy measures will have the intended effects or that a global economic downturn will not occur or market volatilities will not persist. The outlook for the global economy and financial markets remain uncertain. If the economic conditions were to worsen or the economic recovery fails to continue or any economic downturn or market volatilities persist, there can be no assurance that the Hong Kong economy or the Group's business, financial condition and results of operations will not be adversely affected.

Competition

The banking industry in Hong Kong is a mature market, and the Group is subject to significant and increasing competition from many other Hong Kong-incorporated banks and Hong Kong branches of international and PRC banks, including competitors that have significantly more financial and other capital resources, higher market share and stronger brand recognition than the Group. The international and local banks and niche players operating in Hong Kong compete for substantially the same customers as the Group. There is a limited market, especially for retail banking products such as investment and insurance products, home mortgage loans, credit cards, personal loans and transport lending businesses. There can be no assurance that the Group will be able to compete effectively in the face of such competition. Intense competition may make it difficult for the Group to increase the size of its loan portfolio and deposit base and may cause intense pricing competition. There can be no assurance that increased competition will not have a material adverse effect on the Group's business, financial condition or results of operations.

As a result of the intensified competition among banks, BEA has experienced downward pressure on its margins in recent years. To counter the effects of increased competition, BEA has actively pursued a strategy of diversifying its income sources by focusing on increasing its fee-based income, introducing innovative products and, at the same time, improving the cost efficiency of its operations. However, there can be no assurance that BEA will be able to compete successfully in the mature Hong Kong banking market and sustain its profitability in future.

The banking industry in Mainland China is also highly competitive. The market has been dominated by the large state-owned commercial banks, which have long operating histories, well-established branch networks, large customer bases and better brand recognition. Besides, the joint-stock commercial banks and the city commercial banks have been aggressive in expanding their business for increasing their market share in recent years.

Moreover, the banking industry in Mainland China has been facing more challenges in recent years as the PRC government implemented a series of measures to liberalise the banking industry. BEA expects competition not only from state-owned commercial banks, joint-stock commercial banks and city commercial banks, but also from foreign commercial banks whose geographical presence, customer base and business scope have become less restrictive following the opening up of the banking sector in Mainland China. Besides, China Banking and Insurance Regulatory Commission (“CBIRC”) encourages and guides private capital to enter the banking industry. This has intensified the competition of the banking sector in Mainland China. Furthermore, the rapid development of internet finance, financial disintermediation and shadow banking have brought new challenges to the banking sector in business areas of deposits, payment and settlement, lending as well as acquisition and retention of customers.

In addition, the PRC’s Closer Economic Partnership Arrangement (the “CEPA”) with Hong Kong and Macau allows smaller banks from these jurisdictions to operate in Mainland China, which has also increased competition in the banking industry in Mainland China. Many of these banks compete with the Group for the same customer base and some of them may have greater financial, management and technical resources than the Group.

The intensified competition in the markets where the Group operates may adversely affect the Group’s business and prospects, the effectiveness of its strategies, its results of operations and financial condition by potentially:

- reducing the growth and quality of the Group’s loan and deposit portfolios and other products and services;
- reducing the Group’s interest income and net interest margin;
- reducing the Group’s fee and commission income;
- increasing the Group’s interest and operating expenses; and
- increasing competition for qualified managers and employees.

Expansion in the Hong Kong and Mainland China Markets

The Group’s strategy involves expansion of its business in the Hong Kong and Mainland China markets organically and through mergers and acquisitions (“M&A”) and alliances, if suitable opportunities arise. BEA (China) obtained the Financial Institution Business Permit from CBIRC on 20 March 2007 and the business licence from State Administration for Industry and Commerce (“SAIC”) on 29 March 2007 as a locally-incorporated bank. BEA (China) officially commenced business on 2 April 2007. The establishment of a locally-incorporated bank is one of the prerequisites for providing RMB retail banking service in Mainland China.

Further expansion into Mainland China may present the Group with new risks and challenges, such as interest rate liberalisation, slowdown in credit growth, margin compression, asset quality deterioration, more stringent and changing regulatory requirements, and new competition from internet finance players and online money market funds. Expansion and integration of new M&A and alliances in the Hong Kong and Mainland China markets may also require significant financial, operational, administrative and management resources. The success of any M&A and alliances will depend in part on the ability of BEA’s management to integrate the operations of newly acquired

businesses with its existing operations and, where applicable, to integrate various departments, systems and processes. Consequently, the Group's ability to implement its business strategy may be constrained and the timing of such implementation may be affected due to the demand placed on existing resources by the process. There can be no assurance that the acquired entities will achieve the level of performance that BEA anticipates or that the projected demand for and margins of the Group's products and services will be realised. The failure to manage expansion effectively could have an adverse effect on the Group's business, financial condition and results of operations.

Changes in Regulations in the Mainland China Market

The regulations which apply to the Group's business in the PRC are extensive, complex and frequently changing. The PRC banking regulatory regime has been evolving continuously. Some of the changes in rules and regulations may result in additional costs or restrictions on BEA (China)'s operations and business expansion in Mainland China.

BEA (China)'s business and operations are directly affected by the changes in laws, rules, regulations or policies relating to the PRC banking industry. As some of the banking laws, rules, regulations or policies are relatively new, there is uncertainty regarding their interpretation and application. If BEA (China) fails to comply with any of these laws, rules, regulations or policies, it may result in enforcement actions, which may include fines to be imposed on BEA (China), restrictions on its business activities, or in extreme cases, suspension or revocation of its business licences, which would materially and adversely affect BEA (China)'s operations, reputation, business and financial position.

BEA (China) operates in a highly regulated industry. The principal regulators of the PRC banking industry include CBIRC, the People's Bank of China ("PBOC") and the State Administration of Foreign Exchange ("SAFE"). CBIRC requires all commercial banks in the PRC to maintain certain financial ratios, including but not limited to liquidity coverage ratio ("LCR"), liquidity ratio, net stable funding ratio ("NSFR") and capital adequacy ratio ("CAR").

In accordance with the amended Commercial Banking Law of the PRC, the previous requirement that all commercial banks in the PRC should maintain a loan-to-deposit ratio of not more than 75 per cent. has been removed and loan-to-deposit ratio has been changed from a supervisory indicator to a liquidity monitoring indicator. However, CBIRC will use other indicators, such as LCR, liquidity ratio, and NSFR to monitor the liquidity status of commercial banks. If BEA (China) fails to fulfill these mandatory requirements, it may result in restrictions on its business expansion imposed by CBIRC, such as suspension of new business application and establishment of new branch or sub-branch.

In addition, CBIRC issues regulations and guidelines governing the capital management of all commercial banks in the PRC from time to time. If the regulatory capital requirements, liquidity restrictions or ratios applicable to BEA (China) increase in the future, any failure of BEA (China) to comply with the relevant requirements, restrictions or ratios could result in administrative actions or sanctions, which may have a material adverse impact on the Group's business, financial condition and results of operations. A shortage of available capital might also restrict the Group's opportunities for expansion.

Dependence on Key Personnel and Recruitment

The Group's ability to sustain its growth and meet future business demands depends on its ability to attract, recruit and retain suitably skilled and qualified staff. Given the Group's rapid expansion in the Mainland China market, there can be no assurance that the Group will be able to recruit staff in sufficient numbers or with sufficient experience, or that pressure on recruitment will not lead to significant increases in the Group's employment costs. Competition for suitably skilled and qualified staff is particularly acute in Mainland China. Any of these factors could adversely affect the Group's business, financial condition and results of operations.

In addition, the Group also faces strong competition to retain skilled and qualified staff, and the loss of key personnel or any inability to manage attrition levels in different employee categories may have an adverse effect on the Group's business, its ability to grow, increased employment and training and development costs and its control over various business functions. There can be no assurance that there will be no departures of personnel from the senior management of BEA and that, if future departures do occur, the Group's business and operations will not be adversely affected.

Expanding Range of Products and Services Offered in Mainland China

In order to meet the needs of its customers and to expand its business, the Group has broadened the range of products and services offered by BEA (China). Expansion of the business of the Group in Mainland China is subject to certain risks and challenges, including:

- the Group may not be able to obtain regulatory approval for new products or services;
- the Group's new products and services may not be accepted by customers or are not able to generate the Group's expected return;
- the Group may have difficulties in recruiting experienced professionals or qualified personnel to offer new products and services due to keen competition in the labour market; and
- the Group may not be able to enhance its risk management capabilities and information technology systems to support a broader range of products and services.

If the Group is not able to achieve the intended results with respect to its new products and services to be offered in Mainland China, this could have an adverse effect on the business, financial condition and results of operations of the Group.

Exposure to the Mainland China Market

As at 30 June 2021, BEA's wholly-owned subsidiary, BEA (China), headquartered in Shanghai, operated 30 branches in Shanghai, Beijing, Tianjin, Harbin, Dalian, Shenyang, Qingdao, Shijiazhuang, Zhengzhou, Urumqi, Hangzhou, Nanjing, Suzhou, Chengdu, Chongqing, Wuhan, Hefei, Xi'an, Shenzhen, Shenzhen Qianhai, Guangzhou, Zhuhai, Xiamen, Changsha, Kunming, Ningbo, Jinan, Fuzhou, Nanning and Nanchang as well as 46 sub-branches in the PRC.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, loans and advances to customers made by the Group's operations in Mainland China collectively amounted to approximately HK\$149,918 million, HK\$131,564 million, HK\$127,183 million and HK\$140,442 million, respectively, representing approximately 29.9 per cent., 25.8 per cent., 24.7 per cent. and 26.2 per cent., respectively, of the Group's total loans and advances to customers. The value of the Group's advances in Mainland China, as well as its advances to companies that have business interests in Mainland China, may be influenced by the general state of the PRC economy and may be affected by significant political, social or legal uncertainties or changes in Mainland China (including inflation rate, exchange controls and exchange rate, and the impact on the changes in regulations governing banking and other businesses). As at 31 December 2018, 2019 and 2020 and 30 June 2021, the impaired loan ratio of the Group's advances in Mainland China was approximately 1.7 per cent., 3.8 per cent., 3.1 per cent. and 2.6 per cent., respectively. The high impaired loan ratio of the Group's advances in Mainland China as at these dates was as a result of, among other factors, the economic slowdown in the PRC resulting in deterioration of the asset quality in Mainland China. While the Group has tightened its credit policies such as remaining cautious on extending credit and continuing to actively manage the impaired loan portfolio and has put more focus on lending to state-owned enterprises and large-scale enterprises, there can be no assurance that the impaired loan ratio of the Group's advances in Mainland China will not increase in the future, nor can there be any assurance that the Group's

continued exposure to Mainland China or its strategy to grow its business in Mainland China will not have a negative impact on the Group's earnings or an adverse effect on the Group's business, financial condition or results of operations or that the economic and political environment in Mainland China will remain favourable to the Group's business in Mainland China in the future.

Concentration Risk — Exposure to the Property Market

The Group has significant direct and indirect exposure to the property market particularly in Hong Kong and Mainland China through its portfolio of property related advances and property used as collateral.

As at 30 June 2021, the Group's property related loans (including property developments and property investment advances) amounted to approximately HK\$293,191 million, representing approximately 54.8 per cent. of the Group's total loan portfolio.

The Hong Kong and the PRC property markets are highly cyclical and property prices in general have been volatile. For example, Hong Kong residential property prices, after reaching record highs in 1997, fell significantly as a result of the Asian economic downturn. In addition, while the Hong Kong property market showed improvement during the period from 2004 to the first half of 2008, property prices in Hong Kong declined in the second half of 2008 and early 2009, and have generally increased since the second half of 2009 despite a slight fall in the second half of 2018 and early 2019. Despite the introduction by the Monetary Authority of prudential measures for mortgage lending and the implementation by HKSARG of cooling measures from time to time as means to address the increasing risk of property price bubble, property prices in Hong Kong continued to follow an upward trend in recent years.

Property prices in Hong Kong are affected by a number of factors, including, among other things, the supply of, and demand for, comparable properties, the rate of economic growth in Hong Kong, the policies of HKSARG, Hong Kong interest rate movements which are largely dependent on the timing and pace of the U.S. rate hikes, political and economic developments in the PRC, and the relationship between the PRC, Hong Kong and other countries. In Hong Kong, the Monetary Authority has implemented regulatory measures in recent years to mitigate risks in residential mortgage lending in the banking sector. This has included prudential measures to reduce loan-to-value ratio caps for mortgages of high end properties with a value of at least HK\$10 million to 50 per cent. In addition, the Financial Secretary of HKSARG has been increasing the amount of stamp duty payable on various real estate purchases. HKSARG has also tried to increase land supply and the supply of real estate. As the introduction of these measures are subject to policy changes reflecting domestic political or economic circumstances, there can be no assurance that HKSARG will not introduce further measures in the future that may have a significant impact on the Hong Kong property market, which may in turn have a negative impact on the Group's asset quality or an adverse effect on the Group's business.

In the PRC, a build-up in inflationary pressure, resulting from changes in the external economic and political environment and a prolonged period of negative interest rates, fuelled a strong housing demand for wealth preservation during 2010. From time to time, the PRC government has launched various initiatives to rein in excessive appreciation in housing prices and as a result of these regulatory measures, the property market in the PRC has showed significant volatility in recent years.

Accordingly, any prolonged decrease or fluctuations in property values or liquidity of the Hong Kong and the PRC property markets could adversely affect the Group's business, financial condition and results of operations.

Liquidity and Funding Sources

The Group endeavours to diversify its funding sources in order to maintain the stability of its liquidity. However, the majority of the Group's funding requirements are met in the form of deposits from customers. In particular, as at 31 December 2018, 2019 and 2020 and 30 June 2021, approximately 81.6 per cent., 83.3 per cent., 82.6 per cent. and 83.8 per cent., respectively, of the Group's deposits from customers had a remaining maturity of three months or less. Historically, a substantial portion of such deposits from customers has been rolled over upon maturity and these deposits have been, in essence, a stable source of long-term funding. However, there can be no assurance that this pattern will continue. If a substantial number of depositors do not roll over deposited funds upon maturity, the Group's liquidity position would be adversely affected and the Group may need to seek alternative sources of short-term or long-term funding to finance its operations, which may be more expensive than existing deposits.

Although the Group has issued debt securities to diversify its funding sources, customer deposits remain its primary funding source in Hong Kong. In Mainland China, the Group's strategy is to increase the growth of customer RMB deposits in order to maintain stability in its source of funds and to minimise costs associated with interbank borrowing. From 31 December 2018 to 30 June 2021, the Group's total of deposits from customers and certificates of deposits issued increased from approximately HK\$632,604 million to approximately HK\$661,656 million, and the Group's deposits from customers increased from approximately HK\$574,114 million to approximately HK\$598,588 million. There are many factors affecting the growth of the Group's deposits, some of which are beyond the Group's control, such as economic and political conditions, the availability of alternative investment choices (including but not limited to securities issued by governmental or corporate entities, unit trusts and mutual funds, investment-linked assurance schemes and structured investment products), changes in government monetary policy and retail customers' changing perceptions towards savings. There can be no assurance that the Group will be able to maintain or grow its customer deposits to support its business.

As part of its measures to maintain the liquidity of, and confidence in, the Hong Kong financial markets, the Hong Kong Deposit Protection Board enhanced the Deposit Protection Scheme with an increased protection limit of HK\$500,000 and expanded coverage including deposits pledged as security, came into effect on 1 January 2011. On 24 March 2016, the Deposit Protection Scheme (Amendment) Ordinance 2016 (the "**2016 Amendment Ordinance**") came into effect. Amongst other things, a gross payout approach is adopted for the determination of compensation under the Deposit Protection Scheme in case the scheme is triggered. Under this approach, any compensation paid to depositors is determined on the basis of their aggregate protected deposits held with a failed bank (up to HK\$500,000 per depositor) without deducting the amount of liabilities owed by those depositors to the same bank. The gross payout approach enables the affected depositors to have faster access to their deposits. There can be no assurance that the level of customer deposits, and therefore of the Group's liquidity, will not be adversely affected by the withdrawal of, or any changes to, the Deposit Protection Scheme in the future.

In addition, the statutory LCR and NSFR requirements came into effect on 1 January 2015 and 1 January 2018, respectively. The Group endeavours to comply with the regulatory requirements including these ratios at all times. The Group holds sufficient high quality liquidity assets ("**HQLA**"), which consist of cash, exchange fund bills and notes, high quality government debt securities and other equivalent liquid marketable assets to fulfill the LCR and NSFR requirements. In times of liquidity stress, the stock of HQLA can be easily and immediately converted into cash to meet unexpected and material cash outflows.

The Monetary Authority acts as the lender of last resort to all authorized institutions in Hong Kong to provide liquidity support in the banking system generally as well as to specific institutions. Although HKSARG has in the past taken measures on a case-by-case basis to maintain or restore public confidence in individual banks with an isolated liquidity crisis, there can be no assurance that the Monetary Authority will provide such assistance in the future or that it would elect to provide such assistance in the future to BEA in the event of a liquidity crisis.

If the Group fails to maintain its expected growth rate in deposits or if a substantial portion of the Group's depositors withdraw their demand deposits or do not roll over their time deposits upon maturity, the liquidity position, financial condition and results of operations of the Group may be materially and adversely affected and the Group may need to seek more expensive sources of funding to meet its funding requirements.

Interest Rate Risk

As with most banks, the Group's net interest income is a significant factor in determining its overall financial performance. For the years ended 31 December 2018, 2019 and 2020 and the six months ended 30 June 2020 and 2021, the Group's net interest income represented approximately 75.6 per cent., 73.7 per cent., 66.7 per cent., 72.2 per cent. and 65.6 per cent. of its operating income. Interest rates in Hong Kong have remained relatively low in recent years. However, there can be no assurance that interest rates will not rise or fall or become volatile or that changes in interest rates will not be frequent. Changes in market interest rates affect the interest to be received on the Group's interest-earning assets and the interest to be paid on the Group's interest-bearing liabilities. The Group realises income from the margin between income earned on its assets and interest paid on its liabilities. The Group's net interest rate margins, being the net interest income divided by the average interest-bearing assets of the Group, for the years ended 31 December 2018, 2019 and 2020 and the six months ended 30 June 2020 and 2021 were approximately 1.7 per cent., 1.9 per cent., 1.5 per cent., 1.6 per cent. and 1.4 per cent., respectively. As assets and liabilities are repriced at different times, the Group is vulnerable to fluctuations in market interest rates. As a result, volatility in interest rates could have an adverse effect on the Group's business, financial condition, liquidity and results of operations.

An increase in interest rates could lead to a decline in the value of securities in the Group's portfolio. A sustained increase in interest rates could also raise the Group's funding costs without a proportionate increase, or any increase at all, in loan demand. Rising interest rates would therefore require the Group to re-balance its assets and liabilities in order to minimise the risk of potential mismatches and maintain its profitability. In addition, high interest rate levels may adversely affect the economy in Hong Kong and the financial condition and repayment ability of its corporate and retail borrowers, including holders of credit cards, which in turn may lead to a deterioration in the Group's credit portfolio.

Classification of Advances and Adequacy of Allowance for Advance Losses

In 2007, Hong Kong implemented the Revised Framework of International Convergence of Capital Measurement and Capital Standards ("**Basel II**"). In 2013, Hong Kong further implemented the reform of capital standards (known as "**Basel III**") issued by the Basel Committee on Banking Supervision (the "**Basel Committee**") in the local banking regulation.

In accordance with guidelines set by the Monetary Authority, BEA obtained approval to adopt the Foundation Internal Ratings-based Approach, and classifies its advances into twenty grades under which impaired loans are classified into one of the following three categories corresponding to levels of risk: "Sub-standard", "Doubtful" and "Loss". Please see "*Selected Statistical and Other Information*" in this Offering Circular for further information. The classification of impaired advances depends on various quantitative and qualitative factors, including the number of months by which payments have fallen into arrears, the type of advance, the tenor of the advance and the expected recovery status of the advance.

Since 2018, BEA has adopted a forward-looking expected credit loss model and has established a framework to determine whether the credit risk on a particular advance has increased significantly since initial recognition for measuring and recognising impairment loss to meet the requirement of HKFRS 9 — Financial instruments (“**HKFRS 9**”). BEA conducts regular review to monitor the effectiveness of the model and the framework.

The laws, regulations and guidelines governing the banking industry in Hong Kong differ from those applicable in certain other countries in certain respects and may result in particular advances being classified as impaired loan advances at a different time or being classified in a category reflecting a different degree of risk than would be required in certain other countries. While BEA strictly follows the spirit of statutory compliance in different aspects when formulating and executing its credit policies and control guidelines, the Group is not required to maintain such policies at levels above those generally applicable to banks in Hong Kong.

Currency Risks

The majority of the Group’s revenue is generated spot in Hong Kong dollars. Nonetheless, as at 31 December 2018, 2019 and 2020 and 30 June 2021, the Group held a substantial part of its spot assets in U.S. dollars amounting to approximately HK\$212,810 million, HK\$212,490 million, HK\$239,817 million and HK\$230,960 million, respectively, and Renminbi amounting to approximately HK\$258,066 million, HK\$232,104 million, HK\$224,882 million and HK\$237,913 million, respectively. Although the Hong Kong dollar has been linked to the U.S. dollar since 1983, there can be no assurance that such linkage will be maintained in the future. In order to ensure continued liquidity of the Hong Kong dollar, the Monetary Authority has entered into bilateral repurchase agreements with the central banks of Australia, the PRC, Indonesia, Japan, Korea, Malaysia, New Zealand, the Philippines, Singapore and Thailand. In addition, HKSARG has in the past expressed its commitment to maintaining exchange rate stability under the Linked Exchange Rate System, an automatic interest rate adjustment mechanism. However, there can be no assurance that the Hong Kong dollar will continue to be linked to the U.S. dollar or that, in the event of a liquidity problem affecting the Hong Kong dollar, such bilateral repurchase agreements or automatic interest rate adjustment mechanism will help to maintain adequate liquidity of the Hong Kong dollar. The Group’s business, financial condition and results of operations could be adversely affected by the impact on the Hong Kong economy of the discontinuation of the link of the Hong Kong dollar to the U.S. dollar or any revaluation of the Hong Kong dollar.

In addition, the Group generates some of its revenue in the PRC and a portion of its assets and liabilities are denominated in Renminbi. As a result, fluctuations in the exchange rate of Renminbi against the Hong Kong dollar or the U.S. dollar could affect the Group’s profitability and financial condition. The volatility in exchange rates of Renminbi against the U.S. dollar and other currencies is affected by, among other factors, changes in the PRC’s and international political and economic conditions and the fiscal and monetary policies of the PRC government. Also, it is difficult to predict how the Renminbi exchange rates may change in the future. There can be no assurance that Renminbi will not experience significant fluctuations against the U.S. dollar or other currencies in the future.

The Group’s Unsecured Lending Portfolio

A part of the Group’s corporate loan portfolio comprises unsecured loans, the repayment of which is largely dependent on the cash flow of the borrowers and adherence to the financial covenants contained in the loans. The majority of the Group’s personal banking loan portfolio comprises loans secured by properties while the remaining portion comprises mainly unsecured personal loans and credit card receivables, which generally carry higher rates of interest. As at 31 December 2018, 2019 and 2020 and 30 June 2021, approximately 62.0 per cent., 60.9 per cent., 59.2 per cent. and 56.5 per cent., respectively, of the Group’s total loans and advances to customers were covered by collateral. Although the Group carefully assesses the repayment ability of such borrowers, loan products which are not secured by any collateral entail a higher degree of credit risk than secured loan products. If there is a downturn in the economy, the credit quality and charge-off rates experienced by the Group may deteriorate.

Quality of the Group's Loan Portfolio or Investment Securities, or Other Assets

The Group's business could be materially and adversely affected by any deterioration in the quality of its loan portfolio or investment securities, or other assets. Risks from changes in credit quality and the recoverability of loans and amounts due from counterparties as well as risks from the Group's investment activities are inherent in a wide range of the Group's businesses. The Group's impaired loans represented approximately 1.2 per cent. of its total loans and advances to customers as at 30 June 2021. The Group may not be able to control effectively the level of impaired loans in its current loan portfolio or the level of new loans that may become impaired in the future. In particular, the amount of the Group's impaired loans may increase in the future due to a deterioration in the quality of its loan portfolio or a substantial increase in the amount of its new loans.

Deterioration in the quality of the Group's loan portfolio, investment securities or other assets may occur for a variety of reasons, including factors which are beyond the Group's control, such as a slowdown in growth of the Hong Kong, the PRC or global economies, a relapse of a global credit crisis, volatility in interest rates and market liquidity, and other adverse macroeconomic trends and financial conditions in Hong Kong, the PRC, Europe and other parts of the world. These factors may cause operational, financial and liquidity problems for the Group's borrowers and the issuers of the Group's investment securities. For example, some of the Group's borrowers or issuers of the Group's investment securities, such as those in the aviation and logistics sectors, may be adversely affected, either directly or indirectly, by the prolonged disruptions to manufacturing and global supply chains and closures of facilities, or diminished demand for their products and services, caused by the ongoing COVID-19 pandemic. Adverse impacts on the ability of such borrowers and issuers to service their outstanding debts or fulfil their payment obligations under the securities issued may have a material adverse impact the quality of the Group's loan portfolio and investment securities.

Other factors may also cause the asset quality of the Group's loan portfolio to deteriorate and the market value of its securities investment to decrease, such as actual or perceived failure or worsening credit of counterparties (in particular, those counterparties to which the Group has substantial exposure), declines in residential and commercial property prices, higher unemployment rates and reduced profitability of corporate borrowers. Moreover, to the extent that a material portion of the Group's loans has been extended to a relatively small number of counterparties, the overall quality of its loan portfolio could be adversely affected by a decline in the credit quality of such borrowers. In addition, the Group's expansion in the PRC and overseas markets may potentially impact the quality of its loan portfolio, where the Group is less able to control its loan portfolio quality and where uncertainties in economic and monetary policies are likely to severely affect its borrowers. Additionally, in connection with its periodic examinations of BEA's operations, the Monetary Authority may in the future require BEA to change the classification of some of its loans which may increase the level of the Group's impaired loans. If the level of the Group's impaired loans or write-offs in its investment securities and other assets increases, its business, financial condition and results of operations may be materially and adversely affected.

The Group may not be able to realise the full value of its collateral as a result of a downturn in the real estate markets, delays in bankruptcy and foreclosure proceedings, fraudulent transfers by borrowers and other factors beyond its control. Any decline in the value of the collateral securing the Group's loans may result in an increase in its impairment allowances and a reduction in the recovery from collateral realisation, which may adversely affect its business, financial condition and results of operations.

Different Loan Classification and Provisioning System

The Group's impaired loans are sub-divided into three categories: "sub-standard" (Grade 18), "doubtful" (Grade 19) and "loss" (Grade 20). When the repayment of an advance is uncertain (for example, there is a past-due record of 90 days or more), the Group downgrades the advance to sub-standard. If full recovery of the advance is in doubt and the Group expects to sustain a loss of

principal or interest, the Group classifies the advance as doubtful. Loss advances are those which are considered non-collectible after exhausting all collection efforts, such as the realisation of collateral and the institution of legal proceedings, and the liquidator or official receiver has ascertained the relevant recovery ratio.

The laws, regulations and guidelines governing banking business in Hong Kong differ from those applicable in certain other countries in certain respects and may result in particular loans being classified at a different time or being classified in a category reflecting a different degree of risk than would be required in certain other countries. In addition, the typical procedures for writing off loans in Hong Kong may result in loans being written-off later than would be the case for banks in certain other countries. Banks in Hong Kong may accrue interest on “sub-standard” loans in situations where such interest would not be accrued by banks in certain other countries. Whilst BEA believes that its loan provisioning policies are more prudent than those which are required under Hong Kong laws and regulations, the Group is not required to maintain such policies at levels above those generally applicable to banks in Hong Kong.

Investments in Debt Securities

The Group holds a portfolio of debt securities with different investment grades. The Group has analysed its investments in debt securities according to the designation of external credit institutions such as Moody’s. As at 30 June 2021, the Group had a total investment in debt securities of approximately HK\$142,026 million, of which approximately 5.1 per cent. were rated Aaa, approximately 12.9 per cent. were rated between Aa1 to Aa3, approximately 42.3 per cent. were rated between A1 to A3, approximately 32.1 per cent. were rated lower than A3 and approximately 7.6 per cent. were unrated.

Given the uncertainties in the current credit and capital markets, there can be no assurance that the Group will not suffer any future marked-to-market losses on its original investment amount in its portfolio of debt securities.

Operational Risks Associated with the Group’s Industry

Like all other financial institutions, the Group is exposed to many types of operational risks resulting from inadequate or failed internal processes, people and systems or from external events, including the risk of fraud, unauthorised transactions or other misconduct by employees (including the violation of regulations for the prevention of corrupt practices, and other regulations governing the Group’s business activities), unintentional or negligent failure to meet professional obligation to specific clients (including fiduciary and suitability requirements), or operational errors, including clerical or record keeping errors or errors resulting from faulty computer or telecommunications systems.

There can be no assurance that any of such operational risks or operational errors will not materialise or occur in the future, or that, if such risks or errors do materialise or occur, the Group’s business, reputation, results of operations and financial conditions will not be adversely affected. The Group is further exposed to the risk that external vendors may be unable to fulfill their contractual obligations to it (or will be subject to the same risk of fraud or operational errors by their employees).

Given the Group’s high volume of transactions, certain errors may be repeated or compounded before they are discovered and successfully rectified. In addition, the Group’s dependence upon automated systems to record and process transactions may further increase the risk of technical system flaws or employee tampering or manipulation of those systems that will result in losses that may be difficult to detect. The Group may also be subject to disruptions of its operating systems, arising from events that are wholly or partially beyond its control (including, for example, computer viruses or electrical or telecommunication outages), which may give rise to a deterioration in customer service and to loss or liability to it. The Group also faces the risk that the design of its controls and procedures may prove inadequate or are circumvented, thereby causing delays in detection of errors in information.

Although, like other financial institutions, the Group maintains a system of controls designed to reduce operational risks to a reasonably low level, the Group has suffered losses from operational risks and there can be no assurance that the Group will not suffer material losses from operational risks in the future. The Group's reputation could be adversely affected by the occurrence of any such events involving its employees, customers or third parties. In addition to internal factors that may affect the Group's operations, the rapid growth and expansion of its business in recent years may have also resulted in increasing complexity in its internal and external control systems and risk management measures, which may add to its operational risks.

In addition, risks of substantial costs and liabilities are inherent in the Group's operations and there can be no assurance that significant costs and liabilities will not be incurred, including those relating to claims for damages to property or persons. Insurance policies for civil liability and damages taken out by the Group might prove to be significantly inadequate, and there can be no assurance that the Group will always be able to maintain an adequate level of coverage at least equal to the Group's current coverage and at the same cost. The frequency and magnitude of natural disasters seen over the past few years could have a significant impact on the capacities of the insurance and reinsurance market and on the costs of civil liability and damages insurance cover for the Group.

Legal, Litigation and Regulatory Proceedings

The Group is required to comply with legal and regulatory requirements, including but not limited to regulations on potential conflicts of interest, anti-money laundering laws and sales and trading practices. Failure to address these issues appropriately may give rise to legal and compliance risk to the Group and subject the Group to regulatory enforcement actions, fines, penalties or reputational damage. The Group is involved, from time to time, in legal proceedings arising in the ordinary course of its operations. Please see "*Business of the Group — Litigation*" for further information. Litigation arising from any failure, injury or damage from the Group's operations, including but not limited to inadequate or failed internal processes, people or systems, or from external events, may result in the relevant member of the Group being named as defendant in lawsuits asserting large claims against such member of the Group or subject such member of the Group to significant regulatory penalties. These risks often may be difficult to assess or quantify and their existence and magnitude often remain unknown for substantial periods of time. Actions brought or investigations against the Group or the Issuer's directors, officers or employees may result in settlements, injunctions, fines, penalties or other results adverse to the Group's reputation, financial condition and results of operations. Even if the Group is successful in defending against these actions or investigations, the costs of such defence may be significant. In market downturns, the number of legal claims and amount of damages sought in litigations and regulatory proceedings may increase. A significant judgment, arbitration award or regulatory action against the Group, or a disruption in the Group's business arising from investigations or adverse adjudications in proceedings against the Issuer's directors, senior management or key employees, would materially and adversely affect the Group's liquidity, business, financial condition, results of operations and prospects.

In addition, certain products and services provided by the Group are regulated by regulators including the Securities and Futures Commission (the "SFC") in Hong Kong. There can be no assurance that breaches of relevant laws or regulations by the Group will not occur and, to the extent that such a breach does occur, that significant liabilities or penalties will not be incurred. Apart from the above, the Group may have disagreements with regulatory bodies in the course of its operations, which may subject it to administrative proceedings and unfavourable decrees that may result in liabilities. Also, in the event that the Group makes any other investments or acquisitions in the future, there can be no assurance that the Group would not have any exposure to any litigation or arbitration proceedings or other liabilities relating to the acquired businesses or entities.

Compliance Risks Associated with Sanctions

The United States has imposed a range of economic sanctions against certain foreign countries, terrorists, international narcotics traffickers and those engaged in activities related to the proliferation of weapons of mass destruction. The United States sanctions are intended to advance certain United States foreign policy and national interests, such as discouraging certain countries from acquiring weapons of mass destruction or engaging in human rights abuses. The Office of Foreign Assets Control (“OFAC”) of the United States Department of the Treasury is the principal government agency charged with administering and enforcing United States economic sanctions programmes. These economic sanctions, as administered by OFAC, generally apply to United States citizens and entities and, in certain cases, to foreign branches of United States entities, or to transactions that involve, in some manner, United States products or otherwise come within the jurisdiction of the United States. The United Nations Security Council, the European Union, the United Kingdom, the PRC and other governments and international or regional organisations also administer similar economic sanctions. The Group may incur higher costs and face greater compliance risks in structuring and operating its businesses to comply with the laws and regulations in relation to these sanctions.

The Group may from time to time engage in business activities in countries or with entities and individuals that are the subject of certain sanctions. For example, the Group had banking relationships with customers that were designated as Specially Designated Nationals by OFAC that have since been terminated. In addition, certain existing customers of the Group have been identified on the Entity List administered by the United States Department of Commerce’s Bureau of Industry and Security. Notwithstanding that such relationships do not themselves subject the Group to primary U.S. economic sanctions, the Group may face secondary U.S. economic sanctions if it is determined to be providing material support to countries, entities, or individuals that are the subject of U.S. economic sanctions. If the Group engages in any prohibited transactions by any means, or if it is otherwise determined that any of the Group’s transactions violated OFAC-administered, other sanctions regulations or export administration regulations, the Group could be directly or indirectly subject to penalties, and its reputation and ability to conduct future business in the United States or with United States entities, or in other relevant jurisdictions, could be affected, which may materially and adversely affect the Group’s business, financial condition and results of operations. The Issuer’s ability to service payments under the Notes and the Undated Capital Securities and to satisfy its other obligations under the Notes and the Undated Capital Securities may also be adversely affected.

The Implementation of new HKFRS including but not limited to HKFRS 9 and HKFRS 16

Accounting standards applicable to the Group’s business may change or be amended from time to time. Any changes in these accounting standards may result in changes in the recognition, measurement and/or classification of the Group’s revenue, expenses, assets and liabilities, which could have material effects on the Group’s results of operations and financial position.

With effect from 1 January 2018, HKFRS 9 has replaced HKAS 39 — Financial instruments: Recognition and Measurement (“**HKAS 39**”). Following the adoption of HKFRS 9, BEA is required to re-classify and re-measure (including impairment measurement) certain of its financial instruments from 1 January 2018 without requiring any restatement of the corresponding figures of the prior period. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of HKFRS 9 were recognised in retained earnings and reserves as at 1 January 2018. Accordingly, BEA’s historical financial information as at and for the year ended 31 December 2017 may not be directly comparable against BEA’s financial information after 1 January 2018. As permitted by HKFRS 9, BEA has elected to continue to apply the hedge accounting requirements of HKAS 39. Investors must therefore exercise caution when making comparisons of any financial figures after 1 January 2018 against BEA’s historical financial figures prior to 1 January 2018 and when evaluating BEA’s financial condition and results of operations.

In addition, from 1 January 2019, the Group adopted HKFRS 16 that had become effective on the same day. It introduces a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligation to make lease payments. The Group has applied HKFRS 16 using the modified retrospective approach, under which the comparative information presented for the year ended 31 December 2018 has not been restated. Please see note 3 to the 2019 Financial Statements for further information.

Furthermore, the Issuer has initially adopted the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 in respect of interest rate benchmark reform and early adopted the Amendment to HKFRS 16 in respect of COVID-19-Related Rent Concessions from 1 January 2020. As at 31 December 2020, the Issuer believes it is too early to reliably estimate when interest rate benchmark uncertainty will be resolved for all benchmarks in scope of the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 and so the temporary exceptions in respect of the Amendments to HKFRS 9, HKAS 39 and HKFRS 7 applied to the Group's hedge accounting relationships that reference benchmarks which are subject to reform or replacement. The Amendment to HKFRS 16 exempts lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications. The Group has early adopted the Amendment to HKFRS 16 to all rent concessions that met certain conditions and as such certain rent concessions were recognised as a credit to variable lease payments that were not included in the measurement of lease liabilities. Please see note 3 to the 2020 Financial Statements for further information.

Further, the Hong Kong Institute of Certified Public Accountants may issue new and revised standards and interpretations in the future. Interpretations on the application of HKFRS will also continue to develop. These factors may require the Group to adopt new accounting policies from time to time. The adoption of new accounting policies or new HKFRS in the future may have a material impact on the Group's results of operations and financial position.

Information Technology Systems

The Group is highly dependent on the ability of its information technology systems to process accurately a large number of transactions across numerous and diverse markets and its broad range of products in a timely manner. The proper functioning of its financial control, risk management, accounting, customer service and other data processing systems, together with the communication networks between its various branches and sub-branches and its main data processing centres, are critical to its business and its ability to compete effectively. Although there is backup data for key data processing systems and the Group has established a backup system to carry on principal functions in the event of a catastrophe or a failure of its primary systems, there can be no assurance that the Group's operations will not be materially disrupted if there is a partial or complete failure of any of these primary information technology systems or communications networks. Such failures could be caused by, among other things, software bugs, computer virus attacks or conversion errors due to system upgrading. In addition, any security breach caused by unauthorised access to information or systems, loss or corruption of data and malfunction of software, hardware or other computer equipment could have a material adverse effect on the Group's business, reputation, results of operations and financial condition.

In addition, the Group's ability to remain competitive will depend in part on its ability to upgrade its information technology systems on a timely and cost-effective basis. Additionally, the information available to and received by the Group through its existing information technology systems may not be timely or sufficient for the Group to manage risks and plan for, and respond to, market changes and other developments in its current operating environment. The Group is making, and intends to

continue to make, investments to improve or upgrade its information technology systems. Any substantial failure to improve or upgrade its information technology systems effectively or on a timely basis could have a material adverse effect on the Group's competitiveness, financial condition and results of operations.

Internet Banking Services

To the extent that the Group's internet banking activities involve the storage and transmission of confidential information, security breaches could expose the Group to possible liability and damage the Group's reputation. The Group's networks may be vulnerable to unauthorised access, computer viruses and other disruptive problems. Costs incurred in rectifying any such disruptive problems may be high and may adversely affect the Group's business, financial condition and results of operations. Concerns regarding security risks may deter the Group's existing and potential customers from using its internet banking products and services. Eliminating computer viruses and alleviating other security problems may result in interruptions, delays or termination of service to users accessing the Group's Cyberbanking services. Undetected defects in software products that the Group uses when providing its Cyberbanking services, and the Group's inability to sustain a high volume of traffic, may have a material adverse effect on the Group's internet banking business.

Different Corporate Disclosure and Regulatory Requirements

BEA's issued shares are listed on the HKSE and, as such, BEA is required to publish annual audited and semi-annual unaudited financial information. The amount of information publicly available to investors in Hong Kong is governed by the Listing Rules and the Banking (Disclosure) Rules (Cap. 155M) of Hong Kong regulated by the Monetary Authority.

Under the Banking Ordinance (Cap. 155) of Hong Kong (the "**Banking Ordinance**"), the Monetary Authority regulates the business activities and operations of authorized institutions and has the ability to influence banking and financial markets generally. Potential investors should be aware that regulatory requirements in Hong Kong may differ from those that prevail in other countries. Since the Group operates in the highly regulated banking and securities industries in Hong Kong, potential investors should also be aware that the regulatory authorities have been consistently imposing higher standards and developing guidelines and regulatory requirements such as the Basel III capital standards which have been adopted in Hong Kong since January 2013.

In December 2010 and January 2011, the Basel Committee issued the Basel III requirements to raise the quality, consistency and transparency of banks' capital base and new global liquidity standards. Among other things, Basel III increases the minimum capital adequacy ratio requirements in relation to risk-weighted assets, with the common equity requirement rising from 2 per cent. to 4.5 per cent. and the Tier 1 capital requirement rising from 4 per cent. to 6 per cent. The minimum total capital requirement remains unchanged at 8 per cent.

The initial stage of the Basel III capital reforms has been implemented by the government of Hong Kong since the beginning of 2013, and the full implementation of the reforms will be completed by January 2023.

These standards require banks to disclose key pieces of information on capital, risk exposures, risk assessment processes and hence capital adequacy. The aim of these standards is to encourage banks to demonstrate to the market participants that their risk management systems are robust and that all relevant risks have been identified and controlled.

Regarding the Basel III liquidity standards, the Monetary Authority has publicly announced its plan to implement the standards in full following the Basel schedule and transitional arrangement. The Banking (Liquidity) Rules (Cap. 155Q) of Hong Kong have been enacted into local regulations in October 2014 and these rules have commenced operation since 1 January 2015. The Group has fully complied with the Basel III liquidity standards in accordance with the legislation. The Group's liquidity position and required disclosures have been discussed in the 2021 Interim Financial Statements and/or the Banking Disclosure Statement of the Issuer for the period ended 30 June 2021.

Certain products and services provided by the Group are regulated by other regulators including the SFC and Insurance Authority (the "IA"). The Group carefully manages legal and compliance risks, including in relation to the sale of financial products and compliance with anti-money laundering and anti-terrorist financing regulations. From time to time, the regulators in Hong Kong have introduced recommendations which are intended to provide tighter control and more transparency in the Hong Kong banking sector, in particular, in relation to the selling of investment, insurance and Mandatory Provident Fund ("MPF") products and the provision of general banking services to retail customers.

In May 2010, the Monetary Authority and the SFC each launched new investor protection measures. The Securities and Futures Ordinance (Cap. 571) of Hong Kong (the "SFO") and its subsidiary legislations regulate the offering and sales of securities products as defined under Schedule 1 of the SFO. In addition to the subsidiary legislations, the Monetary Authority has been introducing additional measures on sales of investment products, including non-SFO regulated investment products, for the banking industry in Hong Kong to observe.

Among others, the Monetary Authority, from time to time, issues circulars in relation to the selling of investment, insurance and MPF products, which further clarified and enhanced the product due diligence process, product disclosure to customers and suitability assessment. With regards to the investment products with relatively complex structure and higher risk (such as accumulators and high yield or complex bonds), the Monetary Authority also specified the regulatory standards for selling these products.

Having regard to the changing market landscape and technological advancement in the recent years, the Monetary Authority has conducted a holistic review and introduced refinements to the investor protection measures in relation to the selling of investment, insurance and MPF products. In 2019, the SFC also released new guidelines setting out the requirements applicable to online distribution and advisory platforms for investment products operated by intermediaries, and revised the Code of Conduct for Persons Licensed by or Registered with the Securities and Futures Commission for facilitating new approaches for account opening, such as online onboarding, and meriting greater protection to investors, by introducing enhanced disclosure and suitability requirements in offering complex investment products to investors.

Separately, a new licensing and regulatory regime for insurance intermediaries under the Insurance Ordinance (Cap. 41) of Hong Kong has taken effect since September 2019. For the purpose of implementing this new regulatory regime, the IA has issued a number of rules, codes and guidelines setting out requirements applicable to licensed insurance intermediaries. BEA and its Group companies acting as licensed insurance intermediaries are therefore required to comply with all applicable statutory and regulatory requirements promulgated by the IA as well as the Monetary Authority from time to time in their carrying of regulated activities under the Insurance Ordinance.

Going forward, it is foreseeable that there would be further reinforcements and more stringent requirements on the regulations, particularly those in relation to selling investment and insurance products via both online and offline channels, offering of banking products and services via digital platforms and fairness and transparency in providing banking products and services to customers. The Group has taken steps to implement the recommendations by relevant regulators and to comply with any new or modified regulations. Increased regulations and the requirements for more stringent customer protections have increased its operational and compliance expenses. Any changes in regulations, governmental policies, income tax laws or rules and accounting principles, as well as

international conventions and standards relating to commercial banking operations in Hong Kong, could affect the Group's operations. There can be no assurance that the relevant regulatory authorities will not implement further regulations and that such changes will not materially increase the Group's operational and compliance cost or adversely affect its business or operations. There can also be no assurance that breaches of legislation or regulations by the Group will not occur and, to the extent that such a breach does occur, that significant liability or penalties will not be incurred.

Occurrence (or escalation and/or intensification) of any force majeure events, political unrest or civil disobedience movements, natural disasters, outbreaks of contagious diseases and other disasters in Asia or elsewhere

Force majeure events, natural disasters, catastrophe or other events could result in severe personal injury to the Group's staff, property damage and other damage, which may curtail the Group's operations and could in turn materially and adversely affect the Group's business, results of operations and financial condition.

A substantial part of the Group's operations are based in Hong Kong and in the PRC, which are exposed to potential natural disasters including, but not limited to, flooding and landslides. If any of the Group's property is damaged by severe weather or any other disasters, accidents, catastrophes or other events, the Group's operations may be significantly interrupted. The occurrence or continuance of any of such unforeseen events or similar events could increase the costs associated with the Group's operations and reduce its ability to operate its businesses effectively, thereby reducing its operating income and profits.

In addition, the Group's contracts with its counterparties may have force majeure provisions that permit such parties to suspend, terminate or otherwise not perform their obligations under the relevant contracts upon the occurrence of certain events such as strikes and other industrial or labour disturbances, terrorism, restraints of government, civil protests, disobedience movements or disturbances, or any natural disasters, all of which are beyond the control of the party asserting such force majeure event. If one or more of the Group's counterparties do not fulfil their contractual obligations for any extended period of time due to a force majeure event or otherwise, the Group's results of operations and financial condition could be materially and adversely affected.

Furthermore, the Group's services and operations could be interrupted by unforeseen events beyond its control, such as civil disobedience movements, social unrest and strikes. For example, there had been a series of protests and strikes in Hong Kong in 2019, and during which some of the Group's self-service facilities were subject to vandalism and certain branches of the Group were temporarily closed. The social unrest in the second half of 2019 has adversely impacted consumer confidence, dampened consumer spending and affected inbound tourism to Hong Kong, which in turn may have a negative impact on the local economy and have a material adverse impact on the Group's business, results of operations, financial condition and prospects.

The Group's operations and financial condition could also be materially and adversely affected by any outbreak, epidemic and/or pandemic of (or the escalation and/or intensification of any outbreak, epidemic and/or pandemic of) infectious or contagious diseases and/or other adverse public health developments in the PRC, Hong Kong or elsewhere. In particular, the ongoing COVID-19 pandemic in the PRC, Hong Kong and other countries has led to business suspension, travel and other restrictions, labour shortages and supply or delivery chain constraints in the PRC, Hong Kong and globally. In 2020, BEA activated its established emergency response protocol for infectious diseases, introducing work-from-home arrangements where practicable and appropriate. A number of branches had been closed temporarily in an effort to limit the spread of COVID-19, as well as protect both its customers and staff members' health and safety. While it is difficult to predict the extent of impact of the ongoing COVID-19 pandemic on the Hong Kong, the PRC and global economies, the outbreak has adversely affected the Group's ability to provide services to customers, particularly in the wealth management business. Volatility in global financial markets could also cause a decline in the value of assets that the Group owns and account for as investments or trading positions. The Group's

operations have also been adversely affected by a decline in demand of residential mortgage advances, a reduction in the numbers of customers visiting the Group's branches, an adverse impact on quality of loan portfolio and other assets of the Group due to a weakened economy and higher unemployment rate. In addition, certain actions taken by governmental authorities that are intended to ameliorate the macroeconomic effects of the ongoing COVID-19 pandemic, such as the policy rate reduction by the Federal Reserve, may have a negative impact on the Group's net interest income and the return from the Group's investment securities and other assets.

In addition, all levels of business in Hong Kong, the PRC and other Asian countries were adversely affected by the outbreak of severe acute respiratory syndrome ("SARS") in 2003. There have also been sporadic outbreaks of the H5N1 virus or "Avian Influenza A" among birds, in particular poultry, as well as some isolated cases of transmission of the virus to humans. In 2009 and 2010, there have also been outbreaks among humans of the A/H1N1 influenza virus. Other recent epidemics include the Middle East Respiratory Syndrome (MERS), the H5N1 avian flu, the H7N9 avian flu, the Ebola virus disease and the Zika virus disease. The occurrence of another outbreak of SARS, the A/H1N1 influenza virus or of any other highly contagious disease or epidemic disease (whether known or unknown to the world) (or the escalation and/or intensification of any outbreak, epidemic and/or pandemic of infectious diseases) in Hong Kong, the PRC or elsewhere may result in another economic downturn regionally and/or globally and could materially and adversely affect the overall level of business and travel activities in the affected areas and/or globally, which in turn could have a material adverse effect on the Group's business, results of operations and financial condition.

Further Issuance of Securities

The Group's financial condition, results of operations and capital position are affected by a range of factors such as economic conditions, interest rates, the credit environment, asset quality, operating income and level of provisioning. A slowdown in the economy could lead to a deterioration in the Group's asset quality and an increase in provisions for bad and doubtful debts, which may result in a deterioration of BEA's capital adequacy position or breach capital requirements under Hong Kong law, rules and regulations (including guidelines issued by the Monetary Authority). In addition, the Monetary Authority may increase BEA's required capital adequacy ratio levels in the future in response to, among other things, an adverse economic or credit environment or regulatory changes.

In order to strengthen its capital adequacy position or to ensure that it remains in compliance with applicable capital requirements under Hong Kong law, rules and regulations (including guidelines issued by the Monetary Authority), the Group may from time to time raise additional capital through such means and in such manner as it may consider appropriate including, without limitation, the issue of further subordinated notes or other hybrid capital instruments, subject to any regulatory approval that may be required. There can be no assurance that such future capital raising activities will not adversely affect the market price of the Undated Capital Securities in the secondary market. There can also be no assurance that the Group will be able to obtain additional capital in a timely manner, on acceptable terms or at all.

OECD's Common Reporting Standard

The Organisation for Economic Co-operation and Development (the "OECD") has developed a common reporting standard (the "CRS") and model competent authority agreement to enable the multilateral and automatic exchange of financial account information. The CRS does not include a potential withholding element. Under the CRS, financial institutions are required to identify and report the tax residence status of customers in all the countries that have endorsed the CRS.

The adoption of the CRS in the PRC and Hong Kong became effective on 1 January 2017. The PRC and Hong Kong financial institutions have begun collecting tax residency information from their account holders from 1 January 2017 for submission of information on reportable account holders in 2018. The increased due diligence of customer information and the reporting of information to the tax authorities will continue to increase operational and compliance costs for banks, including the Group.

CONSIDERATIONS RELATING TO THE NOTES AND THE UNDATED CAPITAL SECURITIES

The establishment of a resolution regime in Hong Kong may override the contractual terms of the Notes and the Undated Capital Securities

On 7 July 2017, the Financial Institutions (Resolution) Ordinance (Cap. 628) of Hong Kong (the “**FIRO**”) came into operation. The FIRO provides for, among other things, the establishment of a resolution regime for authorized institutions and other within scope financial institutions in Hong Kong as may be designated by the relevant resolution authorities, which includes the Issuer as the issuer of the Notes and the Undated Capital Securities. The resolution regime seeks to provide the relevant resolution authorities with administrative powers to bring about timely and orderly resolution in order to stabilise and secure continuity for a failing authorized institution or within scope financial institution in Hong Kong. In particular, and subject to certain safeguards, the relevant resolution authority is provided with powers to affect contractual and property rights as well as payments (including in respect of any priority of payment) that creditors would receive in resolution. These may include, but are not limited to, powers to cancel, write off, modify, convert or replace all or a part of the Notes and the Undated Capital Securities or the principal amount of, or interest or distribution on, the Notes and the Undated Capital Securities, and powers to amend or alter the contractual provisions of the Notes and the Undated Capital Securities, all of which may adversely affect the value of the Notes and the Undated Capital Securities, and the holders thereof may suffer a loss of some or all of their investment as a result. Holders of Notes and the Undated Capital Securities will be subject to and bound by the FIRO. The implementation of the FIRO remains untested and certain details relating to the FIRO will be set out through secondary legislation and supporting rules. Therefore, the Issuer is unable to assess the full impact of the FIRO on the financial system generally, the Issuer’s counterparties, the Issuer, any of its consolidated subsidiaries, its operations and/or its financial position.

The Notes and Undated Capital Securities may not be a suitable investment for all investors

The Notes and the Undated Capital Securities are complex and high risk. Each potential investor in the Notes and the Undated Capital Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of Notes and the Undated Capital Securities, the merits and risks of investing in the Notes and the Undated Capital Securities and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the Undated Capital Securities and the impact such investment will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes and the Undated Capital Securities, including where the currency for principal, interest or distribution payments is different from the potential investor’s currency;

- (d) understand thoroughly the terms of the Notes and the Undated Capital Securities and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes and the Undated Capital Securities are complex financial instruments. A potential investor must not invest in the Notes and the Undated Capital Securities unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes and the Undated Capital Securities will perform under changing conditions, including the effects of inflation, the resulting effects on the value of the Notes and the Undated Capital Securities and the impact this investment will have on the potential investor's overall investment portfolio.

Decisions that may be made on behalf of all Noteholders and Securityholders may be adverse to the interests of individual holders of the Notes and the Undated Capital Securities. Modifications and waivers may be made in respect of the Note Conditions, the Undated Capital Securities Conditions, the Trust Deed or the Agency Agreement by the Trustee or less than all of the Noteholders or the Securityholders

The Note Conditions and the Undated Capital Securities Conditions contain provisions for calling meetings of Noteholders and Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders and Securityholders including Noteholders and Securityholders who did not attend and vote at the relevant meeting and Noteholders and Securityholders who voted in a manner contrary to the majority. The Note Conditions and the Undated Capital Securities Conditions also provide that the Trustee may agree, without the consent of the Noteholders and Securityholders, to (i) any modification of any of the provisions of the Trust Deed, the Note Conditions or the Undated Capital Securities Conditions which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with any mandatory provision of law, or (ii) any other modification (except as mentioned in the Trust Deed) of any provisions of the Trust Deed and/or the Note Conditions and/or the Undated Capital Securities Conditions that is in the opinion of the Trustee not materially prejudicial to the interests of the Noteholders and/or Securityholders. In addition, the Note Conditions and the Undated Capital Securities Conditions may be amended, modified, or varied in relation to any Series of Notes and the Undated Capital Securities by the terms of the relevant Pricing Supplement in relation to such Series.

The Note Conditions and the Undated Capital Securities Conditions also provide that the Trustee may agree, without the consent of the Noteholders and Securityholders, to the substitution of the Issuer's successor in business or certain subsidiary of the Issuer or its successor in business or any holding company of the Issuer or any other subsidiary of any such holding company or their respective successor in business in place of the Issuer as principal debtor under the Notes or the Undated Capital Securities. In the case of such a substitution, the Trustee may agree, without the consent of the Noteholders and Securityholders, to a change of the governing law of the Notes, the Undated Capital Securities and/or the Trust Deed provided that such change would not in the opinion of the Trustee be materially prejudicial to the interests of the Noteholders and/or Securityholders.

Change of Law

The Note Conditions and the Undated Capital Securities Conditions, and any non-contractual obligations arising out of or in connection with them, are governed by English law (except for the provisions relating to subordination, Non-Viability Events and the exercise of Hong Kong Resolution Authority Power which are governed by Hong Kong law). No assurance can be given as to the impact of any possible judicial decision or change to English or Hong Kong law or administrative practice after the date of issue of the relevant Notes and the Undated Capital Securities Conditions.

Secondary Market

The Notes and the Undated Capital Securities may have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes and the Undated Capital Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Illiquidity may have a material adverse effect on the market value of Notes and the Undated Capital Securities.

The Trustee may request Noteholders or Securityholders to provide an indemnity and/or security and/or prefunding to its satisfaction

In certain circumstances (including without limitation the giving of notice to the Issuer pursuant to Condition 11 and the taking of actions and/or enforcement steps under Condition 13 of the Note Conditions and the Undated Capital Securities Conditions), the Trustee may (at its sole discretion) request Noteholders or Securityholders to provide an indemnity and/or security and/or prefunding to its satisfaction before it takes actions on behalf of Noteholders or Securityholders. The Trustee shall not be obliged to take any such actions if not indemnified and/or secured and/or prefunded to its satisfaction. Negotiating and agreeing to an indemnity and/or security and/or prefunding can be a lengthy process and may impact on when such actions can be taken. The Trustee may not be able to take actions, notwithstanding the provision of an indemnity or security or prefunding to it, in breach of the terms of the Trust Deed (as defined in the Note Conditions and the Undated Capital Securities Conditions) and in such circumstances, or where there is uncertainty or dispute as to applicable laws or regulations and/or its rights to do so under the Trust Deed and/or the Note Conditions and the Undated Capital Securities Conditions and, to the extent permitted by the Trust Deed and the Note Conditions and the Undated Capital Securities Conditions and applicable law and regulations, it will be for the Noteholders and Securityholders to take such actions directly.

Exchange rate risks and exchange controls may result in a potential investor receiving less interest, distribution or principal than expected

The Issuer will pay principal and interest on the Notes and principal and distribution on the Undated Capital Securities in the currency specified. This presents certain risks relating to currency conversions if a potential investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the currency in which the Notes and the Undated Capital Securities are denominated. These include the risk that exchange rates may significantly change (including changes due to devaluation of the currency in which the Notes or the Undated Capital Securities are denominated or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the currency in which the Notes and the Undated Capital Securities are denominated would decrease (i) the Investor's Currency equivalent yield on the Notes and the Undated Capital Securities, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and the Undated Capital Securities and (iii) the Investor's Currency equivalent market value of the Notes and the Undated Capital Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, a potential investor may receive less interest, distribution or principal than expected, or no interest, distribution or principal. In addition, there may be tax consequences for investors as a result of any foreign currency gains resulting from any investment in the Notes and the Undated Capital Securities.

Lack of Public Market for the Notes and the Undated Capital Securities

There can be no assurance as to the liquidity of the Notes and the Undated Capital Securities or that an active trading market will develop. The liquidity of the Notes and the Undated Capital Securities will be adversely affected if they are held or allocated to limited investors. If such a market were to develop, the Notes and the Undated Capital Securities may trade at prices that may be higher or lower than the initial issue price depending on many factors, including prevailing interest rates, the Group's operations and the market for similar securities. The Dealers are not obliged to make a market in the Notes and the Undated Capital Securities and any such market making, if commenced, may be discontinued at any time at the sole discretion of the relevant Dealers. No assurance can be given as to the liquidity of, or trading market for, the Notes and the Undated Capital Securities.

The liquidity and price of the Notes and the Undated Capital Securities following the offering may be volatile

The price and trading volume of the Notes and the Undated Capital Securities may be highly volatile. Factors such as variations in the Group's turnover, earnings and cash flows, proposals for new investments, strategic alliances and/or acquisitions, changes in interest rates, fluctuations in price for comparable companies, changes in government regulations and changes in general economic conditions nationally or internationally could cause the price of the Notes and the Undated Capital Securities to change. Any such developments may result in large and sudden changes in the trading volume and price of the Notes and the Undated Capital Securities. There is no assurance that these developments will not occur in the future.

Developments in other markets may adversely affect the market price of the Notes and the Undated Capital Securities

The market price of the Notes and the Undated Capital Securities may be adversely affected by declines in the international financial markets and world economic conditions. The market for the Notes and the Undated Capital Securities is, to varying degrees, influenced by economic and market conditions in other markets, especially those in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can affect the securities markets and the securities of issuer in other countries, including the PRC. Since the global financial crisis in 2008 and 2009, the international financial markets have experienced significant volatility. If similar developments occur in the international financial markets in the future, the market price of the Notes and the Undated Capital Securities could be adversely affected.

Inability to comply with the restrictions and covenants contained in the Group's debt agreements

If the Group is unable to comply with the restrictions and covenants in its current or future debt and other agreements, there could be a default under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to the Group, accelerate the debt and declare all amounts borrowed due and payable or terminate the agreements, whichever the case may be.

Ratings of the Notes and the Undated Capital Securities may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes and the Undated Capital Securities. The ratings represent the opinions of the rating agencies and their assessment of the ability of the Issuer to perform their respective obligations under the Notes and the Undated Capital Securities and the credit risks in determining the likelihood that payments will be made when due under the Notes and the Undated Capital Securities. Such ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes and the Undated Capital Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. Rating agencies may also revise or replace entirely the methodology applied to derive

credit ratings. There can be no assurance that the ratings assigned to any Notes or Undated Capital Securities will remain in effect for any given period or that the ratings will not be lowered, suspended or withdrawn by the rating agencies in the future if, in their judgment, the circumstances so warrant. The Issuer is not obligated to inform the Noteholders or the Securityholders of any such suspension, revision, downgrade or withdrawal. A suspension, downgrade or withdrawal of the ratings of any Notes or Undated Capital Securities at any time may materially and adversely affect the market price of the Notes and the Undated Capital Securities and the Issuer's ability to access the debt capital markets.

The regulation and reform of “benchmark” rates of interest and indices may adversely affect the value of Notes linked to or referencing such “benchmarks”

In 2012, a review, undertaken at the request of the United Kingdom government, on the setting and usage of LIBOR, resulted in an initiative to devise new methodologies for determining representative inter-bank lending rates and, ultimately, so-called “risk free” rates that may be used as an alternative to LIBOR in certain situations.

Following this review, the International Organisation of Securities Commissions (“**IOSCO**”) created a task force to draft principles to enhance the integrity, reliability and oversight of Benchmarks generally. This resulted in publication by the Board of IOSCO, in July 2013, of nineteen principles which are to apply to Benchmarks used in financial markets (the “**IOSCO Principles**”). The IOSCO Principles provide an overarching framework for Benchmarks used in financial markets and are intended to promote the reliability of Benchmark determinations and address Benchmark governance, quality and accountability mechanisms. The Financial Stability Board (“**FSB**”) subsequently undertook a review of major interest rate Benchmarks and published a report in 2014, outlining its recommendations for change, to be implemented in accordance with the IOSCO Principles. In addition, in June 2016, Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “**BMR**”) came into force. The BMR implements a number of the IOSCO Principles and the majority of its provisions have applied since 1 January 2018.

In a speech on 27 July 2017, Andrew Bailey, the Chief Executive of the United Kingdom Financial Conduct Authority (the “**FCA**”), questioned the sustainability of LIBOR in its current form, given that the underlying transactions forming the basis of the benchmark are insufficient to support the volumes of transactions that rely upon it, and made clear the need to transition away from LIBOR to alternative reference rates (the “**FCA Announcement**”). He noted that there was support among the LIBOR panel banks for voluntarily sustaining LIBOR until the end of 2021, facilitating this transition. At the end of this period, it is the FCA's intention not to sustain LIBOR through its influence or legal powers by persuading or obliging banks to submit to LIBOR. Therefore, the continuation of LIBOR in its current form (or at all) after 2021 cannot be guaranteed. Subsequent speeches by Andrew Bailey and other FCA officials have emphasised that market participants should not rely on the continued publication of LIBOR after the end of 2021. On 5 March 2021, the FCA announced that (i) the publication of 24 LIBOR settings (as detailed in the FCA announcement) will cease immediately after 31 December 2021, (ii) the publication of the overnight and 12-month U.S. dollar LIBOR settings will cease immediately after 30 June 2023, (iii) immediately after 31 December 2021, the 1-month, 3-month and 6-month sterling LIBOR settings will no longer be representative of the underlying market and economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consult on requiring the ICE Benchmark Administration Limited (the “**IBA**”) to continue to publish these settings on a synthetic basis, which will no longer be representative of the underlying market and economic reality they are intended to measure, for a further period after end 2021) and (iv) immediately after 30 June 2023, the 1-month, 3-month and 6-month U.S. dollar LIBOR settings will no longer be representative of the underlying market and

economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consider the case for using its proposed powers to require IBA to continue publishing these settings on a synthetic basis, which will no longer be representative of the underlying market and economic reality they are intended to measure, for a further period after end June 2023).

Other interbank offered rates suffer from similar weaknesses to LIBOR and although work continues on reforming their respective methodologies to make them more grounded in actual transactions, they may be discontinued or be subject to changes in their administration.

Changes to the administration of an IBOR or the emergence of alternatives to an IBOR, may cause such IBOR to perform differently than in the past, or there could be other consequences which cannot be predicted. The discontinuation of an IBOR or changes to its administration could require changes to the way in which the Rate of Interest is calculated in respect of any Floating Rate Notes and Floating Rate Undated Capital Securities referencing or linked to such IBOR. The development of alternatives to an IBOR may result in Floating Rate Notes and Floating Rate Undated Capital Securities linked to or referencing such IBOR performing differently than would otherwise have been the case if the alternatives to such IBOR had not developed. Any such consequence could have a material adverse effect on the value of, and return on, any Floating Rate Notes and Floating Rate Undated Capital Securities linked to or referencing such IBOR.

Whilst alternatives to certain IBORs for use in the bond market are being developed, outstanding Floating Rate Notes and Floating Rate Undated Capital Securities linked to or referencing an IBOR may transition away from such IBOR in accordance with the particular fallback arrangements set out in their terms and conditions. The operation of these fallback arrangements could result in a different return for Noteholders and Securityholders (which may include payment of a lower Rate of Interest) than they might receive under other similar securities which contain different or no fallback arrangements (including which they may otherwise receive in the event that legislative measures or other initiatives (if any) are introduced to transition from any given IBOR to an alternative rate).

Where Screen Rate Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes or Floating Rate Undated Capital Securities is to be determined, the Note Conditions and the Undated Capital Securities Conditions provide that the Rate of Interest shall be determined by reference to the Relevant Screen Page (or its successor or replacement). In circumstances where such Original Reference Rate is discontinued, neither the Relevant Screen Page, nor any successor or replacement may be available.

Where the Relevant Screen Page is not available, and no successor or replacement for the Relevant Screen Page is available, the Note Conditions and the Undated Capital Securities Conditions provide for the Rate of Interest to be determined by the Calculation Agent by reference to quotations from banks communicated to the Calculation Agent.

Where such quotations are not available (as may be the case if the relevant banks are not submitting rates for the determination of such Original Reference Rate), the Rate of Interest may ultimately revert to the Rate of Interest applicable as at the last preceding Interest Determination Date before the Original Reference Rate was discontinued. Uncertainty as to the continuation of the Original Reference Rate, the availability of quotes from reference banks, and the rate that would be applicable if the Original Reference Rate is discontinued may adversely affect the value of, and return on, the Floating Rate Notes and Floating Rate Undated Capital Securities.

Benchmark Events include (amongst other events) permanent discontinuation of an Original Reference Rate. If a Benchmark Event occurs, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser. The Independent Adviser shall endeavour to determine a Successor Rate or Alternative Rate to be used in place of the Original Reference Rate. The use of any such

Successor Rate or Alternative Rate to determine the Rate of Interest is likely to result in Floating Rate Notes and Floating Rate Undated Capital Securities initially linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

Furthermore, if a Successor Rate or Alternative Rate for the Original Reference Rate is determined by the Independent Adviser, the Note Conditions and the Undated Capital Securities Conditions provide that the Issuer may vary the Note Conditions and the Undated Capital Securities Conditions, as necessary to ensure the proper operation of such Successor Rate or Alternative Rate, without any requirement for consent or approval of the Noteholders or the Securityholders.

If a Successor Rate or Alternative Rate is determined by the Independent Adviser, the Note Conditions and the Undated Capital Securities Conditions also provide that an Adjustment Spread will be determined by the Independent Adviser and applied to such Successor Rate or Alternative Rate.

The Adjustment Spread is (i) the spread, formula or methodology which is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body (which may include a relevant central bank, supervisory authority or group of central banks/supervisory authorities), (ii) if no such recommendation has been made, or in the case of an Alternative Rate, the spread, formula or methodology which the Independent Adviser determines is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate, or (iii) if the Independent Adviser determines that no such spread is customarily applied, the spread, formula or methodology which the Independent Adviser determines and which is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate, as the case may be.

Accordingly, the application of an Adjustment Spread may result in the Floating Rate Notes or the Floating Rate Undated Capital Securities performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

The Issuer may be unable to appoint an Independent Adviser or the Independent Adviser may not be able to determine a Successor Rate or Alternative Rate in accordance with the Note Conditions and the Undated Capital Securities Conditions.

Where the Issuer is unable to appoint an Independent Adviser in a timely manner, or the Independent Adviser is unable, to determine a Successor Rate or Alternative Rate before the next Interest Determination Date, the Rate of Interest for the next succeeding Interest Period will be the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, or, where the Benchmark Event occurs before the first Interest Determination Date, the Rate of Interest will be the initial Rate of Interest.

Where the Issuer has been unable to appoint an Independent Adviser or, the Independent Adviser has failed to determine a Successor Rate or Alternative Rate in respect of any given Interest Period, it will continue to attempt to appoint an Independent Adviser in a timely manner before the next succeeding Interest Determination Date and/or to determine a Successor Rate or Alternative Rate to apply the next succeeding and any subsequent Interest Periods, as necessary.

Applying the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event is likely to result in Floating Rate Notes and Floating Rate Undated Capital Securities linked to or referencing the relevant benchmark performing differently (which may include payment of a lower Rate of Interest) than they would do if the relevant benchmark were to continue to apply, or if a Successor Rate or Alternative Rate could be determined.

If the Issuer is unable to appoint an Independent Adviser or the Independent Adviser fails to determine a Successor Rate or Alternative Rate for the life of the relevant Floating Rate Notes or the relevant Floating Rate Undated Capital Securities, the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will continue to apply to maturity. This will result in the Floating Rate Notes and the Floating Rate Undated Capital Securities, in effect, becoming Fixed Rate Notes and Fixed Rate Undated Capital Securities, respectively.

Where ISDA Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes and Floating Rate Undated Capital Securities is to be determined, the Note Conditions and Undated Capital Securities Conditions provide that the Rate of Interest in respect of the Notes and the Undated Capital Securities shall be determined by reference to the relevant Floating Rate Option in the 2006 ISDA Definitions. Where the Floating Rate Option specified is an “**IBOR**” Floating Rate Option, the Rate of Interest may be determined by reference to the relevant screen rate or the rate determined on the basis of quotations from certain banks. If the relevant IBOR is permanently discontinued and the relevant screen rate or quotations from banks (as applicable) are not available, the operation of these provisions may lead to uncertainty as to the Rate of Interest that would be applicable, and may, adversely affect the value of, and return on, the Floating Rate Notes and the Floating Rate Undated Capital Securities.

The use of Secured Overnight Financing Rate (“SOFR”) as a reference rate is subject to important limitations

The rate of interest on the Floating Rate Notes and the Floating Rate Undated Capital Securities may be calculated on the basis of SOFR (as further described under Condition 5(b)(iii)(C) of the Note Conditions and Condition 4(b)(iii)(C) of the Undated Capital Securities Conditions).

In June 2017, the New York Federal Reserve’s Alternative Reference Rates Committee (the “**ARRC**”) announced SOFR as its recommended alternative to U.S. dollar LIBOR. However, the composition and characteristics of SOFR are not the same as those of LIBOR. SOFR is a broad U.S. Treasury repofinancing rate that represents overnight secured funding transactions. This means that SOFR is fundamentally different from LIBOR for two key reasons. First, SOFR is a secured rate, while LIBOR is an unsecured rate. Second, SOFR is an overnight rate, while LIBOR represents interbank funding over different maturities. As a result, there can be no assurance that SOFR will perform in the same way as LIBOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, market volatility or global or regional economic, financial, political, or regulatory events. For example, since publication of SOFR began in April 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmark or other market rates.

As SOFR is an overnight funding rate, interest on SOFR-based Notes and Undated Capital Securities with interest periods longer than overnight will be calculated on the basis of either the arithmetic mean of SOFR over the relevant interest period or compounding SOFR during the relevant interest period. As a consequence of this calculation method, the amount of interest payable on each interest payment date and the amount of distribution payable on each distribution payment date will only be known a short period of time prior to the relevant interest payment date and the relevant distribution payment date, respectively. Noteholders and Securityholders therefore will not know in advance the interest amount and the distribution amount which will be payable on such Notes and Undated Capital Securities.

Although the Federal Reserve Bank of New York has published historical indicative SOFR information going back to 2014, such prepublication of historical data inherently involves assumptions, estimates and approximations. Noteholders and Securityholders should not rely on any historical changes or trends in the SOFR as an indicator of future changes in the SOFR.

The Federal Reserve Bank of New York notes on its publication page for SOFR that use of the SOFR is subject to important limitations and disclaimers, including that the Federal Reserve Bank of New York may alter the methods of calculation, publication schedule, rate revision practices or availability of the SOFR at any time without notice. In addition, SOFR is published by the Federal Reserve Bank of New York based on data received from other sources. There can be no guarantee that the SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of the Noteholders and the Securityholders. If the manner in which the SOFR is calculated is changed or if SOFR is discontinued, that change or discontinuance may result in a reduction or elimination of the amount of interest payable on the Notes and the amount of distribution payable on the Undated Capital Securities and a reduction in the trading prices of the Notes and the Undated Capital Securities which would negatively impact the Noteholders and the Securityholders who could lose part of their investment.

The Note Conditions and the Undated Capital Securities Conditions provide for certain fallback arrangements in the event that a SOFR Benchmark Event occurs, which is based on the ARRC recommended language. There is however no guarantee that the fallback arrangements will operate as intended at the relevant time or operate on terms commercially acceptable to all Noteholders and Securityholders. Investors should consult their own independent advisers and make their own assessment about the potential risks in making any investment decision with respect to any Notes or Undated Capital Securities linked to SOFR.

The market continues to develop in relation to risk-free rates (including SONIA and SOFR) as reference rates for Floating Rate Notes and Floating Rate Undated Capital Securities

Investors should be aware that the market continues to develop in relation to risk-free rates, such as the Sterling Overnight Index Average (“SONIA”) and the Secured Overnight Financing Rates (“SOFR”), as reference rates in the capital markets and their adoption as alternatives to the relevant interbank offered rates. For example, on 29 November 2017, the Bank of England and the United Kingdom Financial Conduct Authority announced that the Bank of England’s Working Group on Sterling Risk-Free Rates had been mandated with implementing a broad-based transition to SONIA over the following four years across sterling bond, loan and derivatives markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. The New York Federal Reserve (the “NY Federal Reserve”) also began to publish SOFR in April 2018, and although the New York Federal Reserve has also begun publishing historical indicative SOFR going back to 2014, such historical indicative data inherently involves assumptions, estimates and approximations. Therefore, such risk-free rates have a limited performance history and the future performance of such risk-free rates is impossible to predict. As a consequence no future performance of the relevant risk-free rate or Notes or Undated Capital Securities referencing such risk-free rate may be inferred from any of the hypothetical or actual historical performance data. In addition, investors should be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates. For example, since publication of SOFR began, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Market participants and relevant working groups are exploring alternative reference rates based on risk-free rates, examples of which include term SONIA reference rates and term SOFR reference rates (which seek to measure the market’s forward expectation of a SONIA or SOFR rate over a designated term). The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Note Conditions and the Undated Capital Securities Conditions. In addition, the manner of adoption or application of risk-free rates in the markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such risk-free rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes or Undated Capital Securities referencing risk-free rates.

The use of risk-free rates as reference rates for notes and undated capital securities is nascent, and may be subject to change and development, both in terms of the substance of the calculation and in the development and adoption of market infrastructure for the issuance and trading of notes and undated capital securities referencing such rates. Notes and Undated Capital Securities referencing risk-free rates may have no established trading market when issued, and an established trading market may never develop or may not be very liquid which, in turn, may reduce the trading price of such Notes and Undated Capital Securities or mean that investors in such Notes and Undated Capital Securities may not be able to sell such Notes and Undated Capital Securities at all or may not be able to sell such Notes and Undated Capital Securities at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk. Investors should consider these matters when making their investment decision with respect to Notes or Undated Capital Securities referencing risk-free rates.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes and the Undated Capital Securities are legal investments for it, (ii) Notes and the Undated Capital Securities can be used as collateral for various types of borrowing, and (iii) other restrictions apply to its purchase or pledge of any Note or Undated Capital Security. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes and the Undated Capital Securities under any applicable risk-based capital or similar rules.

CONSIDERATION RELATING TO THE UNDATED CAPITAL SECURITIES

The Undated Capital Securities are perpetual securities and investors have no right to require redemption

The Undated Capital Securities are perpetual securities and have no maturity date. Securityholders have no right to require the Issuer to redeem their Undated Capital Securities whereas the Issuer can redeem the Undated Capital Securities in certain circumstances as described in the Undated Capital Securities Conditions. However, the Issuer is under no obligation to redeem the Undated Capital Securities at any time. The ability of the Issuer to redeem the Undated Capital Securities is subject to the Issuer (a) obtaining the prior written consent of the Monetary Authority (if then required) to the redemption, and (b) satisfying any conditions that the Monetary Authority may impose at that time.

This means that Securityholders have no ability to cash in their investment in the Undated Capital Securities, except if the Issuer exercises its right to redeem the Undated Capital Securities pursuant to the Undated Capital Securities Conditions or by selling their Undated Capital Securities. However, there can be no guarantee that the Issuer will exercise its option to redeem the Undated Capital Securities or the Issuer will be able to meet the conditions for redemption of the Undated Capital Securities. Securityholders who wish to sell their Undated Capital Securities may be unable to do so at a price at or above the amount they have paid for them, or at all, if insufficient liquidity exists in the market for the Undated Capital Securities.

In addition, upon the occurrence of a withholding tax event (as described in Condition 6(c)(i) of the Undated Capital Securities Conditions), a tax deduction event (as described in Condition 6(c)(ii) of the Undated Capital Securities Conditions) or a Capital Event (as defined in Condition 6(e) of the Undated Capital Securities Conditions), the Undated Capital Securities may be redeemed at the relevant redemption amounts, as more particularly described in the Undated Capital Securities Conditions. Also, if any Non-Viability Event occurs or Hong Kong Resolution Authority Power is exercised, as more fully described in “— *Considerations Relating to Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes And Undated Capital Securities — The terms of Non-Preferred Loss*

Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities may contain non-viability loss absorption and Hong Kong Resolution Authority Power provisions” and in the Undated Capital Securities Conditions, Securityholders may lose up to the full principal amount of the Undated Capital Securities.

There can be no assurance that Securityholders will be able to reinvest the amount received upon redemption at a rate that will provide the same rate of return as their investment in the Undated Capital Securities.

CONSIDERATIONS RELATING TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES OR UNDATED CAPITAL SECURITIES

A wide range of Notes and Undated Capital Securities may be issued under the Programme. A number of these Notes or Undated Capital Securities may have features which contain particular risks for potential investors. Set out below is a description of certain of such features:

Notes or Undated Capital Securities subject to optional redemption by the Issuer may have a lower market value than Notes or Undated Capital Securities that cannot be redeemed

An optional redemption feature is likely to limit the market value of Notes or Undated Capital Securities. During any period when the Issuer may elect to redeem Notes or Undated Capital Securities, the market value of those Notes or Undated Capital Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes or Undated Capital Securities when its cost of borrowing is lower than the interest rate on the Notes or the distribution rate on the Undated Capital Securities. At those times, a potential investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes or the distribution rate on the Undated Capital Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Dual Currency Notes or Undated Capital Securities have features which are different from single currency issues

The Issuer may issue Notes or Undated Capital Securities with principal or interest payable in one or more currencies which may be different from the currency in which the Notes or the Undated Capital Securities are denominated. Each potential investor should be aware that:

- (i) the market price of such Notes or Undated Capital Securities may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or Undated Capital Securities or even zero;
- (v) a Relevant Factor (as defined below) may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified; and

(vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

Failure by a potential investor to pay a subsequent instalment of partly-paid Notes may result in it losing all of its investment

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in a potential investor losing all of its investment.

The market price of floating rate Notes and floating rate Undated Capital Securities with a multiplier or other leverage factor may be volatile

Notes and Undated Capital Securities with floating interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Notes or Undated Capital Securities, the interest rate of which may be converted from fixed to floating interest rates, and vice-versa, may have lower market values than other Notes or Undated Capital Securities

Fixed or Floating Rate Notes or Undated Capital Securities may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes or Undated Capital Securities since it may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed or Floating Rate Notes Undated Capital Securities may be less favourable than then prevailing spreads on comparable Floating Rate Notes or Floating Rate Undated Capital Securities tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes and Undated Capital Securities. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes and Undated Capital Securities.

The market prices of Notes and the Undated Capital Securities issued at a substantial discount or premium tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks associated with Index Linked Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "**Relevant Factor**"). In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

(i) the market price of such Notes may be volatile;

- (ii) they may receive no interest;
- (iii) the payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable will likely be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of an index should not be viewed as an indication of the future performance of such index during the term of any Index Linked Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Index Linked Notes and the suitability of such Notes in light of its particular circumstances.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of its investment.

Variable rate Notes and the Undated Capital Securities with a multiplier or other leverage factor

Notes and the Undated Capital Securities with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Bearer Notes where denominations involve integral multiples: Definitive Notes

In relation to any issue of Bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If Definitive Notes are issued, each potential investor should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

CONSIDERATIONS RELATING TO NON-PREFERRED LOSS ABSORBING NOTES, DATED SUBORDINATED NOTES AND UNDATED CAPITAL SECURITIES

Certain considerations relating to enforcement

In most circumstances, the sole remedy against the Issuer available to the Trustee (on behalf of the holders of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities) to recover any amounts owing in respect of the principal of or interest on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes, or the principal of or distribution on the Undated Capital Securities will be to institute proceedings for the winding-up of the Issuer in Hong Kong. See *“Terms and Conditions of the Notes other than the Undated Capital Securities — Events of Default and Default”* and *“Terms and Conditions of the Undated Capital Securities — Default and Enforcement”*.

If the Issuer defaults on the payment of principal or interest on the Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes, or any amount of principal or distributions on the Undated Capital Securities, the Trustee will only institute a proceeding in Hong Kong for the winding-up of the Issuer if it is so contractually obliged. The Trustee will have no right to accelerate payment of the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes or the Undated Capital Securities in the case of default in payment or failure to perform a covenant except as they may be so permitted in the Trust Deed.

To the extent that the Trustee or the holders of the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities are entitled to any recovery with respect to the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities in any Hong Kong proceedings, the Trustee and such holders of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities might not be entitled in such proceedings to a recovery in U.S. dollars and might be entitled only to a recovery in Hong Kong dollars.

In Hong Kong proceedings, if the Issuer’s assets become subject to the control of a court-appointed receiver, interest or distributing on the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities would cease to accrue on the date of the court order and the relevant U.S. dollar amounts would be converted to Hong Kong dollars as at such date for purpose of claims.

Subordination of the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities could impair an investor’s ability to enforce its rights or realise any claims on the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities

The Non-Preferred Loss Absorbing Notes will be direct and unsecured obligations of the Issuer and shall rank subsequent in priority to all unsubordinated creditors of the Issuer. The Dated Subordinated Notes will be direct, unsecured and subordinated obligations of the Issuer and shall rank subordinate and junior in priority to the claims of all unsubordinated creditors of the Issuer and the holders of Non-Preferred Loss Absorbing Instruments.

Upon the occurrence of any winding-up proceeding, the rights of the holders of the relevant Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities to payments on such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities will be subordinated in right of payment to the prior payment in full of all deposits and other liabilities of the Issuer except those liabilities which rank equally with or junior to the relevant Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities. In a winding-up proceeding, the holders of the relevant Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities may recover less than the holders of deposit liabilities or the holders of other unsubordinated liabilities of the Issuer. As there is no precedent for a winding-up of a major financial institution in Hong Kong, there is uncertainty as to the manner in

which such a proceeding would occur and the results thereof. Although Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities may pay a higher rate of interest or distribution than comparable instruments which are not subordinated, there is a risk that an investor in Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities will lose all or some of its investment should the Issuer become insolvent.

In addition, payments of principal, interest and distribution in respect of the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities are conditional upon the Issuer being solvent. No such principal, interest or distribution will be payable in respect of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities except to the extent that the Issuer could make such payment in whole or in part and still be solvent immediately thereafter. See Condition 3 of “*Terms and Conditions of the Notes other than the Undated Capital Securities*” for a full description of subordination and the payment obligations of the Issuer under the Non-Preferred Loss Absorbing Notes and Dated Subordinated Notes and see Condition 3 of “*Terms and Conditions of the Undated Capital Securities*”.

The terms of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities may contain non-viability loss absorption and Hong Kong Resolution Authority Power provisions

To the extent that a series of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities contains provisions relating to loss absorption and Hong Kong Resolution Authority Power upon the occurrence of a Non-Viability Event of the Issuer as determined by the relevant Hong Kong Resolution Authority, the Issuer may be required, subject to the terms of the relevant series of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities, irrevocably (without the need for the consent of the holders of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities) to effect either a full write-off of the outstanding principal and accrued and unpaid interest or distribution in respect of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities, or a conversion of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities into the ordinary shares of the Issuer. To the extent relevant in the event that Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities are written off, any written-off amount shall be irrevocably lost and holders of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities will cease to have any claims for any principal amount and accrued but unpaid interest or distribution which has been subject to write-off. In the event that Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities feature a conversion to the ordinary shares of the Issuer upon the occurrence of a Non-Viability Event, holders would not be entitled to any reconversion of ordinary shares to Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities.

The occurrence of a Non-Viability Event and the exercise of Hong Kong Resolution Authority Power may be inherently unpredictable and may depend on a number of factors which may be outside of the Group’s control

The occurrence of a Non-Viability Event and the exercise of Hong Kong Resolution Authority Power are dependent on a determination by the relevant Hong Kong Resolution Authority (a) that a write-off, without which the Issuer would become non-viable, is necessary; or (b) a decision has been made to make a public sector injection of capital, or equivalent support, without which the Issuer would have become non-viable. As a result, the relevant Hong Kong Resolution Authority may require or may cause a write-off in circumstances that are beyond the control of the Issuer and the Group and with which neither the Issuer nor the Group agree. Because of the inherent uncertainty regarding the determination of whether a Non-Viability Event exists, it will be difficult to predict when, if at all, a write-off will occur. Accordingly, the trading behaviour in respect of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities which have the non-viability loss

absorption feature is not necessarily expected to follow trading behaviour associated with other types of securities. Any indication that the Issuer is trending towards a Non-Viability Event could have a material adverse effect on the market price of the relevant Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities.

Potential investors should consider the risk that a holder of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities which have the non-viability loss absorption feature may lose all of their investment in such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities, including the principal amount plus any accrued but unpaid interest or distribution, in the event that a Non-Viability Event occurs.

There is no assurance that any contractual provisions with non-viability loss absorption or Hong Kong Resolution Authority Power features, to the extent applicable, will be sufficient to satisfy the Basel III-compliant requirements that the relevant Hong Kong Resolution Authorities may implement in the future. There is a risk that any relevant Hong Kong Resolution Authority may deviate from the Basel III proposals by implementing reforms which differ from those envisaged by the Basel Committee.

The Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities may be subject to a full or partial Write-off

Investors may lose the entire amount of their investment in any Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities in which Write-off (as defined in the Note Conditions and the Undated Capital Securities Conditions) upon the occurrence of a Non-Viability Event or the exercise of Hong Kong Resolution Authority Power is specified, which will lead to a full or partial Write-off. Upon the occurrence of a Write-off, the principal amount and any accrued but unpaid interest or distribution of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities will automatically be written down and if there is a full Write-off, the principal amount and any accrued but unpaid interest or distribution may be written down completely and such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities will be automatically cancelled.

In addition, the subordination and set-off provisions set out in Condition 3 of the Note Conditions and the Undated Capital Securities Conditions are effective only upon the occurrence of any winding-up proceedings of the Issuer. In the event that a Non-Viability Event occurs or the Hong Kong Resolution Authority Power is exercised, the rights of holders of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities and the Receipts and Coupons relating to the Non-Preferred Loss Absorbing Notes and Dated Subordinated Notes shall be subject to Condition 7. This may not result in the same outcome for Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities as would otherwise occur under Condition 3 upon the occurrence of any winding-up proceedings of the Issuer.

Furthermore, upon the occurrence of a Write-off of any Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities, interest or distribution will cease to accrue and all interest or distribution amounts that were not due and payable prior to the Write-off shall become null and void. Consequently, Noteholders or Securityholders will not be entitled to receive any interest or distribution that has accrued on such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities from (and including) the last Interest Payment Date or last Distribution Payment Date falling on or prior to the Non-Viability Event Notice.

Any such Write-off will be irrevocable and the Noteholders or Securityholders will, upon the occurrence of a Write-off, not receive any shares or other participation rights of the Issuer or be entitled to any other participation in the upside potential of any equity or debt securities issued by the Issuer or any other member of the Group, or be entitled to any subsequent write-up or any other compensation in the event of a potential recovery of the Issuer or the Group.

Upon the occurrence of a Non-Viability Event, clearance and settlement of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities will be suspended and there may be a delay in updating the records of the relevant clearing system to reflect the amount written-off

Following the receipt of a Non-Viability Event Notice, all clearance and settlement of the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes and the Undated Capital Securities will be suspended. As a result, Noteholders or Securityholders will not be able to settle the transfer of any Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities from the commencement of the Suspension Period (as defined in “*Terms and Conditions of the Notes other than the Undated Capital Securities*” and “*Terms and Conditions of the Undated Capital Securities*”), and any sale or other transfer of the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes and the Undated Capital Securities that a holder may have initiated prior to the commencement of the Suspension Period that is scheduled to settle during the Suspension Period will be rejected by the relevant clearing system and will not be settled within the relevant clearing systems.

While a Tranche of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities that contains non-viability loss absorption or Hong Kong Resolution Authority Power provisions is represented by one or more Global Notes or Global Certificates (as applicable) and a Non-Viability Event occurs, the records of Euroclear and Clearstream or any other clearing system (other than the CMU) in respect of their respective participants’ position held in such Tranche of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities may not be immediately updated to reflect the amount to be written-off (where applicable) and may continue to reflect the nominal amount of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities prior to the Write-off as being outstanding, for a period of time. The update process of the relevant clearing system may only be completed after the date on which the Write-off is scheduled. Notwithstanding such delay, holders of such Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities may lose the entire value of their investment in Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities on the date on which the Write-off occurs. No assurance can be given as to the period of time required by the relevant clearing system to complete the update of their records.

Further, the conveyance of notices and other communications by the relevant clearing system to their respective participants, by those participants to their respective indirect participants, and by the participants and indirect participants to beneficial owners of interests in the Global Bond or Global Certificate (as applicable) will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

The operation of the resolution regime in Hong Kong may override the contractual terms of the Notes and the Undated Capital Securities

In Hong Kong, the FIRO became effective on 7 July 2017. The Monetary Authority is the relevant Hong Kong Resolution Authority in relation to banking sector entities in Hong Kong, such as the Issuer. The Monetary Authority’s powers under FIRO include, but are not limited to, powers to write off or convert all or a part of the principal amount of, or interest or distribution on, the Notes or the Undated Capital Securities, and powers to amend or alter the contractual provisions of the Notes or the Undated Capital Securities. Whilst the FIRO sets out a framework of the resolution regime in Hong Kong, much of the detail is to be legislated through secondary legislation and supporting rules, and as such the impact of it on the Notes and the Undated Capital Securities cannot currently be fully accurately assessed.

The operation of the resolution regime in Hong Kong may affect the rights of the Noteholders and Securityholders and could result in the Noteholders and Securityholders losing their rights in relation to accrued and future interest or distribution without compensation. See “— *The terms of Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities may contain non-viability loss absorption and Hong Kong Resolution Authority Power provisions*”.

Regulations on non-viability loss absorption and Hong Kong Resolution Authority Power are new, untested and subject to interpretation and application by regulations in Hong Kong

The regulations on non-viability loss absorption and Hong Kong Resolution Authority Power are new and untested, and will be subject to the interpretation and application by the relevant Hong Kong Resolution Authority. It is uncertain how the relevant Hong Kong Resolution Authority would determine the occurrence of a Non-Viability Event and the exercise of the Hong Kong Resolution Authority Power, and it is possible that the grounds that constitute Non-Viability Events may change (including that additional grounds are introduced).

Accordingly, the operation of any such future legislation may have an adverse effect on the position of holders of any Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities.

A potential investor must not invest in any Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes or Undated Capital Securities unless it has the knowledge and expertise to evaluate how the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes and the Undated Capital Securities will perform under changing conditions, the resulting effects on the likelihood of a Write-off and the value of the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes and the Undated Capital Securities, and the impact this investment will have on the potential investor’s overall investment portfolio. Prior to making an investment decision, potential investors should consider carefully, in light of their own financial circumstances and investment objectives, all the information contained in this Offering Circular.

CONSIDERATIONS RELATING TO RENMINBI-DENOMINATED NOTES AND UNDATED CAPITAL SECURITIES

Notes and the Undated Capital Securities denominated in Renminbi (“**Renminbi Notes and Undated Capital Securities**”) may be issued under the Programme. Renminbi Notes and Undated Capital Securities contain particular risks for potential investors.

Renminbi is not freely convertible. There are significant restrictions on remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of Renminbi Notes and Undated Capital Securities

Renminbi is not freely convertible at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been significant reduction in control by the PRC government in recent years, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi by foreign investors into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

In respect of Renminbi foreign direct investments (“**FDI**”), the PBOC promulgated the Administrative Measures on Renminbi Settlement of Foreign Direct Investment (the “**PBOC FDI Measures**”) on 13 October 2011 as part of the PBOC’s detailed Renminbi FDI accounts administration system. The system covers almost all aspects in relation to FDI, including capital injections, payments for the acquisition of PRC domestic enterprises, repatriation of dividends and other distributions, as well as Renminbi denominated cross-border loans. On 14 June 2012, the PBOC issued a circular setting out the operational guidelines for FDI. Under the PBOC FDI Measures, special approval for FDI and shareholder loans from the PBOC, which was previously required, is no longer necessary. In some cases however, post-event filing with the PBOC is still necessary. On 5 June 2015, the PBOC further issued the amendment rules for the PBOC FDI Measures as well as its implementing rules, under which the registered capital verification requirement and the precondition of full contribution of the registered capital in respect of the borrowing of foreign debt denominated in Renminbi are cancelled.

On 3 December 2013, the Ministry of Commerce of the PRC (“**MOFCOM**”) promulgated the Circular on Issues in relation to Cross-border Renminbi Foreign Direct Investment (the “**MOFCOM Circular**”), which became effective on 1 January 2014, to further facilitate FDI by simplifying and streamlining the applicable regulatory framework. Pursuant to the MOFCOM Circular, the appropriate office of MOFCOM and/or its local counterparts will grant written approval for each FDI and specify “**Renminbi Foreign Direct Investment**” and the amount of capital contribution in the approval. Unlike previous MOFCOM regulations on FDI, the MOFCOM Circular removes the approval requirement for foreign investors who intend to change the currency of its existing capital contribution from a foreign currency to Renminbi. In addition, the MOFCOM Circular also clearly prohibits the FDI funds from being used for any investment in securities and financial derivatives (except for investment in the PRC listed companies as strategic investors) or for entrustment loans in the PRC. Effective 30 July 2017, pursuant to the Decision on Revision of the Provisional Measures on Administration of Filing for Establishment and Change of Foreign Investment Enterprises, the establishment and change of foreign invested enterprises, other than those subject to special administration measures, only needs to be filed with the local arm of MOFCOM. As such, the aforesaid written approval requirement regarding “**Renminbi Foreign Direct Investment**” set forth in the MOFCOM Circular has been replaced with a simplified record filing requirement.

The PBOC FDI Measures, the MOFCOM Circular and other PRC laws, regulations and policies in relation to the general administration of Renminbi will be subject to interpretation and application by the relevant authorities in the PRC.

There is no assurance that the PRC government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that any schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that any regulatory restrictions inhibit the ability of the Issuer to repatriate funds outside the PRC to meet its obligations under Renminbi Notes and Undated Capital Securities, the Issuer will need to source Renminbi offshore to finance such obligations under the relevant Renminbi Notes and Undated Capital Securities, and its ability to do so will be subject to the overall availability of Renminbi outside the PRC.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of Renminbi Notes and Undated Capital Securities and the Issuer’s ability to source Renminbi outside the PRC to service such Renminbi Notes and Undated Capital Securities

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. Since February 2004, in accordance with arrangements between the PRC central government and the Hong Kong government, licensed banks in Hong Kong may offer limited Renminbi denominated banking services to Hong Kong residents and specified business customers. The PBOC has also established a Renminbi clearing and settlement system for participating banks in Hong Kong. On July 2010, further amendments were made to the

Settlement Agreement on the Clearing of RMB Business (the “**Settlement Agreement**”) between the PBOC and Bank of China (Hong Kong) Limited (the “**RMB Clearing Bank**”) to further expand the scope of Renminbi business for participating banks in Hong Kong. Pursuant to the revised arrangements, all corporations are allowed to open Renminbi accounts in Hong Kong; there is no longer any limit on the ability of corporations to convert Renminbi; and there will no longer be any restriction on the transfer of Renminbi funds between different accounts in Hong Kong. In addition, the PBOC has now established Renminbi clearing and settlement systems with financial institutions in other major global financial centres (each also a “**RMB Clearing Bank**”), including London, Frankfurt and Singapore to further internationalise the Renminbi.

There are restrictions imposed by the PBOC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The Renminbi Clearing Banks only have access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the participating banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the settlement arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the Renminbi Notes and Undated Capital Securities. To the extent the Issuer is required to source Renminbi in the offshore market to service its Renminbi Notes and Undated Capital Securities, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

Investment in Renminbi Notes and Undated Capital Securities is subject to exchange rate risks

The value of the Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by changes in the PRC, by international political and economic conditions and by many other factors. All payments of interest and principal will be made with respect to Renminbi Notes and Undated Capital Securities in Renminbi. As a result, the value of these Renminbi payments in U.S. dollars or other foreign currencies may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the U.S. dollar or other foreign currencies, the value of investment in U.S. dollars or other applicable foreign currencies will decline. In August 2015, the PBOC changed the way it calculates the mid-point price of Renminbi against the U.S. dollar, requiring the market-makers who submit for the PBOC’s reference rates to consider the previous day’s closing spot rate, foreign-exchange demand and supply as well as changes in major currency rates. This change, and other changes such as widening the trading band that may be implemented, may increase volatility in the value of the Renminbi against foreign currencies. In May 2017, the PBOC further decided to introduce counter-cyclical factors to offset the market pro-cyclicality, so that the midpoint quotes could adequately reflect China’s actual economic performance. However, the volatility in the value of the Renminbi against other currencies still exists.

Investment in Renminbi Notes and Undated Capital Securities is subject to interest rate risks

The PRC government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC laws and regulations and prevailing market conditions.

As Renminbi Notes and Undated Capital Securities may carry a fixed interest rate or distribution rate, the trading price of Renminbi Notes and Undated Capital Securities will consequently vary with the fluctuations in the Renminbi interest rates. If holders of Renminbi Notes and Undated Capital Securities propose to sell their Renminbi Notes and Undated Capital Securities before their maturity, they may receive an offer lower than the amount they have invested.

Payments in respect of Renminbi Notes and Undated Capital Securities will only be made to investors in the manner specified in such Renminbi Notes and Undated Capital Securities

All payments to investors in respect of Renminbi Notes and Undated Capital Securities will be made solely by (i) when Renminbi Notes and Undated Capital Securities are represented by a global certificate, transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing CMU rules and procedures, or (ii) when Renminbi Notes and Undated Capital Securities are in definitive form, transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. The Issuer cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

There may be PRC tax consequences with respect to investment in the Renminbi Notes and Undated Capital Securities

In considering whether to invest in the Renminbi Notes and Undated Capital Securities, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdictions. The value of the holder's investment in the Renminbi Notes and Undated Capital Securities may be materially and adversely affected if the holder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those Renminbi Notes and Undated Capital Securities.

USE OF PROCEEDS

The Issuer intends to use the net proceeds from each issue of Notes or Undated Capital Securities for its general corporate purposes.

CAPITALISATION AND INDEBTEDNESS

INTRODUCTION

Incorporated in 1918, BEA is a leading Hong Kong-based financial services group listed on the HKSE.

The Group provides a comprehensive range of corporate banking, personal banking, wealth management and investment services. The Group's products and services include syndicated loans, trade finance, deposit-taking, foreign currency savings, remittances, mortgage loans, consumer loans, credit cards, Cyberbanking, retail investment and wealth management services, private banking, Renminbi services, foreign exchange margin trading, brokerage services, MPF services and general and life insurance.

BEA is one of the first foreign banks to have received approval to establish a locally-incorporated bank in Mainland China. As a locally-incorporated bank and a wholly-owned subsidiary of BEA, BEA (China) obtained the Financial Institution Business Permit from CBIRC on 20 March 2007 and the business licence from SAIC on 29 March 2007, BEA (China) officially commenced business on 2 April 2007. BEA (China) provides comprehensive RMB and foreign currency banking services to all customers. Services include personal banking and wealth management, loans and advances, debit cards and credit cards, Cyberbanking and cash management, private banking, investment and derivative products, agency services for life and general insurance, remittance and settlement, RMB cross-border business, trade finance facilities, supply chain financing, standby letters of credit, bank guarantees and distribution of local mutual funds.

History

Since its founding in 1918, BEA has dedicated itself to delivering professional banking services to the local community in Hong Kong, particularly small and medium enterprises. BEA set up its first branch in Mainland China in Shanghai in 1920 and has operated in Mainland China ever since. BEA's shares started trading on the local stock exchanges in Hong Kong in the early 1920s.

In 1975, BEA launched the first Hong Kong dollar credit card in conjunction with Bank of America, called the East Asia BankAmericard/VISA. In 1979, the East Asia BankAmericard/VISA credit card became the first credit card that was accepted in Mainland China as a result of an agreement between BEA and the Bank of China on foreign currency credit card settlement services.

BEA is one of the founders of Joint Electronic Teller Services Ltd. (“**JETCO**”), which was formed to set up a network of ATMs in Hong Kong and Macau. BEA is also one of the founders of EPS Company (Hong Kong) Limited (“**EPSCO**”) in Hong Kong, which was formed to facilitate the electronic transfer of funds at the points of sale. In 1999, BEA was the first bank in Hong Kong to launch online stock trading through its wholly-owned subsidiary, East Asia Securities Company Limited (“**East Asia Securities**”). BEA was also the first bank in Hong Kong to provide comprehensive internet banking services to its customers, through its award-winning Cyberbanking service.

In 2008, BEA (China) became the first foreign bank to launch RMB debit cards and RMB credit cards in Mainland China.

In June 2009, BEA entered into a number of strategic cooperation agreements with Criteria CaixaCorp, S.A. (which changed its name to CaixaBank S.A. on 30 June 2011) (“**CaixaBank**”), a Spanish listed holding company controlled by “la Caixa”. The agreements enable BEA to leverage the

extensive resources of CaixaBank to further develop its business, including cross-border referrals, training and knowledge transfer as well as funding. The alliance with “la Caixa” group also enhances BEA’s access to the financial industry in Spain, Europe and Latin America, and creates opportunities for potential joint business development in the Asia-Pacific region.

In July 2009, BEA (China) became the first locally-incorporated foreign bank to issue RMB retail bonds to retail investors and raised RMB4 billion through its debut issue of RMB bonds in Hong Kong. In September 2009, BEA (China) was granted the status of Domestic Settlement Bank and Domestic Agent Bank for cross-border RMB trade settlement services, and completed its first cross-border RMB trade settlement transaction. In November 2010, BEA (China) completed its first cross-border RMB transaction for foreign direct investment.

In June 2013, BEA (China) was among the first batch of foreign banks to be granted a local mutual fund distribution licence in Mainland China. In February 2014, BEA (China) became the first foreign bank approved by PBOC to act as a reserve bank for payment institutions. In October 2015, BEA (China) was one of the first foreign banks to be qualified as a direct participating bank of the Cross-border Interbank Payment System.

In December 2017, East Asia Qianhai Securities Company Limited (“**EA Qianhai Securities**”) received licence from the China Securities Regulatory Commission for commencement of operation. BEA is the largest shareholder of EA Qianhai Securities with a 49 per cent. interest. EA Qianhai Securities is incorporated in Qianhai, Shenzhen with issued capital of RMB1.5 billion. EA Qianhai Securities is one of the few fully licensed securities companies established under Supplement X of CEPA.

As the first foreign bank to enter Qianhai, BEA (China) took the lead in setting up its Qianhai Sub-branch in early 2013, focusing on supporting and serving the development of the zone. In July 2018, BEA (China) became the first foreign bank to receive approval to open a full branch in Qianhai.

RECENT DEVELOPMENTS

Disposal of BEA Life and Entry into Distribution Arrangements

On 23 September 2020, BEA announced that it had completed its comprehensive strategic review and decided to initiate a sale process for BEA Life Limited (“**BEA Life**”). Subsequently, BEA launched the sale process of BEA Life and the legacy life insurance portfolio underwritten by Blue Cross (Asia-Pacific) Insurance Limited (“**Blue Cross**”). In March 2021, BEA entered into a share sale and framework agreement with AIA Company Limited (“**AIA**”) in relation to the sale of all the issued shares in the share capital of BEA Life to AIA. On the same day, BEA Life and Blue Cross entered into a portfolio transfer agreement under which the residual portfolio of the long-term business of Blue Cross will be transferred to BEA Life (the “**Portfolio Transfer**”). The completion of the sale of BEA Life took place on 1 September 2021, henceforth BEA Life ceased to be a subsidiary of BEA and the financial results of BEA Life will no longer be consolidated into the financial statements of BEA. The completion of the Portfolio Transfer is subject to both regulatory approval and consent of the Hong Kong courts, and is expected to take place in June 2022.

In addition, BEA entered into a regional distribution agreement (the “**Distribution Agreement**”) with AIA in March 2021 pursuant to which AIA Group Limited (“**AIA Group**”) and its subsidiaries will be the exclusive providers of life insurance products and long-term savings plans for BEA’s personal banking customers in Hong Kong, the PRC and Macau. Under the Distribution Agreement, BEA will leverage AIA Group’s extensive product expertise and resources to build out its regional omni-channel insurance distribution platform. BEA will focus on selling AIA’s life insurance and long-term savings plans, which offer enhanced wealth accumulation opportunities to customers.

Please refer to BEA's announcement on the HKSE entitled "Discloseable Transaction — Disposal of BEA Life Limited and Entry into Distribution Arrangements" and dated 24 March 2021, and BEA's announcement on the HKSE entitled "Update Announcement on Discloseable Transaction — Disposal of BEA Life Limited and Entry into Distribution Arrangements" and dated 1 September 2021 for further information.

The Ongoing COVID-19 Pandemic

The ongoing COVID-19 pandemic has caused substantial disruptions in Hong Kong, the PRC and international economies and markets as well as additional uncertainties in the Group's operating environment. At the end of January 2020, BEA activated its established emergency response protocol for infectious diseases, introducing work-from-home arrangements where practicable and appropriate. A number of branches had been closed temporarily in an effort to limit the spread of COVID-19, as well as protect both its customers and staff members' health and safety. BEA has also allowed principal moratoriums, loan tenor extensions and temporary conversion of unutilised trade facilities to overdrafts to certain of its customers whilst continuing the efforts on proactive management of asset quality such as undertaking various stress testing and scenario planning exercises. The Group has been closely monitoring the impact of the developments on the Group's businesses and will keep its contingency measures and risk management under review as the situation evolves.

Please see "*Investment Considerations — Considerations Relating to the Group — Hong Kong Economy*" and "*Investment Considerations — Considerations Relating to the Group — Occurrence (or escalation and/or intensification) of any force majeure events, political unrest or civil disobedience movements, natural disasters, outbreaks of contagious diseases and other disasters in Asia or elsewhere*" for further information.

STRATEGY

BEA's core objectives are to strengthen its position and to further develop its domestic franchise as the largest independent local bank in Hong Kong, and to further diversify its operations and expand its operations in Mainland China and other overseas countries. The Group will continue to maintain its growth strategy for its businesses and operations and, at the same time, keep up the process of enhancing its total shareholder return. Given the increasingly close economic connection among Mainland China, Hong Kong and the countries of Southeast Asia, the Group will continue to integrate its services across Hong Kong, Mainland China and international networks and capitalise new business opportunities in the Guangdong — Hong Kong — Macau Greater Bay Area (the "**Greater Bay Area**"). The key components of the Group's strategy are below.

Further Expansion in Mainland China and Other Overseas Countries

BEA intends to continue to develop the Group's business in Mainland China and other overseas markets. The Mainland China market remains an important focus for the Group. BEA intends to consolidate and strengthen the Group's position in Mainland China through capitalising on opportunities arising from the liberalisation of the banking sector and the internationalisation of RMB. Through the establishment of a locally-incorporated bank, BEA (China), the Group is able to provide a comprehensive range of RMB and foreign currency banking products and services to customers in Mainland China. BEA (China) will continue to optimise the use of its assets and its Mainland China — Hong Kong connection to deliver a wide range of tailored services for its customers, in particular to meet the demands of high net worth and corporate customers in Mainland China seeking to expand their businesses in Hong Kong and overseas. As a key driver of growth of the Group, BEA (China) will further strengthen cross-border businesses among Mainland China, Hong Kong and overseas to capture opportunities arising from increasing business flows to and from Mainland China. Leveraging the Group's international banking experience and long history of presence in Mainland China, BEA (China) aims to position itself as "the most localised foreign bank in Mainland China".

Given the size of the Mainland China market and the extensive physical presence of the domestic banks, BEA does not intend to compete with the domestic banks directly by opening an extensive branch network. Instead, the Group will accelerate digitalisation with variant mobile platforms, such as mobile banking, WeChat banking and tablet banking, to extend its reach to customers. BEA (China) currently focuses on lending to high quality customers, such as state-owned enterprises, listed companies, customers who have long-standing business relationship with the Group and privately-owned enterprises with good credit standing stemming from emerging pillar industries such as green energy, auto, healthcare, technology, media and telecommunications. Additionally, BEA (China) focuses on enhancing its product and service capabilities in areas such as trade finance, transaction banking and investment banking. Treasury products are another promising area for growth. BEA (China) has made significant inroads into the onshore RMB options market.

In view of the internationalisation of RMB, the Group continues to further strengthen collaboration among its business units in Hong Kong, Mainland China and overseas. To capture opportunities arising from increasing business flows to and from Mainland China, BEA (China) provides integrated cross-border financial services for both trade and non-trade transactions, so as to meet clients' growing needs in overseas acquisitions and business expansion. Furthermore, BEA (China) is working closely with other business units of the Group to capture opportunities arising from the Greater Bay Area initiative in particular. In June 2020, BEA launched its new cross-boundary mortgage loan service that helps customers looking to purchase properties in the Greater Bay Area. In January 2021, BEA appointed the Head of Greater Bay Area Office. The appointment further strengthens the cross-boundary collaboration between BEA's Hong Kong and Mainland China operations in order to capitalise on the prospects arising from the Greater Bay Area.

BEA (China) intends to optimise its branch network, improve its outlet productivity, carry out a cost-effective branch network and readjust the layout of its sub-branches according to business needs. By streamlining its operations through digitalisation and process enhancement, BEA (China) is well-positioned to capture more opportunities with similar resource bases.

Improving operating efficiency through various transformation initiatives will be the main focus of BEA (China) in the future. Aligning with the Group's strategy, BEA (China) has formulated a three-year digital transformation plan to further improve data governance, big data analytic capabilities and workflow automation. At the same time, BEA (China) has developed a technology roadmap to improve system resilience, and implement a more agile and cost-efficient information technology infrastructure to facilitate more scalable growth in the future. These initiatives will lay the essential foundation to enhance customer experience, strengthen risk management and improve productivity of BEA (China) in the long run.

In addition, BEA intends to continue to expand the Group's business in other overseas markets as and when opportunities arise. Overseas branches will continue to enhance their local portfolios and expand collaboration with the head office and BEA (China) to further develop cross-border financing business and to expand cross-selling opportunities, particularly for Chinese corporations' business expansion and overseas investments, for enhancing clients' total value to the Group.

Development of Green and Sustainable Finance

Meanwhile, BEA remains committed to supporting the development of green and sustainable finance in Hong Kong. BEA established a Green & Sustainability-linked Lending Policy in the first quarter of 2021, with a focus on helping customers transition to a low-carbon economy. The value of green loans and bond investments in the corporate portfolio rose notably during this period. BEA will continue to enhance its lending and investment policies, incorporate climate-related risk assessment in its financing decisions, and help clients to assess and manage sustainability risks and opportunities.

BEA's overseas operations are also committed to the development of green and sustainability-linked financing in order to support the long-term growth of BEA.

Diversification of Non-interest Income

In light of the challenging operating environment caused by various factors including the ongoing spread of COVID-19, BEA is transitioning towards a more “digital-led, asset-light” business model with a greater focus on fee income. The Group implements its strategy in Hong Kong by continuing to broaden its product range, upgrading product features and exploring new market opportunities. The Group’s businesses of wealth management, private banking, trade finance and hedging solutions will continue to be the focus of the Group’s core business development in the near future. The Group will also continue to intensify cross-selling opportunities to its existing customer base. In addition, the Group will drive and implement ongoing improvements on customer platforms, such as the Cyberbanking and BEA apps, to further enhance service quality and offer omni-channels for new customers that are less readily accessible through traditional physical channels.

Enhancement of Profitability via Active Capital Management

BEA intends to continue to optimise the Group’s asset mix through active capital management and allocation in order to enhance its profitability and net worth, with the special emphasis on the “Return on Risk-weighted Assets”. The Group will also absorb low-cost deposits across all business units and implement multi-pronged strategy to reduce funding costs.

Transformation of its Branch Network

Through repositioning and rationalising its branch network and re-distributing resources, the Group seeks to transform its Hong Kong branches into deposit taking centres and sales centres to provide banking products and services to its customers and in particular, to target high net worth customers. The Group will endeavour to enhance its appeal to further penetrate affluent, young professionals and millennials, high net worth individuals, mid-cap and cash flow-rich companies as well as cross-border customers.

BEA intends to increase the Group’s investments in digital strategy to reduce the cost of banking operations, and continue to embrace technology in driving mobile transactions with payment and lifestyle features. The Group will also continue to implement a straight-through, paperless branch operation model to enhance efficiency and service delivery, and upgrade its branch services with new technologies and processes to achieve its goal of becoming the primary service provider for its clients.

In addition, BEA has established a new Digital & Innovation Office which will lead the Group’s digital strategy, focusing on enhancing the Group’s data analytics capabilities, strengthening the insights into customer behaviour and preferences, and building customised fintech solutions. BEA (China) also reallocates its resources to the construction of its online infrastructure, in alignment with customer trends. The Group aims to continue the strategy of developing innovative and user-friendly services and tools to best serve its customers, furthering its business focus on being a customer-centric financial services provider.

Organic Growth and Partnerships

The Group maintains a close focus on creating value for customers and investors, providing high quality financial services and seeking investment opportunities that generate favourable returns. In particular, BEA’s corporate banking has been repositioned as a total solution service provider and has set up capacity to serve small-to-medium-sized enterprises and mid-market segments. BEA aims to grow organically, by providing one-stop financial services to customers, and through partnerships, by establishing partnerships to generate new business across the Group. BEA will continue to take a disciplined approach to partnerships and investments, as well as capture new business opportunities and enhance service quality by tapping into the strength and expertise of its shareholders and strategic partners.

In March 2021, BEA announced the formation of a 15-year exclusive bancassurance partnership with AIA Group covering Hong Kong and Mainland China. Under the Distribution Agreement, AIA Group will have exclusive access to provide life and long-term savings insurance solutions to BEA's sizeable retail customer base. BEA will leverage AIA Group's extensive product expertise and resources to build out its regional omni-channel insurance distribution platform, generating sustainable fee income growth. Please see "*Business of the Group — Recent Developments — Disposal of BEA Life and Entry into Distribution Arrangements*" for further information. BEA will continue to conduct periodic reviews on its business portfolio, business lines and investments in order to ensure optimal allocation of its resources.

Focus on Enhancing Operational Efficiency

BEA aims to further enhance efficiency and market competitiveness. The Group will continue to maintain strict control over costs throughout the Group and maintain cost discipline while investing in areas that offer good growth potential. The Group will also continue to enforce and explore technological innovation to streamline the selling, servicing and operation processes. A selection of banking products will be sold with the transactions processed via a wide range of e-channels. The Group will focus on growth across its operations and implement strategies to optimise its asset and portfolio mix, as well as remaining vigilant in managing its risks and striving to enhance efficiency and productivity. In addition, the Group will allocate more resources to proactively manage its credit risk control and protect asset quality. The Group has made continuous efforts to proactively manage its asset quality. For example, various stress testing and scenario planning exercises have been undertaken to tighten risk management, and the Group's lending exposure to clients in industries which have been subject to adverse economic or market conditions has been closely monitored.

HONG KONG

Home Mortgages

As at 31 December 2018, 2019 and 2020 and 30 June 2021, home mortgages (including loans for the purchase of flats in the Home Ownership Scheme (“HOS”), Private Sector Participation Scheme (“PSPS”) and Tenants Purchase Scheme (“TPS”) and loans for the purchase of other residential properties) in Hong Kong represented one of the most significant segments of the Group’s total loans and advances to customers, accounting for approximately HK\$56,340 million, HK\$90,443 million, HK\$88,895 million and HK\$88,026 million, respectively, or approximately 11.3 per cent., 17.8 per cent., 17.3 per cent. and 16.5 per cent., respectively, of the Group’s total loans and advances to customers. The majority of home mortgages are extended to buyers of housing units in Hong Kong who intend to occupy the premises, which include advances guaranteed by HKSARG under HOS and TPS to assist lower income families in purchasing homes. Other home mortgages are extended to individuals purchasing residential units for investment purposes and refinancing.

All home mortgage advances are secured by a first legal charge on the property and, in certain circumstances, the Group may also require personal guarantee as additional security. The Group provides various mortgage plans, including floating Prime-based rate and floating HIBOR-based rate mortgage plans which are repayable by instalments. For a discussion of the Group’s loan-to-value lending limits applicable to home mortgage advances, see “*Selected Statistical and Other Information — Risk Management and Credit Policies*”. For a discussion of the Group’s lending rates applicable to home mortgage advances, see “*Selected Statistical and Other Information — Advance Portfolio — Advance Analysis*”. The Group maintains close relationships with most property developers in Hong Kong, which has enabled the Group to source a significant amount of home mortgage and commercial mortgage advance business.

Trade Finance

Trade finance comprises loans and services to companies to accommodate their working capital requirements through short-term advances, trust receipts, invoice financing loans, export credit, packing loans, shipping guarantees, issuance of all types of documentary credits and factoring facilities.

The customers of the Group's trade finance services range from small-to-medium-sized enterprises to multinational corporations. Trade finance advances are made on a secured basis by way of a mortgage of property or other collateral or on an unsecured basis. BEA intends to increase income contribution and market share from trade finance by providing the Group's customers with more market-oriented products. For example, in October 2018, BEA, together with six other banks, jointly launched a digital trade finance platform, eTradeConnect, being the first trade finance platform leveraging blockchain technology in Hong Kong.

The trade finance sector in Hong Kong is well developed and, consequently, the Group is seeking to capitalise on its network in Mainland China to market its trade finance services to the increasing number of cross-border customers.

Consumer Finance

Consumer advances include unsecured or secured advances to individuals for fulfilling different needs and purposes, and also include overdrafts. In addition, the Group has developed a mobile platform to acquire new customers. With such platform, customers are able to know the approval result instantly upon application submission.

The Group offers a series of lending programmes, targeting different customer segments and with varied product features including a personalised interest rate based on the relevant customer's credit standing, tax advance packages and debt clearance packages.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, total outstanding consumer advances in Hong Kong amounted to approximately HK\$7,587 million, HK\$8,216 million, HK\$8,170 million and HK\$8,302 million, respectively, which accounted for approximately 1.5 per cent., 1.6 per cent., 1.6 per cent. and 1.6 per cent. of the Group's total loans and advances to customers, respectively.

The credit card business offers unsecured credit lines to individuals for purchases with merchants as well as loans on cards. The Group offers an array of card types for different types of customers, with unparalleled Centennial World Elite MasterCard offering to high net worth clientele, prestigious World MasterCard and Visa Signature Card targeting an affluent segment of customers, and Platinum and Titanium Cards targeting the general public.

The Group has continuously focused on the key areas of competitive mileage, overseas, dining and entertainment rewards to acquire new customers in its credit card business. BEA Life commenced business in January 2008 and was a wholly-owned subsidiary of BEA. It provided a wide range of life insurance products and services including life and health protection, wealth accumulation and retirement planning with all-rounded coverage and benefits to meet the diverse needs of its customers at different stages of life. BEA Life distributed its insurance products through BEA's extensive network of branches and online channels. In March 2021, BEA announced

the sale of BEA Life to AIA and formed a 15-year bancassurance partnership with AIA Group under the Distribution Agreement. The sale of BEA Life was completed in September 2021. Please see “*Business of the Group — Recent Developments — Disposal of BEA Life and Entry into Distribution Arrangements*” for further information.

MPF Services and Other Trustee Services

In October 1999, Bank of East Asia (Trustees) Limited (“**BEAT**”), a wholly-owned subsidiary of BEA, was granted the status of an approved trustee under the Mandatory Provident Fund Schemes Ordinance (Cap. 485) of Hong Kong (the “**MPF Schemes Ordinance**”). Through this subsidiary, the Group offers a full-range of MPF services, including trustee, scheme administration, investment management and custody services, to employers, employees and the self-employed persons. BEAT is one of two approved trustees under the MPF Schemes Ordinance licensed to offer both the Master Trust Schemes and the Industry Scheme in Hong Kong.

In addition to MPF services, BEAT also offers a complete range of trustee services to both individual and corporate clients. BEAT acts as executor and trustee of wills, an administrator of estates, attorney administrator for overseas estates having assets in Hong Kong and as escrow agent for commercial transactions. Bilateral Advances and Syndicated Advances

The Group’s corporate lending activities include financing general corporate funding requirements, property development, property investment and M&A activities as well as project financing. The majority of borrowers are medium to large-sized Hong Kong companies as well as state-owned and private enterprises in Mainland China, which use the funds to support general working capital and funding requirements in Hong Kong and Mainland China.

The Group acts as arranger or participating bank in the Hong Kong syndicated loan market. The majority of the Group's syndicated advances are extended to Hong Kong and PRC companies engaging in property development and investment, local conglomerates and large private or state-owned enterprises in Mainland China. The Group also acts as co-arranger in club deal facilities.

The majority of the project financing in which the Group participates is extended on a recourse basis and is secured by the underlying project. Typically, the average maturity of BEA's corporate advances is up to five years and that for construction loans is extended up to completion of the construction project. Loan-to-value ratios are determined on a case-by-case basis in compliance with the regulatory requirement. For project financing, the advance is generally secured by the underlying property and charge over all receivables derived from the property projects. The Group has been targeting at medium-sized to large-sized borrowers to pursue better risk-justified return.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, the Group's total outstanding bilateral and syndicated advances amounted to approximately HK\$99,838 million, HK\$107,518 million, HK\$115,733 million and HK\$118,301 million, respectively, which accounted for approximately 19.9 per cent., 21.1 per cent., 22.5 per cent. and 22.1 per cent. of the Group's total loans and advances to customers, respectively.

Wealth Management

BEA's Wealth Management Division comprises Private Banking Department, Investment Products and Advisory Department and Wealth Management Operation Department. The Wealth Management Division provides customised total wealth management solutions to high net worth individuals and is the powerhouse of BEA's wealth investment products offerings to serve the various investment needs of clients such as wealth preservation, enhanced return, risk diversification and other tailor-made investment solution.

Established in 2005, BEA's private banking service ("**BEA Private Banking**") is a domestic private bank that helps to build the Group's profile and visibility among high net worth individuals in Mainland China, Hong Kong, Macau and Taiwan capitalising on the Group's extensive network in such areas. Striving to become a leading private bank in these areas, BEA continues to expand its salesforce and product suite to meet the demands of high net worth customers in Mainland China, and as at 30 June 2021, Mainland China customers accounted for 33.3 per cent. and 48.8 per cent. of BEA Private Banking's client base, in terms of assets under management and revenue contribution, respectively. It is expected that the contribution from Mainland China customers will continue to increase given the strong and leading position of the Group's business and know-how in Mainland China. The Group will continue to explore new avenues to drive more businesses and provide value-added services to its customers.

As at 30 June 2021, the assets under management of BEA Private Banking amounted to HK\$85 billion. The net profit of BEA Private Banking for the years ended 31 December 2018, 2019 and 2020 and the six months ended 30 June 2020 and 2021 amounted to HK\$524 million, HK\$497 million, HK\$513 million, HK\$260 million and HK\$252 million, respectively.

Stock broking activities and dealings in Hang Seng Index futures, options and other derivative products are conducted through BEA and its wholly-owned subsidiaries, namely, East Asia Securities and East Asia Futures Limited, on an agency basis for the execution of customers' orders.

Debt Capital Market

In October 2018, the Group commenced its fixed income capital market business that involves origination, execution and distribution of offshore public and private bond transactions for, mainly, corporations in Mainland China and Hong Kong.

MAINLAND CHINA

As at 30 June 2021, BEA's wholly-owned subsidiary, BEA (China), headquartered in Shanghai, operated 30 branches in Shanghai, Beijing, Tianjin, Harbin, Dalian, Shenyang, Qingdao, Shijiazhuang, Zhengzhou, Urumqi, Hangzhou, Nanjing, Suzhou, Chengdu, Chongqing, Wuhan, Hefei, Xi'an, Shenzhen, Shenzhen Qianhai, Guangzhou, Zhuhai, Xiamen, Changsha, Kunming, Ningbo, Jinan, Fuzhou, Nanning and Nanchang as well as 46 sub-branches in the PRC. BEA (China) operates 20 outlets covering all nine Mainland cities in the Greater Bay Area.

In order to expand its presence in the Mainland China market, the Group has been expanding the range of products and services it provides in Mainland China and will seek to capitalise on the opportunities arising from the liberalisation of the banking sector and from the CEPA between Hong Kong and Mainland China. BEA (China)'s strategy is to increase the growth of RMB deposits in order to maintain stability in its source of funds and to minimise costs associated with interbank lending. However, there are many factors affecting the growth of deposits such as economic and political conditions, interest rate liberalisation, the availability of alternative investment choices (including but not limited to securities issued by governmental or corporate entities, unit trusts and mutual funds, investment-linked assurance schemes and structured investment products) and retail customers' changing perceptions towards savings.

BEA (China) aims at optimising the allocation and utilisation of its resources to better develop its retail banking in areas with business potential by strategically repositioning some of the business outlets. Selected existing outlets provide both corporate and retail banking services, while the rest of the existing outlets and newly established outlets focus on corporate banking services supported by basic retail banking services.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, BEA (China)'s RMB-denominated lending amounted to approximately HK\$134,291 million, HK\$118,912 million, HK\$111,949 million and HK\$122,047 million, respectively, accounting for approximately 90.0 per cent., 90.5 per cent., 88.1 per cent. and 87.0 per cent. of the total customer advances of BEA (China), respectively. Borrowers comprise companies registered to do business in Mainland China and individual customers including local residents. BEA (China) expects to further expand its RMB-denominated lending business with a prudent approach and has more appetite for loan growth in selected industries stemming from emerging pillar industries such as green energy, auto, healthcare, technology, media and telecommunications.

Disputes with Elliott International, L.P. ("Elliott"), The Liverpool Limited Partnership ("Liverpool") and Others

On 18 July 2016, BEA was served with a sealed copy of an unfair prejudice petition presented by Elliott, Liverpool and certain other entities affiliated with Elliott and Liverpool (together, the "**Petitioners**") to the Court of First Instance of the High Court of Hong Kong pursuant to Section 724 of the CO (the "**Petition**"). BEA and the relevant directors were named as respondents in the Petition.

In the Petition, the reliefs sought by the Petitioner include, among others:

- a declaration that certain board resolutions passed for the purposes of effecting a placement to Sumitomo Mitsui Banking Corporation were passed for, among others, an improper purpose, without due regard to the interests of all shareholders of BEA, and without critical appraisal of the merits and competing arguments in respect of the same and alternative means for raising capital;
- a declaration that certain board resolutions passed for the purposes of facilitating the reorganisation of the means by which CaixaBank, S.A. invests in BEA were made for, among others, an improper purpose, without due regard to the interests of all shareholders of BEA and without critical appraisal of the merits and competing arguments in respect of the same; and

Disputes with China Medical Technologies, Inc ("China Medical Technologies")

In February 2017, BEA was served with a statement of claim filed by China Medical Technologies (which has been liquidated and delisted in the United States) at the Court of First Instance of the High Court of Hong Kong.

China Medical Technologies' claims arose from the payment of funds: (i) to the bank accounts of Supreme Well Investments Limited maintained with BEA (among others) between November 2006 and December 2009 purportedly for the acquisition of technology that allegedly did not exist or was purchased by China Medical Technologies at a gross overvalue; and (ii) to other accounts maintained with BEA between March 2007 and June 2011.

China Medical Technologies alleged that payments of over U.S.\$180 million were made from the accounts of Supreme Well Investments Limited and other related entities maintained with BEA to parties connected with and/or controlled by directors and/or executives of China Medical Technologies, with the aim of misappropriating the funds for their personal benefit and in breach of trust and/or fiduciary duties.

BEA subsequently filed a set-aside application which was successful pursuant to the judgment of the High Court of Hong Kong and given that the appeal had been withdrawn, this action was dismissed in March 2021 (the "**Dismissed High Court Action**").

China Medical Technologies filed a new action and a summons against BEA at the Court of First Instance of the High Court of Hong Kong in August 2018 and August 2020, respectively, which China Medical Technologies relied on substantially similar facts and sought substantially similar relief against BEA as per the Dismissed High Court Action. The new action and summons have been consolidated (the “**Consolidated Action**”) and BEA is in the course of preparing the relevant court documents for the Consolidated Action. Based on currently available information and given the Consolidated Action is based on substantially similar facts and is seeking substantially similar relief, BEA considers that the Consolidated Action will not have any material adverse impact on the normal business and operations of BEA.

Please refer to BEA’s announcement on the HKSE entitled “Legal Proceedings” and dated 6 March 2017 for further information.

Investigation in Relation to CaixaBank, S.A.

On 3 October 2018, the National Court in Madrid opened a criminal investigation in relation to certain transactions undertaken by CaixaBank, S.A., including, among others, the transfer by CaixaBank, S.A. to Criteria Caixa, S.A. Sociedad Unipersonal of its stake of approximately 17.2 per cent. in BEA and its stake of approximately 9.0 per cent. in Grupo Financiero Inbursa, S.A.B. de C.V. (the “**Investigation**”).

The Investigation arose out of a petition by two individual shareholders of CaixaBank, S.A. and the allegations include alleged market abuse, insider trading, misrepresentation of financial statements, mismanagement of the firms and unfair treatment of shareholders. The Investigation is not directed at BEA and has been brought against CaixaBank, S.A., Criteria Caixa, S.A. Sociedad Unipersonal, Dr. Isidro Fainé Casas who was a Non-executive Director of BEA (resigned with effect from the conclusion of BEA’s Annual General Meeting held on 24 April 2020), five other executives/directors of CaixaBank, S.A. and Dr. the Hon. Sir David Li Kwok-po.

Dr. Isidro Fainé Casas and Dr. the Hon. Sir David Li Kwok-po resigned as directors of CaixaBank, S.A. on 30 June 2016 and 23 October 2014, respectively.

Please refer to BEA’s announcement on the HKSE entitled “Announcement pursuant to Rule 13.51B(2) of the Listing Rules” and dated 16 October 2018 for further information.

Save as otherwise disclosed in this Offering Circular, neither BEA nor any of its subsidiaries is involved in any litigation or arbitration proceedings relating to claims or amounts that are material in the context of the issue of the Undated Capital Securities, and BEA is not aware of any such litigation or arbitration proceedings pending or threatened against it or any of its subsidiaries.

EMPLOYEES

As at 30 June 2021, the Group had a total of 9,215 employees as set forth in the following table:

	<u>No. of employees</u>
Hong Kong	5,359
Mainland China	3,277
Macau and Taiwan	140
Overseas	<u>439</u>
Total	<u><u>9,215</u></u>

Management believes that BEA maintains a good relationship with its employees and has not experienced any material employment disputes. Other than all local employees of BEA (China) and other Mainland China subsidiaries and certain local employees at its Singapore branch, none of BEA's employees are members of a trade union. BEA provides attractive remuneration and benefits packages to its employees including medical health care plans, group life insurance, various paid leave, staff housing loan with preferential interest rate, staff account with preferential deposit interest rate and retirement benefits under either the MPF Scheme or the MPF exempted ORSO Scheme. In addition, BEA operates share option schemes under which options to purchase ordinary shares of BEA have been granted to members of senior management and executive directors. As at 30 June 2021, approximately 36,336,128 shares, representing approximately 1.23 per cent. of BEA's issued capital on a fully diluted basis, were issuable upon the exercise of options (including vested and unvested options) granted under BEA's staff share option schemes adopted in 2011 and 2016.

In addition to benefits packages, BEA continues to provide career advancement opportunities and a healthy and positive working environment to its employees. BEA offers a wide range of training courses to support its employees' ongoing professional development.

PROTECTION OF DEPOSITORS

BEA is a member of the Deposit Protection Scheme, which was launched in September 2006. Accordingly, all eligible depositors of BEA are automatically protected under the Deposit Protection Scheme. As part of its measures to maintain the liquidity of, and confidence in, the Hong Kong financial markets, HKSARG introduced in 2006 a Deposit Protection Scheme to provide a level of protection to depositors with deposits held with authorized institutions in Hong Kong. An enhanced Deposit Protection Scheme with an increased protection limit of HK\$500,000 and expanded coverage including deposits pledged as security for banking services, came into effect on 1 January 2011. On 24 March 2016, the 2016 Amendment Ordinance came into effect. Amongst other things, a gross payout approach is adopted for the determination of compensation under the Deposit Protection Scheme in case the scheme is triggered. Under this approach, any compensation paid to depositors is determined on the basis of their aggregate protected deposits held with a failed bank (up to HK\$500,000 per depositor) without deducting the amount of liabilities owed by those depositors to the same bank. The gross payout approach enables the affected depositors to have faster access to their deposits.

Derivatives, such as interest rate swaps and interest rate futures, are used by the Group to manage interest rate risk in the banking book exposure. The Group enters into hedging either against individual transactions or on portfolio basis. Hedge accounting treatment under HKFRS is actively applied to avoid fluctuation of profit and loss arising from mark-to-market of the hedging derivatives.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, approximately 62.0 per cent., 60.9 per cent., 59.2 per cent. and 56.5 per cent., respectively, of the Group's total loans and advances to customers were covered by collateral.

The extent of collateral coverage over the Group's loans and advances to customers depends on the type of customers and the product offered. Types of collateral include residential properties (in the form of mortgages over property), other properties, other registered securities over assets, cash deposits, standby letters of credit and guarantees. All forms of security taken as collateral against credit facilities are monitored by the respective departments which extended the advances. In general, the collateral is periodically valued by an independent valuer to determine whether any additional collateral is required.

RISK MANAGEMENT AND CREDIT POLICIES

The Group's lending policies have been formulated on the basis of its own experience, the Banking Ordinance, guidelines issued by the Monetary Authority, policies issued by the Hong Kong Association of Banks and other statutory requirements (and, in the case of overseas branches and subsidiaries, the relevant local laws and regulations). BEA believes it has a history of, and reputation for, prudent lending practices. The majority of the Group's lending is on a secured basis, and the Group has established loan-to-value lending limits based on the appraised market value of the relevant collateral.

Risk Management

The Group has established an effective risk governance and management framework in line with the requirements set out by the Monetary Authority and other regulators. This framework is built around a structure that enables BEA's Board of Directors and management to discharge their risk management-related responsibilities with appropriate delegation and checks and balances. These responsibilities include defining risk appetite in accordance with the Group's business strategies and objectives, formulating risk policies that govern the execution of those strategies, and establishing procedures and limits for the approval, control, monitoring, and remedy of risks.

The Risk Committee stands at the highest level of the Group's risk governance structure below the Board of Directors. The Risk Committee provides direct oversight over the formulation of the Group's risk appetite, and sets the levels of risk that the Group is willing to undertake with regard to its financial capacity, strategic direction, prevailing market conditions, and regulatory requirements.

The Risk Committee also ensures that the Group's risk appetite is reflected in the policies and procedures that BEA's management adopts to execute its business functions. Through the Group's management committees at executive level including the Crisis Management Committee, Risk Management Committee, Credit Committee, Asset and Liability Management Committee, and Operational Risk Management Committee and with overall coordination by the Risk Management Division, the Risk Committee regularly reviews the Group's risk management framework and ensures that all important risk-related tasks are performed according to established policies with appropriate resources.

The Risk Management Division is headed by the Group Chief Risk Officer and General Manager, who reports directly to the Chairman and Co-Chief Executives and is responsible for overseeing the Group's risk management issues which include, but are not limited to, the risk management infrastructure, strategies, appetites, culture, and resources. The Risk Management Division assesses regulatory requirements, in particular the requirements under the Supervisory Policy Manuals issued by the Monetary Authority, and is responsible for:

- (i) formulating risk management policies and guidelines and performing regular reviews in order to ensure that such policies and guidelines are kept up to date;
- (ii) monitoring risk exposure and compliance with the risk management framework using a risk-based approach that incorporates independent risk assessment, independent review of regular reports, independent review of new products/specific issues, and coordination of risk-related projects; and
- (iii) reporting at pre-determined schedule the monitoring results and significant risk related issues to the specialised risk management committees, and/or the Risk Management Committee, and/or the Risk Committee and/or the Board, where appropriate, so as to assist them to discharge their duty of oversight of risk management activities. The scope of BEA's risk management framework covers major types of risk, including credit risk, interest rate risk, legal risk, liquidity risk, market risk, compliance risk, operational risk, reputation risk, strategic risk and technology risk.

The Asset and Liability Management Committee ("ALCO") sets the strategy and policy for managing interest rate risk and the means for ensuring that such strategy and policy are implemented. Interest rate risk is managed daily by the Treasury Markets Division, while the Risk Management Division is responsible for monitoring interest rate related activities to ensure compliance with the related bank policies, rules and regulations. The Internal Audit Division performs periodic review, to make sure the interest rate risk management functions are effectively carried out.

For the interest rate risk in the banking book, gap analysis is carried out on the maturity and repricing characteristics of the Group's both on-and-off balance sheet positions in the banking book. Repricing gap position controls and sensitivity limits from both earnings and economic value perspectives are set to control the Group's interest rate risk exposure in the banking book. The ALCO monitors the results thereof and decides remedial action if required.

In addition to the above, the ALCO sets the strategy and policy for managing liquidity risk. Funding projection is regularly conducted and reviewed to ensure BEA can meet all cash flow obligations.

The stock of HQLA is maintained and can be used to fund unexpected and material cash outflows in case needed. Liquidity ratios are closely monitored to ensure all liquidity regulatory requirements are being met.

Credit Policies

The Group’s primary credit approval body is the Credit Committee, which comprises two Deputy Chief Executives, Group Chief Risk Officer, Head of China Division and Co-Head of Credit Risk Management Department. The Credit Committee has overall responsibility for the Group’s credit policies and oversees the credit quality of the Group’s advance portfolio. BEA has also established an Approval Centre, which comprises Co-Head of Credit Risk Management Department and other experienced senior managers of Risk Management Division, acting as an independent unit to approve credit according to the delegated lending authority. Under the oversight of the Credit Committee, Approval Centre and other officers of the Group are authorised to approve credit based on the size of the advance, the collateral provided, the credit standing of the applicant and other prescribed credit guidelines. The following table sets out the credit approval limits for various types of advances in Hong Kong:

	Hong Kong
	(in HK\$ millions)
Credit Committee	Any amount
Approval Centre	Up to 600
Other lending officer	Up to 400

The Credit Risk Management Department under the Risk Management Division is responsible for reviewing credit applications for significant loan amounts. When a customer fills out an advance application or requests a credit line, the branch or lending department account officer collects information through customer interviews, documentation requests and feasibility studies as well as other sources. After a thorough evaluation, the application is submitted to the appropriate person having sufficient lending authority for approval.

The Group has adopted lending policies with loan-to-value limits which apply to advances secured by a legal charge over an asset or property. Loan-to-value ratios on owner-occupied residential mortgages in Hong Kong (excluding loans for the purchase of flats in HOS, PSPS and TPS) are limited to 50 per cent. (for property value at or above HK\$10 million); 60 per cent. (for property value below HK\$10 million, and maximum loan amount being capped at HK\$5 million). Loan-to-value ratios on non-owner occupied residential mortgages and commercial / industrial mortgages are limited to 50 per cent. Lower loan-to-value limits will be applied to applicants whose income is mainly derived from outside Hong Kong. Underlying property values are based on the lower of the purchase price and the independently appraised value of the property.

Besides, the Group’s lending policies limit the maximum customer debt servicing ratio to 30 per cent. to 50 per cent., while stress test on the borrower’s repayment ability by assuming a rise in interest rate of 3 per cent. is imposed for property mortgages.

Meanwhile, for property mortgages under the approach of assessment by net worth of the borrower (with the asset-to-total debt obligation ratio of the borrower of at least 100 per cent.), the loan-to-value ratio is limited to 30 per cent. to 40 per cent.

Hong Kong has adopted the Basel II Accord capital adequacy standards from the beginning of 2007. In December 2007, BEA received the approval from the Monetary Authority to adopt the advanced approaches under the Basel II Accord, namely the Foundation Internal Ratings-based (“**IRB**”) Approach for credit risk, the Internal Models Approach for market risk and the Standardised Approach for operational risk. Since 31 December 2007, the Group has used the IRB Approach to determine its credit risk weighted assets for calculating the CAR. The business benefits of adopting these advanced approaches are significant, including enhanced risk management, more efficient use of capital and higher transparency in the disclosure of risk-related information.

In December 2010, the Basel Committee issued the final Basel III regulatory framework presenting the Committee’s reforms to strengthen capital and liquidity standards in order to promote a more resilient banking sector.

In line with the international implementation timetable set by the Basel Committee, the Basel III rules pertaining to capital standards have been enacted into local banking regulations and implemented in Hong Kong on 1 January 2013.

ASSET QUALITY

Overview

The performance of the Hong Kong economy is heavily dependent on the property sector, and, as at 31 December 2018, 2019 and 2020 and 30 June 2021, loans for the purchase of other residential properties and advances for property investment and development (excluding loans for the purchase of flats in HOS, PSPS and TPS) in Hong Kong together accounted for approximately 24.4 per cent., 32.3 per cent., 32.3 per cent. and 30.5 per cent., respectively, of the Group’s total loans and advances to customers. As a result, the Group’s asset quality is vulnerable to deflation in property prices. The ability of borrowers, including homeowners, to make timely repayment of their advances may be adversely affected by rising interest rates or a slowdown in economic growth. See “*Investment Considerations — Considerations Relating to the Group — Hong Kong Economy*” and “*Investment Considerations — Considerations Relating to the Group — Interest Rate Risk*”. As at 31 December 2018, 2019 and 2020 and 30 June 2021, home mortgage advances (including loans for the purchase of flats in HOS, PSPS and TPS and loans for the purchase of other residential properties) in Hong Kong amounted to approximately HK\$56,340 million, HK\$90,443 million, HK\$88,895 million and HK\$88,026 million, respectively, or approximately 11.3 per cent., 17.8 per cent., 17.3 per cent. and 16.5 per cent., respectively, of the Group’s total loans and advances to customers and was one of the most significant segments of the Group’s total loans and advances to customers. See “*Investment Considerations — Considerations Relating to the Group — Concentration Risk — Exposure to the Property Market*”.

The Group is committed to expanding its business and operations in Mainland China and remains susceptible to risks associated with lending in Mainland China, which could lead to an increase in the Group’s classified advances. As at 31 December 2018, 2019 and 2020 and 30 June 2021, the Group’s Mainland China exposure was approximately 29.9 per cent., 25.8 per cent., 24.7 per cent. and 26.2 per cent., respectively, of the Group’s total advances and its Mainland China impaired advances accounted for approximately 1.7 per cent., 3.8 per cent., 3.1 per cent. and 2.6 per cent., respectively, of its total Mainland China exposure. See “*Investment Considerations — Considerations Relating to the Group — Exposure to the Mainland China Market*”.

Advance Classification

The Group classifies the advances into the following grading:

- Grades 1 through 15 — pass;

- Grade 16-17 — special mention;
- Grade 18 — sub-standard;
- Grade 19 — doubtful; and
- Grade 20 — loss.

In classifying the individual borrowers into one of the 20 gradings, the Group considers relevant factors including: (i) estimation of probability of default from the internal rating systems comprising statistical measurement and expert judgment with consideration of quantitative and qualitative elements such as the borrower’s financial condition, the management and operation of the borrower’s business, market conditions affecting the borrower’s industry and demographic characteristics; and (ii) the payment history of the borrower.

BEA believes that its advance classification policy is in compliance with the Banking Ordinance and the applicable guidelines of the Monetary Authority.

Recognition of Impaired Loans

The Group’s impaired loans are sub-divided into three categories: “sub-standard” (Grade 18), “doubtful” (Grade 19) and “loss” (Grade 20). When the repayment of an advance is uncertain (for example, there is a past-due record of 90 days or more), the Group downgrades the advance to sub-standard. If full recovery of the advance is in doubt and the Group expects to sustain a loss of principal or interest, the Group classifies the advance as doubtful. Loss advances are those which are considered non-collectible after exhausting all collection efforts, such as the realisation of collateral and the institution of legal proceedings, and the liquidator or official receiver has ascertained the relevant recovery ratio.

Impairment of Loans and Receivables

Commencing 1 January 2018, HKFRS 9 has been adopted for impairment assessment. Stage 1 or stage 2 impairment assessment is applied to non-impaired credit exposures while stage 3 assessment is applied to impaired credit exposures.

Stage 1 financial assets are comprised of all non-impaired financial assets which have not experienced a significant increase in credit risk (“**SICR**”) since initial recognition. The Group recognises 12-month expected credit losses (“**ECL**”) for stage 1 financial assets. In assessing whether credit risk has increased significantly, the Group compares the default risk as at the reporting date, with the default risk as at the date of its initial recognition.

Stage 2 financial assets are comprised of all non-impaired financial assets which have experienced a SICR since initial recognition. The Group recognises lifetime ECL for stage 2 financial assets. In subsequent reporting periods, if the credit risk of the financial assets improves such that there is no longer a SICR since initial recognition, the financial assets will be transferred back to stage 1 and the Group will recognise 12-month ECL.

Stage 3 financial assets are those that the Group has classified as credit-impaired. The Group recognises lifetime ECL for all stage 3 financial assets. The Group classifies financial assets as impaired when one or more events, which have a detrimental impact on the estimated future cash flows of the financial assets have occurred after its initial recognition. Evidence of impairment includes indications that the borrower is experiencing significant financial difficulties, or a default or delinquency (i.e. past-due record of 90 days or more) has occurred.

Top Ten Impaired Loans

As at 30 June 2021, the Group's ten largest impaired loans accounted for approximately 0.91 per cent. of its total advances and approximately 75.3 per cent. of its gross impaired loan portfolio. The majority of the borrowers of such ten largest impaired loans were engaged in property investment business and accounted for approximately 53.2 per cent. of the aggregate exposure relating to such ten largest impaired loans as at 30 June 2021. As at 30 June 2021, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$134 million to approximately HK\$1,152 million per impaired loan, and amounted to approximately HK\$4,859 million in the aggregate. As at 31 December 2020, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$126 million to approximately HK\$1,253 million per impaired loan, and amounted to approximately HK\$4,919 million in the aggregate. As at 31 December 2019, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$147 million to approximately HK\$949 million per impaired loan, and amounted to approximately HK\$4,592 million in the aggregate. As at 31 December 2018, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$73 million to approximately HK\$491 million per impaired loan, and amounted to approximately HK\$1,998 million in the aggregate.

Impaired Loans That Have Been Restructured

The Group's classified advances/impaired loans are restructured on a case-by-case basis, subject to the approval of the appropriate lending parties for both the restructured limits and recovery measures. BEA believes that the Group maintains a prudent reclassification policy. For example, if payments under an advance are rescheduled, that advance will not be reclassified and will remain under adverse classification (either as a "sub-standard" or "doubtful" advance) and may only be upgraded to a special mention advance if the revised payment terms are honoured for a period of six months, in the case of monthly payments (including both interest and principal), and 12 months, in the case of non-monthly payments.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, the Group's impaired advances to customers including those that have been restructured through the rescheduling of principal repayments and deferral or waiver of interest were as follows:

	As at 31 December			As at 30 June
	2018	2019	2020	2021
	(in HK\$ millions, except percentages)			
Gross impaired advances to customers	3,491	6,189	6,465	6,458
Specific provisions/Individual impairment loss allowance	<u>1,061</u>	<u>2,752</u>	<u>2,976</u>	<u>2,809</u>
Net impaired advances to customers	<u><u>2,430</u></u>	<u><u>3,437</u></u>	<u><u>3,489</u></u>	<u><u>3,649</u></u>
Gross impaired advances to customers as a percentage of total advances to customers . .	0.7%	1.2%	1.3%	1.2%
Net impaired advances to customers as a percentage of total advances to customers . .	0.5%	0.7%	0.7%	0.7%

In addition, there may be circumstances when a rescheduled loan is taken up by a new obligor. Under BEA's credit policy, if a rescheduled loan is taken up by a new obligor, BEA may regard it as a new loan (i.e. no longer a rescheduled loan) provided that (a) it is restructured with the new obligor on commercial terms; (b) the agreed haircut, if any, has been fully written off upon completion of restructuring; and (c) it is a genuine restructuring and not merely a transfer of an overdue loan among the borrower's group or related companies. Before entering into the restructuring, BEA must be satisfied with the creditworthiness and repayment ability of the new obligor. For example, the new obligor must have sufficient assets that can generate adequate funds to repay the outstanding debt.

ASSET AND LIABILITY MANAGEMENT

The Group's objective on asset and liability management is to maximise its net interest income and return on assets and equity while providing for liquidity and effective risk management. Recommendations to management on liquidity, interest rate policy and other significant asset and liability management matters are made by ALCO, which consists of Co-Chief Executives, two Deputy Chief Executives, Group Chief Risk Officer, Group Chief Financial Officer and Head of Treasury Markets Division. A representative from Asset & Liability Management Department acts as the secretary of ALCO.

One of the key components of the Group's asset and liability management is the management of market risk, interest rate risk and liquidity risk. The Group's policies regarding the management of these risks are formulated, and their implementations are coordinated, by ALCO. ALCO meets on a bi-weekly basis to formulate the asset and liability strategies, such as the deposit rates and advance pricing strategies. The Treasury Markets Division is responsible for the daily operating management of the discretionary portion of the Group's assets and liabilities within the approved internal limits. The derivative transactions entered into by the Group are substantially in response to customer demands, in addition to BEA book hedging, and no significant proprietary trading positions are maintained by the Group.

Interest rate risk primarily results from the timing differences in the repricing of interest rate sensitive assets, liabilities, and off balance sheet items in the banking book. In determining the level of interest rate risk, assessments are made for the gap risk, basis risk and option risk. The Group manages the interest rate risk in the banking book primarily by focusing on repricing mismatches. Gap analysis provides a static view of the maturity and repricing characteristics of the Group's interest rate sensitive assets, liabilities, and off balance sheet positions. Repricing gap position limits are set to control the Group's interest rate risk.

Sensitivity analysis in relation to the impact of changes in interest rates on earnings and economic value is assessed regularly through a number of hypothetical interest rate shock scenarios prescribed by the Monetary Authority. Sensitivity limits are set to control the Group's interest rate risk exposure under both earnings and economic value perspectives. The results are reported to ALCO on a regular basis.

The following table sets forth the interest rate shock impact to the Group according to the Monetary Authority predefined scenarios as at 30 June 2021:

Adverse impacts from the Monetary Authority interest rate shock scenarios		Economic Value of Equity	Net Interest Income
		(in HK\$ millions)	
1	Parallel up	197	20
2	Parallel down	419	2,514
3	Steeper	405	—
4	Flattener	88	—
5	Short rate up	131	—
6	Short rate down	1,040	—

Liquidity pertains to the Group's ability to meet obligations as they fall due. To manage liquidity risk, the Group has established a liquidity risk management policy which is reviewed by ALCO and approved by BEA's Board of Directors. The Group measures its liquidity through various risk metrics including but not limited to LCR, NSFR, loan-to-deposit ratio and the maturity mismatch ratio.

The Group monitors its liquidity position on a daily basis to ensure the Group's funding needs can be met and the statutory ratios for monitoring and managing liquidity risk are complied with. The Group's consolidated average LCR was approximately 177.3 per cent. for the second quarter of 2021, which is above the statutory minimum requirement of 100 per cent. As at 30 June 2021, the Group's consolidated NSFR was approximately 114.3 per cent., which is above the statutory minimum requirement of 100 per cent.

As at 31 December 2018, 2019 and 2020 and 30 June 2021, approximately 81.7 per cent., 80.6 per cent., 77.7 per cent. and 76.7 per cent., respectively, of the Group's advances were made at floating rates of interest. The Group's interest-earning assets have floating interest rates fixed by reference to BEA's best lending rate, prime rate and interbank rates, and the Group's interest-bearing liabilities have floating interest rates by reference to interbank rates and savings deposit rates. ALCO continuously monitors the gap between HIBOR and the prime rate and, consequently, the impact on Group's net interest income. If the Group's net interest income declines due to the squeeze of the spread between BEA's prime rate and HIBOR, ALCO may recommend the adjustment of BEA's prime rate charged on advances and/or the expansion of higher-yield lending business.

The following table sets out the Group's average balances of interest-earning assets and interest-bearing liabilities, interest and related average interest rates for the years ended 31 December 2018, 2019 and 2020 and the six months ended 30 June 2020 and 2021. Average balances of interest-earning assets and interest-bearing liabilities for the years ended 31 December 2018, 2019 and 2020 and the six months ended 30 June 2020 and 2021 are based on the arithmetic mean of the respective balances at the beginning and the end of such period.

Either: (i) the full text of these terms and conditions together with the relevant provisions of the applicable Pricing Supplement; or (ii) these terms and conditions as so completed, amended, supplemented or varied (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on such Bearer Notes or on the Certificates relating to such Registered Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the applicable Pricing Supplement or the Trust Deed, as the case may be. Those definitions will be endorsed on the definitive Notes or Certificates, as the case may be. References in these Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are constituted by an amended and restated Trust Deed dated 24 September 2021 (as may be amended or supplemented as at the date of issue of the Notes (the “**Issue Date**”) and as may be further amended, restated, novated or supplemented from time to time thereafter, the “**Trust Deed**”) between The Bank of East Asia, Limited (the “**Issuer**”) and DB Trustees (Hong Kong) Limited (the “**Trustee**”, which expression shall include all persons for the time being the trustee or trustees under the Trust Deed) as trustee for the Noteholders (as defined below).

These terms and conditions (the “**Conditions**”) include summaries of, and are subject to, the detailed provisions of the Trust Deed, which includes the form of the Notes, Certificates, Receipts, Coupons and Talons referred to below. An amended and restated Agency Agreement dated 24 September 2021 (as may be further amended, restated, novated or supplemented from time to time thereafter, the “**Agency Agreement**”) has been entered into in relation to the Notes between the Issuer, the Trustee, Deutsche Bank AG, Hong Kong Branch as initial issuing and paying agent, Deutsche Bank AG, Hong Kong Branch as CMU lodging and paying agent, transfer agent and as registrar for Registered Notes to be held in the Central Moneymarkets Unit Service operated by the Hong Kong Monetary Authority (the “**CMU**”), Deutsche Bank AG, Hong Kong Branch as registrar of each series of Notes to be held in the CMU (the “**CMU Notes**”) and Deutsche Bank Luxembourg S.A. as registrar of each series of Notes (other than CMU Notes) and the other agents named in it. The issuing and paying agent, the CMU lodging and paying agent, the other paying agents, the registrars, the transfer agent(s) and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Issuing and Paying Agent**”, the “**CMU Lodging and Paying Agent**”, the “**Paying Agents**” (which expression shall include the Issuing and Paying Agent and the CMU Lodging and Paying Agent), the “**Registrars**”, the “**Transfer Agents**” (which expression shall include the Registrars) and the “**Calculation Agent(s)**” (such Issuing and Paying Agent, CMU Lodging and Paying Agent, Paying Agents, Registrars and Transfer Agents being together referred to as the “**Agents**”). For the purposes of these Conditions, all references (other than in relation to the determination of interest and other amounts payable in respect of the Notes) to the Issuing and Paying Agent shall, unless provided otherwise, with respect to a Series of Notes to be held in the CMU, be deemed to be a reference to the CMU Lodging and Paying Agent and all such references shall be construed accordingly.

Copies of the Trust Deed and the Agency Agreement are available for inspection by any Noteholder at all reasonable times during usual business hours (being between 9:00 a.m. and 3:00 p.m.) on any weekday (Saturdays, Sundays and public holidays excepted) at the principal office of the Trustee (presently at Level 52, International Commercial Centre, 1 Austin Road West, Kowloon, Hong Kong) and at the specified offices of the Paying Agents following prior written request and proof of holding and identity satisfactory to the Trustee or, as the case may be, the relevant Paying Agent.

The subordination provisions set out in this Condition 3(c) are effective only upon the occurrence of any Winding-Up proceedings of the Issuer. In the event that a Non-Viability Event occurs, the rights of holders of Non-Preferred Loss Absorbing Notes shall be subject to Condition 7. This may not result in the same outcome for the holders of Non-Preferred Loss Absorbing Notes as would otherwise occur under this Condition 3(c) upon the occurrence of any Winding-Up proceedings of the Issuer.

(i) subordinate and junior in right of payment to, and of all claims of:

(A) all unsubordinated creditors of the Issuer (including its depositors); and

(B) the holders of Non-Preferred Loss Absorbing Instruments;

(ii) *pari passu* in right of payment to and of all claims of the holders of Parity Obligations as may be further specified in the applicable Pricing Supplement; and

In the event of a Winding-Up that requires the Noteholders or the Trustee to provide evidence of their claim to principal or interest under the Dated Subordinated Notes, such claims of the Noteholders of such Dated Subordinated Notes will only be satisfied after all senior ranking obligations of the Issuer have been satisfied in whole.

The subordination provisions set out in this Condition 3(e) are effective only upon the occurrence of any Winding-Up proceedings of the Issuer. In the event that a Non-Viability Event occurs, the rights of holders of Dated Subordinated Notes shall be subject to Condition 7. This may not result in the same outcome for the holders of Dated Subordinated Notes as would otherwise occur under this Condition 3(e) upon the occurrence of any Winding-Up proceedings of the Issuer.

(f) ***Set-off and Payment Void in respect of Non-Preferred Loss Absorbing Notes and Dated Subordinated Notes***: Subject to applicable law, no holder of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes may exercise, claim or plead any right of set-off, counter-claim or retention in respect of any amount owed to it by the Issuer arising under or in connection with the Non-Preferred Loss Absorbing Notes or the Dated Subordinated

Notes and each holder of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes shall, by virtue of being the holder of any Non-Preferred Loss Absorbing Note or Dated Subordinated Note be deemed to have waived all such rights of such set-off, counterclaim or retention to the fullest extent permitted by law.

In the event that any holder of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes nevertheless receives (whether by set-off or otherwise) directly in a Winding-Up Proceeding in respect of the Issuer any payment by, or distribution of assets of, the Issuer of any kind or character, whether in cash, property or securities, in respect of any amount owing to it by the Issuer arising under or in connection with the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes, other than in accordance with this Condition 3(f), such holder shall, subject to applicable law, immediately pay an amount equal to the amount of such payment or discharge to the liquidator for the time being in the Winding-Up of the Issuer for interest and each holder, by virtue of becoming a holder of such Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes, shall be deemed to have so agreed and undertaken with and to the Issuer and all depositors and other unsubordinated creditors of the Issuer for good consideration.

- (iii) *Rate of Interest for Floating Rate Notes*: The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined by the Calculation Agent in the manner specified hereon and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified hereon.

(A) **ISDA Determination for Floating Rate Notes**

Where ISDA Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified hereon;
- (y) the Designated Maturity is a period specified hereon; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified hereon.

For the purposes of this paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes (other than Floating Rate Notes which specify the Reference Rate as either SOFR Benchmark or SONIA Benchmark)

(x) Where Screen Rate Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR or Hong Kong time in the case of HIBOR or Beijing time in the case of SHIBOR) or 11.15 a.m. (Hong Kong time in the case of CNH HIBOR) or if, at around that time it is notified that the fixing will be published at 2.30 p.m. (Hong Kong time), then as of 2.30 p.m. (Hong Kong time in the case of CNH HIBOR), as the case may be, on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified hereon as being other than LIBOR, EURIBOR, HIBOR, CNH HIBOR or SHIBOR, the Rate of Interest in respect of such Notes will be determined as provided hereon.

(y) If the Relevant Screen Page is not available or if, sub-paragraph (x)(1) above applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (x)(2) above applies and fewer than three such offered quotations appear on the Relevant Screen Page in each case as at the time specified above, subject as provided below, the Calculation Agent shall promptly notify the Issuer and the Issuer shall use all commercially reasonable endeavours to appoint an Independent Investment Bank and procure such Independent Investment Bank to request, if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks or, if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks or, if the Reference Rate is HIBOR or CNH HIBOR, the principal Hong Kong office of each of the Reference Banks or, if the Reference Rate is SHIBOR, the principal Beijing office of each of the Reference Banks, to provide the Independent Investment Bank and the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if the Reference Rate is HIBOR, at approximately 11.00 a.m. (Hong Kong time), or, if the Reference Rate is CNH HIBOR, at approximately 11.15 a.m. (Hong Kong time), or, if the Reference Rate is SHIBOR, at approximately 11.30 a.m. (Beijing time), on the Interest Determination Date in question. If two or more of the Reference Banks

provide the Independent Investment Bank and the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent.

- (z) If paragraph (y) above applies and the Calculation Agent has received offered quotations from fewer than two Reference Banks, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated at the request of the Independent Investment Bank to the Independent Investment Bank and the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if the Reference Rate is HIBOR, at approximately 11.00 a.m. (Hong Kong time), or, if the Reference Rate is CNH HIBOR, at approximately 11.15 a.m. (Hong Kong time), or, if the Reference Rate is SHIBOR, at approximately 11.30 a.m. (Beijing time), on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London interbank market or, if the Reference Rate is EURIBOR, the Euro-zone interbank market or, if the Reference Rate is HIBOR or CNH HIBOR, the Hong Kong interbank market, or, if the Reference Rate is SHIBOR, the Beijing interbank market, as the case may be, or, if fewer than two of the Reference Banks provide the Independent Investment Bank and the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if the Reference Rate is HIBOR, at approximately 11.00 a.m. (Hong Kong time), or, if the Reference Rate is CNH HIBOR, at approximately 11.15 a.m. (Hong Kong time), or, if the Reference Rate is SHIBOR, at approximately 11.30 a.m. (Beijing time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Independent Investment Bank suitable for such purpose) informs the Independent Investment Bank and the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London interbank market or, if the Reference Rate is EURIBOR, the Euro-zone interbank market or, if the Reference Rate is HIBOR or CNH HIBOR, the Hong Kong interbank market, or, if the Reference Rate is SHIBOR, the Beijing interbank market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 5(b)(iii)(B), the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

For the purposes of this Condition 5(b)(iii)(B), “**Independent Investment Bank**” means an internationally recognised independent financial institution or an independent financial adviser with appropriate experience (which shall not be the Calculation Agent) selected and appointed by the Issuer (at the expense of the Issuer) for the purposes of this Condition 5(b)(iii)(B) and notified in writing by the Issuer to the Calculation Agent and the Trustee.

(C) Screen Rate Determination for Floating Rate Notes where the Reference Rate is specified as being SOFR Benchmark

Where Screen Rate Determination is specified hereon as the manner in which the Rate of Interest is to be determined where the Reference Rate is SOFR Benchmark, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be equal to the sum of the relevant SOFR Benchmark plus or minus (as specified in the relevant Pricing Supplement) the Margin (if any), all as determined by the Calculation Agent on the relevant Interest Determination Date.

The “**SOFR Benchmark**” will be determined based on Simple SOFR Average, Compounded SOFR Average or SOFR Index Average (as specified in the relevant Pricing Supplement), as follows (subject in each case to Condition 5(1)):

- (y) If Compounded SOFR Average (“**Compounded SOFR Average**”) is specified in the relevant Pricing Supplement as the manner in which the SOFR Benchmark will be determined, the SOFR Benchmark for each Interest Accrual Period shall be equal to the value of the SOFR reference rates for each day during the relevant Interest Accrual Period (where SOFR Observation Lag, SOFR Payment Delay or SOFR Lockout is specified in the relevant Pricing Supplement to determine Compounded SOFR Average) or SOFR Observation Period (where SOFR Observation Shift is specified as applicable in the relevant Pricing Supplement to determine Compounded SOFR Average).

Compounded SOFR Average shall be calculated by the Calculation Agent in accordance with one of the formulas referenced below depending upon which is specified in the relevant Pricing Supplement:

with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 being rounded upwards) and where:

“**SOFR_{i-xUSBD}**” for any U.S. Government Securities Business Day(i) in the relevant Interest Accrual Period, is equal to the SOFR reference rate for the U.S. Government Securities Business Day falling the number of Lookback Days prior to that U.S. Government Securities Business Day(i);

(2) SOFR Observation Shift:

$$\left(\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right) \times \frac{360}{d}$$

with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 being rounded upwards) and where:

“**SOFR_i**” for any U.S. Government Securities Business Day(i) in the relevant SOFR Observation Period, is equal to the SOFR reference rate for that U.S. Government Securities Business Day(i);

“**SOFR Observation Period**” means, in respect of each Interest Accrual Period, the period from (and including) the date falling the number of SOFR Observation Shift Days prior to the first day of the relevant Interest Accrual Period to (but excluding) the date falling the number of SOFR Observation Shift Days prior to the last day of such Interest Accrual Period;

(3) SOFR Payment Delay:

$$\left(\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right) \times \frac{360}{d}$$

with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 being rounded upwards) and where:

“**SOFR_i**” for any U.S. Government Securities Business Day(i) in the relevant Interest Accrual Period, is equal to the SOFR reference rate for that U.S. Government Securities Business Day(i);

“**Interest Payment Date**” shall be the date falling the number of Interest Payment Delay Days following each Interest Period Date; provided that the Interest Payment Date with respect to the final Interest Accrual Period will be the Maturity Date or the relevant date for redemption, as applicable;

reference rate for each U.S. Government Securities Business Day in the period from (and including) the SOFR Rate Cut-Off Date to (but excluding) the Maturity Date or the relevant date for redemption, as applicable, shall be the SOFR reference rate in respect of such SOFR Rate Cut-Off Date.

provided, however, that and subject to Condition 5(k), if the SONIA Compounded Index Value is not available in relation to any Interest Period on the Relevant Screen Page for the determination of either or both of SONIA Compounded Index_{START} and SONIA Compounded Index_{END}, the Rate of Interest shall be calculated for such Interest Period on the basis of the SONIA Compounded Daily Reference Rate as set out in Condition 5(b)(iii)(D)(y) as if SONIA Compounded Daily Reference Rate with Observation Shift had been specified hereon and the “Relevant Screen Page” shall be deemed to be the “Relevant Fallback Screen Page” as specified hereon,

- (z) Subject to Condition 5(k), where SONIA Benchmark is specified as the Reference Rate hereon and either (i) SONIA Compounded Daily Reference Rate is specified hereon, or (ii) the SONIA Compounded Index Rate is specified hereon and Condition 5(b)(iii)(D)(y) applies, if, in respect of any London Business Day, the SONIA reference rate is not available on the Relevant Screen Page or Relevant Fallback Screen Page as applicable, (or as otherwise provided in the relevant definition thereof), such Reference Rate shall be:

- (2) if such Bank Rate is not available, the SONIA reference rate published on the Relevant Screen Page (or as otherwise provided in the relevant definition thereof) for the first preceding London Business Day on which the SONIA reference rate was published on the Relevant Screen Page (or as otherwise provided in the relevant definition thereof), and

in each case, $SONIA_i$ shall be interpreted accordingly.

- (aa) If the Rate of Interest cannot be determined in accordance with the foregoing provisions, but without prejudice to Condition 5(k), the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Accrual Period).
- (bb) If the relevant Series of Notes become due and payable in accordance with Condition 11, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified hereon, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.
- (iv) *Rate of Interest for Index Linked Interest Notes:* The Rate of Interest in respect of Index Linked Interest Notes for each Interest Accrual Period shall be determined by the Calculation Agent in the manner specified hereon and interest will accrue by reference to an Index or Formula as specified hereon.
- (c) ***Zero Coupon Notes:*** Where a Note the interest basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(b)(i)(B)).
- (d) ***Dual Currency Notes:*** In the case of Dual Currency Notes, if the rate or amount of interest falls to be determined by reference to a Rate of Exchange or a method of calculating Rate of Exchange, the rate or amount of interest payable shall be determined by the Calculation Agent in the manner specified hereon.
- (e) ***Partly Paid Notes:*** In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up principal amount of such Notes and otherwise as specified hereon.
- (f) ***Accrual of Interest:*** Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (both before and after judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 9).

- (g) ***Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts and Rounding:***
- (i) If any Margin is specified hereon (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with Condition 5(b) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin, subject always to the next paragraph.
 - (ii) If any Maximum Rate of Interest or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified hereon, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
 - (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest fifth decimal place (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes, “**unit**” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.
- (h) ***Calculations:*** The amount of interest payable per calculation amount specified hereon (or, if no such amount is so specified, the Specified Denomination) (the “**Calculation Amount**”) in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest, the Calculation Amount, and the Day Count Fraction for such Interest Accrual Period, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period, in which case the amount of interest payable per Calculation Amount in respect of such Note for such Interest Accrual Period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable per Calculation Amount in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated.
- (i) ***Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts and Instalment Amounts:*** The Calculation Agent shall, as soon as practicable on each Interest Determination Date, or such other time on such date as the Calculation Agent may be required to calculate any rate or amount or make any determination or calculation, determine such rate and calculate the Interest Amounts for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Instalment Amount, make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Accrual Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or

any Instalment Amount to be notified to the Trustee, the Issuer, each of the Paying Agents, the Noteholders and any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information as soon as possible after their determination but in no event later than:

- (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount; or
- (ii) in all other cases, the fourth Business Day after such determination.

Where any Interest Payment Date or Interest Period End Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made with the consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 11, the accrued interest and the Rate of Interest payable in respect of the Notes shall, subject in the case of each of the SONIA Compounded Index Rate and the SONIA Compounded Daily Reference Rate to Condition 5(b)(iii)(D)(y)(i), nevertheless continue to be calculated as previously in accordance with this Condition 5(i) but no publication of the Rate of Interest or the Interest Amount so calculated need be made unless the Trustee otherwise requires. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties and the Noteholders.

If the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority, the Issuer shall notify such stock exchange or other relevant authority as soon as possible.

- (j) ***Determination or Calculation by an agent of the Issuer:*** If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Interest for an Interest Accrual Period or any Interest Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, the Trustee may appoint an agent on its behalf to do so and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, such agent shall apply the foregoing provisions of this Condition 5(j), with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects it shall do so in such manner as it shall deem fair and reasonable in all the circumstances. The determination of any rate or amount and the making of each determination or calculation by such agent pursuant to this Condition 5(j) shall (in the absence of manifest error) be final and binding upon all parties.
- (k) ***Benchmark Discontinuation (other than Floating Rate Notes which specify the Reference Rate as SOFR Benchmark):*** This Condition 5(k) shall apply to only those Notes for which this Condition 5(k) is specified as “**Applicable**” in the applicable Pricing Supplement.

Notwithstanding any other provision of this Condition 5(k), no Successor Rate or Alternative Rate (as applicable) will be adopted, and no other amendments to the terms of any Dated Subordinated Notes will be made pursuant to this Condition 5(k), if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of any of the Dated Subordinated Notes as Tier 2 capital and/or the Notes as eligible liabilities or loss absorbing capacity instruments for the purposes of the Banking Capital Regulations and/or any applicable Loss Absorbing Capacity Rules.

- (i) *Independent Adviser*: If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, or failing which, an Alternative Rate (in accordance with Condition 5(k)(ii)) and, in either case, an Adjustment Spread (if any, in accordance with Condition 5(k)(iii)) and any Benchmark Amendments (in accordance with Condition 5(k)(iv)).

In making such determination, the Independent Adviser appointed pursuant to this Condition 5(k) shall act in good faith as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Trustee, the Paying Agents or the Noteholders for any determination made by it pursuant to this Condition 5(k).

If (A) the Issuer is unable to appoint an Independent Adviser; or (B) the Independent Adviser fails to determine a Successor Rate or, failing which, an Alternative Rate, in accordance with this Condition 5(k)(i) prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Accrual Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Accrual Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest. Where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period shall be substituted in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period. For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Interest Accrual Period only and any subsequent Interest Accrual Periods are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 5(k)(i).

- (ii) *Successor Rate or Alternative Rate*: If the Independent Adviser determines that:
- (A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(k)); or
 - (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(k)).

(iii) *Adjustment Spread*: If the Independent Advisor determines that:

- (A) an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be); and
- (B) the quantum of, or a formula or methodology for determining such Adjustment Spread,

then the Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(iv) *Benchmark Amendments*: If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 5(k) and the Independent Advisor determines:

- (A) that amendments to these Conditions and/or the Trust Deed are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”); and
- (B) the terms of the Benchmark Amendments,

then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(k)(v), without any requirement for the consent or approval of Noteholders, the Trustee or the Agents, vary these Conditions and/or the Trust Deed to give effect to such Benchmark Amendments with effect from the date specified in such notice.

At the request of the Issuer, but subject to receipt by the Trustee of a certificate signed by two Authorised Signatories of the Issuer pursuant to Condition 5(k)(v), the Trustee shall (at the expense of the Issuer), without any requirement for the consent or approval of the Noteholders, be obliged to concur with the Issuer in effecting any Benchmark Amendments (including, *inter alia*, by the execution of a deed supplemental to or amending the Trust Deed), provided that the Trustee shall not be obliged so to concur if in the opinion of the Trustee doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Trustee in these Conditions or the Trust Deed (including, for the avoidance of doubt, any supplemental trust deed) in any way.

For the avoidance of doubt, the Trustee and the Issuing and Paying Agent shall, at the direction and expense of the Issuer, effect such consequential amendments to the Trust Deed, the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 5(k)(iv). Noteholders’ consent shall not be required in connection with effecting of the Successor Rate or the Alternative Rate (as applicable), any Adjustment Spread, Benchmark Amendments or such other changes, including the execution of any documents or any steps by the Trustee or the Issuing and Paying Agent (if required).

In connection with any such variation in accordance with this Condition 5(k)(iv), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

Notwithstanding any other provision of this Condition 5(k)(iv), no Successor Rate or Alternative Rate will be adopted, nor will the applicable Adjustment Spread be applied, nor will any Benchmark Amendments be made, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Dated Subordinated Notes as Tier 2 Capital Instruments and/or the Notes as eligible liabilities or loss absorbing capacity instruments for the purposes of the Banking Capital Regulations and/or any applicable Loss Absorbing Capacity Rules.

- (v) *Notices:* Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(k) will be notified promptly by the Issuer to the Trustee, the Calculation Agent, the Paying Agents and, in accordance with Condition 17, the Noteholders or the Couponholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Trustee of the same, the Issuer shall deliver to the Trustee a certificate signed by two Authorised Signatories of the Issuer:

- (A) confirming (I) that a Benchmark Event has occurred, (II) the Successor Rate or, as the case may be, the Alternative Rate (if applicable), (III) the applicable Adjustment Spread (if any) and (IV) the specific terms of the Benchmark Amendments (if any), in each case as determined in accordance with the provisions of this Condition 5(k); and
- (B) certifying that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread (if any).

The Trustee shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate, Alternative Rate, the Adjustment Spread or the Benchmark Amendments (if any) and without prejudice to the Trustee's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Trustee, the Calculation Agent, the Paying Agents, the Noteholders and Couponholders.

- (vi) *Survival of Original Reference Rate:* Without prejudice to the obligations of the Issuer under Conditions 5(k)(i), 5(k)(ii), 5(k)(iii) and 5(k)(iv), the Original Reference Rate and the fallback provisions provided for in Condition 5(b)(iii)(B), as applicable, will continue to apply unless and until a Benchmark Event has occurred.

- (vii) *Definitions:*

As used in this Condition 5(k):

“Adjustment Spread” means either (A) a spread (which may be positive, negative or zero) or (B) a formula or methodology for calculating a spread, in each case to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or

- (ii) (if no such recommendation as referred to in (i) above of this definition has been made, or in the case of an Alternative Rate) the Independent Adviser determines as being customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (iii) (if the Independent Adviser determines that no such spread as referred to in (ii) above of this definition is customarily applied) the Independent Adviser (in consultation with the Issuer) determines, and which is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be);

“**Alternative Rate**” means an alternative benchmark or screen rate which the Independent Adviser, determines in accordance with Condition 5(k)(ii) as being customarily applied in market usage in the international debt capital markets transactions for the purposes of determining rates of interest (or the relevant component part thereof) in the same Specified Currency as the Notes;

“**Authorised Signatory**” has the meaning given to it in the Trust Deed;

“**Benchmark Amendments**” has the meaning given to it in Condition 5(k)(iv);

“**Benchmark Event**” means:

- (i) the Original Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (ii) a public statement by the administrator of the Original Reference Rate that it has ceased or that it will cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate) and such cessation is reasonably expected by the Issuer to occur prior to the Maturity Date; or
- (iii) a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been or will be permanently or indefinitely discontinued and such discontinuation is reasonably expected by the Issuer to occur prior to the Maturity Date; or
- (iv) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used either generally, or in respect of the Notes and such prohibition is reasonably expected by the Issuer to occur prior to the Maturity Date;
- (v) a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market; or
- (vi) it has become unlawful for any Paying Agent, the Calculation Agent, the Issuer or other party to calculate any payments due to be made to any Noteholder or Couponholder using the Original Reference Rate,

provided that the Benchmark Event shall be deemed to occur (a) in the case of subparagraphs (ii) and (iii) above, on the date of the cessation of publication of the Original Reference Rate or the discontinuation of the Original Reference Rate, as the case may be, (b) in the case of sub-paragraph (iv) above, on the date of the prohibition or restriction of use of the Original Reference Rate and (c) in the case of sub-paragraph (v) above, on the date with effect from which the Original Reference Rate will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement;

The outstanding principal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the principal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (ii) Unless otherwise provided hereon and unless previously redeemed, purchased and cancelled as provided below, each Note shall be finally redeemed on the Maturity Date specified hereon at its Final Redemption Amount (which, unless otherwise provided hereon, is its principal amount) or, in the case of a Note falling within paragraph (i) above, its final Instalment Amount.

- (iv) The specified Maturity Date in respect of each Series of Dated Subordinated Notes must fall on a date that is at least five years following the relevant Issue Date.

Any redemption of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes by the Issuer prior to the Maturity Date is subject to the Issuer obtaining the prior written consent of the Monetary Authority, to the extent such consent is required under the Banking Capital Regulations or Loss Absorbing Capacity Rules.

(b) *Early Redemption:*

The calculation of the Amortised Face Amount in accordance with this Condition 6(b)(i) shall continue to be made (both before and after judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 5(c).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown hereon.

- (ii) *Other Notes:* The Early Redemption Amount payable in respect of any Note (other than Notes described in Condition 6(b)(i)), upon redemption of such Note pursuant to Condition 6(c) or upon it becoming due and payable as provided in Condition 11, shall be the Final Redemption Amount unless otherwise specified hereon.

- (B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such Additional Amounts or give effect to such treatment, as the case may be, were a payment in respect of the Notes then due and, in the case of Non-Preferred Loss Absorbing Notes and of Dated Subordinated Notes, no such notice of redemption shall be given prior to the compliance with the requirements in Condition 6(l).

(ii) *Tax Deductibility in respect of Non-Preferred Loss Absorbing Notes and Dated Subordinated Notes:* Subject to Condition 6(l), any Non-Preferred Loss Absorbing Note or Dated Subordinated Note may be redeemed at the option of the Issuer in whole, but not in part, on any Interest Payment Date (if such Non-Preferred Loss Absorbing Note or Dated Subordinated Note is at the relevant time a Floating Rate Note) or at any time (if such Non-Preferred Loss Absorbing Note or Dated Subordinated Note is at the relevant time not a Floating Rate Note), on giving not less than 30 but not more than 60 days' notice to the Noteholders (which notice shall be irrevocable) at, subject to adjustment following the occurrence of a Non-Viability Event in accordance with Condition 7, their Early Redemption Amount (as described in Condition 6(b)) or, if the Early Redemption Amount is not specified hereon, at their principal amount, in each case together with interest accrued but unpaid (if any) to (but excluding) the date fixed for redemption and any Additional Amounts then due or which will become due on or before the date fixed for redemption, if in respect of payments of interest on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes, the Issuer is no longer, or will no longer be, entitled to claim a deduction in respect of computing its taxation liabilities in Hong Kong or any political subdivision or any authority thereof or therein having power to tax:

- (II) the foregoing cannot be avoided by the Issuer taking reasonable measures available to it,

provided that, no such notice of redemption shall be given earlier than (a) if such Non-Preferred Loss Absorbing Note or Dated Subordinated Note is a Floating Rate Note, 60 days, or (b) if such Non-Preferred Loss Absorbing Note or Dated

Subordinated Note is not a Floating Rate Note, 90 days, in each case, prior to the earliest date on which the Issuer would cease to be able to claim a tax deduction in respect of the interest payable on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes then due.

Prior to giving any notice of redemption pursuant to this Condition 6(c)(ii), the Issuer shall deliver to the Trustee:

- (x) a certificate signed by two Authorised Signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the relevant conditions have been satisfied, and an opinion of independent legal or tax advisers of recognised standing to the effect that the Issuer has or will cease to be able to claim a tax deduction in respect of the interest payable on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes; and
- (y) a copy of the written consent of the Monetary Authority as referred to in Condition 6(l),

and the Trustee shall be entitled without further enquiry and without liability to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above in this Condition 6(c)(ii), in which event the same shall be conclusive and binding on the Noteholders.

Any redemption of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes by the Issuer pursuant to this Condition 6(c)(ii) is subject to the Issuer obtaining the prior written consent of the Monetary Authority, to the extent such consent is required under the Banking Capital Regulations or Loss Absorbing Capacity Rules.

- (d) **Redemption at the Option of the Issuer:** Subject to Condition 6(l), if Call Option is specified hereon, the Issuer may, on giving not less than 15 nor more than 30 days' irrevocable notice to the Noteholders (or such other notice period as may be specified hereon) redeem all or, if so provided, some of the Notes on the date(s) specified hereon (the "**Optional Redemption Date**") provided that, in the case of Dated Subordinated Notes, no such notice of redemption shall be given prior to the compliance with Condition 6(l). Any such redemption of Notes shall be at, subject to adjustment following the occurrence of a Non-Viability Event in accordance with Condition 7, the Optional Redemption Amount specified hereon together with interest accrued but unpaid (if any) to (but excluding) the date fixed for redemption. Any such redemption or exercise must relate to Notes of a principal amount at least equal to the Minimum Redemption Amount to be redeemed specified hereon and no greater than the Maximum Redemption Amount to be redeemed specified hereon.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition 6(d).

In the case of a partial redemption of Notes, the notice to Noteholders shall also contain the certificate numbers of the Bearer Notes, or in the case of Registered Notes shall specify the principal amount of Registered Notes drawn and the holder(s) of such Registered Notes, to be redeemed, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange or other relevant authority requirements.

Any redemption of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes by the Issuer pursuant to this Condition 6(d) is subject to the Issuer obtaining the prior written consent of the Monetary Authority, to the extent such consent is required under the Banking Capital Regulations or Loss Absorbing Capacity Rules.

For the avoidance of doubt, the Issuer does not provide any undertaking that it will exercise its option to redeem any Notes pursuant to this Condition 6(d).

- (e) **Redemption at the Option of the Noteholders other than holders of Dated Subordinated Notes:** If Put Option is specified hereon, the Issuer shall, at the option of the holder of any such Senior (Preferred) Note, upon the holder of such Senior (Preferred) Note giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified hereon) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued but unpaid (if any) to (but excluding) the date fixed for redemption, provided that in the case of Non-Preferred Loss Absorbing Notes the earliest date on which such Note may be redeemed pursuant to this Condition 6(e) is 12 months after the relevant Issue Date.

To exercise such option the holder must deposit (in the case of Bearer Notes) such Senior (Preferred) Note (together with all unmatured Receipts and Coupons and unexchanged Talons) with any Paying Agent or (in the case of Registered Notes) the Certificate representing such Senior (Preferred) Note(s) with the Registrar or any Transfer Agent at its specified office, together with a duly completed option exercise notice (an "**Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) within the notice period. No such Senior (Preferred) Note or Certificate so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior written consent of the Issuer.

Unless otherwise provided in these Conditions or the applicable Pricing Supplement, the Non-Preferred Loss Absorbing Notes and the Dated Subordinated Notes are not redeemable prior to the Maturity Date at the option of the Noteholders.

- (f) **Redemption for Regulatory Reasons in respect of Dated Subordinated Notes:** Subject to Condition 6(l), following the occurrence of a Capital Event, the Issuer may, having given not less than 30 but not more than 60 days' prior written notice to the Noteholders in accordance with Condition 17 (which notice shall be irrevocable), redeem in accordance with these Conditions on any Interest Payment Date (if the relevant Dated Subordinated Note is at the relevant time a Floating Rate Note) or at any time (if the relevant Dated Subordinated Note is at the relevant time not a Floating Rate Note) all, but not some only, of the relevant Dated Subordinated Notes, at, subject to adjustment following the occurrence of a Non-Viability Event in accordance with Condition 7, their Early Redemption Amount or, if no Early Redemption Amount is specified hereon, at their principal amount, in each case together with interest accrued but unpaid (if any) to (but excluding) the date of redemption in accordance with these Conditions and provided that no such notice of redemption shall be given prior to the compliance with Condition 6(l).

For the purposes of this Condition 6(f), a "**Capital Event**" occurs if immediately before the Issuer gives the notice of redemption referred in this Condition 6(f), the Dated Subordinated Notes, after having qualified as such, will no longer qualify (in whole but not in part) as Tier 2 capital (or equivalent) of the Issuer (other than non-qualification solely as a result of any discounting or amortisation requirements as to the eligibility of the Notes for such inclusion pursuant to the relevant legislation and supervisory guidance in force from time to time), as a result of a change or amendment in (or any change in the application or official interpretation of) the relevant provisions of the Banking Capital

Regulations, or any successor legislation or regulations made thereunder, or any supervisory guidance issued by the Monetary Authority in relation thereto. No such notice of redemption shall be given earlier than 90 days prior to the earliest date on which it is determined that a Capital Event has occurred.

- (x) a certificate signed by two Authorised Signatories of the Issuer stating that a Capital Event has occurred; and
- (y) a copy of the written consent of the Monetary Authority,

and the Trustee shall accept such certificate without any further inquiry as conclusive evidence of the satisfaction of the conditions set out above without liability to any person in which event it shall be conclusive and binding on the Noteholders. Upon expiry of such notice, the Issuer shall redeem the Dated Subordinated Notes in accordance with this Condition 6(f).

Any redemption of Dated Subordinated Notes by the Issuer pursuant to this Condition 6(d) is subject to the Issuer obtaining the prior written consent of the Monetary Authority, to the extent such consent is required under the Banking Capital Regulations or Loss Absorbing Capacity Rules.

- (g) **Redemption due to Loss Absorption Disqualification Event:** Subject to Condition 6(l), following the occurrence of a Loss Absorption Disqualification Event, the Issuer may, having given not less than 30 but not more than 60 days' prior written notice to the Noteholders in accordance with Condition 17 (which notice shall be irrevocable), redeem in accordance with these Conditions on any Interest Payment Date (if the relevant Note is at the relevant time a Floating Rate Note) or at any time (if the relevant Note is at the relevant time not a Floating Rate Note) all, but not some only, of the relevant Notes, at, subject to adjustment following the occurrence of a Non-Viability Event in accordance with Condition 7, their Early Redemption Amount or, if no Early Redemption Amount is specified hereon, at their principal amount together with interest accrued but unpaid (if any) to (but excluding) the date of redemption in accordance with these Conditions and provided that, in the case of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes, no such notice of redemption shall be given prior to the compliance with Condition 6(l).

For the purposes of this Condition 6(g), a “**Loss Absorption Disqualification Event**” occurs if immediately before the Issuer gives the notice of redemption referred in this Condition 6(g), the Notes, after having qualified as such, will no longer qualify (in whole but not in part) as a Loss Absorbing Instrument (or equivalent) of the Issuer (other than non-qualification solely as a result of any discounting or amortisation requirements as to the eligibility of the Notes for such inclusion pursuant to the relevant legislation and supervisory guidance in force from time to time) pursuant to the Loss Absorbing Capacity Rules, as a result of a change or amendment in (or any change in the application or official interpretation of) the relevant provisions of the Loss Absorbing Capacity Rules, or any successor legislation or regulations made thereunder, or any supervisory guidance issued by the Monetary Authority in relation thereto. No such notice of redemption shall be given earlier than 90 days prior to the earliest date on which it is determined that a Loss Absorption Disqualification Event has occurred.

Upon expiry of such notice, the Issuer shall redeem the Notes in accordance with this Condition 6(f).

Any redemption of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes by the Issuer pursuant to Condition 6(f) is subject to the Issuer obtaining the prior written consent of the Monetary Authority, to the extent such consent is required under the Banking Capital Regulations or Loss Absorbing Capacity Rules.

(h) **Partly Paid Notes:** Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition 6 and the provisions specified hereon.

(i) **Purchases:** The Issuer and any of its Subsidiaries may at any time purchase Notes (provided that all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price in accordance with all relevant laws and regulations and, for so long as the Notes are listed, the requirements of the relevant stock exchange and provided that, in the case of Non-Preferred Loss Absorbing Notes and Dated Subordinated Notes, no such purchase shall be made prior to the compliance with Condition 6(l). The Notes so purchased, while held by or on behalf of the Issuer or any such Subsidiary, shall not entitle the holder to vote at any meetings of the Noteholders and shall not be deemed to be outstanding for, among other things, the purposes of calculating the quorums at meetings of Noteholders or the purposes of Condition 12(a). The Issuer or any such Subsidiary may, at its option, retain such purchased Notes for its own account and/or resell or cancel or otherwise deal with them at its discretion.

(j) **Cancellation:** All Notes purchased by or on behalf of the Issuer or any of its Subsidiaries may be surrendered for cancellation, in the case of Bearer Notes, by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to the Issuing and Paying Agent and, in the case of Registered Notes, by surrendering the Certificate representing such Notes to the Registrar and, in each case, if so surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged. Any Non-Preferred Loss Absorbing Note or Dated Subordinated Note that is written-off in full in accordance with Condition 7 shall be automatically cancelled.

(k) **No Obligation to Monitor:** The Trustee shall not be under any duty to monitor whether any event or circumstance has happened or exists within this Condition 6 or Condition 7 and will not be responsible or liable to the Noteholders, the Receiptholders or the Couponholders or any other person for any loss arising from any failure by it to do so. Unless and until the Trustee has express notice in writing of the occurrence of any event or circumstance within this Condition 6 or Condition 7, it shall be entitled to assume that no such event or circumstance has happened or exists.

7 Non-Viability Loss Absorption and Hong Kong Resolution Authority Power

The ability to operationally effect any Write-off of any Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes or any cancellation, modification, conversion or change in form of Non-Preferred Loss Absorbing Notes or of Dated Subordinated Notes as a result of the exercise of the Hong Kong Resolution Authority Power under this Condition 7 with respect to the clearing and/or settlement of any Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes in or through the relevant clearing system(s) is subject to the availability of procedures to effect any such Write-off or such cancellation, modification, conversion or change in form in the relevant clearing system(s). However, any Write-off of any Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes, or the giving of effect of the Hong Kong Resolution Authority Power with respect to the Issuer under this Condition 7 will be effective upon the exercise of any Hong Kong Resolution Authority Power (or as may otherwise be notified in writing to Noteholders, the Trustee and Agents by the Issuer) notwithstanding any inability to operationally effect any such Write-off or any cancellation, modification, conversion or change in form as a result of the exercise of the Hong Kong Resolution Authority Power under this Condition 7 in the relevant clearing system(s).

The Trust Deed and the Agency Agreement may contain certain protections and disclaimers as applicable to the Trustee and Agents in relation to this Condition 7. Each Noteholder shall be deemed to have authorised, directed and requested the Trustee, the Registrar and the other Agents, as the case may be, to take any and all necessary action to give effect to any Write-off, cancellation, notification, conversion or change in form following the occurrence of the Non-Viability Event and/or exercise of any Hong Kong Resolution Authority Power.

- (a) **Non-Viability Loss Absorption upon a Non-Viability Event in respect of Dated Subordinated Notes:**
- (i) If “**Write-off**” is specified as being applicable for the Loss Absorption option in the applicable Pricing Supplement for any Dated Subordinated Notes and a Non-Viability Event occurs and is continuing, the Issuer shall, on or prior to the provision of a Non-Viability Event Notice, irrevocably (without the need for the consent of the Trustee or the holders of any Dated Subordinated Notes), reduce the then principal amount of, and cancel any accrued but unpaid interest in respect of, each Dated Subordinated Note (in each case, in whole or in part) by an amount equal to the Non-Viability Event Write-off Amount per Dated Subordinated Note (such reduction and cancellation, and the reduction and cancellation or conversion of any other Subordinated Capital Instruments so reduced and cancelled or converted upon the occurrence of a Non-Viability Event, where applicable, being referred to herein as the “**Write-off**”, and “**Written-off**” shall be construed accordingly).

- (ii) Concurrently with the giving of a Non-Viability Event Notice, the Issuer shall procure unless otherwise directed by the Monetary Authority that:
 - (A) a similar notice be given in respect of other Parity Capital Instruments in accordance with their terms; and
 - (B) concurrently and rateably with the Write-off of the Dated Subordinated Notes, the aggregate principal amount of such other Parity Capital Instruments is subject to a Write-off on a pro rata basis with the Dated Subordinated Notes.
- (iii) Any Write-off pursuant to this provision will not constitute a Default under the Dated Subordinated Notes.
- (iv) Any Dated Subordinated Note may be subject to one or more Write-offs in part (as the case may be), except where such Dated Subordinated Note has been Written-off in its entirety.
- (v) Once the principal amount of, and any accrued but unpaid interest under, the Dated Subordinated Notes has been Written-off, the relevant amount(s) Written-off will not be restored in any circumstances including where the relevant Non-Viability Event ceases to continue. No Noteholder may exercise, claim or plead any right to any amount that has been Written-off, and each Noteholder shall, by virtue of its holding of any Dated Subordinated Notes, be deemed to have waived all such rights to such amount that has been Written-off.
- (vi) Any reference in these Conditions to principal in respect of the Dated Subordinated Notes shall refer to the principal amount of the Dated Subordinated Note(s), reduced by any applicable Write-off(s).
- (vii) *Definitions:*

In these Conditions:

“**Non-Viability Event**” means the earlier of:

- (A) the Monetary Authority notifying the Issuer in writing that the Monetary Authority is of the opinion that a Write-off or conversion is necessary, without which the Issuer would become non-viable; and
- (B) the Monetary Authority notifying the Issuer in writing that a decision has been made by the government body, a government officer or other relevant regulatory body with the authority to make such a decision, that a public-sector injection of capital or equivalent support is necessary, without which the Issuer would become non-viable;

- (A) in reasonable detail the nature of the relevant Non-Viability Event; and
- (B) the Non-Viability Event Write-off Amount for:
 - (x) each Dated Subordinated Note; and

(y) each other Subordinated Capital Instrument in accordance with its terms;

“Non-Viability Event Write-off Amount” means the amount of interest and/or principal to be Written-off as the Monetary Authority may direct or, in the absence of such a direction, as the Issuer shall (in consultation with the Monetary Authority) determine to be necessary to satisfy the Monetary Authority that the Non-Viability Event will cease to continue. For the avoidance of doubt:

- (A) the full amount of the Dated Subordinated Notes will be Written-off in full in the event that the amount Written-off is not sufficient for the Non-Viability Event to cease to continue; and
- (B) in the case of an event falling within paragraph (B) of the definition of Non-Viability Event, the Write-off will be effected in full before any public-sector injection of capital or equivalent support.

Further, the Non-Viability Event Write-off Amount in respect of each Dated Subordinated Note will be calculated based on a percentage of the principal amount of that Dated Subordinated Note;

“Parity Capital Instrument” means any Parity Obligation which contains provisions relating to a write-down or conversion into ordinary shares in respect of its principal amount on the occurrence, or as a result, of a Non-Viability Event and in respect of which the conditions (if any) to the operation of such provisions are (or with the giving of any certificate or notice which is capable of being given by the Issuer, would be) satisfied; and

“Subordinated Capital Instrument” means any Junior Obligation or Parity Obligation which contains provisions relating to a write-down or conversion into ordinary shares in respect of its principal amount on the occurrence, or as a result, of a Non-Viability Event and in respect of which the conditions (if any) to the operation of such provisions are (or with the giving of any certificate or notice which is capable of being given by the Issuer, would be) satisfied.

(b) ***Hong Kong Resolution Authority Power in respect of Non-Preferred Loss Absorbing Notes and Dated Subordinated Notes:***

The Financial Institutions (Resolution) Ordinance (Cap. 628) of Hong Kong, as amended or superseded from time to time (the “Ordinance”) became effective on 7 July 2017 and all within scope financial institutions in Hong Kong are subject to the Ordinance.

- (i) Notwithstanding any other term of the Non-Preferred Loss Absorbing Notes, the Dated Subordinated Notes (including without limitation Condition 7(a)), or any other agreement or arrangement, each holder of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes and the Trustee shall be subject, and shall be deemed to agree, be bound by and acknowledge that they are each subject, to having the Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes (as the case may be) being written off, cancelled, converted or modified, or to having the form of the Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes (as the case may be) changed, in the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority without prior notice and which may include (without limitation) and result in any of the following or some combination thereof:

- (A) the reduction or cancellation of all or a part of the principal amount of, or interest on, the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes;
 - (B) the conversion of all or a part of the principal amount of, or interest on, the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes into shares or other securities or other obligations of the Issuer or another person (and the issue to or conferral on the holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes; and
 - (C) the amendment or alteration of the maturity of the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes or amendment or alteration of the amount of interest payable on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period, or any other amendment or alteration of these Conditions.
- (ii) With respect to (A), (B) and (C) above of Condition 7(b)(i), references to principal and interest shall include payments of principal and interest that have become due and payable (including principal that has become due and payable at the Maturity Date), but which have not been paid, prior to the exercise of any Hong Kong Resolution Authority Power. The rights of the holders of Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes and the Trustee under the Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and these Conditions are subject to, and will be amended and varied, if necessary, solely to give effect to, the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority.
 - (iii) No repayment of the principal amount of the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes or payment of interest on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes shall become due and payable or be paid after the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes unless, at the time that such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the Issuer under the laws and regulations applicable to the Issuer and the Group.
 - (iv) Upon the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes, the Issuer shall provide a written notice (a “**Resolution Notice**”) not more than two Business Days after the occurrence of such exercise of the Hong Kong Resolution Authority Power to the Noteholders in accordance with Condition 17 and to the Trustee and the Principal Paying Agent in writing.
 - (v) Neither the reduction or cancellation, in part or in full, of the principal amount of, or interest on the Non-Preferred Loss Absorbing Notes or the Dated Subordinated Notes, the conversion thereof into another security or obligation of the Issuer or another person, or any other amendment or alteration of these Conditions or any other modification or change in form of the Non-Preferred Loss Absorbing Notes or Dated Subordinated Notes as a result of the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Issuer nor the exercise of the Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Notes shall constitute a Default under Condition 11.

8 Payments and Talons

- (a) **Bearer Notes:** Payments of principal and interest in respect of Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relevant Note), Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 8(f)(iv)) or Coupons (in the case of interest, save as specified in Condition 8(f)(ii)), as the case may be:

Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 10).
- (ii) Upon the due date for redemption of any Bearer Note comprising a Floating Rate Note, Dual Currency Note or Index Linked Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Upon the due date for redemption of any Bearer Note that is redeemable in instalments, all Receipts relating to such Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
- (v) Where any Bearer Note that provides that the relevant unexpired Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unexpired Coupons, and where any Bearer Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.

- (vi) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Bearer Note or Certificate representing it, as the case may be. Interest accrued on a Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note or Certificate representing it, as the case may be.
- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Issuing and Paying Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 10).
- (h) **Non-Business Days:** If any date for payment in respect of any Note, Receipt or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment.  - (ii) (in the case of a payment in Euro) which is a TARGET Business Day; or
 - (iii) (in the case of a payment in Renminbi) on which banks and foreign exchange markets are open for business and settlement of Renminbi payments in Hong Kong.

If the Issuer is required to make a deduction or withholding by or within Hong Kong, the Issuer shall pay such additional amounts (the “**Additional Amounts**”) as shall result in receipt by the Noteholders, Receiptholders and Couponholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such Additional Amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) **Other connection:** to, or to a third party on behalf of, a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt, Talon or Coupon by reason of his having some connection with the Relevant Taxing Jurisdiction other than the holding or ownership of the Note, Receipt, Talon or Coupon or receiving income therefrom, or the enforcement thereof; or
- (b) **Presentation more than 30 days after the Relevant Date:** where presentation is required or has occurred, presented (or in respect of which the Certificate representing it is presented) for payment more than 30 days after the Relevant Date except to the extent that the holder of it would have been entitled to such Additional Amounts on presenting it for payment on or before the 30th such day.

As used in these Conditions, “**Relevant Date**” in respect of any Note, Receipt, Talon or Coupon means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note (or relevant Certificate), Receipt, Talon or Coupon being made in accordance with these Conditions, such payment will be made, provided that payment is in fact made upon such presentation.

References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Face Amounts and all other amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 5 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any Additional Amounts that may be payable under this Condition 9 or any undertaking given in addition to or in substitution for it under the Trust Deed.

10 Prescription

Claims against the Issuer for payment in respect of the Notes, Receipts and Coupons (which, for this purpose, shall not include Talons) shall be prescribed and will become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

12 Meetings of Noteholders, Modification, Waiver and Substitution

- (a) *Meetings of Noteholders*: The Trust Deed contains provisions for convening meetings of Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Trust Deed) of a modification of any of these Conditions or any provision of the Trust Deed. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee if requested in writing by Noteholders holding not less than 10 per cent. in aggregate principal amount of the Notes for the time being outstanding and subject to the Trustee being indemnified and/or secured and/or pre-funded to its satisfaction against all costs and expenses. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing more than 50 per cent. in principal amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the principal amount of the Notes held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend the dates of maturity or redemption of the Notes, any Instalment Date or any date for payment

Any Extraordinary Resolution duly passed shall be binding on Noteholders (whether or not they were present at the meeting at which such resolution was passed) and on all Couponholders.

The Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in principal amount of the Notes for the time being outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the applicable Pricing Supplement in relation to such Series.

- (b) ***Modification of the Trust Deed:*** The Trustee may agree, without the consent of the Noteholders, the Receipholders or the Couponholders, to (i) any modification of any of the provisions of the Trust Deed or these Conditions that is of a formal, minor or technical nature or is made to correct a manifest error or to comply with any mandatory provision of law, and (ii) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust Deed and/or these Conditions that is in the opinion of the Trustee not materially prejudicial to the interests of the Noteholders. Any such modification, authorisation or waiver shall be binding on the Noteholders and the Couponholders and, unless the Trustee otherwise agrees, such modification, authorisation or waiver shall be notified by the Issuer to the Noteholders as soon as practicable.
- (c) ***Substitution:*** The Trust Deed contains provisions permitting the Trustee to agree, subject to such amendment of the Trust Deed and such other conditions as the Trustee may require, but without the consent of the Noteholders or the Couponholders, to the substitution of the Issuer's successor in business or any Subsidiary of the Issuer or its successor in business or any holding company of the Issuer or any other subsidiary of any such holding company or their respective successor in business in place of the Issuer, or of any previous substituted company, as principal debtor under the Trust Deed and the Notes. In the case of such a substitution the Trustee may agree, without the consent of the Noteholders or the Couponholders, to a change of the law governing the Notes, the Receipts, the Coupons, the Talons and/or the Trust Deed provided that such change would not in the opinion of the Trustee be materially prejudicial to the interests of the Noteholders.

- (d) **Entitlement of the Trustee:** In connection with the exercise of its functions, powers, rights and discretions (including but not limited to those referred to in this Condition 12), the Trustee shall have regard to the interests of the Noteholders, the Receiptholders or the Couponholders as a class and shall not have regard to the consequences of such exercise for individual Noteholders, Receiptholders or Couponholders and the Trustee, acting for and on behalf of Noteholders, shall not be entitled to require, nor shall any Noteholder, Receiptholder or Couponholder be entitled to claim, from the Issuer any indemnification or payment in each case in respect of any tax consequence of any such exercise upon individual Noteholders, Receiptholders or Couponholders.

13 Enforcement

- (a) Without prejudice to Condition 11, the Trustee may, subject as provided below in this Condition 13, at its discretion and without further notice, take such steps and/or actions and/or institute such proceedings as it may think fit against the Issuer if the Issuer fails to perform, observe or comply with any obligation, condition or provision binding on the Issuer under the Notes, the Receipts, the Coupons or the Trust Deed (other than any obligation for the payment of any principal or interest in respect of Dated Subordinated Notes), provided that the Issuer shall not as consequence of such proceedings be obliged to pay any sum or sums representing or measured by reference to principal or interest in respect of the Notes sooner than the same would otherwise have been payable by it.
- (b) The Trustee shall not be bound to take action as referred to in these Conditions or any other action under the Trust Deed unless (i) it shall have been so requested in writing by Noteholders holding at least 25 per cent. of the principal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution of the Noteholders and (ii) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.
- (c) No Noteholder, Receiptholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails to do so within reasonable period and such failure is continuing. In respect of Dated Subordinated Notes only, subject to applicable laws, no remedy (including the exercise of any right of set-off or analogous event) other than those provided for in Condition 11 and Conditions 13(a) and 13(b) or submitting claims in the Winding-Up of the Issuer will be available to the Trustee or the Dated Subordinated Noteholders. No Dated Subordinated Noteholder shall be entitled to institute Winding-Up Proceedings in Hong Kong (or elsewhere) against the Issuer or to submit claim in such Winding-Up except that, if the Trustee, having become bound to institute such proceedings as aforesaid, fails to do so, or, being able and bound to submit a claim in such Winding-Up, fails to do so, in each case within a reasonable period and such failure is continuing, then any such holder may, himself institute Winding-Up Proceedings against the Issuer in Hong Kong (but not elsewhere) and/or submit a claim in such Winding-Up to the same extent (but not further or otherwise) that the Trustee would have been entitled to do.

14 Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility. The Trustee is entitled to enter into business transactions with the Issuer and any entity related to the Issuer without accounting for any profit.

The Trustee may rely without liability to Noteholders, Receiptholders or Couponholders on any report, confirmation or certificate or any advice or opinion of any legal counsel, accountants, financial advisers, financial institution or any other expert, whether or not addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by the Trustee or any other person or in any other manner) by

reference to a monetary cap, methodology or otherwise. The Trustee may accept and shall be entitled to rely on any such report, confirmation, certificate, advice or opinion and in such event, such report, confirmation, certificate, advice or opinion shall be binding on the Issuer, the Trustee, the Noteholders, the Receiptholders and the Couponholders.

15 Replacement of Notes, Certificates, Receipts, Coupons and Talons

If a Note, Certificate, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Issuing and Paying Agent (in the case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Certificates) or such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Certificate, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Certificates, Receipts, Coupons or further Coupons) or talons and otherwise as the Issuer may require. Mutilated or defaced Notes, Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

16 Further Issues

The Issuer may from time to time without the consent of the Noteholders, the Couponholders or the Receiptholders create and issue further securities either having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single series with the outstanding securities of any series (including the Notes) or upon such terms as the Issuer may determine at the time of their issue. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition 16 and consolidated and forming a single series with the Notes. Any further securities consolidated and forming a single series with the outstanding securities of any series (including the Notes) constituted by the Trust Deed or any deed supplemental to it shall, and any other securities may (with the consent of the Trustee), be constituted by the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of securities of other series where the Trustee so decides.

17 Notices

Notices to the holders of Registered Notes shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing and, so long as the Registered Notes are listed on a stock exchange or admitted to trading by another relevant authority and the rules of that exchange or a relevant authority so require, published in a daily newspaper having general circulation in the place or places required by those rules. Notices to the holders of Bearer Notes shall be valid if published in a daily newspaper of general circulation in Hong Kong (which is expected to be the South China Morning Post in Hong Kong). If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Asia. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange or any other relevant authority on which the Bearer Notes are for the time being listed. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition 17.

So long as the Notes are represented by a Global Note or a Global Certificate and such Global Note or Global Certificate is held on behalf of:

- (i) *Euroclear or Clearstream, Luxembourg or the Alternative Clearing System (as defined in the form of the Global Certificate), notices to Noteholders shall be given by delivery of the relevant notice to Euroclear or Clearstream, Luxembourg or the Alternative Clearing System, for communication by it to entitled accountholders in substitution for notification as required by the Conditions; or*
- (ii) the CMU, notices to the holders of Notes of that Series may be given by delivery of the relevant notice to the persons shown in the relevant CMU Issue Position Report issued by the Monetary Authority on the business day preceding the date of despatch of such notice.

A Non-Viability Event Notice or Resolution Notice to the holders of the relevant Dated Subordinated Notes shall be deemed to have been validly given on the date on which such notice is published in a daily newspaper of general circulation in Asia (which is expected to be Asian Wall Street Journal) or, so long as Notes are listed on The Stock Exchange of Hong Kong Limited (the “HKSE”), published on the website of the HKSE. If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Hong Kong. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

18 Contracts (Rights of Third Parties) Act

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999 except and to the extent (if any) that the Notes expressly provide for such Act to apply to any of their terms but this shall not affect any right or remedy that exists or is available apart from such Act and is without prejudice to the rights of the Noteholders as set out in Condition 13.

19 Governing Law and Jurisdiction

- (a) **Governing Law:** The Trust Deed, the Notes, the Receipts, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law, save that Conditions 3(c), 3(e), 3(f) and 7 are governed by, and shall be construed in accordance with, Hong Kong law.
- (b) **Jurisdiction:** The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons, save that the courts of Hong Kong shall have exclusive jurisdiction to settle any disputes that arise out of or are in connection with Conditions 3(c), 3(e), 3(f) and 7, and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons (“**Proceedings**”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of the Trustee and each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

- (c) *Service of Process*: The Issuer has in the Trust Deed irrevocably appointed an agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. If for any reason such process agent ceases to be able to accept service of process in England, the Issuer shall appoint a new agent to accept such service of process in England as soon as practicable.

References in these Conditions to “Undated Capital Securities” are to the Undated Capital Securities of one Series only, not to all Undated Capital Securities that may be issued under the Programme.

The Undated Capital Securities are constituted by an amended and restated Trust Deed dated 24 September 2021 (as may be amended or supplemented as at the date of issue of the Undated Capital Securities (the “**Issue Date**”) and as may be further amended, restated, novated or supplemented from time to time thereafter, the “**Trust Deed**”) between The Bank of East Asia, Limited (the “**Issuer**”) and DB Trustees (Hong Kong) Limited (the “**Trustee**”, which expression shall include all persons for the time being the trustee or trustees under the Trust Deed) as trustee for the Securityholders (as defined below).

These terms and conditions (the “**Conditions**”) include summaries of, and are subject to, the detailed provisions of the Trust Deed. An amended and restated Agency Agreement dated 24 September 2021 (as may be further amended, restated, novated or supplemented from time to time thereafter, the “**Agency Agreement**”) has been entered into in relation to the Undated Capital Securities between the Issuer, the Trustee, Deutsche Bank AG, Hong Kong Branch as initial issuing and paying agent, Deutsche Bank AG, Hong Kong Branch as CMU lodging and paying agent, transfer agent and as registrar for Undated Capital Securities to be held in the Central Moneymarkets Unit Service operated by the Hong Kong Monetary Authority (the “**CMU**”), Deutsche Bank AG, Hong Kong Branch as registrar of each series of Undated Capital Securities to be held in the CMU and Deutsche Bank Luxembourg S.A. as registrar of each series of Undated Capital Securities (other than Undated Capital Securities to be held in the CMU) and the other agents named in it. In the case of a transfer of part only of a holding of Undated Capital Securities represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor. All transfers of Undated Capital Securities and entries on the Register will be made subject to the detailed regulations concerning transfers of Undated Capital Securities scheduled to the Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar and the Trustee, or by the Registrar, with the prior written approval of the Trustee. No amount may be claimed in respect of any Distribution that has been cancelled pursuant to a Mandatory Distribution Cancellation Event (as defined in Condition 5(b)) or an Optional Distribution Cancellation Event (as defined in Condition 5(a)).

The amount of Distribution payable shall be determined by the Calculation Agent in accordance with Condition 4(e). Such Distribution Payment Date(s) is/are either shown hereon as Specified Distribution Payment Dates or, if no Specified Distribution Payment Date(s) is/are shown hereon, “**Distribution Payment Date**” shall mean each date which falls the number of months or other period shown hereon as the Distribution Period after the preceding Distribution Payment Date or, in the case of the first Distribution Payment Date, after the Distribution Commencement Date.

(iii) *Rate of Distribution for Floating Rate Undated Capital Securities:* The Rate of Distribution in respect of Floating Rate Undated Capital Securities for each Distribution Accrual Period shall be determined by the Calculation Agent in the manner specified hereon and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified hereon.

(A) ISDA Determination for Floating Rate Undated Capital Securities

Where ISDA Determination is specified hereon as the manner in which the Rate of Distribution is to be determined, the Rate of Distribution for each Distribution Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this paragraph (A), “**ISDA Rate**” for a Distribution Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified hereon;
- (y) the Designated Maturity is a period specified hereon; and
- (z) the relevant Reset Date is the first day of that Distribution Accrual Period unless otherwise specified hereon.

For the purposes of this paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Undated Capital Securities (other than Floating Rate Undated Capital Securities which specify the Reference Rate as either SOFR Benchmark or SONIA Benchmark)

- (x) Where Screen Rate Determination is specified hereon as the manner in which the Rate of Distribution is to be determined, the Rate of Distribution for each Distribution Accrual Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR or Hong Kong time in the case of HIBOR or Beijing time in the case of SHIBOR) or 11.15 a.m. (Hong Kong time in the case of CNH HIBOR) or if, at around that time it is notified that the fixing will be published at 2.30 p.m. (Hong Kong time), then as of 2.30 p.m. (Hong Kong time in the case of CNH HIBOR), as the case may be, on the Distribution Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Undated Capital Securities is specified hereon as being other than LIBOR, EURIBOR, HIBOR, CNH HIBOR or SHIBOR, the Rate of Distribution in respect of such Undated Capital Securities will be determined as provided hereon.

- (y) If the Relevant Screen Page is not available or if, sub-paragraph (x)(1) above applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (x)(2) above applies and fewer than three such offered quotations appear on the Relevant Screen Page in each case as at the time specified above, subject as provided below, the Calculation Agent shall promptly notify the Issuer and the Issuer shall use all commercially reasonable endeavours to appoint an Independent Investment Bank and procure such Independent Investment Bank to request, if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks or, if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks or, if the Reference Rate is HIBOR or CNH HIBOR, the principal Hong Kong office of each of the Reference Banks or, if the Reference Rate is SHIBOR, the principal Beijing office of each of the Reference Banks, to provide the Independent Investment Bank and the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if the Reference Rate is HIBOR, at approximately 11.00 a.m. (Hong Kong time), or, if the Reference Rate is CNH HIBOR, at approximately 11.15 a.m. (Hong Kong time), or, if the Reference Rate is SHIBOR, at approximately 11.30 a.m. (Beijing time), on the Distribution Determination Date in question. If two or more of the Reference Banks provide the Independent Investment Bank and the Calculation Agent with such offered quotations, the Rate of Distribution for such Distribution Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent.
- (z) If paragraph (y) above applies and the Calculation Agent has received offered quotations from fewer than two Reference Banks, subject as provided below, the Rate of Distribution shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated at the request of the Independent Investment Bank to the Independent Investment Bank and the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if the Reference Rate is HIBOR, at approximately 11.00 a.m. (Hong Kong time), or, if the Reference Rate is CNH HIBOR, at approximately 11.15 a.m. (Hong Kong time), or, if the Reference Rate is SHIBOR, at approximately 11.30 a.m. (Beijing time), on the relevant Distribution Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London interbank market or, if the Reference Rate is EURIBOR, the Euro-zone interbank market or, if the Reference Rate is HIBOR or CNH HIBOR, the Hong Kong interbank market, or, if the Reference Rate is SHIBOR, the Beijing interbank market as the case may be, or, if fewer than two of the Reference Banks provide the Independent Investment Bank and the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m.

- (ii) in all other cases, the fourth Business Day after such determination.

Where any Distribution Payment Date or Distribution Period End Date is subject to adjustment pursuant to Condition 4(b)(ii), the Distribution Amounts and the Distribution Payment Date so published may subsequently be amended (or appropriate alternative arrangements made with the consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Distribution Period. If the Undated Capital Securities become due and payable under Condition 11, the accrued Distribution and the Rate of Distribution payable in respect of the Undated Capital Securities shall, subject in the case of each of the SONIA Compounded Index Rate and the SONIA Compounded Daily Reference Rate to Condition 4(b)(iii)(D)(y)(i), nevertheless continue to be calculated as previously in accordance with this Condition 4(f) but no publication of the Rate of Distribution or the Distribution Amount so calculated need be made unless the Trustee otherwise requires. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties and the Securityholders.

If the Undated Capital Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority, the Issuer shall notify such stock exchange or other relevant authority as soon as possible.

- (g) *Determination or Calculation by an agent of the Issuer:*** If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Distribution for an Distribution Accrual Period or any Distribution Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, the Trustee may appoint an agent on its behalf to do so and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, such agent shall apply the foregoing provisions of this Condition 4, with any necessary consequential amendments, to the extent that, in its

opinion, it can do so, and, in all other respects it shall do so in such manner as it shall deem fair and reasonable in all the circumstances. The determination of any rate or amount and the making of each determination or calculation by such agent pursuant to this Condition 4(g) shall (in the absence of manifest error) be final and binding upon all parties.

- (h) ***Benchmark Discontinuation (other than Floating Rate Undated Capital Securities which specify the Reference Rate as SOFR Benchmark)***: This Condition 4(h) shall apply to only those Undated Capital Securities for which this Condition 4(h) is specified as “**Applicable**” in the applicable Pricing Supplement.

Notwithstanding any other provision of this Condition 4(h), no Successor Rate or Alternative Rate (as applicable) will be adopted, nor will other amendments to the terms of any Undated Capital Securities be made pursuant to this Condition 4(h), if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Undated Capital Securities as Additional Tier 1 capital of the Issuer and/or the Group, and/or as eligible liabilities or loss absorbing capacity instruments for the purposes of the Banking Capital Regulations and/or any applicable Loss Absorbing Capacity Rules.

- (i) ***Independent Adviser***: If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Distribution (or any component part thereof) remains to be determined by reference to such Original Reference Rate, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, or failing which, an Alternative Rate (in accordance with Condition 4(h)(ii)) and, in either case, an Adjustment Spread (if any, in accordance with Condition 4(h)(iii)) and any Benchmark Amendments (in accordance with Condition 4(h)(iv)).

In making such determination, the Independent Adviser appointed pursuant to this Condition 4(h) shall act in good faith as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Trustee, the Paying Agents or the Securityholders for any determination made by it, pursuant to this Condition 4(h).

If (A) the Issuer is unable to appoint an Independent Adviser; or (B) the Independent Adviser fails to determine a Successor Rate or, failing which, an Alternative Rate, in accordance with this Condition 4(h)(i) prior to the relevant Distribution Determination Date, the Rate of Distribution applicable to the next succeeding Distribution Accrual Period shall be equal to the Rate of Distribution last determined in relation to the Undated Capital Securities in respect of the immediately preceding Distribution Accrual Period. If there has not been a first Distribution Payment Date, the Rate of Distribution shall be the initial Rate of Distribution. Where a different Margin or Maximum Rate of Distribution or Minimum Rate of Distribution is to be applied to the relevant Distribution Accrual Period from that which applied to the last preceding Distribution Accrual Period, the Margin or Maximum Rate of Distribution or Minimum Rate of Distribution relating to the relevant Distribution Accrual Period shall be substituted in place of the Margin or Maximum Rate of Distribution or Minimum Rate of Distribution relating to that last preceding Distribution Accrual Period. For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Distribution Accrual Period only and any subsequent Distribution Accrual Periods are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 4(h)(i).

(ii) *Successor Rate or Alternative Rate*: If the Independent Adviser determines that:

(A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Rate of Distribution (or the relevant component part thereof) for all future payments of distribution on the Undated Capital Securities (subject to the operation of this Condition 4(h)); or

(B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Rate of Distribution (or the relevant component part thereof) for all future payments of distribution on the Undated Capital Securities (subject to the operation of this Condition 4(h)).

(iii) *Adjustment Spread*: If the Independent Advisor determines that:

(A) an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be); and

(B) the quantum of, or a formula or methodology for determining such Adjustment Spread,

then the Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(iv) *Benchmark Amendments*:

If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 4(h) and the Independent Adviser determines:

(A) that amendments to these Conditions and/or the Trust Deed are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”); and

(B) the terms of the Benchmark Amendments,

then the Issuer shall, subject to giving notice thereof in accordance with Condition 4(h)(v), without any requirement for the consent or approval of Securityholders, the Trustee or the Agents, vary these Conditions and/or the Trust Deed to give effect to such Benchmark Amendments with effect from the date specified in such notice.

At the request of the Issuer, but subject to receipt by the Trustee of a certificate signed by two Authorised Signatories of the Issuer, pursuant to Condition 4(h)(v), the Trustee shall (at the expense of the Issuer), without any requirement for the consent or approval of the Securityholders, be obliged to concur with the Issuer in effecting any Benchmark Amendments (including, *inter alia*, by the execution of a deed supplemental to or amending the Trust Deed), provided that the Trustee shall not be obliged so to concur if in the opinion of the Trustee doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Trustee in these Conditions or the Trust Deed (including, for the avoidance of doubt, any supplemental trust deed) in any way.

For the avoidance of doubt, the Trustee and the Issuing and Paying Agent shall, at the direction and expense of the Issuer, effect such consequential amendments to the Trust Deed, the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 4(h)(iv). Securityholders' consent shall not be required in connection with effecting of the Successor Rate or the Alternative Rate (as applicable), any Adjustment Spread, Benchmark Amendments or such other changes, including the execution of any documents or any steps by the Trustee or the Issuing and Paying Agent (if required).

In connection with any such variation in accordance with this Condition 4(h)(iv), the Issuer shall comply with the rules of any stock exchange on which the Undated Capital Securities are for the time being listed or admitted to trading.

Notwithstanding any other provision of this Condition 4(h)(iv), no Successor Rate or Alternative Rate (as applicable) will be adopted, nor will the applicable Adjustment Spread be applied, nor will any Benchmark Amendments be made, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Undated Capital Securities as Additional Tier 1 capital of the Issuer and/or the Group, and/or as eligible liabilities or loss absorbing capacity instruments for the purposes of the Banking Capital Regulations and/or any applicable Loss Absorbing Capacity Rules.

- (v) *Notices:* Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 4(h) will be notified promptly by the Issuer to the Trustee, the Calculation Agent, the Paying Agents and, in accordance with Condition 15, the Securityholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Trustee of the same, the Issuer shall deliver to the Trustee a certificate signed by two Authorised Signatories of the Issuer:

- (A) confirming (I) that a Benchmark Event has occurred, (II) the Successor Rate or, as the case may be, the Alternative Rate (if applicable), (III) the applicable Adjustment Spread (if any) and (IV) the specific terms of the Benchmark Amendments (if any), in each case as determined in accordance with the provisions of this Condition 4(h); and
- (B) certifying that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread (if any).

The Trustee shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate, Alternative Rate, the Adjustment Spread or the Benchmark Amendments (if any) and without prejudice to the Trustee's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Trustee, the Calculation Agent, the Paying Agents, the Securityholders.

- (vi) *Survival of Original Reference Rate:* Without prejudice to the obligations of the Issuer under Conditions 4(h)(i), 4(h)(ii), 4(h)(iii) and 4(h)(iv), the Original Reference Rate and the fallback provisions provided for in Condition 4(b)(iii)(B), as applicable, will continue to apply unless and until a Benchmark Event has occurred.

(vii) *Definitions:*

As used in this Condition 4(h):

“**Adjustment Spread**” means either (A) a spread (which may be positive, negative or zero) or (B) a formula or methodology for calculating a spread, in each case to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) (if no such recommendation as referred to in (i) above of this definition has been made, or in the case of an Alternative Rate) the Independent Adviser determines as being customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (iii) (if the Independent Adviser determines that no such spread as referred to in (ii) above of this definition is customarily applied) the Independent Adviser (in consultation with the Issuer) determines, and which is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be);

“**Alternative Rate**” means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with Condition 4(h)(ii) as being customarily applied in market usage in the international debt capital markets transactions for the purposes of determining rates of distribution (or the relevant component part thereof) in the same Specified Currency as the Undated Capital Securities;

- (iii) a public statement by the supervisor of the administrator of the Original Reference Rate, that the Original Reference Rate has been or will be permanently or indefinitely discontinued and such discontinuation is reasonably expected by the Issuer to occur during the term of the Undated Capital Securities; or

- (iv) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used either generally, or in respect of the Undated Capital Securities and such prohibition is reasonably expected by the Issuer to occur during the term of the Undated Capital Securities; or
- (v) a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market; or
- (vi) it has become unlawful for any Paying Agent, the Calculation Agent, the Issuer or other party to calculate any payments due to be made to any Securityholder using the Original Reference Rate,

provided that the Benchmark Event shall be deemed to occur (a) in the case of subparagraphs (ii) and (iii) above, on the date of the cessation of publication of the Original Reference Rate or the discontinuation of the Original Reference Rate, as the case may be, (b) in the case of sub-paragraph (iv) above, on the date of the prohibition or restriction of use of the Original Reference Rate and (c) in the case of sub-paragraph (v) above, on the date with effect from which the Original Reference Rate will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement;

If the Issuer or its designee determines on or prior to the relevant Reference Time that a Benchmark Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Undated Capital Securities in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Securityholders.

(ii) *Benchmark Replacement Conforming Changes*

In connection with the implementation of a Benchmark Replacement, the Issuer or its designee will have the right to make Benchmark Replacement Conforming Changes from time to time. “**Benchmark Event**” means the occurrence of one or more of the following events with respect to the then-current Benchmark (including any daily published component used in the calculation thereof):

- (3) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative;

“**Benchmark Replacement**” means the first alternative set forth in the order below that can be determined by the Issuer or its designee as of the Benchmark Replacement Date:

(b) Hong Kong Resolution Authority Power:

*The Financial Institutions (Resolution) Ordinance (Cap. 628) of Hong Kong, as amended or superseded from time to time (the “**Ordinance**”) became effective on 7 July 2017 and all within scope financial institutions in Hong Kong are subject to the Ordinance.*

(i) Notwithstanding any other term of the Undated Capital Securities, including without limitation Condition 7(a), or any other agreement or arrangement, each Securityholder and the Trustee shall be subject, and shall be deemed to agree, be bound by and acknowledge that they are each subject, to having the Undated Capital Securities being written off, cancelled, converted or modified, or to having the form of the Undated Capital Securities changed, in the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority without prior notice and which may include (without limitation) and result in any of the following or some combination thereof:

- (B) the conversion of all or a part of the principal amount of, or Distributions on, the Undated Capital Securities into shares or other securities or other obligations of the Issuer or another person (and the issue to or conferral on the holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Undated Capital Securities; and
 - (C) the amendment or alteration of the maturity of the Undated Capital Securities or amendment or alteration of the amount of Distributions payable on the Undated Capital Securities, or the date on which the Distributions become payable, including by suspending payment for a temporary period, or any other amendment or alteration of these Conditions.

The rights of the Securityholders and the Trustee under the Undated Capital Securities and these Conditions are subject to, and will be amended and varied, if necessary, solely to give effect to, the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority.
 - (iii) No repayment of the principal amount of the Undated Capital Securities or payment of Distributions on the Undated Capital Securities shall become due and payable or be paid after the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Undated Capital Securities unless, at the time that such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the Issuer under the laws and regulations applicable to the Issuer and the Group.
 - (iv) Upon the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Undated Capital Securities, the Issuer shall provide a written notice (a “**Resolution Notice**”) not more than two Business Days after the occurrence of such exercise of the Hong Kong Resolution Authority Power to the Securityholders in accordance with Condition 15 and to the Trustee and the Principal Paying Agent in writing.
 - (v) Neither the reduction or cancellation, in part or in full, of the principal amount of, or Distributions on the Undated Capital Securities, the conversion thereof into another security or obligation of the Issuer or another person, or any other amendment or alteration of these Conditions or any other modification or change in form of the Undated Capital Securities as a result of the exercise of any Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Issuer nor the exercise of the Hong Kong Resolution Authority Power by the relevant Hong Kong Resolution Authority with respect to the Undated Capital Securities shall constitute a Default under Condition 11.

“**relevant Hong Kong Resolution Authority**” means any authority with the ability to exercise a Hong Kong Resolution Authority Power in relation to the Issuer from time to time.

Please see the investment consideration entitled “The operation of the resolution regime in Hong Kong may override the contractual terms of the Notes and the Undated Capital Securities” in the section headed “Investment Considerations — Considerations Relating to Non-Preferred Loss Absorbing Notes, Dated Subordinated Notes and Undated Capital Securities” for further information.

8 Payments

(a) Payments in Respect of the Undated Capital Securities:

- (i) Payments of principal in respect of Undated Capital Securities shall be made against presentation and surrender of the relevant Certificates at the specified office of any of the Transfer Agents or of the Registrar and in the manner provided in Condition 7(a)(ii) below.
- (ii) Distributions shall be paid to the person shown on the Register at the close of business:
 - (A) in the case of Undated Capital Securities denominated in a currency other than Renminbi, on the 15th day before the due date for payment thereof; and
 - (B) in the case of Undated Capital Securities denominated in Renminbi, on the fifth day before the due date for payment (the “**Record Date**”).

Payments of Distributions in respect of each Undated Capital Security shall be made:

- (x) in the case of Undated Capital Securities denominated in a currency other than Renminbi, in the relevant currency by transfer to an account in the relevant currency maintained by the payee with, or, at the option of the relevant Agent, by a cheque payable in the relevant currency drawn on, a Bank; and
- (y) in the case of Undated Capital Securities denominated in Renminbi, by transfer to the registered account of the Securityholder. If a holder does not maintain a registered account in respect of a payment to be made under the Undated Capital Securities, the Issuer reserves the right, in its sole discretion and upon such terms as it may determine, to make arrangements to pay such amount to that holder by another means, provided that the Issuer shall not have any obligation to make any such arrangements.

In this Condition 8(a):

“**Bank**” means a bank in the principal financial centre for such currency or, in the case of Euro, in a city in which banks have access to the TARGET System; and

“**registered account**” means the Renminbi account maintained by or on behalf of the Securityholder with a bank in Hong Kong, details of which appear on the Register at the close of business on the fifth Business Day before the due date for payment.

Please see the section entitled “Clearance and Settlement”. Securityholders are required to ensure that they maintain an account or, as the case may be, a registered account into which payments of principal and Distributions in respect of the Undated Capital Securities are able to be paid by the relevant Paying Agent.

Payments of principal and distribution in respect of Undated Capital Securities held in the CMU will be made to the CMU for their distribution to the person(s) for whose account(s) interests in the relevant Undated Capital Security are credited as being held with the CMU in accordance with the CMU Rules at the relevant time and payment made in accordance thereof shall discharge the obligations of the Issuer in respect of that payment.

(b) Payments subject to fiscal laws: Payments will be subject in all cases to:

- (i) any fiscal or other laws and regulations applicable thereto, but without prejudice to the provisions of Condition 9, in the place of payment; and
- (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 9) any law implementing an intergovernmental approach thereto.

(c) Appointment of Agents: The Issuing and Paying Agent, the CMU Lodging and Paying Agent, the Paying Agents, the Registrar, the Transfer Agents and the Calculation Agent initially appointed by the Issuer and their respective specified offices are listed below. The Issuing and Paying Agent, the CMU Lodging and Paying Agent, the Paying Agents, the Registrar, the Transfer Agents and the Calculation Agent act solely as agents of the Issuer and do not assume any obligation or relationship of agency or trust for or with any Securityholder. The Issuer reserves the right at any time with the prior written approval of the Trustee to vary or terminate the appointment of the Issuing and Paying Agent, the CMU Lodging and Paying Agent, any other Paying Agent, the Registrar, any Transfer Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents or Transfer Agents, provided that the Issuer shall at all times maintain:

- (i) an Issuing and Paying Agent;
- (ii) a Registrar;
- (iii) a Transfer Agent;
- (iv) a CMU Lodging and Paying Agent in relation to Undated Capital Securities accepted for clearance through the CMU;
- (v) one or more Calculation Agent(s) where the Conditions so require; and

- (vi) such other agents as may be required by any other stock exchange on which the Undated Capital Securities may be listed, in each case as approved in writing by the Trustee.

Notice of any such change or any change of any specified office shall promptly be given by the Issuer to the Securityholders.

(d) Non-Business Days: If any date for payment in respect of any Undated Capital Security is not a business day, the holder shall not be entitled to payment until the next following business day nor to any distribution or other sum in respect of such postponed payment. In this Condition 8(d), “**business day**” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in the relevant place of presentation of the relevant Certificate and in such other jurisdictions as shall be specified as “**Financial Centres**” hereon and:

- (i) (in the case of a payment in a currency other than Euro or Renminbi) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency; or
- (ii) (in the case of a payment in Euro) which is a TARGET Business Day; or
- (iii) (in the case of a payment in Renminbi) on which banks and foreign exchange markets are open for business and settlement of Renminbi payments in Hong Kong.

9 Taxation

All payments of principal and distributions by or on behalf of the Issuer in respect of the Undated Capital Securities shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Hong Kong (the “**Relevant Taxing Jurisdiction**”) or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law. If the Issuer is required to make a deduction or withholding by or within Hong Kong, the Issuer shall pay such additional amounts (the “**Additional Amounts**”) as shall result in receipt by the Securityholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such Additional Amounts shall be payable with respect to any Undated Capital Security:

- (a) Other connection:* to, or to a third party on behalf of, a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Undated Capital Securities by reason of his having some connection with the Relevant Taxing Jurisdiction other than the holding or ownership of the Undated Capital Securities or receiving income therefrom, or the enforcement thereof; or
- (b) Presentation more than 30 days after the Relevant Date:* where presentation is required or has occurred, presented (or in respect of which the Certificate representing it is presented) for payment more than 30 days after the Relevant Date except to the extent that the holder of it would have been entitled to such Additional Amounts on presenting it for payment on or before the 30th such day.

As used in these Conditions, “**Relevant Date**” in respect of any Undated Capital Security means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Securityholders that, upon further presentation of the Undated Capital Security (or relevant Certificate) being made in accordance with these Conditions, such payment will be made, provided that payment is in fact made upon such presentation.

References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Undated Capital Securities, and all amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it, (ii) “**Distributions**” shall be deemed to include all Distributions and all other amounts payable pursuant to Condition 4 or any amendment or supplement to it and (iii) “**principal**” and/or “**Distributions**” shall be deemed to include any Additional Amounts that may be payable under this Condition 9 or any undertaking given in addition to or in substitution for it under the Trust Deed.

10 Prescription

Claims against the Issuer for payment in respect of the Undated Capital Securities shall be prescribed and will become void unless made within 10 years (in the case of principal) or five years (in the case of Distribution) from the appropriate Relevant Date in respect of them.

11 Default and Enforcement

(a) Default and Winding-up Proceedings:

- (i) If default is made in the payment of any amount of principal or Distributions in respect of the Undated Capital Securities on the due date for payment thereof and such failure continues for a period of five business days in Hong Kong (in the case of principal) or 10 business days in Hong Kong (in the case of Distribution) (each such event, a “**Default**”), then the Trustee at its discretion may, subject as provided in Condition 11(b), in order to enforce payment, without further notice, institute Winding-Up Proceedings in Hong Kong against the Issuer, but may take no further action in respect of such default (but without prejudice to Condition 11(a)(ii) below). For the avoidance of doubt, no Distribution will be due and payable if such Distribution has been cancelled or is deemed cancelled (in each case, in whole or in part) in accordance with these Conditions. Accordingly, no default in payment under the Undated Capital Securities will have occurred or be deemed to have occurred for the non-payment of any Distribution that has been so cancelled or deemed cancelled.
- (ii) If a Write-off has occurred pursuant to, or otherwise in accordance with, Condition 7, such event will not constitute a Default under these Conditions.
- (iii) If an order is made or an effective resolution is passed for the Winding-Up of the Issuer in Hong Kong (except for the purposes of reconstruction, amalgamation or reorganisation the terms of which have previously been approved by an Extraordinary Resolution of the holders of the Undated Capital Securities) (such event also a “**Default**”), then the Trustee at its discretion may, subject as provided in Condition 11(b), give written notice to the Issuer that the Undated Capital Securities are, and they shall forthwith thereupon become, immediately due and repayable at their principal amount together with accrued Distribution without further action or formality.

In addition, nothing in this Condition 11, including without limitation any restriction on taking action and/or commencing proceedings, shall in any way restrict or limit the rights of the Trustee or any of its directors, officers, employees or Appointees to claim from or to otherwise take any action against the Issuer in respect of any costs, charges, fees or expenses properly incurred or liabilities incurred by such party pursuant to or in connection with these Conditions or the Trust Deed.

(b) Enforcement:

- (i) Without prejudice to Condition 11(a), the Trustee may subject as provided below, at its discretion and without further notice, institute such proceedings against the Issuer if the Issuer fails to perform, observe or comply with any obligation, condition or provision relating to the Undated Capital Securities binding on it under these Conditions or the Trust Deed (other than any obligation of the Issuer for the payment of any principal or Distributions in respect of the Undated Capital Securities), provided that the Issuer shall not as a consequence of such proceedings be obliged to pay any sum or sums representing or measured by reference to principal or Distributions in respect of the Undated Capital Securities sooner than the same would otherwise have been payable by it.
- (ii) The Trustee shall not be bound to take action as referred to in Conditions 11(a) and 11(b)(i) or any other action under these Conditions or the Trust Deed unless (a) it shall have been so requested in writing by Securityholders holding at least 25 per cent. in principal amount of the Undated Capital Securities then outstanding or if so directed by an Extraordinary Resolution of the Securityholders and (b) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.
- (iii) No Securityholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails to do so within a reasonable period and such failure is continuing.
- (iv) Subject to applicable laws, no remedy (including the exercise of any right of set-off or analogous event) other than those provided for in Condition 11(a) and Conditions 11(b)(i) and 11(b)(ii) above or submitting a claim in the Winding-Up of the Issuer will be available to the Trustee or the Securityholders.
- (v) No Securityholder shall be entitled either to institute proceedings for the Winding-Up of the Issuer or to submit a claim in such Winding-Up, except that if the Trustee, having become bound to institute such proceedings as aforesaid, fails to do so, or, being able and bound to submit a claim in such Winding-Up, fails to do so, in each case within a reasonable period and such failure is continuing, then any such Securityholder may, on giving an indemnity and/or security and/or pre-funding satisfactory to the Trustee, in the name of the Trustee (but not otherwise), himself institute Winding-Up Proceedings and/or submit a claim in the Winding-Up of the Issuer to the same extent (but not further or otherwise) that the Trustee would have been entitled to do.

12 Meetings of Securityholders, Modifications and Consolidations

- (a) Meetings of Securityholders:** The Trust Deed contains provisions for convening meetings of Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Trust Deed) of a modification of any of these Conditions or any provision of the Trust Deed. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee if requested in writing by Securityholders holding not less than 10 per cent. in aggregate principal amount of the Undated Capital Securities for the time being outstanding and subject to the Trustee

being indemnified and/or secured and/or pre-funded to its satisfaction against all costs and expenses. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing more than 50 per cent. in principal amount of the Undated Capital Securities for the time being outstanding, or at any adjourned meeting two or more persons being or representing Securityholders whatever the principal amount of the Undated Capital Securities held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend the dates of redemption of the Undated Capital Securities or any date for payment of distribution or Distributions on the Undated Capital Securities, (ii) to reduce or cancel the principal amount of, or any premium payable on redemption of, the Undated Capital Securities, (iii) to reduce the rate or rates of distributions in respect of the Undated Capital Securities or to vary the method or basis of calculating the rate or rates or amount of distributions or the basis for calculating any distribution in respect of the Undated Capital Securities, (iv) to vary any method of, or basis for, calculating the relevant redemption amount, (v) to vary the currency or currencies of payment or denomination of the Undated Capital Securities, or (vi) to modify the provisions concerning the quorum required at any meeting of Securityholders or the majority required to pass an Extraordinary Resolution, in which case the necessary quorum shall be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., in principal amount of the Undated Capital Securities for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on the Securityholders (whether or not they were present at the meeting at which such resolution was passed).

The Trust Deed provides that a resolution in writing signed by or on behalf of the Securityholders of not less than 90 per cent. in principal amount of the Undated Capital Securities for the time being outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Securityholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

These Conditions may be amended, modified or varied in relation to any Series of Undated Capital Securities by the terms of the applicable Pricing Supplement in relation to such Undated Capital Securities.

- (b) **Modification of the Trust Deed:** The Trustee may agree, without the consent of the Securityholders, to (i) any modification of any of the provisions of the Trust Deed or these Conditions that is of a formal, minor or technical nature or is made to correct a manifest error or to comply with any mandatory provision of law, and (ii) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust Deed and/or these Conditions that is in the opinion of the Trustee not materially prejudicial to the interests of the Securityholders. Any such modification, authorisation or waiver shall be binding on the Securityholders and, unless the Trustee otherwise agrees, such modification, authorisation or waiver shall be notified by the Issuer to the Securityholders as soon as practicable.
- (c) **Substitution:** The Trust Deed contains provisions permitting the Trustee to agree, subject to such amendment of the Trust Deed and such other conditions as the Trustee may require, but without the consent of the Securityholders, to the substitution of the Issuer's successor in business or any Subsidiary of the Issuer or its successor in business or any holding company of the Issuer or any other subsidiary of any such holding company or their respective successor in business in place of the Issuer, or of any previous substituted company, as principal debtor under the Trust Deed and the Undated Capital Securities. In

the case of such a substitution the Trustee may agree, without the consent of the Securityholders, to a change of the law governing the Undated Capital Securities and/or the Trust Deed provided that such change would not in the opinion of the Trustee be materially prejudicial to the interests of the Securityholders.

(d) **Entitlement of the Trustee:** In connection with the exercise of its functions, powers, rights and discretions (including but not limited to those referred to in this Condition 12), the Trustee shall have regard to the interests of the Securityholders as a class and shall not have regard to the consequences of such exercise for individual Securityholders and the Trustee, acting for and on behalf of Securityholders, shall not be entitled to require, nor shall any Securityholder be entitled to claim, from the Issuer any indemnification or payment in each case in respect of any tax consequence of any such exercise upon individual Securityholders.

13 Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility. The Trustee is entitled to enter into business transactions with the Issuer and any entity related to the Issuer without accounting for any profit.

The Trustee may rely without liability to Securityholders on any report, confirmation or certificate or any advice or opinion of any legal counsel, accountants, financial advisers, financial institution or any other expert, whether or not addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by the Trustee or any other person or in any other manner) by reference to a monetary cap, methodology or otherwise. The Trustee may accept and shall be entitled to rely on any such report, confirmation, certificate, advice or opinion and in such event, such report, confirmation, certificate, advice or opinion shall be binding on the Issuer and the Securityholders.

14 Replacement of Certificates

If a Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Issuing and Paying Agent and of the Registrar or such other Paying Agent or Transfer Agent, as the case may be, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Certificate is subsequently presented for payment, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Certificates) and otherwise as the Issuer may require. Mutilated or defaced Certificates must be surrendered before replacements will be issued.

15 Notices

Notices to the holders of the Undated Capital Securities shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing and, so long as the Undated Capital Securities are listed on a stock exchange or admitted to trading by another relevant authority and the rules of that exchange or a relevant authority so require, published in a daily newspaper having general circulation in the place or places required by those rules. If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Asia. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

So long as the Undated Capital Securities are represented by a Global Certificate and such Global Certificate is held on behalf of:

- (i) Euroclear or Clearstream, Luxembourg or the Alternative Clearing System (as defined in the form of the Global Certificate), notices to Securityholders shall be given by delivery of the relevant notice to Euroclear or Clearstream, Luxembourg or the Alternative Clearing System, for communication by it to entitled accountholders in substitution for notification as required by the Conditions; or
- (ii) *the CMU, notices to the holders of Undated Capital Securities of that Series may be given by delivery of the relevant notice to the persons shown in the relevant CMU Issue Position Report issued by the Monetary Authority on the business day preceding the date of despatch of such notice.*

A Non-Viability Event Notice or notice of the issue of a Resolution Notice to the holders of the relevant Undated Capital Securities shall be deemed to have been validly given on the date on which such notice is published in a daily newspaper of general circulation in Asia (which is expected to be Asian Wall Street Journal) or, so long as Undated Capital Securities are listed on The Stock Exchange of Hong Kong Limited (the “**HKSE**”), published on the website of the HKSE. If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Hong Kong. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

16 Contracts (Rights of Third Parties) Act

No person shall have any right to enforce any term or condition of the Undated Capital Securities under the Contracts (Rights of Third Parties) Act 1999 except and to the extent (if any) that the Undated Capital Securities expressly provide for such Act to apply to any of their terms but this shall not affect any right or remedy that exists or is available apart from such Act and is without prejudice to the rights of the Securityholders as set out in Condition 11.

17 Governing Law and Jurisdiction

- (a) **Governing Law:** The Trust Deed, the Undated Capital Securities and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law, save that Conditions 3(b), 3(c) and 7 are governed by, and shall be construed in accordance with, Hong Kong law.
- (b) **Jurisdiction:** The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Undated Capital Securities, save that the courts of Hong Kong shall have exclusive jurisdiction to settle any disputes that arise out of or are in connection with Conditions 3(b), 3(c) and 7, and accordingly any legal action or proceedings arising out of or in connection with any Undated Capital Securities (“**Proceedings**”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of the Trustee and each of the holders of the Undated Capital Securities and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) *Service of Process*: The Issuer has in the Trust Deed irrevocably appointed an agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. If for any reason such process agent ceases to be able to accept service of process in England, the Issuer shall appoint a new agent to accept such service of process in England as soon as practicable.

SUMMARY OF PROVISIONS RELATING TO THE NOTES AND THE UNDATED CAPITAL SECURITIES WHILE IN GLOBAL FORM

1 INITIAL ISSUE OF NOTES OR UNDATED CAPITAL SECURITIES

Global Notes and Global Certificates may be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream (the “**Common Depository**”) or a sub-custodian for the Monetary Authority as operator of the CMU.

Upon the initial deposit of a Global Note or Global Certificate with the Common Depository or with a sub-custodian for the Monetary Authority as operator of the CMU or registration of Registered Notes or Registered Certificates in the name of (i) any nominee for Euroclear and Clearstream or (ii) the Monetary Authority and delivery of the relative Global Certificate to the Common Depository or the sub-custodian for the Monetary Authority as operator of the CMU (as the case may be), Euroclear or Clearstream or the CMU (as the case may be) will credit each subscriber with a nominal amount of Notes or Undated Capital Securities equal to the nominal amount thereof for which it has subscribed and paid.

Notes or Undated Capital Securities that are initially deposited with the Common Depository may also be credited to the accounts of subscribers with (if indicated in the relevant Pricing Supplement) other clearing systems through direct or indirect accounts with Euroclear and Clearstream held by such other clearing systems. Conversely, Notes or Undated Capital Securities that are initially deposited with any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream or other clearing systems.

2 RELATIONSHIP OF ACCOUNTHOLDERS WITH CLEARING SYSTEMS

Save as provided in the following paragraph, each of the persons shown in the records of Euroclear, Clearstream or any other clearing system (an “**Alternative Clearing System**”) as the holder of a Note represented by a Global Note or a Global Certificate must look solely to Euroclear, Clearstream or any such Alternative Clearing System (as the case may be) for his share of each payment made by the Issuer to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, and in relation to all other rights arising under the Global Notes or Global Certificates, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream or such Alternative Clearing System (as the case may be). Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes or the Undated Capital Securities for so long as the Notes or the Undated Capital Securities are represented by such Global Note or Global Certificate and such obligations of the Issuer will be discharged by payment to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, in respect of each amount so paid.

If a Global Note or a Global Certificate is lodged with a sub-custodian for or registered with the CMU, the person(s) for whose account(s) interests in such Global Note or Global Certificate are credited as being held in the CMU in accordance with the CMU Rules shall be the only person(s) entitled (or, in the case of Registered Notes, directed or deemed by the CMU as entitled) to receive payments in respect of Notes or Undated Capital Securities represented by such Global Note or Global Certificate and the Issuer will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note or Global Certificate are credited as being held in the CMU in respect of each amount so paid. Each of the persons shown in the records of the CMU, as the beneficial holder of a particular nominal amount of Notes or Undated Capital Securities represented by such Global Note or Global Certificate must look solely to the CMU for his share of each payment so made by the Issuer in respect of such Global Note or Global Certificate.

3 EXCHANGE

3.1 Temporary Global Notes

Each temporary Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date:

- (i) if the relevant Pricing Supplement indicates that such Global Note is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (as to which, see “*Summary of the Programme — Selling Restrictions*”), in whole, but not in part, for the Definitive Notes defined and described below; and
- (ii) otherwise, in whole or in part upon certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement for interests in a permanent Global Note or, if so provided in the relevant Pricing Supplement, for Definitive Notes.

The CMU may require that any such exchange for a permanent Global Note is made in whole and not in part and in such event, no such exchange will be effected until all relevant account holders (as set out in a CMU Issue Position Report (as defined in the rules of the CMU) or any other relevant notification supplied to the CMU Lodging and Paying Agent by the CMU) have so certified.

3.2 Permanent Global Notes

Each permanent Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under “Partial Exchange of Permanent Global Notes” below, in part for Definitive Notes or, in the case of (i) below, Registered Notes:

- (i) if the permanent Global Note is held on behalf of Euroclear, Clearstream, the CMU or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so; or
- (ii) if principal in respect of any Notes is not paid when due, by the holder giving notice to the Issuing and Paying Agent (or, in the case of Notes lodged with the CMU, the CMU Lodging and Paying Agent) of its election for such exchange.

In the event that a Global Note is exchanged for Definitive Notes, such Definitive Notes shall be issued in Specified Denomination(s) only. A Noteholder who holds a principal amount of less than the minimum Specified Denomination will not receive a Definitive Note in respect of such holding and would need to purchase a principal amount of Notes or Undated Capital Securities such that it holds an amount equal to one or more Specified Denominations.

3.3 Global Certificates

If the relevant Pricing Supplement states that the Notes or the Undated Capital Securities are to be represented by a Global Certificate on issue, the following will apply in respect of transfers of Notes or Undated Capital Securities held in Euroclear or Clearstream or the CMU or an Alternative Clearing System. These provisions will not prevent the trading of interests in the Notes or the Undated Capital Securities within a clearing system whilst they are held on behalf of such clearing system, but will limit the circumstances in which the Notes or the Undated Capital Securities may be withdrawn from the relevant clearing system.

Transfers of the holding of Notes or Undated Capital Securities represented by any Global Certificate pursuant to Note Condition 2 and Undated Capital Securities Condition 2 may only be made in part:

- (i) if the relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so;
- (ii) if principal in respect of any Notes or Undated Capital Securities is not paid when due; or
- (iii) with the prior consent of the Issuer,

provided that, in the case of the first transfer of part of a holding pursuant to (i) or (ii) above, the Registered Holder has given the Registrar not less than 30 days' notice at its specified office of the Registered Holder's intention to effect such transfer.

3.4 Partial Exchange of Permanent Global Notes

For so long as a permanent Global Note is held on behalf of a clearing system and the rules of that clearing system permit, such permanent Global Note will be exchangeable in part on one or more occasions for Definitive Notes (i) if principal in respect of any Notes is not paid when due or (ii) if so provided in, and in accordance with, the Note Conditions (which will be set out in the relevant Pricing Supplement) relating to Partly Paid Notes.

3.5 Delivery of Notes

On or after any due date for exchange the holder of a Global Note may surrender such Global Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Issuing and Paying Agent (or, in the case of Notes or Undated Capital Securities lodged with the CMU, the CMU Lodging and Paying Agent). In exchange for any Global Note, or the part thereof to be exchanged, the Issuer will (i) in the case of a temporary Global Note exchangeable for a permanent Global Note, deliver, or procure the delivery of, a permanent Global Note in an aggregate nominal amount equal to that of the whole or that part of a temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a permanent Global Note to reflect such exchange or (ii) in the case of a Global Note exchangeable for Definitive Notes or Registered Notes, deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Notes and/or Certificates, as the case may be. Global Notes and Definitive Notes will be delivered outside the United States and its possessions. In this Offering Circular, "**Definitive Notes**" means, in relation to any Global Note, the definitive Bearer Notes for which such Global Note may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Installment Amounts that have not already been paid on the Global Note and a Talon). Definitive Notes will be security printed and Certificates will be printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the Schedules to the Trust Deed. On exchange in full of each permanent Global Note, the Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Notes.

3.6 Exchange Date

"**Exchange Date**" means (i) in relation to an exchange of a temporary Global Note to a permanent Global Note, the day falling after the expiry of 40 days after its issue date; (ii) in relation to an exchange of a permanent Global Note to a Definitive Note, a day falling not more than 45 days after the date of receipt of the first relevant notice by the Issuing and Paying Agent; (iii) in relation to an exchange of a permanent Global Note to a Registered Note, a day falling not more than five days after the date of receipt of the first relevant notice by the Issuing and

Paying Agent; or (iv) in the case of failure to pay principal in respect of any Notes when due or an Event of Default has occurred and is continuing, a day falling 30 days after the date of receipt of the first relevant notice by the Issuing and Paying Agent, provided if such date is not a day on which banks are open for business in the city in which the specified office of the Issuing and Paying Agent is located and in the city in which the relevant clearing system is located, the immediately following day.

4 AMENDMENT TO CONDITIONS

The temporary Global Notes, permanent Global Notes and Global Notes contain provisions that apply to the Notes or the Undated Capital Securities that they represent, some of which modify the effect of the Note Conditions or the Undated Capital Securities Conditions, as applicable, set out in this Offering Circular. The following is a summary of certain of those provisions:

4.1 Payments

No payment falling due after the Exchange Date will be made on any Global Note unless exchange for an interest in a permanent Global Note or for Definitive Notes or Registered Notes is improperly withheld or refused. Payments on any temporary Global Note issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement. All payments in respect of Notes represented by a Global Note (except with respect to Global Note held through the CMU) will be made against presentation for endorsement and, if no further payment falls to be made in respect of the Notes, surrender of that Global Note to or to the order of the Issuing and Paying Agent as shall have been notified to the Noteholders for such purpose. A record of each payment so made will be endorsed on each Global Note, which endorsement will be prima facie evidence that such payment has been made in respect of the Notes.

All payments in respect of Notes or Undated Capital Securities represented by a Global Certificate will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the record date which shall be on the Clearing System Business Day immediately prior to the date for payment, where “**Clearing System Business Day**” means Monday to Friday inclusive except 25 December and 1 January.

In respect of a Global Note or Global Certificate representing Notes or Undated Capital Securities held through the CMU, any payments of principal, interest (if any) or any other amounts shall be made to the person(s) for whose account(s) interests in the relevant Global Note or Global Certificate are credited (as set out in the records of the CMU) at the close of business on the Clearing System Business Day immediately prior to the date for payment and, save in the case of final payment, no presentation of the relevant bearer Global Note or Global Certificate shall be required for such purpose. For the purposes of this paragraph, “**Clearing System Business Day**” means a day on which the CMU is operating and open for business.

So long as the Notes or the Undated Capital Securities are represented by a Global Note or Global Certificate and the Global Note or Global Certificate is held on behalf of the Clearing Systems, the Issuer has promised, *inter alia*, to pay interest in respect of such Notes or Undated Capital Securities from the Interest Commencement Date or the Distribution Commencement Date in arrear at the rates, on the dates for payment, and in accordance with the method of calculation provided for in the Note Conditions or the Undated Capital Securities Conditions, as applicable, save that the calculation is made in respect of the total aggregate amount of the Notes or the Undated Capital Securities represented by the Global Note or Global Certificate.

4.2 Prescription

Claims against the Issuer in respect of Notes or Undated Capital Securities that are represented by a permanent Global Note will become void unless it is presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date (as defined in Note Condition 9 and Undated Capital Securities Condition 9).

4.3 Meetings

The holder of a permanent Global Note or of the Notes or the Undated Capital Securities represented by a Global Certificate shall (unless such permanent Global Note or Global Certificate represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, the holder of a permanent Global Note or a Global Certificate shall be treated as having one vote in respect of each integral currency unit of the Specified Currency of the Notes or the Undated Capital Securities. (All holders of Registered Notes are entitled to one vote in respect of each integral currency unit of the Specified Currency of the Notes or the Undated Capital Securities comprising such Noteholder's holding, whether or not represented by a Global Certificate.)

4.4 Cancellation

Cancellation of any Note represented by a permanent Global Note or Global Certificate that is required by the Note Conditions or the Undated Capital Securities Conditions, as applicable, to be cancelled (other than upon its redemption) will be effected by reduction in the nominal amount of the relevant permanent Global Note or Global Certificate.

4.5 Purchase

Notes or Undated Capital Securities represented by a permanent Global Note may only be purchased by the Issuer or any of its respective subsidiaries if they are purchased together with the rights to receive all future payments of interest and Installment Amounts (if any) thereon.

4.6 The Option of the Issuer

Any option of the Issuer provided for in the Conditions of any Notes or Undated Capital Securities while such Notes or Undated Capital Securities are represented by a permanent Global Note shall be exercised by the Issuer giving notice to the Noteholders within the time limits set out in and containing the information required by the Note Conditions or the Undated Capital Securities Conditions, as applicable, except that the notice shall not be required to contain, in the case of Bearer Notes, the certificate numbers of Notes or Undated Capital Securities drawn or, in the case of Registered Notes, the holder of the Notes in respect of a partial exercise of an option and accordingly no drawing of Notes or Undated Capital Securities shall be required. In the event that any option of the Issuer is exercised in respect of some but not all of the Notes or the Undated Capital Securities of any Series, the rights of accountholders with a clearing system in respect of the Notes or the Undated Capital Securities will be governed by the standard procedures of Euroclear, Clearstream, the CMU or an Alternative Clearing System (as the case may be).

4.7 Noteholders' Options

Any option of the Noteholders provided for in the Conditions of any Notes or Undated Capital Securities while such Notes or Undated Capital Securities are represented by a permanent Global Note may be exercised by the holder of the permanent Global Note (in accordance with the standard procedures of the relevant clearing system) giving notice to the Issuing and Paying Agent or (in respect of Notes or Undated Capital Securities represented by a Global Certificate) the Registrar or Transfer Agent or (in respect of Notes or Undated Capital Securities lodged with the CMU) the CMU Lodging and Paying Agent within the time limits relating to the deposit of Notes or Undated Capital Securities with a Paying Agent set out in the Note Conditions or the Undated Capital Securities Conditions, as applicable, substantially in the form of the notice available from any Paying Agent, except that the notice shall not be required to contain the serial numbers of the Notes or the Undated Capital Securities in respect of which the option has been exercised, and stating the nominal amount of Notes or Undated Capital Securities in respect of which the option is exercised and at the same time presenting the permanent Global Note or Global Certificate to the Issuing and Paying Agent, the relevant Registrar, a Transfer Agent or the CMU Lodging and Paying Agent (or, in each case, to a Paying Agent acting on their behalf), as the case may be, for notation.

4.8 Trustee's Powers

In considering the interests of Noteholders while any Global Note is held by or on behalf of, or Registered Notes are registered in the name of, or in the name of any nominee for, a clearing system, the Trustee may have regard to any information provided to it by such clearing system or its operator as to the identity (either individually or by category) of its accountholders with entitlements to such Global Note or Registered Notes and may consider such interests as if such accountholders were the holders of the Notes or the Undated Capital Securities represented by such Global Note or Global Certificate.

4.9 Notices

So long as any Notes or Undated Capital Securities are represented by a Global Note or Global Certificate and such Global Note or Global Certificate is held on behalf of (i) Euroclear and/or Clearstream or any other clearing system (except as provided in (ii) below), notices to the holders of Notes or Undated Capital Securities of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Note Conditions or the Undated Capital Securities Conditions, as applicable, or by delivery of the relevant notice to the holder of the Global Note or Global Certificate or (ii) the CMU, notices to the holders of Notes or Undated Capital Securities of that Series may be given by delivery of the relevant notice to the CMU in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note or Global Certificate, and any such notice shall be deemed to have been given to the Noteholders on the day on which such notice is delivered to the CMU.

5 PARTLY PAID NOTES

The provisions relating to Partly Paid Notes are not set out in this Offering Circular, but will be contained in the relevant Pricing Supplement and thereby in the Global Notes or Global Certificates. While any installments of the subscription moneys due from the holder of Partly Paid Notes are overdue, no interest in a Global Note representing such Notes may be exchanged for an interest in a permanent Global Note or for Definitive Notes (as the case may be). If any Noteholder fails to pay any installment due on any Partly Paid Notes within the time specified, the Issuer may forfeit such Notes and shall have no further obligation to their holder in respect of them.

HONG KONG

Withholding Tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or the Undated Capital Securities or in respect of any capital gains arising from the sale of the Notes or the Undated Capital Securities.

Profits Tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Interest on the Notes or the Undated Capital Securities may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (i) interest on the Notes or the Undated Capital Securities is derived from Hong Kong and is received by or accrues to a corporation carrying on a trade, profession or business in Hong Kong;
- (ii) interest on the Notes or the Undated Capital Securities is derived from Hong Kong and is received by or accrues to a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business;
- (iii) interest on the Notes or the Undated Capital Securities is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance (Cap.112) of Hong Kong (the “**IRO**”)) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- (iv) interest on the Notes or the Undated Capital Securities is received by or accrues to a corporation, other than a financial institution, and arises through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the IRO).

Pursuant to the Exemption from Profits Tax (Interest Income) Order, interest income accruing to a person other than a financial institution, on deposits (denominated in any currency and whether or not the deposit is evidenced by a certificate of deposit) placed with, inter alia, an authorized institution in Hong Kong (within the meaning of section 2 of the Banking Ordinance (Cap. 155) of Hong Kong) is exempt from the payment of Hong Kong profits tax. This exemption does not apply, however, to deposits that are used to secure or guarantee money borrowed in certain circumstances. Provided no

prospectus involving the issue of the Notes or the Undated Capital Securities is registered under the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong, the issue of the Notes or the Undated Capital Securities by the Issuer is expected to constitute a deposit to which the above exemption from payment will apply.

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and redemption of Notes or Undated Capital Securities will be subject to Hong Kong profits tax. Sums received by or accrued to a corporation, other than a financial institution, by way of gains or profits arising through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the IRO) from the sale, disposal or other redemption of Notes or Undated Capital Securities will be subject to Hong Kong profits tax.

Sums derived from the sale, disposal or redemption of Notes or Undated Capital Securities will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source unless otherwise exempted. The source of such sums will generally be determined by having regard to the manner in which the Notes or the Undated Capital Securities are acquired and disposed of.

In certain circumstances, Hong Kong profits tax exemptions (such as concessionary tax rates) may be available. Investors are advised to consult their own tax advisers to ascertain the applicability of any exemptions to their individual position.

Stamp Duty

Stamp duty will not be payable on the issue of Bearer Notes provided that either:

- (i) such Bearer Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) such Bearer Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap.117) of Hong Kong (the “SDO”).

If stamp duty is payable, it is payable by the Issuer on the issue of Bearer Notes at a rate of 3 per cent. of the market value of the Bearer Notes at the time of issue. No stamp duty will be payable on any subsequent transfer of Bearer Notes.

No stamp duty is payable on the issue of Registered Notes. Stamp duty may be payable on any transfer of Registered Notes if the relevant transfer is required to be registered in Hong Kong. Stamp duty will, however, not be payable on any transfer of Registered Notes provided that either:

- (i) such Registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) such Registered Notes constitute loan capital (as defined in the SDO).

Notwithstanding the above, no stamp duty is payable on the transfer of a regulatory capital security (as defined in Section 17A of the IRO).

If stamp duty is payable in respect of the transfer of Registered Notes it will be payable at the rate of 0.26 per cent. (of which 0.13 per cent. is payable by the seller and 0.13 per cent. is payable by the purchaser) normally by reference to the consideration or its value, whichever is higher. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the Registered Notes if the relevant transfer is required to be registered in Hong Kong.

EUROPEAN UNION

EU Savings Directive

The Savings Directive requires EU Member States to provide to the tax authorities of other EU Member States details of payments of interest and other similar income paid by a person established within its jurisdiction to (or for the benefit of) an individual resident, or certain other types of entity established, in that other EU Member State, except that Austria and Luxembourg will instead impose a withholding system for a transitional period (subject to a procedure whereby, on meeting certain conditions, the beneficial owner of the interest or other income may request that no tax be withheld) unless during such period they elect otherwise. The Luxembourg government has announced its intention to elect out of the withholding system in favour of an automatic exchange of information with effect from 1 January 2015.

The Council of the European Union has adopted the Amending Directive which will, when implemented, amend and broaden the scope of the requirements described above. The Amending Directive will expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities, and the circumstances in which payments must be reported or paid subject to withholding. For example, payments made to (or for the benefit of) (i) an entity or legal arrangement effectively managed in an EU Member State that is not subject to effective taxation, or (ii) a person, entity or legal arrangement established or effectively managed outside of the EU (and outside any third country or territory that has adopted similar measures to the Savings Directive) which indirectly benefit an individual resident in an EU Member State, may fall within the scope of the Savings Directive, as amended. The Amending Directive requires EU Member States to adopt national legislation necessary to comply with it by 1 January 2016, which legislation must apply from 1 January 2017.

The Proposed Financial Transactions Tax (“FTT”)

On 14 February 2013, the European Commission published a proposal (the “**Commission’s Proposal**”) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “**Participating Member States**”).

The Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes or Undated Capital Securities (including secondary market transactions) in certain circumstances.

Under the Commission’s Proposal the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in Notes or Undated Capital Securities where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, “established” in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

A joint statement issued in May 2014 by ten of the eleven participating Member States indicated an intention to implement the FTT progressively, such that it would initially apply to shares and certain derivatives, with this initial implementation occurring by 1 January 2016. The FTT, as initially implemented on this basis, may not apply to dealings in the Notes or the Undated Capital Securities.

The FTT proposal remains subject to negotiation between the Participating Member States. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate. Prospective holders of Notes or Undated Capital Securities are advised to seek their own professional advice in relation to the FTT.

FATCA WITHHOLDING

TO ENSURE COMPLIANCE WITH TREASURY DEPARTMENT CIRCULAR 230, PROSPECTIVE PURCHASERS ARE HEREBY NOTIFIED THAT: (A) ANY DISCUSSION OF U.S. FEDERAL TAX ISSUES IN THIS OFFERING CIRCULAR IS NOT INTENDED OR WRITTEN TO BE RELIED UPON, AND CANNOT BE RELIED UPON, BY ANY PERSON FOR THE PURPOSE OF AVOIDING PENALTIES THAT MAY BE IMPOSED ON SUCH PERSON UNDER THE INTERNAL REVENUE CODE; (B) SUCH DISCUSSION IS INCLUDED HEREIN BY THE ISSUER IN CONNECTION WITH THE PROMOTION OR MARKETING (WITHIN THE MEANING OF CIRCULAR 230) BY THE ISSUER OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) PROSPECTIVE PURCHASERS SHOULD SEEK ADVICE BASED ON THEIR PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“foreign passthru payments”) to persons that fail to meet certain certification, reporting, or related requirements. The issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including Hong Kong) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“IGAs”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes and the Undated Capital Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes and the Undated Capital Securities, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes and the Undated Capital Securities, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register, and Notes or Undated Capital Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining “foreign passthru payments” are filed with the U.S. Federal Register generally would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer). However, if additional Notes or Undated Capital Securities that are not distinguishable from previously issued Notes or Undated Capital Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes or Undated Capital Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes and the Undated Capital Securities. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes or the Undated Capital Securities, no person will be required to pay additional amounts as a result of the withholding.

Euroclear and Clearstream provide to their respective participants, among other things, services for safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream participants are financial institutions throughout the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Euroclear or Clearstream is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Distributions of principal with respect to book-entry interests in the Notes or the Undated Capital Securities held through Euroclear or Clearstream will be credited, to the extent received by the Paying Agent, to the cash accounts of Euroclear or Clearstream participants in accordance with the relevant system’s rules and procedures.

CMU

The CMU is a central depository service provided by the Central Moneymarkets Unit of the Monetary Authority for the safe custody and electronic trading between the members of this service (“**CMU Members**”) of Exchange Fund Bills and Notes Clearing and Settlement Service securities and capital markets instruments (together, “**CMU Instruments**”) which are specified in the CMU Reference Manual as capable of being held within the CMU.

The CMU is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. The CMU has an income distribution service which is a service offered by the CMU to facilitate the distribution of interest, coupon or redemption proceeds (collectively, the “income proceeds”) by CMU Members who are paying agents to the legal title holders of CMU Instruments via the CMU system. Furthermore, the CMU has a corporate action platform which allows an issuer (or its agent) to make an announcement/notification of a corporate action and noteholders to submit the relevant certification. For further details, please refer to the CMU Reference Manual. An investor holding an interest through an account with either Euroclear or Clearstream in any Notes or Undated Capital Securities held in the CMU will hold that interest through the respective accounts which Euroclear and Clearstream each have with the CMU.

SUBSCRIPTION AND SALE

AMENDED AND RESTATED DEALER AGREEMENT

Subject to the terms and on the conditions contained in an Amended and Restated Dealer Agreement dated 24 September 2021 (the “**Dealer Agreement**”) between the Issuer, the Permanent Dealers and the Arranger, the Notes or the Undated Capital Securities will be offered on a continuous basis by the Issuer to the Permanent Dealers. However, the Issuer has reserved the right to sell the Notes or the Undated Capital Securities directly on its own behalf to institutions that are not Dealers. The Notes or the Undated Capital Securities may also be sold by the Issuer through the Dealers, acting as agents of the Issuer. The Dealer Agreement also provides for the Notes or the Undated Capital Securities to be issued in syndicated Tranches that are severally underwritten by two or more Dealers.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of the Notes or the Undated Capital Securities subscribed by it. The commissions in respect of an issue of Notes or the Undated Capital Securities on a syndicated basis will be stated in the relevant Pricing Supplement.

The Issuer has agreed to indemnify the Arranger and the Dealers against certain liabilities in connection with the offer and sale of the Notes or the Undated Capital Securities. The Arranger, the Dealers or any of their respective affiliates may have performed certain banking and advisory services for the Issuer and/or its affiliates from time to time for which they have received customary fees and expenses and may, from time to time, engage in transactions with and perform services for the Issuer and/or its affiliates in the ordinary course of the Issuer’s or their business. The Dealers or certain of their respective affiliates may purchase the Notes or the Undated Capital Securities and be allocated the Notes or the Undated Capital Securities for asset management and/or proprietary purposes but not with a view to distribution.

The Arranger, the Dealers or any of their respective affiliates may purchase the Notes or the Undated Capital Securities for its or their own account and enter into transactions, including credit derivatives, such as asset swaps, repackaging and credit default swaps relating to the Notes or the Undated Capital Securities and/or other securities of the Issuer or its associates at the same time as the offer and sale of the Notes or the Undated Capital Securities or in secondary market transactions. Such transactions would be carried out as bilateral trades with selected counterparties and separately from any existing sale or resale of the Notes or the Undated Capital Securities to which this Offering Circular relates (notwithstanding that such selected counterparties may also be purchasers of the Notes or the Undated Capital Securities).

Application has been made to the HKSE for the listing of the Programme under which Notes or Undated Capital Securities may be issued by way of debt issues to Professional Investor only during the 12-month period after the date of this Offering Circular on the HKSE. Impairment allowances of loans and advances to customers

Refer to notes 2(h)(vii), 29(a), 45(a)(x) to the consolidated financial statements

Key audit matter	How the matter was addressed in our audit
<p>The Group's advances to customers as at 31 December 2019 amounted to HK\$509,105 million, with total expected credit losses ("ECL") amounting to HK\$3,769 million as at 31 December 2019. Hong Kong and China Operations contributed to 57% and 26% of the Group's advances to customers, and 16% and 80% of the Group's total ECL respectively.</p> <p>Impairment allowances of loans and advances to customers across the banking industry continues to be an area of concern and elevated focus due to the uncertain local and global economic outlook, including the adverse impact from China – United States trade disputes and the recent social unrest in Hong Kong.</p> <p>The Group experienced significant credit losses from China Operations during the year. Impairment allowances may be materially misstated if the exposures with a significant increase in credit risk are not properly identified and classified in the appropriate stages. The assessment of the recoverable amount of collateral is particularly challenging in Mainland China as the extent of judgement exercised by management in the process of determining the strategy of recovery and assessing the collateral value of these exposures is higher. As a result, the impairment allowances of loans and advances to customers in this particular part of business is subject to a higher inherent risk of material misstatements.</p>	<p>Our audit procedures to assess the Group's impairment allowances on loans and advances to customers measured at amortised cost included the following:</p> <ul style="list-style-type: none"> • understanding and assessing the design, implementation and operating effectiveness of key internal controls on financial reporting over the change of financial instrument standards, approval, recording and monitoring of loans measured at amortised cost, the credit grading process, the ECL model development, approval, monitoring, governance process, and the measurement of provisions for impairment allowances; • involving specialists in assessing the reliability of the ECL model used by management in determining impairment allowances, including assessing the appropriateness of the key parameters and assumptions in the expected credit loss model, including the identification of loss stages, probability of default, loss given default, exposure at default, discount rate, adjustments for forward-looking information and other management adjustments;

客戶貸款及墊款的減值準備

請參閱綜合財務報表附註2(h)(vii)、29(a)和45(a)(x)

關鍵審計事項

於二零一九年十二月三十一日，貴集團的客戶墊款達到港幣5,091.05億元，預期信貸損失於二零一九年十二月三十一日總額為港幣37.69億元。香港與中國內地的業務分別佔貴集團客戶墊款的57%和26%，以及佔貴集團預期信貸損失總額的16%和80%。

由於本地及全球經濟前景不明朗，包括中美貿易糾紛帶來的不利影響，以及香港最近出現的社會動蕩因素，銀行業界的客戶貸款及墊款的減值準備繼續成為主要關注事項。

貴集團於年內在中國業務經歷重大信貸損失。倘貸款的信貸風險顯著增加未被恰當地識別及分類，可能導致預期信貸損失存在重大錯誤陳述。由於管理層在釐定收回策略及評估抵押品價值的過程中涉及較多的判斷，評估在中國內地的抵押物的可收回金額時特別具有難度。因此，有關此部份業務的客戶貸款及墊款減值準備存在較高重大錯誤陳述的內含風險。

審計對策

與評估貴集團以攤銷成本計量的客戶貸款及墊款的減值準備相關的審計程序包括以下各項：

- 瞭解並評估與以下項目有關的關鍵財務報告內部控制的設計、實施及操作成效：金融工具準則的變更，以攤銷成本計量的貸款的審批、記錄和監管，信貸評級流程、預期信貸損失模型的制定、審批、監管和管治程序，以及減值準備的撥備計量；
- 使用專家評估管理層在釐定減值準備時所用的預期信貸損失模型的可靠性，包括評估預期信貸損失模型所用的關鍵參數及假設是否恰當，這包括所識別的損失階段，違約概率、違約損失率、違約風險承擔和貼現率，就前瞻性資訊所作的調整以及管理層所作的其他調整；

Impairment allowances of loans and advances to customers

Refer to notes 2(h)(vii), 29(a), 45(a)(x) to the consolidated financial statements

Key audit matter	How the matter was addressed in our audit
<p>The Group has continued to apply its expected credit loss model to assess impairment allowances of loans and advances to customers measured at amortised cost. Loan exposures that are not already credit-impaired are classified as stage 1 on origination and a 12-month ECL provision is recognised. Loan exposures will remain in stage 1 until they are repaid, unless they experience a significant increase in credit risk (stage 2) or they become credit-impaired (stage 3), for which a lifetime ECL provision is recognised. The details of the Group's accounting policies and credit risk management are set out in note 2(h)(vii) and 45(a) to the consolidated financial statements.</p> <p>ECL may be materially misstated if the exposures with a significant increase in credit risk are not properly identified, leading to inaccurate recognition of ECL.</p> <p>The determination of impairment allowances using the expected credit loss model is subject to a number of key parameters and assumptions, including the identification of loss stages, estimates of probability of default, loss given default, exposures at default and discount rate, adjustments for forward-looking information and other adjustment factors. Management judgment is involved in the selection of those parameters and the application of the assumptions.</p> <p>In particular, the determination of the impairment allowances is heavily dependent on the external macro environment and the Group's internal credit risk management strategy. The expected credit losses are derived from estimates including the historical losses, internal and external credit grading and other adjustment factors. The expected credit losses for personal loans are derived from estimates whereby management takes into consideration historical overdue data, the historical loss experience for personal loans and other adjustment factors.</p>	<ul style="list-style-type: none"> • assessing the completeness and accuracy of data used for the key parameters in the expected credit loss model, by comparing individual loan information on a sample basis with the underlying agreements and other related documentation to assess the accuracy of the loan information in the expected credit loss model. For key parameters derived from external data, we selected samples to inspect the accuracy of such data by comparing them with publicly available sources; • for key parameters involving judgement, critically assessing input parameters by seeking evidence from external sources and comparing it to the Group's internal records including historical loss experience and type of collateral. As part of these procedures, we challenged management's revisions to estimates and input parameters and considered the consistency of judgement. We compared the economic factors used in the models with market information to assess whether they were aligned with market and economic development; • for key parameters used in the expected credit loss model which were derived from system-generated internal data, assessing the accuracy of input data by comparing the input data with original documents on a sample basis. We involved our information technology specialists in assessing the information systems controls critical to the credit grading process, such as the compilation of the overdue reports for advances to customers. We also assessed the design, implementation and operating effectiveness of relevant automated application controls within these systems, as well as the key internal controls over these underlying systems, including controls over access to these systems and controls over data and change management; • in respect of identifying exposures with a significant increase in credit risk, evaluating the validity of management's assessment on whether the credit risk of the loan has, or has not, increased significantly since initial recognition and whether the loan is credit-impaired by selecting samples for which we checked loan overdue information, made enquiries of the credit managers about the borrowers' business operations, checked borrowers' financial information and researched market information about borrowers' businesses. Our sample of loans and advanced to customers selected for credit review, including in China Operations, focused on accounts with high risk characteristics, including industry, features of loan arrangements, collateral types and credit quality of the accounts;

客戶貸款及墊款的減值準備

請參閱綜合財務報表附註2(h)(vii)、29(a)和45(a)(x)

關鍵審計事項

貴集團繼續使用其預期信貸損失模型來評估以攤銷成本計量的客戶貸款及墊款的減值準備。尚未成為不良信貸的貸款於發放時被劃歸為第一階段，並按照相當於12個月的預期信貸損失的金額確認撥備。在貸款償還前，貸款會保留於第一階段，除非其信貸風險有顯著增加(第二階段)或已成為不良信貸(第三階段)。對於被歸類為第二階段和第三階段的貸款，應按照相當於合約期內之預期信貸損失的金額確認撥備。貴集團的會計政策和信貸風險管理的詳情載於綜合財務報表附註2(h)(vii)和45(a)。

倘貸款的信貸風險顯著增加卻未被恰當地識別，可能導致預期信貸損失存在重大錯誤陳述及不準確確認。

採用預期信貸損失模型釐定減值準備時須考慮若干關鍵參數及假設，包括所識別的損失階段，所估計的違約概率、違約損失率、違約風險承擔和貼現率，就前瞻性資訊所作的調整以及其他調整因素。在選取該等參數及應用上述假設時亦須管理層作出判斷。

當中，減值準備的釐定在很大程度上取決於外部宏觀環境及貴集團的內部信貸風險管理策略。預期信貸損失乃源自於對歷史損失、內部及外部信貸評級及其他調整因素的估計。個人貸款的預期信貸損失乃源自於管理層考慮了歷史逾期數據、個人貸款的以往損失經驗以及其他調整因素而作出的估計。

審計對策

- 通過在抽樣基礎上對比個別貸款資訊與相關協議及其他相關文檔，評估預期信貸損失模型中的貸款資訊是否準確，以此評估預期信貸損失模型中的關鍵參數所用的數據是否完整及準確。對於源自外部數據的關鍵參數，我們採用抽樣方式將該等數據與公開可獲取的數據進行比較，以檢查該等數據的準確性；
- 對於涉及判斷的關鍵參數，從外部來源獲得證據並將其與貴集團的內部記錄(包括以往損失經驗和抵押品的類型)進行比較，以對輸入參數進行審慎評估。在這個過程中，我們就管理層對估計及輸入參數的修訂提出質詢，並考慮判斷的一致性。我們將模型中所運用的經濟因素與市場資訊進行對比，以評估這些數據是否與市場及經濟發展相符；
- 對於預期信貸損失模型中所用的、源自系統生成的內部數據的關鍵參數，在抽樣基礎上將輸入數據與原始檔進行對比以評估輸入參數的準確性。我們使用本所的資訊技術專家來評估對信貸評級流程有重要影響的資訊系統控制，包括客戶墊款逾期報告的編制。我們還評估這些系統內的相關自動化應用程式控制，以及對這些相關系統的主要內部控制(包括對系統登入的控制以及對數據和變更管理的控制)在設計、實施和操作上的成效；
- 在識別信貸風險已顯著增加的貸款方面，採用抽樣的方式檢查貸款逾期資訊，就借款人的業務運營詢問信貸經理，檢查借款人的財務信息並查考有關借款人業務的市場資訊，以評價管理層對於貸款的信貸風險自初始確認以來是否已，或尚未有，顯著增加以及貸款是否已成為不良信貸的評估是否恰當。我們抽查的樣本，包括中國業務的樣本，關注於具有高風險條件的貸款，高風險條件包括行業、貸款安排、抵押品類型及信貸質量；

Impairment allowances of loans and advances to customers

Refer to notes 2(h)(vii), 29(a), 45(a)(x) to the consolidated financial statements

Key audit matter

Management also exercises judgement in determining the quantum of loss given default based on a range of factors. These include available remedies for recovery, the financial situation of the borrower, the recoverable amount of collateral, the macroeconomic factors, the seniority of the claim and the existence and cooperativeness of other creditors. Management refers to valuation reports issued by qualified third party valuers and considers the influence of various factors including the market price, location and use when assessing the value of property held as collateral. The enforceability, timing and means of realisation of collateral can also have an impact on the recoverable amount of collateral and, therefore, the amount of impairment allowances as at the end of the reporting period.

We identified the impairment allowances of loans and advances to customers measured at amortised cost as a key audit matter because of the complexity of the inherent uncertainty and management judgment involved and because of its significance to the financial results and capital of the Group.

How the matter was addressed in our audit

- for selected samples of loans and advances to customers that are credit-impaired, evaluating management's assessment of the value of any property collateral held by comparison with market prices based on the location and use of the property and the prices of neighbouring properties. We also evaluated the timing and means of realisation of collateral, evaluated the forecast cash flows, challenged the viability of the Bank's recovery plans and evaluated other credit enhancements that are integral to the contract terms;
- in respect of assessing the accuracy of ECL calculation, calculating the amount of credit loss allowance for 12-month and life-time credit losses using the expected credit loss model based on the above parameters and assumptions for a sample of loans and advances to customers where the credit risk of the loan has not, or has, increased significantly since initial recognition, respectively and comparing to the results from the Bank;
- assessing the appropriateness of material manual adjustments and overlays on ECL model outputs;
- in respect of evaluating the accounting treatments of disposal of impaired loans during the year, inspecting the loan disposal agreements and documents, enquiring of management and assessing whether the transactions are recognised appropriately; and
- evaluating whether the presentation and disclosures on impairment allowances of loans and advances to customers measured at amortised cost meet the requirements in HKAS 32 Financial Instruments: Presentation and HKFRS 7 Financial Instruments: Disclosures.

客戶貸款及墊款的減值準備

請參閱綜合財務報表附註2(h)(vii)、29(a)和45(a)(x)

關鍵審計事項

管理層在釐定違約損失率的金額時亦會根據多項因素作出判斷。這些因素包括收回墊款的方式、借款人的財務狀況、抵押品的可收回金額、宏觀經濟因素、索賠受償順序及其他債權人是否存在及其合作意向等。在評估持作抵押品的物業的價值時，管理層會參考合資格第三方評估師出具的估值報告，並考慮各種因素的影響，包括物業的市場價格、位置及用途。抵押品的法律效力、變現時間和方法亦會影響抵押品的可收回金額，並從而影響報告期末的減值準備金額。

由於以攤銷成本計量的客戶貸款及墊款的減值準備所涉及的複雜性、管理層判斷以及內含的不確定性，同時由於其對貴集團財務業績和資本的重大影響，我們將其認定為一項關鍵審計事項。

審計對策

- 對於已抽選的不良信貸的客戶貸款及墊款樣本，根據持作抵押品的物業的位置及用途以及鄰近物業的價格，將持作抵押品的物業的價值與市場價格進行比較，以評價管理層對該類物業價值的評估。我們還評價了抵押品的變現時間和方法以及現金流預測，對貴集團回收方案的可行性提出了質詢，並對合同條款中的其他信貸提升進行了評價；
- 在評估預期信貸損失計算的準確性方面，抽選信貸風險自初始確認以來尚未顯著增加或已顯著增加的客戶貸款及墊款樣本，同時根據上述參數及假設並使用預期信貸損失模型，分別計算該等樣本按照12個月內的信貸損失和合約期內的信貸損失計量的信貸損失準備金額，並將該計算結果與貴銀行的結果進行比較；
- 評估重大的手動調整以及預期信貸損失模型輸出值的調整是否恰當；
- 評估年內減值貸款處置的會計處理，檢查相關協議和文件，向管理層詢問並評估該等交易是否恰當地確認；及
- 評價以攤銷成本計量的客戶貸款及墊款的減值準備的列報與披露是否滿足《香港會計準則》第32號「金融工具：列報」以及《香港財務報告準則》第7號「金融工具：披露」的要求。

Assessment of the fair value of financial instruments

Refer to notes 2(h)(iii), 27, 28, 30, 46(a), 47(b)(ii) to the consolidated financial statements

Key audit matter	How the matter was addressed in our audit
<p>Financial instruments carried at fair value account for a significant portion of the Group's assets. As at 31 December 2019 the fair value of these financial instruments was HK\$163,636 million of which HK\$35,599 million, HK\$126,704 million and HK\$1,333 million was classified as level 1, 2 and 3 financial instruments respectively.</p> <p>The valuation of the Group's financial instruments, which are stated at their fair values, is based on a combination of market data and valuation models which often require a considerable number of inputs. Many of these inputs are obtained from readily available data for liquid markets. Where such observable data is not readily available, as in the case of level 3 financial instruments, estimates need to be developed which can involve significant management judgement.</p> <p>In addition, the Group has developed its own models to value certain level 2 and 3 financial instruments, which involves significant management judgement.</p> <p>We identified the assessment of the fair value of financial instruments as a key audit matter because of the complexity and significant management judgement required in the valuation of some financial instruments and because of the lower transparency of inputs used in the valuation techniques for certain financial instruments which increases the risk of potential error.</p>	<p>Our audit procedures to assess the fair value of financial instruments included the following:</p> <ul style="list-style-type: none"> • assessing the design, implementation and operating effectiveness of key internal controls over the valuation, independent price verification and model validation for financial instruments. For the key underlying systems used for the processing of transactions in relation to financial instruments we involved specialists to assess the design, implementation and operating effectiveness of relevant automated controls within these systems. We also assessed the design, implementation and operating effectiveness of the key internal controls over these underlying systems, including controls over access to these systems and controls over data and change management; • evaluating the fair values of financial instruments with quoted price by comparing the fair values applied by the Group with publicly available market data on a sample basis; • involving our internal valuation specialists to perform independent valuations of level 2 and level 3 financial instruments on a sample basis and comparing these valuations with the Group's valuations. Our internal valuation specialists performed independent valuations by developing models, obtaining inputs independently and verifying the inputs, evaluating the methodology adopted by management for the valuation of these financial instruments and assessing the inputs and assumptions used in the valuations; • assessing the appropriate application of Credit Value and Debit Value Adjustments ("CVA/DVA") that form an integral part of fair values; inquiring of management about any changes in the CVA/DVA methodology and assessing the inputs applied; and • assessing whether the disclosures in the consolidated financial statements appropriately reflected the Group's exposure to financial instrument valuation risk with reference to the requirements of the prevailing accounting standards.

評估金融工具的公平價值

請參閱綜合財務報表附註2(h)(iii)、27、28、30、46(a)和47(b)(ii)

關鍵審計事項

以公平價值列賬的金融工具為貴集團持有的重要資產之一。貴集團於二零一九年十二月三十一日持有此類金融工具的公平價值金額為港幣1,636.36億元，其中在公平價值分級內第一級、第二級和第三級的金融工具公平價值分別為港幣355.99億元、港幣1,267.04億元及港幣13.33億元。

貴集團以公平價值列賬的金融工具的估值以市場數據和估值模型為基礎，其中估值模型通常需要大量的參數輸入。大部分參數源自於高流動性市場中可獲取的數據。當可觀察的數據無法從高流動性市場獲取時，即公平價值屬於第三級的情形下，管理層便需提供估算，這當中會涉及管理層的重大判斷。

此外，貴集團已對特定的第二級及第三級金融工具開發了自有估值模型，這也會涉及管理層的重大判斷。

由於金融工具公平價值的評估涉及一定複雜性，而部分金融工具亦涉及管理層的重大判斷，以及部分金融工具使用的參數的透明度較低而增加潛在錯誤風險，我們因此將金融工具公平價值的評估識別為關鍵審計事項。

審計對策

與評估金融工具公平價值相關的審計程序包括以下各項：

- 評估與金融工具估值、獨立價格驗證及模型驗證相關的內部控制的設計、實施和操作上的成效。利用本所專家，評估處理金融工具相關交易的主要系統內自動化控制於設計、實施和操作上的成效。我們還評估了這些相關系統的關鍵內部控制(包括對系統登入的控制以及對數據和變更管理的控制)在設計、實施和操作上的成效；
- 採用抽樣的方式，通過比較貴集團採用的公平價值與公開可獲取的市場數據，評估具有市場報價的金融工具的公平價值；
- 採用抽樣的方式，由本所內部估值專家對公平價值屬於第二級和第三級的金融工具進行獨立估值，並將我們的估值結果與貴集團的估值結果進行比較。我們的程序包括制定估值模型、獨立獲取及驗證參數、評估管理層所採用的金融工具估值法，以及評估估值時所使用的參數和假設；
- 在評估對構成公平價值組成部分的信用估值調整和債務價值調整的運用是否適當時，詢問管理層計算信用估值調整和債務價值調整的方法曾否發生變化，並評估參數運用的恰當性；及
- 評估綜合財務報表中與金融工具相關的披露是否符合有關會計準則的要求，恰當反映了貴集團的金融工具估值風險。

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

綜合財務報表及其核數師報告以外的資訊

董事需對其他資訊負責。其他資訊包括刊載於年報內的全部資訊，但不包括綜合財務報表及我們的核數師報告。

我們對綜合財務報表的意見並不涵蓋其他資訊，我們亦不對該等其他資訊發表任何形式的鑒證結論。

結合我們對綜合財務報表的審計，我們的責任是閱讀其他資訊，在此過程中，考慮其他資訊是否與綜合財務報表或我們在審計過程中所瞭解的情況存在重大抵觸或者似乎存在重大錯誤陳述的情況。

基於我們已執行的工作，如果我們認為其他資訊存在重大錯誤陳述，我們需要報告該事實。在這方面，我們沒有任何報告。

董事就綜合財務報表須承擔的責任

董事須負責根據香港會計師公會頒布的《香港財務報告準則》及香港《公司條例》擬備真實而中肯的綜合財務報表，並對其認為為使綜合財務報表的擬備不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部控制負責。

在擬備綜合財務報表時，董事負責評估 貴集團持續經營的能力，並在適用情況下披露與持續經營有關的事項，以及使用持續經營為會計基礎，除非董事有意將 貴集團清盤或停止經營，或別無其他實際的替代方案。

審計委員會協助董事履行監督 貴集團的財務報告過程的責任。

核數師就審計綜合財務報表承擔的責任

我們的目標，是對綜合財務報表整體是否不存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證，並出具包括我們意見的核數師報告。我們是按照香港《公司條例》第405條的規定，僅向整體成員報告。除此以外，我們的報告不可用作其他用途。我們概不就本報告的內容，對任何其他人士負責或承擔法律責任。

合理保證是高水準的保證，但不能保證按照《香港審計準則》進行的審計，在某一重大錯誤陳述存在時總能發現。錯誤陳述可以由欺詐或錯誤引起，如果合理預期它們單獨或滙總起來可能影響綜合財務報表使用者依賴財務報表所作出的經濟決定，則有關的錯誤陳述可被視作重大。

在根據《香港審計準則》進行審計的過程中，我們運用了專業判斷，保持了專業懷疑態度。我們亦：

- 識別和評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險，設計及執行審計程序以應對這些風險，以及獲取充足和適當的審計憑證，作為我們意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述，或凌駕於內部控制之上，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 瞭解與審計相關的內部控制，以設計適當的審計程序，但目的並非對 貴集團內部控制的有效性發表意見。

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Donowho, Simon Christopher.

NOTES TO THE FINANCIAL STATEMENTS

財務報表附註

1. PRINCIPAL ACTIVITIES 主要業務

The Bank and its subsidiaries (the "Group") are engaged in the provision of banking and related financial services.

本行及其附屬公司(「本集團」)的主要業務為提供銀行及有關的金融服務。

2. SIGNIFICANT ACCOUNTING POLICIES 主要會計政策

(a) Statement of Compliance

These financial statements have been prepared in accordance with all applicable HKFRS, which collective term includes all applicable individual HKFRS, HKAS and Interpretations issued by the HKICPA, accounting principles generally accepted in Hong Kong and the requirements of Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Listing Rules. A summary of the significant accounting policies adopted by the Group is set out below.

The HKICPA has issued certain new and revised HKFRS that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

(b) Basis of Preparation of the Financial Statements

The financial statements for the year ended 31st December, 2019 comprise the Group and the Group's interest in associates and joint ventures.

The measurement basis used in the preparation of the financial statements is historical cost except that the following assets and liabilities are stated at their fair value as explained in the accounting policies set out below:

- financial instruments classified as trading, designated or mandatorily measured at fair value through profit or loss and measured at fair value through other comprehensive income (Note 2(h)(ii));
- derivative financial instruments (Notes 2(l) and 2(k)); and
- investment properties (Note 2(o)(ii)).

The preparation of financial statements in conformity with HKFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) 符合指引聲明

本財務報表乃按照香港會計師公會頒布所有適用的《香港財務報告準則》，其整體已包括個別適用的《香港財務報告準則》、《香港會計準則》及詮釋，以及香港一般採用的會計原則及《公司條例》的要求。本財務報表亦符合聯交所《上市規則》有關的披露規定。本集團採納的主要會計政策簡列如下。

香港會計師公會已頒布數項新增及經修訂的《香港財務報告準則》，並於本年度本集團的會計期首次生效或可被提早採納。附註3提供因首次應用該等準則而引致會計政策變動的資料，而該等資料只包括與本集團有關而須反映在本期及去年會計期的財務報表。

(b) 財務報表編製基準

截至2019年12月31日止年度的財務報表包括本集團及其應佔聯營公司及合資企業之權益。

除以下資產及負債是以公平價值列賬外，本財務報表是以原值成本作為計量基準。有關詳情載列於下列會計政策：

- 分類作交易用途、指定或強制通過損益以反映公平價值及通過全面收益以反映公平價值的金融工具(附註2(h)(ii))；
- 衍生金融工具(附註2(l)及2(k))；及
- 投資物業(附註2(o)(ii))。

按《香港財務報告準則》之要求，在編製財務報表時，管理層須作判斷、估計及假設從而影響政策實施及資產和負債、及收入與支出之呈報金額。有關估計及假設乃按在既定情況下可合理地相信，根據過往之經驗及其他因素，作出判斷那些未能從其他來源確定的資產及負債的賬面值。實際結果可能與此等估計存在差異。

有關估計及假設須持續作檢討。若修訂只影響該修訂期，會計估計的修訂於該修訂期內確認；或如該修訂影響本期及未來會計期，則於修訂期及未來會計期內確認。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

Details of judgements made by management in the application of HKFRS that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 54.

(c) Basis of Consolidation

These consolidated financial statements cover the consolidated position of the Bank and all subsidiaries unless otherwise stated and the Group's interest in associates and joint ventures. For information required to be reported in accordance with the Banking (Disclosures) Rules, the basis of consolidation is set out in the Note 1 in the Unaudited Supplementary Financial Information.

(i) Subsidiaries and Non-controlling interests

The consolidated financial statements include the financial statements of the Bank and all its subsidiaries made up to 31st December each year. Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Bank, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to equity shareholders of the Bank. Non-controlling interests in the results of the Group are presented on the face of the consolidated income statement and the consolidated statement of comprehensive income as an allocation of the net profit and total comprehensive income for the year between non-controlling interests and equity shareholders of the Bank.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

在附註54內，管理層已解釋實施對財務報表有重大影響的《香港財務報告準則》所作的詳細判斷及不明朗估計的主要來源。

(c) 綜合基準

除另外陳述外，本綜合財務報表包括本行及其所有附屬公司及本集團所佔聯營公司及合資企業之權益的綜合狀況。根據《銀行業(披露)規則》所要求匯報的資料，所採納的綜合基準已在未經審核補充財務資料附註1列載。

(i) 附屬公司及非控股權益

本綜合財務報表包括本行及其所有附屬公司截至各相關年度之12月31日止的財務報表。附屬公司為本集團所控制之實體。本集團基於對有關實體之權利、參與度及權力並可運用此等條件以影響其所得回報，則視為本集團對該實體擁有控制權。在評估是否有控制權時，本集團只考慮實質的權力(由本集團及其他人士所擁有)。

附屬公司之投資由控制權生效日起至控制權失效日止在綜合財務報表內計算。在編製綜合財務報表時，集團之間的結餘、交易及現金流及任何因集團之間交易所產生的未實現溢利均被抵銷。跟未實現溢利相同，因集團之間交易所產生的未實現虧損亦同樣被抵銷，但只局限於未有減值證據。

非控股權益指無論是直接或間接並不歸屬於本行之附屬公司的權益部分，及本集團並未與該等權益持有者達成附加協議，致令本集團整體上對該等權益產生符合金融負債定義的法定義務。就每一業務合併而言，本集團可選擇按公平價值或非控股權益按比例應佔該附屬公司的可辨識淨資產以計量非控股權益。

非控股權益在綜合財務狀況表內的股東權益中列示，但與可歸屬於本集團股東權益分開。非控股權益佔本集團之業績，在綜合收益表內以分配年度溢利之形式列示，而在綜合全面收益表則以分配年度全面收益總額予非控股權益與及可歸屬於本集團股東權益之形式列示。

本集團將不導致喪失控股權之附屬公司權益的變動按權益交易方式入賬，即只調整在綜合權益內之控股及非控股權益的金額以反映其相關權益的變動，但不調整商譽及確認盈虧。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (Note 2(h)) or, when appropriate, the cost on initial recognition of an investment in an associate and joint venture (Note 2(c)(ii)), and is offset against the gain or loss on the loss of control of that subsidiary.

In the Bank's statement of financial position, its investments in subsidiaries are stated at cost less any impairment losses, if any (Note 2(r)).

(ii) Associates and joint ventures

The consolidated financial statements include the attributable share of the results and reserves of associates and joint ventures based on financial statements prepared at dates not earlier than three months prior to 31st December each year.

An associate is a company in which the Group or the Bank has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

A joint venture is an arrangement whereby the Group or the Bank and other parties contractually agree to share control of the arrangement, and have rights to the net assets of the arrangement.

Investment in associates and joint ventures are accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale) (Note 2(ad)). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the associate or joint venture's identifiable net assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (Note 2(q) and 2(r)). Any acquisition-date excess of fair values of the investees' net identifiable assets over the cost of investment, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in the consolidated income statement, whereas the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income is recognised in the consolidated statement of comprehensive income.

When the Group's share of losses exceeds its interest in an associate or a joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For these purposes, the Group's interest in the associate or the joint venture is the carrying amount of the investment under the equity method together with the Group's long-term interests that in substance form part of the Group's net investment in the associate or the joint venture.

當本集團喪失對一附屬公司之控股權，將按出售該附屬公司之所有權益入賬，而所產生的盈虧確認為損益。任何在喪失控股權日仍保留該前度附屬公司之權益按公平價值確認，而此金額被視為初始確認一金融資產(附註2(h))的公平價值，或(如適用)按成本初始確認一聯營公司及合資企業投資(附註2(c)(ii))，及當喪失對該附屬公司控股權時與盈虧沖銷。

在本行的財務狀況表中，附屬公司投資是以成本減除任何減值損失(附註2(r))列賬。

(ii) 聯營公司及合資企業

本綜合財務報表包括根據截至每年的12月31日止之前不超過三個月的財務報表所編製應佔聯營公司及合資企業的業績及儲備。

聯營公司是指本集團或本行可對其管理發揮重大影響力，包括參予其財務及經營政策的決策，但並不控制或共同控制其管理層。

合資企業是指本集團或本行與其他合約方共同擁有該合資企業之控制權，及對淨資產擁有權的安排。

除分類為持有作出售資產(或包括在分類為持有作出售資產的出售組別內)(附註2(ad))外，聯營公司及合資企業投資是以權益會計法在綜合財務報表內入賬。根據權益會計法，投資的入賬方法是先以成本另調整本集團於購入後應佔該聯營公司及合資企業的可辨認淨資產所超出成本之任何金額。往後，需調整在收購後本集團應佔被投資方淨資產之變動及在(附註2(q)和2(r))所載有關投資的減值損失。任何於收購日應佔被投資方可辨認淨資產的公平價值超出投資成本，本集團應佔被投資方收購後和已除稅的業績及年度內任何減值損失均在綜合收益表內確認，而本集團應佔被投資方收購後和已除稅之其他全面收益項目則在綜合全面收益表內確認。

除本集團對該聯營公司及合資企業所作具法律或推定義務或替該被投資方償付的承擔外，當本集團應佔該聯營公司及合資企業的虧損超出本集團之應佔權益時，超出的虧損將不被確認，而本集團應佔該被投資方之權益將被減值至零。因此，本集團應佔該聯營公司及合資企業權益即按權益會計法計算投資賬面值，及實質上構成本集團應佔該聯營公司及合資企業淨資產的長期權益。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

Unrealised profits and losses resulting from transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in the investee, except when unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (Note 2(h)).

The Bank accounts for the results of associates and joint ventures to the extent of dividends received. Investments in associates and joint ventures are stated in the Bank's statement of financial position at cost less any impairment losses (Note 2(r)).

An associate or a joint venture is considered material if it is material to either income statement or statement of financial position of the Group in two consecutive years.

(d) Translation of Foreign Currencies

Foreign currencies transactions during the year are translated into Hong Kong dollars at the rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Hong Kong dollars at the rates of exchange ruling at the end of the reporting period. Exchange gains and losses are recognised in the income statement.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into Hong Kong dollars using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

Exchange differences relating to investments at fair value through profit or loss (FVTPL) and derivative financial instruments are included in gains less losses from trading securities or financial instruments at fair value through profit or loss. All other exchange differences relating to monetary items are presented as gains less losses from dealing in foreign currencies in the income statement. Differences arising on translation of equity investments which an election has been made to present subsequent changes in fair value in other comprehensive income are recognised in other comprehensive income and accumulated separately in equity.

本集團與聯營公司及合資企業交易而產生之未實現溢利及虧損，按本集團應佔該被投資方之權益為限作沖銷。若有證據顯示未實現虧損屬資產轉讓的減值損失，則須立即於損益賬內確認。

當本集團喪失對一聯營公司及合資企業之重大影響力及合資企業之共同控制權，將按出售該被投資方之所有權益入賬，而所產生的盈虧確認為損益。任何在喪失重大影響力或共同控制權日仍保留該前度被投資方之權益按公平價值確認，而此金額被視為初始確認一金融資產(附註2(h))的公平價值。

本行按照已收取股息計算應佔聯營公司及合資企業之業績。在本行的財務狀況表中，聯營公司及合資企業投資是以成本減除任何減值損失(附註2(r))列賬。

若連續兩年對於本集團的收益表或財務狀況表有重大影響，該聯營公司及合資企業會被視為重大。

(d) 外幣換算

年度內的外幣交易按交易日的匯率折算為港幣。以外幣為單位的貨幣性資產及負債按報告期結束日的匯率折算為港幣。匯兌盈虧則計入收益表內。

以原值成本列賬但以外幣為單位的非貨幣性資產及負債按交易日的匯率折算為港幣。以外幣為單位及按公平價值列賬的非貨幣性資產及負債按釐定其公平價值日的匯率折算。

有關通過損益以反映公平價值投資及衍生金融工具的匯兌差額分別包括於交易用途證券淨盈虧或指定通過損益以反映公平價值投資淨盈虧。其他有關貨幣性資產及負債的匯兌差額則於收益表之外幣買賣溢利項下列示。因折算已選擇將往後公平價值變動在其他全面收益列示的股份證券所產生的差額則於其他全面收益內確認，並在股東權益內分開累計。

財務報表附註(續)

The results of foreign operations are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Items of statement of financial position, including goodwill arising on consolidation of foreign operations acquired on or after 1st January, 2005, are translated into Hong Kong dollars at the foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognised directly in other comprehensive income and accumulated separately in equity in the exchange reserve. Goodwill arising on consolidation of a foreign operation acquired before 1st January, 2005 is translated at the foreign exchange rate that applied at the date of acquisition of the foreign operation.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to the income statement when the profit or loss on disposal is recognised.

(e) Interest

Effective interest rate

Interest income and expense for all interest-bearing financial instruments are recognised in the income statement on an accruals basis using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset or the amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than credit-impaired assets, the Group estimates future cash flows considering all contractual terms of the financial instrument but not expected credit losses. For financial assets that were purchased or originated credit-impaired on initial recognition, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses (i.e. no expected credit loss provision is required at initial recognition).

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. The transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

海外業務之業績按交易日相約的匯率折算為港幣。資產負債表項目、財務狀況表的項目中，包括於2005年1月1日或以後因收購海外業務而在綜合時所產生的商譽，按報告期結束日的匯率折算為港幣。產生的匯兌差額直接在其他全面收益內確認，並在股東權益之匯兌儲備內分開累計。因於2005年1月1日以前收購海外業務而在綜合時所產生的商譽按收購海外業務日的匯率折算。

當確認出售海外業務的損益時，因該海外業務產生的累計匯兌差額由股東權益計入收益表。

(e) 利息

有效利率

所有帶息金融工具的利息收入及支出均按有效利率方法於收益表內以應計基準確認。

有效利率是可準確將金融工具在預計年期內產生之未來現金支出或收入折算為該金融資產的賬面值或該金融負債的攤銷成本的利率。

在計算除信貸不良資產外的金融工具的有效利率時，本集團計及金融工具的所有合約條款，但不計及預期信貸損失，以估計未來現金流。就初始確認時已購買或發起的信貸不良金融資產，使用估計未來現金流(包括預期信貸損失)計算信貸調整有效利率(即在初始確認時無需作出預期信貸損失撥備)。

有效利率的計算包括構成有效利率組成部分的交易成本及費用以及基點支出或收入。交易成本包括金融資產或金融負債的收購或發行直接應佔的增加成本。

攤銷成本及賬面值總額

金融資產或金融負債的「攤銷成本」是金融資產或金融負債於初始確認時計量的金額減本金還款額，加減使用有效利率方法計算的初始確認金額與到期金額之任何差額而計算的累計攤銷，而就金融資產而言，經任何預期信貸損失準備作調整。

「金融資產的賬面值總額」是金融資產就任何預期信貸損失準備作調整前的攤銷成本。

Calculation of interest income and expense

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

For financial assets that were purchased or originated credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortised cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

For information on when financial assets are credit-impaired, please refer to Note 2(h)(vii).

(f) Fee and Commission

Fee and commission income and expense that are integral to the effective interest rate on a financial asset or financial liability are included in the effective interest rate calculation (Note 2(e)).

Other fee and commission income is recognised in the income statement when the corresponding service is provided. Origination or commitment fees received/paid by the Group which result in the creation or acquisition of a financial asset are deferred and recognised as an adjustment to the effective interest rate. If it is uncertain that a loan commitment will result in draw-down of a loan, then the related loan commitment fee is recognised as revenue on a straight-line basis over the commitment period.

Other fee and commission expenses relate mainly to transaction and service fees, which are expensed when the services are received.

(g) Other Revenue Recognition

Other revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in the income statement as follows:

- (i) Net income from financial instruments at fair value through profit or loss and net trading income
Net income from financial instruments designated as at FVTPL, net income from non-trading financial assets mandatorily measured at FVTPL and net trading income comprises all gains and losses from changes in fair value (net of accrued coupon) of such financial assets and financial liabilities, together with foreign exchange differences and dividend income attributable to these financial instruments. Coupon interest from these financial assets and financial liabilities measured at FVTPL is accrued and presented as interest income or interest expense.

計算利息收入及支出

在計算利息收入及支出時，有效利率應用於資產的賬面值總額(當資產並非信貸不良時)或負債的攤銷成本。

然而，就初始確認後成為信貸不良的金融資產而言，透過將有效利率應用於該金融資產的攤銷成本而計算利息收入。若資產不再屬信貸不良，則恢復使用總額基準計算利息收入。

就初始確認時已購買或發起的信貸不良金融資產而言，透過將經信貸調整的有效利率應用於該資產的攤銷成本計算利息收入。即使該資產的信貸風險有所改善，亦不恢復使用總額基準計算利息收入。

有關金融資產屬信貸不良時的資料見附註 2(h)(vii)。

(f) 服務費及佣金

有效利率的計算(附註2(e))包括金融資產及金融負債中構成有效利率組成部分的服務費及佣金收入及支出。

其他服務費及佣金收入在有關服務提供時確認在收益表內。因本集團開展或購入金融資產而產生之開立或承擔服務費收入/支出須遞延及確認為有效利率之調整。如不確定會否借出貸款，該相關承擔服務費按承擔期限以直線法列作收入。

其他服務費及佣金支出主要是交易及服務費，並在獲得服務時支銷。

(g) 其他收入確認

其他收入按已收或應收價款的公平價值釐定。假設經濟利益有可能流向本集團及收入和支出(如適用)屬可靠計量的，在收益表內確認收入的方法如下：

- (i) 通過損益以反映公平價值金融工具的淨收入及淨交易收入
指定通過損益以反映公平價值金融工具的淨收入，強制通過損益以反映公平價值之非交易用途金融資產及淨交易收入包括所有金融資產及金融負債之公平價值變動產生的盈虧(減除應計利息)，以及應歸屬於該等金融工具的匯兌差額及股息收入。由該等通過損益以反映公平價值金融資產及金融負債產生的應計票面利息列作利息收入或利息支出。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

- (ii) Finance income from finance leases
Finance income implicit in finance leases is recognised as interest income over the period of the lease so as to produce an approximately constant periodic rate of return of the outstanding net investment in the leases for each accounting period.
- (iii) Rental income from operating leases
Rental income received under operating leases is recognised as other operating income in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives granted are recognised in the income statement as an integral part of the aggregate net lease payments receivable. Contingent rentals receivable are recognised as income in the accounting period in which they are earned.
- (iv) Dividend income
Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established unconditionally. Dividend income from listed investments is recognised when the share price of the investment is quoted ex-dividend.

(h) Financial Instruments

- (i) Initial recognition
The Group initially recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument. A regular way purchase or sale of investment securities classified as measured at FVTPL, fair value through other comprehensive income (FVOCI) financial assets and financial liabilities at FVTPL or debts issued are recognised using trade date accounting. Other financial assets and financial liabilities are recognised using settlement date accounting.

Financial instruments are measured initially at fair value, which normally will be equal to the transaction price plus, in case of a financial asset or financial liability not held at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset or issue of the financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately.

Any gains and losses of the financial assets or financial liabilities measured at fair value arising from changes in fair value are recorded from the date of initial recognition.

Accrued contractual interests from financial assets and liabilities are presented as accrued interest receivables and payables separately in the financial statements.

- (ii) 融資租賃收入
融資租賃隱含財務收入按租賃年期確認為利息收入，以令每個會計年度期間剩餘的淨租賃投資回報大致相同。
- (iii) 經營租賃租金收入
除非有更具有代表性的基準衡量從租賃資產獲取利益的模式，其經營租賃之租金收入按該租期所涵蓋的年期以等額分期確認為其他經營收入。經營租賃協議所涉及的激勵措施均在收益表中確認為租賃淨收款總額的組成部分。或有租金以賺取該收入的會計期間列作收入。
- (iv) 股息收入
非上市投資股息收入在股東收取權被無條件確立時才予以確認。上市投資股息收入則在該投資的股價除息時才被確認。

(h) 金融工具

- (i) 初始確認
當本集團成為金融工具合約其中一方時初始確認金融資產和金融負債。以正常方式購買或出售分類為按通過損益以反映公平價值、通過其他全面收益以反映公平價值計量的投資證券、通過損益以反映公平價值的金融資產及金融負債或已發行債務俱按交易日會計法確認。其他金融資產和金融負債則按結算日會計法確認。

金融工具於初始期按公平價值計量，而公平價值大致與交易價相同。如金融資產或金融負債不屬於通過損益以反映公平價值，則包括直接歸屬於購入之金融資產或發行金融負債的交易成本。通過損益以反映公平價值的金融資產或金融負債的交易成本立即作費用支銷。

自初始確認日期起，按公平價值計量的金融資產或金融負債因公平價值變動而產生的任何盈利及虧損均予以記錄。

金融資產及負債的應計合約利息在財務報表中作為應計應收及應付利息分開列示。

(ii) Classification

Financial assets and liabilities

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost, FVOCI or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in other comprehensive income – (Note 2(n)). This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Business model assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;

(ii) 分類

金融資產及金融負債

金融資產

於初始確認時，金融資產分類為：按攤銷成本、通過其他全面收益以反映公平價值或通過損益以反映公平價值計量。

一項金融資產按攤銷成本計量，其必須符合以下條件及未有指定為通過損益以反映公平價值：

- 該資產是在一個以持有該資產以收取合約現金流為目的之商業模式中持有；及
- 該金融資產的合約條款於指定日期產生符合本金及按本金結餘的利息支付特徵的現金流。

一項債務工具按通過其他全面收益以反映公平價值計量，其必須符合以下條件及未有指定為通過損益以反映公平價值：

- 該資產是在一個以收取合約現金流及出售金融資產為目的之商業模式中持有；及
- 該金融資產的合約條款於指定日期產生符合本金及按本金結餘的利息支付特徵的現金流。

非交易用途之股份投資初始確認時，本集團可作出不可撤回的選擇，將其後續公平價值變化確認於其他全面收益—(附註(2(n)))。該選擇是按投資逐項作出。

所有其他金融資產均分類為按通過損益以反映公平價值計量。

此外，於初始確認時，在可消除或明顯減少會計錯配的情況下，本集團可不可撤回地指定在其他情況下符合按攤銷成本或通過其他全面收益以反映公平價值條件的金融資產為通過損益以反映公平價值計量。

商業模式評估

本集團評估在組合層面持有資產的商業模式之目標，因為這最能反映業務管理的方法及向管理層提供資料的方式。所考慮的資料包括：

- 組合的既定政策和目標以及該等政策的實際操作。尤其是，管理層的策略專注於賺取合約利息收入、維持特定的利率曲線、將金融資產的期限與為該等資產提供資金的負債或通過出售資產變現現金流的期限相配；

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money (e.g. periodic reset of interest rates).

- 如何評估組合的表現並向本集團的管理層報告；
- 影響商業模式(及該商業模式下持有的金融資產)表現的風險以及如何管理該等風險；
- 業務管理人員如何得到補償—例如，補償是否根據所管理資產的公平價值或所收取的合約現金流釐定；及
- 過往期間的出售頻率、銷量和出售時點，出售原因以及其對未來出售活動的預期。然而，銷售活動的資料並非孤立考慮，而是作為關於本集團如何實現既定的金融資產管理目標及如何實現現金流的整體評估的一部分。

持作交易用途或管理或按公平值基準評估其表現的金融資產乃按通過損益以反映公平價值計量，因其既非持作收取合約現金流之用，亦非持作收取合約現金流及出售金融資產之用。

評估合約現金流是否純粹為支付本金及利息

就此項評估而言，「本金」的定義是金融資產在初始確認時的公平價值。「利息」的定義是貨幣的時間價值以及與特定期段內未償還本金有關的信用風險以及其他基本貸款風險和成本(例如流動性風險和管理費用)及利潤率的代價。

在評估合約現金流是否純粹為支付本金及利息時，本集團考慮工具的合約條款。這包括評估金融資產是否包含可能改變合約現金流的時點或金額，致使其不符合該項條件。在評估時，本集團考慮：

- 將會改變現金流金額及時點的或有事件；
- 槓桿特徵；
- 提前還款和延期條款；
- 限制本集團要求取得指定資產(例如無追索權資產安排)的現金流的條款；及
- 修正金錢時間值代價的特徵(例如定期調整利率)。

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets. When (and only when) the Group changes its business model for managing financial assets, it reclassifies all affected financial assets in accordance with the new business model. The reclassification should be applied prospectively from the 'reclassification date', which is defined as, 'the first day of the first reporting period following the change in business model that results in reclassifying financial assets'. Accordingly, any previously recognised gains, losses or interest will not be restated.

If a financial asset is reclassified out of the amortised cost measurement category and into the FVTPL or FVOCI measurement category, its fair value is measured at the reclassification date. Any gain or loss arising from a difference between the previous amortised cost of the financial asset and fair value is recognised in profit or loss (if reclassification as FVTPL measurement category) or is recognised in other comprehensive income (if reclassification as FVOCI measurement category).

If a financial asset is reclassified out of the FVOCI measurement category and into the amortised cost measurement category, the financial asset is reclassified at its fair value at the reclassification date. However, the cumulative gain or loss previously recognised in other comprehensive income is removed from equity and adjusted against the fair value of the financial asset at the reclassification date. As a result, the financial asset is measured at the reclassification date as if it had always been measured at amortised cost.

If a financial asset is reclassified out of the FVOCI measurement category and into the FVTPL measurement category, the financial asset continues to be measured at fair value. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

If a financial asset is reclassified out of the FVTPL measurement category and into the amortised cost measurement category, its fair value at the reclassification date becomes its new gross carrying amount.

If an entity reclassifies a financial asset out of the FVTPL measurement category and into the FVOCI measurement category, the financial asset continues to be measured at fair value and subsequent changes in fair value will be recognised in other comprehensive income.

Financial liabilities

The Group classifies its financial liabilities, other than financial guarantees and loan commitments, as measured at amortised cost or FVTPL.

重新分類

除於本集團改變管理金融資產的商業模式後期間外，金融資產在初始確認後不會作出重新分類。當(並且僅當)本集團更改其管理金融資產的商業模式時，所有受影響的金融資產會根據新商業模式重新分類。重新分類應由「重分類日」前瞻性地應用。「重分類日」定義為「因商業模式變化而重新分類金融資產後的第一個報告期首天」。因此，任何之前確認的收益、虧損或利息不會重報。

如金融資產從按攤銷成本重新分類為通過損益以反映公平價值計量或通過其他全面收益以反映公平價值，則其公平價值會在重分類日計量。金融資產的先前攤銷成本與公平價值之間的差額產生的任何收益或損失會在收益表內確認(如重新分類為通過損益以反映公平價值計量)或在其他全面收益內中確認(如果重新分類為通過其他全面收益以反映公平價值)。

如金融資產從通過其他全面收益以反映公平價值重新分類為按攤銷成本，則金融資產會在重分類日按其公平價值重新分類。然而，先前於其他全面收益確認的累計收益或虧損將從權益中扣除，並於重分類日按金融資產的公平價值調整。因此，金融資產在重分類日進行計量，就好像它一直以攤銷成本計量一樣。

如金融資產從通過其他全面收益以反映公平價值重新分類為通過損益以反映公平價值計量，則該金融資產會繼續以公平價值計量。先前於其他全面收益確認的累計收益或虧損於重分類日重新分類由權益轉入收益表作為重分類調整。

如金融資產從通過損益以反映公平價值計量重新分類為按攤銷成本，則其在重分類日的公平價值作為新的總賬面值。

如金融資產從通過損益以反映公平價值計量重新分類為通過其他全面收益以反映公平價值，則該金融資產會繼續以公平價值計量，而其後的公平價值變動會在其他全面收益中確認。

金融負債

本集團將其金融負債(財務擔保及貸款承擔除外)分類為按攤銷成本或按通過損益以反映公平價值計量類別。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The Group may, at initial recognition, irrevocably designate a financial liability as at FVTPL in either of the following circumstances:

- a group of liabilities or a group of financial assets and liabilities is managed and its performance is evaluated and reported internally on a fair value basis; or
- the designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

(iii) Fair value measurement principles

The fair value of financial instruments is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

If there is no publicly available latest traded price nor a quoted market price on a recognised stock exchange or a price from a broker/dealer for non-exchange-traded financial instruments or if the market for it is not active, the fair value of the instrument is estimated using valuation techniques that provide a reliable estimate of prices which could be obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data at the end of the reporting period.

(iv) Derecognition

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire, or where the financial asset, together with substantially all the risks and rewards of ownership, have been transferred.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in other comprehensive income is recognised in the income statement. Any cumulative gain/loss recognised in other comprehensive income in respect of equity investment securities designated as at FVOCI is not recognised in the income statement on derecognition of such securities, as explained in (Note 2(n)).

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

The Group uses the weighted average or first-in first-out method, where appropriate, to determine realised gains and losses to be recognised in the income statement on derecognition.

在以下任一情況下，在初始確認時，本集團或會將金融負債以不可撤銷形式指定為按通過損益以反映公平價值計量：

- 該負債組別或金融資產及負債是按公平價值作內部管理、評估及呈報；或
- 該指定可抵銷或明顯減少因計量資產及負債或按不同基準確認盈利和虧損時可能產生計量或確認的不一致。

(iii) 計量公平價值之原則

金融工具的公平價值是於報告期結束日根據其市場報價但未減除將來的估計出售成本。

如沒有公眾知悉的最後交易價格或在認可交易所的市場報價，或從經紀／交易員獲得屬於非交易所買賣的金融工具報價，又或該市場並不活躍，此工具的公平價值按估值模式估值，而該估值模式可根據實際市場交易提供可靠的估計價格。

當採用現金流折讓價格模式，估計將來現金流按管理層的最佳估計及採用的貼現率是在報告期結束日適用於相同條款工具的市場利率。當採用其他價格模式時，參數是在報告期結束日的市場價格資料。

(iv) 終止確認

當從金融資產獲得現金流的法定權利屆滿或已將重大風險及回報擁有權同時轉移後，本集團終止確認金融資產。

於終止確認金融資產時，資產賬面值(或終止確認部分資產的賬面值)與(i)已收代價(包括任何所得新資產減任何新負債)及(ii)已於其他全面收益確認的任何累計收益或虧損會於收益表內確認。指定為通過其他全面收益以反映公平價值的股份投資證券在其他全面收益中確認的任何累計收益／虧損均不會在終止確認時在收益表中確認(附註2(n))。

當合約的義務已被履行、取消或期滿，本集團終止確認金融負債。

本集團採用加權平均法或先進先出法(如適用)以釐定在終止確認時須在收益表確認的已實現盈利和虧損。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

(v) Modifications of financial assets and financial liabilities

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised (Note 2(h)(iv)) and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the income statement. If such a modification is carried out because of financial difficulties of the borrower (Note 2(h)(vii)), then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income.

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the income statement.

(vi) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position only where there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(vii) Impairment

The Group recognises loss allowances for expected credit losses (ECL) on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments;
- lease receivables;
- financial guarantee contracts issued;
- loan commitments issued; and
- contract assets.

No impairment loss is recognised on equity investments.

(v) 修改金融資產及金融負債

若金融資產的條款被修改，本集團會評估經修訂資產的現金流量是否重大不同。如現金流量有重大不同，則原金融資產的現金流量的法定權利被視為已過期。在此情況下，原金融資產會被終止確認(附註2(h)(iv))，並按公平價值確認為新金融資產。

如果按攤銷成本計量的已修訂資產之現金流量並無重大差異，則該修訂不會終止確認該金融資產。在這種情況下，本集團會重新計算金融資產的總賬面值，並將調整總賬面值所產生的金額在收益表內確認為修訂損益。如果由於借款人的財務困難而進行此類修改(附註2(h)(vii))，則將損益與減值損失一併列報。在其他情況下，應列示為利息收入。

當合約條款被修改及已修訂之金融負債的現金流量有重大不同，本集團會終止確認其金融負債。在這種情況下，基於修改後的條款之新金融負債會按公平價值確認。已終止的金融負債與已修改條款的新金融負債的賬面值差額會在收益表內確認。

(vi) 抵銷

只有具法定權利抵銷確認金額及計劃以淨額結算，或同時變賣資產以清償負債，金融資產和金融負債互相抵銷，並在財務狀況表內以淨額列示。

(vii) 減值

本集團就以非通過損益以反映公平價值計量的金融工具的預期信貸損失確認減值準備：

- 屬債務工具的金融資產；
- 租賃應收賬款；
- 已發出的財務擔保合約；
- 已發出的貸款承擔；及
- 合約資產。

無需為股份投資計算減值。

The Group measures loss allowances for 12-month or lifetime ECL using a 3-stage approach as follows:

本集團使用3階段法計量12個月或合約期內之預期信貸損失的減值準備如下：

Stage 階段	Description 描述	Impairment Loss Allowance Measurement 減值損失準備計量
1	Performing 履行中	12-month ECL 12個月內之預期信貸損失
2	Performing but with credit risk increased significantly at reporting date since its initial recognition 履行中但於報告日，信貸風險自初始確認以來已顯著增加	Lifetime ECL 合約期內之預期信貸損失
3	Non-performing 不良	Lifetime ECL 合約期內之預期信貸損失

12-month ECL is the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

12個月內之預期信貸損失指金融工具在報告日後之12個月內，所有潛在違約事件所導致的信貸損失。

The Group adopts the criteria of stage allocation as follows:

本集團採納階段分配的準則如下：

HKMA's 5-Grade Asset classification 金管局的5級資產類別	Stage Allocation 階段分配
Pass 合格	1
Special Mention 需要關注	2
Substandard 次級	2
Doubtful 呆滯	3
Loss 虧損	3

The criteria of "significant increase of credit risk" has taken into consideration of two key factors:

「信貸風險顯著增加」的準則已計及兩個關鍵因素：

- The exposure has a significant deterioration of internal or external rating as compared with the rating at the time when the exposure was originated; and
- The rating of the exposure falls out of the "Low-Credit Risk Threshold" that is equivalent to the globally understood definition of "investment grade".

- 風險的內部或外部評級與風險產生之時的評級相比顯著轉差；及
- 風險的評級不再屬於相當於普遍理解的「投資級別」定義的「低信貸風險界限」。

Measurement of ECL

ECL are a probability-weighted estimate of credit losses under different economic scenarios. They are measured as:

$$\text{Exposure at Default} \times \text{Probability of Default} \times \text{Loss Given Default}$$

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes but not limited to the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a loan that is overdue for 90 days or more is considered impaired.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- loan commitments and financial guarantee contracts: generally, as a provision on the liabilities side; and
- debt instruments measured at FVOCI: no loss allowance is presented in the statement of financial position because the carrying amount of these assets is their fair value, inclusive of any ECL. However, the loss allowance is recognised in the fair value reserve and disclosed separately.

計量預期信貸損失

預期信貸損失是在不同經濟情景中一個信貸損失的概率在加權後的估算值，以如下方法計量：

$$\text{違約風險承擔} \times \text{違約概率} \times \text{違約損失率}$$

信貸不良金融資產

於各報告日，本集團評估按攤銷成本列賬的金融資產及按通過其他全面收益以反映公平價值列賬的債務金融資產是否為信貸不良。當發生一宗或多宗對金融資產的估計未來現金流造成不利影響的事件，則該金融資產屬「信貸不良」。

金融資產出現信貸減值的證據包括但不限於以下可觀察數據：

- 借款人或發行人出現重大財政困難；
- 違反合約，如拖欠或逾期事件；
- 本集團根據其他情況下不會考慮的條款重組貸款或墊款；
- 借款人很可能會破產或進行其他財務重組；或
- 因財政困難而導致某擔保失去活躍市場。

因借款人的財政狀況惡化而重訂條款的貸款，除有證據證明無法收取合約現金流的風險已顯著減低且並無其他減值跡象外，通常被視為信貸不良。此外，逾期90日或以上的貸款被視為已減值。

在財務狀況表中列示預期信貸損失的準備

預期信貸損失的損失準備在財務狀況表中按以下方式列示：

- 按攤銷成本計量的金融資產：從資產的賬面值總額中扣除；
- 貸款承擔及財務擔保合約：一般作為負債方面的撥備；及
- 按通過其他全面收益以反映公平價值計量的債務工具：在財務狀況表中並不列示損失準備，因該等資產的賬面值為其公平價值，包括任何預期信貸損失。然而，損失準備在公平價值儲備內確認並單獨披露。

財務報表附註(續)

Write-off

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(i) Trading Assets and Liabilities

Trading assets and liabilities are those assets and liabilities which are acquired or incurred principally for the purpose of selling or repurchasing them in the near term, or are part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Trading assets and liabilities are initially recognised and subsequently measured at FVTPL.

(j) Contract Assets and Liabilities

When revenue is recognised by transferring goods or services to a customer before the consideration is received or before payment is due, the Group presents the contract as a contract asset, excluding any amounts presented as a receivable. A contract asset is recognised in statement of financial position when there is a right to consideration that is conditional on factors other than the passage of time. The contract asset is transferred to receivables when the right to consideration becomes unconditional. Impairment of a contract asset is measured on the same basis as a financial asset as (Note 2(h)(vii)) above. The Group presents the contract assets in "other accounts" of other assets in the statement of financial position.

A contract liability is recognised when a customer pays non-refundable consideration before the Group transfers a good or service to the customer or when the Group has a right to an amount of non-refundable consideration that is unconditional when the payment is made or the payment is due (whichever is earlier). The Group presents the contract liabilities in "other accounts" of other liabilities in the statement of financial position.

As a practical expedient, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if the Group expects, at contract inception, that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less. The Group may recognise the incremental costs of obtaining a contract as an expense when incurred if the amortisation period of the asset that the Group otherwise would have recognised is one year or less.

撇銷

若貸款及債務證券無實際可收回的前景，則予撇銷(部分或全部)。當本集團判斷借款人並無資產或收入來源可產生足夠的現金流以償還應撇銷的金額時，一般會如此處理。然而，已撇銷的金融資產仍可能受到執行活動的影響，以遵守本集團收回應收金額的程序。

(i) 交易用途資產及負債

作交易用途的資產和負債包括主要是作短期出售或購入的金融資產和金融負債，或屬於組合一部分並共同管理的可辨識金融工具，及有證據顯示近期有短期出售以賺取利潤的模式。交易資產和負債於初始確認，及其後以公平價值計量且其變動計入當期損益。

(j) 合約資產及負債

若本集團透過向客戶轉讓貨品或服務履約並於客戶支付代價或款項到期前確認收入，則本集團應將該合約列示為合約資產，惟任何列示為應收賬款的金額除外。若獲取代價的權利以除時間流逝以外的因素為條件，則合約資產於財務狀況表中確認。當獲取代價的權利成為無條件時，合約資產將轉至應收賬款。合約資產減值與金融資產(附註2(h)(vii))的計算相同。本集團呈列合約資產於財務狀況表中其他資產內的其他賬項。

當客戶在本集團向客戶轉讓貨品或服務履約前已支付不可退還的代價，或當本集團已獲取代價或款項到期時(以較早者為準)擁有收取不可退還代價的權利，則確認為合約負債。本集團的合約負債呈列在財務狀況表內的「其他負債」項下的「其他賬項」。

視乎實際情況，若本集團在訂立合約時預期實體向客戶轉讓已承諾的貨品或服務之時起至客戶支付該貨品或服務款項時止的期間為一年或以內，則本集團毋須就重大融資組成部分的影響而調整已承諾的代價金額。若本集團原本會確認的資產攤銷期為一年或以內，則本集團可於產生時將獲得合約的增加成本確認為支出。

(k) Hedging

Hedge accounting recognises the offsetting effects on income statement of changes in the fair values of the hedging instrument and the hedged item. The Group assesses and documents whether the financial instruments that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items attributable to the hedged risks both at hedge inception and on an ongoing basis. The Group discontinues prospectively hedge accounting when (i) the hedging instrument expires or is sold, terminated or exercised; (ii) the hedge no longer meets the criteria for hedge accounting; or (iii) the Group revokes the designation.

(i) Cash flow hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, or the foreign currency risk of a committed future transaction, the effective part of any gain or loss on remeasurement of the derivative financial instrument to fair value is recognised in other comprehensive income and accumulated separately in equity in the hedging reserve. The ineffective portion of any gain or loss is recognised immediately in the income statement.

If the hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated gain or loss is reclassified from equity to be included in the initial cost or other carrying amount of the non-financial asset or liability. If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gain or loss is reclassified from equity to the income statement in the same period or periods during which the asset acquired or liability assumed affects the income statement (such as when interest income or expense is recognised).

For cash flow hedges, other than those covered by the preceding two policy statements, the associated gain or loss is reclassified from equity to the income statement in the same period or periods during which the hedged forecast transaction affects the income statement. When a hedging instrument expires or is sold, terminated or exercised, or the Group revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity until the transaction occurs and is recognised in accordance with the above policy. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss is reclassified from equity to the income statement immediately.

(k) 對沖

對沖會計法是確認因用作對沖工具與被對沖項目因公平價值變動而在收益表內產生之相互抵銷損益的影響。於衍生工具開始列作對沖工具及在對沖期間，本集團會評估及記錄用作對沖交易的金融工具是否有效地對沖相關項目的公平價值變動或現金流之風險。當 (i) 該用作對沖工具到期或已出售、終止或行使；(ii) 該對沖交易不再符合對沖會計法的要求；或 (iii) 本集團取消對沖指定，本集團會停止繼續採用對沖會計法。

(i) 現金流量對沖

當衍生金融工具被指定對沖已確認資產或負債的不既定現金流量，或是甚有可能發生的預計交易，或已承諾未來交易之外匯風險，其重新計量衍生金融工具至公平價值有效對沖部分盈利或虧損會在其他全面收益內確認，並在股東權益中的對沖儲備內分開累計。而無效對沖部份的盈利或虧損則立即在收益表內確認。

如因對沖預計交易而其後須確認為非金融資產或非金融負債，其相關之盈虧由股東權益重新分類並包括在該非金融資產或負債的初始成本或其他賬面值內。如因對沖一項預計交易而其後須確認為金融資產或金融負債，其相關之盈虧由股東權益轉入收益表並計入相同期間或當購入資產或引起負債而影響該期間之收益表(如當確認為利息收入或支出)。

就現金流量對沖而言，除以上兩段政策已涵蓋外，其相關之盈虧由股東權益重新分類並包括在相同期間或受對沖預計交易所影響期間的收益表。當用作對沖工具已到期或出售、終止或行使，或當本集團取消指定對沖關係但對沖預計交易預期仍會發生，截至此期間所累計的盈利或虧損仍保留在股東權益內，直至交易發生時按以上的政策確認。如預計對沖交易不會發生，在股東權益內的累計盈利或虧損會立即由股東權益轉入收益表。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

(ii) Fair value hedges

A fair value hedge seeks to offset risks of changes in the fair value of recognised asset or liability that will give rise to a gain or loss being recognised in the income statement.

The hedging instrument is measured at fair value, with fair value changes recognised in the income statement. The carrying amount of the hedged item is adjusted by the amount of the changes in fair value of hedging instrument attributable to the risk being hedged. This adjustment is recognised in the income statement to offset the effect of the gain or loss on the hedging instrument.

When a hedging instrument expires or is sold, terminated or exercised, the hedge no longer meets the criteria for hedge accounting, or the Group revokes designation of the hedge relationship, any adjustment up to that point, to a hedged item for which the effective interest method is used, is amortised to the income statement as part of the recalculated effective interest rate of the item over its remaining life.

(iii) Hedge effectiveness testing

In order to qualify for hedge accounting, the Group carries out prospective effectiveness testing to demonstrate that it expects the hedge to be highly effective at the inception of the hedge and throughout its life. Actual effectiveness (retrospective effectiveness) is also demonstrated on an ongoing basis.

The documentation of each hedging relationship sets out how the effectiveness of the hedge is assessed. The method which the Group adopts for assessing hedge effectiveness will depend on its risk management strategy.

For fair value hedge relationships, the Group utilises the cumulative dollar offset method or regression analysis as effectiveness testing methodologies. For cash flow hedge relationship, the Group utilises the change in variable cash flow method or the cumulative dollar offset method using the hypothetical derivative approach.

For prospective effectiveness, the hedging instrument must be expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated. For actual effectiveness, the changes in fair value or cash flows must offset each other in the range of 80 per cent to 125 per cent for the hedge to be deemed effective.

(ii) 公平價值對沖

公平價值對沖用作抵銷已確認資產或負債因公平價值變動產生須在收益表內入賬的盈利和虧損的風險。

對沖工具按公平價值列賬，而公平價值的變動在收益表內入賬。被對沖項目的賬面值按對沖工具所對沖之風險的價格變動予以調整。此調整在收益表內入賬以抵銷對沖工具產生的盈利和虧損。

當用作對沖工具到期或已出售、終止或行使，或當對沖不再符合對沖會計法的要求，或本集團取消對沖指定關係，所有截至此期間內按有效利率方式調整的被對沖項目，會按該項目餘下年期當作重新計算有效利率在收益表內攤銷。

(iii) 對沖效用測試

為符合對沖會計法，本集團必須進行兩種測試：在開始對沖時進行「預計效用」測試，顯示預期成效極高；在對沖期內持續進行「追溯效用」測試，證明實際有效。

有關各對沖關係之文件載有如何評估對沖效用。本集團採納之對沖效用評估方法，是按照既定風險管理策略而實施。

對於公平價值對沖關係，本集團採用累計價值抵銷法或回歸分析作為效用測試之方法。對於現金流量對沖關係，本集團會測試現金流量的變動或對沖組合的規模是否充足，或以模擬衍生工具方式，運用累計價值抵銷法測試。

就預計效用而言，對沖工具必須被預期為在劃定對沖期間內，能高度有效地抵銷對沖風險之公平價值或現金流量之變動。就實際效用而言，公平價值或現金流量之變動抵銷額在80%至125%範圍才被視為有效。

(l) Derivatives

Derivatives are recognised initially and are subsequently remeasured, at fair value. Derivatives are classified as assets when their fair value is positive or as liabilities when their fair value is negative, this includes embedded derivatives which are bifurcated from the host contract, when they meet the definition of a derivative on a standalone basis.

Derivatives may be embedded in another contractual arrangement (a host contract). The Group accounts for an embedded derivative separately from the host contract when:

- the host contract is not an asset in the scope of HKFRS 9;
- the host contract is not itself carried at FVTPL;
- the terms of the embedded derivative would meet the definition of a derivative if they were contained in a separate contract; and
- the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract.

Separated embedded derivatives are measured at fair value, with all changes in fair value recognised in profit or loss unless they form part of a qualifying cash flow or net investment hedging relationship.

(m) Loans and Advances

Loans and advances mainly comprise placements with and advances to banks and other financial institutions, trade bills and loans and advances to customers:

- loans and advances measured at amortised cost (Note 2(h)(ii)); they are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method;
- loans and advances mandatorily measured at FVTPL or designated as at FVTPL (Note 2(h)(ii)); these are measured at fair value with changes recognised immediately in the income statement;
- loans and advances measured at FVOCI (Note 2(h)(ii)); and
- finance lease receivables (Note 2(s)).

When the Group purchases a financial asset and simultaneously enters into an agreement to resell the asset (or a substantially similar asset) at a fixed price on a future date (reverse repo or stock borrowing), the arrangement is accounted for as a loan or advance, and the underlying asset is not recognised in the Group's financial statements.

(l) 衍生工具

衍生工具初始確認及其後按公平價值重新計量。當衍生工具的公平價值為正數時，衍生工具分類為資產；當公平價值為負數時，衍生工具則分類為負債，這包括在獨立基礎上符合衍生工具定義但從主合同分拆的嵌入式衍生工具。

衍生工具可能嵌入另一合同(主合同)。在下列情況下，本集團會分開計算主合同及嵌入的衍生工具：

- 該主合同並非在《香港財務報告準則》第9號所覆蓋的資產；
- 該主合同不是通過損益以反映公平價值計量；
- 嵌入衍生工具的條款如果包含在單獨的合同中，符合衍生工具的定義；及
- 該嵌入衍生工具的經濟特性及風險與主合同並非緊密關連的。

分離的嵌入式衍生工具按公平價值計量，公平價值的所有變動均在收益內確認，除非他們構成合資格現金流量或淨投資對沖關係的一部分。

(m) 貸款及墊款

貸款和墊款主要包括在銀行及其他金融機構的存款及墊款、貿易票據和客戶貸款及墊款：

- 按攤銷成本計量的貸款和墊款(附註2(h)(ii))；初始以公平價值加上直接相關的交易成本計量，其後以有效利率法按攤銷成本計量；
- 強制性通過損益以反映公平價值計量的貸款及墊款(附註2(h)(ii))；以公平價值計量，其變動立即在收益表內確認；
- 通過其他全面收益以反映公平價值的貸款及墊款(附註2(h)(ii))；及
- 融資租賃應收款項(附註2(s))。

當本集團購買金融資產並同時訂立協議以未來日期的固定價格(反向回購或股票借入)轉售資產(或實質上相似的資產)時，該安排將作為貸款及墊款入賬，相關資產不會在本集團財務報表中確認。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註 (續)

(n) Investment Securities

The 'investment securities' caption in the statement of financial position includes:

- debt investment securities measured at amortised cost (Note 2(h)(ii)); these are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method;
- debt and equity investment securities mandatorily measured at FVTPL or designated as at FVTPL (Note 2(h)(ii)); these are measured at fair value with changes recognised immediately in the income statement;
- debt securities measured at FVOCI (Note 2(h)(ii)); and
- equity investment securities designated as at FVOCI (Note 2(h)(ii)).

For debt securities measured at FVOCI, gains and losses are recognised in other comprehensive income, except for the following, which are recognised in the income statement in the same manner as for financial assets measured at amortised cost:

- interest revenue using the effective interest method;
- ECL and reversals; and
- foreign exchange gains and losses.

When debt security measured at FVOCI is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the income statement.

The Group elects to present in OCI changes in the fair value of certain investments in equity instruments that are not held for trading. The election is made on an instrument-by-instrument basis on initial recognition and is irrevocable.

Gains and losses on such equity instruments are never reclassified to the income statement and no impairment is recognised in the income statement. Dividends are recognised in the income statement unless they clearly represent a recovery of part of the cost of the investment, in which case they are recognised in other comprehensive income. Cumulative gains and losses recognised in other comprehensive income are transferred to retained earnings on disposal of an investment.

(n) 投資證券

財務狀況表中的「投資證券」包括：

- 以攤銷成本計量的債務投資證券(附註2(h)(ii))：這些初始按公平價值加上直接相關交易成本計量，其後以有效利率法按攤餘成本計量；
- 債務和股權投資證券強制性通過損益以反映公平價值計量或指定為通過損益以反映公平價值計量(附註2(h)(ii))，其公平價值變動立即在收益表中確認；
- 通過其他全面收益以反映公平價值的債務證券(附註2(h)(ii))；及
- 指定為通過其他全面收益以反映公平價值的股權投資證券(附註2(h)(ii))。

就通過其他全面收益以反映公平價值的債務證券而言，收益及虧損於其他全面收益確認，惟以下各項會於收益表內確認，與按攤銷成本計量的金融資產相同：

- 以有效利率法計算的利息收入；
- 預期信用損失和轉回；及
- 外匯收益和損失。

當通過其他全面收益以反映公平價值的債務證券被終止確認時，以前在其他全面收益中確認的累計收益或虧損將從權益重新分類至收益表內。

本集團選擇在其他全面收益中列示非持作買賣的股份工具投資之公平價值變動。該選擇是按個別工具於初始確認時進行，並不可撤銷的。

此類股份工具的收益和損失不會重新分類至收益表，亦不會在收益表中確認減值。股息在收益表內確認，但若該等股息明確顯示為收回部分投資成本者，會在其他全面收益中確認。其他全面收益中確認的累計收益和損失會轉入出售投資的未分配利潤。

(o) Properties

- (i) Bank premises are stated in the statement of financial position at cost or at Directors' valuation as of 1989, by reference to an independent professional valuation, less accumulated depreciation and accumulated impairment loss (Note 2(r)).

When a deficit arises on revaluation, it will be charged to the income statement, to the extent that it exceeds the amount held in the bank premises revaluation reserve in respect of that same asset immediately prior to the revaluation; and when a surplus arises on revaluation, it will be credited to the income statement, to the extent that a deficit on revaluation in respect of that same asset had previously been charged to the income statement.

In preparing these financial statements, advantage has been taken of the transitional provisions set out in paragraph 80AA of HKAS 16 "Property, Plant and Equipment" issued by the HKICPA, with the effect that bank premises have not been revalued to fair value at the end of the reporting period.

- (ii) Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are stated at fair value. Investment properties are valued semi-annually by external independent valuation companies, having an appropriate recognised professional qualification and recent experience in the location and category of property being valued. No allowance has been made in the valuations for any charges, mortgages or amounts owing on the properties nor any expenses or taxation which may be incurred in effecting a sale.

Any gain or loss arising from a change in fair value is recognised in the income statement. Rental income from investment property is accounted for as described in (Note 2(g)(iii)).

When a bank property is transferred to investment property following a change in its use, any differences arising at the date of transfer between the carrying amount of the bank property immediately prior to transfer and its fair value is recognised as a revaluation of bank premises as described in (Note 2(o)(i)).

If an investment property becomes owner-occupied, it is reclassified as bank premises and its fair value at the date of reclassification becomes its cost for subsequent accounting purposes.

A property interest under a lease was classified and accounted for as an investment property when the Group holds it to earn rentals or for capital appreciation or both. Any such property interest under a lease classified as an investment property is carried at fair value. Lease payments are accounted for as described in (Note 2(s)).

- (iii) Profit or loss on disposal of bank premises and investment properties is determined as the difference between the net sales proceeds and the carrying amount of the asset and is recognised in the income statement upon disposal. Any surplus that is included in the bank premises revaluation reserve related to the bank premises disposed is transferred to the general reserve.

(o) 物業

- (i) 行址是按成本或於1989年董事參照獨立專業評估作出的估值，減除累計折舊及減值損失(附註2(r))後於財務狀況表中列賬。

當重估出現虧損時，於收益表支銷的金額，只限於超過以往因重估相同行址而存入行址重估儲備的結餘；當重估出現盈餘時，存入收益表內的金額不可超過以往因重估相同行址曾於收益表支銷的重估虧損。

在編製此等財務報表時，由於可採用香港會計師公會頒布的《香港會計準則》第16號「物業、廠房及設備」第80AA段所載的過渡條款，故行址並未在報告期結束日重估至公平價值。

- (ii) 投資物業是持有用作賺取租金收益或資本增值或二者皆是的物業。投資物業按公平價值列賬。投資物業由外來獨立估價公司每半年作估值，該公司擁有適當認可專業資格及對估值物業的所在地和類別有近期經驗。估值並未計算任何抵押、按揭、欠款、及在出售時可能產生的任何費用或稅項。

因公平價值變動而產生的損益在收益表內入賬。投資物業租金收入按附註2(g)(iii)所載計算。

如附註2(o)(i)所載，當一項物業因其用途改變而須轉作投資物業時，該物業於轉賬日前的賬面值與公平價值之差額視作行址重估。

如一投資物業轉為自用，該物業須重新分類為行址。於重新分類日的公平價值視作日後作會計用途的成本值。

本集團以租賃方式持有用作租金收入或資本增值或二者皆是的物業權益分類為投資物業。此等以租賃方式持有的物業權益按公平價值列賬。租金支出按附註2(s)所載入賬。

- (iii) 出售行址及投資物業的損益是以出售所得款項淨額與資產賬面值的差價計算，並在出售時於收益表內入賬。任何有關之重估行址盈餘於出售時從行址重估儲備撥入一般儲備內。

(p) Amortisation and Depreciation

(i) Bank premises

Freehold land is not amortised. Leasehold land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease. Leasehold land is amortised on a straight line basis over the remaining term of the lease. Buildings are depreciated on a straight line basis at rates calculated to write off the cost or valuation of each building over its estimated useful life of 50 years or the remaining lease period of the land on which it is situated, whichever is the shorter.

Investment properties are not depreciated.

(ii) Other fixed assets

Other fixed assets are stated in the statement of financial position at cost less accumulated depreciation and impairment losses, which is calculated on a straight line basis to write off the assets over their estimated useful lives from 4 to 20 years.

(q) Goodwill

Goodwill represents the excess of

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the Group's interest in the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash-generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (Note 2(r)).

On disposal of a cash-generating unit, any attributable amount of purchased goodwill is included in the calculation of the profit and loss on disposal.

Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred.

(p) 攤銷及折舊

(i) 行址

永久業權之土地不予攤銷。用作經營租賃的租賃土地，而其公平價值是不能夠與租賃於初始時已存在之建築物的公平價值分開計量，則當作持有融資租賃入賬。租賃土地以直線法按租賃剩餘年期攤銷。建築物的成本或估值以直線法按其預計使用年限50年或其座落土地剩餘租賃期兩者中的較短期限計算折舊。

投資物業是不予折舊。

(ii) 其他固定資產

其他固定資產是按成本減累計折舊及減值損失於財務狀況表中列賬。該等資產是以直線法按照由4年至20年的預計使用年期計算折舊。

(q) 商譽

商譽指

- (i) 對價轉讓的公平價值、任何被購入者的非控股權益金額及以往本集團曾經持有該被購入者的股東權益公平價值的總和；超出
- (ii) 本集團在收購日計量應該被購入者之可辨識資產及負債的公平價值淨額。

當(ii)是大於(i)時，此超出金額立即在損益賬確認為一項議價收購的盈利。

商譽按成本減除累計減值損失列賬。因商業合併而產生的商譽被分配予每一現金生產單位，或一組合之現金生產單位，而預計該現金生產單位是可從商業合併中獲得協同效應，以及須每年接受減值測試(附註2(r))。

當出售單一現金生產單位時，計算出售溢利包括任何可歸屬購入商譽的金額。

由內部產生之商譽及品牌的開支按在發生期間內確認為支出。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

(r) Impairment of Non-Financial Assets

Internal and external sources of information are reviewed at each end of the reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property and equipment (other than properties carried at revalued amounts);
- right-of-use assets;
- investments in subsidiaries, and associates and joint ventures;
- goodwill; and
- intangible assets.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, the recoverable amount is estimated annually whether or not there is any indication of impairment.

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in the income statement whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, if measurable, or value in use, if determinable.

Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of impairment losses is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years.

Reversals of impairment losses are credited to the income statement in the year in which the reversals are recognised.

(r) 非金融資產減值

在報告期結束日，須檢討對內及對外資料來源以辨識以下資產是否有減值徵兆或，除商譽外，以往已確認之減值損失是否仍然存在或可能已經減少：

- 物業及設備(以重估金額列賬的物業除外)；
- 使用權資產；
- 附屬及聯營公司投資及合資企業；
- 商譽；及
- 無形資產。

如任何該等徵兆存在，須估計該資產的可收回金額。此外，商譽須每年估計可收回金額以確定是否有減值徵兆。

可收回金額之計算

可收回金額是公平價值減出售成本及使用價值二者中之較高者。在評估使用價值時，會採用一項當時市場評估的時間值及相對於該資產的風險的稅前折扣率將估計未來現金流量折實為現在價值。當某資產未能大部分地獨立於其他資產產生現金流量，其可收回金額取決於可獨立地產生現金流量的最小資產組合(即單一現金生產單位)。

減值損失之確認

當資產的賬面值或其所屬的現金生產單位超過可收回金額時，須於收益表內確認減值損失。有關確認現金生產單位減值損失時，首先減低分配予現金生產單位(或其單位群組)之賬面值，其後再按比例減低在該單位(或其單位群組)其他資產的賬面值，但該資產的賬面值不可低過其個別公平價值減出售成本(如可計量的話)或使用價值(如可確定的話)。

減值損失之轉回

除商譽外的有關資產，如在用來釐定可收回金額的估計發生有利的變化，則減值損失會被轉回。商譽的減值損失不可轉回。

減值損失轉回只局限至該資產的賬面值，猶如該等減值損失從未在往年被確認。

減值損失轉回在該被確認的年度計入收益表內。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

(s) Leases

Policy applicable from 1st January, 2019

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to directing how and for what purpose the asset is used. In case where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
 - the Group has the right to operate the asset; or
 - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

This policy is applied to contracts entered into, or changed, on or after 1st January, 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

(a) As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred. Where applicable, the cost of right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently at cost less any accumulated depreciation and impairment losses (Note 2(r)), and adjusted for certain remeasurements of the lease liability. When a right-of-use asset meets the definition of investment property, it is initially measured at cost, and subsequently at fair value, in accordance with the accounting policy set out in (Note 2(o)(ii)).

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

(s) 租賃

由2019年1月1日起適用的政策

本集團於訂立合約時會評估有關合約是否屬於租賃或包含租賃。倘某項合約為換取代價而給予在某段時間內對可識別資產使用的控制權，則該合約屬於租賃或包含租賃。為評估合約會否給予對可識別資產使用的控制權，本集團會評估：

- 該合約是否涉及使用可識別資產；
- 本集團是否有權於整段使用期間從使用資產獲得絕大部分的經濟利益；及
- 本集團是否有權指示使用資產。當本集團擁有與指示如何及為何使用資產最為相關的決策權時，本集團便擁有此項權利。倘本集團需要預先決定如何及為何使用資產，本集團便可在出現以下其中一種情況時有權指示使用資產：
 - 本集團有權經營該資產；或
 - 本集團以預先決定將會如何及為何使用資產的方式設計資產。

此項政策適用於2019年1月1日或之後訂立或改變的合約。

本集團會在訂立或重新評估包含租賃部分的合約時，根據各租賃部分的相對單獨價格，將合約代價分配予各該等部分。

(a) 作為承租人

本集團於租賃生效日期確認使用權資產及租賃負債。使用權資產初步按成本計量，其包括租賃負債的初始金額加上任何於生效日期或之前已付之租賃款項，及任何已付之初始直接成本。如適用，使用權資產的成本亦包括拆卸及移除相關資產或還原相關資產或其所在的估計成本之折讓現值，並減去任何已收之租賃激勵款項。

使用權資產其後按成本減任何累計折舊及減值損失計量(附註2(r))，並對租賃的若干重新計量作出調整。倘使用權資產符合投資物業的定義，根據附註2(o)(ii)本集團之會計政策，該使用權初始按成本計量，其後按公平價值計量。

租賃負債初始按照生效日期尚未支付的租賃款項之現值計量，並採用租約隱含的利率或(倘該利率無法輕易釐定)本集團的增量借款利率。本集團一般以其增量借款利率用作貼現率。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. Lease payment included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method (Note 6 and Note 38). It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes its assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has applied judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease terms, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

The Group presents right-of-use assets that do not meet the definition of investment property in "fixed assets" (Note 34) and lease liabilities in "other liabilities" (Note 38) in the statement of financial position. For the information of projected cash outflow for lease liabilities and for leases committed but not yet commenced, please refer to Note 45(d) and Note 47(d).

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less ("short-term leases") and leases of underlying assets with an appropriate value of HK\$0.04 million or less ("low-value assets"). The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term (Note 13).

租賃負債其後因租賃負債的利息成本而增加，並因所付租賃款項而減少。計量租賃負債時計入的租賃項包括以下項目：

- 固定款項，包括實質固定款項；
- 基於指數或利率而定且初步採用截至生效日期的指數或利率計量的可變租賃款項；
- 根據剩餘價值擔保預計應付的款項；及
- 本集團所合理肯定行使的購買選擇權行使價、可選續租年期的租賃款項（倘本集團合理肯定行使延長選擇權）以及提早終止租賃的罰款（除非本集團合理肯定不會提早終止租賃）。

租賃負債採用有效利率方法按攤銷成本計量（附註6及附註38）。當未來租賃款項因指數或利率變動而有所改變，根據剩餘價值擔保預計應付的款項之估計出現變動、改變有關會否合理肯定行使購買或延長選擇權或是否合理肯定不會行使終止選擇權的評估時，租賃負債會重新計量。

當租賃負債重新計量時，相應調整會在使用權資產之賬面值上調整，或要是使用權資產的賬面值已減至零時，該金額則記入損益賬內。

本集團運用判斷以釐定作為承租人若干包括續租權之租約的租期。本集團是否合理肯定行使該等選擇權的評估會影響租期，而租期則會對租賃負債及使用權資產的確認金額產生重大影響。

本集團呈列並不符合投資物業定義之使用權資產於「固定資產」（附註34）中及將租賃負債列於財務狀況表內的「其他負債」（附註38）。有關租賃負債及已承諾但未生效租賃的預測現金流出資料，請參閱附註45(d)和附註47(d)。

短期租賃及低價值資產租賃

本集團已選擇不就若干12個月或以下之租賃（「短期租賃」）及相關資產價值約港4萬元或以下之租賃（「低價值資產租賃」）確認使用權資產及租賃負債。本集團將此等租賃相關的租賃款項按租期以直線法確認為支出（附註13）。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

(b) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Group applied HKFRS 15 to allocate the consideration in the contract.

The amounts due from lessees in respect of finance leases are recorded in the statement of financial position as advances to customers at the amounts of net investment which represent the total rentals receivable under finance leases less unearned income. Revenue arising from finance leases is recognised in accordance with the Group's revenue recognition policies, as set out in Notes 2(g)(ii) and 2(e).

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease period as part of 'other operating income', as set out in Note 2(g)(iii).

The accounting policies applicable to the Group as a lessor in the comparative period were not different from HKFRS 16.

Policy applicable before 1st January, 2019

Leases of assets under which the lessee assumes substantially all the risks and rewards of ownership are classified as finance leases. Leases of assets under which the lessor has not transferred all the risks and rewards of ownership are classified as operating leases.

(i) Assets held under finance leases

The amounts due from lessees in respect of finance leases are recorded in the statement of financial position as advances to customers at the amounts of net investment which represent the total rentals receivable under finance leases less unearned income. Revenue arising from finance leases is recognised in accordance with the Group's revenue recognition policies, as set out in (Note 2(e)).

(ii) Assets held for use in operating leases

Where the Group leases out assets under operating leases, the leased assets are included in the statement of financial position according to their nature and, where applicable, are depreciated in accordance with the Group's depreciation policies, as set out in (Note 2(p)) except where the asset is classified as an investment property. Impairment losses are accounted for in accordance with the accounting policy as set out in (Note 2(r)). Revenue arising from operating leases is recognised in accordance with the Group's revenue recognition policies, as set out in (Note 2(g)(iii)).

(b) 作為出租人

當本集團作為出租人時，其會於租賃生效時釐定各項租賃屬融資租賃或經營租賃。

為劃分各項租賃，本集團會整體評估租賃會否轉移了相關資產擁有權所附帶的絕大部分風險及回報。如屬上述情況，該租賃便為融資租賃；反之則為經營租賃。作為評估的一部分，本集團會考慮若干指標，例如租賃是否佔資產經濟壽命的大部分。

倘某項安排包括租賃及非租賃部分，本集團便按照《香港財務報告準則》第15號分配合約代價。

有關融資租賃的應收承租人款項按淨投資金額(等於融資租賃項下應收租金總額減去未實現收入)以顧客墊款計入財務狀況表。融資租賃所產生的收益已根據附註2(g)(ii)及2(e)所載的本集團收入確認政策獲確認。

本集團於租賃期內按直線基準確認經營租賃項下已收租賃款項為收入，以作為附註2(g)(iii)所載「其他經營收入」的一部分。

於比較期間適用於本集團作為出租人之會計政策與《香港財務報告準則》第16號並無不同。

2019年1月1日以前適用的政策

由承租人承擔相關資產擁有權絕大部分的相關風險及回報的資產租賃列為融資租賃。而出租人並未轉移相關資產擁有權的所有風險及回報的資產租賃列為經營租賃。

(i) 以融資租賃購入的資產

當本行為融資出租人時，按融資租賃而租出資產的投資淨額，即應收租金總額減未賺取收入，在財務狀況表列作客戶貸款。來自融資租賃的收入會根據本行的收入確認政策附註2(e)所載計算。

(ii) 用作經營租賃的資產

除該資產已分類為投資物業，當本集團以經營租賃方式租出資產，該資產根據其性質包括在財務狀況表內，及按附註2(p)所載(如適用者)本集團的折舊會計政策計算折舊。減值損失是根據會計政策附註2(r)所載計算。來自經營租賃的收入是根據本行的收入確認政策附註2(g)(iii)所載計算。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

(iii) Operating lease charges

Where the Group has the use of assets under operating leases, payments made under the leases are charged to the income statement in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in the income statement as an integral part of the aggregate net lease payments made. Contingent rentals are charged to the income statement in the accounting period in which they are incurred.

(t) Repossession of Assets

In the recovery of impaired loans and advances, the Group may take possession of the collateral assets through court proceedings or voluntary delivery of possession by the borrowers. In accordance with the Group's accounting policy set out in (Note 2(h)(vii)), impairment allowances for impaired loans and advances are maintained after taking into account the net realisable value of the collateral assets, usually resulting in a partial write-off of the loans and advances against impairment allowances. Repossessed assets are reported as assets held for sale under other assets if it is highly probable that the future economic benefits will flow to the Group, their carrying amount will be recovered through a sale transaction rather than through continuing use and the assets are available for sale in their present condition. Related loans and advances are then written off.

Repossessed assets are recorded at the lower of the amount of the related loans and advances and fair value less costs to sell at the date of exchange. They are not depreciated or amortised.

Impairment losses on initial classification and on subsequent remeasurement are recognised in the income statement.

(u) Income Tax

- (i) Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in the income statement except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.
- (ii) Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.
- (iii) Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

(iii) 經營租賃費用

當本集團使用經營租賃資產，除非有其他更具代表性的基準以衡量從該等經營租賃資產獲得利益的模式，其租賃付款按該租賃期所涵蓋的會計年期以等額分期記入收益表。經營租賃協議所涉及的激勵措施均在收益表中確認為租賃淨付款的組成部分。或有租金在其產生的會計期內在收益表支銷。

(t) 收回資產

在收回減值貸款時，本集團會通過法庭程序或借款人自願交出擁有權收回抵押品資產。根據本集團附註2(h)(vii)所載的會計政策，計算減值貸款之減值準備已顧及抵押品資產之可變現淨值，通常引致須在減值準備內撇銷部分貸款。如大有可能本集團享有未來經濟收益，其賬面值須透過變賣而不是持續使用該資產，及該資產可在現況下出售，收回資產在其他資產的持有作出售資產項下列賬。有關貸款及墊款隨後撇銷。

收回資產按有關貸款的金額或於轉換日已減除出售成本後之公平價值，按兩者之較低者入賬。收回資產毋須計算折舊或攤銷。

在初始期分類及後期再計量所引致的減值損失於收益表確認。

(u) 所得稅

- (i) 本年度所得稅包括本期及遞延稅項資產和負債的變動。除該稅款與其他全面收益或股東權益有關而須在其他全面收益或股東權益確認的金額外，本期稅項及遞延稅項資產和負債的變動計入收益表內。
- (ii) 本期稅項為年度應課稅收入按報告期結束日已生效或基本上已生效的稅率計算的預計應付稅項，並已包括以往年度的應付稅項的任何調整。
- (iii) 遞延稅項資產及負債是因納稅基礎計算的資產及負債與其賬面值之間的差異而分別產生的可扣稅及應課稅的暫時性差異。遞延稅項資產也包括未使用的稅損及稅項抵免。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing deductible temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

Where investment properties are carried at their fair value in accordance with the accounting policy set out in (Note 2(o)(ii)), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date unless the property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the property over time, rather than through sale. In all other cases, the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at each end of the reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

除了若干有限的例外情況外，所有遞延稅項負債及未來可能有應課稅溢利予以抵銷的遞延稅項資產均予確認。未來有應課稅溢利可支持由可扣稅之暫時性差異引致遞延稅項資產之確認，包括現存之應課稅暫時性差異的轉回，但該等差異須屬於同一稅務機關及應課稅實體，以及預計在同期內該可扣稅之暫時性差異轉回或在若干期限內由該遞延稅項資產產生的稅損可以收回或留存。相同標準應用在判斷現時可扣稅暫時性差異能否支持由未使用的稅損或稅免產生的遞延稅項資產確認，即如果是屬於同一稅務機關及應課稅實體，以及預計在某期間內因該稅損或稅免可使用而轉回時，會計入該等差異。

在有限例外情況下，不確認遞延稅項資產及負債的暫時性差異包括不可扣稅的商譽、初始時已確認不影響會計及應課稅溢利的資產或負債（須不是商業合併的一部分）、及有關投資附屬公司的暫時性差異。就應課稅差異而言，當本集團可控制該差異轉回的時間而該差異在可見將來不會轉回；而就可扣稅差異而言，除非該差異在可見將來可以轉回。

當投資物業根據附註2(o)(ii)所載按公平價值列賬，除該物業是需折舊的及以一商業模式持有，而其目的是要透過時間使用而並非出售該物業以獲取隱含於該物業之重大經濟利益，確認遞延稅項的金額按該物業於結算日假設以賬面值出售的稅率計算。在其他情況下，確認遞延稅項的金額是根據預期變現或償還該資產及負債的賬面值的方式，按在報告日已生效或基本上已生效的稅率計算。遞延稅項資產及負債不作折讓。

於每報告期結束日，本行須重新檢視有關的遞延稅項資產的賬面金額，對預期不再有足夠的應課稅溢利以實現相關稅務利益予以扣減。可轉回之金額不可超過預期將來出現足夠可供扣減的應課稅溢利。

由派發股息引起的額外所得稅在有關股息的支付責任獲確立時確認。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

(iv) Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities if the Bank or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Bank or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(v) Insurance Reserves and Provisions for Outstanding Claims

Insurance reserves, except those attributable to long term business, represent the proportion of retained premiums written in the year relating to the period of risk from 1st January in the following year to the subsequent date of expiry of policies which is carried forward as a provision for unearned premiums and calculated on a daily basis.

The insurance reserve for long term business is ascertained by actuarial valuation based on the Group's estimates of future deaths, investment returns and administration expenses at each valuation date.

Full provision is made for the estimated cost of claims notified but not settled at the end of the reporting period and for the estimated cost of claims incurred but not reported by that date, after deducting the amounts due from reinsurers. Provision has also been made for the estimated cost of servicing claims notified but not settled at the end of the reporting period and to meet expenses on claims incurred but not reported at the end of the reporting period.

These reserves and provisions are classified as other accounts and provisions.

The Group's operating income from its insurance business is presented as net insurance revenue in the consolidated income statement. The Group follows the relevant accounting policies for the recognition of such operating income. Details of net insurance revenue are set out in Note 11.

(iv) 本期稅項與遞延稅項結餘及其變動之金額會分別列示而不會相互抵銷。本行或本集團只有在有合法權利對本期稅項資產及負債抵銷及符合以下附帶條件的情況下，才對本期及遞延稅項資產及負債作出抵銷：

- 就本期稅項資產及負債而言，本行或本集團計劃支付淨額或同時間收回資產及償還負債；或
- 有關的遞延稅項資產及負債屬同一稅務機關對以下機構徵收所得稅而產生：
 - 同一個應課稅實體；或
 - 不同的應課稅實體，並預計在未來期間會償還或收回重大遞延稅項負債或資產，該實體計劃以淨額形式變現本期稅項資產及償還本期稅項負債，或同時間變現及償還。

(v) 保險基金及未付索償準備

不包括長期業務部分，保險基金指年度內收取但已作保留的保金部分，而有關的風險是屬於下年度1月1日至保單到期日為止，該保留保金視作未賺取保費準備並按每日計算。

長期業務的保險基金是根據本集團之估計未來死亡率、投資回報及於每一估值日之行政費用並按精算估值。

本集團已就在報告期結束日只已通知但未償付以及已發生但未匯報的索償，經扣除了分保人欠款，作出了充足的準備。此外，已就在報告期結束日已通知但未償付的索償及已發生但未匯報索償而引致的估計費用作出了充足的準備。

此等基金及準備分類為其他賬項及準備。

本集團將由保險業務生的經營收入在綜合收益表中以保險業務淨收入列示。本集團根據有關會計政策確認該經營收入。詳情請參閱附註11保險業務淨收入。

財務報表附註(續)

(w) Provisions and Contingent Liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Bank has a legal or constructive obligation arising as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(x) Financial Guarantees and Loan Commitments

“Financial guarantees” are contracts that require the Group to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. “Loan commitments” are firm commitments to provide credit under pre-specified terms and conditions.

Financial guarantees issued or commitments to provide a loan at a below-market interest rate are initially measured at fair value and the initial fair value is amortised over the life of the guarantee or the commitment. Subsequently, they are measured at the higher of this amortised amount and the amount of loss allowance (Note 2(h)(vii)).

For other loan commitments, the Group recognises impairment loss allowance (Note 2(h)(vii)).

Liabilities arising from financial guarantees and loan commitments are included within other liabilities.

(y) Employee Benefits

(i) Salaries, bonuses and leave benefits

Employee entitlements to salaries, annual bonuses, paid annual leave, leave passage and the cost to the Group of non-monetary benefits are recognised when they accrue to employees. An accrual is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are recognised when the absences occur.

(ii) Performance-related bonus plan

Liabilities for performance-related bonus plan, which are due wholly within twelve months after the end of the reporting period, are recognised when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

(w) 準備及或然負債

當負債的限期或金額不確定，但有可能因過去事項構成法律或推定義務而須付出經濟利益以償責任，並能對此作可靠估計，此負債便確認為準備。當金額的時間值屬重大的，準備金額須按估計清償負債支出的現值列賬。

倘可能不需要付出經濟利益，或不能對金額作可靠估計，除非付出的機會是極微，則此項責任會視作或然負債披露。如潛在義務的存在須視乎會否發生一項或多項未來事件才獲確定，除非付出經濟利益的機會是極微，此潛在義務亦視作或然負債披露。

(x) 財務擔保和貸款承諾

「財務擔保」是指要求本集團支付特定款項以償還持有人因其特定債務人在債務工具條款到期時未能支付而產生的損失的合同。「貸款承諾」是在預定的條款和條件下提供信貸的承諾。

已發行的財務擔保或以低於市場利率的貸款承諾初始按公平價值計量，初始公平價值在擔保或承諾期內攤銷。往後，該擔保及承諾按該攤銷金額及損失準備(附註2(h)(vii))，二者之較高者，計量。

對於其他貸款承諾，本集團確認減值損失準備(附註2(h)(vii))。

財務擔保和貸款承諾產生的負債包含在其他負債中。

(y) 僱員福利

(i) 薪酬、花紅及假期福利

僱員應享有的薪酬、年終花紅、有薪年假、旅行假期及其他同種類之非金錢性質福利於確立時確認。至報告期結束日已撥備因僱員提供服務所享有之年假的估計負債。

僱員應享有的病假及分娩假於發生時確認。

(ii) 表現獎勵花紅計劃

因僱員提供服務而本集團有現存法律或推定義務於報告期結束日後12個月內須全數支付表現獎勵花紅計劃的負債，對此並能作可靠估計，便須予以確認為負債。

(iii) Retirement benefits

Retirement benefits are provided to eligible staff of the Group. Hong Kong employees enjoy retirement benefits under either the Mandatory Provident Fund Exempted ORSO Scheme ("MPFEOS") or the Mandatory Provident Fund Scheme ("MPFS"). Both are defined contribution schemes. The employer's monthly contributions to both schemes are at a maximum of 10% of each employee's monthly salary.

The pension schemes covering all the Group's PRC and overseas employees are defined contribution schemes at various funding rates, and are in accordance with local practices and regulations.

The cost of all these schemes is charged to the income statement for the period concerned and the assets of all these schemes are held separately from those of the Group. Under the MPFEOS, the employer's contribution is not reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. Under the MPFS, the employer's contribution is reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions.

(iv) Share based payments

The option exercise price is equal to the higher of:

- (i) the closing price of the Bank's shares in the Stock Exchange's daily quotation sheet on the date of grant of the relevant options; and
- (ii) an amount equivalent to the average closing price of the Bank's shares as stated in the Stock Exchange's daily quotation sheets for the 5 business days immediately preceding the date of grant of the relevant options.

When the options are exercised, equity is increased by the amount of the proceeds received. The fair value of share options granted to employees is recognised as an expense in the income statement with a corresponding increase in a capital reserve within equity. The fair value is measured at the grant date using the trinomial model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to those share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged or credited to the income statement for the year of the review unless the original expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of share options that vest (with a corresponding adjustment to capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Bank's shares.

(iii) 退休福利

本集團為其合資格的員工提供退休福利。香港員工可獲得強積金豁免的職業退休計劃或強制性公積金計劃的保障。此兩個計劃同時是定額供款計劃。僱主對兩項計劃的每月供款，上限是每位僱員月薪的10%。

本集團為所有國內及海外員工而設的退休計劃是定額供款計劃，供款率按當地慣例及規定而制定。

上述所有計劃的成本在相關期間的收益表內支銷，而所有此類計劃的資產均與本集團的資產分開處理。在強積金豁免的退休保障計劃中，僱主的供款不會因某些僱員於未完全享有僱主的供款前離開計劃被沒收的供款而減少。而強制性公積金計劃方面，僱主的供款則會因某些僱員於未完全享有僱主的供款前離開計劃被沒收的供款而減少。

(iv) 以股份為基礎作支付

認股權的行使價為以下之較高者：

- (i) 於授出認股權當日本行股份在聯交所日報表的收市價；及
- (ii) 相等於緊接授出有關認股權當日之前五個營業日，本行股份在聯交所日報表的平均收市價。

當認股權被行使時，所得款項計入股東權益。授予僱員之認股權的公平價值於收益表內確認為支出，而在股東權益賬內的資本儲備作相應的增加。公平價值乃採用三項式期權定價模式，按認股權授予日計算，並顧及授予認股權的條款。當僱員須符合歸屬期條件才可無條件享有該等認股權，估計公平價值總額在歸屬期內攤分入賬，並已考慮認股權歸屬的或然率。

估計可歸屬認股權的數目須在歸屬期內作出檢討。除非原本支出符合資產確認之要求，任何已在往年確認的累積公平價值之所需調整須在檢討期內的收益表支銷或回撥，並在資本儲備作相應調整。在歸屬日，除非因未能符合歸屬條件引致權利喪失純粹與本行股份的市價有關，確認為支出之金額按歸屬認股權的實際數目作調整（並在資本儲備作相應調整）。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The equity amount is recognised in capital reserve until either the option is exercised and new shares allotted (when it is transferred to share capital) or the option expires (when it is released directly to retained profits). For Grantees who do not meet the applicable vesting conditions, the unvested options are forfeited, either in whole or in part. Forfeited share options are cancelled.

屬股東權益金額確認為資本儲備內，直至當認股權被行使及分配新股時(轉入股本)，或當認股權之有效期屆滿時(轉入留存溢利)。對於未能符合適用的歸屬條件的承授人，其未歸屬的認股權會全部或部分被撤銷。被撤銷的認股權會被註銷。

(aa) Segment Reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

(ab) Cash and Cash Equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition including cash, balances with banks and other financial institutions, treasury bills, other eligible bills and certificates of deposit that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

(ac) Deposits, Debt Securities Issued and Capital Instruments

Deposits, debt securities issued and capital instruments are the Group's sources of funding.

The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

Subsequent to initial recognition deposits, debt securities issued and subordinated liabilities are measured at their amortised cost using the effective interest method, except where the Group designates liabilities at fair value through profit or loss.

For those capital instruments classified as equity instruments, they are not redeemable by holders and bear an entitlement to coupons at the Bank's sole discretion. Accordingly, they are presented within equity. Distributions thereon are recognised in equity.

(aa) 分部報告

經營分部，及在財務報表列報的每一分部項目金額，是從財務資料中辨識出來的，並定期地提供予本集團的最高行政管理層作為資源分配，以及評核本集團各項業務和區域所在地的表現。

除非分部有相同經濟特性及在產品和服務之性質、生產程序之性質、客戶類別和等級、用作銷售產品和提供服務之方法、及監管環境之性質是相同的，個別重大的營運分部不會在財務報表內合計。如它們擁有以上大部份的標準，並非個別重大的營運分部可能會被合計。

(ab) 現金及等同現金項目

就編製現金流量表而言，現金及等同現金項目包括由購入日起少於3個月到期日的結餘，包括現金、銀行及其他金融機構結餘、國庫債券、及其他受較低風險影響價值及隨時可轉換成預知金額的合格票據及存款證。

(ac) 存款、已發行債務證券及資本工具

存款、已發行債務證券及資本工具是本集團籌募資金的來源。

本集團按工具合約條款的實質分類資本工具為金融負債或股本工具。

在初始確認後，除本集團指定為通過損益的負債外，存款、已發行債務證券及後償負債按有效利率方式計算攤銷成本。

就分類為股本工具的資本工具，該等工具是不可贖回及視乎本行決定是否司享有利息。因此，該等工具在股東權益內列賬。相關分派於股東權益內確認。

(ad) Assets Held for Sale

Non-current assets and disposal groups (including both the assets and liabilities of the disposal groups) are classified as held for sale and measured at the lower of their carrying amount and fair value less cost to sell when: (a) their carrying amounts will be recovered principally through sale; (b) they are available for sale in their present condition; and (c) their sale is highly probable.

Immediately before the initial classification as held for sale, the carrying amounts of the asset (or assets and liabilities in the disposal group) are measured in accordance with applicable HKFRSs. On subsequent remeasurement of a disposal group, the carrying amounts of the assets and liabilities that are not within the scope of the measurement requirements of HKFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with applicable HKFRSs before the fair value less costs to sell of the disposal group is determined.

Income earned and expenses incurred on assets and liabilities of disposal groups held for sale continue to be recognised in the appropriate line items in the income statement until the transaction is complete.

(ae) Interim Financial Reporting and Impairment

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with HKAS 34, Interim financial reporting, in respect of the first six months of the year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the year (Note 2(h)(vii) and Note 2(r)).

Impairment losses recognised in an interim period in respect of goodwill are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

(ad) 持有作出售資產

當(a)其賬面值將主要需通過出售才可收回；(b)它們可以在現況下可供出售；(c)出售之機會率是非常高的，非流動資產及出售組別(包括出售組別的資產和負債)按其賬面值及公平價值減出售成本，兩者之較低者，分類為持有作出售資產。

在被初始分類為持有作出售之前，資產的賬面值(或出售組別的資產和負債)按適用的《香港財務報告準則》計算。而往後在重新計算出售組別時，在未決定出售組別的公平價值減成本前，非在《香港財務報告準則》第5號「持有作出售資產的非流動資產及結束營運」所覆蓋的計算要求的資產和負債之賬面值，按適用的《香港財務報告準則》計算。

出售組別的資產和負債之已賺取收入和已發生支出仍繼續在收益表內之有關項目中確認，直至交易完成。

(ae) 中期財務報告及減值

根據聯交所《上市規則》，本集團須按《香港會計準則》第34號「中期財務報告」編制有關年度首6個月的中期財務報告。於中期期末，本集團採用等同年末的減值測試、確認、及轉回標準(附註2(h)(vii)至附註2(r))。

已確認於中期期間的減值損失，均不能在較後期間轉回。就算假如該減值只在與該中期期間有關之年底作評估而該減值損失是不會發生、或損失之金額會較小，在此情況下亦不可轉回。

3. CHANGES IN ACCOUNTING POLICIES 會計政策之變動

The Group has initially adopted HKFRS 16 *Leases* from 1st January, 2019. A number of other new standards are effective 1st January, 2019 but they do not have a material effect on the Group's financial statements. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

HKFRS 16 replaces HKAS 17, *Leases*, and the related interpretations, HK(IFRIC) 4, *Determining whether an arrangement contains a lease*, HK(SIC) 15, *Operating leases – incentives*, and HK(SIC) 27, *Evaluating the substance of transactions involving the legal form of a lease*. It introduces a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligation to make lease payments. Lessor accounting remains similar to previous accounting policies.

The Group has applied HKFRS 16 using the modified retrospective approach, under which the comparative information presented for 2018 has not been restated – i.e. it is presented, as previously reported, under HKAS 17 and related interpretations. The details of the changes in accounting policies are disclosed below.

(1) Definition of a lease

Previously, the Group determined at contract inception whether an arrangement was or contained a lease under HKFRIC 4 *Determining Whether an Arrangement contains a Lease*. The Group now assesses whether a contract is or contains a lease based on the definition of a lease. Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

(2) As a lessee

The Group leases many assets, including properties and equipments.

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards of ownership. Under HKFRS 16, the Group recognises right-of-use assets and lease liabilities for most leases – i.e. these leases are on-balance sheet.

However, the Group has elected not to recognise right-of-use assets and lease liabilities for some leases that have a lease term of 12 months or less ("short-term leases"), and leases of underlying assets with an approximate value of HK\$0.04 million or less ("low-value assets"). The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

本集團自2019年1月1日起初始採用《香港財務報告準則》第16號「租賃」。若干其他新準則已於2019年1月1日起生效，但並不會對本集團財務報表產生重大影響。本集團並未採納任何於本會計期尚未生效的新準則或詮釋。

《香港財務報告準則》第16號取代了《香港會計準則》第17號「租賃」，及其相關詮釋香港《國際財務報告準則詮釋委員會詮釋》第4號「決定一項安排是否包含租賃」，及香港《常務解釋委員會發布之解釋公告》第15號「經營租賃－激勵措施」及第27號「評估涉及租賃法律形式為租賃之交易的實質」。《香港財務報告準則》第16號為承租人引入單一及計入資產負債表的會計處理模式。因此，本集團（作為承租人）已確認有權使用相關資產之使用權資產以及有義務支付租賃款項之租賃負債。出租人會計處理模式仍與以往會計政策類似。

本集團採用經改良追溯模式應用《香港財務報告準則》第16號，故2018年呈報的比較資料尚未重報，即根據《香港會計準則》第17號及相關詮釋按照以往列報資料列示。會計政策的變動細節於下文披露。

(1) 租賃的定義

本集團以往在訂立合約時釐定某項安排是否屬於租賃或包含租賃是根據香港《國際財務報告準則詮釋委員會詮釋》第4號「決定一項安排是否包含租賃」。本集團現根據《香港財務報告準則》第16號的租賃定義釐定某項合約為是否屬於或包含租賃。在《香港財務報告準則》第16號下，倘某項合約為換取代價而給予在某段時間內對可識別資產使用的控制權，則該合約屬於租賃或包含租賃。

(2) 作為承租人

本集團承租許多資產，包括物業及設備。

本集團（作為承租人）先前透過評估租賃是否轉讓擁有權的絕大部分風險及回報將租賃分類為融資租賃及經營租賃。根據《香港財務報告準則》第16號下，本集團對大部分租賃確認使用權資產及租賃負債，並載於資產負債表內。

然而，本集團已選擇不就若干12個月或以下之租賃（「短期租賃」）及相關資產價值約港幣4萬元或以下之租賃（「低價值資產租賃」）確認使用權資產及租賃負債。本集團將此等租賃相關的租賃款項按租期以直線法確認為支出。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The Group presented right-of-use assets in 'fixed assets', the same line item as it presents underlying assets of the same nature that it owns. The carrying amounts of right-of-use assets are as below.

本集團的使用權資產在「固定資產」項下呈列，與本集團所擁有具相同性質的相關資產並列在相同項目。使用權資產的賬面值如下。

		Right-of-use assets 使用權資產				
		Bank Premises 行址		Furniture, fixtures and equipment 傢俬、裝修及設備		Total 總計
		HK\$ Mn 港幣百萬元	港幣百萬元	HK\$ Mn 港幣百萬元	港幣百萬元	港幣百萬元
Balance at 1st January	於1月1日的結餘		1,099	9		1,108
Balance at 31st December	於12月31日的結餘		1,069	19		1,088

The Group presented lease liabilities in 'other liabilities' in the statement of financial position.

本集團將租賃負債列於財務狀況表內的「其他負債」。

At transition, for leases classified as operating leases under HKAS 17, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate as at 1st January, 2019. Right-of-use assets are measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments. The Group applied this approach to all leases.

於過渡時，在《香港會計準則》第17號下分為經營租賃的租賃，其租賃負債按餘下租賃款項根據本集團於2019年1月1日的增量借款利率折算為現值計量。使用權資產則按租賃負債的等值金額計量並調整任何預付或應計租賃款項的金額。本集團應用此方法於所有租賃。

The Group used the following practical expedients when applying HKFRS 16 to leases previously classified as operating leases under HKAS 17.

本集團將《香港財務報告準則》第16號於以往在《香港會計準則》第17號下分類為經營租賃的租賃時，採用以下務實權宜方法。

- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains an option to extend or terminate the lease.

- 應用豁免不就租期少於12個月的租賃確認使用權資產及負債。
- 於初始應用日期計量使用權資產時，剔除初始直接成本。
- 若合約包含延長或終止租賃的選擇權，則採用事後確認方法釐定租期。

(3) As a lessor

The Group leases out its investment properties as the lessor of operating leases.

(3) 作為出租人

本集團以經營租賃之出租人租出投資物業。

The accounting policies applicable to the Group as a lessor remain substantially unchanged from those under HKAS 17.

適用於本集團作為出租人的會計政策與《香港會計準則》第17號項下的相關政策大致維持不變。

(c) Loans and advances to customers – by geographical areas

The information concerning the breakdown of the gross amount of advances to customers by countries or geographical areas is derived according to the location of the counterparties after taking into account any transfer of risk in accordance with the requirements of Banking (Disclosure) Rules. In general, such transfer of risk takes place if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose head office is located in another country. The location of a party is determined by its residence which is the economic territory under whose laws the party is incorporated or registered. This requirement is different from the allocation under segment reporting in Note 24 which is prepared in a manner consistent with the way in which information is reported internally to the Group's Senior Management. The specific provisions represent lifetime expected credit loss provisions for credit impaired exposures and the collective provisions represent the 12-month and lifetime expected credit loss provisions for non-credit impaired exposures.

(c) 客戶貸款及墊款 – 按區域分類

根據《銀行業(披露)規則》，客戶墊款總額按國家或區域的分類，是根據交易對手的所在地，並已顧及轉移風險因素。一般而言，有關墊款的債權獲得並非交易對手所在地的國家的一方擔保，或該債權的履行對象是某銀行的海外分行，而該銀行的總辦事處並非設於交易對手的所在地，風險便確認為由一個國家轉移到另一個國家。一方的所在地由其居住地決定，而該居住地是該締約方註冊或登記的法律所規定的經濟領土。此要求與附註24分部報告的分配不同，後者的編製方法與內部匯報資料予集團高層管理人員的方法是一致的。特殊準備指減值信貸風險在合約期內的預期信貸損失準備及整體準備指非減值信貸風險12個月及合約期內的預期信貸損失準備。

Impaired loans and advances are individually assessed loans with objective evidence of impairment on an individual basis. The above information by countries or geographical areas is derived according to the location of the counterparties after taking into account any transfer of risk.

Collateral includes any tangible security that carries a fair market value and is readily marketable. This includes (but is not limited to) cash and deposits, stocks and bonds, mortgages over properties and charges over other fixed assets such as plant and equipment. Where collateral values are greater than gross loans and advances to customers, only the amount of collateral up to the gross loans and advances is included.

減值貸款及墊款是個別出現客觀減值證據而須個別評估的貸款。以上按國家或區域分類的資料，是根據交易對手的所在地並已顧及轉移風險因素。

抵押品包括任何具公平價值及可隨時出售的有形抵押品。這些抵押品包括(但不限於)現金及存款、股票及債券、物業按揭及其他固定資產如器材及設備之押記。倘抵押品價值高於客戶貸款及墊款總額，則只計入最高達貸款及墊款總額的抵押品金額。

The fair value of the Group's investment in AFFIN Bank Berhad ("AFFIN") based on the quoted market price had been persistently below the carrying amount for a period of time. As a result, the Group performed an impairment test on the investment using a value-in-use ("VIU") methodology and this demonstrated that the recoverable amount of the investment was higher than the carrying value at 31st December, 2019 and no further impairment charge was recognized in 2019 (2018: impairment charge of HK\$397 million). The VIU calculation uses discounted cash flow projections based on AFFIN's latest forecast of financial results and estimates made by the Group's management. Discount rate of 10.27% (2018: 10%) which is based on a Capital Asset Pricing Model calculation for AFFIN is used in the VIU calculation.

本集團投資予AFFIN Bank Berhad (「AFFIN」)按市場報價的公允價值持續低於賬面值一段時間。因此，本集團對這項投資以採用使用價值計算方法進行減值測試，測試顯示此項投資的可收回金額高於2019年12月31日之賬面值，因此毋須在2019年年度再確認減值損失(2018年：減損損失港幣3.97億元)。使用價值計算方法採用的折現現金流預測數值，是本集團以AFFIN的最新財務業績預測為依據。在價值計算方法中使用基於AFFIN的資本資產定價模型計算的10.27%(2018年：10%)的折現率。

Impairment tests for cash-generating units containing goodwill

包含商譽的現金生產單位之減值測試

Goodwill is allocated to the Group's cash-generating units (CGU) identified according to business segments as follows:

本集團按業務分部分配商譽予可辨認的現金生產單位如下：

		2019	2018
		HK\$ Mn 港幣百萬元	HK\$ Mn 港幣百萬元

		1,474	1,474

The recoverable amount of the CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated rates stated below. The growth rate does not exceed the long-term average growth rate for the business in which the CGU operates.

現金生產單位的可收回金額則根據使用價值計算。計算方法按照管理層已核准的5年財務預算的現金流作估計。超過5年期間的現金流按下述的估計利率作推斷。增長率不可超過該現金生產單位所經營業務的長期平均增長率。

The discount rate used for value-in-use calculations is 7.1% (2018: 7.9%) and the long-term growth rate is 2.4% (2018: 2.6%).

用於計算使用價值的折扣率為7.1% (2018年：7.9%) 及長期增長率為2.4% (2018年：2.6%)。

Management determined the budgeted net profit based on past performance and its expectation for market development. The weighted average growth rates used are consistent with the internal forecasts.

管理層根據過往表現及預計市場發展以釐定預算淨溢利。所採用的加權平均增長率與內部預測是一致的。

33. GOODWILL AND INTANGIBLE ASSETS (CONTINUED) 商譽及無形資產(續)

(b) Intangible assets (other than goodwill)

Intangible assets consist of building naming rights only. Intangible assets are stated at cost less accumulated amortisation and impairment loss (Note 2(r)).

Amortisation of intangible assets with finite useful lives is charged to the income statement over the assets' estimated useful lives. The following intangible assets with finite useful lives are amortised from the date they are available to use and their estimated useful lives are as follows:

Naming rights: Over the shorter of the lease period of building or land

Both the period and method of amortisation are reviewed annually.

(b) 無形資產(商譽除外)

無形資產只包括建築物命名權。無形資產按成本減除累計攤銷及減值損失列賬(附註2(r))。

有限定可用期的無形資產按其估計可用期於收益表內攤銷。以下有限定可用期的無形資產由可供使用日起按以下的估計可用期攤銷：

Fair value measurement of properties

(i) Fair value hierarchy

The following table presents the fair value of the Group's properties measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 valuations:	Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
Level 2 valuations:	Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
Level 3 valuations:	Fair value measured using significant unobservable inputs.

物業公平價值之釐定

(i) 公平價值分級

根據《香港財務報告準則》第十三號/釐定公平價值/三級公平價值分級之分類定義，下表列示本集團於報告期末按重覆發生基準以釐定物業之公平價值。分類予每一分級之公平價值釐定取決於以下所採用的估值模式的參數之可觀察性及重要性：

第一級估值：釐定公平價值只採用第一級參數，即於釐定日在活躍市場相同資產或負債的未經調整報價。
第二級估值：釐定公平價值採用第二級參數，即不符合第一級的可觀察參數，及未採用重要的非可觀察參數。非可觀察參數是指沒有市場資料之參數。
第三級估值：釐定公平價值採用重要的非可觀察參數。

Fair value measurement of properties (continued)

During the years ended 31st December, 2019 and 2018, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

All of the Group's investment properties were revalued by independent valuers as at 31st December, 2019 and 2018.

Investment properties in Hong Kong were valued at HK\$5,319 million (2018: HK\$5,234 million) as at 31st December, 2019 by an independent valuer, Savills Valuation and Professional Services Limited, Chartered Surveyors, who has among their staff Fellows of the Hong Kong Institute of Surveyors with recent experience in the location and category of property being valued. The valuation has been incorporated in the financial statements as at 31st December, 2019 and it was performed on an open market value basis. Details of valuation techniques are described below:

(ii) Information about Level 3 fair value measurements

	Valuation techniques 估值模式	Unobservable input 非可觀察輸入參數
Investment properties 投資物業	Income capitalisation approach 收入還原法	Market rental 市場租金
		Capitalisation rate 還原率
	Direct comparison approach 直接比較法	Premium (discount) on quality of the buildings 樓宇質素溢價(折扣)

Investment properties not under construction

The fair value of investment properties is determined by adoption of the Income Capitalisation Approach whereby the existing rental income of all lettable units of the property are capitalised for their respective unexpired terms of contractual tenancies whilst vacant units are assumed to be let at their respective market rents as at the valuation date. Upon expiry of the existing tenancies, each unit is assumed to be let at its market rent as at the valuation date, which in turn capitalised at the market yield as expected by investors for each type of property. Due consideration has been given to expectations of the renewals of Government lease upon its expiry. The summation of the capitalised value of the term income for the leased portion, the capitalised value of the reversion income as appropriately deferred for the leased portion and the capitalised value for the vacant portion provides the market value of the property.

The market rentals of all lettable units are made (a) by reference to the rentals fetched in the property and/or (b) by reference to the lettings of similar properties in the neighbourhood. The capitalisation rate adopted is made by reference to the yields achieved in analysed market sales transactions and the market expectation from property investors. This expected return reflects implicitly the quality of the investment, the expectation of the potential for future rental growth and capital appreciation, operating costs, risk factor and the like.

物業公平價值之釐定(續)

截至2019年及2018年12月31日止年度，沒有第一級和第二級兩者之間的轉移，亦未有第三級的轉入或轉出。本集團的政策是只確認於匯報期末公平價值分級之間發生的轉移。

於2019年及2018年12月31日，所有本集團的投資物業均由獨立估值師估價。

於2019年12月31日，香港投資物業的估值為港幣53.19億元(2018年：港幣52.34億元)。該等物業由獨立估值師—特許測量師第一太平戴維斯，其僱員具香港測量師學會會員資格並對估值物業的所在地及類別有近期經驗。估值是以公開市場價值為基礎，並已計入2019年12月31日之賬項內。估值模式詳述如下：

(ii) 有關第三級釐定公平價值資料

非正在建築中的投資物業

投資物業的公平價值是按採納收入還原法計算，其方法是將現時物業已出租單位之租金收入按其分別未到期租約條款還原，而空置單位則假設於估價日每一單位可按市值租金租出，再根據投資者預期每一類別物業之市場回報來還原。其中已顧及並預期政府之租約於期限屆滿後可續約。出租部分期間收入之還原值、已適當遞延出租部分之歸還收入的還原值及空置部分之還原值之總和計算出物業的市場價值。

所有已租出單位市場租金之計算是(a)參考由物業賺取的租金及/或(b)參考鄰近所租出之類同物業。採納之還原率是參考分析市場出售交易得出之回報及物業投資者對市場的預期。此預期回報已潛在地反映投資的質素、預期未來租金增長和資本增值的潛力、營運成本、風險因素及其他。

財務報表附註(續)

As a supporting approach to the Income Capitalisation Approach, the Direct Comparison Approach is also adopted as a check for the valuation. Comparable sales transactions of similar properties in the locality are collected and analysed each in terms of a price per square footage. The collected comparables are then adjusted to take account of the discrepancies between the property and comparables in terms of time, location, age, building quality and the like.

The fair value measurement is positively correlated to the market rental and negatively correlated to the capitalisation rate.

The movements during the period in the balance of these Level 3 fair value measurements are as follows:

除收入還原法外，亦採納直接比較法以核實估值。在鄰近可比較類同物業之出售交易會被收集及分析，以計算每一平方呎的價值。已收集之比較資料根據物業及可比較資料的差異，並按時間、位置、樓齡、樓宇質素及其他作調整。

釐定公平價值與市場租金有正面相互關聯及與還原率有負面相互關聯。

期間該等第三級公平價值釐定之餘額變動如下：

All the gains recognised in the income statement for the year arise from the properties held at the end of the reporting period.

指定為通過損益以反映公平價值的金融負債(續)

There was no transfer of cumulative gain or loss within equity due to de-recognition of liabilities designated at FVTPL during the year (2018: Nil).

The change in fair value attributable to changes in credit risk on financial liabilities is calculated using the difference between the fair value of the financial liabilities at the reporting date and the present value computed with adjusted asset swap spread.

The carrying amount of financial liabilities designated as at FVTPL was HK\$164 million lower than the contractual amount due at maturity (2018: HK\$57 million lower).

年度內(2018年:無)並未有指定為通過損益以反映公平價值的負債被終止確認,亦未有將其累計盈利或虧損在股東權益內轉賬。

計算可歸屬於金融負債信貸風險的公平價值變動是採用近期發行相同債務的可觀察信用利差,然後根據集團實體稍後所發行高級債務的信用違約掉期之可觀察利差變動作調整。

於2019年,指定為通過損益以反映公平價值金融負債的賬面值較其到期日之合約金額低於港幣1.64億元(2018年:低於港幣5,700萬元)。

45. PRINCIPAL RISK MANAGEMENT 主要風險管理

This section presents information on the Group's management of principal risks.

The Group has established a risk governance and management framework in line with the requirements set out by the HKMA and other regulators. This framework is built around a structure that enables the Board and Senior Management to discharge their risk management-related responsibilities with appropriate delegation and checks and balances. These responsibilities include defining risk appetite in accordance with the Group's business strategies and objectives, formulating risk policies that govern the execution of those strategies, and establishing procedures and limits for the approval, control, monitoring, and remedy of risks.

The RIC stands at the highest level of the Group's risk governance structure under the Board. It consists of five INEDs (including the Chairman of the Committee) and two NEDs. The RIC provides direct oversight over the formulation of the Group's risk appetite, and sets the levels of risk that the Group is willing to undertake with reference to its financial capacity, strategic direction, prevailing market conditions, and regulatory requirements.

The RIC also ensures that the Group's risk appetite is reflected in the policies and procedures that Senior Management adopt to execute their business functions. Through the Group's management committees, including Crisis Management Committee, Risk Management Committee, Credit Committee, Asset and Liability Management Committee, and Operational Risk Management Committee – and with overall co-ordination by the Risk Management Division – the RIC regularly reviews the Group's risk management framework and ensures that all important risk-related tasks are performed according to established policies and with appropriate resources.

The Crisis Management Committee and Risk Management Committee comprise the Senior Management and the Group Chief Risk Officer.

The Credit Committee, Asset and Liability Management Committee, and Operational Risk Management Committee comprise the Senior Management, the Group Chief Risk Officer and where appropriate senior executives from the relevant areas.

The Group has implemented an ERM framework. The ERM framework is promulgated with the objectives of identifying and managing potential risks in a holistic and effective manner, fulfilling the HKMA's higher expectations with regard to the risk management of the Group as a Domestic Systemically Important Bank, and reinforcing the "Three Lines of Defence" risk management model.

本部分載述有關本集團主要風險管理的資料。

根據香港金融管理局及其他監管機構的規定，本集團已建立風險管治及管理架構。該架構的組成讓董事會及高層管理人員能夠以適當授權和制衡方式履行其與風險管理相關的職責。此等職責包括根據本集團的業務策略及目標設定風險偏好、制定風險政策以管理上述策略的執行，並設立風險審批、控制、監控及補救的程序及限制。

風險委員會為本集團僅次於董事會的最高風險管治機構，成員包括五名獨立非執行董事（包括委員會主席）及兩名非執行董事。風險委員會直接監督本集團風險偏好的制定，並因應本集團的財務能力、策略性指引、當前市場情況及監管要求設定可承擔的風險水平。

風險委員會亦確保本集團的風險偏好獲反映於政策及程序上，讓高層管理人員加以採用，以行使其業務職能。透過本集團的各個管理委員會，包括危機管理委員會、風險管理委員會、信貸委員會、資產負債管理委員會及營運風險管理委員會，並在風險管理處的整體協調下，風險委員會定期檢討本集團的風險管理架構，確保所有與風險相關的重要任務是根據現有政策及運用適當資源執行。

危機管理委員會及風險管理委員會由高層管理人員和集團風險總監組成。

信貸委員會、資產負債管理委員會及營運風險管理委員會由高層管理人員、集團風險總監及（在適當情況下）其他有關方面的高級行政人員組成。

本集團已推行企業風險管理架構。此企業風險管理架構旨在全面有效地識別及管理潛在風險、實踐金管局對本集團作為一間具本地系統重要性銀行在風險管理方面的更高期望，以及鞏固「三道防線」風險管理模式。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

The Group has adopted the “Three Lines of Defence” risk management structure to ensure that roles and responsibilities in regard to risk management within the Group are clearly defined. The “Three Lines of Defence” model is summarised as follows:

- The first line of defence comprises the Risk Owners, who are heads of business units or support units of the Bank Group, together with staff under their management. They are primarily responsible for the day-to-day risk management of their units, including establishing and executing specific risk control mechanisms and detailed procedures.
- The second line of defence consists of the Risk Controllers who are designated staff responsible for setting out a risk management governance framework, monitoring risks independently and supporting the management committees in their oversight of risk management for the Bank Group.
- The third line of defence is the Internal Audit Division, which is responsible for providing assurance as to the effectiveness of the Group’s risk management framework, including risk governance arrangements.

The Group Chief Risk Officer co-ordinates all risk management-related matters of the Group, works closely with the Risk Controllers on the formulation of risk management policies and exercises risk oversight at the Group level through a functional working relationship with all Risk Controllers and Risk Owners.

The Group faces a variety of risks that could affect its franchise, operations, and financial conditions. Under the ERM framework, the principal risks comprise credit risk, interest rate risk, market risk, liquidity risk, operational risk, reputation risk, strategic risk, legal risk, compliance risk, technology risk, business continuity risk, and new product and business risk.

The Group has formulated policies to identify, measure, monitor, control, and report on the various types of risk and, where appropriate, to allocate adequate capital to cover those risks. The Group’s major risk management policies and control limits are approved by the Board and are reviewed and enhanced on a regular basis to cater for market changes, statutory requirements, and best practice in risk management processes. The Board has delegated the responsibility for ongoing risk management to the RIC and the management committees. Significant risk management-related issues must be reported to the Board, which oversees risk management. Moreover, on a daily basis, the Group Chief Risk Officer is responsible for overseeing the Group’s risk management issues, which include, but are not limited to, the risk management infrastructure, strategies, appetites, culture, and resources.

為確保風險管理於本集團內有關的角色與責任能明確分工，本集團已採納「三道防線」風險管理框架。「三道防線」模式概述如下：

- 第一道防線為「風險負責人」，由本銀行集團各業務或後勤單位主管，連同其屬下職員組成，主要負責其業務單位的日常風險管理，包括特定風險管理機制及具體程序的設立及執行。
- 第二道防線為「風險監控人」，由指定的員工組成。風險監控人負責制定風險管理管治架構、獨立監控風險及輔助各管理委員會對本銀行集團風險管理的監督。
- 第三道防線為稽核處。稽核處負責為本集團風險管理架構(包括風險管治安排)的有效性提供保證。

集團風險總監協調本集團所有風險管理相關事務，與各風險監控人就風險管理政策的制定緊密協作，並透過與所有風險監控人及風險負責人的職能工作關係，在集團層面監督風險。

本集團面臨可能影響其品牌、營運及財務狀況的各類風險。在企業風險管理架構下，主要風險包括信貸風險、利率風險、市場風險、流動性風險、營運風險、信譽風險、策略性風險、法律風險、合規風險、科技風險、持續業務運作風險及新產品及業務風險。

本集團已制定政策，以識別、衡量、監察、控制及匯報各類風險，並於適當的情況下調配資本以抵禦該等風險。本集團的主要風險管理政策及控制限額由董事會批准，並定期予以檢討及改善，以配合市場轉變、法定要求，以及達致風險管理程序的最佳做法。董事會已將持續管理風險的責任授予風險委員會及有關的管理委員會。與重要風險管理相關的事項須上報至監督風險管理的董事會。此外，集團風險總監的日常職責為監督集團風險管理相關事項，包括但不限於風險管理基礎架構及策略、風險偏好、風險管治文化及有關資源。

財務報表附註(續)

Stress testing is an integral part of the Group's risk management. The Group regularly performs stress tests on the principal risks, where appropriate, to assess the potential impact of stressed business conditions (including hypothetical situations such as a significant economic downturn in Mainland China and Hong Kong) on the Group's financial positions, in particular, capital adequacy, profitability, and liquidity. Whenever necessary, a prompt management response will be developed and executed to mitigate potential impacts.

(a) Credit risk management

Credit risk is the risk of loss arising from a borrower or counterparty failing to meet its obligations.

The Credit Committee is responsible for managing all credit risk-related issues of the Group, while the Credit Risk Management Department under the Risk Management Division of the Group is responsible for monitoring activities relating to credit risk. The Group identifies and manages credit risk by defining the target market segment, formulating appropriate credit policies, carrying out credit assessment and monitoring of asset quality. Credit risk control limits are set for different levels. Risk, return, and market situation are considered when setting all limits. Active limit monitoring is undertaken.

In evaluating the credit risk associated with an individual customer or counterparty, financial strength and repayment ability are always the primary considerations. Credit risk may be mitigated by obtaining collateral from the customer or counterparty.

The Group has established policies, procedures, and rating systems to identify, measure, monitor, control, and report on credit risk. In this connection, guidelines for management of credit risk have been laid down in the Group's Credit Risk Management Manual. These guidelines stipulate delegated lending authorities, credit underwriting criteria, credit monitoring processes, an internal rating structure, credit recovery procedures and a provisioning policy. They are reviewed and enhanced on an ongoing basis to cater for market changes, statutory requirements, and best practice in risk management processes.

壓力測試為本集團風險管理的重要部分。本集團定期對相關的主要風險進行壓力測試，評估受壓營商環境(包括內地及香港出現嚴重經濟下滑等假設情景)對本集團的財務狀況，尤其是資本充足、盈利能力及流動性可能產生的影響。有需要時，管理層亦會果斷制定並執行應對措施以減低潛在影響。

(a) 信貸風險管理

信貸風險是指因借款人或交易對手未能履行其責任而導致損失的風險。

信貸委員會負責管理所有與本集團信貸風險有關的事項，而本集團風險管理處轄下的信貸風險管理部則負責監察與信貸風險有關的活動。本集團透過設定目標市場、制定適當的信貸政策、進行信貸評核，以及監控資產素質，來識別和管理信貸風險。信貸風險控制限額設有不同層次。釐定所有限額時會考慮風險、回報及市場情況，並且採用積極限額監控程序。

在評估與個別客戶或交易對手相關的信貸風險時，其財政實力以及還款能力是主要的考慮因素。此外，客戶或交易對手所提供的抵押品亦有助減低信貸風險。

本集團已制定多項政策、程序及評級系統，以識別、衡量、監察、控制及匯報信貸風險。在此方面，本集團已將信貸風險管理指引詳列於集團的信貸風險管理手冊內，對信貸權限授權、授信標準、信貸監控程序、內部評級架構、信貸追收程序及撥備政策訂下規定。本集團持續檢討和改善該等指引，以配合市場轉變及有關法定要求，及達致風險管理程序的最佳做法。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(a) Credit risk management (continued)

The Group's credit risk management for the major types of credit risk is depicted as follows:

(i) Corporate and bank credit risk

The Group has laid down policies and procedures to evaluate the potential credit risk of a particular counterparty or transaction and to approve the transaction. For corporate and bank customers, the Group has different internal rating systems that are applied to each counterparty. For exposure classified as Specialised Lending in particular, supervisory slotting criteria are adopted. To monitor credit concentration risk, the Group has preset limits for exposures to individual industries and for borrowers and groups of borrowers. The Group also has a review process to ensure that the level of review and approval is proper and will depend on the size of the facility and rating of the credit.

The Group undertakes on-going credit analysis and monitoring at several levels. The policies are designed to promote early detection of counterparty, industry or product exposures that require special monitoring. The overall portfolio risk as well as individual impaired loans and potential impaired loans are monitored on a regular basis.

(ii) Retail credit risk

The Group's retail credit policy and approval process are designed for the fact that there are high volumes of relatively homogeneous and small value transactions in each retail loan category. The design of internal rating system and formulation of credit policies are primarily based on the demographic factors and the loss experience of the loan portfolios. The Group monitors its own and industry experience to determine and periodically revise product terms and desired customer profiles.

(iii) Credit risk of treasury transactions

The credit risk of the Group's treasury transactions is managed in the same way as the Group manages its corporate and bank credit risk. The Group applies an internal rating system to its counterparties and sets individual counterparty limits.

(iv) Credit-related commitment

The risks involved in credit-related commitments and contingencies are essentially the same as the credit risk involved in extending loan facilities to customers. These transactions are subject to the same credit application, portfolio maintenance and collateral requirements as for customers applying for loans.

(a) 信貸風險管理(續)

本集團就下列各類主要信貸風險實行信貸風險管理：

(i) 企業及銀行信貸風險

本集團已制訂多項政策及程序，以評估特定交易對手或交易的潛在信貸風險，以及決定批核有關交易與否。就企業及銀行客戶而言，本集團已制定適用於所有交易對手的內部評級系統。專門性借貸的風險承擔則採用監管分類準則。為監控信貸集中的風險，本集團已就個別行業及不同的借款人和借款人團體預設風險承擔限額。本集團亦已釐定檢討程序，確保按照貸款的規模和信貸評級，為貸款進行適當的檢討和審批。

本集團持續進行多個層次的信貸分析和監控。有關政策旨在盡早發現需要特別監控的交易對手、行業或產品的風險承擔。交易組合的整體風險和個別減值貸款及潛在減值貸款，均定期予以監控。

(ii) 零售信貸風險

本集團的零售信貸政策和審批程序是因應各類零售貸款中均有大量類似的小額交易而制定的。在設計內部評級系統和制訂信貸政策時，本集團的主要考慮因素包括人口結構因素和有關貸款組合過往的損失。本集團監控本身和行業狀況以釐定和定期修訂產品條款和目標客戶組合。

(iii) 財資交易的信貸風險

本集團採用企業及銀行信貸風險的管理方法，管理本集團財資交易的信貸風險，包括引用內部評級系統處理交易對手及設定個別交易對手的風險限額。

(iv) 與信貸有關的承諾

與信貸有關的承諾和或有事項的風險，本質上與提供貸款予客戶時的信貸風險相同。因此，有關交易必須符合客戶申請貸款時所要達到的信貸申請、組合保存和抵押要求。

(v) Master netting arrangements

To mitigate credit risks, the Group enters into master netting arrangements with same counterparties. Netting agreements provide that, if an event of default occurs, all outstanding transactions with the counterparty will be terminated and all amounts outstanding will be settled on a net basis. Except for the event of default, all outstanding transactions with the counterparty are settled on a gross basis and generally do not result in offsetting the assets and liabilities in the statement of financial position.

The following tables present details of financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements.

(v) 淨額結算總安排

本集團與其相同對手簽訂淨額結算總安排以減低信貸風險。若發生違約事件，根據淨額結算協議，所有與該對手之交易會終止及所有結餘金額以淨額結算。除發生違約事件外，所有與對手之交易會以總額結算及在財務狀況表中的資產和負債通常不會互相抵銷。

下表列示受抵銷、具法律效力之淨額結算總安排及相近協議約束的金融工具詳情。

(vi) Concentrations of credit risk

Concentration of credit risk exists when changes in geographic, economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is material in relation to the Group's total exposures. The Group's credit portfolio is diversified along geographic, industry and product sectors. For analysis of loans and advances to customers by industry sectors and geographical areas, please refer to Notes 29(b) and 29(c) respectively.

The Group monitors its credit concentration risk by adopting appropriate risk control measures, such as setting limits on exposures to different industries and loan portfolios.

(vi) 信貸集中的風險

信貸集中的風險源於交易對手團體受到地區、經濟或行業因素的影響，而該等團體的整體信貸風險承擔對本集團的總體風險承擔至關重要。本集團的信貸組合分散覆蓋不同地區、行業和產品。有關按行業分類及區域分類的客戶貸款及墊款，請分別參閱附註29(b)及29(c)。

本集團一直採用適當的風險控制措施，例如就不同行業和貸款組合釐定限額，以監控信貸集中的風險。

(a) Credit risk management (continued)

(ix) Details of key areas in measurement of ECLs

The Group adopts a forward-looking "expected credit loss" model for measuring and recognizing impairment loss to meet the requirement of HKFRS 9.

The impairment requirements of HKFRS 9 are complex and require management judgements, estimates and assumptions, particularly in the following areas, which are discussed in detail below:

- Assessing whether the credit risk of an asset has increased significantly since initial recognition; and
- Incorporating forward-looking information into the measurement of ECLs.

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of default (PD);
- Loss given default (LGD); and
- Exposure at default (EAD).

The Group has established a framework to determine whether the credit risk on a particular financial asset has increased significantly since initial recognition (see Note 2(h)(vii)). The framework aligns with the Group's internal credit risk management process.

Credit risk grades

For majority of the Group's portfolios, the Group assigns each exposure to a credit risk grade that is determined according to the predicted level of the risk of default. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

(ix) 「預期信貸損失」估算中主要之處的詳述
本集團採納一套具前瞻性的「預期信貸損失」模型以估算和確認《香港財務報告準則》第9號要求的減值。

《香港財務報告準則》第9號的減值規定具複雜性並需要管理層作出判斷，估算及假設，特別是在以下將會詳述之處：

- 評估金融資產的信貸風險會否較初始承擔時明顯增加；及
- 整合前瞻性資料以作估算預期信貸損失。

「預期信貸損失」估算的關鍵輸入是以下變量：

- 違責或然率(PD)；
- 違責損失率(LGD)；及
- 違責風險承擔(EAD)。

本集團已建立機制以確定某一金融資產的信貸風險是否較初始承擔時明顯增加(詳見附註2(h)(vii))。此機制與本集團的內部信貸風險管理程序吻合。

信用風險等級

對於本集團大多數信貸組合，本集團為每一個信貸風險承擔根據違約風險的預測而配定一個信貸風險評級。信用風險等級使用表明違約風險的定性和定量因素來定義。這些因素取決於風險承擔的性質和借款人的類型。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The table below provides the 12-month Probability of Default (“PD”) range for each credit risk grade of retail and non-retail portfolios. The table also provides an indicative mapping of how the Group’s internal credit risk grades relate to PD and, for the non-retail portfolio, to external credit ratings of Standard & Poor’s.

下表提供了零售和非零售投資組合的每個信用風險等級的12個月違責或然率範圍。該表還提供了本集團非零售信貸組合的內部信用風險等級與標準普爾的外部信用評級的指示性參考。

Credit risk grade 信用風險等級	Remarks on default risk 違約風險的備註	12-month PD range 12個月PD範圍	External Rating Benchmark 外部評級基準
1-3	Minimal to Low risk 極小至低的風險	0.0000% to 0.0857%	AAA to 至 A-
4-8	Moderate risk 適度風險	0.0857% to 至 0.4290%	BBB+ to 至 BBB-
9-11	Substantial risk 略高風險	0.4290% to 至 1.6500%	BB+ to 至 BB-
12-15	High risk 高風險	1.6500% to 至 8.3531%	B+ to 至 B-
16-17	Very High risk 很高風險	8.3531% to 至 100%	CCC+ to 至 C
18-20	Default 違約	100%	D

For the remaining portfolios without credit risk grade assignment, references of peer bank PD estimates of similar portfolios and the long-run average default rate of the portfolios are used.

對於餘下沒有信用風險等級分配的信貸組合，我們使用類似信貸組合的同行銀行違責或然率估計的參考或信貸組合的長期平均違責或然率。

Generating the term structure of PD

Credit risk grades are a primary input into the determination of the term structure of PD for exposures. The Group also collects historical performance and default information about portfolios of credit risk exposures analysed by jurisdiction or region and by type of product and borrower as well as by credit risk grading. For some portfolios with no internal data available, information from external data sources is used. In particular,

違責或然率的期限結構

信用風險等級是確定違責或然率的期限結構的主要輸入。本集團亦會按司法管轄區或地區收集有關分析的信貸風險承擔，以及產品及借款人類別以及信貸風險評級的歷史表現及違約信息。對於一些沒有內部數據的投資組合，自外部數據源的信息會被使用。特別是，

Portfolio 組合	External data sources 外部數據源
Debt exposures 債務風險承擔	Moody's: Annual default study corporate default and recovery rates
Bank exposures 銀行風險承擔	
Sovereign exposures 主體風險承擔	Moody's: Sovereign default and recovery rates

The Group deploys statistical models to analyse the data collected and generate estimates of PD of exposures expected to change as a result of the passage of time. The estimation of PD term structure makes use of the annual credit risk grade transition for the portfolios with credit risk grade assignment. For the portfolios without credit risk grade assignment and no credit risk grade transition information available, the PD term structure estimation is referenced to forecast of economic index relevant to the portfolio.

本集團採用統計模型分析所收集的數據，並產生預計會因時間推移而發生變化的違責或然率的估計值。具有信用風險等級分配的組合，我們利用信用風險等級的年度轉換以估計對的違責或然率期限結構。對於沒有信用風險等級分配的組合或沒有可用的信用風險等級轉換信息。違責或然率期限結構估計參考了與組合相關的經濟指數預測。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(a) Credit risk management (continued)

(ix) Details of key areas in measurement of ECLs (continued)

LGD is the magnitude of the likely loss if there is a default. For the retail and corporate portfolio with sufficient historical loss and recovery data, the collateral recovery rates and the LGD estimates can be derived. For portfolios with insufficient historical loss and recovery data, either reference of peer bank LGD estimates of the similar portfolios or external data source are used for deriving the LGD estimates.

For portfolio with individual assessment of credit risk mitigation measures, collateral values are projected for different economic scenarios so as to reflect the LGD estimates under different economic scenarios. For other portfolios different scenario portfolio LGD are derived by benchmarking to a corresponding LGDs within a long period of historical LGDs.

EAD represents the expected exposure in the event of a default. The EAD of a financial asset is its gross carrying amount at the time of default. For lending commitments or undrawn limit of retail revolving products, the EAD is the potential future amounts that may be drawn under the contract. For financial guarantees, the EAD represents the amount of the guaranteed exposure when the financial guarantee becomes payable. The EAD estimates are adopted the parameters suggested by BASEL or statistical model based on historical data.

Significant increase in credit risk

Exposures are subject to ongoing monitoring, which may result in an exposure being moved to a different credit risk grade when the risk of asset changes. The Group primarily identifies whether a significant increase in credit risk under HKFRS 9 has occurred for an exposure by comparing:

- the credit risk grade at the reporting date; with
- the credit risk grade at the initial recognition of the exposure.

The Group deems the credit risk of a particular exposure to have increased significantly since initial recognition if the current credit risk grade deteriorates by a pre-determined number of notches. The criteria for determining the number of notches may vary by portfolio and include a backstop based on delinquency.

(a) 信貸風險管理(續)

(ix) 「預期信貸損失」估算中主要之處的詳述(續)

如果存在違約，違責損失率是可能損失的幅度。對於具有足夠歷史損失和恢復數據的零售和公司投資組合，可以推導出抵押品回收率和違責損失率估計值。對於歷史損失和恢復數據不足的組合，可以使用同行銀行類似組合的違責損失率估計值或外部數據源來推導違責損失率估計值。

對於單獨評估信用風險緩解措施的組合，預測不同經濟情景的抵押品價值，以反映不同經濟情景下的違約損失率估計。對於其他組合，不同情景組合違責損失率通過在長期歷史期間對相應的違責損失率進行基準測試而得出。

違責風險承擔表示發生違約時的預期風險。金融資產的違責風險承擔是其違約時的總賬面金額。對於貸款承諾或零售周轉產品的未提取限額，違責風險承擔是可能根據合同提取的未來潛在金額。對於財務擔保，違責風險承擔表示財務擔保到期時的擔保風險金額。違責風險承擔估計採用BASEL建議的參數或基於歷史數據的統計模型。

明顯增加的信貸風險

信貸風險承擔會持續受監控並在其風險程度有所改變時被調配至不同的信貸風險評級。在《香港財務報告準則》第9號下，集團識別一個資產的信貸風險是否明顯增加主要透過比較該資產：

- 於結算日的信貸風險評級；和
- 於初始承擔時的信貸風險評級

如某一資產的現行信貸風險評級已較本集團初始承擔時的評級轉差了超過一個指定數量的級別，本集團視該資產的信貸風險已有明顯增加。不同的資產組合會以不同的級別數量作為衡量標準，並以逾期情況作為預設的基本標準。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

As a backstop, and as required by HKFRS 9, the Group presumptively considers that a significantly increase in credit risk occurs no later than when an asset is more than 30 days past due.

The Group monitors the effectiveness of the criteria used to identify significant increases in credit risk by regular review to confirm that:

- the criteria are capable of identifying significant increase in credit risk before an exposure is in default;
- exposures are not generally transferred directly from 12-month ECL measurement to credit-impaired; and
- there is no unwarranted volatility in loss allowance from transfers between 12-month ECL and lifetime ECL measurements.

Incorporating forward-looking information into the measurement of ECLs

The Group has identified key drivers of systematic credit risk for each portfolio of financial assets based on analysis of historical data in which relationship between macro-economic indicators and the systematic credit risk is exhibited.

The Group formulates economic forward looking scenarios for the view of the future direction of major economic indicators such as GDP, unemployment rate, property price index, interest rate and other economic indicators specific to particular portfolio.

For each portfolio, the key drivers under forward looking scenarios are applied for estimating the systematic credit risk component of an obligor's Probability of Default ("PD") used in calculating ECLs. In addition to PD, relevant macro-economic indicators are used for projection of the collateral value for recovery rate estimates used in ECL calculation.

The Group adopts the use of three economic scenarios. In each region/country where the Group operates, the Group formulates probability for each scenario and forecast the major macro-economic indicators to reflect the Group's forward-looking view on the future business outcomes in that particular region/country under each scenario.

The forecasts of baseline scenario are based on advice from the in-house economic experts and considerations of a variety of actual and forecast information, such as economic data and forecasts published by governmental bodies, monetary authorities in the regions/countries where the Group operates. The Group also takes reference from forecasts by international agencies and private sector analysts as far as possible to formulate a more objective forecast, while taken into account the current domestic and international economic developments, and changes in local economic policies. Autoregressive econometric model is applied as a tool to forecast the equity and property prices movements in the regions/countries concerned.

在《香港財務報告準則》第9號下，作為一個基本標準，本集團預設某一已逾期超過30日的資產為信貸風險已經明顯增加。

本集團監控識別信貸風險增加的衡量標準的有效性，透過定期檢討以確保：

- 衡量標準能在風險承擔達約前識別信貸風險增加；
- 風險承擔一般不會從12個月內之預期信貸損失直接轉為不良信貸；及
- 不會導致減值撥備因為風險承擔在計算12個月內之預期信貸損失和合約期內之預期信貸損失中的轉變時出現不必要的波動。

整合前瞻性資料以作估算預期信貸損失
本集團根據歷史數據對宏觀經濟指標與系統信用風險之間關係進行分析，確定了各金融資產組合的系統信用風險的關鍵驅動因素。

本集團制定經濟前瞻情景，以了解主要經濟指標的未來方向，例如國內生產總值，失業率，房地產價格指數，利率及特定投資組合的其他經濟指標。

對於每個投資組合，前瞻性情景下的關鍵驅動因素將用於估算債務人的違約概率的系統信用風險部分以用於計算預期信貸損失。除違約概率外，相關的宏觀經濟指標將用於預測抵押品價值以估算回收率並使用作計算預期信貸損失。

本集團會採納使用三個經濟情景。在本集團經營的每個地區／國家，本集團將為每個情景制定情景的可能性並預測主要的宏觀經濟指標，以反映集團在每種情景下，該地區／國家未來業務成果的前瞻性觀點。

基準情景的預測是根據本集團經濟專家的建議和對各種外部實際和預測信息的考慮，例如本集團經營所在地區／國家的政府機構和金融管理局公佈的經濟數據和預測。同時，本集團盡可能參考國際機構及私營機構分析師的預測，以及考慮現時本地及海外經濟發展情況、當地經濟政策的轉變。至於相關地區或國家的股票及樓價指數，則使用自迴歸經濟模型作出估算。

The baseline scenario represents the most-likely outcome that the Group expects. The corresponding probability is reflecting the confidence of the future uncertainties are being captured in the baseline scenario forecast.

The other scenarios are an optimistic scenario and a pessimistic scenario, to capture the less likely, yet possible, upside and downside divergence from the baseline forecast. These scenarios and their probabilities represent the Group's view that in case the future outcome is outside the expectation as in the baseline scenario, how likely it would be optimistic (i.e. unexpectedly good) or pessimistic (i.e. unexpectedly bad) and how unexpectedly good or unexpectedly bad outcomes will be, based on current economic outlook, potential domestic and international economic and political risks affecting the regions/countries the Group has business presence, and the strength of a region/country's fundamentals to weather through crises. Forecasts for these two scenarios are mainly derived based on a modification of the Bank of England's fan chart model, where we assume the divergences from the baseline scenario are derived from historical volatility of the data series. The spread for the pessimistic scenario is greater than that of the optimistic scenario to reflect the Group's prudent view against downside risks.

The baseline, optimistic and pessimistic scenarios are updated quarterly to timely reflect a change in the current economic sentiment locally and internationally.

Baseline Scenario – Hong Kong

Hong Kong's economy has been going through a tough time as it is facing a double whammy from the US-China trade war and protests at home, in addition to mainland China's economic slowdown. This has put pressure on the tourist- and consumption-related sectors, which shall be the major drag of the economy in 2020.

Meanwhile, the US and China has reached a preliminary trade deal. The trade tension between the US and China shall ease in the first half of this year, yet it remains a key uncertainty for Hong Kong's exports sector and the overall economy.

Given the deteriorating economic fundamentals and rising unemployment rate, property prices is expected to be on a downward trajectory in 2020. However, our baseline assumption is that the current social unrest will recede in the latter half of 2020. The improving sentiments, together with the chronic shortage of land supply, will help the property market to recover.

As such, we estimate that real GDP will grow at -0.5% to 0% in 2020, and subsequently recover from 2021 onwards. Meanwhile, inflation is expected to stay moderate at 2.2%, while the unemployment rate is expected to rise to 3.4% in 2020, and edge lower in subsequent years.

(ix) 「預期信貸損失」估算中主要之處的詳述(續)

基準情景是代表本集團預期中的最具可能性的結果。其相對應的機會率反映了集團在預測基準情景中對未來不確定性的掌握置信度。

其他情景是一個樂觀情景和一個悲觀情景。在這些情景中，我們對可能性較低、卻可能發生的上行和下行狀況作出預測。這些情景及其機會率代表了集團的觀點，即當未來結果超出基準情景預期時，經濟將傾向樂觀（即出乎意料的好）或悲觀（即出乎意料的差）的可能性有多大，以及出乎意料的好或意外的壞的結果將會是怎樣，基於當前的經濟前景、潛在的國內外經濟及政治風險，及其對本集團有業務之地區／國家的影響，並且這些地區／國家的經濟面、應付危機的能力。這兩種情景的預測主要是以英倫銀行扇形圖模型為基礎再修改而來。我們假設兩種情景與基準情景的差距來自數據列的歷史波動。其中，悲觀情景的差距大於樂觀情景，反映集團對下行風險持謹慎態度。

基準、樂觀及悲觀情景會每季度更新，以及時反映當地及國際經濟情緒的變化。

基準情景－香港

香港經濟正面對艱難時期。除了內地的經濟放緩外，香港亦受到中美貿易戰及本地示威活動的雙重打擊。這使旅遊和消費相關的行業受壓，為2020年經濟的主要阻力。

另一方面，中美已經達成初步貿易協議。預期今年上半年，中美貿易關係將緩和。然而，貿易緊張局勢仍然是香港出口業，以致整體經濟的主要不明朗因素。

基於經濟基本面惡化和失業率上升，預計樓價將持續受壓。我們的基準預測為近期的社會事件將在2020年下半年開始緩和。市場情緒恢復，加上土地供應長期短缺，房地產市場將重上升軌。

總結來說，我們預測2020年經濟增長則為-0.5%至0%，經濟在2021年起開始復甦。通脹率將維持在2.2%溫和水平，失業率則在2020年上升至3.4%，及後回落。

Baseline Scenario – Mainland China

Entering 2020, the export growth is expected to remain weak this year, as most of the US tariff measures targeted at China remain active despite the phase one trade agreement. Consumer sentiment remains weak under a deteriorated employment expectation amid the trade war. On the other hand, the high debt-to-GDP ratio remains a concern. These factors shall continue to affect the economy. To support the economy, the government is expected to boost infrastructure investment, adopt fiscal stimulus, and assist private companies to conduct debt restructuring. Overall, we expect China's economic growth to soften gradually during 2020 and 2022.

For the property market, the phase on US-China trade agreement has significantly lowered the risks of the negotiations falling apart, and the concerns of hard landing of the Chinese economy faded. In addition, the central government aims at stabilizing the housing price, in turn the economic growth, which implies it will avoid a drop in housing price in the short- to medium-term. The housing price is therefore expected to rise with a decelerating trend.

For the novel coronavirus impact, please refer to Note 53.

Forecast of Key Macroeconomic Indicators (3 years average (2020 – 2022))

基準情景 – 內地

踏入2020年，儘管中美兩國達成首階段貿易協議共識，但大部份美國對中國徵收的關稅仍然實施，對中國出口仍然構成壓力。同時，就業預期於貿易戰下轉差，令消費者信心維持疲弱。另一方面，貸款餘額佔國內生產總值比重仍然高企，仍需要關注。這些因素會持續影響經濟。為支持經濟，預期政府會增加基礎設施投資，並採取財政刺激措施，政府亦會致力協助經營困難的企業重組債務。整體來說，我們預計中國的經濟增長將在2020年至2022年之間逐步放緩。

房地產市場方面，第一階段的中美貿易協議降低了談判破裂的風險，同時減低中國經濟硬著陸的擔憂。此外，中央政府致力維持房價穩定，以穩定經濟增長，這表示房價於中短期內不會下跌。因此，我們預期房價將持續上升，然而增幅將會減慢。

(x) Impairment allowances reconciliation

The following tables show reconciliations from the opening to the closing balance of the impairment allowance by class of financial instrument. The reconciliation is prepared by comparing the position of impairment allowance between 1st January and 31st December at transaction level. Transfers between different stages of ECL are deemed to occur at the beginning of the year and therefore amounts transferred net to zero. The re-measurement of ECL resulting from a change in ECL stage is reported under the ECL stage in which they are transferred to.

Explanations of 12-month ECL, lifetime ECL and credit-impaired are included in Note 2.

(xi) Collateral and other credit enhancements

The Group has established guidelines on the acceptability of various classes of collateral and determined the corresponding valuation parameters. The guidelines and collateral valuation parameters are subject to regular reviews to ensure their effectiveness over credit risk management.

The extent of collateral coverage over the Group's loans and advances to customer depends on the type of customers and the product offered. Types of collateral include residential properties (in the form of mortgages over property), other properties, other registered securities over assets, cash deposits, standby letters of credit and guarantees. Collateral generally is not held over balances and placements with banks and other financial institutions, and loans and advances to banks, except when securities are held as part of reverse repurchase and securities borrowing activity. The Group takes possession of collateral through court proceedings or voluntary delivery of possession by the borrowers during the course of the recovery of impaired loans and advances. These repossessed assets are reported in the statement of financial position within "other assets" (Note 2(t)). If the recovery from the repossessed assets exceeds the corresponding exposure, the surplus fund is made available either to repay the borrower's other secured loans with lower priority or is returned to the borrower.

(xi) 抵押品及其他信用提升

本集團已制訂可接受不同類別抵押品的指引，並釐定相關估值參數。本集團會定期檢討指引及抵押品估值參數，以確保信貸風險管理的成效。

本集團客戶貸款及墊款的抵押品範圍視乎客戶類別及所提供產品而定。抵押品類別包括住宅物業(以物業按揭形式)、其他物業、其他登記抵押資產、現金存款、備用信用證及擔保。除持有用作反向回購及證券借貸活動的抵押品外，在銀行及其他金融機構的結存及存款，以及銀行貸款及墊款一般不需要抵押品。在收回減值貸款及墊款時，本集團會通過法庭程序或借款人自願交出擁有權收回抵押品。該等收回資產於財務狀況表中以「其他資產」列賬(附註2(t))。倘從收回資產所得之追收額超出相關風險承擔時，則會使用盈餘資金償還借款人優先次序較低的已抵押貸款或退回予借款人。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(a) Credit risk management (continued)

(xi) Collateral and other credit enhancements (continued)

Collateral held as security for financial assets other than loans and advances is determined by the nature of the instrument. Debt securities, treasury and other eligible bills are generally unsecured with the exception of asset-based securities and similar instruments, which are secured by pools of financial assets. However the credit risk may be implicit in the terms or reflected in the fair value of the corresponding instruments.

The Group's preferred agreement for documenting derivatives activity is the ISDA Master Agreement which covers the contractual framework within which dealing activity across a full range of over-the-counter products is conducted and contractually binds both parties to apply close-out netting across all outstanding transactions covered by an agreement, if either party defaults or following other pre-agreed termination events. It is also common for the Group to execute a Credit Support Annex in conjunction with the ISDA Master Agreement with the counterparty under which collateral is passed between the parties to mitigate the market contingent counterparty risk inherent in the outstanding position.

For contingent liabilities and commitments that are unconditionally cancellable (Note 47), the Group will assess the necessity to withdraw the credit line when there is a concern over the credit quality of the customers. Accordingly, the exposure to significant credit risk is considered as minimal. For commitments that are not unconditionally cancellable, the Group assesses the necessity of collateral depending on the type of customer and the product offered.

(b) Market risk management

Market risk is the risk arising from adverse movements in market factors such as interest rates, foreign exchange, equity prices, debt security prices and commodity prices, which result in profits or losses for the Group. The aim in managing market risk is to reduce the Group's exposure to the volatility inherent in market factors.

The Asset and Liability Management Committee deals with all market risk-related issues of the Group. It is also responsible for conducting a regular review of interest rate trends and deciding the corresponding future business strategy. The Asset & Liability Management Department under the Risk Management Division of the Group is responsible for monitoring activities relating to market risk.

The use of derivatives for trading and the sale of derivatives to customers as risk management products are integral parts of the Group's business activities. These instruments are also used to manage the Group's own exposures to market risk, as part of its asset and liability management process. The principal derivatives instruments used by the Group are interest rate, foreign exchange, and equity-related contracts, in the form of both over-the-counter derivatives and exchange-traded derivatives. Most of the Group's derivatives positions have been entered into to meet customer demand and to manage the risk of these and other trading positions.

(a) 信貸風險管理(續)

(xi) 抵押品及其他信用提升(續)

持有用作非貸款及墊款金融資產的抵押品，是按照工具之性質決定。除以一籃子金融資產作抵押的資產融資證券及相同工具外，債務證券、庫券及其他認可票據一般俱屬無抵押的。然而，信貸風險可能隱含於相關工具的條款內或於相關工具的公平價值中反映。

ISDA的主合約為本集團處理衍生交易文件的優先合約，當中涵蓋合約框架，而在合約框架之下，本集團可進行一系列的場外產品交易活動，如其中一方違約或發生其他預先協定的終止事件，則按合約約束參與者以淨額結算合約涵蓋的所有未履行交易。本集團亦會在簽訂ISDA的主合約的同時，與交易對手簽訂信貸附約，據此，抵押品可於訂約方之間轉交，以降低出現在未履約情況下的內在市場或然交易對手風險。

對於或然負債及可無條件取消的承擔(附註47)，如本集團對客戶的信貸質素有疑慮，則會評估是否需要撤回信貸額。因此，本集團面臨重大信貸風險機會視為微乎其微。對於不可無條件取消的承擔，本集團會視乎客戶類別及所提供產品評估是否需要進行抵押。

(b) 市場風險管理

市場風險是指由市場因素，例如利率、外匯、股票價格、債權證券及商品價格的不利變動而導致本集團溢利或虧損的風險。市場風險管理旨在減少市場因素的波動為本集團帶來的風險。

資產負債管理委員會負責處理所有與本集團市場風險有關的事項，亦負責定期檢討利率走勢及釐定相應的未來業務策略。本集團風險管理處轄下的資產負債管理部，負責監察與市場風險有關的活動。

透過衍生工具進行自營交易及向客戶出售衍生工具以用作風險管理產品，為本集團其中一項重要業務。此等工具亦用以管理本集團所承受的市場風險，作為本集團資產負債管理的一部分。本集團所採用的衍生工具主要為利率、外匯和股份相關合約，即為場外或場內交易的衍生工具。本集團大部分的衍生工具持倉均為切合客戶需求，以及為此等和其他交易項目而進行對沖。

In this connection, the key types of market risk that must be managed are:

(i) Currency risk

The Group's foreign currency positions arise from foreign exchange dealing (including derivatives), commercial banking operations, and structural foreign currency exposures. The Group's non-structural foreign currency exposures are denominated in major currencies, particularly USD and RMB. All foreign currency positions are managed within limits approved by the Board or the Asset and Liability Management Committee.

Structural foreign currency positions, which arise mainly from foreign currency investments in the Group's branches, subsidiaries, and associated companies, are excluded from value-at-risk measurements, as related gains or losses are taken to reserves. Such foreign currency positions are held with the intention of hedging any adverse effect, partially or totally, of exchange rate movements on the capital adequacy ratio. The Group seeks to match its foreign currency denominated assets closely with corresponding liabilities in the same currencies.

The Group had the following net structural positions which were not less than 10% of the total net structural foreign currency position at the end of the reporting period:

	2019			2018		
	RMB 人民幣 HK\$ Mn 港幣百萬元	MYR 馬幣 HK\$ Mn 港幣百萬元	USD 美元 HK\$ Mn 港幣百萬元	RMB 人民幣 HK\$ Mn 港幣百萬元	MYR 馬幣 HK\$ Mn 港幣百萬元	USD 美元 HK\$ Mn 港幣百萬元
Net structural position	15,550	2,281	(12,365)	13,829	2,226	(6,982)

(ii) Interest rate risk in trading book

The Group's trading interest rate positions arise from treasury and dynamic hedging of commercial banking activities. Interest rate risk is managed daily by the Treasury Markets Division of the Group within the limits approved by the Board or the Asset and Liability Management Committee. The instruments used to manage interest rate risk include interest rate swaps and other derivatives. For the interest rate risk management of the Group's banking book positions, please refer to Note 45(e).

(iii) Equity risk

The Group's equity positions arise from equity investment and dynamic hedging of customer-driven business. Equity risk is managed daily by the Investment Department within the limits approved by the Board, Investment Committee, or the Asset and Liability Management Committee.

在此方面，本集團必須管理的主要市場風險包括：

(i) 貨幣風險

本集團的外幣持倉源自外匯買賣(包括衍生工具)、商業銀行業務和結構性外匯風險。本集團的非結構性外匯風險以主要貨幣計值，當中以美元及人民幣為主。所有外幣持倉均維持在董事會或資產負債管理委員會所訂定的限額內。

結構性外匯持倉主要源自於本集團分行、附屬公司和聯營公司的外匯投資，其有關的溢利或虧損因為已撥入儲備，所以未計算在風險值內。此等結構性外幣持倉的主要目的，是對沖因匯率變動而對本集團資本充足比率產生的部分或全部不利影響。本集團盡力將以外幣計值的資產與以同一貨幣計值的負債，保持在相若水平。

於報告期結束日，本集團的以下結構性持倉淨額不低於結構性外幣淨持倉總額10%：

(ii) 交易賬冊的利率風險

本集團的交易組合中的利率持倉來自財資及商業銀行業務的動態對沖。利率風險由本集團資金市場處按董事會或資產負債管理委員會批准的限額範圍進行日常管理。管理利率風險的工具包括利率掉期和其他衍生工具。就管理本集團銀行賬冊持倉的利率風險而言，請參閱附註45(e)。

(iii) 股份風險

本集團的股份持倉來自股份投資及客戶業務的動態對沖。股份風險由投資部按董事會、投資委員會或資產負債管理委員會批准的限額範圍進行日常管理。

(b) Market risk management (continued)

(iii) Equity risk (continued)

Market risk control limits have been set at varying levels according to the practical requirements of different units. The Board approves the core control limits and has delegated the authority to set detailed control limits to the Asset and Liability Management Committee. Risk, return, and market conditions are considered when setting limits. Active limit monitoring is carried out.

In this connection, the Asset and Liability Management Committee monitors the related market risk arising from the risk-taking activities of the Group to ensure that market risk exposure are within the Group's risk tolerance levels. Risk exposures are monitored frequently to ensure that they are within established control limits.

The Group quantifies the market risk of the underlying trading portfolio by means of VaR. VaR is a statistical estimate that measures the potential losses in market value of a portfolio as a result of unfavourable movements in market rates and prices, assuming that positions are held unchanged over a certain horizon time period.

The Group estimates VaR for the Group's trading portfolio by the historical simulation approach, where the VaR is calculated by revaluing the portfolio for each of the market movement scenarios obtained from the historical observation period. This methodology uses movements in market rates and prices over a one-day holding period with a 99% confidence level under a two-year observation period.

The market value of listed shares, the fair value of private equity funds and unlisted equities (collectively the "Unlisted Securities"), are subject to limits and these are managed by the Investment Department of the Group. The Unlisted Securities and listed non-trading equities are not included in the VaR for the equity trading position, and are managed through delegated limits. The limits are subject to regular review by the Asset and Liability Management Committee.

(b) 市場風險管理(續)

(iii) 股份風險(續)

市場風險控制限額設有不同層次以配合各類業務的實際需要。董事會審批核心控制限額並授權資產負債管理委員會審批具體的控制限額。釐定限額時會考慮風險、回報及市場情況等因素，並且採用積極限額監控程序。

在此方面，資產負債管理委員會負責監察本集團進行風險活動時所產生的相關市場風險，確保其市場風險處於本集團的風險承受範圍內。本集團會經常監控風險承擔情況，以確保所承擔風險屬於既定的控制限額內。

本集團運用風險值來量化相關交易組合的市場風險。風險值是統計學上的估計，用來量度假設於某一時段內持倉維持不變的情況下，因市場息率及價格的不利波動而引致組合的市值潛在虧損。

本集團通過歷史模擬法評估本集團交易組合的風險值，其按從歷史觀察期中截獲的每個市場波動情景對有關組合進行重新估值以計算風險值。該方法是依據1日持倉期、99%置信水平以及過往兩年觀察期來推算市場利率與價格的波動。

上市股份的市值、私人股份基金及非上市股份(統稱「非上市證券」)的公平價值均由本集團投資部按限額管理。非上市證券及非交易上市股份是根據特定限額管理，且不包括在交易股份持倉的風險值計算內。資產負債管理委員會須定期檢討該限額。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(c) Operational risk management

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events.

The objectives of operational risk management are to identify, assess, monitor, and report operational risk of the Group systematically and effectively; to minimise any operational loss and other impact on the Group; and to comply with the relevant regulatory requirements.

The Operational Risk Management Committee is responsible for overseeing operational risk management of the Group while the Operational Risk Management Department under the Risk Management Division of the Group is responsible for monitoring activities relating to operational risk.

The operational risk management tools adopted include operational risk incidents reporting, risk assessments, key risk indicators, operation manuals, insurance policies, etc.

(d) Liquidity risk management

Liquidity risk is the risk that the Group may not be able to meet its obligations as they come due because of an inability to obtain adequate funding (funding liquidity risk); or that the Group cannot easily liquidate assets quickly without significantly lowering market prices because of inadequate market depth or market disruptions (market liquidity risk).

The purpose of liquidity risk management is to ensure sufficient cash flows to meet all financial commitments and to capitalise on opportunities for business expansion. This includes the Group's ability to meet deposit withdrawals either on demand or at contractual maturity, to repay borrowings as they mature, to make new loans and investments as opportunities arise and, last but not least, to comply with all the statutory requirements for liquidity risk management, including Liquidity Coverage Ratio ("LCR") and Net Stable Funding Ratio ("NSFR").

The Group reviews the risk profile through regular assessments of both qualitative and quantitative risk factors to determine its tolerance of prevailing risk levels against applicable risk appetite statement for liquidity risk approved annually by the Board. The Asset and Liability Management Committee is delegated by the Board to oversee the Group's liquidity risk management. The Asset and Liability Management Committee comprises balanced representation of senior staff from various business units, Treasury, Risk Management and Finance, who jointly formulate funding strategies. The Asset and Liability Management Committee sets the strategy, policy, and limits for managing liquidity risk and the means for ensuring that such strategy and policy are implemented. Regular meetings are held to review the compliance status of the monitoring matrix established and the need for any change in strategy and policy. Liquidity is managed daily by the Capital Markets & Liquidity Management Department under the Treasury Markets Division of the Group within the set limits. The Asset & Liability Management Department under the Risk Management Division of the Group is responsible for monitoring the activities relating to liquidity risk. The Internal Audit Division performs periodic reviews to ensure that the liquidity risk management functions are carried out effectively.

(c) 營運風險管理

營運風險是指由於內部流程、人員和系統不足或缺陷，或因外部事件而導致損失的風險。

營運風險管理的目的在於有系統及有效地識別、評估、監控及匯報本集團營運風險；減少營運虧損及對本集團的其他影響；以及遵守相關監管規定的要求。

營運風險管理委員會負責監督本集團的營運風險管理，而本集團風險管理處轄下的營運風險管理部則負責監察與營運風險有關的活動。

本集團所採用的營運風險管理工具包括營運風險事件匯報、風險控制評估、主要風險指標、營運手冊、保險政策等。

(d) 流動性風險管理

流動性風險是指本集團因未能獲得充足資金投入而可能無法履行到期責任的風險(資金流動性風險)；或因市場深度不足或市場失序，本集團非得大幅降低市場價格的情況下無法輕易迅速變現資產的風險(市場流動性風險)。

流動性風險管理是為了確保本集團維持充足的現金流量以履行所有財務承擔，並掌握業務擴展的機會。當中包括確保本集團能夠在即時或合約期滿時滿足提款要求，在借款期滿時能夠還款，掌握貸款和投資的機會，以及符合所有有關流動性風險管理的法定規定，包括流動性覆蓋比率及穩定資金淨額比率。

本集團通過定期評估定性及定量的風險因素檢討風險狀況，根據董事會每年批准的適用於流動性風險的風險偏好釐定其現行風險承受範圍。資產負債管理委員會獲董事會授權，負責監察本集團的流動性風險管理。資產負債管理委員會由各業務單位、司庫、風險管理及財務的管理層出任以共同制定資金戰略方案。資產負債管理委員會制訂管理流動性風險的策略、政策及限額，以及確保執行有關策略與政策的措施。委員會定期舉行會議，檢討各既有監控架構的合規情況，以及是否需要改變策略及政策。流動資金狀況由本集團資金市場處轄下的資本市場及流動資金管理部每日按所訂限額範圍進行管理。本集團風險管理處轄下的資產負債管理部負責監察與流動性風險相關的活動。稽核處會定期作出檢討，確保流動性風險管理功能得以有效執行。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The LCR and NSFR statutory requirements are part of the stringent regulatory regime that covers the liquidity risk management of the Group. To ensure compliance with the regulatory requirements, internal targets for LCR and NSFR have been set above regulatory required levels, after considering the Group's liquidity risk appetite. In addition material changes in the LCR and NSFR are reviewed regularly by the Asset and Liability Management Committee together with proposed mitigation actions to cope with adverse changes arising from, but not limited to, composition of the deposit base and remaining tenor to maturity, lending activities with respect to different maturity tenors, and the Group's asset and liability mix strategy. In planning the asset and liability mix strategy, the Group's relevant business units contribute to an assessment of the impact of asset growth and funding structure on the LCR and NSFR for review and decision by the Asset and Liability Management Committee.

As part of Group efforts to manage the LCR and NSFR effectively, emphasis is placed on strengthening the deposit base by retaining loyal customers and maintaining customer relationships. The Group balances funding among retail, small business, and wholesale funding to avoid concentration in any one source. Professional markets are accessed through the issuance of certificates of deposit, medium-term notes, subordinated debt, money market placement, and borrowing for the purposes of providing additional funding, maintaining a presence in local money markets, and optimising asset and liability maturities.

In addition to observing the statutory LCR and NSFR, the Group has established different liquidity metrics – including but not limited to the loan-to-deposit ratio, cumulative maturity mismatch ratio, funding concentration ratio, intra-group exposure threshold, and cross currency funding ratio – to measure and analyse the Group's liquidity risk. The Group maintains sufficient High-quality liquid assets ("HQLAs") as a liquidity cushion that can be accessed in times of stress. The HQLAs for fulfilling the LCR consist of cash, exchange fund bills and notes, high quality government debt securities and other equivalent liquid marketable assets. The majority of HQLAs are denominated in Hong Kong dollars. Contingent funding sources are maintained to provide strategic liquidity to meet unexpected and material cash outflows.

Internally, intra-group funding transactions are carried out at arm's length and treated in a manner in line with third-party transactions, with regular monitoring and appropriate control. As a majority of the Group's liquidity risk arises from the maturity mismatch gap between the Group's asset and liability portfolios, the Group manages liquidity risk by conducting cash flow analysis and projections through the regular use of the Bank's management information system. These are carried out on a regular basis to identify funding needs arising from on and off-balance sheet items in a specific time frame over a set of time horizons.

流動性覆蓋比率及穩定資金淨額比率的法定要求是本集團對流動性風險管理的嚴格監管制度部份之一。為確保遵守監管要求，本集團考慮過其流動性風險偏好後，為流動性覆蓋比率及穩定資金淨額比率設定的內部目標均高於上述監管規定水平。此外，資產負債管理委員會會定期檢閱流動性覆蓋比率及穩定資金淨額比率的重大變動，並提出建議補救措施，以應對來自(但不限於)存款基礎及其餘下到期期限、不同到期期限的貸款活動以及本集團資產及負債組合策略所產生的不利變動。在規劃資產及負債組合策略時，本集團的相關業務單位就資產增長及資金結構對流動性覆蓋比率及穩定資金淨額比率的影響提交評估，以供資產負債管理委員會檢討和作出決策。

為有效地管理流動性覆蓋比率及穩定資金淨額比率，本集團特別著重存留忠實客戶及維持客戶關係，藉以增強存款基礎。本集團在零售、小企業以及批發市場資金之間保持平衡，避免資金集中於任何一種來源。本集團透過發行存款證、中期票據、後償債項、貨幣市場拆借及借貸進入專業市場，獲取額外資金，以此維持本行於本地金融市場的地位及優化資產及負債的期限。

除了緊守法定的流動性覆蓋比率及穩定資金淨額比率外，本集團已設立不同的流動性指標，以衡量及分析流動性風險，包括(但不限於)貸存比率、累積到期錯配比例、資金集中比率、集團內公司之間風險限額以及跨貨幣資金比率。本集團維持充足的優質流動資產，作為能夠在資金受壓時取用的流動資金緩衝。為滿足流動性覆蓋比率所需的優質流動資產包括：現金、外匯基金票據和債券、優質的政府債務票據，以及其他同等的而可供出售的流動資產，其中大部分優質流動資產以港幣計值。本集團維持應急資金來源，能提供策略性的流動資金，以應付未能預計及大量的資金需求。

內部方面，集團內公司間的融資交易乃按一般正常公平交易原則進行，處理方式與第三方交易一致，並會定期進行監察及適當控制。由於本集團大部分流動性風險來自資產與負債組合之間的期限錯配差距，本集團會透過使用本行的管理資訊系統，定期對一系列時間內的資產負債表內、外項目進行現金流量分析及預測，確定特定時間組別的資金需要，從而管理流動性風險。

(d) Liquidity risk management (continued)

The Group also conducts stress-testing regularly to analyse liquidity risk. Both on and off-balance sheet items and their impact on cash flow are considered, together with applicable hypothetical and historical assumptions. The assessment and review of market liquidity risk are included in the various control processes, including investment/trading strategy, market risk monitoring, valuation, and portfolio review. Three stress scenarios – namely an institution-specific crisis, a general market crisis, and a crisis involving a combination of the two – are adopted with minimum survival period defined according to the HKMA's Supervisory Policy Manual LM-2, "Sound Systems and Controls for Liquidity Risk Management".

With reference to the stress-testing results, the Group identifies potential vulnerabilities within the Group, establishes internal limits and formulates a contingency funding policy that sets out the Group's strategy for dealing with any liquidity problem and the procedures for making up cash flow deficits in emergency situations.

The contingency funding policy is designed to be pro-active and pre-emptive, and stipulates the following three stages:

1. The Group utilises early warning indicators, which cover both qualitative and quantitative measures, and monitors both internal and external factors. Should there be any early signs of significant impact on the Group's liquidity position, the Asset and Liability Management Committee is informed. The Asset and Liability Management Committee will consider appropriate remedial actions and will consider employing crisis management if the situation warrants.
2. A Crisis Management Committee, which is chaired by the Co-Chief Executives, is formed to handle the crisis. Strategy and procedures for obtaining contingency funding, as well as roles and responsibilities of the parties concerned, are clearly stated.
3. In the final stage, a post-crisis review is carried out to recommend necessary improvements to avoid incidents of a similar nature in the future.

An annual drill test is conducted and the contingency funding policy is subject to regular review in order to accommodate any changes in the business environment. Any significant changes to the contingency funding policy are approved by the Board.

(d) 流動性風險管理(續)

本集團亦會定期進行壓力測試，以分析流動資金風險。透過適用的虛擬及歷史假設，本集團的壓力測試均已考慮資產負債表內外項目及其對現金流量造成的影響。市場流動資金風險的評估及檢討納入各個控制環節，包括投資／交易策略、市場風險監控、估值及組合檢討。三個壓力情景－即個別銀行危機、整體市場危機，以及結合上述兩種情況的綜合危機－均採用金管局監管政策手冊LM-2「穩健的流動性風險管理系統及管控措施」界定的最短存活期。

本集團會參照壓力測試結果，確認集團內的潛在弱點，訂立內部限額，並制訂應急資金政策及計劃，當中載列了本集團處理流動資金問題的策略及於緊急情況下彌補現金流不足的程序。

應急資金政策旨在提供防患未然的積極措施，並訂明以下3個階段：

1. 本集團運用預早警報指標，當中包括質量性及數量性的措施，及監察內部及外在因素。假如有任何早期跡象顯示本集團流動資金狀況將受重大影響，應通知資產負債管理委員會。資產負債管理委員會將考慮適當的補救措施，並在情況需要時會考慮採用危機管理措施。
2. 本集團已設立危機管理委員會，並由聯席行政總裁擔任該委員會的主席，該委員會專責處理危機，並明確規定取得應急資金的策略及程序，以及有關各方的職務及職責。
3. 於最後階段，本集團會在危機結束後對問題進行檢討，並作出必要改進，避免日後出現同類事件。

為應付商業環境中的任何轉變，本集團每年進行演習測試，並定期檢討應急資金。應急資金政策如有任何重大變動，均須分別取得董事會的批准。

(e) Interest rate risk management

Interest rate risk is the risk resulting from adverse movements in interest rates that affect the earnings and economic value of the Group's banking book positions. The Asset and Liability Management Committee is delegated by the Board to oversee the Group's interest rate risk management, establish the strategy and policy for managing interest rate risk, and determine the means for ensuring that such strategies and policies are implemented. Interest rate risk is managed daily by the Treasury Markets Division of the Group within the limits approved by the Board or the Asset and Liability Management Committee. The Asset & Liability Management Department under the Risk Management Division of the Group is responsible for monitoring the activities relating to interest rate risk. The Internal Audit Division performs periodic reviews to ensure that the interest rate risk management functions are implemented effectively.

Interest rate risk primarily results from the timing differences in the re-pricing of interest rate-sensitive assets, liabilities, and off-balance sheet items in the banking book. In determining the level of interest rate risk, assessments are made for the gap risk, basis risk and options risk. The Group manages the interest rate risk on the banking book primarily by focusing on re-pricing mismatches. Gap analysis provides a static view of the maturity and re-pricing characteristics of the Group's interest rate-sensitive assets, liabilities, and off-balance sheet positions. Re-pricing gap position limits are set to control the Group's interest rate risk.

From 1st July, 2019, in line with the new requirements set by the HKMA, new assumptions, such as optionality and behaviour of certain products, will also be estimated in the exposure measurement.

Sensitivity analysis in relation to the impact of changes in interest rates on earnings, in terms of net interest income ("NII"), and economic value, in terms of economic value of equity ("EVE") is assessed regularly through a number of hypothetical interest rate shock scenarios prescribed by the HKMA. EVE represents an assessment of the present value of expected net cash flows, discounted to reflect market rates. As fluctuations in interest rates will affect earnings, they will also affect its net worth. Sensitivity limits are set to control the Group's interest rate risk exposure under both earnings and economic value perspectives. The results are reported to the Asset and Liability Management Committee on a regular basis.

(e) 利率風險管理

利率風險是指本集團的銀行帳內的利率風險(簡稱「IRRBB」)受到不利的利率走勢對其盈利及經濟價值造成不利的影響所帶來的風險。資產負債管理委員會獲董事會授權，負責監察本集團的利率風險管理，訂立管理利率風險的策略與政策，並制定相應措施，以確保執行有關策略與政策。利率風險由本集團資金市場處按董事會或資產負債管理委員會批核的限額範圍進行日常管理。本集團風險管理處轄下的資產負債管理部，負責監察利率風險相關的活動。稽核處會定期作出檢討，確保利率風險管理功能得以有效執行。

利率風險主要是由銀行賬冊內利率敏感性資產、負債及資產負債表外項目在再定息時的時差所致。釐定利率風險水平時，對差距風險、息率基準風險及期權風險進行評估。本集團管理銀行賬冊上的利率風險主要集中於重訂息率的錯配。差距分析可讓本集團從靜態角度瞭解利率敏感性資產、負債和資產負債表外持倉的到期情況及重訂息率特點。本行設有重訂息率差距限額，以控制本集團的利率風險。

由2019年7月1日起，若干新假設如產品的選擇權和習性將會因應香港金融管理局的新要求於風險承擔計量中估算。

本集團每月進行敏感度分析，以估算利率變動對盈利和經濟價值的影響，包括金管局規定的不同利率衝擊假設情景。本集團設有敏感度限額，以控制本集團的盈利及經濟價值兩方面的利率風險承擔。有關結果會定期向資產負債管理委員會匯報。

The following table provides information on the changes on EVE and also the change on NII over next 12 months under each of the prescribed interest rate shock scenarios in respect of the Group's interest rate exposures arising from banking book positions for the current annual reporting date at 31st December, 2019. Since this is the first time disclosure under new requirement of HKMA, comparative figures with previous year are not available. Sensitivity analysis on interest rate risk for 2018 prepared based on the previous methodology are also presented.

In order to produce quantitative estimation on IRRBB, the Group has assumed shock scenarios to interest rate yield curves which allow changes in economic value and earnings to be computed with consideration of optionality and behavioural assumptions. These scenarios are applied to IRRBB exposures in each currency for which the Group has material positions.

為了對IRRBB進行定量估計，本集團假設利率收益率曲線受到衝擊並考慮了選擇權和習性的設定，從而計算經濟價值和盈利的變化。這些情境適用於本集團持有的IRRBB風險敞口於各種重要貨幣。

The prescribed interest rate shock scenarios are provided by the Hong Kong Monetary Authority in their Supervisory Policy Manual IR-1, Interest Rate Risk in the Banking Book and generally described as follows:

This sensitivity analysis on interest rate risk was based on a static interest rate risk profile of assets and liabilities and was used for risk management purposes. The analysis was based on the following assumptions:

- there was a parallel shift in the yield curve and in interest rates;
- there were no other changes to the portfolio;
- no loan prepayment was assumed as the majority of loans was on a floating rate basis; and

(f) Strategic risk management

Strategic risk is the risk of current or potential impact on the Group's earnings, capital, reputation, or standing arising from changes in the environment the Group operates in, adverse strategic decisions, improper implementation of decisions, or lack of responsiveness to industry, economic, or technological changes.

The Risk Management Division of the Group monitors the activities under the Group's prevailing interest-earning asset mix and funding strategies and regularly reports the status to the Asset and Liability Management Committee, Risk Management Committee, Risk Committee and the Board, where appropriate.

Future capital requirements are determined based on the projections of Capital Adequacy Ratio and conditions under the Internal Capital Adequacy Assessment Process, so as to assess the level and structure of capital resources needed to support the risks that the Group tolerates.

(g) Legal risk management

Legal risk is the risk of loss arising from unenforceable contracts, lawsuits, or adverse judgements that may disrupt or otherwise negatively affect the operations or financial condition of the Group.

The objective of managing legal risk is to identify, assess, monitor and report on legal risk, and to comply with the relevant legal and regulatory requirements.

The Group provides appropriate training courses conducted by qualified internal personnel and/or external lawyers/professionals. It also issues reminders to staff members if necessary. When dealing with legal matters, the Group engages qualified internal personnel and, when necessary and appropriate, external lawyers with appropriate expertise including counsel and senior counsel.

The Operational Risk Management Committee is responsible for overseeing the management of the Group's legal risk.

They lead various working teams and the "Three lines of defence" to address specific areas of concern.

Comprehensive control policies, standards, guidelines, and procedures are maintained to ensure that adequate control measures relating to the security of internet systems and applications, customer authentication, risk assessment for new products and services, and confidentiality and integrity of information are all in place.

(k) New product and business risk management

New product and business risk is the risk of loss due to insufficient pre-assessment of significant potential risks introduced to the Group arising from the launch of new products, the structural change of existing products, and the establishment of new business operations (i.e. through the establishment of a new subsidiary and/or merger and acquisition). The significant potential risks include Credit Risk, Market Risk, Operational Risk, Liquidity Risk, Interest Rate Risk, Legal Risk, Technology Risk, Compliance Risk, Strategic Risk, Reputation Risk and Business Continuity Risk.

The Group establishes a risk governance structure, supported by comprehensive control guidelines and procedures. A structured evaluation process ensures that before initiating a new product or business, the potential significant risks are duly assessed, vetted and documented. The process also facilitates oversight of new products and businesses by Senior Management.

Each new product launch must go through an approval process, which includes business and financial analysis and risk assessment. New products are reviewed and endorsed by the Steering Group for New Product and Business Risk Management (chaired by the Group Chief Risk Officer and comprising the division heads of supporting units), and approved by the Risk Management Committee.

(m) Capital management

The Group's primary objectives when managing capital are to meet the regulatory requirements and safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

Capital managed by the Group to achieve these objectives includes ordinary share capital, retained profits, other reserves, and non-controlling interests after deductions for goodwill and intangible assets. It also includes subordinated liabilities, impairment allowances and regulatory reserve for general banking risks as allowed under Capital Rules.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might otherwise be possible with greater gearing and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Steering Group for Capital Management and Recovery and Resolution Planning is responsible for overseeing issues related to the capital positions and monitoring the capital adequacy against all regulatory and internal reference. The capital position is also reviewed regularly by the Risk Management Committee, Risk Committee and the Board.

The HKMA supervises the Group on both a consolidated basis and a solo-consolidated basis and, as such, sets capital requirements and receives information of capital adequacy on a regular basis for the Group as a whole. Individual overseas branches and banking subsidiaries are directly regulated by respective domestic banking supervisors, who set and monitor their capital adequacy requirements. In certain jurisdictions, non-banking financial subsidiaries are also subject to the supervision and capital requirements of domestic regulatory authorities.

In implementing current capital requirements the HKMA requires the Group to maintain a prescribed ratio of total capital to total risk-weighted assets. The Group calculates requirements for market risk in its trading portfolios based upon the Group's VaR models and uses its internal gradings as the basis for risk weightings for credit risk. Banking operations are categorised as either trading book or banking book, and risk-weighted assets are determined according to specified requirements that seek to reflect the varying levels of risk attached to assets and off-balance sheet exposures.

The Group monitors its capital structure on the basis of the capital adequacy ratios and there have been no material changes in the Group's policy on the management of capital during the year.

The capital adequacy ratios as at 31st December, 2019 and 31st December, 2018 are computed on the consolidated basis of the Bank and certain of its subsidiaries as specified by the HKMA for its regulatory purposes, and are in accordance with the Capital Rules of the Banking Ordinance.

The Group and its individually regulated operations have complied with all externally imposed capital requirements throughout the year ended 31st December, 2019 and 31st December, 2018 and the Group's capital ratios are well above the minimum required by the HKMA.

(m) 資本管理

本集團管理資本的主要目的是要符合監管規定及保障本集團可持續經營，藉以不斷為股東提供回報及為其他利益關涉者帶來利益。方法包括依照風險水平釐定產品及服務價格，及以合理的成本提供融資渠道。

以求達至該目的，本集團管理資本包括股本、留存溢利、其他儲備，及非控股權益(已扣除商譽和無形資產)。管理資本亦包括無償負債、減值準備及資本規則所容許的一般銀行業風險的規管儲備。

本集團積極定期檢討及管理資本架構，以期在爭取更高股東回報與維持良好資本的好處和安全之間取得平衡，並且因應經濟情況的轉變調整資本架構。

資本管理、恢復及處置規劃督導組負責監督與資本狀況相關的事項，並根據監管機構及內部指引以監控資本充足度。風險管理委員會、風險委員會及董事會亦會定期檢討資本狀況。

金管局按綜合基準及單獨綜合基準以監管本集團，並制訂資本要求及定期收集本集團整體性的資本充足資料。個別海外分行及銀行附屬公司分別由當地的銀行監管機關直接監管，並制訂及監控其資本充足要求。在某些地區，非銀行財務附屬公司是受當地監管機關規管及資本要求。

在實施現行資本要求金管局要求本集團維持特定的總資本對風險資產總額比率。本集團計算其交易組合的市場風險是按本集團風險值模式及採用內部評級作為信貸風險的加權風險基準。銀行營運分類為交易賬或銀行賬，及風險加權資產視乎可反映與資產及資產負債表以外風險不同層面風險之特定要求。

本集團以資本充足比率為基準監察資本架構，年度內本集團資本管理政策並無重大改變。

2019年12月31日及2018年12月31日的資本充足比率是依據金管局為監管目的而制定的，本行及若干附屬公司已按綜合基準計算，並符合《銀行業條例》的《資本規則》。

截至2019年12月31日及2018年12月31日止年度內，本集團及其個別受監管業務已符合所有外間訂立的資本規定，以及本集團俱遠高於金管局所定的最低規定比率。

46. FAIR VALUES OF FINANCIAL INSTRUMENTS 金融工具的公平價值

(a) Financial instruments carried at fair value

Fair value estimates are generally subjective in nature, and are made as of a specific point in time based on the characteristics of the financial instruments and relevant market information. The Group measures fair values using the following hierarchy of methods:

Level 1 – Quoted market price in an active market for an identical instrument.

Level 2 – Valuation techniques based on observable input. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3 – Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or counterparty quotations. For all other financial instruments the Group determines fair values using valuation techniques. Valuation techniques include net present value and discounted cash flow models and various market recognised option pricing models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, equity prices, foreign currency exchange rates, index prices, historical or implied volatilities and correlations. The objective of valuation techniques is to arrive at a fair value measurement that reflects the price of the financial instrument that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the reporting date.

(a) 以公平價值列賬的金融工具

公平價值估計是根據金融工具的特性和相關市場資料於某一特定時間作出，因此一般是主觀的。本集團以下列的分級方法計算公平價值：

第一級－參考同一工具在活躍市場取得的市場報價。

第二級－根據可觀察的參數之估值模式。為此級別估值的工具，包括以下方式：就相若工具在活躍市場取得的市場報價；就相若工具在非活躍市場取得的市場報價；或其他估值模式，而該等估值模式所用的參數，是直接或間接可從市場觀察所得的數據。

第三級－根據重要但非可觀察得到的參數之估值模式。為此級別估值的工具，其估值模式所輸入之參數為非可觀察的數據，惟該等非可觀察的數據可以對估值產生重大影響。為此級別估值的工具，也包括在活躍市場取得相若金融工具的市場報價，惟當中需要作出非可觀察之調整或假設，以反映不同金融工具之間的差別。

於活躍市場買賣的金融資產及金融負債，是根據市場報價或交易對手報價以釐定其公平價值。而對於所有其他金融工具，本集團則利用估值模式以釐定公平價值。估值模式包括淨現值及現金流量折現模式，以及其他市場廣泛應用的期權估值模式。用於估值模式之假設及參數包括無風險利率、基準利率、股票價格、外幣兌換率、指數價格、過往或預期波幅及相聯關係。採用估值模式的目的是計量公平價值，藉以在申報日能反映金融工具的價格，而該價格可被視為在正常交易下市場人士當賣出資產時可收取或當轉移負債時須支付之款項。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The Group uses widely recognised valuation models for determining the fair value of common and simpler financial instruments, like interest rate and currency swaps that use only observable market data and require little management judgement and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities, exchange traded derivatives and simple over-the-counter derivatives like interest rate swaps. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

For more complex instruments, the Group uses valuation models, which usually are developed from recognised valuation methodologies. Some or all of the significant inputs into these models may not be observable in the market, and are derived from market prices or rates or are estimated based on assumptions. Valuation models that employ significant unobservable inputs require a higher degree of management judgement and estimation in determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued, determination of probability of counterparty default and prepayments and selection of appropriate discount rates.

The Group has an established control framework with respect to the measurement of fair values. This framework includes a valuation control function, namely Financial Instruments Valuation Group ("FIVG") which comprises control units independent of front office management. Procedures for price verification have been established. Any pricing models to be used would be subject to a rigorous validation and approval process.

本集團會使用廣泛應用的估值模式，以釐定一般性及較簡單金融工具的公平價值，例如僅使用可觀察市場價格、及毋須管理層耗時判斷及估計之利率及貨幣掉期。可觀察價格及模式的參數，通常可從市場上的上市債務及股份證券、在交易所買賣的衍生工具和簡單的場外交易衍生工具如利率掉期獲取。獲取可觀察市場價格及模式的參數，可以減省管理層需時判斷及估計，也可減少有關釐定公平價值的不穩定因素。是否取得可觀察市場價格及參數，視乎產品及市場性質，並會因金融市場的個別事件和一般情況而有不同變化。

至於較複雜的金融工具，本集團會使用通常由已有認受性的估值模式改動而來。部分甚或所有須予輸入模式的重要參數或未能從市場中觀察得出，而必須從市場價格或利率計算、或基於假設而估計而得出。該等須利用重要而非可觀察之參數的估值模式，需要管理層投入較多時間於判斷及估計，始能釐定金融工具的公平價值；而揀選適當的估值模式、為估值之金融工具決定其預期的未來現金流、決定交易對手方違約和提早還款的或然率，以及挑選適用的貼現率等，一般皆需要管理層的判斷和估計。

本集團已就計算公平價值設立了監控機制。此機制包括擁有產品監控功能並獨立於前線管理人員，稱為金融工具估值群組（「群組」）。價格核實的程序已經確立。任何將被採用的價格模式必須經過嚴格的檢測及審批程序。

		Marketability discount 市場性折扣	50% (2018年: 50%)

The fair values of unlisted equity instruments mandatorily measured at FVTPL or measured at FVOCI are estimated using the discounted cash flow model, on the basis of an analysis of the investee's financial position and results, or with reference to multiples of comparable listed companies, adjusted for a marketability discount to reflect the fact that the shares are not actively traded. An increase in the ratio/investee's financial position and results in isolation will result in favourable movement in the fair values, while an increase in discount rate/marketability discount in isolation will result in unfavourable movement.

Valuation of financial instruments in Level 3 is subject to the same valuation control framework as described above and reviewed regularly by FIVG.

按強制通過損益以反映公平價值或通過其他全面收益以反映公平價值非上市股份工具的公平價值是採用現金流折扣模式作估算，根據受投資公司的財務狀況及業績之分析，或參考可比較上市公司之倍數，但須計入市場性折扣以反映該股份並非有活躍交易之調整。任何因比率/受投資公司的財務狀況及業績之個別增加對公平價值有正面影響，而因折扣率/市場性折扣之個別增加則對公平價值有負面影響。

The fair values of financial instruments are in certain circumstances, measured using valuation models that incorporate assumptions that are not supported by prices from observable current market transactions in the same instrument and are not based on observable market data. The table above shows the sensitivity of fair values due to parallel movement of plus or minus 10 per cent in reasonably possible alternative assumptions.

46. FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED) 金融工具的公平價值(續)

(b) Fair values of financial instruments carried at other than fair value

The following methods and significant assumptions have been applied in determining the fair values of financial instruments presented below:

- (i) The fair value of demand deposits and savings accounts with no specific maturity is assumed to be the amount payable on demand at the end of the reporting period.
- (ii) The fair value of variable rate financial instruments is assumed to be approximated by their carrying amounts and, in the case of loans and unquoted debt securities, does not, therefore, reflect changes in their credit quality, as the impact of credit risk is recognised separately by deducting the amount of the impairment allowances from both the carrying amount and fair value.
- (iii) The fair value of fixed rate loans and mortgages carried at amortised cost is estimated by comparing market interest rates when the loans were granted with current market rates offered on similar loans. Changes in the credit quality of loans within the portfolio are not taken into account in determining gross fair values, as the impact of credit risk is recognised separately by deducting the amount of the impairment loss and allowances from both the carrying amount and fair value.
- (iv) The fair value of unquoted equity investments is estimated, if possible, using the applicable dividend discount model, or share of net asset value in the investment, or applying a discount to the market value of investments with a lock-up period.
- (v) The fair value of unlisted open-ended investment funds is estimated using the net asset value per share as reported by the managers of such funds.
- (vi) The fair value of financial guarantees issued is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or is otherwise estimated by reference to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made.

(b) 以公平價值以外列賬的金融工具公平價值

本集團採用下列方法和重要假定，以釐定如下的金融工具的公平價值：

- (i) 不設指定期限的活期存款和儲蓄賬戶的公平價值，乃假定為於報告期結束日可按要求而支付的金額。
- (ii) 浮息金融工具的公平價值，乃假定為與其賬面值相若。如此等工具為貸款和非上市債務證券，由於相關的信貸風險影響是在賬面值和公平價值中將減值準備金額減除後才分別予以確認，因此其公平價值不能反映其信貸素質的改變。
- (iii) 以攤銷成本入賬的定息貸款和按揭貸款的公平價值，乃在此等貸款按相若貸款所獲提供的目前市場利率批出時，以市場利率比較的方式估計。由於相關的信貸風險影響是在賬面值和公平價值中將減值準備金額減除後才分別予以確認，在決定公平價值總額時，貸款組合內各項貸款的信貸素質的改變均不會予以考慮。
- (iv) 非上市股票投資的公平價值是在可能情況下採用適用的股息折扣模式，或應佔投資的淨資產，或為設有禁售期之投資按其市值以折扣計算。
- (v) 非上市開放式投資基金的公平價值估計，是基於投資經理所匯報的每股資產淨值作出。
- (vi) 已發出的融資擔保之公平價值，是以參考在相若服務的公平交易中所徵收費用之可取得相關資料而釐定；有關的資料也可參考利率差價而估計，亦可以就貸款機構對發出擔保所實際徵收的息率，與在沒有取得擔保之情況下而貸款機構將可能徵收的估計息率作出比較，並在當中取用較可靠的相關資料以釐定公平價值。

The contractual amounts represent the amounts at risk should the contract be fully drawn upon and the client default. Since a significant portion of guarantees and commitments is expected to expire without being drawn upon, the total of the contract amounts does not represent expected future cash flows.

(iii) Hedge accounting

(a) Fair value hedges of interest rate risk

The Group uses interest rate swaps to hedge its exposure to changes in the fair values of certain fixed rate subordinated notes issued and fixed rate debt securities investment and loans and advances in respect of a benchmark interest rate. Pay-floating/receive-fixed interest rate swaps are matched to specific issuances of fixed rate subordinated notes or pay-fixed/receive-floating interest rate swaps are matched to fixed rate debt securities investment and loans and advances with terms that closely align with the critical terms of the hedged item.

The Group's approach to managing market risk, including interest rate risk, is discussed in Note 45(b). Interest rate risk to which the Group applies hedge accounting arises from fixed rate subordinated notes issued and fixed rate debt securities investment and loans and advances, whose fair value fluctuates when benchmark interest rates change. The Group hedges interest rate risk only to the extent of benchmark interest rates because the changes in fair value of a fixed rate debt security or loan are significantly influenced by changes in the benchmark interest rate. Hedge accounting is applied where economic hedge relationships meet the hedge accounting criteria.

By using derivative financial instruments to hedge exposures to changes in interest rates, the Group also exposes itself to credit risk of the derivative counterparty, which is not offset by the hedged item. The Group minimises counterparty credit risk in derivative instruments by entering into transactions with high-quality counterparties and requiring the counterparties to post collateral. (see Note 45(a)(xi)).

Before fair value hedge accounting is applied by the Group, the Group determines whether an economic relationship between the hedged item and the hedging instrument exists based on an evaluation of the qualitative characteristics of these items and the hedged risk that is supported by quantitative analysis. The Group considers whether the critical terms of the hedged item and hedging instrument closely align when assessing the presence of an economic relationship. The Group evaluates whether the fair values of the hedged item and the hedging instrument respond similarly to similar risks. The Group further supports this qualitative assessment by using regression analysis to assess whether the hedging instrument is expected to be and has been highly effective in offsetting changes in the fair value of the hedged item.

The Group establishes a hedge ratio by aligning the par amount of the hedged fixed-rate loan or note and the notional amount of the interest rate swap designated as a hedging instrument. Under the Group policy, in order to conclude that a hedge relationship is effective, all of the following criteria should be met.

- The regression co-efficient (R squared), which measures the correlation between the variables in the regression, is at least 0.8.
- The slope of the regression line is within a 0.8-1.25 range.
- The confidence level of the slope is at least 95%.

(b) 衍生工具(續)

(iii) 對沖會計

(a) 利率風險的公平價值對沖

本集團以利率掉期合約對沖若干其發行的定息後償票據、持有的定息債券投資及貸款和墊款因基準利率而導致的公平價值轉變的風險。對沖以支付浮動/收取固定利率掉期合約與定息後償票據的特定發行配對或以支付固定利率/收取浮動利率掉期合約與定息債券和貸款配對，其條款與被對沖項目的關鍵條款一致。

本集團管理市場風險的方法，包括利率風險詳述於附註45(b)。本集團採用對沖會計的利率風險來其發行定息後償票據、定息債券投資及貸款和墊款，其公平價值在基準利率變動時波動。因定息債券及貸款和墊款的公平價值變動受基準利率變動的顯著影響，本集團僅在基準利率範圍內對沖利率風險。對沖會計適用於符合對沖會計條件的經濟對沖關係。

通過使用衍生金融工具對沖利率變動的風險，本集團亦面對衍生工具交易對手的信貸風險，而該風險並未被被對沖項目抵銷。本集團通過與高質量交易對手進行交易，要求交易對手提供抵押品，減低衍生工具交易對手的信用風險(詳見附註45(a)(xi))。

在本集團採用公平價值對沖會計法前，本集團根據被對沖項目和對沖工具的定性特徵評估和支持對沖風險評估的定量分析，以確定被對沖項目與對沖工具之間是否存在經濟關係。本集團在評估經濟關係的存在時，會考慮被對沖項目及對沖工具的關鍵條款是否一致。本集團評估被對沖項目和對沖工具的公平價值是否對類似風險反應相似。本集團使用回歸分析評估對沖工具是否預期及非常有效地抵銷被對沖項目的公平價值變動以進一步支持定性評估。

本集團通過調整對沖定息貸款或票據的面值與指定為對沖工具的利率掉期合約的名義金額來確定對沖比率。根據本集團政策，有效對沖關係應滿足以下所有條件：

- 測量回歸中變量之間相關性的回歸係數(R平方)至少為0.8。
- 回歸線的斜率在0.8-1.25範圍內。
- 斜率的置信水平至少為95%。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

In these hedge relationships, the main sources of ineffectiveness are:

- the effect of the counterparty and the Group's own credit risk on the fair value of the interest rate swap, which is not reflected in the fair value of the hedged item attributable to the change in interest rate; and
- differences in maturities of the interest rate swap and the loans or the debt securities.

At 31st December, 2019 and 2018, the Group held the following interest rate swaps as hedging instruments in fair value hedges of interest risk:

在這些對沖關係中，無效對沖部份的主要來源是：

- 交易對手和本集團自身信用風險對利率掉期合約公平價值的影響未能反映在利率變動導致的被對沖項目的公平價值中；及
- 利率掉期和相關貸款或債券的到期日之差異。

於2019年及2018年12月31日，本集團持有以下利率掉期合約作為利率風險公平價值對沖的對沖工具：

The Group's fair value hedge principally consists of interest rate swaps that are used to protect against changes in the fair value of fixed rate long-term financial instruments due to movements in market interest rates.

本集團的公平價值對沖主要包括利率掉期，用於抵禦因市場利率變動而導致的定息長期金融工具公平價值變動。

(b) Cash flow hedges of foreign currency risk

The Group uses exchange rate forward contracts to hedge against the variability in cash flows of certain debt securities investments denominated in US dollar held by the insurance subsidiaries. The Group hedges foreign exchange rate risk to the extent of variability in functional currency equivalent cash flows (i.e. in HK dollar) from principal payment of the debt securities attributable to movements in US dollar/HK dollar. Hedge accounting is applied where economic hedge relationships meet the hedge accounting criteria.

The Group determines the amount of the exposure to which it applies hedge accounting by assessing the potential impact of changes in foreign currency exchange rates on the future cash flows from the debt securities investments denominated in US dollar that will result in a reduction of functional currency equivalent cash flow to meet the obligation of insurance policies at maturity. This assessment is performed using analytical techniques, such as cash flow sensitivity analysis.

As noted above for fair value hedges, the Group exposes itself to credit risk of the counterparties to the derivatives, which is not offset by the hedged items. This exposure is managed similarly to that for fair value hedges.

The Group determines whether an economic relationship exists between the cash flows of the hedged item and hedging instrument based on an evaluation of the qualitative characteristics of these items and the hedged risk that is supported by quantitative analysis. The Group considers whether the critical terms of the hedged item and hedging instrument closely align when assessing the presence of an economic relationship. The Group evaluates whether the cash flows of the hedged item and the hedging instrument respond similarly to the hedged risk, such as the notional amount, maturity and underlying currencies.

The Group assesses hedge effectiveness using the hypothetical derivative method, which creates a derivative instrument to serve as a proxy for the hedged transaction. The terms of the hypothetical derivative match the critical terms of the hedged item and it has a fair value of zero at inception. The dollar offset ratio, being the periodic change in fair value of the hypothetical exchange rate forward contract attributable to changes in forward rate is calculated to assess whether the hedge can achieve 0.8–1.25 cumulative dollar offset on each reporting date.

(b) 衍生工具(續)

(iii) 對沖會計(續)

(b) 外匯風險的現金流對沖

本集團使用匯率遠期合約對沖保險附屬公司持有的若干以美元計值的債券投資的現金流量變動。本集團因應美元/港元變動所導致債務證券本金支付以功能貨幣(即以港元計算)計算的等值現金流量變動進行外匯風險對沖。對沖會計適用於符合對沖會計條件的經濟對沖關係。

本集團通過評估外匯變動對以美元計值的債券投資的未來現金流量可能導致相應功能貨幣減少的潛在影響，確定其應用對沖會計的風險金額現金流量，以滿足到期保險單的責任。該評估使用分析技術進行，例如現金流敏感度分析。

如上文對於公平價值對沖所述，本集團面對衍生工具交易對手的信用風險，而該風險未有被被對沖項目抵銷。這種風險與公平價值對沖的風險管理類似。

本集團根據對這些項目的定性特徵的評估以及支持的對沖風險的定量分析，以確定被對沖項目的現金流量與對沖工具之間是否存在經濟關係。本集團在評估經濟關係的存在時，會考慮被對沖項目及對沖工具的關鍵條款是否一致。本集團評估被對沖項目和對沖工具的現金流量是否就對沖風險的反應相似，例如以名義金額，到期日及相關貨幣評估。

本集團採用模擬衍生工具方法評估對沖效用，該方法建立一衍生工具作為對沖交易的代理。模擬衍生工具的條款與被對沖項目的關鍵條款一致，並且在開始時其公平價值為零。價值抵銷比率，即由遠期利率變動引起的模擬匯率遠期合約的公平價值的周期性變化，計算以評估對沖是否可在每個報告日期實現0.8–1.25的累計價值抵銷。

(e) Operating lease commitments

Under HKFRS 16, the leases previously classified as operating leases which were kept off-balance sheet under HKAS 17 are required to be recognised on-balance sheet. The Group has initially applied HKFRS 16 using the modified retrospective approach from 1st January, 2019. Under this approach, the Group adjusted the opening balances at 1st January, 2019 to recognise lease liabilities relating to these leases (see Note 3). From 1st January, 2019 onwards, future lease payments are recognised as lease liabilities in the statement of financial position in accordance with the policies set out in Note 2(s), and the details regarding the Group's future lease payments are disclosed in Note 45(d).

Comparative information under HKAS 17

At 31st December, 2018, the total future minimum lease payments under non-cancellable operating leases are payable as follows:

(e) 經營租賃承擔

在《香港財務報告準則》第16號下，以往根據《香港會計準則》第17號在資產負債表外分類為經營租賃的租賃須在資產負債表內確認。本集團自2019年1月1日起採用經改良追溯模式應用《香港財務報告準則》第16號。在該模式下，本集團調整2019年1月1日的期初結餘以確認有關租賃之租賃負債（參見附註3）。自2019年1月1日起，本集團根據附註2(s)之政策將未來租賃款項在資產負債表內確認為租賃負債，有關本集團的未來租賃款項詳情已披露於附註45(d)。

根據《香港會計準則》第17號的比較資料於2018年12月31日，在不可撤銷的經營租賃內，未來最低應付租賃款項總額如下：

		2018
		HK\$ Mn 港幣百萬元

(f) Contingencies

The Group receives legal claims against it arising in the normal courses of business. The Group considers none of these matters as material. Where appropriate the Group recognises provisions for liabilities when it is probable that an outflow of economic resources embodying economic benefits will be required and for which a reliable estimate can be made of the obligation.

(f) 或有事項

本集團收到正常業務過程中產生的法律索賠。本集團認為這些事項均不重大。在適當情況下，本集團在很可能需要經濟利益流出並且可以對該責任作出可靠估計時確認負債準備。

On 6th January, 2020, the Bank has entered into a sale and purchase agreement and other documentation (collectively, the "Transaction Documents") with, amongst others, Kookmin Bank Co., Ltd. ("Kookmin Bank") in relation to, inter alia, BEA's sale of shares representing 21% of the registered share capital of PRASAC Microfinance Institution Limited ("PRASAC"), to Kookmin Bank (the "Disposal"). NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The Disposal will take place in two phases:

Phase 1: Each of the existing shareholders (including BEA) will sell 70% of its respective stake in PRASAC to Kookmin Bank on and subject to the terms of the Transaction Documents.

Phase 2: Each of the existing shareholders (including BEA) has a put option to sell, and Kookmin Bank has a call option to buy, the remaining 30% of each existing shareholder's (including BEA's) respective stake in PRASAC, exercisable on and subject to the terms of the Transaction Documents after the finalisation of the audited accounts of PRASAC for the financial year ending 31st December, 2021.

The novel coronavirus outbreak since early 2020 has brought about additional uncertainties in the Group's operating environment and has impacted the Group's operations.

The Group has been closely monitoring the impact of the developments on the Group's businesses and has put in place contingency measures. In particular, the Bank has temporarily closed 20 of its branches from 1st February, 2020, in an effort to limit the spread of novel coronavirus, as well as protect both its customers and staff members' health and safety.

The Group regularly performs stress tests on the principal risks, where appropriate, to assess the potential impact of stressed business conditions (including hypothetical situations such as a significant economic downturn in Mainland China and Hong Kong) on the Group's capital adequacy and liquidity. The test results based on the Group's latest financial position showed that both capital and liquidity levels are sufficient to absorb the impact of the stress. Whenever necessary, prompt actions will be undertaken to mitigate potential impacts. The Group will keep its contingency measures and risk management under review as the situation evolves. While the circumstances of the outbreak is evolving rapidly, an estimate of its financial impact to the Group at the current stage may not be appropriate as it will be subject to material change.

出售將分兩階段進行：

第一階段：現有各股東(包括東亞銀行)，受限於交易文件內的條款，將其各自所持有的PRASAC股份的70%出售予Kookmin銀行。

第二階段：現有各股東(包括東亞銀行)擁有認沽權以出售，而Kookmin銀行擁有認購權以購買，現有各股東(包括東亞銀行)在PRASAC中剩餘的30%股份。該等權利可在截至2021年12月31日止財政年度的PRASAC經審核賬目獲確定後行使並受限於交易文件內的條款。

自2020年初以來，新型冠狀病毒感染的肺炎疫情之爆發已對本集團的經營環境帶來不確定因素及對本集團的營運產生影響。

本集團一直密切關注事態發展對本集團業務之影響，並制定了應變措施。尤其是本行由2020年2月1日起暫停20間分行的服務，以減低新型冠狀病毒疫情擴散的風險，以及保障客戶和員工的健康。

本集團定期對相關的主要風險進行壓力測試，評估受壓營商環境(包括內地及香港出現嚴重經濟下滑等假設情景)對本集團的資本充足及流動性可能產生的影響。根據集團最新財務狀況進行的壓力測試結果顯示，本集團的資本及流動性水平均足以抵禦壓力之影響。有需要時，亦會果斷制定應對措施以減低潛在影響。本集團將因應事態發展繼續檢討應變措施及風險管理。因疫情發展迅速，在現階段估算疫情對本集團的財務影響並不合適，因其仍可能有重大變動。

54. ACCOUNTING ESTIMATES AND JUDGEMENTS 會計估計及判斷

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

(a) Key sources of estimation uncertainty

Notes 33, 40 and 46 contain information about the assumptions and their risk factors relating to goodwill impairment, fair value of share options granted and fair values of financial instruments. Other key sources of estimation uncertainty are as follows:

(i) Impairment losses

Note 45(a)(ix): impairment of financial instruments involves determining inputs into the ECL measurement model, including incorporation of forward-looking information.

Note 32: impairment testing of investments in associates involves significant judgement in determining the value in use, and in particular estimating the present values of cash flows expected to arise from continuing to hold the investment.

(ii) Valuation of financial instruments

The Group's accounting policy for valuation of financial instruments is included in Note 2. The fair value of the financial instruments is mainly based on the quoted market price on a recognised stock exchange or a price quoted from a broker/dealer for non-exchanged traded financial instruments. The fair value of collateralised debt obligations is based on bid prices quoted by reputable brokers and has been carefully assessed for reasonableness by management. The fair value of a Special Investment Vehicle ("SIV") is based on its net asset values as provided by the SIV's manager.

在編製本綜合財務報表時，管理層經已作出若干對應用本集團會計政策及所匯報的資產、負債、收入及支出之金額披露有影響的判斷、估計和假定。最終結果與該等估計可能不盡相同。

估計及相關假定會定期作檢討。估計之修改不會被追溯確認。

(a) 估計不穩定因素的主要來源

附註33、40和46載述有關商譽減值、已授予股權的公平價值和金融工具的公平價值的假設及其風險因素。估計不穩定因素的其他主要來源如下：

(i) 減值損失

附註45(a)(ix)：金融工具減值：決定預期信貸損失計量模型的計算因素，包括植入具前瞻性的資料。

附註32：聯營公司投資的減值測試包括估計使用值的重大判斷，及估算因持續持有該投資而產生的預計現金流的現值。

(ii) 金融工具的估值

本集團對金融工具估值的會計政策列載於附註2。金融工具的公平價值主要根據認可之交易所的市場報價，或就非在交易所作交易的金融工具而言，則根據經紀/交易員的報價。債務抵押債券的公平價值由聲譽良好的經紀按買入價提供報價，及經已被管理層小心評估其適當性。特別投資工具的公平價值是根據特別投資工具之管理人所提供該工具的資產淨值。

(b) Critical accounting judgements in applying the Group's accounting policies

Certain critical accounting judgements in applying the Group's accounting policies are described below:

- (i) Classification of financial assets
Note 2(h)(ii): assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are SPPI on the principal amount outstanding.
- (ii) Measurement of ECL
Note 45(a)(ix): establishing the criteria for determining whether credit risk on the financial asset has increased significantly since initial recognition, determining methodology for incorporating forward-looking information into measurement of ECL and selection of models used to measure ECL.
- (iii) Recognition of deferred tax assets
The Group recognises deferred tax assets only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Estimates and judgements are applied in determining the amount of future taxable profits and the probability that such future taxable profits are available in the foreseeable future to support recognition of the deferred tax assets. The Group uses all readily available information, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs, in determining future taxable profits. Changes in these estimates could significantly affect the timing of deferred tax asset recognition and the amount of asset recognised.

(b) 本集團應用會計政策的重要會計判斷

本集團應用會計政策的若干重要會計判斷如下：

- (i) 金融資產
附註2(h)(ii)：評估持有資產的商業模型，即金融資產合約期內是否純粹是本金及按本金結餘的利息支付。
- (ii) 預期信貸損失計量
附註45(a)(ix)：訂立標準以決定金融資產的信貸風險是否比初始確認時經已大幅增加及制定方法以植入具前瞻性計量預期信貸損失的資料及選擇模型以計算預期信貸損失。
- (iii) 遞延稅項資產之確認
須在未來可能有應課稅溢利予以抵銷遞延稅項資產的情況下，本集團才確認遞延稅項資產。在釐定未來應課稅溢利的金額及其可能性時，須估計及判斷在可見之將來該未來應課稅溢利可否支持確認該遞延稅項資產。本集團使用所有已有的資料，包括根據合理及可支持之假設和對收入及支出成本的估計，以釐定未來應課稅溢利。此等估計的變動可能對遞延稅項資產確認的時間及資產確認的金額有重大影響。

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF THE BANK OF EAST ASIA, LIMITED

(Incorporated in Hong Kong with limited liability)

OPINION

We have audited the consolidated financial statements of The Bank of East Asia, Limited ("the Bank") and its subsidiaries (together "the Group") set out on pages 168 to 363, which comprise the consolidated statement of financial position as at 31 December 2020, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment allowances of loans and advances to customers

Refer to notes 2(h)(vii), 29(a), 45(a)(x) to the consolidated financial statements

Key audit matter

The Group's advances to customers as at 31 December 2020 amounted to HK\$513,929 million, with total expected credit losses ("ECL") amounting to HK\$4,859 million as at 31 December 2020. Hong Kong and Mainland China Operations contributed to 57.6% and 24.7% of the Group's advances to customers, and 30.1% and 57.7% of the Group's total ECL respectively.

Impairment allowances of loans and advances to customers across the banking industry continues to be an area of concern and elevated focus due to the uncertain local and global economic outlook, including the adverse impact from China – United States tensions and the COVID-19 pandemic.

How the matter was addressed in our audit

Our audit procedures to assess the Group's impairment allowances on loans and advances to customers measured at amortised cost included the following:

- understanding and assessing the design, implementation and operating effectiveness of key internal controls on financial reporting over approval, recording and monitoring of loans measured at amortised cost, the credit grading process, the ECL model monitoring, governance process, and the measurement of impairment allowances;
- involving credit risk specialists in assessing the reliability of the ECL models used by management in determining impairment allowances, including assessing the appropriateness of the key parameters and assumptions in the ECL models, including the identification of loss stages, probability of default, loss given default, exposure at default, discount rate, adjustments for forward-looking information and other management adjustments;

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Impairment allowances of loans and advances to customers

Refer to notes 2(h)(vii), 29(a), 45(a)(x) to the consolidated financial statements

Key audit matter

The COVID-19 pandemic has led to additional challenges in assessing impairment provisions. The relief measures such as moratoriums on repayment of loan principals have increased the difficulty in identifying those loans which may have significant increase in credit risk and impaired loans. Past historical experience on repayment may be less representative of the borrowers' financial conditions and therefore more judgement is required.

Impairment allowances may be materially misstated if the exposures with a significant increase in credit risk are not properly identified and classified in the appropriate stages. The assessment of the recoverable amount of collateral is particularly challenging in Mainland China as the extent of judgement exercised by management in the process of determining the strategy of recovery and assessing the collateral value of these exposures is high. As a result, the impairment allowances of loans and advances to customers in this particular part of business is subject to a higher inherent risk of material misstatements.

The Group applies its ECL models to assess impairment allowances of loans and advances to customers measured at amortised cost. Loan exposures that are not already credit-impaired are classified as stage 1 on origination and a 12-month ECL provision is recognised. Loan exposures will remain in stage 1 until they are repaid, experience a significant increase in credit risk (stage 2) or become credit-impaired (stage 3), for which a lifetime ECL provision is recognised.

The determination of impairment allowances using the ECL models is subject to a number of key parameters and assumptions, including the identification of loss stages, estimates of probability of default, loss given default, exposures at default and discount rate, adjustments for forward-looking information and other adjustment factors. Management judgment is involved in the selection of those parameters and the application of the assumptions.

How the matter was addressed in our audit

- assessing the completeness and accuracy of data used for the key parameters in the ECL models, by comparing individual loan information on a sample basis with the underlying agreements and other related documentation to assess the accuracy of the loan information in the ECL models. For key parameters derived from external data, we selected samples to inspect the accuracy of such data by comparing them with publicly available sources;
- for key parameters involving judgement, critically assessing input parameters by seeking evidence from external sources and comparing it to the Group's internal records including historical loss experience and type of collateral. As part of these procedures, we challenged the reasons for modifications to estimates and input parameters and considered the consistency of judgement. We compared the economic factors used in the models with market information to assess whether they were aligned with market and economic development;
- for key parameters used in the ECL models which were derived from system-generated internal data, assessing the accuracy of input data by comparing the input data with original documents on a sample basis. We involved our information technology specialists in assessing the information systems controls critical to the credit grading process, such as the compilation of the overdue reports for advances to customers. We also assessed the design, implementation and operating effectiveness of relevant automated application controls within these systems, as well as the key internal controls over these underlying systems, including controls over access to these systems and controls over data and change management;
- in respect of identifying exposures with a significant increase in credit risk, evaluating the validity of management's assessment on whether the credit risk of the loan has, or has not, increased significantly since initial recognition and whether the loan is credit-impaired by selecting samples for which we checked loan overdue information, made enquiries of the credit managers about the borrowers' business operations, checked borrowers' financial information and researched market information about borrowers' businesses. Our sample of loans and advances to customers selected for credit review, including in Mainland China Operations, focused on accounts with high risk characteristics, including industries, features of loan arrangements, types of collateral and credit quality of the accounts;

客戶貸款及墊款的減值準備

請參閱綜合財務報表附註2(h)(vii)、29(a)和45(a)(x)

關鍵審計事項

二零一九冠狀病毒病大流行令評估減值準備的困難增加。包括對貸款本金償還的寬免等的紓困措施加重識別信貸風險可能顯著增加的貸款及不良信貸的難度。過去的歷史償還經驗可能較難代表客戶的財務狀況，因而需要更多的判斷。

倘貸款的信貸風險顯著增加未被恰當地識別及分類，可能導致預期信貸損失存在重大錯誤陳述。由於管理層在釐定收回策略及評估抵押品價值的過程中涉及高度的判斷，評估在中國內地的抵押物的可收回金額時特別具有難度。因此，有關此部份業務的客戶貸款及墊款減值準備存在較高重大錯誤陳述的內含風險。

貴集團使用其預期信貸損失模型來評估以攤銷成本計量的客戶貸款及墊款的減值準備。尚未成為不良信貸的貸款於發放時被劃歸為第一階段，並按照相當於12個月的預期信貸損失的金額確認撥備。貸款會保留於第一階段直至其被償還，信貸風險有顯著增加(第二階段)或已成為不良信貸(第三階段)，相應撥備會按照相當於合約期內之預期信貸損失的金額確認。

採用預期信貸損失模型釐定減值準備時須考慮若干關鍵參數及假設，包括所識別的損失階段，所估計的違約概率、違約損失率、違約風險承擔和貼現率，就前瞻性資訊所作的調整以及其他調整因素。在選取該等參數及應用上述假設時亦須管理層作出判斷。

審計對策

- 通過在抽樣基礎上對比個別貸款資訊與相關協議及其他相關文檔，評估預期信貸損失模型中的貸款資訊是否準確，以此評估預期信貸損失模型中的關鍵參數所用的數據是否完整及準確。對於源自外部數據的關鍵參數，我們採用抽樣方式將該等數據與公開可獲取的數據進行比較，以檢查該等數據的準確性；
- 對於涉及判斷的關鍵參數，從外部來源獲得證據並將其與貴集團的內部記錄(包括以往損失經驗和抵押品的類型)進行比較，以對輸入參數進行審慎評估。在這個過程中，我們就管理層對估計及輸入參數的修訂理據提出質詢，並考慮判斷的一致性。我們將模型中所運用的經濟因素與市場資訊進行對比，以評估這些數據是否與市場及經濟發展相符；
- 對於預期信貸損失模型中所用的、源自系統生成的內部數據的關鍵參數，在抽樣基礎上將輸入數據與原始檔進行對比以評估輸入參數的準確性。我們使用我們的資訊技術專家來評估對信貸評級流程有重要影響的資訊系統控制，包括客戶墊款逾期報告的編制。我們還評估這些系統內的相關自動化應用程式控制，以及對這些相關系統的主要內部控制(包括對系統登入的控制以及對數據和變更管理的控制)在設計、實施和操作上的成效；
- 在識別信貸風險已顯著增加的貸款方面，採用抽樣的方式檢查貸款逾期資訊，就借款人的業務運營詢問信貸經理，檢查借款人的財務信息並查考有關借款人業務的市場資訊，以評價管理層對於貸款的信貸風險自初始確認以來是否已，或尚未有，顯著增加以及貸款是否已成為不良信貸的評估是否恰當。我們抽查的樣本，包括中國業務的樣本，關注於具有高風險條件的貸款，高風險條件包括行業、貸款安排、抵押品類型及信貸質量；

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Impairment allowances of loans and advances to customers

Refer to notes 2(h)(vii), 29(a), 45(a)(x) to the consolidated financial statements

Key audit matter

In particular, the determination of the impairment allowances is heavily dependent on the external macro environment and the Group's internal credit risk management strategy. The expected credit losses are derived from estimates including the historical losses, internal and external credit grading and other adjustment factors. The expected credit losses for personal loans are derived from estimates whereby management takes into consideration historical overdue data, the historical loss experience for personal loans and other adjustment factors.

Management also exercises judgement in determining the quantum of loss given default based on a range of factors. These include available remedies for recovery, the financial situation of the borrower, the recoverable amount of collateral, the macroeconomic factors, the seniority of the claim and the existence and cooperativeness of other creditors. Management refers to valuation reports issued by qualified third party valuers and considers the influence of various factors including the market price, location and use when assessing the value of property held as collateral. The enforceability, timing and means of realisation of collateral can also have an impact on the recoverable amount from collateral and, therefore, the amount of impairment allowances as at the end of the reporting period.

We identified the impairment allowances of loans and advances to customers measured at amortised cost as a key audit matter because of the complexity of the inherent uncertainty and management judgment involved and because of its significance to the financial results and capital of the Group.

How the matter was addressed in our audit

- for selected samples of loans and advances to customers that are credit-impaired, evaluating management's assessment of the value of any property collateral held by comparison with market prices based on the location and use of the property and the prices of neighbouring properties. We also evaluated the timing and means of realisation of collateral, evaluated the forecast cash flows, challenged the viability of the Group's recovery plans and evaluated other credit enhancements that are integral to the contract terms;
- in respect of assessing the accuracy of ECL calculation, calculating the amount of credit loss allowance for 12-month and life-time credit losses using the ECL models based on the above parameters and assumptions for a sample of loans and advances to customers where the credit risk of the loan has not, or has, increased significantly since initial recognition, respectively and comparing to the results from the Group;
- assessing the appropriateness of material manual adjustments and overlays on ECL model outputs;
- in respect of evaluating the accounting treatments of disposal of impaired loans during the year, inspecting the loan disposal agreements and documents, enquiring of management and assessing whether the transactions are recognised appropriately; and

客戶貸款及墊款的減值準備

請參閱綜合財務報表附註2(h)(vii)、29(a)和45(a)(x)

關鍵審計事項

當中，減值準備的釐定在很大程度上取決於外部宏觀環境及貴集團的內部信貸風險管理策略。預期信貸損失乃源自於對歷史損失、內部及外部信貸評級及其他調整因素的估計。個人貸款的預期信貸損失乃源自於管理層考慮了歷史逾期數據、個人貸款的以往損失經驗以及其他調整因素而作出的估計。

管理層在釐定違約損失率的金額時亦會根據多項因素作出判斷。這些因素包括收回墊款的方式、借款人的財務狀況、抵押品的可收回金額、宏觀經濟因素、索賠受償順序及其他債權人是否存在及其合作意向等。在評估持作抵押品的物業的價值時，管理層會參考合資格第三方評估師出具的估值報告，並考慮各種因素的影響，包括物業的市場價格、位置及用途。抵押品的法律效力、變現時間和方法亦會影響抵押品的可收回金額，並從而影響報告期末的減值準備金額。

由於以攤銷成本計量的客戶貸款及墊款的減值準備所涉及的複雜性、管理層判斷以及內含的不確定性，同時由於其對貴集團財務業績和資本的重大影響，我們將其認定為一項關鍵審計事項。

審計對策

- 對於已抽選的不良信貸的客戶貸款及墊款樣本，根據持作抵押品的物業的位置及用途以及鄰近物業的價格，將持作抵押品的物業的價值與市場價格進行比較，以評價管理層對該類物業價值的評估。我們還評價了抵押品的變現時間和方法以及現金流預測，對貴集團回收方案的可行性提出了質詢，並對合同條款中的其他信貸提升進行了評價；
- 在評估預期信貸損失計算的準確性方面，抽選信貸風險自初始確認以來尚未顯著增加或已顯著增加的客戶貸款及墊款樣本，同時根據上述參數及假設並使用預期信貸損失模型，分別計算該等樣本按照12個月內的信貸損失和合約期內的信貸損失計量的信貸損失準備金額，並將該計算結果與貴集團的結果進行比較；
- 評估重大的手動調整以及預期信貸損失模型輸出值的調整是否恰當；
- 評估年內減值貸款處置的會計處理，檢查相關協議和文件，向管理層詢問並評估該等交易是否恰當地確認；及
- 評價以攤銷成本計量的客戶貸款及墊款的減值準備的列報與披露是否滿足現行會計準則的要求。

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Assessment of the fair value of financial instruments

Refer to notes 2(h)(iii), 27, 28, 30, 46(a), 47(b)(ii) to the consolidated financial statements

Key audit matter	How the matter was addressed in our audit
<p>Financial instruments carried at fair value account for a significant portion of the Group's assets. As at 31 December 2020 the fair value of these financial instruments was HK\$172,939 million of which HK\$28,359 million, HK\$142,447 million and HK\$2,133 million was classified as level 1, 2 and 3 financial instruments respectively.</p> <p>The valuation of the Group's financial instruments, which are stated at their fair values, is based on a combination of market data and valuation models which often require a considerable number of inputs. Many of these inputs are obtained from readily available data for liquid markets. Where such observable data is not readily available, as in the case of level 3 financial instruments, estimates need to be developed which can involve significant management judgement.</p> <p>The Group developed its own models to value certain level 2 and 3 financial instruments, which involves significant management judgement.</p> <p>During the year, the tightened market liquidity and increased market volatility resulted in higher estimation uncertainty in management's assessment of the marketability and valuation of financial instruments held.</p> <p>We identified the assessment of the fair value of financial instruments as a key audit matter because of the complexity and significant management judgement required in the valuation of some financial instruments and because of the lower transparency of inputs used in the valuation techniques for certain financial instruments which increases the risk of potential error.</p>	<p>Our audit procedures to assess the fair value of financial instruments included the following:</p> <ul style="list-style-type: none"> • assessing the design, implementation and operating effectiveness of key internal controls over the valuation, including independent price verification and model validation for financial instruments. For the key underlying systems used for the processing of transactions in relation to financial instruments we involved specialists to assess the design, implementation and operating effectiveness of relevant automated controls within these systems. We also assessed the design, implementation and operating effectiveness of the key internal controls over these underlying systems, including controls over access to these systems and controls over data and change management; • evaluating the fair values of financial instruments with quoted price by comparing the fair values applied by the Group with publicly available market data; • involving our valuation specialists to perform independent valuations of level 2 and level 3 financial instruments on a sample basis and comparing these valuations with the Group's valuations. Our internal valuation specialists either: <ul style="list-style-type: none"> • compared prices from independent sources to those used by management to assess pricing for certain instruments; or • evaluated management's methodology and obtained independent inputs in order to reperform our own valuation; • assessing the appropriate application of Credit Value and Debit Value Adjustments ("CVA/DVA") that form an integral part of fair values; inquiring of management about any changes in the CVA/DVA methodology and assessing the inputs applied; and • assessing whether the disclosures in the consolidated financial statements appropriately reflected the Group's exposure to financial instrument valuation risk with reference to the requirements of the prevailing accounting standards.

評估金融工具的公平價值

請參閱綜合財務報表附註2(h)(iii)、27、28、30、46(a)和47(b)(ii)

關鍵審計事項

以公平價值列賬的金融工具為貴集團持有的重要資產之一。貴集團於二零二零年十二月三十一日持有此類金融工具的公平價值金額為港幣1,729.39億元，其中在公平價值分級內第一級、第二級和第三級的金融工具公平價值分別為港幣283.59億元、港幣1,424.47億元及港幣21.33億元。

貴集團以公平價值列賬的金融工具的估值以市場數據和估值模型為基礎，其中估值模型通常需要大量的參數輸入。大部分參數源自於高流動性市場中可獲取的數據。當可觀察的數據無法從高流動性市場獲取時，即公平價值屬於第三級的情形下，管理層便需提供估算，這當中會涉及管理層的重大判斷。

貴集團對特定的第二級及第三級金融工具開發了自有估值模型，這也會涉及管理層的重大判斷。

受到年內市場流動性收緊及市場波動性增加的影響，管理層對金融工具的可流通性及估值中的估算不確定性會較高。

由於金融工具公平價值的評估涉及一定複雜性，而部分金融工具亦涉及管理層的重大判斷，以及部分金融工具使用的參數的透明度較低而增加潛在錯誤風險，我們因此將金融工具公平價值的評估識別為關鍵審計事項。

審計對策

與評估金融工具公平價值相關的審計程序包括以下各項：

- 評估與金融工具估值，包括獨立價格驗證及模型驗證，相關的內部控制的設計、實施和操作上的成效。我們利用專家，評估處理金融工具相關交易的主要系統內自動化控制於設計、實施和操作上的成效。我們還評估了這些相關系統的關鍵內部控制(包括對系統登入的控制以及對數據和變更管理的控制)在設計、實施和操作上的成效；
- 通過比較貴集團採用的公平價值與公開可獲取的市場數據，評估具有市場報價的金融工具的公平價值；
- 採用抽樣的方式，由我們估值專家對公平價值屬於第二級和第三級的金融工具進行獨立估值，並將我們的估值結果與貴集團的估值結果進行比較。我們的內部估值專家：
 - 將從獨立來源獲取的與管理層所選用的價格進行比較以評估相關工具的價格；或
 - 評估管理層的估值模型並獲取獨立參數以進行我們的估值；
- 在評估對構成公平價值組成部分的信用估值調整和債務價值調整的運用是否適當時，詢問管理層計算信用估值調整和債務價值調整的方法曾否發生變化，並評估參數運用的恰當性；及
- 評估綜合財務報表中與金融工具相關的披露是否符合有關會計準則的要求，恰當反映了貴集團的金融工具估值風險。

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Impairment assessment of an investment in associate, AFFIN Bank Berhad ("AFFIN")*Refer to notes 2(r), 32 to the consolidated financial statements*

Key audit matter	How the matter was addressed in our audit
<p>The quoted market price of the Group's investment in AFFIN has been persistently below the carrying amount for a period of time. This is considered an indicator of potential impairment.</p>	<p>Our audit procedures to assess the carrying value of the Group's investment in AFFIN included the following:</p>
<p>HKAS 36 "Impairment of assets" requires recognition of impairment loss when the carrying amount exceeds the recoverable amount, which is the higher of its fair value less costs of disposal and its value in use ("VIU"). An impairment test was performed by the Group using a VIU model to estimate the investment's value assuming the Group continues to hold this investment.</p>	<ul style="list-style-type: none"> • discussing with management, who sit on the board of AFFIN, to understand business performance and future business plans of AFFIN; • comparing AFFIN's budgeted income and profits with the assumptions used by management in its discounted cash flow forecast;
<p>As at 31 December 2020, the recoverable amount based on the VIU calculation was HK\$3,648 million. The carrying value was written down to the recoverable amount and an impairment charge of HK\$402 million was recognised in 2020.</p>	<ul style="list-style-type: none"> • engaging our valuation specialists to evaluate the methodology used in the VIU calculation;
<p>The VIU model is based on the requirements in HKAS 36 "Impairment of assets" and is dependent on many assumptions, both short-term and long-term in nature. These assumptions, which are judgemental, are derived from a combination of management estimates, forecasts and market data. The assumptions considered the current levels of uncertainty, due to the impact of COVID-19 pandemic, on the economy in Malaysia.</p>	<ul style="list-style-type: none"> • evaluating the assumptions and judgements adopted by management in its discounted cash flow forecast relating to growth rates, terminal value and the discount rate used to derive the recoverable amount of the Group's investment in AFFIN, with support of our valuation specialists, through the following procedures: <ul style="list-style-type: none"> • conducting research on the assumptions and judgements relating to growth rates, terminal value and the discount rate based on market information available; • performing an alternative calculation of the discount rate and comparing this calculation with the discount rate applied by management to assess reasonableness of the discount rate used by management; • comparing the estimated key performance indicators and ratios with externally derived data, comparable companies and analysts' reports;

投資於聯營公司，AFFIN Bank Berhad (「AFFIN」)，的減值評估
請參閱綜合財務報表附註2(r)和32

關鍵審計事項

貴集團對AFFIN的投資的市場報價持續低於賬面值一段時間。這是潛在減值的指標。

按《香港會計準則》第36號「資產減值」的要求，當賬面值高於可收回價值時，便需要確認減值損失。可收回價值為銷售淨值與使用價值中的較高者。在貴集團繼續持有此投資的假設下，貴集團利用使用價值模型進行了減值測試以估計此投資的價值。

於二零二零年十二月三十一日，基於使用價值計算的可收回價值為港幣36.48億元。其賬面值減值到可收回價值並於年內確認港幣4.02億元的減值損失。

其使用價值模型是按《香港會計準則》第36號「資產減值」的要求並取決於很多長期及短期的參數。這些具判斷性的參數綜合了管理層估計、預測及市場數據。其中假設已經考慮現時由二零一九冠狀病毒病大流行對馬來西亞經濟帶來的影響而產生的不確定性。

審計對策

與 貴集團對AFFIN的投資的減值評估相關的審計程式包括以下各項：

- 與同時為AFFIN董事會成員的管理層商討並瞭解AFFIN的業務表現及未來商業計劃；
- 對AFFIN的預算收入及盈利與管理層於折現現金流預測使用的假設作出比較；
- 使用我們估值專家評估使用價值計算方法；
- 在我們估值專家的協助下，評估管理層於折現現金流預測用到的參數及判斷，包括用於計算對AFFIN投資的可收回價值時用到的增長率、終值及折現率。程序包括以下各項：
 - 對增長率、終值及折現率相關的假設及判斷作出市場資訊調查；
 - 執行折現率替代性計算，將該計算結果與管理層使用的折現率進行比較，以評估管理層使用的折現率的合理性；
 - 對關鍵業務表現指標及比率的估計與源自外部的數據，可比較的公司及分析師報告作出比較；

Impairment assessment of an investment in associate, AFFIN Bank Berhad ("AFFIN")*Refer to notes 2(r), 32 to the consolidated financial statements*

Key audit matter	How the matter was addressed in our audit
<p>A number of key judgements were made by management in determining the inputs for the VIU calculation which included:</p> <ul style="list-style-type: none"> • forecast cash flows; • forecast regulatory capital adjustments required; • growth rates and terminal values; and • discount rate applied to the forecast cash flows. <p>We identified the impairment assessment of the Group's investment in AFFIN as a key audit matter because of the increased uncertainty of the VIU estimation and its significance to the consolidated financial statements, and because assessing the key assumptions involved a significant degree of management judgement which may affect both the carrying value of the Group's investment in AFFIN at year end and amount of impairment charge for the year.</p>	<ul style="list-style-type: none"> • comparing the actual results of AFFIN for the past years to forecasts prepared by management for the preceding years to assess the accuracy of management's forecasting process; • evaluating the sensitivity analyses prepared by management for each of the key assumptions adopted in the discounted cash flow forecast, including growth rates applied, cash flow forecast, and discount rate assumptions, and considering any management bias in formulating these assumptions; • evaluating the probabilities assigned by management to the various economic scenarios in the VIU calculation by assessing whether they were aligned with market and economic development; and • considering whether the disclosures in the consolidated financial statements in respect of the impairment assessment of the Group's investment in AFFIN reflected the risks inherent in the key assumptions with reference to the requirements of the prevailing accounting standards.

請參閱綜合財務報表附註2(r)和32

關鍵審計事項

審計對策

管理層於釐定使用價值計算的參數輸入時作出一些關鍵判斷，包括：

- 現金流預測；
- 預測的監管資本需求調整；
- 增長率及終值；及
- 對預測的現金流所使用的折現率。

由於估計使用價值涉及較高的不確定性及其對 貴集團財務報表的重要性，關鍵參數的評估涉及管理層的重大判斷，這些重大判斷可能影響 貴集團對AFFIN的投資於年末的賬面值及年內的減值損失，我們因此將 貴集團對AFFIN的投資的減值評估識別為關鍵審計事項。

- 將AFFIN過去的實際業績與管理層為往年準備的預測進行對比，以評估管理層預測程序的準確性；
- 評估管理層就於折現現金流預測使用的各項關鍵參數準備的敏感性測試，包括增長率，終值及折現率，並考慮作出這些假設當中管理層有偏向的可能性；
- 評估管理層於使用價值計算中對不同經濟情景使用的概率是否符合市場及經濟發展；及
- 參考現行會計準則的要求，考慮綜合財務報表內關於 貴集團對AFFIN的投資的減值評估的披露是否反映了關鍵假設固有的風險。

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

董事須負責根據香港會計師公會頒布的《香港財務報告準則》及香港《公司條例》擬備真實而中肯的綜合財務報表，並對其認為為使綜合財務報表的擬備不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部控制負責。

在擬備綜合財務報表時，董事負責評估 貴集團持續經營的能力，並在適用情況下披露與持續經營有關的事項，以及使用持續經營為會計基礎，除非董事有意將 貴集團清盤或停止經營，或別無其他實際的替代方案。

- 評價董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is McSheaffrey, Paul Kevin.

NOTES TO THE FINANCIAL STATEMENTS

財務報表附註

1. PRINCIPAL ACTIVITIES 主要業務

The Bank and its subsidiaries (the "Group") are engaged in the provision of banking and related financial services.

本行及其附屬公司(「本集團」)的主要業務為提供銀行及有關的金融服務。

2. SIGNIFICANT ACCOUNTING POLICIES 主要會計政策

(a) Statement of Compliance

These financial statements have been prepared in accordance with all applicable HKFRS, which collective term includes all applicable individual HKFRS, HKAS and Interpretations issued by the HKICPA, accounting principles generally accepted in Hong Kong and the requirements of Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Listing Rules. A summary of the significant accounting policies adopted by the Group is set out below.

The HKICPA has issued certain new and revised HKFRS that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

(b) Basis of Preparation of the Financial Statements

The consolidated financial statements for the year ended 31st December, 2020 comprise the Group and the Group's interest in associates and joint ventures.

The measurement basis used in the preparation of the financial statements is historical cost except that the following assets and liabilities are stated at their fair value as explained in the accounting policies set out below:

- financial instruments classified as trading, designated or mandatorily measured at fair value through profit or loss and measured at fair value through other comprehensive income (Note 2(h)(ii));
- derivative financial instruments (Notes 2(l) and 2(k)); and
- investment properties (Note 2(o)(ii)).

The preparation of financial statements in conformity with HKFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) 符合指引聲明

本財務報表乃按照香港會計師公會頒布所有適用的《香港財務報告準則》，其整體已包括個別適用的《香港財務報告準則》、《香港會計準則》及詮釋，以及香港一般採用的會計原則及《公司條例》的要求。本財務報表亦符合聯交所《上市規則》有關的披露規定。本集團採納的主要會計政策簡列如下。

香港會計師公會已頒布數項新增及經修訂的《香港財務報告準則》，並於本年度本集團的會計期首次生效或可被提早採納。附註3提供因首次應用該等準則而引致會計政策變動的資料，而該等資料只包括與本集團有關而須反映在本期及去年會計期的財務報表。

(b) 財務報表編製基準

截至2020年12月31日止年度的綜合財務報表包括本集團及其應佔聯營公司及合資企業之權益。

除以下資產及負債是以公平價值列賬外，本財務報表是以原值成本作為計量基準。有關詳情載列於下列會計政策：

- 分類作交易用途、指定或強制通過損益以反映公平價值及通過全面收益以反映公平價值的金融工具(附註2(h)(ii))；
- 衍生金融工具(附註2(l)及2(k))；及
- 投資物業(附註2(o)(ii))。

按《香港財務報告準則》之要求，在編製財務報表時，管理層須作判斷、估計及假設從而影響政策實施及資產和負債、及收入與支出之呈報金額。有關估計及假設乃按在既定情況下可合理地相信，根據過往之經驗及其他因素，作出判斷那些未能從其他來源確定的資產及負債的賬面值。實際結果可能與此等估計存在差異。

有關估計及假設須持續作檢討。若修訂只影響該修訂期，會計估計的修訂於該修訂期內確認；或如該修訂影響本期及未來會計期，則於修訂期及未來會計期內確認。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

Details of judgements made by management in the application of HKFRS that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 53.

(c) Basis of Consolidation

These consolidated financial statements cover the consolidated position of the Bank and all subsidiaries unless otherwise stated and the Group's interest in associates and joint ventures. For information required to be reported in accordance with the Banking (Disclosures) Rules, the basis of consolidation is set out in Note 1 in the Unaudited Supplementary Financial Information.

(i) Subsidiaries and Non-controlling interests

The consolidated financial statements include the financial statements of the Bank and all its subsidiaries made up to 31st December each year. Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Bank, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to equity shareholders of the Bank. Non-controlling interests in the results of the Group are presented on the face of the consolidated income statement and the consolidated statement of comprehensive income as an allocation of the net profit and total comprehensive income for the year between non-controlling interests and equity shareholders of the Bank.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

在附註53內，管理層已解釋實施對財務報表有重大影響的《香港財務報告準則》所作的詳細判斷及不明朗估計的主要來源。

(c) 綜合基準

除另外陳述外，本綜合財務報表包括本行及其所有附屬公司及本集團所佔聯營公司及合資企業之權益的綜合狀況。根據《銀行業(披露)規則》所要求匯報的資料，所採納的綜合基準已在未經審核補充財務資料附註1列載。

(i) 附屬公司及非控股權益

本綜合財務報表包括本行及其所有附屬公司截至各相關年度之12月31日止的財務報表。附屬公司為本集團所控制之實體。本集團基於對有關實體之權利、參與度及權力並可運用此等條件以影響其所得回報，則視為本集團對該實體擁有控制權。在評估是否有控制權時，本集團只考慮實質的權力(由本集團及其他人士所擁有)。

附屬公司之投資由控制權生效日起至控制權失效日止在綜合財務報表內計算。在編製綜合財務報表時，集團之間的結餘、交易及現金流及任何因集團之間交易所產生的未實現溢利均被抵銷。跟未實現溢利相同，因集團之間交易所產生的未實現虧損亦同樣被抵銷，但只局限於未有減值證據。

非控股權益指無論是直接或間接並不歸屬於本行之附屬公司的權益部分，及本集團並未與該等權益持有者達成附加協議，致令本集團整體上對該等權益產生符合金融負債定義的法定義務。就每一業務合併而言，本集團可選擇按公平價值或非控股權益按比例應佔該附屬公司的可辨識淨資產以計量非控股權益。

非控股權益在綜合財務狀況表內的股東權益中列示，但與可歸屬於本集團股東權益分開。非控股權益佔本集團之業績，在綜合收益表內以分配年度溢利之形式列示，而在綜合全面收益表則以分配年度全面收益總額予非控股權益與及可歸屬於本集團股東權益之形式列示。

本集團將不導致喪失控股權之附屬公司權益的變動按權益交易方式入賬，即只調整在綜合權益內之控股及非控股權益的金額以反映其相關權益的變動，但不調整商譽及確認盈虧。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (Note 2(h)) or, when appropriate, the cost on initial recognition of an investment in an associate and joint venture (Note 2(c)(ii)), and is offset against the gain or loss on the loss of control of that subsidiary.

In the Bank's statement of financial position, its investments in subsidiaries are stated at cost less any impairment losses, if any (Note 2(r)).

(ii) Associates and joint ventures

The consolidated financial statements include the attributable share of the results and reserves of associates and joint ventures based on financial statements prepared at dates not earlier than three months prior to 31st December each year.

An associate is a company in which the Group or the Bank has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

A joint venture is an arrangement whereby the Group or the Bank and other parties contractually agree to share control of the arrangement, and have rights to the net assets of the arrangement.

Investment in associates and joint ventures are accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale) (Note 2(ad)). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the associate or joint venture's identifiable net assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (Note 2(q) and 2(r)). Any excess of fair values of the investees' net identifiable assets over the cost of investment upon acquisition, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in the consolidated income statement, whereas the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income is recognised in the consolidated statement of comprehensive income.

當本集團喪失對一附屬公司之控股權，將按出售該附屬公司之所有權益入賬，而所產生的盈虧確認為損益。任何在喪失控股權日仍保留該前度附屬公司之權益按公平價值確認，而此金額被視為初始確認一金融資產(附註2(h))的公平價值，或(如適用)按成本初始確認一聯營公司及合資企業投資(附註2(c)(ii))，及當喪失對該附屬公司控股權時與盈虧沖銷。

在本行的財務狀況表中，附屬公司投資是以成本減除任何減值損失(附註2(r))列賬。

(ii) 聯營公司及合資企業

本綜合財務報表包括根據截至每年的12月31日止之前不超過三個月的財務報表所編製應佔聯營公司及合資企業的業績及儲備。

聯營公司是指本集團或本行可對其管理發揮重大影響力，包括參予其財務及經營政策的決策，但並不控制或共同控制其管理層。

合資企業是指本集團或本行與其他合約方共同擁有該合資企業之控制權，及對淨資產擁有權的安排。

除分類為持有作出售資產(或包括在分類為持有作出售資產的出售組別內)(附註2(ad))外，聯營公司及合資企業投資是以權益會計法在綜合財務報表內入賬。根據權益會計法，投資的入賬方法是先以成本另調整本集團於購入後應佔該聯營公司及合資企業的可辨認淨資產所超出成本之任何金額。往後，需調整在收購後本集團應佔被投資方淨資產之變動及在(附註2(q)和2(r))所載有關投資的減值損失。任何於收購日應佔被投資方可辨認淨資產的公平價值超出投資成本、本集團應佔被投資方收購後和已除稅的業績及年度內的任何減值損失均在綜合收益表內確認，而本集團應佔被投資方收購後和已除稅之其他全面收益項目則在綜合全面收益表內確認。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

When the Group's share of losses exceeds its interest in an associate or a joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For these purposes, the Group's interest in the associate or the joint venture is the carrying amount of the investment under the equity method together with the Group's long-term interests that in substance form part of the Group's net investment in the associate or the joint venture.

Unrealised profits and losses resulting from transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in the investee, except when unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (Note 2(h)).

The Bank accounts for the results of associates and joint ventures to the extent of dividends received. Investments in associates and joint ventures are stated in the Bank's statement of financial position at cost less any impairment losses (Note 2(r)).

(d) Translation of Foreign Currencies

Foreign currencies transactions during the year are translated into Hong Kong dollars at the rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Hong Kong dollars at the rates of exchange ruling at the end of the reporting period. Exchange gains and losses are recognised in the income statement.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into Hong Kong dollars using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

Exchange differences relating to investments at fair value through profit or loss (FVTPL) and derivative financial instruments are included in gains less losses from trading securities or financial instruments at fair value through profit or loss. All other exchange differences relating to monetary items are presented as gains less losses from dealing in foreign currencies in the income statement. Differences arising on translation of equity investments for which an election has been made to present subsequent changes in fair value in other comprehensive income are recognised in other comprehensive income and accumulated separately in equity.

除本集團對該聯營公司及合資企業所作具法律或推定義務或替該被投資方償付的承擔外，當本集團應佔該聯營公司及合資企業的虧損超出本集團之應佔權益時，超出的虧損將不被確認，而本集團應佔該被投資方之權益將被減值至零。因此，本集團應佔該聯營公司及合資企業權益即按權益會計法計算投資賬面值，及實質上構成本集團應佔該聯營公司及合資企業淨資產的長期權益。

本集團與聯營公司及合資企業交易而產生之未實現溢利及虧損，按本集團應佔該被投資方之權益為限作沖銷。若有證據顯示未實現虧損屬資產轉讓的減值損失，則須立即於損益賬內確認。

當本集團喪失對一聯營公司及合資企業之重大影響力及合資企業之共同控制權，將按出售該被投資方之所有權益入賬，而所產生的盈虧確認為損益。任何在喪失重大影響力或共同控制權日仍保留該前度被投資方之權益按公平價值確認，而此金額被視為初始確認一金融資產(附註2(h))的公平價值。

本行按照已收取股息計算應佔聯營公司及合資企業之業績。在本行的財務狀況表中，聯營公司及合資企業投資是以成本減除任何減值損失(附註2(r))列賬。

(d) 外幣換算

年度內的外幣交易按交易日的匯率折算為港幣。以外幣為單位的貨幣性資產及負債按報告期結束日的匯率折算為港幣。匯兌盈虧則計入收益表內。

以原值成本列賬但以外幣為單位的非貨幣性資產及負債按交易日的匯率折算為港幣。以外幣為單位及按公平價值列賬的非貨幣性資產及負債按釐定其公平價值日的匯率折算。

有關通過損益以反映公平價值投資及衍生金融工具的匯兌差額分別包括於交易用途證券淨盈虧或指定通過損益以反映公平價值投資淨盈虧。其他有關貨幣性資產及負債的匯兌差額則於收益表之外幣買賣溢利項下列示。因折算已選擇將往後公平價值變動在其他全面收益列示的股份證券所產生的差額則於其他全面收益內確認，並在股東權益內分開累計。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The results of foreign operations are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Items of statement of financial position, including goodwill arising on consolidation of foreign operations acquired on or after 1st January, 2005, are translated into Hong Kong dollars at the foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognised directly in other comprehensive income and accumulated separately in equity in the exchange reserve. Goodwill arising on consolidation of a foreign operation acquired before 1st January, 2005 is translated at the foreign exchange rate that applied at the date of acquisition of the foreign operation.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to the income statement when the profit or loss on disposal is recognised.

(e) Interest

Effective interest rate

Interest income and expense for all interest-bearing financial instruments are recognised in the income statement on an accrual basis using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset or the amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than credit-impaired assets, the Group estimates future cash flows considering all contractual terms of the financial instrument but not expected credit losses. For financial assets that were purchased or originated as credit-impaired on initial recognition, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses (i.e. no expected credit loss provision is required at initial recognition).

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. The transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

海外業務之業績按交易日相約的匯率折算為港幣。資產負債表項目、財務狀況表的項目中，包括於2005年1月1日或以後因收購海外業務而在綜合時所產生的商譽，按報告期結束日的匯率折算為港幣。產生的匯兌差額直接在其他全面收益內確認，並在股東權益之匯兌儲備內分開累計。因於2005年1月1日以前收購海外業務而在綜合時所產生的商譽按收購海外業務日的匯率折算。

當確認出售海外業務的損益時，因該海外業務產生的累計匯兌差額由股東權益計入收益表。

(e) 利息

有效利率

所有帶息金融工具的利息收入及支出均按有效利率方法於收益表內以應計基準確認。

有效利率是可準確將金融工具在預計年期內產生之未來現金支出或收入折算為該金融資產的賬面值或該金融負債的攤銷成本的利率。

在計算除信貸不良資產外的金融工具的有效利率時，本集團計及金融工具的所有合約條款，但不計及預期信貸損失，以估計未來現金流。就初始確認時已購入或源生的信貸不良金融資產，使用估計未來現金流(包括預期信貸損失)計算信貸調整有效利率(即在初始確認時無需作出預期信貸損失撥備)。

有效利率的計算包括構成有效利率組成部分的交易成本及費用以及基點支出或收入。交易成本包括金融資產或金融負債的收購或發行直接應佔的增加成本。

攤銷成本及賬面值總額

金融資產或金融負債的「攤銷成本」是金融資產或金融負債於初始確認時計量的金額減本金還款額，加減使用有效利率方法計算的初始確認金額與到期金額之任何差額而計算的累計攤銷，而就金融資產而言，經任何預期信貸損失準備作調整。

「金融資產的賬面值總額」是金融資產就任何預期信貸損失準備作調整前的攤銷成本。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

Calculation of interest income and expense

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

For financial assets that were purchased or originated as credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortised cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

For information on when financial assets are credit-impaired, please refer to Note 2(h)(vii).

(f) Fee and Commission

Fee and commission income and expense that are integral to the effective interest rate on a financial asset or financial liability are included in the effective interest rate calculation (Note 2(e)).

Other fee and commission income is recognised in the income statement when the corresponding service is provided. Origination or commitment fees received/paid by the Group which result in the creation or acquisition of a financial asset are deferred and recognised as an adjustment to the effective interest rate. If it is uncertain that a loan commitment will result in draw-down of a loan, then the related loan commitment fee is recognised as revenue on a straight-line basis over the commitment period.

Other fee and commission expenses relate mainly to transaction and service fees, which are expensed when the services are received.

(g) Other Revenue Recognition

Other revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in the income statement as follows:

- (i) Net income from financial instruments at fair value through profit or loss and net trading income
Net income from financial instruments designated as at FVTPL, net income from non-trading financial assets mandatorily measured at FVTPL and net trading income comprises all gains and losses from changes in fair value (net of accrued coupon) of such financial assets and financial liabilities, together with foreign exchange differences and dividend income attributable to these financial instruments. Coupon interest from these financial assets and financial liabilities measured at FVTPL is accrued and presented as interest income or interest expense.

計算利息收入及支出

在計算利息收入及支出時，有效利率應用於資產的賬面值總額(當資產並非信貸不良時)或負債的攤銷成本。

然而，就初始確認後成為信貸不良的金融資產而言，透過將有效利率應用於該金融資產的攤銷成本而計算利息收入。若資產不再屬信貸不良，則恢復使用總額基準計算利息收入。

就初始確認時已購入或源生的信貸不良金融資產而言，透過將經信貸調整的有效利率應用於該資產的攤銷成本計算利息收入。即使該資產的信貸風險有所改善，亦不恢復使用總額基準計算利息收入。

有關金融資產屬信貸不良時的資料見附註2(h)(vii)。

(f) 服務費及佣金

有效利率的計算(附註2(e))包括金融資產及金融負債中構成有效利率組成部分的服務費及佣金收入及支出。

其他服務費及佣金收入在有關服務提供時確認在收益表內。因本集團開展或購入金融資產而產生之開立或承擔服務費收入/支出須遞延及確認為有效利率之調整。如不確定會否借出貸款，該相關承擔服務費按承擔期限以直線法列作收入。

其他服務費及佣金支出主要是交易及服務費，並在獲得服務時支銷。

(g) 其他收入確認

其他收入按已收或應收價款的公平價值釐定。假設經濟利益有可能流向本集團及收入和支出(如適用)屬可靠計量的，在收益表內確認收入的方法如下：

- (i) 通過損益以反映公平價值金融工具的淨收入及淨交易收入
指定通過損益以反映公平價值金融工具的淨收入，強制通過損益以反映公平價值之非交易用途金融資產及淨交易收入包括所有金融資產及金融負債之公平價值變動產生的盈虧(減除應計利息)，以及應歸屬於該等金融工具的匯兌差額及股息收入。由該等通過損益以反映公平價值金融資產及金融負債產生的應計票面利息列作利息收入或利息支出。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

- (ii) Finance income from finance leases
Finance income implicit in finance leases is recognised as interest income over the period of the lease so as to produce an approximately constant periodic rate of return of the outstanding net investment in the leases for each accounting period.
- (iii) Rental income from operating leases
Rental income received under operating leases is recognised as other operating income in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives granted are recognised in the income statement as an integral part of the aggregate net lease payments receivable. Contingent rentals receivable are recognised as income in the accounting period in which they are earned.
- (iv) Dividend income
Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established unconditionally. Dividend income from listed investments is recognised when the share price of the investment is quoted ex-dividend.

(h) Financial Instruments

- (i) Initial recognition
The Group initially recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument. A regular way purchase or sale of financial assets at FVTPL, investment securities classified as measured at fair value through other comprehensive income (FVOCI), derivative transactions or debts issued are recognised using trade date accounting. Other financial assets and financial liabilities are recognised using settlement date accounting.

Financial instruments are measured initially at fair value, which normally will be equal to the transaction price plus, in case of a financial asset or financial liability not held at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset or issue of the financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately.

Any gains and losses of the financial assets or financial liabilities measured at fair value arising from changes in fair value are recorded from the date of initial recognition.

Accrued contractual interests from financial assets and liabilities are presented as accrued interest receivables and payables separately in the financial statements.

- (ii) 融資租賃收入
融資租賃隱含財務收入按租賃年期確認為利息收入，以令每個會計年度期間剩餘的淨租賃投資回報大致相同。
- (iii) 經營租賃租金收入
除非有更具代表性的基準衡量從租賃資產獲取利益的模式，其經營租賃之租金收入按該租期所涵蓋的年期以等額分期確認為其他經營收入。經營租賃協議所涉及的激勵措施均在收益表中確認為租賃淨收款總額的組成部分。或有租金以賺取該收入的會計期間列作收入。
- (iv) 股息收入
非上市投資股息收入在股東收取權被無條件確立時才予以確認。上市投資股息收入則在該投資的股價除息時才被確認。

(h) 金融工具

- (i) 初始確認
當本集團成為金融工具合約其中一方時初始確認金融資產和金融負債。以正常方式購買或出售通過損益以反映公平價值的金融資產、通過其他全面收益以反映公平價值計量的投資證券、衍生產品交易或已發行債務俱按交易日會計法確認。其他金融資產和金融負債則按結算日會計法確認。

金融工具於初始期按公平價值計量，而公平價值大致與交易價相同。如金融資產或金融負債不屬於通過損益以反映公平價值，則包括直接歸屬於購入之金融資產或發行金融負債的交易成本。通過損益以反映公平價值的金融資產或金融負債的交易成本立即作費用支銷。

自初始確認日期起，按公平價值計量的金融資產或金融負債因公平價值變動而產生的任何盈利及虧損均予以記錄。

金融資產及負債的應計合約利息在財務報表中作為應計應收及應付利息分開列示。

(ii) Classification

Financial assets and liabilities

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost, FVOCI or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in other comprehensive income – (Note 2(n)). This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

(ii) 分類

金融資產及金融負債

金融資產

於初始確認時，金融資產分類為：按攤銷成本、通過其他全面收益以反映公平價值或通過損益以反映公平價值計量。

一項金融資產按攤銷成本計量，其必須符合以下條件及未有指定為通過損益以反映公平價值：

- 該資產是在一個以持有該資產以收取合約現金流為目的之商業模式中持有；及
- 該金融資產的合約條款於指定日期產生符合本金及按本金結餘的利息支付特徵的現金流。

一項債務工具按通過其他全面收益以反映公平價值計量，其必須符合以下條件及未有指定為通過損益以反映公平價值：

- 該資產是在一個以收取合約現金流及出售金融資產為目的之商業模式中持有；及
- 該金融資產的合約條款於指定日期產生符合本金及按本金結餘的利息支付特徵的現金流。

非交易用途之股份投資初始確認時，本集團可作出不可撤回的選擇，將其後續公平價值變化確認於其他全面收益—(附註(2(n)))。該選擇是按投資逐項作出。

所有其他金融資產均分類為按通過損益以反映公平價值計量。

此外，於初始確認時，在可消除或明顯減少會計錯配的情況下，本集團可不可撤回地指定在其他情況下符合按攤銷成本或通過其他全面收益以反映公平價值條件的金融資產為通過損益以反映公平價值計量。

Business model assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

商業模式評估

本集團評估在組合層面持有資產的商業模式之目標，因為這最能反映業務管理的方法及向管理層提供資料的方式。所考慮的資料包括：

- 組合的既定政策和目標以及該等政策的實際操作。尤其是，管理層的策略專注於賺取合約利息收入、維持特定的利率曲線、將金融資產的期限與為該等資產提供資金的負債或通過出售資產變現現金流的期限相配；
- 如何評估組合的表現並向本集團的管理層報告；
- 影響商業模式（及該商業模式下持有的金融資產）表現的風險以及如何管理該等風險；
- 業務管理人員如何得到補償—例如，補償是否根據所管理資產的公平價值或所收取的合約現金流釐定；及
- 過往期間的出售頻率、銷量和出售時點，出售原因以及其對未來出售活動的預期。然而，銷售活動的資料並非孤立考慮，而是作為關於本集團如何實現既定的金融資產管理目標及如何實現現金流的整體評估的一部分。

持作交易用途或管理或按公平值基準評估其表現的金融資產乃按通過損益以反映公平價值計量，因其既非持作收取合約現金流之用，亦非持作收取合約現金流及出售金融資產之用。

評估合約現金流是否純粹為支付本金及利息

就此項評估而言，「本金」的定義是金融資產在初始確認時的公平價值。「利息」的定義是貨幣的時間價值以及與特定時段內未償還本金有關的信用風險以及其他基本貸款風險和成本（例如流動性風險和管理費用）及利潤率的代價。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money (e.g. periodic reset of interest rates).

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets. When (and only when) the Group changes its business model for managing financial assets, it reclassifies all affected financial assets in accordance with the new business model. The reclassification should be applied prospectively from the 'reclassification date', which is defined as, 'the first day of the first reporting period following the change in business model that results in reclassifying financial assets'. Accordingly, any previously recognised gains, losses or interest will not be restated.

If a financial asset is reclassified out of the amortised cost measurement category and into the FVTPL or FVOCI measurement category, its fair value is measured at the reclassification date. Any gain or loss arising from a difference between the previous amortised cost of the financial asset and fair value is recognised in profit or loss (if reclassification as FVTPL measurement category) or is recognised in other comprehensive income (if reclassification as FVOCI measurement category).

If a financial asset is reclassified out of the FVOCI measurement category and into the amortised cost measurement category, the financial asset is reclassified at its fair value at the reclassification date. However, the cumulative gain or loss previously recognised in other comprehensive income is removed from equity and adjusted against the fair value of the financial asset at the reclassification date. As a result, the financial asset is measured at the reclassification date as if it had always been measured at amortised cost.

在評估合約現金流是否純粹為支付本金及利息時，本集團考慮工具的合約條款。這包括評估金融資產是否包含可能改變合約現金流的時點或金額，致使其不符合該項條件。在評估時，本集團考慮：

- 將會改變現金流金額及時點的或有事件；
- 槓桿特徵；
- 提前還款和延期條款；
- 限制本集團要求取得指定資產(例如無追索權資產安排)的現金流的條款；及
- 修正金錢時間價值特徵(例如定期調整利率)。

重新分類

除於本集團改變管理金融資產的商業模式後期間外，金融資產在初始確認後不會作出重新分類。當(並且僅當)本集團更改其管理金融資產的商業模式時，所有受影響的金融資產會根據新商業模式重新分類。重新分類應由「重分類日」前瞻性地應用。「重分類日」定義為「因商業模式變化而重新分類金融資產後的第一個報告期首天」。因此，任何之前確認的收益、虧損或利息不會重報。

如金融資產從按攤銷成本重新分類為通過損益以反映公平價值計量或通過其他全面收益以反映公平價值，則其公平價值會在重分類日計量。金融資產的先前攤銷成本與公平價值之間的差額產生的任何收益或損失會在收益表內確認(如重新分類為通過損益以反映公平價值計量)或在其他全面收益內確認(如果重新分類為通過其他全面收益以反映公平價值)。

如金融資產從通過其他全面收益以反映公平價值重新分類為按攤銷成本，則金融資產會在重分類日按其公平價值重新分類。然而，先前於其他全面收益確認的累計收益或虧損將從權益中扣除，並於重分類日按金融資產的公平價值調整。因此，金融資產在重分類日進行計量，就好像它一直以攤銷成本計量一樣。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

If a financial asset is reclassified out of the FVOCI measurement category and into the FVTPL measurement category, the financial asset continues to be measured at fair value. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

If a financial asset is reclassified out of the FVTPL measurement category and into the amortised cost measurement category, its fair value at the reclassification date becomes its new gross carrying amount.

If an entity reclassifies a financial asset out of the FVTPL measurement category and into the FVOCI measurement category, the financial asset continues to be measured at fair value and subsequent changes in fair value will be recognised in other comprehensive income.

Financial liabilities

The Group classifies its financial liabilities, other than financial guarantees and loan commitments, as measured at amortised cost or FVTPL.

The Group may, at initial recognition, irrevocably designate a financial liability as at FVTPL in either of the following circumstances:

- (i) When doing so results in more relevant information because either:
- a group of liabilities or a group of financial assets and liabilities is managed and its performance is evaluated and reported internally on a fair value basis; or
 - the designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.
- (ii) If a liability contract contains one or more embedded derivatives unless the embedded derivative(s) does not significantly modify the cash flows that would otherwise be required by the contract or if it is obvious that separation of the embedded derivative(s) is prohibited.

如金融資產從通過其他全面收益以反映公平價值重新分類為通過損益以反映公平價值計量，則該金融資產會繼續以公平價值計量。先前於其他全面收益確認的累計收益或虧損於重新分類日重新分類由權益轉入收益表作為重新分類調整。

如金融資產從通過損益以反映公平價值計量重新分類為按攤銷成本，則其在重新分類日的公平價值作為新的總賬面值。

如金融資產從通過損益以反映公平價值計量重新分類為通過其他全面收益以反映公平價值，則該金融資產會繼續以公平價值計量，而其後的公平價值變動會在其他全面收益中確認。

金融負債

本集團將其金融負債(財務擔保及貸款承擔除外)分類為按攤銷成本或按通過損益以反映公平價值計量類別。

本集團將其金融負債於初始確認時，在以下任一情況下，或分類為不可撤銷形式指定為按通過損益以反映公平價值計量：

- (i) 當指定為按通過損益以反映公平價值計量可提供更相關資訊，因：
- 該負債組別或金融資產及負債是按公平價值作內部管理、評估及呈報；或
 - 該指定可抵銷或明顯減少因計量資產及負債或按不同基準確認盈利和虧損時可能產生計量或確認的不一致。
- (ii) 如負債合約包含一個或多個嵌入式衍生工具，除非該等嵌入式衍生工具不會顯著改變合約原本要求的現金流量，或分拆該等嵌入式衍生工具是明顯地禁止。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

(iii) Fair value measurement principles

The fair value of financial instruments is based on their quoted market prices, where available, at the end of the reporting period without any deduction for estimated future selling costs.

If there is no publicly available latest traded price nor a quoted market price on a recognised stock exchange or a price from a broker/dealer for non-exchange-traded financial instruments or if the market for it is not active, the fair value of the instrument is estimated using valuation techniques that provide a reliable estimate of prices which could be obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data at the end of the reporting period.

(iv) Derecognition

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire, or where the financial asset, together with substantially all the risks and rewards of ownership, have been transferred.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in other comprehensive income is recognised in the income statement. Any cumulative gain/loss recognised in other comprehensive income in respect of equity investment securities designated as at FVOCI is not recognised in the income statement on derecognition of such securities, as explained in (Note 2(n)).

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

The Group uses the weighted average or first-in first-out method, where appropriate, to determine realised gains and losses to be recognised in the income statement on derecognition.

(v) Modifications of financial assets and financial liabilities

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised (Note 2(h)(iv)) and a new financial asset is recognised at fair value.

(iii) 計量公平價值之原則

金融工具的公平價值是根據報告期結束日之可得市場報價但未減除將來的估計出售成本。

如沒有公眾知悉的最後交易價格或在認可交易所的市場報價，或從經紀／交易員獲得屬於非交易所買賣的金融工具報價，又或該市場並不活躍，此工具的公平價值按估值模式估值，而該估值模式可根據實際市場交易提供可靠的估計價格。

當採用現金流折讓價格模式，估計將來現金流按管理層的最佳估計及採用的貼現率是在報告期結束日適用於相同條款工具的市場利率。當採用其他價格模式時，參數是在報告期結束日的市場價格資料。

(iv) 終止確認

當從金融資產獲得現金流的法定權利屆滿或已將重大風險及回報擁有權同時轉移後，本集團終止確認金融資產。

於終止確認金融資產時，資產賬面值(或終止確認部分資產的賬面值)與(i)已收代價(包括任何所得新資產減任何新負債)及(ii)已於其他全面收益確認的任何累計收益或虧損會於收益表內確認。指定為通過其他全面收益以反映公平價值的股份投資證券在其他全面收益中確認的任何累計收益／虧損均不會在終止確認時在收益表中確認(附註2(n))。

當合約的義務已被履行、取消或期滿，本集團終止確認金融負債。

本集團採用加權平均法或先進先出法(如適用)以釐定在終止確認時須在收益表確認的已實現盈利和虧損。

(v) 修改金融資產及金融負債

若金融資產的條款被修改，本集團會評估經修訂資產的現金流量是否重大不同。如現金流量有重大不同，則原金融資產的現金流量的法定權利被視為已過期。在此情況下，原金融資產會被終止確認(附註2(h)(iv))，並按公平價值確認為新金融資產。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the income statement. If such a modification is carried out because of financial difficulties of the borrower (Note 2(h)(vii)), then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income.

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the income statement.

(vi) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position only where there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(vii) Impairment

The Group recognises loss allowances for expected credit losses (ECL) on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments;
- lease receivables;
- financial guarantee contracts issued;
- loan commitments issued; and
- contract assets

No impairment loss is recognised on equity investments.

如果按攤銷成本計量的已修訂資產之現金流量並無重大差異，則該修訂不會終止確認該金融資產。在這種情況下，本集團會重新計算金融資產的總賬面值，並將調整總賬面值所產生的金額在收益表內確認為修訂損益。如果由於借款人的財務困難而進行此類修改(附註2(h)(vii))，則將損益與減值損失一併列報。在其他情況下，應列示為利息收入。

當合約條款被修改及已修訂之金融負債的現金流量有重大不同，本集團會終止確認其金融負債。在這種情況下，基於修改條款後的新金融負債會按公平價值確認。已終止的金融負債與已修改條款的新金融負債的賬面值差額會在收益表內確認。

(vi) 抵銷

只有具法定權利抵銷確認金額及計劃以淨額結算，或同時變賣資產以清償負債，金融資產和金融負債互相抵銷，並在財務狀況表內以淨額列示。

(vii) 減值

本集團就以下非通過損益以反映公平價值計量的金融工具的預期信貸損失確認減值準備：

- 屬債務工具的金融資產；
- 租賃應收賬款；
- 已發出的財務擔保合約；
- 已發出的貸款承擔；及
- 合約資產

無需為股份投資計算減值。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

The Group measures loss allowances for 12-month or lifetime ECL using a 3-stage approach as follows:

本集團使用3階段法計量12個月或合約期內之預期信貸損失的減值準備如下：

Stage 階段	Description 描述	Impairment Loss Allowance Measurement 減值損失準備計量
1	Performing 履行中	12-month ECL 12個月內之預期信貸損失
2	Performing but with a significant increase in credit risk at the reporting date compared to initial recognition 履約中但自其初始確認以來於報告日的信用風險大幅增加	Lifetime ECL 合約期內之預期信貸損失
3	Non-performing 不良	Lifetime ECL 合約期內之預期信貸損失

12-month ECL is the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

12個月內之預期信貸損失指金融工具在報告日後之12個月內，所有潛在違約事件所導致的信貸損失。

The Group adopts the criteria of stage allocation as follows:

本集團採納階段分配的準則如下：

HKMA's 5-Grade Asset classification 金管局的5級資產類別	Stage Allocation 階段分配
Pass 合格	1
Special Mention 需要關注	2
Substandard 次級	
Doubtful 呆滯	3
Loss 虧損	

The criteria of "significant increase of credit risk" has taken into consideration of two key factors:

「信貸風險顯著增加」的準則已計及兩個關鍵因素：

- The exposure has a significant deterioration of internal or external rating as compared with the rating at the time when the exposure was originated; and
- The rating of the exposure falls out of the "Low-Credit Risk Threshold" that is equivalent to the globally understood definition of "investment grade".

- 風險的內部或外部評級與風險產生之時的評級相比顯著轉差；及
- 風險的評級不再屬於相當於普遍理解的「投資級別」定義的「低信貸風險界限」。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

Measurement of ECL

ECL are a probability-weighted estimate of credit losses under different economic scenarios. They are measured as:

$$\text{Exposure at Default} \times \text{Probability of Default} \times \text{Loss Given Default}$$

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes but not limited to the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a loan that is overdue for 90 days or more is considered impaired.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- loan commitments and financial guarantee contracts: generally, as a provision on the liabilities side; and
- debt instruments measured at FVOCI: no loss allowance is presented in the statement of financial position because the carrying amount of these assets is their fair value, inclusive of any ECL. However, the loss allowance is recognised in the fair value reserve and disclosed separately.

計量預期信貸損失

預期信貸損失是在不同經濟情景中一個信貸損失的概率在加權後的估算值，以如下方法計量：

$$\text{違約風險承擔} \times \text{違約概率} \times \text{違約損失率}$$

信貸不良金融資產

於各報告日，本集團評估按攤銷成本列賬的金融資產及按通過其他全面收益以反映公平價值列賬的債務金融資產是否為信貸不良。當發生一宗或多宗對金融資產的估計未來現金流造成不利影響的事件，則該金融資產屬「信貸不良」。

金融資產出現信貸減值的證據包括但不限於以下可觀察數據：

- 借款人或發行人出現重大財政困難；
- 違反合約，如拖欠或逾期事件；
- 本集團根據其他情況下不會考慮的條款重組貸款或墊款；
- 借款人很可能會破產或進行其他財務重組；或
- 因財政困難而導致某擔保失去活躍市場。

因借款人的財政狀況惡化而重訂條款的貸款，除有證據證明無法收取合約現金流的風險已顯著減低且並無其他減值跡象外，通常被視為信貸不良。此外，逾期90日或以上的貸款被視為已減值。

在財務狀況表中列示預期信貸損失的準備

預期信貸損失的損失準備在財務狀況表中按以下方式列示：

- 按攤銷成本計量的金融資產：從資產的賬面值總額中扣除；
- 貸款承擔及財務擔保合約：一般作為負債方面的撥備；及
- 按通過其他全面收益以反映公平價值計量的債務工具：在財務狀況表中並不列示損失準備，因該等資產的賬面值為其公平價值，包括任何預期信貸損失。然而，損失準備在公平價值儲備內確認並單獨披露。

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

Write-off

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(i) Trading Assets and Liabilities

Trading assets and liabilities are those assets and liabilities which are acquired or incurred principally for the purpose of selling or repurchasing them in the near term, or are part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Trading assets and liabilities are initially recognised and subsequently measured at FVTPL.

(j) Contract Assets and Liabilities

When revenue is recognised by transferring goods or services to a customer before the consideration is received or before payment is due, the Group presents the amount of revenue as a contract asset, excluding any amounts presented as a receivable. A contract asset is recognised in statement of financial position when there is a right to consideration that is conditional on factors other than the passage of time. The contract asset is transferred to receivables when the right to consideration becomes unconditional. Impairment of a contract asset is measured on the same basis as a financial asset as (Note 2(h)(vii)) above. The Group presents the contract assets in "other accounts" of other assets in the statement of financial position.

A contract liability is recognised when a customer pays non-refundable consideration or when the Group has a right to an amount of non-refundable consideration that is unconditional, before the Group transfers a good or service to the customer. The Group presents the contract liabilities in "other accounts" of other liabilities in the statement of financial position.

As a practical expedient, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if the Group expects, at contract inception, that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less. The Group may recognise the incremental costs of obtaining a contract as an expense when incurred if the amortisation period of the asset that the Group otherwise would have recognised is one year or less.

撤銷

若貸款及債務證券無實際可收回的前景，則予撤銷(部分或全部)。當本集團判斷借款人並無資產或收入來源可產生足夠的現金流以償還應撤銷的金額時，一般會如此處理。然而，已撤銷的金融資產仍可能受到執行活動的影響，以遵守本集團收回應收金額的程序。

(i) 交易用途資產及負債

作交易用途的資產和負債包括主要是作短期出售或購入的金融資產和金融負債，或屬於組合一部分並共同管理的可辨識金融工具，及有證據顯示近期有短期出售以賺取利潤的模式。交易資產和負債於初始確認，及其後以公平價值計量且其變動計入當期損益。

(j) 合約資產及負債

若本集團透過向客戶轉讓貨品或服務履約並於客戶支付代價或款項到期前確認收入，則本集團應將該合約有關收益金額列示為合約資產，惟任何列示為應收賬款的金額除外。若獲取代價的權利以除時間流逝以外的因素為條件，則合約資產於財務狀況表中確認。當獲取代價的權利成為無條件時，合約資產將轉至應收賬款。合約資產減值與金融資產(附註2(h)(vii))的計算相同。本集團呈列合約資產於財務狀況表中其他資產內的其他賬項。

當客戶在本集團已獲取代價或款項到期時(以較早者為準)擁有收取不可退還代價的權利，則確認為合約負債。本集團的合約負債呈列在財務狀況表內的「其他負債」項下的「其他賬項」。

視乎實際情況，若本集團在訂立合約時預期實體向客戶轉讓已承諾的貨品或服務之時起至客戶支付該貨品或服務款項止的期間為一年或以內，則本集團毋須就重大融資組成部分的影響而調整已承諾的代價金額。若本集團原本會確認的資產攤銷期為一年或以內，則本集團可於產生時將獲得合約的增加成本確認為支出。

財務報表附註(續)

(k) Hedging

Hedge accounting recognises the offsetting effects on income statement of changes in the fair values of the hedging instrument and the hedged item. The Group assesses and documents whether the financial instruments that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items attributable to the hedged risks both at hedge inception and on an ongoing basis. The Group discontinues prospectively hedge accounting when (i) the hedging instrument expires or is sold, terminated or exercised; (ii) the hedge no longer meets the criteria for hedge accounting; or (iii) the Group revokes the designation.

(i) Cash flow hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, or the foreign currency risk of a committed future transaction, the effective part of any gain or loss on remeasurement of the derivative financial instrument to fair value is recognised in other comprehensive income and accumulated separately in equity in the hedging reserve. The ineffective portion of any gain or loss is recognised immediately in the income statement.

If the hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated gain or loss is reclassified from equity to be included in the initial cost or other carrying amount of the non-financial asset or liability. If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gain or loss is reclassified from equity to the income statement in the same period or periods during which the asset acquired or liability assumed affects the income statement (such as when interest income or expense is recognised).

For cash flow hedges, other than those covered by the preceding two policy statements, the associated gain or loss is reclassified from equity to the income statement in the same period or periods during which the hedged forecast transaction affects the income statement. When a hedging instrument expires or is sold, terminated or exercised, or the Group revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity until the transaction occurs and is recognised in accordance with the above policy. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss is reclassified from equity to the income statement immediately.

(k) 對沖

對沖會計法是確認因用作對沖工具與被對沖項目因公平價值變動而在收益表內產生之相互抵銷損益的影響。於衍生工具開始列作對沖工具及在對沖期間，本集團會評估及記錄用作對沖交易的金融工具是否有效地對沖相關項目的公平價值變動或現金流之風險。當(i)該用作對沖工具到期或已出售、終止或行使；(ii)該對沖交易不再符合對沖會計法的要求；或(iii)本集團取消對沖指定，本集團會停止繼續採用對沖會計法。

(i) 現金流量對沖

當衍生金融工具被指定對沖已確認資產或負債的不既定現金流量，或是甚有可能發生的預計交易，或已承諾未來交易之外匯風險，其重新計量衍生金融工具至公平價值有效對沖部分盈利或虧損會在其他全面收益內確認，並在股東權益中的對沖儲備內分開累計。而無效對沖部份的盈利或虧損則立即在收益表內確認。

如因對沖預計交易而其後須確認為非金融資產或非金融負債，其相關之盈虧由股東權益重新分類並包括在該非金融資產或負債的初始成本或其他賬面值內。如因對沖一項預計交易而其後須確認為金融資產或金融負債，其相關之盈虧由股東權益轉入收益表並計入相同期間或當購入資產或引起負債而影響該期間之收益表(如當確認為利息收入或支出)。

就現金流量對沖而言，除以上兩段政策已涵蓋外，其相關之盈虧由股東權益重新分類並包括在相同期間或受對沖預計交易所影響期間的收益表。當用作對沖工具已到期或出售、終止或行使，或當本集團取消指定對沖關係但對沖預計交易預期仍會發生，截至此期間所累計的盈利或虧損仍保留在股東權益內，直至交易發生時按以上的政策確認。如預計對沖交易不會發生，在股東權益內的累計盈利或虧損會立即由股東權益轉入收益表。

(ii) Fair value hedges

A fair value hedge seeks to offset risks of changes in the fair value of recognised asset or liability that will give rise to a gain or loss being recognised in the income statement.

The hedging instrument is measured at fair value, with fair value changes recognised in the income statement. The carrying amount of the hedged item is adjusted by the amount of the changes in fair value of hedging instrument attributable to the risk being hedged. This adjustment is recognised in the income statement to offset the effect of the gain or loss on the hedging instrument.

When a hedging instrument expires or is sold, terminated or exercised, the hedge no longer meets the criteria for hedge accounting, or the Group revokes designation of the hedge relationship, any adjustment up to that point, to a hedged item for which the effective interest method is used, is amortised to the income statement as part of the recalculated effective interest rate of the item over its remaining life.

(iii) Hedge effectiveness testing

In order to qualify for hedge accounting, the Group carries out prospective effectiveness testing to demonstrate that it expects the hedge to be highly effective at the inception of the hedge and throughout its life. Actual effectiveness (retrospective effectiveness) is also demonstrated on an ongoing basis.

The documentation of each hedging relationship sets out how the effectiveness of the hedge is assessed. The method which the Group adopts for assessing hedge effectiveness will depend on its risk management strategy.

For fair value hedge relationships, the Group utilises the cumulative dollar offset method or regression analysis as effectiveness testing methodologies. For cash flow hedge relationship, the Group utilises the change in variable cash flow method or the cumulative dollar offset method using the hypothetical derivative approach.

For prospective effectiveness, the hedging instrument must be expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated. For actual effectiveness, the changes in fair value or cash flows must offset each other in the range of 80 per cent to 125 per cent for the hedge to be deemed effective.

(ii) 公平價值對沖

公平價值對沖用作抵銷已確認資產或負債因公平價值變動產生須在收益表內入賬的盈利和虧損的風險。

對沖工具按公平價值列賬，而公平價值的變動在收益表內入賬。被對沖項目的賬面值按對沖工具所對沖之風險的價格變動予以調整。此調整在收益表內入賬以抵銷對沖工具產生的盈利和虧損。

當用作對沖工具到期或已出售，終止或行使，或當對沖不再符合對沖會計法的要求，或本集團取消對沖指定關係，所有截至此期間內按有效利率方式調整的被對沖項目，會按該項目餘下年期當作重新計算有效利率在收益表內攤銷。

(iii) 對沖效用測試

為符合對沖會計法，本集團必須進行兩種測試：在開始對沖時進行「預計效用」測試，顯示預期成效極高；在對沖期內持續進行「追溯效用」測試，證明實際有效。

有關各對沖關係之文件載有如何評估對沖效用。本集團採納之對沖效用評估方法，是按照既定風險管理策略而實施。

對於公平價值對沖關係，本集團採用累計價值抵銷法或回歸分析作為效用測試之方法。對於現金流量對沖關係，本集團會測試現金流量的變動或對沖組合的規模是否充足，或以模擬衍生工具方式，運用累計價值抵銷法測試。

就預計效用而言，對沖工具必須被預期為在劃定對沖期間內，能高度有效地抵銷對沖風險之公平價值或現金流量之變動。就實際效用而言，公平價值或現金流量之變動抵銷額在80%至125%範圍才被視為有效。

財務報表附註(續)

(l) Derivatives

Derivatives are recognised initially and are subsequently remeasured, at fair value. Derivatives are classified as assets when their fair value is positive or as liabilities when their fair value is negative, this includes embedded derivatives which are bifurcated from the host contract, when they meet the definition of a derivative on a standalone basis.

Derivatives may be embedded in another contractual arrangement (a host contract). The Group accounts for an embedded derivative separately from the host contract when:

- the host contract is not an asset in the scope of HKFRS 9;
- the host contract is not itself carried at FVTPL;
- the terms of the embedded derivative would meet the definition of a derivative if they were contained in a separate contract; and
- the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract.

Separated embedded derivatives are measured at fair value, with all changes in fair value recognised in profit or loss unless they form part of a qualifying cash flow or net investment hedging relationship.

(m) Loans and Advances

Loans and advances mainly comprise placements with and advances to banks, trade bills and loans and advances to customers:

- loans and advances measured at amortised cost (Note 2(h)(ii)); they are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method;
- loans and advances mandatorily measured at FVTPL or designated as at FVTPL (Note 2(h)(ii)); these are measured at fair value with changes recognised immediately in the income statement;
- loans and advances measured at FVOCI (Note 2(h)(ii)); and
- finance lease receivables (Note 2(s)).

When the Group purchases a financial asset and simultaneously enters into an agreement to resell the asset (or a substantially similar asset) at a fixed price on a future date (reverse repo or stock borrowing), the arrangement is accounted for as a loan or advance, and the underlying asset is not recognised in the Group's financial statements.

(l) 衍生工具

衍生工具初始確認及其後按公平價值重新計量。當衍生工具的公平價值為正數時，衍生工具分類為資產；當公平價值為負數時，衍生工具則分類為負債，這包括在獨立基礎上符合衍生工具定義但從主合同分拆的嵌入式衍生工具。

衍生工具可能嵌入另一合同(主合同)。在下列情況下，本集團會分開計算主合同及嵌入的衍生工具：

- 該主合同並非在《香港財務報告準則》第9號所覆蓋的資產；
- 該主合同不是通過損益以反映公平價值計量；
- 嵌入衍生工具的條款如果包含在單獨的合同中，符合衍生工具的定義；及
- 該嵌入衍生工具的經濟特性及風險與主合同並非緊密關連的。

分離的嵌入式衍生工具按公平價值計量，公平價值的所有變動均在收益內確認，除非他們構成合資格現金流量或淨投資對沖關係的一部分。

(m) 貸款及墊款

貸款和墊款主要包括在銀行的存款及墊款、貿易票據和客戶貸款及墊款：

- 按攤銷成本計量的貸款和墊款(附註2(h)(ii))：初始以公平價值加上直接相關的交易成本計量，其後以有效利率法按攤銷成本計量；
- 強制性通過損益以反映公平價值計量的貸款及墊款(附註2(h)(ii))：以公平價值計量，其變動立即在收益表內確認；
- 通過其他全面收益以反映公平價值的貸款及墊款(附註2(h)(ii))；及
- 融資租賃應收款項(附註2(s))。

當本集團購買金融資產並同時訂立協議以未來日期的固定價格(反向回購或股票借入)轉售資產(或實質上相似的資產)時，該安排將作為貸款及墊款入賬，相關資產不會在本集團財務報表中確認。

(n) Investment Securities

The 'investment securities' caption in the statement of financial position includes:

- debt investment securities measured at amortised cost (Note 2(h)(ii)); these are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method;
- debt and equity investment securities mandatorily measured at FVTPL or designated as at FVTPL (Note 2(h)(ii)); these are measured at fair value with changes recognised immediately in the income statement;
- debt securities measured at FVOCI (Note 2(h)(ii)); and
- equity investment securities designated as at FVOCI (Note 2(h)(ii)).

For debt securities measured at FVOCI, gains and losses are recognised in other comprehensive income, except for the following, which are recognised in the income statement in the same manner as for financial assets measured at amortised cost:

- interest revenue using the effective interest method;
- ECL and reversals; and
- foreign exchange gains and losses.

When a debt security measured at FVOCI is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the income statement.

The Group elects to present in OCI changes in the fair value of certain investments in equity instruments that are not held for trading. The election is made on an instrument-by-instrument basis on initial recognition and is irrevocable.

Gains and losses on such equity instruments are never reclassified to the income statement and no impairment is recognised in the income statement. Dividends are recognised in the income statement unless they clearly represent a recovery of part of the cost of the investment, in which case they are recognised in other comprehensive income. Cumulative gains and losses recognised in other comprehensive income are transferred to retained earnings on disposal of an investment.

(n) 投資證券

財務狀況表中的「投資證券」包括：

- 以攤銷成本計量的債務投資證券(附註2(h)(ii))：這些初始按公平價值加上直接相關交易成本計量，其後以有效利率法按攤餘成本計量；
- 債務和股權投資證券強制性通過損益以反映公平價值計量或指定為通過損益以反映公平價值計量(附註2(h)(ii))，其公平價值變動立即在收益表中確認；
- 通過其他全面收益以反映公平價值的債務證券(附註2(h)(ii))；及
- 指定為通過其他全面收益以反映公平價值的股權投資證券(附註2(h)(ii))。

就通過其他全面收益以反映公平價值的債務證券而言，收益及虧損於其他全面收益確認，惟以下各項會於收益表內確認，與按攤銷成本計量的金融資產相同：

- 以有效利率法計算的利息收入；
- 預期信用損失和轉回；及
- 外匯收益和損失。

當通過其他全面收益以反映公平價值的債務證券被終止確認時，以前在其他全面收益中確認的累計收益或虧損將從權益重新分類至收益表內。

本集團選擇在其他全面收益中列示非持作買賣的股份工具投資之公平價值變動。該選擇是按個別工具於初始確認時進行，並不可撤銷的。

此類股份工具的收益和損失不會重新分類至收益表，亦不會在收益表中確認減值。股息在收益表內確認，但若該等股息明確顯示為收回部分投資成本者，會在其他全面收益中確認。其他全面收益中確認的累計收益和損失會於出售投資時轉入留存溢利。

(o) Properties

- (i) Bank premises are stated in the statement of financial position at cost or at Directors' valuation as of 1989, by reference to an independent professional valuation, less accumulated depreciation and accumulated impairment loss (Note 2(r)).

When a deficit arises on revaluation, it will be charged to the income statement, to the extent that it exceeds the amount held in the bank premises revaluation reserve in respect of that same asset immediately prior to the revaluation; and when a surplus arises on revaluation, it will be credited to the income statement, to the extent that a deficit on revaluation in respect of that same asset had previously been charged to the income statement.

In preparing these financial statements, advantage has been taken of the transitional provisions set out in paragraph 80AA of HKAS 16 "Property, Plant and Equipment" issued by the HKICPA, with the effect that bank premises have not been revalued to fair value at the end of the reporting period.

- (ii) Investment properties are properties which are held either to earn rental income, for capital appreciation or for both. Investment properties are stated at fair value. Investment properties are valued semi-annually by external independent valuation companies, having an appropriate recognised professional qualification and recent experience in the location and category of property being valued. No allowance has been made in the valuations for any charges, mortgages or amounts owing on the properties nor any expenses or taxation which may be incurred in effecting a sale.

Any gain or loss arising from a change in fair value is recognised in the income statement. Rental income from investment property is accounted for as described in Note 2(g)(iii).

When a bank property is transferred to investment property following a change in its use, any differences arising at the date of transfer between the carrying amount of the bank property immediately prior to transfer and its fair value is recognised as a revaluation of bank premises as described in Note 2(o)(i).

If an investment property becomes owner-occupied, it is reclassified as bank premises and its fair value at the date of reclassification becomes its cost for subsequent accounting purposes.

A property interest under a lease is classified and accounted for as an investment property when the Group holds it to earn rentals or for capital appreciation or both. Any such property interest under a lease classified as an investment property is carried at fair value. Lease payments are accounted for as described in Note 2(s).

- (iii) Profit or loss on disposal of bank premises and investment properties is determined as the difference between the net sales proceeds and the carrying amount of the asset and is recognised in the income statement upon disposal. Any surplus that is included in the bank premises revaluation reserve related to the bank premises disposed is transferred to the general reserve.

(o) 物業

- (i) 行址是按成本或於1989年董事參照獨立專業評估作出的估值，減除累計折舊及減值損失(附註2(r))後於財務狀況表中列賬。

當重估出現虧損時，於收益表支銷的金額，只限於超過以往因重估相同行址而存入行址重估儲備的結餘；當重估出現盈餘時，存入收益表內的金額不可超過以往因重估相同行址曾於收益表支銷的重估虧損。

在編製此等財務報表時，由於可採用香港會計師公會頒布的《香港會計準則》第16號「物業、廠房及設備」第80AA段所載的過渡條款，故行址並未在報告期結束日重估至公平價值。

- (ii) 投資物業是持有用作賺取租金收益或資本增值或二者皆是的物業。投資物業按公平價值列賬。投資物業由外來獨立估價公司每半年作估值，該公司擁有適當認可專業資格及對估值物業的所在地和類別有近期經驗。估值並未計算任何抵押、按揭、欠款、及在出售時可能產生的任何費用或稅項。

因公平價值變動而產生的損益在收益表內入賬。投資物業租金收入按附註2(g)(iii)所載計算。

如附註2(o)(i)所載，當一項物業因其用途改變而須轉作投資物業時，該物業於轉賬日前的賬面值與公平價值之差額視作行址重估。

如一投資物業轉為自用，該物業須重新分類為行址。於重新分類日的公平價值視作日後作會計用途的成本值。

本集團以租賃方式持有用作租金收入或資本增值或二者皆是的物業權益分類為投資物業。此等以租賃方式持有的物業權益按公平價值列賬。租金支出按附註2(s)所載入賬。

- (iii) 出售行址及投資物業的損益是以出售所得款項淨額與資產賬面值的差價計算，並在出售時於收益表內入賬。任何有關之重估行址盈餘於出售時從行址重估儲備撥入一般儲備內。

(p) Amortisation and Depreciation

(i) Bank premises

Freehold land is not amortised. Leasehold land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease. Leasehold land is amortised on a straight line basis over the remaining term of the lease. Buildings are depreciated on a straight line basis at rates calculated to write off the cost or valuation of each building over its estimated useful life of 50 years or the remaining lease period of the land on which it is situated, whichever is the shorter.

Investment properties are not depreciated.

(ii) Other fixed assets

Other fixed assets are stated in the statement of financial position at cost less accumulated depreciation and impairment losses, which is calculated on a straight line basis to write off the assets over their estimated useful lives from 4 to 20 years.

(q) Goodwill

Goodwill represents the excess of

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the Group's interest in the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash-generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (Note 2(r)).

On disposal of a cash-generating unit, any attributable amount of purchased goodwill is included in the calculation of the profit and loss on disposal.

Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred.

(p) 攤銷及折舊

(i) 行址

永久業權之土地不予攤銷。用作經營租賃的租賃土地，而其公平價值是不能夠與租賃於初始時已存在之建築物的公平價值分開計量，則當作持有融資租賃入賬。租賃土地以直線法按租賃剩餘年期攤銷。建築物的成本或估值以直線法按其預計使用年限50年或其座落土地剩餘租賃期兩者中的較短期限計算折舊。

投資物業是不予折舊。

(ii) 其他固定資產

其他固定資產是按成本減累計折舊及減值損失於財務狀況表中列賬。該等資產是以直線法按照由4年至20年的預計使用年期計算折舊。

(q) 商譽

商譽指

- (i) 對價轉讓的公平價值、任何被購入者的非控股權益金額及以往本集團曾經持有該被購入者的股東權益公平價值的總和；超出
- (ii) 本集團在收購日計量應佔該被購入者之可辨識資產及負債的公平價值淨額。

當(ii)是大於(i)時，此超出金額立即在損益賬確認為一項議價收購的盈利。

商譽按成本減除累計減值損失列賬。因商業合併而產生的商譽被分配予每一現金生產單位，或一組合之現金生產單位，而預計該現金生產單位是可從商業合併中獲得協同效應，以及須每年接受減值測試(附註2(r))。

當出售單一現金生產單位時，計算出售溢利包括任何可歸屬購入商譽的金額。

由內部產生之商譽及品牌的開支按在發生期間內確認為支出。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

(r) Impairment of Non-Financial Assets

Internal and external sources of information are reviewed at each end of the reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property and equipment (other than properties carried at revalued amounts);
- right-of-use assets;
- investments in subsidiaries, associates and joint ventures;
- goodwill; and
- intangible assets.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, the recoverable amount is estimated annually whether or not there is any indication of impairment.

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in the income statement whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, if measurable, or value in use, if determinable.

Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of impairment losses is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years.

Reversals of impairment losses are credited to the income statement in the year in which the reversals are recognised.

(r) 非金融資產減值

在報告期結束日，須檢討對內及對外資料來源以辨識以下資產是否有減值徵兆或，除商譽外，以往已確認之減值損失是否仍然存在或可能已經減少：

- 物業及設備(以重估金額列賬的物業除外)；
- 使用權資產；
- 附屬、聯營公司及合資企業投資；
- 商譽；及
- 無形資產。

如任何該等徵兆存在，須估計該資產的可收回金額。此外，商譽須每年估計可收回金額以確定是否有減值徵兆。

可收回金額之計算

可收回金額是公平價值減出售成本及使用價值二者中之較高者。在評估使用價值時，會採用一項當時市場評估的時間值及相對於該資產的風險的稅前折扣率將估計未來現金流量折實為現在價值。當某資產未能大部分地獨立於其他資產產生現金流量，其可收回金額取決於可獨立地產生現金流量的最小資產組合(即單一現金生產單位)。

減值損失之確認

當資產的賬面值或其所屬的現金生產單位超過可收回金額時，須於收益表內確認減值損失。有關確認現金生產單位減值損失時，首先減低分配予現金生產單位(或其單位群組)之賬面值，其後再按比例減低在該單位(或其單位群組)其他資產的賬面值，但該資產的賬面值不可低過其個別公平價值減出售成本(如可計量的話)或使用價值(如可確定的話)。

減值損失之轉回

除商譽外的有關資產，如在用來釐定可收回金額的估計發生有利的變化，則減值損失會被轉回。商譽的減值損失不可轉回。

減值損失轉回只局限至該資產的賬面值，猶如該等減值損失從未在往年被確認。

減值損失轉回在該被確認的年度計入收益表內。

(s) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to directing how and for what purpose the asset is used. In case where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
 - the Group has the right to operate the asset; or
 - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

This policy is applied to contracts entered into, or changed, on or after 1st January 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

(i) As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred. Where applicable, the cost of right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently at cost less any accumulated depreciation and impairment losses (Note 2(r)), and adjusted for certain remeasurements of the lease liability. When a right-of-use asset meets the definition of investment property, it is initially measured at cost, and subsequently at fair value, in accordance with the accounting policy set out in Note 2(o)(ii).

(s) 租賃

本集團於訂立合約時會評估有關合約是否屬於租賃或包含租賃。倘某項合約為換取代價而給予在某段時間內對可識別資產使用的控制權，則該合約屬於租賃或包含租賃。為評估合約會否給予對可識別資產使用的控制權，本集團會評估：

- 該合約是否涉及使用可識別資產；
- 本集團是否有權於整段使用期間從使用資產獲得絕大部分的經濟利益；及
- 本集團是否有權指示使用資產。當本集團擁有與指示如何及為何使用資產最為相關的決策權時，本集團便擁有此項權利。倘本集團需要預先決定如何及為何使用資產，本集團便可在出現以下其中一種情況時有權指示使用資產：
 - 本集團有權經營該資產；或
 - 本集團以預先決定將會如何及為何使用資產的方式設計資產。

此項政策適用於2019年1月1日或之後訂立或改變的合約。

本集團會在訂立或重新評估包含租賃部分的合約時，根據各租賃部分的相對單獨價格，將合約代價分配予各該等部分。

(i) 作為承租人

本集團於租賃生效日期確認使用權資產及租賃負債。使用權資產初步按成本計量，其包括租賃負債的初始金額加上任何於生效日期或之前已付之租賃款項，及任何已付之初始直接成本。如適用，使用權資產的成本亦包括拆卸及移除相關資產或還原相關資產或其所在的估計成本之折讓現值，並減去任何已收之租賃激勵款項。

使用權資產其後按成本減任何累計折舊及減值損失計量(附註2(r))，並對租賃的若干重新計量作出調整。倘使用權資產符合投資物業的定義，根據附註2(o)(ii)本集團之會計政策，該使用權初始按成本計量，其後按公平價值計量。

財務報表附註(續)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. Lease payment included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method (Note 6 and Note 38). It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes its assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") and is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exception is any rent concession which arose as a direct consequence of the COVID-19 pandemic and satisfied the conditions set out in paragraph 46B of HKFRS 16 Leases. In such case, the Group took advantage of the practical expedient set out in paragraph 46A of HKFRS 16 and recognized the change in consideration as if it were not a lease modification. The rent concessions are recognised as a credit to variable lease expenses in profit or loss.

租賃負債初始按照生效日期尚未支付的租賃款項之現值計量，並採用租約隱含的利率或(倘該利率無法輕易釐定)本集團的增量借款率。本集團一般以其增量借款利率用作貼現率。

租賃負債其後因租賃負債的利息成本而增加，並因所付租賃款項而減少。計量租賃負債時計入的租賃項包括以下項目：

- 固定款項，包括實質固定款項；
- 基於指數或利率而定且初步採用截至生效日期的指數或利率計量的可變租賃款項；
- 根據剩餘價值擔保預計應付的款項；及
- 本集團所合理肯定行使的購買選擇權行使價、可選續租年期的租賃款項(倘本集團合理肯定行使延長選擇權)以及提早終止租賃的罰款(除非本集團合理肯定不會提早終止租賃)。

租賃負債採用有效利率方法按攤銷成本計量(附註6及附註38)。當未來租賃款項因指數或利率變動而有所改變，根據剩餘價值擔保預計應付的款項之估計出現變動，改變有關會否合理肯定行使購買或延長選擇權或是否合理肯定不會行使終止選擇權的評估時，租賃負債會重新計量。

當租賃負債重新計量時，相應調整會在使用權資產之賬面值上調整，或要是使用權資產的賬面值已減至零時，該金額則記入損益賬內。

當租賃範圍或代價變更時，且該變更不是原租賃合同的一部分("租賃修改")，租賃負債將重新計量，並且不構成單獨的租賃。在這情況下，租賃負債將根據修訂後的租賃款項及租期，在修改生效日使用修訂後的貼現率重新計量。唯一的例外是因2019冠狀病毒大流行而直接產生，並符合載於《香港財務報告準則》第16號「租賃」第46B段之條件的任何租金寬免。在此情況下，本集團採用《香港財務報告準則》第16號第46A段所載之務實權宜方法，並確認該代價變動並非租賃修改。有關之租金寬免在損益表中確認為可變租賃款項的貸方。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

The Group has applied judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease terms, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

The Group presents right-of-use assets that do not meet the definition of investment property in "fixed assets" (Note 34) and lease liabilities in "other liabilities" (Note 38) in the statement of financial position.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less ("short-term leases") and leases of underlying assets with an approximate value of HK\$0.04 million or less ("low-value assets"). The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term (Note 14).

(ii) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Group applied HKFRS 15 to allocate the consideration in the contract.

The amounts due from lessees in respect of finance leases are recorded in the statement of financial position as advances to customers at the amounts of net investment which represent the total rentals receivable under finance leases less unearned income. Revenue arising from finance leases is recognised in accordance with the Group's revenue recognition policies, as set out in Notes 2(g)(ii) and 2(e).

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease period as part of 'other operating income', as set out in Note 2(g)(iii).

The accounting policies applicable to the Group as a lessor in the comparative period were not different from HKFRS 16.

本集團運用判斷以釐定作為承租人若干包括續租權之租約的租期。本集團是否合理肯定行使該等選擇權的評估會影響租期，而租期則會對租賃負債及使用權資產的確認金額產生重大影響。

本集團呈列並不符合投資物業定義之使用權資產於「固定資產」(附註34)中及將租賃負債列於財務狀況表內的「其他負債」(附註38)。

短期租賃及低價值資產租賃

本集團已選擇不就若干12個月或以下之租賃(「短期租賃」)及相關資產價值約港幣4萬元或以下之租賃(「低價值資產租賃」)確認使用權資產及租賃負債。本集團將此等租賃相關的租賃款項按租期以直線法確認為支出(附註14)。

(ii) 作為出租人

當本集團作為出租人時，其會於租賃生效時釐定各項租賃屬融資租賃或經營租賃。

為劃分各項租賃，本集團會整體評估租賃會否轉移了相關資產擁有權所附帶的絕大部分風險及回報。如屬上述情況，該租賃便為融資租賃；反之則為經營租賃。作為評估的一部分，本集團會考慮若干指標，例如租賃是否佔資產經濟壽命的大部分。

倘某項安排包括租賃及非租賃部分，本集團便按照《香港財務報告準則》第15號分配合約代價。

有關融資租賃的應收承租人款項按淨投資金額(等於融資租賃項下應收租金總額減去未實現收入)以客戶墊款列載於財務狀況表。融資租賃所產生的收益已根據附註2(g)(ii)及2(e)所載的本集團收入確認政策獲確認。

本集團於租賃期內按直線基準確認經營租賃項下已收租賃款項為收入，以作為附註2(g)(iii)所載「其他經營收入」的一部分。

於比較期間適用於本集團作為出租人之會計政策與《香港財務報告準則》第16號並無不同。

(t) Repossession of Assets

In the recovery of impaired loans and advances, the Group may take possession of the collateral assets through court proceedings or voluntary delivery of possession by the borrowers. In accordance with the Group's accounting policy set out in Note 2(h)(vii), impairment allowances for impaired loans and advances are maintained after taking into account the net realisable value of the collateral assets, usually resulting in a partial write-off of the loans and advances against impairment allowances. Repossessed assets are reported as assets held for sale under other assets if it is highly probable that the future economic benefits will flow to the Group, their carrying amount will be recovered through a sale transaction rather than through continuing use and the assets are available for sale in their present condition. Related loans and advances are then written off.

Repossessed assets are recorded at the lower of the amount of the related loans and advances and fair value less costs to sell at the date of exchange. They are not depreciated or amortised.

Impairment losses subsequent to initial classification are recognised in the income statement.

(u) Income Tax

- (i) Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in the income statement except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.
- (ii) Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.
- (iii) Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing deductible temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

(t) 收回資產

在收回減值貸款及墊款時，本集團會通過過法庭程序或借款人自願交出擁有權收回抵押品資產。根據本集團附註2(h)(vii)所載的會計政策，計算減值貸款及墊款之減值準備已顧及抵押品資產之可變現淨值，通常引致須在減值準備內撇銷部分貸款及墊款。如大有可能本集團享有未來經濟收益，其賬面值須透過變賣而不是持續使用該資產，及該資產可在現況下出售，收回資產在其他資產的持有作出售資產項下列賬。有關貸款及墊款隨後撇銷。

收回資產按有關貸款及墊款的金額或於轉換日已減除出售成本後之公平價值，按兩者之較低者入賬。收回資產毋須計算折舊或攤銷。

緊隨初始確認後的減值損失於收益表確認。

(u) 所得稅

- (i) 本年度所得稅包括本期及遞延稅項資產和負債的變動。除該稅款與其他全面收益或股東權益有關而須在其他全面收益或股東權益確認的金額外，本期稅項及遞延稅項資產和負債的變動計入收益表內。
- (ii) 本期稅項為年度應課稅收入按報告期結束日已生效或基本上已生效的稅率計算的預計應付稅項，並已包括以往年度的應付稅項的任何調整。
- (iii) 遞延稅項資產及負債是因納稅基礎計算的資產及負債與其賬面值之間的差異而分別產生的可扣稅及應課稅的暫時性差異。遞延稅項資產也包括未使用的稅損及稅項抵免。

除了若干有限的例外情況外，所有遞延稅項負債及未來可能有應課稅溢利予以抵銷的遞延稅項資產均予確認。未來有應課稅溢利可支持由可扣稅之暫時性差異引致遞延稅項資產之確認，包括現存之應課稅暫時性差異的轉回，但該等差異須屬於同一稅務機關及應課稅實體，以及預計在同期內該可扣稅之暫時性差異轉回或在若干期限內由該遞延稅項資產產生的稅損可以收回或留存。相同標準應用在判斷現時可扣稅暫時性差異能否支持由未使用的稅損或稅免產生的遞延稅項資產確認，即如果是屬於同一稅務機關及應課稅實體，以及預計在某期間內因該稅損或稅免可使用而轉回時，會計入該等差異。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

Where investment properties are carried at their fair value in accordance with the accounting policy set out in Note 2(o)(ii), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date unless the property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the property over time, rather than through sale. In all other cases, the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

在有限例外情況下，不確認遞延稅項資產及負債的暫時性差異包括不可扣稅的商譽、初始時已確認不影響會計及應課稅溢利的資產或負債（須不是商業合併的一部分）、及有關投資附屬公司的暫時性差異，就應課稅差異而言，當本集團可控制該差異轉回的時間而該差異在可見將來不會轉回；而就可扣稅差異而言，除非該差異在可見將來可以轉回。

當投資物業根據附註2(o)(ii)所載按公平價值列賬，除該物業是需折舊的及以一商業模式持有，而其目的是要透過時間使用而並非出售該物業以獲取隱含於該物業之重大經濟利益，確認遞延稅項的金額按該物業於結算日假設以賬面值出售的稅率計算。在其他情況下，確認遞延稅項的金額是根據預期變現或償還該資產及負債的賬面值的方式，按在報告日已生效或基本上已生效的稅率計算。遞延稅項資產及負債不作折讓。

於每報告期結束日，本行須重新檢視有關的遞延稅項資產的賬面金額，對預期不再有足夠的應課稅溢利以實現相關稅務利益予以扣減。可轉回之金額不可超過預期將來出現足夠可供扣減的應課稅溢利。

由派發股息引起的額外所得稅在有關股息的支付責任獲確立時確認。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

- (iv) Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities if the Bank or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:
- in the case of current tax assets and liabilities, the Bank or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
 - in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.
- (v) Insurance Reserves and Provisions for Outstanding Claims
Insurance reserves, except those attributable to long term business, represent the proportion of retained premiums written in the year relating to the period of risk from 1st January in the following year to the subsequent date of expiry of policies which is carried forward as a provision for unearned premiums and calculated on a daily basis.
- The insurance reserve for long term business is ascertained by actuarial valuation based on the Group's estimates of future deaths, investment returns and administration expenses at each valuation date.
- Full provision is made for the estimated cost of claims notified but not settled at the end of the reporting period and for the estimated cost of claims incurred but not reported by that date, after deducting the amounts due from reinsurers. Provision has also been made for the estimated cost of servicing claims notified but not settled at the end of the reporting period and to meet expenses on claims incurred but not reported at the end of the reporting period.
- These reserves and provisions are classified as other accounts and provisions.
- The Group's operating income from its insurance business is presented as net insurance profit in the consolidated income statement. The Group follows the relevant accounting policies for the recognition of such operating income. Details of net insurance revenue are set out in Note 12.
- (iv) 本期稅項與遞延稅項結餘及其變動之金額會分別列示而不會相互抵銷。本行或本集團只有在有合法權利對本期稅項資產及負債抵銷及符合以下附帶條件的情況下，才對本期及遞延稅項資產及負債作出抵銷：
- 就本期稅項資產及負債而言，本行或本集團計劃支付淨額或同時收回資產及償還負債；或
 - 有關的遞延稅項資產及負債屬同一稅務機關對以下機構徵收所得稅而產生：
 - 同一個應課稅實體；或
 - 不同的應課稅實體，並預計在未來期間會償還或收回重大遞延稅項負債或資產，該實體計劃以淨額形式變現本期稅項資產及償還本期稅項負債，或同時變現及償還。
- (v) 保險基金及未付索償準備
不包括長期業務部分，保險基金指年度內收取但已作保留的保金部分，而有關的風險是屬於下年度1月1日至保單到期日為止，該保留保金視作未賺取保費準備並按每日計算。
- 長期業務的保險基金是根據本集團之估計未來死亡率、投資回報及於每一估值日之行政費用並按精算估值。
- 本集團已就在報告期結束日只已通知但未償付以及已發生但未匯報的索償，經扣除了分保人欠款，作出了充足的準備。此外，已就在報告期結束日已通知但未償付的索償及已發生但未匯報索償而引致的估計費用作出了充足的準備。
- 此等基金及準備分類為其他賬項及準備。
- 本集團將由保險業務產生的經營收入在綜合收益表中以保險業務淨溢利列示。本集團根據有關會計政策確認該經營收入。詳情請參閱附註12保險業務淨收入。

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 主要會計政策(續)

(w) Provisions and Contingent Liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Bank has a legal or constructive obligation arising as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(x) Financial Guarantees and Loan Commitments

“Financial guarantees” are contracts that require the Group to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. “Loan commitments” are firm commitments to provide credit under pre-specified terms and conditions.

Financial guarantees issued or commitments to provide a loan at a below-market interest rate are initially measured at fair value and the initial fair value is amortised over the life of the guarantee or the commitment. Subsequently, they are measured at the higher of this amortised amount and the amount of loss allowance (Note 2(h)(vii)).

For other loan commitments, the Group recognises impairment loss allowances (Note 2(h)(vii)).

Liabilities arising from financial guarantees and loan commitments are included within other liabilities.

(y) Employee Benefits

(i) Salaries, bonuses and leave benefits

Employee entitlements to salaries, annual bonuses, paid annual leave, leave passage and the cost to the Group of non-monetary benefits are recognised when they accrue to employees. An accrual is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are recognised when the absences occur.

(ii) Performance-related bonus plan

Liabilities for performance-related bonus plan, which are due wholly within twelve months after the end of the reporting period, are recognised when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

(w) 準備及或然負債

當負債的限期或金額不確定，但有可能因過去事項構成法律或推定義務而須付出經濟利益以償責任，並能對此作可靠估計，此負債便確認為準備。當金額的時間值屬重大的，準備金額須按估計清償負債支出的現值列賬。

倘可能不需要付出經濟利益，或不能對金額作可靠估計，除非付出的機會是極微，則此項責任會視作或然負債披露。如潛在義務的存在須視乎會否發生一項或多項未來事件才獲確定，除非付出經濟利益的機會是極微，此潛在義務亦視作或然負債披露。

(x) 財務擔保和貸款承諾

「財務擔保」是指要求本集團支付特定款項以償還持有人因其特定債務人在債務工具條款到期時未能支付而產生的損失的合同。「貸款承諾」是在預定的條款和條件下提供信貸的承諾。

已發行的財務擔保或以低於市場利率的貸款承諾初始按公平價值計量，初始公平價值在擔保或承諾期內攤銷。往後，該擔保及承諾按該攤銷金額及損失準備(附註2(h)(vii))，二者之較高者，計量。

對於其他貸款承諾，本集團確認減值損失準備(附註2(h)(vii))。

財務擔保和貸款承諾產生的負債包含在其他負債中。

(y) 僱員福利

(i) 薪酬、花紅及假期福利

僱員應享有的薪酬、年終花紅、有薪年假、旅行假期及其他同種類之非金錢性質福利於確立時確認。至報告期結束日已撥備因僱員提供服務所享有之年假的估計負債。

僱員應享有的病假及分娩假於發生時確認。

(ii) 表現獎勵花紅計劃

因僱員提供服務而本集團有現存法律或推定義務於報告期結束後12個月內須全數支付表現獎勵花紅計劃的負債，對此並能作可靠估計，便須予以確認為負債。

(iii) Retirement benefits

Retirement benefits are provided to eligible staff of the Group. Hong Kong employees enjoy retirement benefits under either the Mandatory Provident Fund Exempted ORSO Scheme ("MPFEOS") or the Mandatory Provident Fund Scheme ("MPFS"). Both are defined contribution schemes. The employer's monthly contributions to both schemes are at a maximum of 10% of each employee's monthly salary.

The pension schemes covering all the Group's PRC and overseas employees are defined contribution schemes at various funding rates, and are in accordance with local practices and regulations.

The cost of all these schemes is charged to the income statement for the period concerned and the assets of all these schemes are held separately from those of the Group. Under the MPFEOS, the employer's contribution is not reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. Under the MPFS, the employer's contribution is reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions.

(iv) Share based payments

The Bank adopted equity-settled share based payment arrangement under Staff Share Option Schemes to grant the options to eligible employees of the Group. The option exercise price is equal to the higher of:

- (i) the closing price of the Bank's shares in the Stock Exchange's daily quotation sheet on the date of grant of the relevant options; and
- (ii) an amount equivalent to the average closing price of the Bank's shares as stated in the Stock Exchange's daily quotation sheets for the 5 business days immediately preceding the date of grant of the relevant options.

When the options are exercised, equity is increased by the amount of the proceeds received. The fair value of share options granted to employees is recognised as an expense in the income statement with a corresponding increase in a capital reserve within equity. The fair value is measured at the grant date using the trinomial model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to those share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged or credited to the income statement for the year of the review unless the original expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of share options that vest (with a corresponding adjustment to capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Bank's shares.

(iii) 退休福利

本集團為其合資格的員工提供退休福利。香港員工可獲得強積金豁免的職業退休計劃或強制性公積金計劃的保障。此兩個計劃同時是定額供款計劃。僱主對兩項計劃的每月供款，上限是每位僱員月薪的10%。

本集團為所有國內及海外員工而設的退休計劃是定額供款計劃，供款率按當地慣例及規定而制定。

上述所有計劃的成本在相關期間的收益表內支銷，而所有此類計劃的資產均與本集團的資產分開處理。在強積金豁免的退休保障計劃中，僱主的供款不會因某些僱員於未完全享有僱主的供款前離開計劃被沒收的供款而減少。而強制性公積金計劃方面，僱主的供款則會因某些僱員於未完全享有僱主的供款前離開計劃被沒收的供款而減少。

(iv) 以股份為基礎作支付

據僱員認股計劃，本行採納按股權結算之股份報酬安排向本集團合資格僱員授予購股權。行使價為以下之較高者：

- (i) 於授出認股權當日本行股份在聯交所日報表的收市價；及
- (ii) 相等於緊接授出有關認股權當日之前五個營業日，本行股份在聯交所日報表的平均收市價。

當認股權被行使時，所得款項計入股東權益。授予僱員之認股權的公平價值於收益表內確認為支出，而在股東權益賬內的資本儲備作相應的增加。公平價值乃採用三項式期權定價模式，按認股權授予日計算，並顧及授予認股權的條款。當僱員須符合歸屬期條件才可無條件享有該等認股權，估計公平價值總額在歸屬期內攤分入賬，並已考慮認股權歸屬的或然率。

估計可歸屬認股權的數目須在歸屬期內作出檢討。除非原本支出符合資產確認之要求，任何已在往年確認的累積公平價值之所需調整須在檢討期內的收益表支銷或回撥，並在資本儲備作相應調整。在歸屬日，除非因未能符合歸屬條件引致權利喪失純粹與本行股份的市價有關，確認為支出之金額按歸屬認股權的實際數目作調整（並在資本儲備作相應調整）。

The equity amount is recognised in capital reserve until either the option is exercised and new shares allotted (when it is transferred to share capital) or the option expires (when it is released directly to retained profits). For Grantees who do not meet the applicable vesting conditions, the unvested options are forfeited, either in whole or in part. Forfeited share options are cancelled.

(aa) Segment Reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

(ab) Cash and Cash Equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition including cash and balances with banks, treasury bills, other eligible bills and certificates of deposit that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

(ac) Deposits, Debt Securities Issued and Capital Instruments

Deposits, debt securities issued and capital instruments are the Group's sources of funding.

The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The substance of a financial instrument, rather than its legal form, governs its classification. A financial instrument is classified as a liability where there is a contractual obligation to deliver either cash or another financial asset to the holder of that instrument, regardless of the manner in which the contractual obligation will be settled.

Subsequent to initial recognition deposits, debt securities issued and capital instruments classified as financial liabilities are measured at their amortised cost using the effective interest method, except where the Group designates liabilities at fair value through profit or loss.

For those capital instruments classified as equity instruments, they are not redeemable by holders and bear an entitlement to coupons at the Bank's sole discretion. Accordingly, they are presented within equity. Distribution thereon are recognised in equity.

(aa) 分部報告

經營分部，及在財務報表列報的每一分部項目金額，是從財務資料中辨識出來的，並定期地提供予本集團的最高行政管理層作為資源分配，以及評核本集團各項業務和區域所在地的表現。

除非分部有相同經濟特性及在產品和服務之性質、生產程序之性質、客戶類別和等級、用作銷售產品和提供服務之方法、及監管環境之性質是相同的，個別重大的營運分部不會在財務報表內合計。如它們擁有以上大部份的標準，並非個別重大的營運分部可能會被合計。

(ab) 現金及等同現金項目

就編製現金流量表而言，現金及等同現金項目包括由購入日起少於3個月到期日的結餘，包括現金及在銀行結餘、國庫債券、及其他受較低風險影響價值及隨時可轉換成預知金額的合格票據及存款證。

(ac) 存款、已發行債務證券及資本工具

存款、已發行債務證券及資本工具是本集團籌募資金的來源。

本集團按工具合約條款的實質分類資本工具為金融負債或股本工具。

金融工具的實質而非其法律形式決定其分類。如有法定義務將現金或另一金融資產交付予該金融工具的持有人，則該金融工具被分類為負債，該法定義務的結算方式不影響其分類。

緊隨初始確認後，本集團為存款、已發行債務證券及分類為股本工具的資本工具，惟通過損益的負債除外，已按有效利率方式計算攤銷成本。

就分類為股本工具的資本工具，該等工具是不可贖回及視乎本行決定是否享有利息。因此，該等工具在股東權益內列賬。相關分派於股東權益內確認。

(ad) Assets Held for Sale

Non-current assets and disposal groups (including both the assets and liabilities of the disposal groups) are classified as held for sale and measured at the lower of their carrying amount and fair value less cost to sell when: (a) their carrying amounts will be recovered principally through sale; (b) they are available for sale in their present condition; and (c) their sale is highly probable.

Immediately before the initial classification as held for sale, the carrying amounts of the asset (or assets and liabilities in the disposal group) are measured in accordance with applicable HKFRSs. On subsequent remeasurement of a disposal group, the carrying amounts of the assets and liabilities that are not within the scope of the measurement requirements of HKFRS 5 “Non-current Assets Held for Sale and Discontinued Operations” are measured in accordance with applicable HKFRSs before the fair value less costs to sell of the disposal group is determined.

Income earned and expenses incurred on assets and liabilities of disposal groups held for sale continue to be recognised in the appropriate line items in the income statement until the transaction is complete.

(ae) Interim Financial Reporting and Impairment

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with HKAS 34, Interim financial reporting, in respect of the first six months of the year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the year (Note 2(h)(vii) and Note 2(r)).

Impairment losses recognised in an interim period in respect of goodwill are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

(ad) 持有作出售資產

當 (a) 其賬面值將主要需通過出售才可收回；(b) 它們可以在現況下可供出售；(c) 出售之機會率是非常高的，非流動資產及出售組別(包括出售組別的資產和負債)按其賬面值及公平價值減出售成本，兩者之較低者，分類為持有作出售資產。

在被初始分類為持有作出售之前，資產的賬面值(或出售組別的資產和負債)按適用的《香港財務報告準則》計算。而往後在重新計算出售組別時，在未決定出售組別的公平價值減成本前，非在《香港財務報告準則》第5號「持有作出售資產的非流動資產及結束營運」所覆蓋的計算要求的資產和負債之賬面值，按適用的《香港財務報告準則》計算。

出售組別的資產和負債之已賺取收入和已發生支出仍繼續在收益表內之有關項目中確認，直至交易完成。

(ae) 中期財務報告及減值

根據聯交所《上市規則》，本集團須按《香港會計準則》第34號「中期財務報告」編制有關年度首6個月的中期財務報告。於中期期末，本集團採用等同年末的減值測試、確認、及轉回標準(附註2(h)(vii)及附註2(r))。

已確認於中期期間的商譽減值損失，均不能在較後期間轉回。就算假如該減值只在與該中期期間有關之年底作評估而該減值損失是不會發生、或損失之金額會較小，在此情況下亦不可轉回。

3. CHANGES IN ACCOUNTING POLICIES 會計政策之變動

The Group has initially adopted Amendments to HKFRS 9 “Financial Instruments”, HKAS 39 “Financial Instruments: Recognition and Measurement” and HKFRS 7 “Financial Instruments: Disclosures” in respect of Interest Rate Benchmark Reform and early adopted Amendment to HKFRS 16 “Leases” in respect of COVID-19-Related Rent Concessions from 1st January, 2020. A number of other new standards are effective 1st January, 2020 but they do not have a material effect on the Group’s financial statements.

本集團自2020年1月1日起初始採用《香港財務報告準則》第9號「金融工具」、《香港會計準則》第39號「金融工具：確認與計量」及《香港財務報告準則》第7號「金融工具：披露」有關利率基準改革之修訂，並提前採用《香港財務報告準則》第16號「租賃」有關2019冠狀病毒病相關租金寬免之修訂。若干其他新準則已於2020年1月1日起生效，但並不會對本集團財務報表產生重大影響。

Interest Rate Benchmark Reform: Amendments to HKFRS 9, HKAS 39 and HKFRS 7

Interest rate benchmark reform is a global initiative to replace or reform interbank offered rates (IBORs) that are used to determine interest cash flows on financial instruments such as loans to customers, debt securities and derivatives. The objective of the reform is to replace IBORs with alternative nearly risk-free rates (RFRs) that are based on actual market transactions. Consequently, financial contracts referencing these benchmarks may need to be amended to reference the alternative RFR in the applicable currency. The Amendments to HKFRS 9, HKAS 39 and HKFRS 7 modify specific hedge accounting requirements to provide relief from potential effects of the uncertainties caused by interest rate benchmark reform so that entities applying those hedge accounting requirements assume that the interest rate benchmark on which the hedged cash flows and cash flows of the hedging instrument are based is not altered as a result of interest rate benchmark reform. These Amendments replace the need for specific judgements to determine whether certain hedge accounting relationships that hedge the variability of cash flows or interest rate risk exposures for periods after the interest rate benchmarks are expected to be reformed or replaced continue to qualify for hedge accounting.

Significant judgement will be required in determining when uncertainty is expected to be resolved and when the temporary exceptions will cease to apply. As at 31st December 2020, the Group believes it is too early to reliably estimate when interest rate benchmark uncertainty will be resolved for all benchmarks assumed to be in scope of the amendments and so the temporary exceptions applied to the Group's hedge accounting relationships that reference benchmarks subject to reform or replacement.

The Group enters into fixed-for-floating interest rate swaps to hedge the exposure to changes in the fair value due to movements in market interest rates on certain fixed rate financial instruments, including subordinated notes issued, debt securities investment and loans and advances to customers. The table below indicates the nominal amount and weighted average maturity of derivative instruments designated in fair value hedge accounting relationships that will be affected by the interest rate benchmark reform. The derivative hedging instruments provide a close approximation to the extent of the risk exposure the Group manages through hedging relationships.

利率基準改革：《香港財務報告準則》第9號、《香港會計準則》第39號及《香港財務報告準則》第7號之修訂

利率基準改革是一項全球倡議，旨在取代或改革銀行間同業拆借利率，該等利率用於釐定金融工具的利息現金流量，例如客戶貸款、債務證券及衍生工具。改革的目的是以基於實際市場交易的其他近似無風險利率取代銀行間同業拆借利率。因此，參考該等銀行間同業拆借利率為基準的財務合約可能需要更改參考適用貨幣之其他近似無風險利率。《香港財務報告準則》第9號、《香港會計準則》第39號及《香港財務報告準則》第7號之修訂對特定對沖會計的規定作出修改，以減輕因利率基準改革所引起的不確定因素之潛在影響，以使實體採用該等對沖會計規定時，假設被對沖的現金流及用作對沖工具的現金流所依據的利率基準並無因利率基準改革而改變。有關修訂豁免了就利率基準預計被改革或取代後的期間，處理對沖現金流或利率風險承擔變動的若干對沖會計關係時運用特定判斷以釐定該等關係是否仍合資格採用對沖會計法的需要。

於釐定何時能解決因利率基準改革所引起的不確定因素，並停止應用暫時性豁免，須運用重大判斷。於2020年12月31日，本集團認為尚無法可靠地估計所有假設在修訂範圍之內以利率基準為參考基準的不確定因素何時得到解決。故此，暫時性豁免適用於本集團所有對沖會計關係，當中的參考基準可予改革或取代。

本集團訂立固定浮動利率掉期以對沖若干定息金融工具因市場利率波動而出現公平價值變動的影響，當中包括已發行的後償票據、債券投資及客戶貸款及墊款。下表列出受利率基準改革影響的公平價值對沖會計關係指定的衍生工具的名義金額和加權平均承擔年期，並按利率基準進行了分析。衍生對沖工具與本集團通過對沖關係管理的風險敞口非常接近。

COVID-19-Related Rent Concessions: Amendment to HKFRS 16

The Amendment to HKFRS 16 provides practical expedient to exempt lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modification. Practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30th June 2021; and
- there is no substantive change to other terms and conditions of the lease.

The amendment is effective for annual reporting periods beginning on or after 1st June, 2020 with early adoption permitted. The Group has early adopted the Amendment from 1st January, 2020 to all rent concessions that met the conditions. A total of HK\$5 million of rent concessions was recognised as a credit to variable lease payments that were not included in the measurement of lease liabilities (Note 14) during the year.

2019冠狀病毒病相關租金寬免：《香港財務報告準則》第16號之修訂

《香港財務報告準則》第16號之修訂提供務實權宜方法，豁免承租人考慮個別租賃合約因2019冠狀病毒病大流行而直接產生的租金寬免是否屬於租賃修改。務實權宜方法僅適用於2019冠狀病毒病大流行直接產生的租金寬免，並且必須符合以下所有條件：

- 因租賃款項變動而經修訂的租賃代價大致相同或小於緊接變動前的租賃代價；
- 任何減免的租賃款項僅影響原於2021年6月30日或之前到期的付款；和
- 租賃的其他條款並沒有重大變化。

該修訂自2020年6月1日或之後開始的年度報告期間生效，並容許提前採納。本集團於2020年1月1日提前應用該修訂於所有符合條件之租金寬免。年內已確認並包括在「不包括計量租賃負債的可變租賃款項」(附註14)的租金寬免為港幣500萬元。

(c) Loans and advances to customers – by geographical areas

The information concerning the breakdown of the gross amount of advances to customers by countries or geographical areas is derived according to the location of the counterparties after taking into account any transfer of risk in accordance with the requirements of Banking (Disclosure) Rules. In general, such transfer of risk takes place if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose head office is located in another country. The location of a party is determined by its residence which is the economic territory under whose laws the party is incorporated or registered. This requirement is different from the allocation under segment reporting in Note 24 which is prepared in a manner consistent with the way in which information is reported internally to the Group's Senior Management. The specific provisions represent lifetime expected credit loss provisions for credit impaired exposures and the collective provisions represent the 12-month and lifetime expected credit loss provisions for non-credit impaired exposures.

(c) 客戶貸款及墊款—按區域分類

根據《銀行業(披露)規則》，客戶墊款總額按國家或區域的分類，是根據交易對手的所在地，並已顧及轉移風險因素。一般而言，有關墊款的債權獲得並非交易對手所在地的國家的一方擔保，或該債權的履行對象是某銀行的海外分行，而該銀行的總辦事處並非設於交易對手的所在地，風險便確認為由一個國家轉移到另一個國家。一方的所在地由其居住地決定，而該居住地是該締約方註冊或登記的法律所規定的經濟領土。此要求與附註24分部報告的分配不同，後者的編製方法與內部匯報資料予集團高層管理人員的方法是一致的。特殊準備指減值信貸風險在合約期內的預期信貸損失準備及整體準備指非減值信貸風險12個月及合約期內的預期信貸損失準備。

Impaired loans and advances are individually assessed loans with objective evidence of impairment on an individual basis. The above information by countries or geographical areas is derived according to the location of the counterparties after taking into account any transfer of risk.

Collateral includes any tangible security that carries a fair market value and is readily marketable. This includes (but is not limited to) cash and deposits, stocks and bonds, mortgages over properties and charges over other fixed assets such as plant and equipment. Where collateral values are greater than gross loans and advances to customers, only the amount of collateral up to the gross loans and advances is included.

減值貸款及墊款是個別出現客觀減值證據而須個別評估的貸款。上述資料按國家或區域分類，是根據交易對手的所在地，並已顧及轉移風險因素。

抵押品包括任何具公平價值及可隨時出售的有形抵押品。這些抵押品包括(但不限於)現金及存款、股票及債券、物業按揭及其他固定資產如器材及設備之押記。倘抵押品價值高於客戶貸款及墊款總額，則只計入最高達貸款及墊款總額的抵押品金額。

財務報表附註(續)

At 31st December, 2020, the fair value of the Group's investment in AFFIN Bank Berhad ("AFFIN") based on the quoted market price had been persistently below the carrying amount for a period of time. As a result, the Group performed an impairment test on the investment using a value-in-use ("VIU") methodology and this demonstrated that the recoverable amount of the investment was HK\$3,648 million. An additional impairment charge of HK\$402 million was recorded in 2020, making an aggregated impairment allowance of HK\$799 million for AFFIN. The VIU calculation uses discounted cash flow projections based on AFFIN's latest forecast of financial results and estimates made by the Group's management for the next five years and extrapolating in perpetuity using a long-term growth rate of 3% to derive a terminal value. Discount rate of 11% (2019: 10.3%), which is based on a Capital Asset Pricing Model calculation for AFFIN, is used in the VIU calculation.

The following table illustrates the impact on VIU of reasonably possible changes to key assumptions. This reflects the sensitivity of the VIU to each key assumption on its own and it is possible that more than one favourable and/or unfavourable change may occur at the same time.

於2020年12月31日，按市場報價的公允價值，本集團對AFFIN Bank Berhad(「AFFIN」)之投資的市值持續低於賬面值一段時間。因此，本集團對此項投資以採用使用價值計算方法進行減值測試，測試顯示此項投資的可收回金額為港幣36.48億元。於2020年，額外減值損失為港幣4.02億元，使對AFFIN的減值準備總額達港幣7.99億元。使用價值計算方法使用了集團管理層基於AFFIN最新對財務業績的預測以及對未來五年的估計的折現現金流量預測，並使用3%長期增長率永久性推算得出終端價值。在價值計算方法中使用基於AFFIN的資本資產定價模型計算得出的11%(2019年：10.3%)的折現率。

下表進一步說明主要假設的合理可能變動對使用價值產生的影響。有關資料反映使用價值對各主要假設本身的敏感度。超過一項有利及/或不利變動有可能同時發生。

Fair value measurement of properties

(i) Fair value hierarchy

The following table presents the fair value of the Group's properties measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 valuations:	Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
Level 2 valuations:	Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
Level 3 valuations:	Fair value measured using significant unobservable inputs.

物業公平價值之釐定

(i) 公平價值分級

根據《香港財務報告準則》第十三號/釐定公平價值/三級公平價值分級之分類定義，下表列示本集團於報告期末按重覆發生基準以釐定物業之公平價值。分類予每一分級之公平價值釐定取決於以下所採用的估值模式的參數之可觀察性及重要性：

第一級估值：	釐定公平價值只採用第一級參數，即於釐定日在活躍市場相同資產或負債的未經調整報價。
第二級估值：	釐定公平價值採用第二級參數，即不符合第一級的可觀察參數，及未採用重要的非可觀察參數。非可觀察參數是指沒有市場資料之參數。
第三級估值：	釐定公平價值採用重要的非可觀察參數。

Fair value measurement of properties (continued)

(i) Fair value hierarchy (continued)

During the years ended 31st December, 2020 and 2019, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

All of the Group's investment properties were revalued by independent valuers as at 31st December, 2020 and 2019.

Investment properties in Hong Kong were valued at HK\$4,947 million (2019: HK\$5,319 million) as at 31st December, 2020 by an independent valuer, Savills Valuation and Professional Services Limited, Chartered Surveyors, who has among their staff Fellows of the Hong Kong Institute of Surveyors with recent experience in the location and category of property being valued. The valuation has been incorporated in the financial statements as at 31st December, 2020 and it was performed on an open market value basis. Details of valuation techniques are described below:

(ii) Information about Level 3 fair value measurement of properties

Investment properties
投資物業

Investment properties not under construction

The fair value of investment properties is determined by adoption of the Income Capitalisation Approach whereby the existing rental income of all lettable units of the property are capitalised for their respective unexpired terms of contractual tenancies whilst vacant units are assumed to be let at their respective market rents as at the valuation date. Upon expiry of the existing tenancies, each unit is assumed to be let at its market rent as at the valuation date, which in turn capitalised at the market yield as expected by investors for each type of property. Due consideration has been given to expectations of the renewals of Government lease upon its expiry. The summation of the capitalised value of the term income for the leased portion, the capitalised value of the reversion income as appropriately deferred for the leased portion and the capitalised value for the vacant portion provides the market value of the property.

(i) 公平價值分級(續)

截至2020年及2019年12月31日止年度，沒有第一級和第二級兩者之間的轉移，亦未有第三級的轉入或轉出。本集團的政策是只確認於報告期末公平價值分級之間發生的轉移。

於2020年及2019年12月31日，所有本集團的投資物業均由獨立估值師估價。

於2020年12月31日，香港投資物業的估值為港幣49.47億元(2019年：港幣53.19億元)。該等物業由獨立估值師—特許測量師第一太平戴維斯，其僱員具香港測量師學會士資歷並對估值物業的所在地及類別有近期經驗。估值是以公開市場價值為基礎，並已計入2020年12月31日之賬項內。估值模式詳述如下：

(ii) 有關第三級釐定公平價值的物業

Valuation techniques 估值模式	Unobservable input 非可觀察輸入參數
Income capitalisation approach 收入還原法	Expected market rental 預期市場租金 Capitalisation rate 還原率
Direct comparison approach 直接比較法	Premium (discount) on quality of the buildings 樓宇質素溢價(折扣)

非正在建築中的投資物業

投資物業的公平價值是按採納收入還原法計算，其方法是將現時物業已出租單位之租金收入按其分別未到期租約條款還原，而空置單位則假設於估價日每一單位可按市值租金租出，再根據投資者預期每一類別物業之市場回報來還原。其中已顧及並預期政府之租約於期限屆滿後可續約。出租部分期間收入之還原值、已適當遞延出租部分之歸還收入的還原值及空置部分之還原值之總和計算出物業的市場價值。

財務報表附註(續)

The market rentals of all lettable units are made (a) by reference to the rentals fetched in the property and/or (b) by reference to the lettings of similar properties in the neighbourhood. The capitalisation rate adopted is made by reference to the yields achieved in analysed market sales transactions and the market expectation from property investors. This expected return reflects implicitly the quality of the investment, the expectation of the potential for future rental growth and capital appreciation, operating costs, risk factor and the like.

As a supporting approach to the Income Capitalisation Approach, the Direct Comparison Approach is also adopted as a check for the valuation. Comparable sales transactions of similar properties in the locality are collected and analysed each in terms of a price per square footage. The collected comparables are then adjusted to take account of the discrepancies between the property and comparables in terms of time, location, age, building quality and the like.

The fair value measurement is positively correlated to the market rental and negatively correlated to the capitalisation rate.

The movements during the year in the balance of these Level 3 fair value measurements are as follows:

所有已租出單位市場租金之計算是(a)參考由物業賺取的租金及/或(b)參考鄰近所租出之類同物業。採納之還原率是參考分析市場出售交易得出之回報及物業投資者對市場的預期。此預期回報已潛在地反映投資的質素、預期未來租金增長和資本增值的潛力、營運成本、風險因素及其他。

除收入還原法外，亦採納直接比較法以核實估值。在鄰近可比較類同物業之出售交易會被收集及分析，以計算每一平方呎的價值。已收集之比較資料根據物業及可比較資料的差異，並按時間、位置、樓齡、樓宇質素及其他作調整。

釐定公平價值與市場租金有正面相互關聯及與還原率有負面相互關聯。

年內該等第三級公平價值釐定之餘額變動如下：

The amount of change, during the year and cumulatively, in the fair value of financial liabilities designated at FVTPL that is attributable to changes in the credit risk of these liabilities and recognised in other comprehensive income is set out below.

There was no transfer of cumulative gain or loss within equity due to de-recognition of liabilities designated at FVTPL during the year (2019: Nil).

The change in fair value attributable to changes in credit risk on financial liabilities is calculated using the difference between the fair value of the financial liabilities at the reporting date and the present value computed with adjusted asset swap spread.

The carrying amount of financial liabilities designated as at FVTPL was HK\$2 million lower than the contractual amount due at maturity (2019: HK\$164 million lower).

當本集團持有指定為通過損益以反映公平價值的相關衍生工具，以上金融負債被指定為通過損益以反映公平價值，而該指定可消除或明顯減少會計錯配的情況。

年內及累計結餘，下表列示指定為通過損益以反映公平價值的金融負債的公平價值變動及在其他全面收益表內確認的金額，而該變動是歸屬於該等負債的信貸風險。

年內(2019年：無)並未有指定為通過損益以反映公平價值的負債被終止確認，亦未有將其累計盈利或虧損在股東權益內轉賬。

計算可歸屬於金融負債信貸風險的公平價值變動是採用近期發行相同債務的可觀察信用利差，然後根據集團實體稍後所發行高級債務的信用違約掉期之可觀察利差變動作調整。

於2020年，指定為通過損益以反映公平價值金融負債的賬面值較其到期日之合約金額低於港幣200萬元(2019年：低於港幣1.64億元)。

45. PRINCIPAL RISK MANAGEMENT 主要風險管理

This section presents information on the Group's management of principal risks.

The Group has established a risk governance and management framework in line with the requirements set out by the HKMA and other regulators. This framework is built around a structure that enables the Board and Senior Management to discharge their risk management-related responsibilities with appropriate delegation and checks and balances. These responsibilities include defining risk appetite in accordance with the Group's business strategies and objectives, formulating risk policies that govern the execution of those strategies, and establishing procedures and limits for the approval, control, monitoring, and remedy of risks.

The RC stands at the highest level of the Group's risk governance structure under the Board. It consists of five INEDs (including the Chairman of the Committee) and two NEDs. The RC provides direct oversight over the formulation of the Group's risk appetite, and sets the levels of risk that the Group is willing to undertake with reference to its financial capacity, strategic direction, prevailing market conditions, and regulatory requirements.

The RC also ensures that the Group's risk appetite is reflected in the policies and procedures that Senior Management adopts to execute their business functions. Through the Group's management committees, including Crisis Management Committee, Risk Management Committee, Credit Committee, Asset and Liability Management Committee, and Operational Risk Management Committee – and with overall co-ordination by the Risk Management Division – the RC regularly reviews the Group's risk management framework and ensures that all important risk-related tasks are performed according to established policies and with appropriate resources.

The Crisis Management Committee, Risk Management Committee, Credit Committee, Asset and Liability Management Committee, and Operational Risk Management Committee comprise the Senior Management, the Group Chief Risk Officer and where appropriate senior executives from relevant areas.

The Group has implemented an ERM framework to identify and manage potential risks in a holistic and effective manner. As BEA is designated as a Domestic Systemically Important Bank, the HKMA requires that the risk management of the Group achieves the high standard demanded by such designation. The ERM framework assists the Group in meeting this requirement, and reinforces the "Three Lines of Defence" risk management model.

本部分載述有關本集團主要風險管理的資料。

根據金管局及其他監管機構的規定，本集團已建立風險管治及管理架構。該架構讓董事會及高層管理人員能夠以適當授權和制衡方式履行其與風險管理相關的職責。此等職責包括根據本集團的業務策略及目標設定風險偏好、制定風險政策以管理上述策略的執行，並設立風險審批、控制、監控及補救的程序及限額。

風險委員會為本集團僅次於董事會的最高風險管治機構，成員包括五名獨立非執行董事（包括委員會主席）及兩名非執行董事。風險委員會直接監督本集團風險偏好的制定，並因應本集團的財務能力、策略性指引、當前市場情況及監管要求設定可承擔的風險水平。

風險委員會亦確保本集團的風險偏好獲反映於政策及程序上，讓高層管理人員加以採用，以行使其業務職能。透過本集團的各個管理委員會，包括危機管理委員會、風險管理委員會、信貸委員會、資產負債管理委員會及營運風險管理委員會，並在風險管理處的整體協調下，風險委員會定期檢討本集團的風險管理架構，確保所有與風險相關的重要任務是根據現有政策及運用適當資源執行。

危機管理委員會、風險管理委員會、信貸委員會、資產負債管理委員會及營運風險管理委員會由高層管理人員、集團風險總監及（在適當情況下）其他有關方面的高級行政人員組成。

本集團已推行企業風險管理架構，旨在全面有效地識別及管理潛在風險。本集團作為一間本地系統重要性銀行，金管局對本集團在風險管理方面有著高標準要求。風險管理架構協助本集團達到要求以及鞏固「三道防線」風險管理模式。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

The Group has adopted the “Three Lines of Defence” risk management structure to ensure that roles and responsibilities in regard to risk management within the Group are clearly defined. The “Three Lines of Defence” model is summarised as follows:

- The first line of defence comprises the Risk Owners, who are heads of business units or supporting units of the Bank Group, together with staff under their management. They are primarily responsible for the day-to-day risk management of their units, including establishing and executing specific risk control mechanisms and detailed procedures.
- The second line of defence consists of the Risk Controllers who are designated staff responsible for setting out a risk management governance framework, monitoring risks independently and supporting the management committees in their oversight of risk management for the Bank Group.
- The third line of defence is the Internal Audit Division, which is responsible for providing assurance as to the effectiveness of the Group's risk management framework, including risk governance arrangements.

The Group Chief Risk Officer co-ordinates all risk management-related matters of the Group, works closely with the Risk Controllers on the formulation of risk management policies and exercises risk oversight at the Group level through a functional working relationship with all Risk Controllers and Risk Owners.

The Group faces a variety of risks that could affect its franchise, operations, and financial conditions. Under the ERM framework, the principal risks comprise credit risk, interest rate risk, market risk, liquidity risk, operational risk, reputation risk, strategic risk, legal risk, compliance risk, technology risk, business continuity risk, and new product and business risk.

The Group has formulated policies to identify, measure, monitor, control, and report on the various types of risk and, where appropriate, to allocate adequate capital to cover those risks. The Group's major risk management policies and control limits are approved by the Board and are reviewed and enhanced on a regular basis to cater for market changes, statutory requirements, and best practice in risk management processes. The Board has delegated the responsibility for ongoing risk management to the RC and the management committees. Significant risk management-related issues must be reported to the Board, which oversees risk management, through the RC. Moreover, on a daily basis, the Group Chief Risk Officer is responsible for overseeing the Group's risk management issues, which include, but are not limited to, the risk management infrastructure, strategies, appetites, culture, and resources.

為確保本集團內與風險管理有關的角色與責任能明確分工，本集團已採納「三道防線」風險管理框架。「三道防線」模式概述如下：

- 第一道防線為「風險負責人」，由本集團各業務或後勤單位主管，連同其屬下職員組成，主要負責其業務單位的日常風險管理，包括特定風險管理機制及具體程序的設立及執行。
- 第二道防線為「風險監控人」，由指定的員工組成，負責為本集團制定風險管理管治架構，獨立監控風險及輔助各管理委員會對本銀行集團風險管理的監督。
- 第三道防線為稽核處，負責為本集團風險管理架構(包括風險管治安排)的有效性提供保證。

集團風險總監協調本集團所有與風險管理相關的事務，與各風險監控人就風險管理政策的制定作出緊密協作，並透過與所有風險監控人及風險負責人的職能工作關係，在集團層面監督風險。

本集團面臨可能影響其品牌、營運及財務狀況的各類風險。在企業風險管理架構下，主要風險包括信貸風險、利率風險、市場風險、流動性風險、營運風險、聲譽風險、策略性風險、法律風險、合規風險、科技風險、持續業務運作風險及新產品及業務風險。

本集團已制定政策，以識別、衡量、監察、控制及匯報各類風險，並於適當的情況下調配資本以抵禦該等風險。本集團的主要風險管理政策及控制限額由董事會批准，並定期予以檢討及改善，以配合市場轉變、法定要求，以及達致風險管理程序的最佳做法。董事會已將持續管理風險的責任授予風險委員會及有關的管理委員會。與重要風險管理相關的事項須經由風險委員會上報至監督風險管理的董事會。此外，集團風險總監的日常職責為監督與集團風險管理相關的事項，包括但不限於風險管理基礎架構及策略、風險偏好、風險管治文化及有關資源。

財務報表附註(續)

Stress testing is an integral part of the Group's risk management. The Group regularly performs stress tests on the principal risks, where appropriate, to assess the potential impact of stressed business conditions (including hypothetical situations such as a significant economic downturn in Mainland China and Hong Kong) on the Group's financial positions, in particular, capital adequacy, profitability, and liquidity. Whenever necessary, a prompt management response will be developed and executed to mitigate potential impacts.

(a) Credit risk management

Credit risk is the risk of loss arising from a borrower or counterparty failing to meet its obligations.

The Credit Committee is responsible for managing all credit risk-related issues of the Group, while the Credit Risk Management Department under the Risk Management Division of the Group is responsible for monitoring activities relating to credit risk. The Group identifies and manages credit risk by defining the target market segment, formulating appropriate credit policies and carrying out credit assessment and monitoring of asset quality. Credit risk control limits are set for different levels. Risk, return, and market situation are considered when setting all limits. Active limit monitoring is undertaken.

In evaluating the credit risk associated with an individual customer or counterparty, financial strength and repayment ability are always the primary considerations. Credit risk may be mitigated by obtaining collateral from the customer or counterparty.

The Group has established policies, procedures, and rating systems to identify, measure, monitor, control, and report on credit risk. In this connection, guidelines for management of credit risk have been laid down in the Group's Credit Risk Management Manual. These guidelines stipulate delegated lending authorities, credit underwriting criteria, credit monitoring processes, an internal rating structure, credit recovery procedures and a provisioning policy. They are reviewed and enhanced on an ongoing basis to cater for market changes, statutory requirements, and best practice in risk management processes.

壓力測試為本集團風險管理的重要部分。本集團在適當情況下定期對相關的主要風險進行壓力測試，評估受壓營商環境(包括中國內地及香港出現嚴重經濟下滑等假設情景)對本集團的財務狀況，尤其是資本充足性、盈利能力及流動性的潛在影響。有需要時，管理層亦會及時制定並執行應對措施以減低潛在影響。

(a) 信貸風險管理

信貸風險是指因借款人或交易對手未能履行其責任而導致損失的風險。

信貸委員會負責管理所有與本集團信貸風險有關的事項，而本集團風險管理處轄下的信貸風險管理部則負責監察與信貸風險有關的活動。本集團透過設定目標市場、制定適當的信貸政策、進行信貸評核，以及監控資產素質，來識別和管理信貸風險。信貸風險控制限額設有不同層次。釐定所有限額時會考慮風險、回報及市場情況，並且採用積極限額監控程序。

在評估與個別客戶或交易對手相關的信貸風險時，其財政實力以及還款能力是主要的考慮因素。此外，客戶或交易對手所提供的抵押品亦有助減低信貸風險。

本集團已制定多項政策、程序及評級系統，以識別、衡量、監察、控制及匯報信貸風險。在此方面，本集團已將信貸風險管理指引詳列於集團的信貸風險管理手冊內，對信貸權限授權、授信標準、信貸監控程序、內部評級架構、信貸追收程序及撥備政策訂下規定。本集團持續檢討和改善該等指引，以配合市場轉變及有關法定要求，及達致風險管理程序的最佳做法。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(a) Credit risk management (continued)

The Group's credit risk management for the major types of credit risk is depicted as follows:

- (i) Corporate and financial institutions credit risk
The Group has laid down policies and procedures to evaluate the potential credit risk of a particular counterparty or transaction and to approve the transaction. For corporate and bank customers, the Group has different internal rating systems that are applied to each counterparty. For exposure classified as Specialised Lending in particular, supervisory slotting criteria are adopted. To monitor credit concentration risk, the Group has preset limits for exposures to individual industries and for borrowers and groups of borrowers. The Group also has a review process to ensure that the level of review and approval is proper and will depend on the size of the facility and rating of the credit.

The Group undertakes on-going credit analysis and monitoring at several levels. The policies are designed to promote early detection of counterparty, industry or product exposures that require special monitoring. The overall portfolio risk as well as individual impaired loans and potential impaired loans are monitored on a regular basis.

- (ii) Retail credit risk
The Group's retail credit policy and approval process are designed for the fact that there are high volumes of relatively homogeneous and small value transactions in each retail loan category. The design of internal rating system and formulation of credit policies are primarily based on customers' background, credit behaviours and the loss experience of the loan portfolios. The Group monitors its own and industry experience to determine and periodically revise product terms and desired customer profiles.
- (iii) Credit risk of treasury transactions
The credit risk of the Group's treasury transactions is managed in the same way as the Group manages its corporate and financial institutions credit risk. The Group applies an internal rating system to its counterparties and sets individual counterparty limits.
- (iv) Credit-related commitment
The risks involved in credit-related commitments and contingencies are essentially the same as the credit risk involved in extending loan facilities to customers. These transactions are subject to the same credit application, portfolio maintenance and collateral requirements as for customers applying for loans.

(a) 信貸風險管理(續)

本集團就下列各類主要信貸風險實行信貸風險管理：

- (i) 企業及金融機構信貸風險
本集團已制訂多項政策及程序，以評估特定交易對手或交易的潛在信貸風險，以及決定批核有關交易與否。就企業及銀行客戶而言，本集團已制定適用於所有交易對手的內部評級系統。專門性借貸的風險承擔則採用監管分類準則。為監控信貸集中的風險，本集團已就個別行業及不同的借款人和借款人團體預設風險承擔限額。本集團亦已釐定檢討程序，確保按照貸款的規模和信貸評級，為貸款進行適當的檢討和審批。

本集團持續進行多個層次的信貸分析和監控。有關政策旨在盡早發現需要特別監控的交易對手、行業或產品的風險承擔。交易組合的整體風險和個別減值貸款及潛在減值貸款，均定期予以監控。

- (ii) 零售信貸風險
本集團的零售信貸政策和審批程序是因應各類零售貸款中均有大量類似的小額交易而制定的。在設計內部評級系統和制訂信貸政策時，本集團的主要考慮因素包括客戶背景、信貸行為和有關貸款組合過往的損失。本集團監控本身和行業狀況以釐定和定期修訂產品條款和目標客戶組合。
- (iii) 財資交易的信貸風險
本集團採用企業及金融機構信貸風險的管理方法，管理本集團財資交易的信貸風險，包括引用內部評級系統處理交易對手及設定個別交易對手的風險限額。
- (iv) 與信貸有關的承諾
與信貸有關的承諾和或有事項的風險，本質上與提供貸款予客戶時的信貸風險相同。因此，有關交易必須符合客戶申請貸款時所要達到的信貸申請、組合保存和抵押要求。

(v) Master netting arrangements

To mitigate credit risks, the Group enters into master netting arrangements with same counterparties. Netting agreements provide that, if an event of default occurs, all outstanding transactions with the counterparty will be terminated and all amounts outstanding will be settled on a net basis. Except for the event of default, all outstanding transactions with the counterparty are settled on a gross basis and generally do not result in offsetting the assets and liabilities in the statement of financial position.

The following tables present details of financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements.

(v) 淨額結算總安排

本集團與其相同對手簽訂淨額結算總安排以減低信貸風險。若發生違約事件，根據淨額結算協議，所有與該對手之交易會終止及所有結餘金額以淨額結算。除發生違約事件外，所有與對手之交易會以總額結算及在財務狀況表中的資產和負債通常不會互相抵銷。

(vi) Concentrations of credit risk

Concentration of credit risk exists when changes in geographic, economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is material in relation to the Group's total exposures. The Group's credit portfolio is diversified along geographic, industry and product sectors. For analysis of loans and advances to customers by industry sectors and geographical areas, please refer to Notes 29(b) and 29(c) respectively.

The Group monitors its credit concentration risk by adopting appropriate risk control measures, such as setting limits on exposures to different industries and loan portfolios.

(vi) 信貸集中的風險

信貸集中的風險源於交易對手團體受到地區、經濟或行業因素的影響，而該等團體的整體信貸風險承擔對本集團的總體風險承擔至關重要。本集團的信貸組合分散覆蓋不同地區、行業和產品。有關按行業分類及區域分類的客戶貸款及墊款，請分別參閱附註29(b)及29(c)。

本集團一直採用適當的風險控制措施，例如就不同行業和貸款組合釐定限額，以監控信貸集中的風險。

(ix) Details of key areas in measurement of ECLs

The Group adopts a forward-looking “expected credit loss” model for measuring and recognising impairment loss to meet the requirement of HKFRS 9.

The impairment requirements of HKFRS 9 are complex and require management judgements, estimates and assumptions, particularly in the following areas, which are discussed in detail below:

- Assessing whether the credit risk of an asset has increased significantly since initial recognition; and
- Incorporating forward-looking information into the measurement of ECLs.

The key inputs into the measurement of ECL are Probability of default (PD), Loss given default (LGD) and Exposure at default (EAD).

The Group has established a framework to determine whether the credit risk on a particular financial asset has increased significantly since initial recognition (see Note 2(h)(vii)). The framework aligns with the Group’s internal credit risk management process.

Credit risk grades

For majority of the Group’s portfolios, the Group assigns each exposure to a credit risk grade that is determined according to the predicted level of the risk of default. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

The table below provides the 12-month Probability of default (“PD”) range for each credit risk grade of retail and non-retail portfolios. The table also provides an indicative mapping of how the Group’s internal credit risk grades relate to PD and, for the non-retail portfolio, to external credit ratings of Standard & Poor’s.

Internal Credit risk grade 內部信用風險等級	Remarks on default risk 違約風險的備註	12-month PD range 12個月PD範圍	External Rating Benchmark 外部評級基準
1-3	Minimal to Low risk 極小至低的風險	0.0000% to 0.0857%	AAA to 至A-
4-8	Moderate risk 適度風險	0.0857% to 0.4290%	BBB+ to 至BBB-
9-11	Substantial risk 略高風險	0.4290% to 1.6500%	BB+ to 至BB-
12-15	High risk 高風險	1.6500% to 8.3531%	B+ to 至B-
16-17	Very High risk 很高風險	8.3531% to 100%	CCC+ to 至C
18-20	Default 違約	100%	D

For the remaining portfolios without credit risk grade assignment, references of peer bank PD estimates of similar portfolios and the long-run average default rate of the portfolios are used.

(ix) 「預期信貸損失」估算中主要之處的詳述
本集團採納一套具前瞻性的「預期信貸損失」模型以估算和確認《香港財務報告準則》第9號要求的減值。

《香港財務報告準則》第9號的減值規定具複雜性並需要管理層作出判斷、估算及假設，特別是在以下將會詳述之處：

- 評估金融資產的信貸風險會否較初始承擔時明顯增加，及
- 整合前瞻性資料以作估算預期信貸損失。

「預期信貸損失」估算的關鍵輸入是違責或然率(PD)、違責損失率(LGD)及違責風險承擔(EAD)。

本集團已建立機制以確定某一金融資產的信貸風險是否較初始承擔時明顯增加(詳見附註2(h)(vii))。此機制與本集團的內部信貸風險管理程序吻合。

信用風險等級

對於本集團大多數信貸組合，本集團為每一個信貸風險承擔根據違約風險的預測而配定一個信貸風險評級。信用風險等級使用表明違約風險的定性和定量因素來定義。這些因素取決於風險承擔的性質和借款人的類型。

下表提供了零售和非零售投資組合的每個信用風險等級的12個月違責或然率範圍。該表還提供了本集團非零售信貸組合的內部信用風險等級與標準普爾的外部信用評級的指示性參考。

對於餘下沒有信用風險等級分配的信貸組合，我們使用類似信貸組合的同行銀行違責或然率估計的參考或信貸組合的長期平均違責或然率。

Generating the term structure of PD

Credit risk grades are a primary input into the determination of the term structure of PD for exposures. The Group also collects historical performance and default information about portfolios of credit risk exposures analysed by jurisdiction or region and by type of product and borrower as well as by credit risk grading. For some portfolios with no internal data available, information from external data sources is used. In particular,

Portfolio 組合	External data sources 外部數據源
Debt exposures 債務風險承擔	Moody's: Annual default study corporate default and recovery rates
Bank exposures 銀行風險承擔	穆迪：年度違約研究之公司的違約率和恢復率
Sovereign exposures 主體風險承擔	Moody's: Sovereign default and recovery rates
	穆迪：主權債務的違約率和恢復率

The Group deploys statistical models to analyse the data collected and generate estimates of PD of exposures expected to change as a result of the passage of time. The estimation of PD term structure makes use of the annual credit risk grade transition for the portfolios with credit risk grade assignment. For the portfolios without credit risk grade assignment and no credit risk grade transition information available, the PD term structure estimation is referenced to forecasts of economic index relevant to the portfolio.

LGD is the magnitude of the likely loss if there is a default. For the retail and corporate portfolio with sufficient historical loss and recovery data, the collateral recovery rates and the LGD estimates can be derived. For portfolios with insufficient historical loss and recovery data, either reference of peer bank LGD estimates of the similar portfolios or external data source are used for deriving the LGD estimates.

For portfolio with individual assessment of credit risk mitigation measures, collateral values are projected for different economic scenarios so as to reflect the LGD estimates under different economic scenarios. For other portfolios different scenario portfolio LGD are derived by benchmarking to a corresponding LGDs within a long period of historical LGDs.

EAD represents the expected exposure in the event of a default. The EAD of a financial asset is its gross carrying amount at the time of default. For lending commitments or undrawn limit of retail revolving products, the EAD is the potential future amounts that may be drawn under the contract. For financial guarantees, the EAD represents the amount of the guaranteed exposure when the financial guarantee becomes payable. The EAD estimates are adopted using the parameters suggested by BASEL or statistical model based on historical data.

(a) 信貸風險管理(續)

(ix) 「預期信貸損失」估算中主要之處的詳述(續)

違責或然率的期限結構

信用風險等級是確定違責或然率的期限結構的主要輸入。本集團亦會按司法管轄區或地區收集有關分析的信貸風險承擔，以及產品及借款人類別以及信貸風險評級的歷史表現及違約信息。對於一些沒有內部數據的投資組合，自外部數據源的信息會被使用。特別是，

本集團採用統計模型分析所收集的數據，並產生預計會因時間推移而發生變化的違責或然率的估計值。具有信用風險等級分配的組合，我們利用信用風險等級的年度轉換以估計對的違責或然率期限結構。對於沒有信用風險等級分配的組合或沒有可用的信用風險等級轉換信息。違責或然率期限結構估計參考了與組合相關的經濟指數預測。

如果存在違約，違責損失率是可能損失的幅度。對於具有足夠歷史損失和恢復數據的零售和公司投資組合，可以推導出抵押品回收率和違責損失率估計值。對於歷史損失和恢復數據不足的組合，可以使用同行銀行類似組合的違責損失率估計值或外部數據源來推導違責損失率估計值。

對於單獨評估信用風險緩解措施的組合，預測不同經濟情景的抵押品價值，以反映不同經濟情景下的違約損失率估計。對於其他組合，不同情景組合違責損失率通過在長期歷史期間對相應的違責損失率進行基準測試而得出。

違責風險承擔表示發生違約時的預期風險。金融資產的違責風險承擔是其違約時的總賬面金額。對於貸款承諾或零售周轉產品的未提取限額，違責風險承擔是可能根據合同提取的未來潛在金額。對於財務擔保，違責風險承擔表示財務擔保到期時的擔保風險金額。違責風險承擔估計採用BASEL建議的參數或基於歷史數據的統計模型。

財務報表附註(續)

Significant increase in credit risk

Exposures are subject to ongoing monitoring, which may result in an exposure being moved to a different credit risk grade when the risk of asset changes. The Group primarily identifies whether a significant increase in credit risk under HKFRS 9 has occurred for an exposure by comparing:

- the credit risk grade at the reporting date; with
- the credit risk grade at the initial recognition of the exposure.

The Group deems the credit risk of a particular exposure to have increased significantly since initial recognition if the current credit risk grade deteriorates by a pre-determined number of notches. The criteria for determining the number of notches may vary by portfolio and include a backstop based on delinquency.

As a backstop, and as required by HKFRS 9, the Group presumptively considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due. Also, being Special-mention under HKMA classification is also an indicator of significant increase in credit risk.

The Group monitors the effectiveness of the criteria used to identify significant increases in credit risk by regular review to confirm that:

- the criteria are capable of identifying significant increase in credit risk before an exposure is in default;
- exposures are not generally transferred directly from 12-month ECL measurement to credit-impaired; and
- there is no unwarranted volatility in loss allowance from transfers between 12-month ECL and lifetime ECL measurements.

Incorporating forward-looking information into the measurement of ECLs

The Group has identified key drivers of systematic credit risk for each portfolio of financial assets based on analysis of historical data in which relationship between macro-economic indicators and the systematic credit risk is exhibited.

The Group formulates economic forward looking scenarios for the view of the future direction of major economic indicators such as GDP, unemployment rate, property price index, interest rate and other economic indicators specific to particular portfolio.

明顯增加的信貸風險

信貸風險承擔會持續受監控並在其風險程度有所改變時被調配至不同的信貸風險評級。在《香港財務報告準則》第9號下，集團識別一個資產的信貸風險是否明顯增加主要透過比較該資產：

- 於結算日的信貸風險評級；和
- 於初始承擔時的信貸風險評級

如某一資產的現行信貸風險評級已較本集團初始承擔時的評級轉差了超過一個指定數量的級別，本集團視該資產的信貸風險已有明顯增加。不同的資產組合會以不同的級別數量作為衡量標準，並以逾期情況作為預設的基本標準。

在《香港財務報告準則》第9號下，作為一個基本標準，本集團預設某一已逾期超過30日的資產為信貸風險已經明顯增加。此外，在金管局貸款分類制度下成為需要關注貸款也表明信貸風險顯著增加。

本集團監控識別信貸風險增加的衡量標準的有效性，透過定期檢討以確保：

- 衡量標準能在風險承擔違約前識別信貸風險增加；
- 風險承擔一般不會從12個月內之預期信貸損失直接轉為不良信貸；及
- 不會導致減值撥備因為風險承擔在計算12個月內之預期信貸損失和合約期內之預期信貸損失中的轉變時出現不必要的波動。

整合前瞻性資料以作估算預期信貸損失
本集團根據歷史數據對宏觀經濟指標與系統信用風險之間關係進行分析，確定了各金融資產組合的系統信用風險的關鍵驅動因素。

本集團制定經濟前瞻情景，以了解主要經濟指標的未來方向，例如國內生產總值、失業率、房地產價格指數、利率及特定投資組合的其他經濟指標。

Incorporating forward-looking information into the measurement of ECLs (continued)

For each portfolio, the key drivers under forward looking scenarios are applied for estimating the systematic credit risk component of an obligor's Probability of Default ("PD") used in calculating ECLs. In addition to PD, relevant macro-economic indicators are used for projection of the collateral value for recovery rate estimates used in ECL calculation.

The Group adopts the use of three economic scenarios. In each region/country where the Group operates, the Group formulates probability for each scenario and forecast the major macro-economic indicators to reflect the Group's forward-looking view on the future business outcomes in that particular region/country under each scenario.

The forecasts of baseline scenario are based on advice from the in-house economic experts and considerations of a variety of actual and forecast information, such as economic data and forecasts published by governmental bodies and monetary authorities in the regions/countries where the Group operates. The Group also takes reference from forecasts by international agencies and private sector analysts as far as possible to formulate a more objective forecast, while taken into account the current domestic and international economic developments, and changes in local economic policies. Autoregressive econometric model is applied as a tool to forecast the equity and property prices movements in the regions/countries concerned.

The baseline scenario represents the most-likely outcome that the Group expects. The corresponding probability is reflecting the confidence of the future uncertainties are being captured in the baseline scenario forecast.

The other scenarios are an optimistic scenario and a pessimistic scenario, to capture the less likely, yet possible, upside and downside divergence from the baseline forecast. These scenarios and their probabilities represent the Group's view that in case the future outcome is outside the expectation as in the baseline scenario, how likely it would be optimistic (i.e. unexpectedly good) or pessimistic (i.e. unexpectedly bad) and how unexpectedly good or unexpectedly bad outcomes will be, based on current economic outlook, potential domestic and international economic and political risks affecting the regions/countries the Group has business presence, and the strength of a region/country's fundamentals to weather through crises. Forecasts for these two scenarios are mainly derived based on a modification of the Bank of England's fan chart model, where we assume the divergences from the baseline scenario are derived from historical volatility of the data series. The spread for the pessimistic scenario is greater than that of the optimistic scenario to reflect the Group's prudent view against downside risks.

The baseline, optimistic and pessimistic scenarios are updated quarterly to timely reflect a change in the current economic sentiment locally and internationally.

整合前瞻性資料以作估算預期信貸損失(續)

對於每個投資組合，前瞻性情景下的關鍵驅動因素將用於估算債務人的違約概率的系統信用風險部分以用於計算預期信貸損失。除違約概率外，相關的宏觀經濟指標將用於預測抵押品價值以估算回收率並使用作計算預期信貸損失。

本集團會採納使用三個經濟情景。在本集團經營的每個地區／國家，本集團將為每個情景制定情景的可能性並預測主要的宏觀經濟指標，以反映集團在每種情景下，該地區／國家未來業務成果的前瞻性觀點。

基準情景的預測是根據本集團經濟專家的建議和對各種外部實際和預測信息的考慮，例如本集團經營所在地區／國家的政府機構和金融管理局公佈的經濟數據和預測。同時，本集團盡可能參考國際機構及私營機構分析師的預測，以及考慮現時本地及海外經濟發展情況、當地經濟政策的轉變。至於相關地區或國家的股票及樓價指數，則使用自迴歸經濟模型作出估算。

基準情景是代表本集團預期中的最具可能性的結果。其相對應的機會率反映了集團在預測基準情景中對未來不確定性的掌握置信度。

其他情景是一個樂觀情景和一個悲觀情景。在這些情景中，我們對可能性較低、卻可能發生的上行和下行狀況作出預測。這些情景及其機會率代表了集團的觀點，即當未來結果超出基準情景預期時，經濟將傾向樂觀（即出乎意料的好）或悲觀（即出乎意外的差）的可能性有多大，以及出乎意料的好或意外的壞的結果將會是怎樣，基於當前的經濟前景、潛在的國內外經濟及政治風險，及其對本集團有業務之地區／國家的影響，並且這些地區／國家的經濟面、應付危機的能力。這兩種情景的預測主要是以英倫銀行扇形圖模型為基礎再修改而來。我們假設兩種情景與基準情景的差距來自數據列的歷史波動。其中，悲觀情景的差距大於樂觀情景，反映集團對下行風險持謹慎態度。

基準、樂觀及悲觀情景會每季度更新，以及時反映當地及國際經濟情緒的變化。

財務報表附註(續)

Baseline Scenario – Hong Kong

The coronavirus outbreak in early 2020 continued to be the major drag of Hong Kong's economy. The volatile pandemic situation severely deterred the normalization of social and economic activities, and left retail spending and tourism reeling.

Looking forward, we estimate that real GDP will rebound and grow at 4% in 2021, after suffering from a severe virus-led slump in 2020, after mass vaccination programme starts and the pandemic situation gradually subsides. Meanwhile, inflation is expected to be moderate at 1.5%, while the unemployment rate is expected to gradually trend downwards from the 2020 peak, though it will take a considerable time to return to pre-crisis level.

The exports sector shall be driven by economic growth in Mainland China, and optimism fueled by vaccine development, which will also shore up investment and consumer sentiment. Although the US-China relationship shall continue to be confrontational and most anti-China policies would still be in place, the new US government shall focus more on reviving its virus-hit economy, while China will continue to open up its economy. This shall give a breathing space for Hong Kong's economy.

Residential property prices have been resilient, supported by supply shortage and low interest rates. The epidemic's heavy toll on the economy and labour market has only led to a slight correction in property prices. Interest rates will continue to be low as the market generally believes the US Federal Reserve to maintain the current loose monetary policies at least until 2023. Together with the chronic shortage of land supply in the short run, residential property prices shall remain resilient in the foreseeable future.

Baseline Scenario – Mainland China

Since the second half of 2020, China's economic recovery is in firm footing. The industrial and exports sector is the first to lead the rebound, while consumer activities and domestic demand subsequently gained momentum.

Looking ahead, on the external front, mass adoption of coronavirus vaccines is expected to be able to lift the European and US economies from downturns. This will boost global demand and thus Chinese exports. At the same time, the new US administration is unlikely to withdraw policies targeting China in the near term, but it is expected to refrain from rolling out more restrictions. This shall be a good news to China. Overall, we expect China's economy to grow at 8.6% in 2021 because of the economic recovery and a low baser of comparison, and stabilize at 5.3% in 2022.

For the housing market, it has been holding up well throughout the year. Prices continued with an upward trend, while sales of residential buildings and real estate investment has been strong. Yet higher house prices have alerted government over a high leveraging problem in the market. As such, the central government shall continue to aim at stabilizing the housing price, which is therefore expected to rise with a decelerating trend.

基準情景 – 香港

香港經濟主要受到2020年初爆發的新型冠狀病毒疫情所拖累。疫情反覆，大大阻礙社會和經濟活動正常化的步伐，使零售消費及旅遊業陷入困境。

展望未來，我們預測經濟在2020年因疫情而重挫後，隨着群眾開始接種疫苗，以及疫情開始緩和，經濟在2021年將反彈，並錄得4%增長。通脹率將在1.5%的溫和水平，失業率則從2020年的高位逐步回落。然而，我們相信失業率需要一段頗長的時間，才能回復到疫情前的水平。

香港出口將受惠於中國內地經濟增長穩定，以及對疫苗研發和推出的樂觀情緒，這亦會支持投資和消費者信心。展望未來，中美之間關係仍然會充滿爭拗，針對中國的措施相信仍然在短期內會維持。然而，美國政府應會首先集中刺激災後經濟，而中國將更加致力開放市場。這將為香港經濟帶來喘息空間。

在供應不足和低利率的支持下，住宅樓價表現強韌。疫情爆發對經濟造成沉重打擊，勞動市場顯著惡化，但樓價僅出現輕微調整。由於市場普遍預期美國聯儲局至少在2023年之前維持寬鬆的貨幣政策，香港利率將繼續保持低位。加上短期內土地供應仍然短缺，樓價在可見將來仍會持續表現強韌。

基準情景 – 內地

自2020年下半年開始，中國經濟穩步復甦。工業及出口首先反彈，隨後消費活動及國內需求亦開始重回升軌。

展望未來，於國外層面，新冠肺炎疫苗的大規模接種將會提振本來陷入負增長的歐洲及美國經濟，並刺激全球需求及中國出口。同時，美國新政府上場，短期內不太可能取消針對中國的措施，但有望避免進一步對中國實施更多限制，對中國是一個利好消息。整體來說，由於經濟復甦及2020年的低基數效應，我們預計中國的經濟將在2021年增長8.6%，至2022年則穩定增長5.3%。

房地產市場方面，住宅市場全年表現良好。房價繼續呈上升趨勢，而住宅銷售和房地產投資強勁。然而，房價持續向上，使政府關注市場的高槓桿問題。因此，中央政府會繼續致力維持房價穩定。因此，我們預期房價將持續上升，然而增幅將會減慢。

(x) Impairment allowances reconciliation

The following tables show reconciliations from the opening to the closing balance of the impairment allowance by type of financial instrument. The reconciliation is prepared by comparing the position of impairment allowance between 1st January and 31st December at transaction level. Transfers between different stages of ECL are deemed to occur at the beginning of the year and therefore amounts transferred net to zero. The re-measurement of ECL resulting from a change in ECL stage is reported under the ECL stage in which they are transferred to.

Explanations of 12-month ECL, lifetime ECL and credit-impaired are included in Note 2.

(x) 減值準備對賬

下表列示按金融工具的類別劃分的減值準備的期初結餘與期末結餘的對賬。編製對賬的方法是比較減值準備於1月1日至12月31日期間交易層面的狀況。預期信貸損失不同階段之間的轉撥被視為於年初發生，故金額轉撥淨額為零。因預期信貸損失階段轉變而引致的重新計量預期信貸損失會記於其所轉撥的預期信貸損失階段項下。

關於12個月內之預期信貸損失、合約期內之預期信貸損失及信貸不良的解釋見附註2。

(a) Credit risk management (continued)

(xi) Collateral and other credit enhancements

The Group has established guidelines on the acceptability of various classes of collateral and determined the corresponding valuation parameters. The guidelines and collateral valuation parameters are subject to regular reviews to ensure their effectiveness over credit risk management.

The extent of collateral coverage over the Group's loans and advances to customer depends on the type of customers and the product offered. Types of collateral include residential properties (in the form of mortgages over property), other properties, other registered securities over assets, cash deposits, standby letters of credit and guarantees. Collateral generally is not held over balances and placements with banks, and loans and advances to banks, except when securities are held as part of sale and repurchase and securities borrowing activity. The Group takes possession of collateral through court proceedings or voluntary delivery of possession by the borrowers during the course of the recovery of impaired loans and advances. These repossessed assets are reported in the statement of financial position within "other assets" (Note 2(t)). If the recovery from the repossessed assets exceeds the corresponding gross exposure, the surplus fund is made available either to repay the borrower's other secured loans with lower priority or is returned to the borrower.

Collateral held as security for financial assets other than loans and advances is determined by the nature of the instrument. Debt securities, treasury and other eligible bills are generally unsecured with the exception of asset-based securities and similar instruments, which are secured by pools of financial assets. However the credit risk may be implicit in the terms or reflected in the fair value of the corresponding instruments.

The Group's preferred agreement for documenting derivatives activity is the ISDA Master Agreement which covers the contractual framework within which dealing activity across a full range of over-the-counter products is conducted and contractually binds both parties to apply close-out netting across all outstanding transactions covered by an agreement, if either party defaults or following other pre-agreed termination events. It is also common for the Group to execute a Credit Support Annex in conjunction with the ISDA Master Agreement with the counterparty under which collateral is passed between the parties to mitigate the market contingent counterparty risk inherent in the outstanding position.

For contingent liabilities and commitments that are unconditionally cancellable (Note 47), the Group will assess the necessity to withdraw the credit line when there is a concern over the credit quality of the customers. Accordingly, the exposure to significant credit risk is considered as minimal. For commitments that are not unconditionally cancellable, the Group assesses the necessity of collateral depending on the type of customer and the product offered.

(a) 信貸風險管理(續)

(xi) 抵押品及其他信用提升

本集團已制訂可接受不同類別抵押品的指引，並釐定相關估值參數。本集團會定期檢討指引及抵押品估值參數，以確保信貸風險管理的成效。

本集團客戶貸款及墊款的抵押品範圍視乎客戶類別及所提供產品而定。抵押品類別包括住宅物業(以物業按揭形式)、其他物業、其他登記抵押資產、現金存款、備用信用證及擔保。除持有用作回購及證券借貸活動的抵押品外，在銀行的結存及存款，以及銀行貸款及墊款一般不需要抵押品。在收回減值貸款及墊款時，本集團會通過法庭程序或借款人自願交出擁有權收回抵押品。該等收回資產於財務狀況表中以「其他資產」列賬(附註2(t))。倘從收回資產所得之追收額超出相關風險承擔時，則會使用盈餘資金償還借款人優先次序較低的已抵押貸款或退回予借款人。

持有用作非貸款及墊款金融資產的抵押品，是按照工具之性質決定。除以一籃子金融資產作抵押的資產融資證券及相同工具外，債務證券、庫券及其他認可票據一般俱屬無抵押的。然而，信貸風險可能隱含於相關工具的條款內或於相關工具的公平價值中反映。

ISDA的主合約為本集團處理衍生交易文件的優先合約，當中涵蓋合約框架，而在合約框架之下，本集團可進行一系列的場外產品交易活動，如其中一方違約或發生其他預先協定的終止事件，則按合約約束參與者以淨額結算合約涵蓋的所有未履行交易。本集團亦會在簽訂ISDA的主合約的同時，與交易對手簽訂信貸附約，據此，抵押品可於訂約方之間轉交，以降低出現在未履約情況下的內在市場或然交易對手風險。

對於或然負債及可無條件取消的承擔(附註47)，如本集團對客戶的信貸質素有疑慮，則會評估是否需要撤回信貸額。因此，本集團面臨重大信貸風險機會視為微乎其微。對於不可無條件取消的承擔，本集團會視乎客戶類別及所提供產品評估是否需要進行抵押。

(b) Market risk management

Market risk is the risk arising from adverse movements in market rates and prices such as interest rates, foreign exchange rates, equity prices, debt security prices and commodity prices, which result in potential losses for the Group. The aim in managing market risk is to reduce the Group's exposure to the volatility inherent in market factors.

The Asset and Liability Management Committee deals with all market risk-related issues of the Group. It is also responsible for conducting a regular review of interest rate trends and deciding the corresponding future business strategy. Market risk is managed daily by the Treasury Markets Division of the Group within the limits approved by the Board or the Asset and Liability Management Committee. The Asset & Liability Management Department under the Risk Management Division of the Group is responsible for monitoring activities relating to market risk. The Internal Audit Division performs periodic reviews to ensure that the market risk management functions are performed effectively.

The use of derivatives for trading and the sale of derivatives to customers as risk management products are integral parts of the Group's business activities. These instruments are also used to manage the Group's own exposures to market risk, as part of its asset and liability management process. The principal derivatives instruments used by the Group are interest rate, foreign exchange, and equity-related contracts, in the form of both over-the-counter derivatives and exchange-traded derivatives. Most of the Group's derivatives positions have been entered into to meet customer demand and to manage the risk of these and other trading positions.

In this connection, the key types of market risk that must be managed are:

(i) Currency risk

The Group's foreign currency positions arise from foreign exchange dealing (including derivatives), commercial banking operations, and structural foreign currency exposures. The Group's non-structural foreign currency exposures are denominated in major currencies, particularly USD and RMB. All foreign currency positions are managed within limits approved by the Board and the Asset and Liability Management Committee.

Structural foreign currency positions, which arise mainly from foreign currency investments in the Group's branches, subsidiaries, and associated companies, are excluded from value-at-risk measurements, as related gains or losses are taken to reserves. Such foreign currency positions are held with the intention of hedging any adverse effect, partially or totally, of exchange rate movements on the capital adequacy ratio. The Group seeks to match its foreign currency denominated assets closely with corresponding liabilities in the same currencies.

(b) 市場風險管理

市場風險是指因市場價格，例如利率、匯率、股票價格、債務證券價格及商品價格的不利變動而導致本集團有機會出現虧損的風險。市場風險管理旨在減少市場因素的波動為本集團帶來的風險。

資產負債管理委員會負責處理所有與本集團市場風險有關的事項，亦負責定期檢討利率走勢及釐定相應的未來業務策略。市場風險由集團的資金市場處按董事會或資產負債管理委員會批准的限額範圍進行日常管理。本集團風險管理處轄下的資產負債管理部，負責監察與市場風險有關的活動。稽核處會進行定期審查，以確保市場風險管理職能得到有效執行。

透過衍生工具進行自營交易及向客戶出售衍生工具以用作風險管理產品，為本集團其中一項重要業務。此等工具亦用以管理本集團所承受的市場風險，作為本集團資產負債管理的一部分。本集團所採用的衍生工具主要為利率、外匯和股份相關合約，即為場外或場內交易的衍生工具。本集團大部分的衍生工具持倉均為切合客戶需求，以及為此等和其他交易項目而進行對沖。

在此方面，本集團必須管理的主要市場風險包括：

(i) 貨幣風險

本集團的外幣持倉源自外匯買賣(包括衍生工具)、商業銀行業務和結構性外匯風險。本集團的非結構性外匯風險以主要貨幣計值，當中以美元及人民幣為主。所有外幣持倉均維持在董事會或資產負債管理委員會所訂定的限額內。

結構性外匯持倉主要源自於本集團分行、附屬公司和聯營公司的外匯投資，其有關的溢利或虧損因為已撥入儲備，所以未計算在風險值內。此等結構性外幣持倉的主要目的，是對沖因匯率變動而對本集團資本充足比率產生的部分或全部不利影響。本集團盡力將以外幣計值的資產與以同一貨幣計值的負債，保持在相若水平。

(ii) Interest rate risk in trading book

The Group's trading interest rate positions arise from treasury and dynamic hedging of retail and commercial banking activities. Interest rate risk is managed daily by the Treasury Markets Division of the Group within the limits approved by the Board or the Asset and Liability Management Committee. The instruments used to manage interest rate risk include interest rate swaps and other derivatives. For the interest rate risk management of the Group's banking book positions, please refer to Note 45(e).

(iii) Equity risk

The Group's equity positions arise from equity investment and dynamic hedging of customer-driven business. Equity risk is managed daily by the Investment Department within the limits approved by the Board, Investment Committee, or the Asset and Liability Management Committee.

Market risk control limits have been set at varying levels according to the practical requirements of different units. The Board approves the core control limits and has delegated the authority to set detailed control limits to the Asset and Liability Management Committee. Risk, return, and market conditions are considered when setting limits. Active limit monitoring is carried out.

In this connection, the Asset and Liability Management Committee monitors the related market risk arising from the risk-taking activities of the Group to ensure that market risk exposures are within the Group's risk tolerance levels. Risk exposures are monitored frequently to ensure that they are within established control limits.

The Group quantifies the market risk of the underlying trading portfolio by means of VaR. VaR is a statistical estimate that measures the potential losses in market value of a portfolio as a result of unfavourable movements in market rates and prices, assuming that positions are held unchanged over a certain horizon time period.

(ii) 交易賬冊的利率風險

本集團的交易組合中的利率持倉來自零售及商業銀行業務的動態對沖。利率風險由本集團資金市場處按董事會或資產負債管理委員會批准的限額範圍進行日常管理。管理利率風險的工具包括利率掉期和其他衍生工具。就管理本集團銀行賬冊持倉的利率風險而言，請參閱附註45(e)。

(iii) 股份風險

本集團的股份持倉來自股份投資及客戶業務的動態對沖。股份風險由投資部按董事會、投資委員會或資產負債管理委員會批准的限額範圍進行日常管理。

市場風險控制限額設有不同層次以配合各類業務的實際需要。董事會審批核心控制限額並授權資產負債管理委員會審批具體的控制限額。釐定限額時會考慮風險、回報及市場情況等因素，並且採用積極限額監控程序。

在此方面，資產負債管理委員會負責監察本集團進行風險活動時所產生的相關市場風險，確保其市場風險處於本集團的風險承受範圍內。本集團會經常監控風險承擔情況，以確保所承擔風險屬於既定的控制限額內。

本集團運用風險值來量化相關交易組合的市場風險。風險值是統計學上的估計，用來量度假設於某一時段內持倉維持不變的情況下，因市場息率及價格的不利波動而引致組合的市值潛在虧損。

財務報表附註(續)

The Group estimates VaR for the Group's trading portfolio by the historical simulation approach, where the VaR is calculated by revaluing the portfolio for each of the market movement scenarios obtained from the historical observation period. This methodology uses movements in market rates and prices over a one-day holding period with a 99% confidence level under a two-year observation period.

The market value of listed shares, the fair value of private equity funds and unlisted equities (collectively the "Unlisted Securities"), are subject to limits and these are managed by the Investment Department of the Group. The Unlisted Securities and listed non-trading equities are not included in the VaR for the equity trading position, and are managed through delegated limits. The limits are subject to regular review by the Asset and Liability Management Committee.

(c) Operational risk management

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

The objectives of operational risk management are to identify, assess, monitor, and report operational risk of the Group systematically and effectively; to minimise any operational loss and other impact on the Group; and to comply with the relevant regulatory requirements.

The Operational Risk Management Committee is responsible for overseeing operational risk management of the Group while the Operational Risk Management Department under the Risk Management Division of the Group is assisting the Management in managing the Group's operational risk, including the establishment and review of the operational risk management policy and framework, designing the operational risk management tools and reporting mechanism, and assessing and reporting the overall operational risk position to the Management and Risk Management Committee. All the heads of business units and support units of the Group are responsible for the day-to-day operational risk management of their units.

The Group has put in place an effective internal control process which requires the establishment of policies and control procedures for all the key activities. The Group adheres to the fundamental principle of proper segregation of duties and authorisation. The Group adopts various operational risk management tools and methodologies such as key risk indicators, self assessment, operational risk events reporting and review to identify, assess, monitor and control the risks inherent in business activities and products, as well as purchase of insurance to mitigate unforeseeable operational risks. Business continuity plans are established to support business operations in the event of an emergency or disaster.

(c) 營運風險管理

營運風險是指由於內部流程、人員和系統不足或缺陷，或因外部事件而導致損失的風險。

營運風險管理的目的在於有系統及有效地識別、評估、監控及匯報本集團營運風險；減少營運虧損及對本集團的其他影響；以及遵守相關監管規定的要求。

營運風險管理委員會負責監督集團的營運風險管理，而本集團風險管理處轄下的營運風險管理部負責協助管理層管理本集團的營運風險，包括制定和重檢營運風險管理政策和框架、設計營運風險的管理工具和匯報機制、評估及向管理層和風險管理委員會匯報總體營運風險狀況。本集團所有部門或後勤單位主管均負責其單位的日常營運風險管理。

本集團建立了有效的內部控制程序，對所有重大活動訂下政策及監控措施。設置適當的職責分工和授權乃本集團緊守的基本原則。本集團採用關鍵風險指標、自我評估、營運風險事件匯報及檢查等不同的營運風險管理工具及方法以識別、評估、監察及控制潛在於業務活動及產品內的風險，同時透過購買保險，將未能預見的營運風險減低。對支援緊急或災難事件時的業務運作備有持續業務運作計劃。

(d) Liquidity risk management

Liquidity risk is the risk that the Group may not be able to meet its obligations as they come due because of an inability to obtain adequate funding (funding liquidity risk); or that the Group cannot easily liquidate assets quickly without significantly lowering market prices because of inadequate market depth or market disruptions (market liquidity risk).

The purpose of liquidity risk management is to ensure sufficient cash flows to meet all financial commitments and to capitalise on opportunities for business expansion. This includes the Group's ability to meet deposit withdrawals either on demand or at contractual maturity, to repay borrowings as they mature, to make new loans and investments as opportunities arise and, last but not least, to comply with all the statutory requirements for liquidity risk management, including Liquidity Coverage Ratio ("LCR") and Net Stable Funding Ratio ("NSFR").

The Group reviews the risk profile through regular assessments of both qualitative and quantitative risk factors to determine its tolerance of prevailing risk levels against applicable risk appetite statement for liquidity risk approved annually by the Board. The Asset and Liability Management Committee is delegated by the Board to oversee the Group's liquidity risk management. The Asset and Liability Management Committee comprises balanced representation of senior staff from various business units, Treasury, Risk Management and Finance, who jointly formulate funding strategies. The Asset and Liability Management Committee sets the strategy, policy, and limits for managing liquidity risk and the means for ensuring that such strategy and policy are implemented. Regular meetings are held to review the compliance status of the monitoring matrix established and the need for any change in strategy and policy. Liquidity is managed daily by the Capital Markets & Liquidity Management Department under the Treasury Markets Division of the Group within the set limits. The Asset & Liability Management Department under the Risk Management Division of the Group is responsible for monitoring the activities relating to liquidity risk. The Internal Audit Division performs periodic reviews to ensure that the liquidity risk management functions are carried out effectively.

The LCR and NSFR statutory requirements are part of the stringent regulatory regime that covers the liquidity risk management of the Group. To ensure compliance with the regulatory requirements, internal targets for LCR and NSFR have been set above regulatory required levels, after considering the Group's liquidity risk appetite. In addition material changes in the LCR and NSFR are reviewed regularly by the Asset and Liability Management Committee together with proposed mitigation actions to cope with adverse changes arising from, but not limited to, composition of the deposit base and remaining tenor to maturity, lending activities with respect to different maturity tenors, and the Group's asset and liability mix strategy. In planning the asset and liability mix strategy, the Group's relevant business units contribute to an assessment of the impact of asset growth and funding structure on the LCR and NSFR for review and decision by the Asset and Liability Management Committee.

(d) 流動性風險管理

流動性風險是指本集團因未能獲得充足資金投入而可能無法履行到期責任的風險(資金流動性風險);或因市場深度不足或市場失序,本集團非得大幅降低市場價格的情況下無法輕易迅速變現資產的風險(市場流動性風險)。

流動性風險管理是為了確保本集團維持充足的現金流量以履行所有財務承擔,並掌握業務擴展的機會。當中包括確保本集團能夠在即時或合約期滿時滿足提款要求,在借款期滿時能夠還款,掌握貸款和投資的機會,以及符合所有有關流動性風險管理的法定規定,包括流動性覆蓋比率及穩定資金淨額比率。

本集團通過定期評估定性及定量的風險因素檢討風險狀況,根據董事會每年批准的適用於流動性風險的風險偏好釐定其現行風險承受範圍。資產負債管理委員會獲董事會授權,負責監察本集團的流動性風險管理。資產負債管理委員會由各業務單位、司庫、風險管理及財務的管理層出任以共同制定資金戰略方案。資產負債管理委員會制訂管理流動性風險的策略、政策及限額,以及確保執行有關策略與政策的措施。委員會定期舉行會議,檢討各既有監控架構的合規情況,以及是否需要改變策略及政策。流動資金狀況由本集團資金市場處轄下的資本市場及流動資金管理部每日按所訂限額範圍進行管理。本集團風險管理處轄下的資產負債管理部負責監察與流動性風險相關的活動。稽核處會定期作出檢討,確保流動性風險管理功能得以有效執行。

流動性覆蓋比率及穩定資金淨額比率的法定要求是本集團對流動性風險管理的嚴格監管制度部份之一。為確保遵守監管要求,本集團考慮過其流動性風險偏好後,為流動性覆蓋比率及穩定資金淨額比率設定的內部目標均高於上述監管規定水平。此外,資產負債管理委員會會定期檢閱流動性覆蓋比率及穩定資金淨額比率的重大變動,並提出建議補救措施,以應對來自(但不限於)存款基礎及其餘下到日期限、不同到期期限的貸款活動以及本集團資產及負債組合策略所產生的不利變動。在規劃資產及負債組合策略時,本集團的相關業務單位就資產增長及資金結構對流動性覆蓋比率及穩定資金淨額比率的影响提交評估,以供資產負債管理委員會檢討和作出決策。

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(d) Liquidity risk management (continued)

As part of Group efforts to manage the LCR and NSFR effectively, emphasis is placed on strengthening the deposit base by retaining loyal customers and maintaining customer relationships. The Group balances funding among retail, small business, and wholesale funding to avoid concentration in any one source. Professional markets are accessed through the issuance of certificates of deposit, medium-term notes, subordinated debt, money market placement, and other borrowings for the purposes of providing additional funding, maintaining a presence in local money markets, and optimising asset and liability maturities.

In addition to observing the statutory LCR and NSFR, the Group has established different liquidity metrics – including but not limited to the loan-to-deposit ratio, cumulative maturity mismatch ratio, funding concentration ratio, intra-group exposure threshold, and cross currency funding ratio – to measure and analyse the Group's liquidity risk. The Group maintains sufficient High-quality liquid assets (“HQLAs”) as a liquidity cushion that can be accessed in times of stress. The HQLAs for fulfilling the LCR consist of cash, exchange fund bills and notes, high quality government debt securities and other equivalent liquid marketable assets. The majority of HQLAs are denominated in Hong Kong dollars. Contingent funding sources are maintained to provide strategic liquidity to meet unexpected and material cash outflows.

Internally, intra-group funding transactions are carried out at arm's length and treated in a manner in line with third-party transactions, with regular monitoring and appropriate control. A majority of the Group's liquidity risk arises from the maturity mismatch gap between the Group's asset and liability portfolios. The Group manages liquidity risk by conducting regular cash flow analysis and projections through the use of the Bank's management information system so as to facilitate the identification of funding needs arising from on and off-balance sheet items over a set of time horizons.

The Group also conducts stress-testing regularly to analyse liquidity risk. Both on and off-balance sheet items and their impact on cash flow are considered, together with applicable hypothetical and historical assumptions. The assessment and review of market liquidity risk are included in the various control processes, including investment/trading strategy, market risk monitoring, valuation, and portfolio review. Three stress scenarios – namely an institution-specific crisis, a general market crisis, and a crisis involving a combination of the two – are adopted with minimum survival period defined according to the HKMA's Supervisory Policy Manual LM-2, “Sound Systems and Controls for Liquidity Risk Management”.

With reference to the stress-testing results, the Group identifies potential vulnerabilities within the Group, establishes internal limits and formulates a contingency funding policy that sets out the Group's strategy for dealing with any liquidity problem and the procedures for making up cash flow deficits in emergency situations.

(d) 流動性風險管理(續)

為有效地管理流動性覆蓋比率及穩定資金淨額比率，本集團特別著重存留忠實客戶及維持客戶關係，藉以增強存款基礎。本集團在零售、小企業以及批發市場資金之間保持平衡，避免資金集中於任何一種來源。本集團透過發行存款證、中期票據、後償債項、貨幣市場拆借及其他借貸進入專業市場，獲取額外資金，以此維持本行於本地金融市場的地位及優化資產及負債的期限。

除了緊守法定的流動性覆蓋比率及穩定資金淨額比率外，本集團已設立不同的流動性指標，以衡量及分析流動性風險，包括(但不限於)貸存比率、累積到期錯配比例、資金集中比率、集團內公司之間風險限額以及跨貨幣資金比率。本集團維持充足的優質流動資產，作為能夠在資金受壓時取用的流動資金緩衝。為滿足流動性覆蓋比率所需的優質流動資產包括：現金、外匯基金票據和債券、優質的政府債務票據，以及其他同等的而可供出售的流動資產，其中大部分優質流動資產以港幣計值。本集團維持應急資金來源，能提供策略性的流動資金，以應付未能預計及大量的資金需求。

內部方面，集團內公司間的融資交易乃按一般正常公平交易原則進行，處理方式與第三方交易一致，並會定期進行監察及適當控制。本集團大部分流動性風險來自資產與負債組合之間的期限錯配差距。本集團會透過使用本行的管理資訊系統，對一系列時間內的資產負債表內、外項目定期進行現金流量分析及預測，以確定不同時段的資金需要，從而管理流動性風險。

本集團亦會定期進行壓力測試，以分析流動資金風險。透過適用的虛擬及歷史假設，本集團的壓力測試均已考慮資產負債表內外項目及其對現金流量造成的影響。市場流動資金風險的評估及檢討納入各個控制環節，包括投資/交易策略、市場風險監控、估值及組合檢討。三個壓力情景—即個別銀行危機、整體市場危機，以及結合上述兩種情況的綜合危機—均採用金管局監管政策手冊LM-2「穩健的流動性風險管理系統及管控措施」界定的最短存活期。

本集團會參照壓力測試結果，確認集團內的潛在弱點，訂立內部限額，並制訂應急資金政策及計劃，當中載列了本集團處理流動資金問題的策略及於緊急情況下彌補現金流不足的程序。

The contingency funding policy is designed to be pro-active and pre-emptive, and stipulates the following three stages:

1. The Group utilises early warning indicators, which cover both qualitative and quantitative measures, and monitors both internal and external factors. Should there be any early signs of significant impact on the Group's liquidity position, the Asset and Liability Management Committee is informed. The Asset and Liability Management Committee will consider appropriate remedial actions and will consider employing crisis management if the situation warrants.
2. A Crisis Management Committee, which is chaired by the Co-Chief Executives, is formed to handle the crisis. Strategy and procedures for obtaining contingency funding, as well as roles and responsibilities of the parties concerned, are clearly stated.
3. In the final stage, a post-crisis review is carried out to recommend necessary improvements to avoid incidents of a similar nature in the future.

An annual drill test is conducted and the contingency funding policy is subject to regular review in order to accommodate any changes in the business environment. Any significant changes to the contingency funding policy are approved by the Board.

應急資金政策旨在提供防患未然的積極措施，並訂明以下3個階段：

1. 本集團運用預早警報指標，當中包括質性及數量性的措施，及監察內部及外在因素。假如有任何早期跡象顯示本集團流動資金狀況將受重大影響，應通知資產負債管理委員會。資產負債管理委員會將考慮適當的補救措施，並在情況需要時會考慮採用危機管理措施。
2. 本集團已設立危機管理委員會，並由聯席行政總裁擔任該委員會的主席，該委員會專責處理危機，並明確規定取得應急資金的策略及程序，以及有關各方的職務及職責。
3. 於最後階段，本集團會在危機結束後對問題進行檢討，並作出必要改進，避免日後出現同類事件。

為應付商業環境中的任何轉變，本集團每年進行演習測試，並定期檢討應急資金。應急資金政策如有任何重大變動，均須分別取得董事會的批准。

(e) Interest rate risk management

Interest rate risk is the risk resulting from adverse movements in interest rates that affect the earnings and economic value of the Group's banking book positions. The Asset and Liability Management Committee is delegated by the Board to oversee the Group's interest rate risk management, establish the strategy and policy for managing interest rate risk, and determine the means for ensuring that such strategies and policies are implemented. Interest rate risk is managed daily by the Treasury Markets Division of the Group within the limits approved by the Board or the Asset and Liability Management Committee. The Asset & Liability Management Department under the Risk Management Division of the Group is responsible for monitoring the activities relating to interest rate risk. The Internal Audit Division performs periodic reviews to ensure that the interest rate risk management functions are implemented effectively.

Interest rate risk primarily results from the timing differences in the re-pricing of interest rate-sensitive assets, liabilities, and off-balance sheet items in the banking book. In determining the level of interest rate risk, assessments are made for the gap risk, basis risk and option risk. The Group manages the interest rate risk on the banking book primarily by focusing on re-pricing mismatches. Gap analysis provides a static view of the maturity and re-pricing characteristics of the Group's interest rate-sensitive assets, liabilities, and off-balance sheet positions. Re-pricing gap position limits are set to control the Group's interest rate risk.

From 1st July, 2019, in line with the requirements set by the HKMA, new assumptions, such as optionality and behaviour of certain products, are also estimated in the exposure measurement.

(e) 利率風險管理

利率風險是指本集團的銀行帳內的利率風險(簡稱「IRRBB」)受到不利的利率走勢對其盈利及經濟價值造成不利的影響所帶來的風險。資產負債管理委員會獲董事會授權，負責監察本集團的利率風險管理，訂立管理利率風險的策略與政策，並制定相應措施，以確保執行有關策略與政策。利率風險由本集團資金市場處按董事會或資產負債管理委員會批核的限額範圍進行日常管理。本集團風險管理處轄下的資產負債管理部，負責監察利率風險相關的活動。稽核處會定期作出檢討，確保利率風險管理功能得以有效執行。

利率風險主要是由銀行賬冊內利率敏感性資產、負債及資產負債表外項目在再定息時的時差所致。釐定利率風險水平時，對差距風險、息率基準風險及期權風險進行評估。本集團管理銀行賬冊上的利率風險主要集中於重訂息率的錯配。差距分析可讓本集團從靜態角度瞭解利率敏感性資產、負債和資產負債表外持倉的到期情況及重訂息率特點。本行設有重訂息率差距限額，以控制本集團的利率風險。

由2019年7月1日起，若干假如產品的選擇權和習性將會因應香港金融管理局的要求於風險承擔計量中估算。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

Sensitivity analysis in relation to the impact of changes in interest rates on earnings, in terms of net interest income ("NII"), and economic value, in terms of economic value of equity ("EVE") is assessed regularly through a number of hypothetical interest rate shock scenarios prescribed by the HKMA. EVE represents an assessment of the present value of expected net cash flows, discounted to reflect market rates. As fluctuations in interest rates will affect earnings, they will also affect its net worth. Sensitivity limits are set to control the Group's interest rate risk exposure under both earnings and economic value perspectives. The results are reported to the Asset and Liability Management Committee on a regular basis.

The following table provides information on the changes on EVE and also the change on NII over next 12 months under each of the prescribed interest rate shock scenarios in respect of the Group's interest rate exposures arising from banking book positions for the current annual reporting date at 31st December, 2020.

Sensitivity analysis on interest rate risk at 31st December, 2020 and 2019:

(In HK\$ Mn)(港幣百萬元)		Adverse impact on EVE 對股權經濟價值 的不利影響		Adverse impact on NII 對淨利息收入 的不利影響	
		31st December, 2020 2020年12月31日		31st December, 2019 2019年12月31日	
	Period 期間				
1	Parallel up 平行向上	497	32	113	13
2	Parallel down 平行向下	302	2,636	2,339	2,781
3	Steeper 較傾斜	117		302	
4	Flattener 較橫向	140		22	
5	Short rate up 短率上升	345		62	
6	Short rate down 短率下降	977		1,479	
7	Maximum 最高	977	2,636	2,339	2,781
	Period 期間				
8	Tier 1 capital 一級資本	95,752		89,276	

In order to produce quantitative estimation on IRRBB, the Group has assumed shock scenarios to interest rate yield curves which allow changes in economic value and earnings to be computed with consideration of optionality and behavioural assumptions. These scenarios are applied to IRRBB exposures in each currency for which the Group has material positions.

本集團每月定期進行敏感度分析，以估算利率變動對盈利和經濟價值的影響，當中包括金管局規定的不同利率衝擊假設情景。股權經濟價值反映對按照市場利率折算其預計淨現金流的現值的評估。由於利率變動會影響本集團的盈利，因此亦會影響本集團的淨值。本集團設有敏感度限額，以控制本集團的盈利及經濟價值兩方面的利率風險承擔。有關結果會定期向資產負債管理委員會匯報。

下表展示銀行帳內持倉在2020年12月31日於規定的利率衝擊情境下，引致EVE及NII在未來12個月的改變。

於2020年及2019年12月31日對利率風險的敏感性分析：

(In HK\$ Mn)(港幣百萬元)		Adverse impact on EVE 對股權經濟價值 的不利影響		Adverse impact on NII 對淨利息收入 的不利影響	
		31st December, 2020 2020年12月31日		31st December, 2019 2019年12月31日	
	Period 期間				
1	Parallel up 平行向上	497	32	113	13
2	Parallel down 平行向下	302	2,636	2,339	2,781
3	Steeper 較傾斜	117		302	
4	Flattener 較橫向	140		22	
5	Short rate up 短率上升	345		62	
6	Short rate down 短率下降	977		1,479	
7	Maximum 最高	977	2,636	2,339	2,781
	Period 期間				
8	Tier 1 capital 一級資本	95,752		89,276	

為了對IRRBB進行定量估計，本集團假設利率收益率曲線受到衝擊並考慮了選擇權和習性的設定，從而計算經濟價值和盈利的變化。這些情境適用於本集團持有的IRRBB風險敞口於各種重要貨幣。

財務報表附註(續)

45. PRINCIPAL RISK MANAGEMENT (CONTINUED) 主要風險管理(續)

(e) Interest rate risk management (continued)

The prescribed interest rate shock scenarios are provided by the HKMA in their Supervisory Policy Manual IR-1, Interest Rate Risk in the Banking Book and generally described as follows:

1. Parallel up: A constant parallel shock up across all time buckets
2. Parallel down: A constant parallel shock down across all time buckets
3. Steepener: Short rates down and long rates up
4. Flattener: Short rates up and long rates down
5. Short rate up: Rates up are greatest at shortest time bucket and diminish towards current rates in longer time buckets
6. Short rate down: Rates down are greatest at shortest time bucket and diminish towards current rates in longer time buckets

(f) Strategic risk management

Strategic risk is the risk of current or potential impact on the Group's earnings, capital, reputation, or standing arising from changes in the environment the Group operates in, adverse strategic decisions, improper implementation of decisions, or lack of responsiveness to industry, economic, or technological changes.

The Risk Management Division of the Group monitors the activities under the Group's prevailing interest-earning asset mix and funding strategies and regularly reports the status to the Asset and Liability Management Committee, Risk Management Committee, RC and the Board, where appropriate.

Future capital requirements are determined based on the projections of Capital Adequacy Ratio and conditions under the Internal Capital Adequacy Assessment Process, so as to assess the level and structure of capital resources needed to support the risks that the Group tolerates.

(j) Technology risk management (continued)

The Group has also established a framework for proper management of technology risk. The Board and designated committees at the top level are responsible for overall management of technology risk for the Group. They lead various working teams and the "Three Lines of Defence" to address specific areas of concern.

Comprehensive control policies, standards, guidelines, and procedures are maintained to ensure that adequate control measures relating to the security of internet systems and applications, customer authentication, risk assessment for new products and services, and confidentiality, integrity and availability of information are all in place.

(k) New product and business risk management

New product and business risk is the risk of loss due to insufficient pre-assessment of significant potential risks introduced to the Group arising from the launch of new products, the structural change of existing products, and the establishment of new business operations (i.e. through the establishment of a new subsidiary and/or merger and acquisition). The significant potential risks include Credit Risk, Market Risk, Operational Risk, Liquidity Risk, Interest Rate Risk, Legal Risk, Technology Risk, Compliance Risk, Strategic Risk, Reputation Risk and Business Continuity Risk.

The Group establishes a risk governance structure, supported by comprehensive control guidelines and procedures. A structured evaluation process ensures that before initiating a new product or business, the potential significant risks are duly assessed, vetted and documented. The process also facilitates oversight of new products and businesses by Senior Management.

Each new product launch must go through an approval process, which includes business and financial analysis as well as risk assessment. New products are reviewed and endorsed by the Steering Group for New Product and Business Risk Management (chaired by the Group Chief Risk Officer and comprising the division heads of supporting units), and approved by the Risk Management Committee.

(l) Business continuity risk management

(k) 新產品及業務風險管理

新產品及業務風險是指本集團在新產品推出、現有產品結構性變動及新業務運作(即透過設立新附屬公司及/或合併及收購)時，未充分預先評估其重大潛在風險，而導致本集團損失的風險。此等重大潛在風險包括信貸風險、市場風險、營運風險、流動資金風險、利率風險、法律風險、科技風險、合規風險、策略性風險、聲譽風險及持續業務運作風險。

本集團已建立風險管治架構，並以全面的控制指引及程序確保其實施。結構嚴密而有序的評估程序，確保本集團在推出新產品或業務前對潛在重大風險作出適當評估、審查及記錄。該程序亦有助高層管理人員監督新產品及業務。

(m) Capital management

The Group's primary objectives when managing capital are to meet the regulatory requirements and safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

Capital managed by the Group to achieve these objectives includes ordinary share capital, retained profits, other reserves, and non-controlling interests after deductions for goodwill and intangible assets. It also includes subordinated liabilities, impairment allowances and regulatory reserve for general banking risks as allowed under Capital Rules.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might otherwise be possible with greater gearing and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Steering Group for Capital Management and Recovery and Resolution Planning is responsible for overseeing issues related to the capital positions and monitoring the capital adequacy against all regulatory and internal reference. The capital position is also reviewed regularly by the Risk Management Committee, RC and the Board.

The HKMA supervises the Group on both a consolidated basis and a solo-consolidated basis and, as such, sets capital requirements and receives information of capital adequacy on a regular basis for the Group as a whole. Individual overseas branches and banking subsidiaries are directly regulated by respective domestic banking supervisors, who set and monitor their capital adequacy requirements. In certain jurisdictions, non-banking financial subsidiaries are also subject to the supervision and capital requirements of domestic regulatory authorities.

In implementing current capital requirements the HKMA requires the Group to maintain a prescribed ratio of total capital to total risk-weighted assets. The Group calculates requirements for market risk in its trading portfolios based upon the Group's VaR models and uses its internal gradings as the basis for risk weightings for credit risk. Banking operations are categorised as either trading book or banking book, and risk-weighted assets are determined according to specified requirements that seek to reflect the varying levels of risk attached to assets and off-balance sheet exposures.

The Group monitors its capital structure on the basis of the capital adequacy ratios and there have been no material changes in the Group's policy on the management of capital during the year.

The capital adequacy ratios as at 31st December, 2020 and 31st December, 2019 are computed on the consolidated basis of the Bank and certain of its subsidiaries as specified by the HKMA for its regulatory purposes, and are in accordance with the Capital Rules of the Banking Ordinance.

The Group and its individually regulated operations have complied with all externally imposed capital requirements throughout the year ended 31st December, 2020 and 31st December, 2019 and the Group's capital ratios are well above the minimum required by the HKMA.

(m) 資本管理

本集團管理資本的主要目的是要符合監管規定及保障本集團可持續經營，藉以不斷為股東提供回報及為其他利益關涉者帶來利益。方法包括依照風險水平釐定產品及服務價格，及以合理的成本提供融資渠道。

以求達至該目的，本集團管理資本包括股本、留存溢利、其他儲備，及非控股權益(已扣除商譽和無形資產)。管理資本亦包括無償負債、減值準備及資本規則所容許的一般銀行業風險的規管儲備。

本集團積極定期檢討及管理資本架構，以期在爭取更高股東回報與維持良好資本的好處和安全之間取得平衡，並且因應經濟情況的轉變調整資本架構。

資本管理、恢復及處置規劃督導組負責監督與資本狀況相關的事項，並根據監管機構及內部指引以監控資本充足度。風險管理委員會、風險委員會及董事會亦會定期檢討資本狀況。

金管局按綜合基準及單獨綜合基準以監管本集團，並制訂資本要求及定期收集本集團整體性的資本充足資料。個別海外分行及銀行附屬公司分別由當地的銀行監管機關直接監管，並制訂及監控其資本充足要求。在某些地區，非銀行財務附屬公司是受當地監管機關規管及資本要求。

在實施現行資本要求金管局要求本集團維持特定的總資本對風險資產總額比率。本集團計算其交易組合的市場風險是按本集團風險值模式及採用內部評級作為信貸風險的加權風險基準。銀行營運分類為交易賬或銀行賬，及風險加權資產視乎可反映與資產及資產負債表以外風險不同層面風險之特定要求。

本集團以資本充足比率為基準監察資本架構，年度內本集團資本管理政策並無重大改變。

2020年12月31日及2019年12月31日的資本充足比率是依據金管局為監管目的而制定的，本行及若干附屬公司已按綜合基準計算，並符合《銀行業條例》的《資本規則》。

截至2020年12月31日及2019年12月31日止年度內，本集團及其個別受監管業務已符合所有外間訂立的資本規定，以及本集團俱遠高於金管局所定的最低規定比率。

46. FAIR VALUES OF FINANCIAL INSTRUMENTS 金融工具的公平價值

(a) Financial instruments carried at fair value

Fair value estimates are generally subjective in nature, and are made as of a specific point in time based on the characteristics of the financial instruments and relevant market information. The Group measures fair values using the following hierarchy of methods:

Level 1 – Quoted market price in an active market for an identical instrument.

Level 2 – Valuation techniques based on observable input. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3 – Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or counterparty quotations. For all other financial instruments the Group determines fair values using valuation techniques. Valuation techniques include net present value and discounted cash flow models and various market recognised option pricing models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, equity prices, foreign currency exchange rates, index prices, historical or implied volatilities and correlations. The objective of valuation techniques is to arrive at a fair value measurement that reflects the price of the financial instrument that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the reporting date.

(a) 以公平價值列賬的金融工具

公平價值估計是根據金融工具的特性和相關市場資料於某一特定時間作出，因此一般是主觀的。本集團以下列的分級方法計算公平價值：

第一級－參考同一工具在活躍市場取得的市場報價。

第二級－根據可觀察的參數之估值模式。為此級別估值的工具，包括以下方式：就相若工具在活躍市場取得的市場報價；就相若工具在非活躍市場取得的市場報價；或其他估值模式，而該等估值模式所用的參數，是直接或間接可從市場觀察所得的數據。

第三級－根據重要但非可觀察得到的參數之估值模式。為此級別估值的工具，其估值模式所輸入之參數為非可觀察的數據，惟該等非可觀察的數據可以對估值產生重大影響。為此級別估值的工具，也包括在活躍市場取得相若金融工具的市場報價，惟當中需要作出非可觀察之調整或假設，以反映不同金融工具之間的差別。

於活躍市場買賣的金融資產及金融負債，是根據市場報價或交易對手報價以釐定其公平價值。而對於所有其他金融工具，本集團則利用估值模式以釐定公平價值。估值模式包括淨現值及現金流量折現模式，以及其他市場廣泛應用的期權估值模式。用於估值模式之假設及參數包括無風險利率、基準利率、股票價格、外幣兌換率、指數價格、過往或預期波幅及相聯關係。採用估值模式的目的是計量公平價值，藉以在申報日能反映金融工具的價格，而該價格可被視為在正常交易下市場人士當賣出資產時可收取或當轉移負債時須支付之款項。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The Group uses widely recognised valuation models for determining the fair value of common and simpler financial instruments, like interest rate and currency swaps that use only observable market data and require little management judgement and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities, exchange traded derivatives and simple over-the-counter derivatives like interest rate swaps. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

For more complex instruments, the Group uses valuation models, which usually are developed from recognised valuation methodologies. Some or all of the significant inputs into these models may not be observable in the market, and are derived from market prices or rates or are estimated based on assumptions. Valuation models that employ significant unobservable inputs require a higher degree of management judgement and estimation in determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued, determination of probability of counterparty default and prepayments and selection of appropriate discount rates.

The Group has an established control framework with respect to the measurement of fair values. This framework includes a valuation control function, namely Financial Instruments Valuation Group (“FIVG”) which comprises control units independent of front office management. Procedures for price verification have been established. Any pricing models to be used would be subject to a rigorous validation and approval process.

本集團會使用廣泛應用的估值模式，以釐定一般性及較簡單金融工具的公平價值，例如僅使用可觀察市場價格，及毋須管理層耗時判斷及估計之利率及貨幣掉期。可觀察價格及模式的參數，通常可從市場上的上市債務及股份證券、在交易所買賣的衍生工具和簡單的場外交易衍生工具如利率掉期獲取。獲取可觀察市場價格及模式的參數，可以減省管理層需時判斷及估計，也可減少有關釐定公平價值的不穩定因素。是否取得可觀察市場價格及參數，視乎產品及市場性質，並會因金融市場的個別事件和一般情況而有不同變化。

至於較複雜的金融工具，本集團會使用通常由已有認受性的估值模式改動而來。部分甚或所有須予輸入模式的重要參數或未能從市場中觀察得出，而必須從市場價格或利率計算，或基於假設而估計而得出。該等須利用重要而非可觀察之參數的估值模式，需要管理層投入較多時間於判斷及估計，始能釐定金融工具的公平價值；而揀選適當的估值模式、為估值之金融工具決定其預期的未來現金流、決定交易對手方違約和提早還款的或然率，以及挑選適用的貼現率等，一般皆需要管理層的判斷和估計。

本集團已就計算公平價值設立了監控機制。此機制包括擁有產品監控功能並獨立於前線管理人員，稱為金融工具估值群組（「群組」）。價格核實的程序已經確立。任何將被採用的價格模式必須經過嚴格的檢測及審批程序。

		Marketability discount 市場性折扣	50% (2019年: 50%)

The fair values of unlisted equity instruments mandatorily measured at FVTPL or measured at FVOCI are estimated using the discounted cash flow model, on the basis of an analysis of the investee's financial position and results, or with reference to multiples of comparable listed companies, adjusted for a marketability discount to reflect the fact that the shares are not actively traded. An increase in the ratio/investee's financial position and results in isolation will result in favourable movement in the fair values, while an increase in discount rate/marketability discount in isolation will result in unfavourable movement.

按強制通過損益以反映公平價值或通過其他全面收益以反映公平價值非上市股份工具的公平價值是採用現金流折扣模式作估算，根據受投資公司的財務狀況及業績之分析，或參考可比較上市公司之倍數，但須計入市場性折扣以反映該股份並非有活躍交易之調整。任何因比率／受投資公司的財務狀況及業績之個別增加對公平價值有正面影響，而因折扣率／市場性折扣之個別增加則對公平價值有負面影響。

Valuation of financial instruments in Level 3 is subject to the same valuation control framework as described above and reviewed regularly by FIVG.

The fair values of financial instruments are in certain circumstances, measured using valuation models that incorporate assumptions that are not supported by prices from observable current market transactions in the same instrument and are not based on observable market data. The table above shows the sensitivity of fair values due to parallel movement of plus or minus 10 per cent in reasonably possible alternative assumptions.

46. FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED) 金融工具的公平價值(續)

(b) Fair values of financial instruments carried at other than fair value

The following methods and significant assumptions have been applied in determining the fair values of financial instruments presented below:

- (i) The fair value of demand deposits and savings accounts with no specific maturity is assumed to be the amount payable on demand at the end of the reporting period.
- (ii) The fair value of variable rate financial instruments is assumed to be approximated by their carrying amounts and, in the case of loans and unquoted debt securities, does not, therefore, reflect changes in their credit quality, as the impact of credit risk is recognised separately by deducting the amount of the impairment allowances from both the carrying amount and fair value.
- (iii) The fair value of fixed rate loans and mortgages carried at amortised cost is estimated by comparing market interest rates when the loans were granted with current market rates offered on similar loans. Changes in the credit quality of loans within the portfolio are not taken into account in determining gross fair values, as the impact of credit risk is recognised separately by deducting the amount of the impairment loss and allowances from both the carrying amount and fair value.
- (iv) The fair value of financial guarantees issued is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or is otherwise estimated by reference to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made.

(b) 以公平價值以外列賬的金融工具公平價值

本集團採用下列方法和重要假定，以釐定如下的金融工具的公平價值：

- (i) 不設指定期限的活期存款和儲蓄賬戶的公平價值，乃假定為於報告期結束日可按要求而支付的金額。
- (ii) 浮息金融工具的公平價值，乃假定為與其賬面值相若。如此等工具為貸款和非上市債務證券，由於相關的信貸風險影響是在賬面值和公平價值中將減值準備金額減除後才分別予以確認，因此其公平價值不能反映其信貸素質的改變。
- (iii) 以攤銷成本入賬的定息貸款和按揭貸款的公平價值，乃在此等貸款按相若貸款所獲提供的目前市場利率批出時，以市場利率比較的方式估計。由於相關的信貸風險影響是在賬面值和公平價值中將減值準備金額減除後才分別予以確認，在決定公平價值總額時，貸款組合內各項貸款的信貸素質的改變均不會予以考慮。
- (iv) 已發出的融資擔保之公平價值，是以參考在相若服務的公平交易所徵收費用之可取得相關資料而釐定；有關的資料也可參考利率差價而估計，亦可以就貸款機構對發出擔保所實際徵收的息率，與在沒有取得擔保之情況下而貸款機構將可能徵收的估計息率作出比較，並在當中取用較可靠的相關資料以釐定公平價值。

		2020	2019
		HK\$ Mn 港幣百萬元	HK\$ Mn 港幣百萬元

Credit risk weighted amounts	信貸風險加權金額	22,946	23,193

The credit risk-weighted amount is calculated in accordance with the Capital Rules. Contingent liabilities and commitments are credit-related instruments which include acceptances, letters of credit, guarantees and commitments to extend credit. The contractual amounts represent the amounts at risk should the contract be fully drawn upon and the client default. Since a significant portion of guarantees and commitments is expected to expire without being drawn upon, the total of the contract amounts does not represent expected future cash flows.

信貸風險加權金額是按《資本規則》計算。或然負債及承擔是與信貸有關的工具，包括用以提供信貸的承兌票據、信用證、擔保書和承付款項。合約金額是指當合約被完全提取及客戶違約時所承擔風險的金額。由於預期擔保書及承付款項的大部分金額會在未經提取前逾期，合約金額並不代表預計未來現金流量。

Derivatives arise from futures, forward, swap and option transactions undertaken by the Group and the Bank in the foreign exchange, interest rate and equity markets. The notional amounts of these instruments indicate the volume of transactions outstanding at the end of the reporting period; they do not represent amounts at risk.

The fair value and credit risk weighted amounts of the aforesaid off-balance sheet exposures are as follows. These amounts do not take into account the effects of bilateral netting arrangements.

* The Bank adopted the Foundation Internal Ratings Based ("IRB") approach according to Capital Rules for calculating the credit risk weighted amount as at 31st December, 2020 and 31st December, 2019. The derivatives – Others consist of credit derivatives which are classified as direct credit substitutes in calculating the credit risk weighted amount, and therefore such credit risk weighted amount is included under Note 47(a) Contingent liabilities and commitments.

The tables above give the contractual or notional amounts, fair value and credit risk weighted amounts of off-balance sheet transactions. The fair value is calculated for the purposes of deriving the credit risk weighted amounts. These are assessed in accordance with the Capital Rules. Fair value represents the cost of replacing all contracts which have a positive value when marked to market.

Fair value is a close approximation of the credit risk for these contracts as at the end of the reporting period. The credit risk weighted amount refers to the amount as computed in accordance with the Capital Rules.

(b) 衍生工具(續)

(i) 衍生工具的名義金額(續)

衍生工具是由本集團及本行在外匯、利率及股票市場進行期貨、遠期、掉期及期權交易而產生。這些工具的名義金額指在報告期結束日仍未完成的交易量，但並不代表所承受風險的金額。

前述資產負債表以外風險的公平價值及信貸風險加權金額如下。這些金額並未計入雙邊淨額安排的影響。

(ii) 衍生工具之公平價值及信貸風險加權金額

* 根據《資本規則》，本行選擇採納「基礎內部評級基準計算法」計算於2020年12月31日及2019年12月31日之信貸風險加權金額。「衍生工具-其他」包括了在計算信貸風險加權金額時被歸類為直接信貸代替品的信用衍生工具，因此該信貸風險加權金額包括在附註47(a)或然負債及承擔中。

上表列出資產負債表以外交易的合約或名義金額、公平價值及信貸風險加權金額。公平價值是用來計算信貸風險加權金額。該等金額是按照《資本規則》作評估。公平價值是指重置所有按市場價值計算差額時附有正值的合約成本。

公平價值是在報告期結束日該等合約的略計信貸風險。信貸風險加權金額是指按照《資本規則》計算。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

(iii) Hedge accounting

(a) Fair value hedges of interest rate risk

The Group uses interest rate swaps to hedge its exposure to changes in the fair values of certain fixed rate subordinated notes issued and fixed rate debt investment securities and loans and advances in respect of a benchmark interest rate. Pay-floating/receive-fixed interest rate swaps are matched to specific issuances of fixed rate subordinated notes or pay-fixed/receive-floating interest rate swaps are matched to fixed rate debt securities investment and loans and advances with terms that closely align with the critical terms of the hedged item.

The Group's approach to managing market risk, including interest rate risk, is discussed in Note 45(b). Interest rate risk to which the Group applies hedge accounting arises from fixed rate subordinated notes issued and fixed rate debt securities investment and loans and advances, whose fair value fluctuates when benchmark interest rates change. The Group hedges interest rate risk only to the extent of benchmark interest rates because the changes in fair value of a fixed rate debt security or loan are significantly influenced by changes in the benchmark interest rate. Hedge accounting is applied where economic hedge relationships meet the hedge accounting criteria.

By using derivative financial instruments to hedge exposures to changes in interest rates, the Group also exposes itself to credit risk of the derivative counterparty, which is not offset by the hedged item. The Group minimises counterparty credit risk in derivative instruments by entering into transactions with high-quality counterparties and requiring the counterparties to post collateral (see Note 45(a)(xi)).

Before fair value hedge accounting is applied by the Group, the Group determines whether an economic relationship between the hedged item and the hedging instrument exists based on an evaluation of the qualitative characteristics of these items and the hedged risk that is supported by quantitative analysis. The Group considers whether the critical terms of the hedged item and hedging instrument closely align when assessing the presence of an economic relationship. The Group evaluates whether the fair values of the hedged item and the hedging instrument respond similarly to similar risks. The Group further supports this qualitative assessment by using cumulative dollar offset method or regression analysis to assess whether the hedging instrument is expected to be and has been highly effective in offsetting changes in the fair value of the hedged item.

The Group establishes a hedge ratio by aligning the par amount of the hedged fixed-rate loan or note and the notional amount of the interest rate swap designated as a hedging instrument. Under the Group policy, in order to conclude that a hedge relationship is effective, all of the following criteria should be met.

- The regression co-efficient (R squared), which measures the correlation between the variables in the regression, is at least 0.8.
- The slope of the regression line is within a 0.8–1.25 range.
- The confidence level of the slope is at least 95%.

(iii) 對沖會計

(a) 利率風險的公平價值對沖

本集團以利率掉期合約對沖若干其發行的定息後償票據、持有的定息債券投資及貸款和墊款因基準利率而導致的公平價值轉變的風險。對沖以支付浮動/收取固定利率掉期合約與定息後償票據的特定發行配對或以支付固定利率/收取浮動利率掉期合約與定息債券和貸款配對，其條款與被對沖項目的關鍵條款一致。

本集團管理市場風險的方法，包括利率風險詳述於附註45(b)。本集團採用對沖會計的利率風險來其發行定息後償票據、定息債券投資及貸款和墊款，其公平價值在基準利率變動時波動。因定息債券及貸款和墊款的公平價值變動受基準利率變動的顯著影響，本集團僅在基準利率範圍內對沖利率風險。對沖會計適用於符合對沖會計條件的經濟對沖關係。

通過使用衍生金融工具對沖利率變動的風險，本集團亦面對衍生工具交易對手的信貸風險，而該風險並未被被對沖項目抵銷。本集團通過與高質量交易對手進行交易，要求交易對手提供抵押品，減低衍生工具交易對手的信用風險(詳見附註45(a)(xi))。

在採用公平價值對沖會計法前，本集團根據被對沖項目和對沖工具的定性特徵評估和支持對沖風險評估的定量分析，以確定被對沖項目與對沖工具之間是否存在經濟關係。本集團在評估經濟關係的存在時，會考慮被對沖項目及對沖工具的關鍵條款是否一致。本集團評估被對沖項目和對沖工具的公平價值是否對類似風險反應相似。本集團採用累計價值抵銷法或回歸分析評估對沖工具是否預期及非常有效地抵銷被對沖項目的公平價值變動以進一步支持定性評估。

本集團通過調整對沖定息貸款或票據的面值與指定為對沖工具的利率掉期合約的名義金額來確定對沖比率。根據本集團政策，有效對沖關係應滿足以下所有條件：

- 測量回歸中變量之間相關性的回歸係數(R平方)至少為0.8。
- 回歸線的斜率在0.8-1.25範圍內。
- 斜率的置信水平至少為95%。

(iii) Hedge accounting (continued)

(a) Fair value hedges of interest rate risk (continued)

In these hedge relationships, the main sources of ineffectiveness are:

- the effect of the counterparty and the Group's own credit risk on the fair value of the interest rate swap, which is not reflected in the fair value of the hedged item attributable to the change in interest rate; and
- differences in maturities of the interest rate swap and the loans or the debt securities.

At 31st December, 2020 and 2019, the Group held the following interest rate swaps as hedging instruments in fair value hedges of interest risk:

(b) 衍生工具(續)

(iii) 對沖會計(續)

(a) 利率風險的公平價值對沖(續)

在這些對沖關係中，無效對沖部份的主要來源是：

- 交易對手和本集團自身信用風險對利率掉期合約公平價值的影響未能反映在利率變動導致的被對沖項目的公平價值中；及
- 利率掉期和相關貸款或債券的到期日之差異。

於2020年及2019年12月31日，本集團持有以下利率掉期合約作為利率風險公平價值對沖的對沖工具：

The Group's fair value hedge principally consists of interest rate swaps that are used to protect against changes in the fair value of fixed rate long-term financial instruments due to movements in market interest rates.

本集團的公平價值對沖主要包括利率掉期，用於抵禦因市場利率變動而導致的定息長期金融工具公平價值變動。

(b) Cash flow hedges of foreign currency risk

The Group uses exchange rate forward contracts to hedge against the variability in cash flows of certain debt securities investments denominated in US dollar held by the insurance subsidiaries. The Group hedges foreign exchange rate risk to the extent of variability in functional currency equivalent cash flows (i.e. in HK dollar) from principal payment of the debt securities attributable to movements in US dollar/HK dollar. Hedge accounting is applied where economic hedge relationships meet the hedge accounting criteria.

The Group determines the amount of the exposure to which it applies hedge accounting by assessing the potential impact of changes in foreign currency exchange rates on the future cash flows from the debt securities investments denominated in US dollar that will result in a reduction of functional currency equivalent cash flow to meet the obligation of insurance policies at maturity. This assessment is performed using analytical techniques, such as cash flow sensitivity analysis.

As noted above for fair value hedges, the Group exposes itself to credit risk of the counterparties to the derivatives, which is not offset by the hedged items. This exposure is managed similarly to that for fair value hedges.

The Group determines whether an economic relationship exists between the cash flows of the hedged item and hedging instrument based on an evaluation of the qualitative characteristics of these items and the hedged risk that is supported by quantitative analysis. The Group considers whether the critical terms of the hedged item and hedging instrument closely align when assessing the presence of an economic relationship. The Group evaluates whether the cash flows of the hedged item and the hedging instrument respond similarly to the hedged risk, such as the notional amount, maturity and underlying currencies.

The Group assesses hedge effectiveness using the hypothetical derivative method, which creates a derivative instrument to serve as a proxy for the hedged transaction. The terms of the hypothetical derivative match the critical terms of the hedged item and it has a fair value of zero at inception. The dollar offset ratio, being the periodic change in fair value of the hypothetical exchange rate forward contract attributable to changes in forward rate is calculated to assess whether the hedge can achieve 0.8 – 1.25 cumulative dollar offset on each reporting date.

(b) 外匯風險的現金流對沖

本集團使用匯率遠期合約對沖保險附屬公司持有的若干以美元計值的債券投資的現金流量變動。本集團因應美元／港元變動所導致債務證券本金支付以功能貨幣(即以港元計算)計算的等值現金流量變動進行外匯風險對沖。對沖會計適用於符合對沖會計條件的經濟對沖關係。

本集團通過評估外匯變動對以美元計值的債券投資的未來現金流量可能導致相應功能貨幣減少的潛在影響，確定其應用對沖會計的風險金額現金流量，以滿足到期保險單的責任。該評估使用分析技術進行，例如現金流敏感度分析。

如上文對於公平價值對沖所述，本集團面對衍生工具交易對手的信用風險，而該風險未有被被對沖項目抵銷。這種風險與公平價值對沖的風險管理類似。

本集團根據對這些項目的定性特徵的評估以及支持的對沖風險的定量分析，以確定被對沖項目的現金流量與對沖工具之間是否存在經濟關係。本集團在評估經濟關係的存在時，會考慮被對沖項目及對沖工具的關鍵條款是否一致。本集團評估被對沖項目和對沖工具的現金流量是否就對沖風險的反應相似，例如以名義金額，到期日及相關貨幣評估。

本集團採用模擬衍生工具方法評估對沖效用，該方法建立一衍生工具作為對沖交易的代理。模擬衍生工具的條款與被對沖項目的關鍵條款一致，並且在開始時其公平價值為零。價值抵銷比率，即由遠期利率變動引起的模擬匯率遠期合約的公平價值的周期性變化，計算以評估對沖是否可在每個報告日期實現0.8–1.25的累計價值抵銷。

53. ACCOUNTING ESTIMATES AND JUDGEMENTS 會計估計及判斷

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

(a) Key sources of estimation uncertainty

Notes 33, 40 and 46 contain information about the assumptions and their risk factors relating to goodwill impairment, fair value of share options granted and fair values of financial instruments. Other key sources of estimation uncertainty are as follows:

(i) Impairment losses

Note 45(a)(ix): impairment of financial instruments involves determining inputs into the ECL measurement model, including incorporation of forward-looking information.

Note 32: impairment testing of investments in associates involves significant judgement in determining the value in use, and in particular estimating the present values of cash flows expected to arise from continuing to hold the investment.

在編製本綜合財務報表時，管理層經已作出若干對應用本集團會計政策及所匯報的資產、負債、收入及支出之金額披露有影響的判斷、估計和假定。最終結果與該等估計可能不盡相同。

估計及相關假定會定期作檢討。估計之修改不會被追溯確認。

(a) 估計不穩定因素的主要來源

附註33、40和46載述有關商譽減值、已授予股權的公平價值和金融工具的公平價值的假設及其風險因素。估計不穩定因素的其他主要來源如下：

(i) 減值損失

附註45(a)(ix)：金融工具減值：決定預期信貸損失計量模型的計算因素，包括植入具前瞻性的資料。

附註32：聯營公司投資的減值測試包括估計使用值的重大判斷，及估算因持續持有該投資而產生的預計現金流的現值。

53. ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED) 會計估計及判斷(續)

(a) Key sources of estimation uncertainty (Continued)

(ii) Valuation of financial instruments

The Group's accounting policy for valuation of financial instruments is included in Note 2. The fair value of the financial instruments is mainly based on the quoted market price on a recognised stock exchange or a price quoted from a broker/dealer for non-exchanged traded financial instruments. For all other financial instruments the Group determines fair values using valuation techniques. Valuation techniques include net present value and discounted cash flow models and various market recognised pricing models. Some or all of the significant inputs into these models may not be observable in the market and are derived from market prices or rates or are estimated based on assumptions. Valuation models that employ significant unobservable inputs require a higher degree of management judgement and estimation in determination of fair value. Management estimation are usually required for selection of the appropriate valuation model, assumptions and inputs to be used.

(iii) Provisions for tax uncertainties

The Group makes provisions for tax uncertainties by either estimating the most likely amount, which is the single most likely amount in a range of possible outcomes, or the expected value in a range of possible outcomes. The estimate could be different from the actual results of resolution. Any increase or decrease in the provision would affect profit or loss in future years.

(b) Critical accounting judgements in applying the Group's accounting policies

Certain critical accounting judgements in applying the Group's accounting policies are described below:

(i) Classification of financial assets

Note 2(h)(ii): assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are SPPI on the principal amount outstanding.

(ii) Measurement of ECL

Note 45(a)(ix): establishing the criteria for determining whether credit risk on the financial asset has increased significantly since initial recognition, determining methodology for incorporating forward-looking information into measurement of ECL and selection of models used to measure ECL.

(a) 估計不穩定因素的主要來源(續)

(ii) 金融工具的估值

本集團對金融工具估值的會計政策列載於附註2。金融工具的公平價值主要根據認可之交易所的市場報價，或就非在交易所作交易的金融工具而言，則根據經紀/交易員的報價。而對於所有其他金融工具，本集團則利用估值模式以釐定公平價值。估值模式包括淨現值及現金流量折現模式、以及其他市場廣泛應用的期權估值模式。部分甚或所有須予輸入模式的重要參數或未能從市場中觀察得出，而必須從市場價格或利率計算、或基於假設而估計而得出。該等須利用重要而非可觀察之參數的估值模式，需要管理層投入較多時間於判斷及估計，始能釐定金融工具的公平價值。一般而言，管理層亦會對揀選適當的估值模式、假設及參數。

(iii) 稅務不確定性之撥備

本集團對稅務之不確定性會以最大可能，即最具可能性或預期價值的結果範圍內，作出撥備。該估計值可能與實際情況有差異。撥備的任何增加或減少將影響未來年度的損益。

(b) 本集團應用會計政策的重要會計判斷

本集團應用會計政策的若干重要會計判斷如下：

(i) 金融資產

附註2(h)(ii)：評估持有資產的商業模型，即金融資產合約期內是否純粹是本金及按本金結餘的利息支付。

(ii) 預期信貸損失計量

附註45(a)(ix)：訂立標準以決定金融資產的信貸風險是否比初始確認時經已大幅增加及制定方法以植入具前瞻性計量預期信貸損失的資料及選擇模型以計算預期信貸損失。

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

(iii) Recognition of deferred tax assets

The Group recognises deferred tax assets only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Estimates and judgements are applied in determining the amount of future taxable profits and the probability that such future taxable profits are available in the foreseeable future to support recognition of the deferred tax assets. The Group uses all readily available information, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs, in determining future taxable profits. Changes in these estimates could significantly affect the timing of deferred tax asset recognition and the amount of asset recognised.

(iii) 遞延稅項資產之確認

須在未來可能有應課稅溢利予以抵銷遞延稅項資產的情況下，本集團才確認遞延稅項資產。在釐定未來應課稅溢利的金額及其可能性時，須估計及判斷在可見之將來該未來應課稅溢利可否支持確認該遞延稅項資產。本集團使用所有已有的資料，包括根據合理及可支持之假設和對收入及支出成本的估計，以釐定未來應課稅溢利。此等估計的變動可能對遞延稅項資產確認的時間及資產確認的金額有重大影響。

57. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31ST DECEMBER, 2020 在截至2020年12月31日止年度前已公布但尚未生效的修訂、新準則和詮釋所產生的可能影響

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments to standards and new standards which are not yet effective for the year ended 31st December, 2020 and which have not been adopted in these financial statements. These include the following which may be relevant to the Group.

直至此等財務報表之發布日期，香港會計師公會已頒布了多項修訂及新準則；但該等修訂和新準則於截至2020年12月31日止會計年度尚未生效，因此尚未應用於此等財務報表。可能與本集團有關之修訂和新準則如下。

	Effective for accounting periods beginning on or after 由會計期開始或以後起生效

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

財務報表附註(續)

The Group is in the process of making an assessment of what the impact of these amendments and new standards are expected to be in the period of initial application. So far the adoption of them is unlikely to have a significant impact on the consolidated financial statements except for the following:

HKFRS 17, Insurance Contracts

HKFRS 17 and amendments to HKFRS 17 issued in January 2018 and October 2020 respectively. HKFRS 17 sets out the requirements that an entity should apply in accounting for insurance contracts it issues and reinsurance contracts it holds. The amendments defer the effective date of HKFRS 17 from 1st January, 2021 to 1st January, 2023 and introduce other changes. The Group is in progress of assessment of its impact.

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16, Interest Rate Benchmark Reform – Phase 2

The amendments address issues that might affect financial reporting as a result of the interest rate benchmark reform arising from the replacement of an interest rate benchmark with an alternative benchmark rate. The amendments provide practical relief from certain requirements in HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 relating to the changes in the basis for determining contractual cash flows of financial assets, financial liabilities and lease liabilities and hedge accounting. The amendments will also require the Group to disclose additional information about the entity's exposure to risks arising from interest rate benchmark reform and related risk management activities. The Group is in progress of assessment of its impact.

本集團正在評估該等修訂和新準則對首個應用期可能產生的影響。除以下所述外，至今所得結論是若採納該等修訂、新準則和詮釋對本集團的綜合財務報表不可能構成重大影響：

《香港財務報告準則》第17號「保險合約」

《香港財務報告準則》第17號及《香港財務報告準則》第17號之修訂分別於2018年1月及2020年10月頒布，《香港財務報告準則》第17號制定實體對其發出之保險合約及持有分保合約的會計要求。經修訂後，《香港財務報告準則》第17號的生效日將由2021年1月1日延遲至2023年1月1日，並引入其他變動。本集團正在評估其影響。

《香港財務報告準則》第9號，《香港會計準則》第39號，《香港財務報告準則》第7號，《香港財務報告準則》第4號及《香港財務報告準則》第16號之修訂「利率基準改革：第二期」

該等修訂處理因基準利率改革下，可能因替代基準利率引起的財務報告問題。《香港財務報告準則》第9號，《香港會計準則》第39號，《香港財務報告準則》第7號，《香港財務報告準則》第4號及《香港財務報告準則》第16號為有關釐定金融資產，金融負債及租賃負債的合約現金流量以及對沖會計的基礎的某些規定提供了實際緩解。該等修訂亦將要求本集團披露有關該實體因利率基準改革及相關風險管理活動而承受之風險之額外資料，本集團正在評估其影響。

2. Changes in Accounting Policies

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31st December, 2020.

The change in accounting policy are also expected to be reflected in the Group's consolidated financial statements as at and for the year ending 31st December 2021.

The Group has initially adopted Interest Rate Benchmark Reform – Phase 2 Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 (the "*Phase 2 amendments*") from 1st January, 2021.

The Group applied the Phase 2 amendments retrospectively. In accordance with the options permitted in the Phase 2 amendments, the Group has elected not to restate the prior period to reflect the application of these amendments, including not providing additional disclosures for 2020.

There is no impact on opening equity balances as a result of retrospective application given that the relevant modifications to financial contracts would only be required after 2020.

The Phase 2 amendments provide practical relief from certain requirements in HKFRSs. This relief relates to modifications of financial instruments and lease contracts or hedging relationships triggered by a replacement of a benchmark interest rate in a contract with a new alternative benchmark rate.

The Group updates the effective interest rate of the financial asset or financial liability to reflect the change that is required by the interest rate benchmark reform if the basis for determining the contractual cash flows of a financial asset or financial liability measured at amortised cost changes as a result of the reform. A change in the basis for determining the contractual cash flows is required by interest rate benchmark reform if the following conditions are met:

- the change is necessary as a direct consequence of the reform; and
- the new basis for determining the contractual cash flows is economically equivalent to the previous basis, i.e. the basis immediately before the change.

If changes are made to a financial asset or financial liability in addition to changes to the basis for determining the contractual cash flows required by interest rate benchmark reform, then the Group first updates the effective interest rate of the financial asset or financial liability to reflect the change that is required by interest rate benchmark reform. Subsequently, the Group applies the policies on accounting for modifications set out above to the additional changes.

The Phase 2 amendments allow the Group to use a revised discount rate that reflects the change in interest rate when remeasuring a lease liability because of a lease modification that is required by interest rate benchmark reform.

The Phase 2 amendments also provide a series of temporary exemptions from certain hedge accounting requirements when a change required by interest rate benchmark reform occurs to a hedged item and/or hedging instrument that permit the hedging relationship to be continued without interruption. The Group applies the following relief as and when uncertainty arising from interest rate benchmark reform is no longer present with respect to the timing and the amount of the interest rate benchmark-based cash flows of the hedged item or hedging instrument:

- the Group amends the designation of a hedging relationship to reflect changes that are required by the reform without discontinuing the hedging relationship; and
- when a hedged item in a cash flow hedge is amended to reflect the changes that are required by the reform, the amount accumulated in the cash flow hedge reserve is deemed to be based on the alternative benchmark rate on which the hedged future cash flows are determined.

While uncertainty persists in the timing or amount of the interest rate benchmark-based cash flows of the hedged item or hedging instrument, the Group continues to apply the existing accounting policies.

21. Loans and Advances to Customers (Continued)

(c) Loans and advances to customers – by geographical areas

The information concerning the breakdown of the gross amount of advances to customers by countries or geographical areas is derived according to the location of the counterparties after taking into account any transfer of risk in accordance with the requirements of Banking (Disclosure) Rules. In general, such transfer of risk takes place if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose head office is located in another country. The location of a party is determined by its residence which is the economic territory under whose laws the party is incorporated or registered. This requirement is different from the allocation under segment reporting in Note 30 which is prepared in a manner consistent with the way in which information is reported internally to the Group's Senior Management. The specific provisions represent lifetime expected credit loss provisions for credit impaired exposures and the collective provisions represent the 12-month and lifetime expected credit loss provisions for non-credit impaired exposures.

Collateral includes any tangible security that carries a fair market value and is readily marketable. This includes (but is not limited to) cash and deposits, stocks and bonds, mortgages over properties and charges over other fixed assets such as plant and equipment. Where collateral values are greater than gross loans and advances to customers, only the amount of collateral up to the gross loans and advances is included.

At 30th June, 2021, the fair value of the Group's investment in AFFIN Bank Berhad ("AFFIN") based on the quoted market price had been persistently below the carrying amount for a period of time. As a result, the Group performed an impairment test on the investment using a value-in-use ("VIU") methodology and this demonstrated that the recoverable amount of the investment was HK\$3,396 million. The recoverable amount was higher than the carrying value of HK\$3,364 million and no further impairment charge was recognised (six months ended 30th June, 2020: impairment charge of HK\$220 million). The VIU calculation uses discounted cash flow projections based on AFFIN's latest forecast of financial results and estimates made by the Group's management for the next five years and extrapolating in perpetuity using a long-term growth rate of 3% to derive a terminal value. Discount rate of 11% (2020: 11%), which is based on a Capital Asset Pricing Model calculation for AFFIN, is used in the VIU calculation.

The following table illustrates the impact on VIU of reasonably possible changes to key assumptions. This reflects the sensitivity of the VIU to each key assumption on its own and it is possible that more than one favourable and/or unfavourable change may occur at the same time.

There was no transfer of cumulative gain or loss within equity due to de-recognition of liabilities designated at FVTPL during first half of 2021 (31/12/2020: Nil).

The change in fair value attributable to changes in credit risk on financial liabilities is calculated using the difference between the fair value of the financial liabilities at the reporting date and the present value computed with adjusted asset swap spread.

36. Fair Values of Financial Instruments

(a) *Financial instruments carried at fair value*

Fair value estimates are generally subjective in nature, and are made as of a specific point in time based on the characteristics of the financial instruments and relevant market information. The Group measures fair values using the following hierarchy of methods:

Level 1 – Quoted market price in an active market for an identical instrument.

Level 2 – Valuation techniques based on observable input. This category includes instruments that are valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3 – Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or counterparty quotations. For all other financial instruments the Group determines fair values using valuation techniques, including net present value and discounted cash flow models and various market-wide recognised option pricing models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, equity prices, foreign currency exchange rates, index prices, historical or implied volatilities and correlations. The objective of valuation techniques is to arrive at a fair value measurement that reflects the price of the financial instrument which would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the reporting date.

The Group uses widely recognised valuation models for determining the fair value of common and simpler financial instruments, like interest rate and currency swaps that use only observable market data and require little management judgement and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities, exchange traded derivatives and simple over-the-counter derivatives like interest rate swaps. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

For more complex instruments, the Group uses valuation models, which usually are developed from recognised valuation methodologies. Some or all of the significant inputs into these models may not be observable in the market, and are derived from market prices or rates or are estimated based on assumptions. Valuation models that employ significant unobservable inputs require a higher degree of management judgement and estimation in determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued, determination of probability of counterparty default and prepayments and selection of appropriate discount rates.

The Group has an established control framework with respect to the measurement of fair values. This framework includes a valuation control function, namely Financial Instruments Valuation Group ("FIVG") which comprises control units independent of front office management. Procedures for price verification have been established. Any pricing models to be used would be subject to a rigorous validation and approval process.

		EV/EBIT	30/6/2021: 38.55 – 45.63 (31/12/2020: 38.43 – 42.49)
		Marketability discount	30/6/2021: 50% (31/12/2020: 50%)

The fair values of unlisted equity instruments mandatorily measured at FVTPL or measured at FVOCI are estimated using the discounted cash flow model, on the basis of an analysis of the investee's financial position and results, or with reference to multiples of comparable listed companies, adjusted for a marketability discount to reflect the fact that the shares are not actively traded. An increase in the ratio/investee's financial position and results in isolation will result in favourable movement in the fair values, while an increase in discount rate/marketability discount in isolation will result in unfavourable movement.

Valuation of financial instruments in Level 3 are subject to the same valuation control framework as described above and reviewed regularly by FIVG.

The fair values of financial instruments are in certain circumstances, measured using valuation models that incorporate assumptions that are not supported by prices from observable current market transactions in the same instrument and are not based on observable market data. The table above shows the sensitivity of fair values due to parallel movement of plus or minus 10 per cent in reasonably possible alternative assumptions.

Notes to the Interim Financial Statements (Continued)

36. Fair Values of Financial Instruments (Continued)

(b) Fair values of financial instruments carried at other than fair value

The following methods and significant assumptions have been applied in determining the fair values of financial instruments presented below:

- (i) The fair value of demand deposits and savings accounts with no specific maturity is assumed to be the amount payable on demand at the end of the reporting period.
- (ii) The fair value of variable rate financial instruments is assumed to be approximated by their carrying amounts and, in the case of loans and unquoted debt securities, does not, therefore, reflect changes in their credit quality, as the impact of credit risk is recognised separately by deducting the amount of the impairment allowances from both the carrying amount and fair value.
- (iii) The fair value of fixed rate loans and mortgages carried at amortised cost is estimated by comparing market interest rates when the loans were granted with current market rates offered on similar loans. Changes in the credit quality of loans within the portfolio are not taken into account in determining gross fair values, as the impact of credit risk is recognised separately by deducting the amount of the impairment loss and allowances from both the carrying amount and fair value.
- (iv) The fair value of financial guarantees issued is determined by reference to fees charged in an arm's length transaction for similar services when such information is obtainable, or is otherwise estimated by reference to interest rate differentials when reliable estimates of such information can be made. The interest rate differentials could be estimated as the difference between the actual rates charged by lenders when the guarantee is made available and the estimated rates that lenders would have charged had the guarantees not been available.

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 30th June, 2021 and 31st December, 2020 except as follows:

	30/6/2021		31/12/2020

Notes to the Interim Financial Statements (Continued)

37. Credit Risk

The Group adopts the criteria of stage allocation as follows:

HKMA's 5-Grade Asset Classification		Stage allocation
Pass	General (i.e. do not meet the Bank's criteria of "Significant Increase of Credit Risk")	1
	Meet the Bank's criteria of "Significant Increase of Credit Risk"	2
Special Mention		2
Substandard		3
Doubtful		
Loss		

The criteria of "significant increase of credit risk" has taken into consideration of two key factors:

- The exposure has a significant deterioration of internal or external rating as compared with the rating at the time when the exposure was originated; and
- The rating of the exposure falls out of the "Low-Credit Risk Threshold" that is equivalent to the globally understood definition of "investment grade".

Credit risk of treasury transactions is managed in the same way as the Group manages its corporate and bank lending risk and risk gradings are applied to the counterparties with individual counterparty limits set.

Subsequently, the Bank launched the sale process of BEA Life and the residual life insurance portfolio underwritten by its wholly owned subsidiary, Blue Cross (Asia-Pacific) Insurance Limited ("Blue Cross").

On 24th March, 2021, the Bank entered into the Share Sale and Framework Agreement with AIA in relation to the sale of BEA Life to AIA. On the same day, the Bank entered into the Regional Distribution Agreement with AIA setting out the framework for the arrangements proposed to be entered into under which the AIA Group will be the exclusive provider of life insurance products for the Bank's personal banking customers in Hong Kong, Mainland China and Macau, including for the avoidance of doubt the Greater Bay Area. The consideration for the sale of BEA Life and the Bank's entry into and compliance with the distribution arrangements contemplated in the Regional Distribution Agreement is HK\$5,070 million in cash, plus an amount equivalent to notional interest on that sum for the period from 30th September, 2020 to completion of the sale. In addition, on 24th March, 2021, BEA Life and Blue Cross entered into an agreement under which the residual life insurance portfolio of Blue Cross ("Portfolio") will be transferred from Blue Cross to BEA Life at the net asset value of the Portfolio on closing of the Portfolio transfer. The sale of BEA Life transaction has been approved by Insurance Authority of Hong Kong and the completion of the sale is expected to take place shortly. The completion of the Portfolio transfer is subject to both regulatory approval and consent of the Hong Kong court.

The Group has fair value hedge accounting relationships maturing beyond the anticipated cessation date for IBORs. Significant judgement will be required in determining when uncertainty is expected to be resolved and when targeted relief will cease to apply. As at 30th June, 2021, the Group believes uncertainty continues to exist as to when and how the replacement may occur with respect to the relevant derivative hedging instruments, and so the targeted reliefs apply to the Group's hedge accounting relationships that reference benchmarks subject to reform or replacement.

INDEPENDENT REVIEW REPORT

TO THE BOARD OF DIRECTORS OF THE BANK OF EAST ASIA, LIMITED

INTRODUCTION

We have reviewed the interim financial report set out on pages 3 to 71 which comprises the consolidated statement of financial position of The Bank of East Asia, Limited as of 30th June, 2021 and the related consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and condensed consolidated cash flow statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, "Interim financial reporting", issued by the Hong Kong Institute of Certified Public Accountants. The directors are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30th June, 2021 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, "Interim financial reporting".

For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The independent auditor’s report and BEA’s financial statements as at and for the year ended 31 December 2021 and the notes thereto as set out on pages 154 to 363 of the 2021 Annual Report (together, the “**2021 Financial Statements**”) are incorporated by reference in the Offering Circular. The Offering Circular should be read and construed in conjunction with the 2021 Financial Statements, which shall be deemed to be incorporated by reference in, and to form part of, the Offering Circular and which shall be deemed to modify or supersede the contents of the Offering Circular to the extent that a statement contained in the 2021 Financial Statements is inconsistent with such contents of the Offering Circular.

Save for the 2019 Financial Statements, the 2020 Financial Statements and the 2021 Financial Statements, the financial information contained in the Offering Circular does not constitute specified financial statements (as defined in the CO) in relation to BEA. BEA has delivered its specified financial statements for the years ended 31 December 2018, 2019, 2020 and 2021 to the Registrar of Companies of Hong Kong. KPMG, the auditors of BEA, has issued auditor’s reports on the specified financial statements in relation to BEA for the financial years ended 31 December 2018, 2019, 2020 and 2021. Such reports were not qualified or otherwise modified, did not refer to any matters to which the auditor drew attention by way of emphasis without qualifying the reports and did not contain any statement under Sections 406(2) or 407(2) or (3) of the CO.

2. The sub-section headed “Considerations Relating to the Group” under the section headed “Investment Considerations” included on pages 32 to 50 of the Offering Circular shall be deleted in its entirety and replaced with the following:

“CONSIDERATIONS RELATING TO THE GROUP

Hong Kong, PRC and Global Economies

The Group conducts most of its operations¹ and generates most of its revenue in Hong Kong. Its performance and the quality and growth of its assets are necessarily dependent on the overall economy and the local social and political stability in Hong Kong. As a result, any downturn in the Hong Kong economy or any instability in the local social, political, legal and regulatory landscape of Hong Kong may have a material adverse effect on the Group’s business, financial condition or results of operations. For example, the ongoing wide spread of the novel coronavirus disease, COVID-19, since January 2020 has caused severe disruptions to business and economic activities in Hong Kong, the PRC and globally and restricted cross-border travel. Consumer confidence or consumer sentiment in Hong Kong and elsewhere has been materially impacted due to the continued escalation of the COVID-19 pandemic. The Group’s borrowers may experience difficulties meeting their obligations or seek to forebear payment on or refinance their loans for lower rates. While the Government of HKSAR (“**HKSARG**”) has introduced certain economic relief measures to support the Hong Kong economy, there can be no assurance that such measures will have the intended effects. There can be no assurance that any significant or sudden economic slowdown, recession or other adverse changes or developments in the local social and economic environment or political arrangements in Hong Kong may adversely affect the Group’s business, financial condition, results of operations, profitability and prospects. The Hong Kong economy is sensitive to global economic conditions and depends in part upon economic performance of the United States, the PRC and other developed countries. Geopolitical events such as recent military conflicts in Ukraine, continued tensions in the Middle East and Korean peninsula, as well as the escalation of tensions between the United States and the PRC over trade policies, political and other issues could significantly undermine the stability of the global economies and financial markets. It is impossible to predict how the Hong Kong

¹ Operations based on size of total assets.

economy will develop in the future and whether it may slow down due to adverse global economic conditions. For example, Hong Kong's economy may be susceptible to a slowdown or downturn as a result of uncertainties related to the recent trade disputes between the United States and the PRC. If any disruption in bilateral trade between these two countries causes their respective economies or the economies of other countries to contract as a result of potential tariffs, Hong Kong's re-export business may be adversely impacted. Any escalation of trade frictions between nations will invariably hinder the growth of trade in Hong Kong and dampen the demand for trade finance and other financing products. Should trade tensions between the United States and other countries including the PRC persist over a prolonged period of time, a substantial number of companies including the Group's clients may suffer a severe loss of income and may encounter operational difficulties, thereby negatively impacting the quality of the Group's loans and advances and its financial performance.

In addition, given the inherent connection between the economies of Hong Kong and the PRC, the Group's performance is influenced by economic conditions in the PRC as well as economic measures undertaken by the PRC government. Although the economy of the PRC continued to grow after the financial crisis, there has, at times, been signs of moderation as evidenced by a decelerating gross domestic product growth rate in recent years. Apart from the uncertainty caused by the outbreak of the COVID-19, the unstable economic outlook could be caused by a combination of other factors, most of which would be beyond the Group's control, such as global economic conditions, governmental policies and changes in market dynamics globally and regionally.

In 2017, the PRC launched a deleveraging campaign in order to reduce excessive leverage in the banking system that may threaten its financial stability. The focus of the campaign is on the state-owned enterprise sector and local government debt, as well as heavier scrutiny of the lending practices of the commercial banks. The PRC government's effort to reduce debt growth may impact its economic growth. However, there can be no assurance that such efforts will be effective. If the PRC's economic growth experiences slowdowns in the future, or the PRC government continues to tighten its monetary policies, the Group's business and financial performance could be materially and adversely affected.

On 24 February 2022, Russia launched an invasion of Ukraine. As a result of the invasion, the European Union, European Union Member States, Canada, Japan, the United Kingdom and the United States, among others, have developed and continue to develop coordinated sanctions and export-control measure packages. The uncertain nature, magnitude and duration of Russia's war in Ukraine and actions taken by Western and other states and multinational organisations in response thereto, including, amongst other things, the potential effects of sanctions, export-control measures, travel bans and asset seizures, as well as any Russian retaliatory actions, including, amongst other things, restrictions on oil and gas exports and cyber-attacks, on the world economy and markets, have contributed to increased market volatility and uncertainty. Such geopolitical risks may have a material adverse impact on macroeconomic factors which affect the Group's business, results of operations, cash flows, financial condition and prospects.

COVID-19 Pandemic

In March 2020, the World Health Organisation declared COVID-19 as a global pandemic. The ongoing COVID-19 pandemic has adversely affected the global economy and financial markets. The COVID-19 pandemic and policies implemented by governments to deter the spread of the disease have had and may continue to have an adverse effect on consumer confidence and the general economic conditions which the Group's business is subject to. Despite the roll-out of mass vaccination programmes, significant COVID-19 related restrictions, including those in response to the relatively recent outbreaks of the Delta variant and subsequently the Omicron variant, have continued and in some instances, have been significantly tightened, in a number of countries. The COVID-19 pandemic continues to affect many countries globally and there remains significant uncertainty as to when the pandemic will end and whether governments will implement further travel restrictions or other restrictive measures to contain the COVID-19 pandemic. The resultant disruptions to the supply chain and reduced levels of consumption, commercial activities and industrial production in the affected countries may result in an economic slowdown in such economies which, if prolonged, could cause a global recession. Whilst the PRC has seen a rebound and a degree of normalisation of supply and demand, the pandemic situation continues to be affected by localised re-emergences of the virus. Starting from the third quarter of 2021, there was

an uptick in local outbreaks of the pandemic. Such outbreaks continued for the remainder of 2021 and early 2022, and worsened in March 2022 as a result of more infectious variants of the virus. As the situation of the COVID-19 pandemic is still evolving, the heightened uncertainties surrounding the pandemic may pose a material adverse impact on the Group's business, financial condition, results of operations and prospects.

While central banks of different countries have implemented stimulus packages and national governments have proposed or adopted various forms of economic relief to contain the economic impacts of the COVID-19 pandemic and stabilise the markets, there can be no assurance that such monetary and fiscal policy measures will have the intended effects or that a global economic downturn will not occur or market volatilities will not persist. The outlook for the global economy and financial markets remain uncertain. If the economic conditions were to worsen or the economic recovery fails to continue or any economic downturn or market volatilities persist, there can be no assurance that the Hong Kong economy or the Group's business, financial condition and results of operations will not be adversely affected.

In view of the ongoing pandemic situation, BEA has activated its established emergency response protocol for infectious diseases, introducing work-from-home arrangements where practicable and appropriate. A number of branches had been closed temporarily in an effort to limit the spread of COVID-19, as well as protect both its customers and staff members' health and safety. BEA has also allowed principal moratoriums, loan tenor extensions and temporary conversion of unutilised trade facilities to overdrafts to certain of its customers whilst continuing the efforts on proactive management of asset quality such as undertaking various stress testing and scenario planning exercises. The Group has been closely monitoring the impact of the developments on the Group's businesses and will keep its contingency measures and risk management under review as the situation evolves.

Competition

The banking industry in Hong Kong is a mature market, and the Group is subject to significant and increasing competition from many other Hong Kong-incorporated banks and Hong Kong branches of international and PRC banks, including competitors that have significantly more financial and other capital resources, higher market share and stronger brand recognition than the Group. The international and local banks and niche players operating in Hong Kong compete for substantially the same customers as the Group. There is a limited market, especially for retail banking products such as investment and insurance products, home mortgage loans, credit cards, personal loans and transport lending businesses. There can be no assurance that the Group will be able to compete effectively in the face of such competition. Intense competition may make it difficult for the Group to increase the size of its loan portfolio and deposit base and may cause intense pricing competition. There can be no assurance that increased competition will not have a material adverse effect on the Group's business, financial condition or results of operations.

As a result of the intensified competition among banks, BEA has experienced downward pressure on its margins in recent years. To counter the effects of increased competition, BEA has actively pursued a strategy of diversifying its income sources by focusing on increasing its fee-based income, introducing innovative products and, at the same time, improving the cost efficiency of its operations. However, there can be no assurance that BEA will be able to compete successfully in the mature Hong Kong banking market and sustain its profitability in future.

In addition, the Group is also likely to face increasing competition in the PRC market from existing local PRC banks and other foreign banks entering the market. As part of the PRC government's initiative to further expand participation by foreign investors in its financial markets in order to develop a more open and internationally competitive financial system, the PRC government announced a series of new measures in 2018 to further lower the threshold for market access and expand the business scope of foreign financial institutions in the coming years. The measures announced include the lifting of market access restrictions for non-bank payment institutions and the removal of foreign equity caps on banks and financial assets management companies, which will allow foreign banks to set up both branches and subsidiaries in the PRC.

The intensified competition in the markets where the Group operates may adversely affect the Group's business and prospects, the effectiveness of its strategies, its results of operations and financial condition by potentially:

- reducing the growth and quality of the Group's loan and deposit portfolios and other products and services;
- reducing the Group's interest income and net interest margin;
- reducing the Group's fee and commission income;
- increasing the Group's interest and operating expenses; and
- increasing competition for qualified managers and employees.

Other than the traditional banking institutions, the Group also faces intense competition from innovative technology-based financial technology (“**FinTech**”) companies, which are usually start-up companies or technology companies, marketplace lenders, payment system providers and internet companies. The increasing popularity of FinTech companies is disrupting the way in which traditional banking is conducted.

Furthermore, FinTech companies have increased their expansion in Hong Kong and the PRC. These jurisdictions have each, to varying degrees, introduced progressive policy initiatives and received support from their respective regulatory regimes over the past few years. For example, the Monetary Authority has granted licences to virtual banks to operate banking businesses in Hong Kong.

Customer expectations are also changing in favour of technology and solutions that provide convenience and immediacy to individual needs, which challenges the conventional banking model. If FinTech companies continue to increase in popularity as a source of financing, the Group's business and prospects, in particular the revenue it derives from its loan business, its payment services fee income, and its ability to attract and retain customers, may be adversely affected. There is no certainty that the Group will be able to effectively compete with FinTech companies for customers as a preferred source of financing.

Expansion in the Hong Kong and Mainland China Markets

The Group's strategy involves expansion of its business in the Hong Kong and Mainland China markets organically and through mergers and acquisitions (“**M&A**”) and alliances, if suitable opportunities arise. BEA (China) obtained the Financial Institution Business Permit from China Banking and Insurance Regulatory Commission (“**CBIRC**”) on 20 March 2007 and the business licence from State Administration for Industry and Commerce (“**SAIC**”) on 29 March 2007 as a locally-incorporated bank. BEA (China) officially commenced business on 2 April 2007. The establishment of a locally-incorporated bank is one of the prerequisites for providing RMB retail banking service in Mainland China.

Further expansion into Mainland China may present the Group with new risks and challenges, such as interest rate liberalisation, slowdown in credit growth, margin compression, asset quality deterioration, more stringent and changing regulatory requirements, and new competition from internet finance players and online money market funds. Expansion and integration of new M&A and alliances in the Hong Kong and Mainland China markets may also require significant financial, operational, administrative and management resources. The success of any M&A and alliances will depend in part on the ability of BEA's management to integrate the operations of newly acquired businesses with its existing operations and, where applicable, to integrate various departments, systems and processes. Consequently, the Group's ability to implement its business strategy may be constrained and the timing of such implementation may be affected due to the demand placed on existing resources by the process. There can be no assurance that the acquired entities will achieve the level of performance that BEA anticipates or that the projected demand for and margins of the Group's products and services will be realised. The failure to manage expansion effectively could have an adverse effect on the Group's business, financial condition and results of operations.

Changes in Regulations in the Mainland China Market

The regulations which apply to the Group's business in the PRC are extensive, complex and frequently changing. The PRC banking regulatory regime has been evolving continuously. Some of the changes in

rules and regulations may result in additional costs or restrictions on BEA (China)'s operations and business expansion in Mainland China.

BEA (China)'s business and operations are directly affected by the changes in laws, rules, regulations or policies relating to the PRC banking industry. As some of the banking laws, rules, regulations or policies are relatively new, there is uncertainty regarding their interpretation and application. If BEA (China) fails to comply with any of these laws, rules, regulations or policies, it may result in enforcement actions, which may include fines to be imposed on BEA (China), restrictions on its business activities, or in extreme cases, suspension or revocation of its business licences, which would materially and adversely affect BEA (China)'s operations, reputation, business and financial position.

BEA (China) operates in a highly regulated industry. The principal regulators of the PRC banking industry include CBIRC, the People's Bank of China ("**PBOC**") and the State Administration of Foreign Exchange ("**SAFE**"). CBIRC requires all commercial banks in the PRC to maintain certain financial ratios, including but not limited to liquidity coverage ratio ("**LCR**"), liquidity ratio, net stable funding ratio ("**NSFR**") and capital adequacy ratio ("**CAR**").

In accordance with the amended Commercial Banking Law of the PRC, the previous requirement that all commercial banks in the PRC should maintain a loan-to-deposit ratio of not more than 75 per cent. has been removed and loan-to-deposit ratio has been changed from a supervisory indicator to a liquidity monitoring indicator. However, CBIRC will use other indicators, such as LCR, liquidity ratio, and NSFR to monitor the liquidity status of commercial banks. If BEA (China) fails to fulfill these mandatory requirements, it may result in restrictions on its business expansion imposed by CBIRC, such as suspension of new business application and establishment of new branch or sub-branch.

In addition, CBIRC issues regulations and guidelines governing the capital management of all commercial banks in the PRC from time to time. If the regulatory capital requirements, liquidity restrictions or ratios applicable to BEA (China) increase in the future, any failure of BEA (China) to comply with the relevant requirements, restrictions or ratios could result in administrative actions or sanctions, which may have a material adverse impact on the Group's business, financial condition and results of operations. A shortage of available capital might also restrict the Group's opportunities for expansion.

Dependence on Key Personnel and Recruitment

The Group's ability to sustain its growth and meet future business demands depends on its ability to attract, recruit and retain suitably skilled and qualified staff. Given the Group's rapid expansion in the Mainland China market, there can be no assurance that the Group will be able to recruit staff in sufficient numbers or with sufficient experience, or that pressure on recruitment will not lead to significant increases in the Group's employment costs. Competition for suitably skilled and qualified staff is particularly acute in Mainland China. Any of these factors could adversely affect the Group's business, financial condition and results of operations.

In addition, the Group also faces strong competition to retain skilled and qualified staff, and the loss of key personnel or any inability to manage attrition levels in different employee categories may have an adverse effect on the Group's business, its ability to grow, increased employment and training and development costs and its control over various business functions. There can be no assurance that there will be no departures of personnel from the senior management of BEA and that, if future departures do occur, the Group's business and operations will not be adversely affected.

Expanding Range of Products and Services

In order to meet the needs of the Group's customers and to diversify its business portfolio, the Group has been expanding the range of products and services it offers to its customers. Expansion of the Group's business is subject to certain risks and challenges, including but not limited to the following:

- if the Group fails to promptly identify and expand into new areas of business to meet the increasing demand for certain products and services, the Group may fail to maintain its market share or lose some of its existing customers;
- the Group may not have sufficient experience, expertise or resources in certain new products and services and may not compete effectively in these areas;

- new products and services offered by the Group may not be accepted by the Group's customers or meet its expectations for profitability;
- new products and services offered by the Group may give rise to potential disputes or claims from customers;
- the Group may not be able to hire new personnel or retain current personnel necessary to conduct new business activities;
- the Group may fail to obtain the necessary regulatory approval for its new products or services; and
- the Group may not be successful in enhancing its risk management capabilities and information technology systems to support a broader range of products and services. If the Group is unable to achieve the intended results from the expansion of its range of products and services, its business, financial condition and results of operations may be materially and adversely affected.

The continuous rapid growth of the Group's business imposes additional demand on the management and operation levels of the Group and increases the number of risks and challenges faced by the Group. Regardless of the Group's active efforts in improving its corporate structure and governance, it takes time for the Group to implement appropriate and relevant measures, and such measures may be unable to enhance aspects of the Group's corporate structure and governance in the manner anticipated.

In addition, the Group may require additional capital in order to sustain its business growth. The ability of the Group to increase capital is subject to various factors, including the Group's future financial conditions, approval from governmental and regulatory authorities, and the overall conditions of the market.

If the Group fails to keep growing at the current speed or if any new business activity fails to achieve expected results or if the Group fails to increase capital and effectively address risks and challenges brought by rapid growth, the Group's business, financial condition, results of operations and prospects may be adversely affected.

Exposure to the Mainland China Market

As at 31 December 2021, BEA's wholly-owned subsidiary, BEA (China), headquartered in Shanghai, operated 30 branches in Shanghai, Beijing, Tianjin, Harbin, Dalian, Shenyang, Qingdao, Shijiazhuang, Zhengzhou, Urumqi, Hangzhou, Nanjing, Suzhou, Chengdu, Chongqing, Wuhan, Hefei, Xi'an, Shenzhen, Shenzhen Qianhai, Guangzhou, Zhuhai, Xiamen, Changsha, Kunming, Ningbo, Jinan, Fuzhou, Nanning and Nanchang as well as 39 sub-branches in the PRC.

As at 31 December 2019, 2020 and 2021, loans and advances to customers made by the Group's operations in Mainland China collectively amounted to approximately HK\$131,564 million, HK\$127,183 million and HK\$150,030 million, respectively, representing approximately 25.8 per cent., 24.7 per cent. and 27.3 per cent., respectively, of the Group's total loans and advances to customers. The value of the Group's advances in Mainland China, as well as its advances to companies that have business interests in Mainland China, may be influenced by the general state of the PRC economy and may be affected by significant political, social or legal uncertainties or changes in Mainland China (including inflation rate, exchange controls and exchange rate, and the impact on the changes in regulations governing banking and other businesses). As at 31 December 2019, 2020 and 2021, the impaired loan ratio of the Group's advances in Mainland China was approximately 3.8 per cent., 3.1 per cent. and 1.5 per cent., respectively. The high impaired loan ratio of the Group's advances in Mainland China as at these dates was as a result of, among other factors, the economic slowdown in the PRC resulting in deterioration of the asset quality in Mainland China. While the Group has tightened its credit policies such as remaining cautious on extending credit and continuing to actively manage the impaired loan portfolio and has put more focus on lending to state-owned enterprises and large-scale enterprises, there can be no assurance that the impaired loan ratio of the Group's advances in Mainland China will not increase in the future, nor can there be any assurance that the Group's continued exposure to Mainland China or its strategy to grow its business in Mainland China will not have a negative impact on the Group's earnings or an adverse effect on the Group's business, financial condition or results of operations or that the economic and political

environment in Mainland China will remain favourable to the Group's business in Mainland China in the future.

Concentration Risk — Exposure to the Property Market

The Group has significant direct and indirect exposure to the property market particularly in Hong Kong and Mainland China through its portfolio of property related advances and property used as collateral.

As at 31 December 2021, the Group's property related loans (comprising property developments and property investment advances) amounted to approximately HK\$191,452 million, representing approximately 34.9 per cent. of the Group's total loan portfolio.

The Hong Kong and the PRC property markets are highly cyclical and property prices in general have been volatile. The property-related sectors in Hong Kong have experienced significant fluctuations in property prices and transaction volumes. Property prices in Hong Kong are affected by a number of factors, including, among other things, the supply of, and demand for, comparable properties, the rate of economic growth in Hong Kong, the policies of HKSARG, Hong Kong interest rate movements which are largely dependent on the timing and pace of the U.S. rate hikes, political and economic developments in the PRC, and the relationship between the PRC, Hong Kong and other countries. In Hong Kong, the Monetary Authority has implemented regulatory measures in recent years to mitigate risks in residential mortgage lending in the banking sector. In addition, the Financial Secretary of HKSARG has been increasing the amount of stamp duty payable on various real estate purchases. HKSARG has also tried to increase land supply and the supply of real estate. As the introduction of these measures are subject to policy changes reflecting domestic political or economic circumstances, there can be no assurance that HKSARG will not introduce further measures in the future that may have a significant impact on the Hong Kong property market, which may in turn have a negative impact on the Group's asset quality or an adverse effect on the Group's business.

In the PRC, the property market has showed significant volatility in recent years. From time to time, the PRC government has launched various initiatives to rein in excessive appreciation in housing prices and as a result of these regulatory measures.

Accordingly, any prolonged decrease or fluctuations in property values or liquidity of the Hong Kong and the PRC property markets could adversely affect the Group's business, financial condition and results of operations.

Liquidity and Funding Sources

The Group endeavours to diversify its funding sources in order to maintain the stability of its liquidity. However, the majority of the Group's funding requirements are met in the form of deposits from customers. In particular, as at 31 December 2019, 2020 and 2021, approximately 83.3 per cent., 82.6 per cent. and 84.8 per cent., respectively, of the Group's deposits from customers had a remaining maturity of three months or less. Historically, a substantial portion of such deposits from customers has been rolled over upon maturity and these deposits have been, in essence, a stable source of long-term funding. However, there can be no assurance that this pattern will continue. If a substantial number of depositors do not roll over deposited funds upon maturity, the Group's liquidity position would be adversely affected and the Group may need to seek alternative sources of short-term or long-term funding to finance its operations, which may be more expensive than existing deposits.

Although the Group has issued debt securities to diversify its funding sources, customer deposits remain its primary funding source in Hong Kong. In Mainland China, the Group's strategy is to increase the growth of customer RMB deposits in order to maintain stability in its source of funds and to minimise costs associated with interbank borrowing. From 31 December 2019 to 31 December 2021, the Group's total of deposits from customers and certificates of deposits issued increased from approximately HK\$647,586 million to approximately HK\$697,832 million, and the Group's deposits from customers increased from approximately HK\$573,527 million to approximately HK\$633,505 million. There are many factors affecting the growth of the Group's deposits, some of which are beyond the Group's control, such as economic and political conditions, the availability of alternative investment choices (including but not limited to securities issued by governmental or corporate entities, unit trusts and mutual funds, investment-linked assurance schemes and structured investment products), changes in government monetary policy and retail

customers' changing perceptions towards savings. There can be no assurance that the Group will be able to maintain or grow its customer deposits to support its business.

As part of its measures to maintain the liquidity of, and confidence in, the Hong Kong financial markets, the Hong Kong Deposit Protection Board enhanced the Deposit Protection Scheme with an increased protection limit of HK\$500,000 and expanded coverage including deposits pledged as security, came into effect on 1 January 2011. On 24 March 2016, the Deposit Protection Scheme (Amendment) Ordinance 2016 (the "**2016 Amendment Ordinance**") came into effect. Amongst other things, a gross payout approach is adopted for the determination of compensation under the Deposit Protection Scheme in case the scheme is triggered. Under this approach, any compensation paid to depositors is determined on the basis of their aggregate protected deposits held with a failed bank (up to HK\$500,000 per depositor) without deducting the amount of liabilities owed by those depositors to the same bank. The gross payout approach enables the affected depositors to have faster access to their deposits. There can be no assurance that the level of customer deposits, and therefore of the Group's liquidity, will not be adversely affected by the withdrawal of, or any changes to, the Deposit Protection Scheme in the future.

In addition, the statutory LCR and NSFR requirements came into effect on 1 January 2015 and 1 January 2018, respectively. The Group endeavours to comply with the regulatory requirements including these ratios at all times. The Group holds sufficient high quality liquidity assets ("**HQLA**"), which consist of cash, exchange fund bills and notes, high quality government debt securities and other equivalent liquid marketable assets to fulfill the LCR and NSFR requirements. In times of liquidity stress, the stock of HQLA can be easily and immediately converted into cash to meet unexpected and material cash outflows.

The Monetary Authority acts as the lender of last resort to all authorized institutions in Hong Kong to provide liquidity support in the banking system generally as well as to specific institutions. Although HKSARG has in the past taken measures on a case-by-case basis to maintain or restore public confidence in individual banks with an isolated liquidity crisis, there can be no assurance that the Monetary Authority will provide such assistance in the future or that it would elect to provide such assistance in the future to BEA in the event of a liquidity crisis.

If the Group fails to maintain its expected growth rate in deposits or if a substantial portion of the Group's depositors withdraw their demand deposits or do not roll over their time deposits upon maturity, the liquidity position, financial condition and results of operations of the Group may be materially and adversely affected and the Group may need to seek more expensive sources of funding to meet its funding requirements.

Interest Rate Risk

As with most banks, the Group's net interest income is a significant factor in determining its overall financial performance. For the years ended 31 December 2019, 2020 and 2021, the Group's net interest income represented approximately 73.7 per cent., 66.7 per cent. and 68.7 per cent., respectively, of its operating income.

Interest rates in Hong Kong have remained relatively low in recent years. However, there can be no assurance that interest rates will not become volatile or that changes in interest rates will not be frequent. Volatility in interest rates could affect the Group's business, financial condition, liquidity, results of operations and profitability in different ways. For example, a decrease in interest rates may reduce the Group's interest income and yields from interest-earning investments. A substantial increase in interest rates may decrease the value of the Group's debt securities portfolio and raise the Group's funding costs. In addition, a continued rise in interest rate levels may adversely affect the economy in Hong Kong and the financial condition and repayment ability of the Group's corporate and individual borrowers, including credit card holders, which in turn may lead to a deterioration in the Group's credit portfolio. The Group is also subject to interest rate risk as a result of mismatches in pricing and duration of its assets and liabilities. As a result, volatility in interest rates could have an adverse effect on its business, financial condition, liquidity and results of operations.

Classification of Advances and Adequacy of Allowance for Advance Losses

In 2007, Hong Kong implemented the Revised Framework of International Convergence of Capital Measurement and Capital Standards ("**Basel II**"). In 2013, Hong Kong further implemented the reform of

capital standards (known as “**Basel III**”) issued by the Basel Committee on Banking Supervision (the “**Basel Committee**”) in the local banking regulation.

In accordance with guidelines set by the Monetary Authority, BEA obtained approval to adopt the Foundation Internal Ratings-based Approach, and classifies its advances into twenty grades under which impaired loans are classified into one of the following three categories corresponding to levels of risk: “Sub-standard”, “Doubtful” and “Loss”. Please see “*Selected Statistical and Other Information*” in this Offering Circular for further information. The classification of impaired advances depends on various quantitative and qualitative factors, including the number of months by which payments have fallen into arrears, the type of advance, the tenor of the advance and the expected recovery status of the advance.

Since 2018, BEA has adopted a forward-looking expected credit loss model and has established a framework to determine whether the credit risk on a particular advance has increased significantly since initial recognition for measuring and recognising impairment loss to meet the requirement of HKFRS 9 — Financial Instruments (“**HKFRS 9**”). BEA conducts regular review to monitor the effectiveness of the model and the framework.

The laws, regulations and guidelines governing the banking industry in Hong Kong differ from those applicable in certain other countries in certain respects and may result in particular advances being classified as impaired loan advances at a different time or being classified in a category reflecting a different degree of risk than would be required in certain other countries. While BEA strictly follows the spirit of statutory compliance in different aspects when formulating and executing its credit policies and control guidelines, the Group is not required to maintain such policies at levels above those generally applicable to banks in Hong Kong.

Currency Risks

The majority of the Group’s revenue is generated in Hong Kong dollars. Nonetheless, as at 31 December 2021, the Group held a substantial part of its spot assets in U.S. dollars amounting to approximately HK\$250,133 million and Renminbi amounting to approximately HK\$244,343 million. The Hong Kong dollar has been linked to the U.S. dollar since 1983, and HKSARG has in the past expressed its commitment to maintaining exchange rate stability under the Linked Exchange Rate System, which is an automatic interest rate adjustment mechanism. However, there can be no assurance that the Hong Kong dollar will continue to be linked to the U.S. dollar or that, in the event of a liquidity complication affecting the Hong Kong dollar, the automatic interest rate adjustment mechanism will help to maintain adequate liquidity for the Hong Kong dollar. The Group’s business, financial condition and results of operations could be adversely affected by the impact on the Hong Kong economy of the discontinuation of the link of the Hong Kong dollar to the U.S. dollar or any revaluation of the Hong Kong dollar.

In addition, the Group generates some of its revenue in the PRC and a portion of its assets and liabilities are denominated in Renminbi. As a result, fluctuations in the exchange rate of Renminbi against the Hong Kong dollar or the U.S. dollar could affect the Group’s profitability and financial condition. The volatility in exchange rates of Renminbi against the U.S. dollar and other currencies is affected by, among other factors, changes in the PRC’s and international political and economic conditions and the fiscal and monetary policies of the PRC government. Also, it is difficult to predict how the Renminbi exchange rates may change in the future. There can be no assurance that Renminbi will not experience significant fluctuations against the U.S. dollar or other currencies in the future.

The Group’s Unsecured Lending Portfolio

A part of the Group’s corporate loan portfolio comprises unsecured loans, the repayment of which is largely dependent on the cash flow of the borrowers and adherence to the financial covenants contained in the loans. The majority of the Group’s personal banking loan portfolio comprises loans secured by properties while the remaining portion comprises mainly unsecured personal loans and credit card receivables, which generally carry higher rates of interest. As at 31 December 2019, 2020 and 2021, approximately 60.9 per cent., 59.2 per cent. and 56.1 per cent., respectively, of the Group’s total loans and advances to customers were covered by collateral. Although the Group carefully assesses the repayment ability of such borrowers, loan products which are not secured by any collateral entail a higher

degree of credit risk than secured loan products. If there is a downturn in the economy, the credit quality and charge-off rates experienced by the Group may deteriorate.

Quality of the Group's Loan Portfolio, Investment Securities or Other Assets

The Group's business could be materially and adversely affected by any deterioration in the quality of its loan portfolio, investment securities or other assets. Risks from changes in credit quality and the recoverability of loans and amounts due from counterparties, as well as risks from the Group's investment activities, are inherent in a wide range of the Group's businesses. The Group's impaired loans represented approximately 1.09 per cent. of its total loans and advances to customers as at 31 December 2021. The Group may not be able to control effectively the level of impaired loans in its current loan portfolio or the level of new loans that may become impaired in the future. In particular, the amount of the Group's impaired loans may increase in the future due to a deterioration in the quality of its loan portfolio or a substantial increase in the amount of its new loans.

Deterioration in the quality of the Group's loan portfolio, investment securities or other assets may occur for a variety of reasons, including factors that are beyond the Group's control, such as a slowdown in growth of the Hong Kong or global economies, a relapse of the global credit crisis, volatility in interest rates and market liquidity, and other adverse macroeconomic trends and financial conditions in Hong Kong and other parts of the world. Such factors, which are beyond the Group's control, may cause operational, financial and liquidity problems for the Group's borrowers and the issuers of the Group's investment securities, which may materially and adversely affect their ability to service their outstanding debt and fulfill their payment obligations associated with the securities issued. Other factors, including an actual or perceived failure or worsening credit of counterparties (in particular, those counterparties to which the Group has substantial exposure), declines in residential and commercial property prices, higher unemployment rates, a decline in credit quality, the Group's participation in overseas markets and reduced profitability of corporate borrowers may also materially and adversely affect the quality of the Group's loan portfolio and investment securities, as well as the Group's business, financial condition and results of operations. There can be no assurance that the Group will be able to take any effective mitigating or preventative action ahead of any unexpected and uncontrollable external factors.

In addition, to the extent that a material portion of the Group's loans has been extended to a relatively small number of counterparties, the overall quality of its loan portfolio could be adversely affected by a decline in the credit quality of such borrowers. In addition, the Group's expansion in the PRC and overseas markets may potentially impact the quality of its loan portfolio, where the Group is less able to control its loan portfolio quality and where uncertainties in economic and monetary policies are likely to severely affect its borrowers. In addition, in connection with its periodic examinations of BEA's operations, the Monetary Authority may in the future require BEA to change the classification of some of its loans which may increase the level of the Group's impaired loans. If the level of the Group's impaired loans or write-offs in its investment securities and other assets increases, its business, financial condition and results of operations may be materially and adversely affected.

The Group may not be able to realise the full value of its collateral as a result of a downturn in the real estate markets, delays in bankruptcy and foreclosure proceedings, fraudulent transfers by borrowers and other factors beyond its control. Any decline in the value of the collateral securing the Group's loans may result in an increase in its impairment allowances and a reduction in the recovery from collateral realisation, which may adversely affect its business, financial condition and results of operations.

Different Loan Classification and Provisioning System

The Group's impaired loans are sub-divided into three categories: "sub-standard" (Grade 18), "doubtful" (Grade 19) and "loss" (Grade 20). When the repayment of an advance is uncertain (for example, there is a past-due record of 90 days or more), the Group downgrades the advance to sub-standard. If full recovery of the advance is in doubt and the Group expects to sustain a loss of principal or interest, the Group classifies the advance as doubtful. Loss advances are those which are considered non-collectible after exhausting all collection efforts, such as the realisation of collateral and the institution of legal proceedings, and the liquidator or official receiver has ascertained the relevant recovery ratio.

The laws, regulations and guidelines governing banking business in Hong Kong differ from those applicable in certain other countries in certain respects and may result in particular loans being classified at a different time or being classified in a category reflecting a different degree of risk than would be required in certain other countries. In addition, the typical procedures for writing off loans in Hong Kong may result in loans being written-off later than would be the case for banks in certain other countries. Banks in Hong Kong may accrue interest on “sub-standard” loans in situations where such interest would not be accrued by banks in certain other countries. Whilst BEA believes that its loan provisioning policies are more prudent than those which are required under Hong Kong laws and regulations, the Group is not required to maintain such policies at levels above those generally applicable to banks in Hong Kong.

Investments in Debt Securities

The Group holds a portfolio of debt securities with different investment grades. The Group has analysed its investments in debt securities according to the designation of external credit institutions such as Moody’s. As at 31 December 2021, the Group had a total investment in debt securities of approximately HK\$147,496 million, of which approximately 5 per cent. were rated Aaa, approximately 16 per cent. were rated between Aa1 to Aa3, approximately 43 per cent. were rated between A1 to A3, approximately 30 per cent. were rated lower than A3 and approximately 6 per cent. were unrated.

Given the uncertainties in the current credit and capital markets, there can be no assurance that the Group will not suffer any future marked-to-market losses on its original investment amount in its portfolio of debt securities.

Operational Risks Associated with the Group’s Industry

As with most financial institutions, the Group is exposed to many types of operational risks, including the risk of theft, forgery, fraud, unauthorised transactions or other misconduct by employees (including the violation of regulations for the prevention of corrupt practices, and other regulations governing the Group’s business activities), or operational errors, including clerical or record-keeping errors or errors resulting from faulty computer or telecommunications systems. If such risks or errors do materialise or occur, the Group’s business, reputation, results of operations and financial conditions will be adversely affected. The Group is further exposed to the risk that external vendors may be unable to fulfill their contractual obligations to it (or will be subject to the same risk of fraud or operational errors by their employees). For example, the Group may use direct marketing agents to market its retail credit products, and the Group also outsources some functions to other companies. Moreover, the Group is exposed to the risk that its (or its vendors’) business continuity and data security systems are proven not to be robust enough in the event of a system failure or natural disaster.

Given the high volume of transactions entered into by the Group, certain errors may be repeated or compounded before they are discovered and successfully rectified. In addition, the Group’s dependence upon automated systems to record and process transactions may further increase the risk of technical system flaws or employee tampering or manipulation of those systems that will result in losses that may be difficult to detect. The Group may also be subject to disruptions of its operating systems, arising from events that are wholly or partially beyond its control (including, for example, computer viruses or electrical or telecommunication outages), which may give rise to a deterioration in customer service and to loss or liability to it. The Group also faces the risk that the design of its controls and procedures may prove inadequate or are circumvented, thereby causing delays in detection of errors in information. Although the Group maintains a system of controls designed to reduce operational risks to a reasonably low level, the Group has suffered losses from operational risks in the past and there can be no assurance that the Group will not suffer material losses from operational risks in the future. The Group’s reputation could be adversely affected by the occurrence of any such events involving its employees, customers or third parties. In addition to internal factors that may affect its operations, the rapid growth and expansion of its business in recent years as compared with other banks may have also resulted in increasing complexity in its internal and external control systems and risk management measures, which may add to its operational risks.

Legal, Litigation and Regulatory Proceedings

The Group is required to comply with legal and regulatory requirements, including but not limited to regulations on potential conflicts of interest, anti-money laundering laws and sales and trading practices. Failure to address these issues appropriately may give rise to legal and compliance risk to the Group and subject the Group to regulatory enforcement actions, fines, penalties or reputational damage. The Group is involved, from time to time, in legal proceedings arising in the ordinary course of its operations. Please see “*Business of the Group — Litigation*” for further information. Litigation arising from any failure, injury or damage from the Group’s operations, including but not limited to inadequate or failed internal processes, people or systems, or from external events, may result in the relevant member of the Group being named as defendant in lawsuits asserting large claims against such member of the Group or subject such member of the Group to significant regulatory penalties. These risks often may be difficult to assess or quantify and their existence and magnitude often remain unknown for substantial periods of time. Actions brought or investigations against the Group or BEA’s directors, officers or employees may result in settlements, injunctions, fines, penalties or other results adverse to the Group’s reputation, financial condition and results of operations. Even if the Group is successful in defending against these actions or investigations, the costs of such defence may be significant. In market downturns, the number of legal claims and amount of damages sought in litigations and regulatory proceedings may increase. A significant judgment, arbitration award or regulatory action against the Group, or a disruption in the Group’s business arising from investigations or adverse adjudications in proceedings against BEA’s directors, senior management or key employees, would materially and adversely affect the Group’s liquidity, business, financial condition, results of operations and prospects.

In addition, certain products and services provided by the Group are regulated by regulators including the Securities and Futures Commission (the “**SFC**”) in Hong Kong. There can be no assurance that breaches of relevant laws or regulations by the Group will not occur and, to the extent that such a breach does occur, that significant liabilities or penalties will not be incurred. Apart from the above, the Group may have disagreements with regulatory bodies in the course of its operations, which may subject it to administrative proceedings and unfavourable decrees that may result in liabilities. Also, in the event that the Group makes any other investments or acquisitions in the future, there can be no assurance that the Group would not have any exposure to any litigation or arbitration proceedings or other liabilities relating to the acquired businesses or entities.

Compliance Risks Associated with Sanctions

The United States imposes various economic sanctions which are administered by the U.S. Treasury Department’s Office of Foreign Assets Control (“**OFAC**”) and the U.S. State Department. For instance, United States persons can be prohibited from engaging in any transactions with a designated target of certain sanctions, including the purchase and sale of, and the receipt of payments under, securities issued by such designated target. Similar sanctions are administered by the United Kingdom, the European Union, United Nations Security Council and other applicable jurisdictions. These sanctions are intended to address a variety of policy concerns, among other things, denying certain countries, and certain individuals and entities, the ability to support international terrorism and to pursue weapons of mass destruction and missile programmes. Countries which are currently subject of or to sanctions for different reasons include, but are not limited to, Cuba, Iran, North Korea, Syria, Russia and Ukraine, including Crimea, the Luhansk and the Donetsk regions. The United Nations Security Council, the European Union, the United Kingdom, the PRC and other governments and international or regional organisations also administer similar economic sanctions. The Group may incur higher costs and face greater compliance risks in structuring and operating its businesses to comply with the laws and regulations in relation to these sanctions.

The Group may from time to time engage in business activities in countries or with entities and individuals that are the subject of certain sanctions. For example, the Group had banking relationships with customers that were designated as Specially Designated Nationals by OFAC that have since been terminated. In addition, certain existing customers of the Group have been identified on the Entity List administered by the United States Department of Commerce’s Bureau of Industry and Security. Notwithstanding that such relationships do not themselves subject the Group to primary U.S. economic sanctions, the Group may face secondary U.S. economic sanctions if it is determined to be providing material support to countries, entities, or individuals that are the subject of U.S. economic sanctions. If the Group engages in any

prohibited transactions by any means, or if it is otherwise determined that any of the Group's transactions violated OFAC-administered, other sanctions regulations or export administration regulations, the Group could be directly or indirectly subject to penalties, and its reputation and ability to conduct future business in the United States or with United States entities, or in other relevant jurisdictions, could be affected, which may materially and adversely affect the Group's business, financial condition and results of operations. BEA's ability to service payments under the Notes and the Undated Capital Securities and to satisfy its other obligations under the Notes and the Undated Capital Securities may also be adversely affected.

The Implementation of new HKFRS including but not limited to HKFRS 9 and HKFRS 16

Accounting standards applicable to the Group's business may change or be amended from time to time. Any changes in these accounting standards may result in changes in the recognition, measurement and/or classification of the Group's revenue, expenses, assets and liabilities, which could have material effects on the Group's results of operations and financial position.

With effect from 1 January 2018, HKFRS 9 has replaced HKAS 39 — Financial instruments: Recognition and Measurement (“**HKAS 39**”). Following the adoption of HKFRS 9, BEA is required to re-classify and re-measure (including impairment measurement) certain of its financial instruments from 1 January 2018 without requiring any restatement of the corresponding figures of the prior period. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of HKFRS 9 were recognised in retained earnings and reserves as at 1 January 2018. Accordingly, BEA's historical financial information as at and for the year ended 31 December 2017 may not be directly comparable against BEA's financial information after 1 January 2018. As permitted by HKFRS 9, BEA has elected to continue to apply the hedge accounting requirements of HKAS 39. Investors must therefore exercise caution when making comparisons of any financial figures after 1 January 2018 against BEA's historical financial figures prior to 1 January 2018 and when evaluating BEA's financial condition and results of operations.

In addition, from 1 January 2019, the Group adopted HKFRS 16 that had become effective on the same day. It introduces a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligation to make lease payments.

Furthermore, the Issuer has adopted the Phase 2 amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 in respect of interest rate benchmark reform from 1 January 2021. Please see note 3 to the 2021 Financial Statements for further information. The Amendment to HKFRS 16 exempts lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications. The Group has adopted the Amendment to HKFRS 16 to all rent concessions that met certain conditions and as such certain rent concessions were recognised as a credit to variable lease payments that were not included in the measurement of lease liabilities. Please see note 2(s) to the 2021 Financial Statements for further information.

Further, the Hong Kong Institute of Certified Public Accountants may issue new and revised standards and interpretations in the future. Interpretations on the application of HKFRS will also continue to develop. These factors may require the Group to adopt new accounting policies from time to time. The adoption of new accounting policies or new HKFRS in the future may have a material impact on the Group's results of operations and financial position.

Information Technology Systems

The Group is highly dependent on the ability of its information technology systems to process accurately a large number of transactions across numerous and diverse markets and its broad range of products in a timely manner. The proper functioning of its financial control, risk management, accounting, customer service and other data processing systems, together with the communication networks between its various branches and sub-branches and its main data processing centres, are critical to its business and its ability to compete effectively. Although there is backup data for key data processing systems and the Group has established a backup system to carry on principal functions in the event of a catastrophe or a failure of its primary systems, there can be no assurance that the Group's operations will not be materially

disrupted if there is a partial or complete failure of any of these primary information technology systems or communications networks. Such failures could be caused by, among other things, software bugs, computer virus attacks or conversion errors due to system upgrading. In addition, any security breach caused by unauthorised access to information or systems, loss or corruption of data and malfunction of software, hardware or other computer equipment could have a material adverse effect on the Group's business, reputation, results of operations and financial condition.

In addition, the Group's ability to remain competitive will depend in part on its ability to upgrade its information technology systems on a timely and cost-effective basis. In addition, the information available to and received by the Group through its existing information technology systems may not be timely or sufficient for the Group to manage risks and plan for, and respond to, market changes and other developments in its current operating environment. The Group is making, and intends to continue to make, investments to improve or upgrade its information technology systems. Any substantial failure to improve or upgrade its information technology systems effectively or on a timely basis could have a material adverse effect on the Group's competitiveness, financial condition and results of operations.

Internet Banking Services

To the extent that the Group's internet banking activities involve the storage and transmission of confidential information, security breaches or cyber-attacks could expose it to possible liability and reputation damage from, amongst other things, the unauthorised dissemination of customer information and identity theft. The Group's information technology systems may be vulnerable to unauthorised access, computer viruses or other disruptive problems that may affect the proper functioning of its information technology systems. Costs incurred in rectifying any such disruptive problems may be high and may adversely affect the Group's business, reputation, financial condition and results of operations. Concerns regarding security risks may deter the Group's existing and potential customers from using its internet banking products and services. Eliminating computer viruses and alleviating other security problems may also result in interruptions, delays or termination of services to users accessing the Group's internet banking services. There can be no assurance that the Group's internet banking services will not experience any further disruptions or delays, or that its internet banking service will not experience other security problems in the future. If the Group cannot detect security risks in advance or adequately protect against software leaks or computer viruses, or its information systems sustain a high volume of network traffic, its internet banking business may be materially and adversely affected.

Different Corporate Disclosure and Regulatory Requirements

BEA's issued shares are listed on the HKSE and, as such, BEA is required to publish annual audited and semi-annual unaudited financial information. However, the extent of publicly available information of issuers in Hong Kong may be less than that publicly available for comparable banks in certain other countries.

Under the Banking Ordinance (Cap. 155) of Hong Kong (the "**Banking Ordinance**"), the Monetary Authority regulates the business activities and operations of authorized institutions and has the ability to influence banking and financial markets. Since the Group operates in the highly regulated banking and securities industries in Hong Kong, potential investors should be aware that the regulatory requirements in Hong Kong may differ from those that prevail in other countries and the regulatory authorities have been consistently imposing higher standards and formulating new guidelines and regulatory requirements, such as the final regulatory framework under Basel III promulgated by the Basel Committee in December 2010.

In addition to the above-mentioned Hong Kong regulatory requirements, the Group is also required to comply with regulatory requirements applicable in each of the countries in which it operates, which may be different from, and in some cases, more stringent than, Hong Kong regulatory requirements. The Group has taken steps to implement the recommendations by relevant regulators and to comply with any new or modified regulations. Increased regulations and the requirements for more stringent investor protections have increased the Group's operational and compliance expenses. Any changes in regulations, governmental policies, income tax laws or rules and accounting principles, as well as international conventions and standards relating to commercial banking operations in Hong Kong or as otherwise applicable to the Group, could affect the Group's operations. There can be no assurance that

the relevant regulatory authorities will not implement further regulations and that such changes will not materially increase the Group's operational and compliance cost or adversely affect its business or operations. There can also be no assurance that breaches of legislation or regulations by the Group will not occur and, to the extent that such a breach does occur, that significant liability or penalties will not be incurred.

Occurrence (or escalation and/or intensification) of any force majeure events, such as political unrest, civil disobedience movements, natural disasters, outbreaks of contagious diseases and other disasters in Asia or elsewhere

Any future political unrest, civil disobedience movements, natural disasters or outbreaks of health epidemics and contagious diseases, including avian influenza, the Ebola virus, Severe Acute Respiratory Syndrome (“**SARS**”), H1N1 Flu or COVID-19 may adversely affect the Group's business, financial condition and results of operations. Possible force majeure events may also give rise to additional costs to be borne by the Group and have adverse effects on the quality of the Group's assets, business, financial condition and results of operations. An outbreak of a health epidemic or contagious disease could result in a widespread health crisis and restrict the level of business activity in affected areas, which may in turn adversely affect the Group's business. In addition, the occurrence of severe natural disasters in any of the regions in which the Group operates may adversely affect the local economy and, in turn, the Group's business. There can be no guarantee that any future occurrence of political unrest, civil disobedience movements, natural disasters or outbreak of avian influenza, the Ebola virus, SARS, H1N1 Flu, COVID-19 or other epidemics, or the measures taken by any relevant government or other countries in response to a future outbreak of avian influenza, the Ebola virus, SARS, H1N1 Flu, COVID-19 or other epidemics, will not seriously interrupt the Group's operations or those of its customers, which may have an adverse effect on its business, financial condition and results of operations.

Further Issuance of Securities

The Group's financial condition, results of operations and capital position are affected by a range of factors such as economic conditions, interest rates, the credit environment, asset quality, operating income and level of provisioning. A slowdown in the economy could lead to a deterioration in the Group's asset quality and an increase in provisions for bad and doubtful debts, which may result in a deterioration of BEA's capital adequacy position or breach of capital requirements under Hong Kong law, rules and regulations (including guidelines issued by the Monetary Authority). In addition, the Monetary Authority may increase BEA's required capital adequacy ratio levels in the future in response to, among other things, an adverse economic or credit environment or regulatory changes.

In order to strengthen its capital adequacy position or to ensure that it remains in compliance with applicable capital requirements under Hong Kong law, rules and regulations (including guidelines issued by the Monetary Authority), the Group may from time to time raise additional capital through such means and in such manner as it may consider appropriate including, without limitation, the issue of further subordinated notes or other hybrid capital instruments, subject to any regulatory approval that may be required. There can be no assurance that such future capital raising activities will not adversely affect the market price of the Undated Capital Securities in the secondary market. There can also be no assurance that the Group will be able to obtain additional capital in a timely manner, on acceptable terms or at all.

OECD's Common Reporting Standard

The Organisation for Economic Co-operation and Development (the “**OECD**”) has developed a common reporting standard (the “**CRS**”) and model competent authority agreement to enable the multilateral and automatic exchange of financial account information. The CRS does not include a potential withholding element. Under the CRS, financial institutions are required to identify and report the tax residence status of customers in all the countries that have endorsed the CRS.

The adoption of the CRS in the PRC and Hong Kong became effective on 1 January 2017. The PRC and Hong Kong financial institutions have begun collecting tax residency information from their account holders from 1 January 2017 for submission of information on reportable account holders in 2018. The increased due diligence of customer information and the reporting of information to the tax authorities will continue to increase operational and compliance costs for banks, including the Group.”

As a locally-incorporated bank and a wholly-owned subsidiary of BEA, BEA (China) obtained the Financial Institution Business Permit from CBIRC on 20 March 2007 and the business licence from SAIC on 29 March 2007, BEA (China) officially commenced business on 2 April 2007. BEA (China) provides comprehensive RMB and foreign currency banking services to all customers. Services include personal banking and wealth management, loans and advances, debit cards and credit cards, Cyberbanking and cash management, private banking, investment and derivative products, agency services for life and general insurance, remittance and settlement, RMB cross-border business, trade finance facilities, supply chain financing, standby letters of credit, bank guarantees and distribution of local mutual funds.

History

Since its founding in 1918, BEA has dedicated itself to delivering professional banking services to the local community in Hong Kong, particularly small and medium enterprises. BEA set up its first branch in Mainland China in Shanghai in 1920 and has operated in Mainland China ever since. BEA’s shares started trading on the local stock exchanges in Hong Kong in the early 1920s.

In 1975, BEA launched the first Hong Kong dollar credit card in conjunction with Bank of America, called the East Asia BankAmericard/VISA. In 1979, the East Asia BankAmericard/VISA credit card became the first credit card that was accepted in Mainland China as a result of an agreement between BEA and the Bank of China on foreign currency credit card settlement services.

BEA is one of the founders of Joint Electronic Teller Services Ltd. (“JETCO”), which was formed to set up a network of ATMs in Hong Kong and Macau. BEA is also one of the founders of EPS Company (Hong Kong) Limited (“EPSCO”) in Hong Kong, which was formed to facilitate the electronic transfer of funds at the points of sale. In 1999, BEA was the first bank in Hong Kong to launch online stock trading through its wholly-owned subsidiary, East Asia Securities Company Limited (“East Asia Securities”). BEA was also the first bank in Hong Kong to provide comprehensive internet banking services to its customers, through its award-winning Cyberbanking service.

In 2008, BEA (China) became the first foreign bank to launch RMB debit cards and RMB credit cards in Mainland China.

In June 2009, BEA entered into a number of strategic cooperation agreements with Criteria CaixaCorp, S.A. (which changed its name to CaixaBank S.A. on 30 June 2011) (“CaixaBank”), a Spanish listed holding company controlled by “la Caixa”. The agreements enable BEA to leverage the extensive resources of CaixaBank to further develop its business, including cross-border referrals, training and knowledge transfer as well as funding. The alliance with “la Caixa” group also enhances BEA’s access to the financial industry in Spain, Europe and Latin America, and creates opportunities for potential joint business development in the Asia-Pacific region.

In July 2009, BEA (China) became the first locally-incorporated foreign bank to issue RMB retail bonds to retail investors and raised RMB4 billion through its debut issue of RMB bonds in Hong Kong. In September 2009, BEA (China) was granted the status of Domestic Settlement Bank and Domestic Agent Bank for cross-border RMB trade settlement services, and completed its first cross-border RMB trade settlement transaction. In November 2010, BEA (China) completed its first cross-border RMB transaction for foreign direct investment.

In June 2013, BEA (China) was among the first batch of foreign banks to be granted a local mutual fund distribution licence in Mainland China. In February 2014, BEA (China) became the first foreign bank approved by PBOC to act as a reserve bank for payment institutions. In October 2015, BEA (China) was one of the first foreign banks to be qualified as a direct participating bank of the Cross-border Interbank Payment System.

In December 2017, East Asia Qianhai Securities Company Limited ("**EA Qianhai Securities**") received licence from the China Securities Regulatory Commission for commencement of operation. BEA is the largest shareholder of EA Qianhai Securities with a 49 per cent. interest. EA Qianhai Securities is incorporated in Qianhai, Shenzhen with issued capital of RMB1.5 billion. EA Qianhai Securities is one of the few fully licensed securities companies established under Supplement X of the PRC's Closer Economic Partnership Arrangement with Hong Kong and Macau (the "**CEPA**").

As the first foreign bank to enter Qianhai, BEA (China) took the lead in setting up its Qianhai Sub-branch in early 2013, focusing on supporting and serving the development of the zone. In July 2018, BEA (China) became the first foreign bank to receive approval to open a full branch in Qianhai.

RECENT DEVELOPMENTS

Off-market Share Buy-back

On 28 March 2022, Elliott International, L.P., The Liverpool Limited Partnership, Wakeland Securities L.P., Artan Investments Limited, Frasco Investments Limited, Milton Investments Limited, Parlan Investments Limited and Trevet Investments Limited (together, the "**Elliott Parties**") and BEA entered into a share buy-back deed in relation to an off-market share buy-back by BEA of 246,510,173 ordinary shares held by the Elliott Parties (the "**Share Buy-back**"), representing approximately 8.43 per cent. of the total number of BEA's issued ordinary shares.

Completion of the Share Buy-back occurred on 11 April 2022.

Disposal of BEA Life and Blue Cross and Entry into Distribution Arrangements

In March 2021, BEA entered into a share sale and framework agreement with AIA Company Limited ("**AIA**") in relation to the sale of all the issued shares in the share capital of BEA Life Limited ("**BEA Life**") to AIA (the "**BEA Life Disposal**"), and BEA Life and Blue Cross (Asia-Pacific) Insurance Limited ("**Blue Cross**") entered into a portfolio transfer agreement under which the residual portfolio of the long-term business of Blue Cross will be transferred to BEA Life (the "**Portfolio Transfer**").

Completion of the BEA Life Disposal took place in September 2021. Completion of the Portfolio Transfer is subject to both regulatory approval and sanction of the courts in Hong Kong, and is expected to take place in September 2022.

In addition, BEA entered into a regional distribution agreement (the "**Distribution Agreement**") with AIA in March 2021 pursuant to which AIA Group Limited ("**AIA Group**") and its subsidiaries will be the exclusive providers of life insurance products and long-term savings plans for BEA's personal banking customers in Hong Kong, the PRC and Macau. Under the Distribution Agreement, BEA will leverage AIA Group's extensive product expertise and resources to build out its regional omni-channel insurance distribution platform. BEA will focus on selling AIA's life insurance and long-term savings plans, which offer enhanced wealth accumulation opportunities to customers.

On 4 March 2022, BEA entered into a share sale agreement (the "**Blue Cross Share Sale Agreement**") with AIA Holdings (Hong Kong) Limited ("**AIA Holdings AA**") and AIA in relation to the proposed sale of all the issued shares in Blue Cross to AIA Holdings AA (the "**Blue Cross Disposal**"), and Blue Care (BVI) Holdings Limited ("**Blue Care Holdings**"), an indirect wholly-owned subsidiary of BEA, entered into a share sale agreement with AIA Holdings AA and AIA in relation to the proposed sale of all the issued

shares in Blue Care JV (BVI) Holdings Limited (“**Blue Care**”) held by Blue Care Holdings, comprising 80 per cent. of the total issued share capital of Blue Care.

Pursuant to the Blue Cross Share Sale Agreement, subject to completion of the Blue Cross Disposal, the Distribution Agreement will be amended to include a framework for the arrangements pursuant to which AIA’s exclusivity under the Distribution Agreement will be extended, through acquiring Blue Cross, to non-life insurance products for BEA’s personal banking customers in Hong Kong and a distribution agreement setting out the terms of the arrangement will be entered into between BEA and Blue Cross on completion of the Blue Cross Disposal.

Please refer to BEA’s announcement on the HKSE entitled “Discloseable Transaction - Disposal of Blue Cross (Asia-Pacific) Insurance Limited and Interests in Blue Care JV (BVI) Holdings Limited and Proposed Entry into of Distribution Arrangements” and dated 4 March 2022, BEA’s announcement on the HKSE entitled “Discloseable Transaction — Disposal of BEA Life Limited and Entry into Distribution Arrangements” and dated 24 March 2021 and BEA’s announcement on the HKSE entitled “Update Announcement on Discloseable Transaction — Disposal of BEA Life Limited and Entry into Distribution Arrangements” and dated 1 September 2021 for further information.

List of Domestic Systemically Important Authorized Institutions

Following the Monetary Authority’s recent annual assessment of the list of Domestic Systemically Important Authorized Institutions (“**D-SIBs**”), BEA was no longer identified as a D-SIB in the updated list of D-SIBs, which took effect on 1 January 2022, considering BEA’s systemic importance relative to other institutions.

STRATEGY

BEA’s core objectives are to strengthen its position and to further develop its domestic franchise as the largest independent local bank in Hong Kong, and to further diversify its operations and expand its operations in Mainland China and other overseas countries. The Group will continue to maintain its growth strategy for its businesses and operations and, at the same time, keep up the process of enhancing its total shareholder return. Given the increasingly close economic connection among Mainland China, Hong Kong and the countries of Southeast Asia, the Group will continue to integrate its services across Hong Kong, Mainland China and international networks and capitalise new business opportunities in the Guangdong — Hong Kong — Macau Greater Bay Area (the “**Greater Bay Area**”). The key components of the Group’s strategy are below.

Further Expansion in Mainland China and Other Overseas Countries

BEA intends to continue to develop the Group’s business in Mainland China and other overseas markets. The Mainland China market remains an important focus for the Group. BEA intends to consolidate and strengthen the Group’s position in Mainland China through capitalising on opportunities arising from the liberalisation of the banking sector and the internationalisation of RMB. Through the establishment of a locally-incorporated bank, BEA (China), the Group is able to provide a comprehensive range of RMB and foreign currency banking products and services to customers in Mainland China. BEA (China) will continue to optimise the use of its assets and its Mainland China — Hong Kong connection to deliver a wide range of tailored services for its customers, in particular to meet the demands of high net worth and corporate customers in Mainland China seeking to expand their businesses in Hong Kong and overseas. As a key driver of growth of the Group, BEA (China) will further strengthen cross-border businesses among Mainland China, Hong Kong and overseas to capture opportunities arising from increasing business flows to and from Mainland China. Leveraging the Group’s international banking experience and long history of presence in Mainland China, BEA (China) aims to position itself as “the most localised foreign bank in Mainland China”.

Given the size of the Mainland China market and the extensive physical presence of the domestic banks, BEA does not intend to compete with the domestic banks directly by opening an extensive branch network. Instead, the Group will accelerate digitalisation with variant mobile platforms, such as mobile banking, WeChat banking and tablet banking, to extend its reach to customers. BEA (China) focuses on lending to high quality customers, such as state-owned enterprises, listed companies, customers who have long-standing business relationship with the Group and privately-owned enterprises with good credit standing

stemming from emerging pillar industries such as green energy, auto, healthcare, technology, media and telecommunications. In addition, BEA (China) focuses on enhancing its product and service capabilities in areas such as trade finance, transaction banking and investment banking. Treasury products are another promising area for growth. BEA (China) has made significant inroads into the onshore RMB options market.

In view of the internationalisation of RMB, the Group continues to further strengthen collaboration among its business units in Hong Kong, Mainland China and overseas. To capture opportunities arising from increasing business flows to and from Mainland China, BEA (China) provides integrated cross-border financial services for both trade and non-trade transactions, so as to meet clients' growing needs in overseas acquisitions and business expansion. Furthermore, BEA (China) is working closely with other business units of the Group to capture opportunities arising from the Greater Bay Area initiative in particular.

BEA (China) intends to optimise its branch network and maintain a strong presence in Mainland China, improve its outlet productivity, carry out a cost-effective branch network and readjust the layout of its sub-branches according to business needs. In the Greater Bay Area, BEA (China) operates approximately 20 outlets and will continue to leverage on the Group's extensive network to capture opportunities that arise from the region. By streamlining its operations through digitalisation and process enhancement, BEA (China) is well-positioned to capture more opportunities with similar resource bases.

Improving operating efficiency through various transformation initiatives will be the main focus of BEA (China) in the future. BEA (China) has increased its investments in information technology as well as digital and data analytics capabilities in order to drive cost efficiency, improve workflow and strengthen core infrastructure. These initiatives will lay the essential foundation to enhance customer experience, strengthen risk management and improve productivity of BEA (China) in the long run.

In addition, BEA intends to continue to expand the Group's business in other overseas markets as and when opportunities arise. Overseas branches will continue to enhance their local portfolios and expand collaboration with the head office and BEA (China) and strategic partners to further develop cross-border financing business and to expand cross-selling opportunities, particularly for Chinese corporations' business expansion and overseas investments, for enhancing clients' total value to the Group.

Development of Green and Sustainable Finance

Meanwhile, BEA remains committed to supporting the development of green and sustainable finance in Hong Kong. In November 2021, BEA's Board-level Environment, Social, Governance (“**ESG**”) Committee endorsed the Group's ESG strategy framework, which sets out BEA's vision to be a market leader in sustainability in financial services. BEA will continue to strengthen its governance and refine its business practices to ensure that the Group delivers sustainable value to all stakeholders.

BEA's overseas operations are also committed to the development of green and sustainability-linked financing in order to support the long-term growth of BEA.

Diversification of Non-interest Income

In light of the challenging operating environment caused by various factors including the ongoing COVID-19 pandemic, BEA is transitioning towards a more “digital-led, asset-efficient” business model with a greater focus on fee income. The Group implements its strategy in Hong Kong by continuing to broaden its product range, upgrading product features and exploring new market opportunities. The Group's businesses of wealth management, private banking, trade finance and hedging solutions will continue to be the focus of the Group's core business development in the near future. The Group will also continue to intensify cross-selling opportunities to its existing customer base. In addition, the Group will drive and implement ongoing improvements on customer platforms, such as the Cyberbanking and BEA apps, to further enhance service quality and offer unified omni-channels for new customers that are less readily accessible through traditional physical channels.

Enhancement of Profitability via Active Capital Management

BEA intends to continue to optimise the Group's asset mix through active capital management and allocation in order to enhance its profitability and net worth, with the special emphasis on the “Return on

Risk-weighted Assets”. The Group will also absorb low-cost deposits across all business units and implement multi-pronged strategy to reduce funding costs.

Transformation of its Branch Network

Through repositioning and rationalising its branch network and re-distributing resources, the Group seeks to transform its Hong Kong branches into deposit taking centres and sales centres to provide banking products and services to its customers and in particular, to target high net worth customers. The Group will endeavour to enhance its appeal to further penetrate affluent, young professionals and millennials, high net worth individuals, mid-cap and cash flow-rich companies as well as cross-border customers.

BEA intends to increase the Group’s investments in digital strategy to reduce the cost of banking operations, and continue to embrace technology in driving mobile transactions with payment and lifestyle features. The Group will also continue to implement a straight-through, paperless branch operation model to enhance efficiency and service delivery, and upgrade its branch services with new technologies and processes to achieve its goal of becoming the primary service provider for its clients.

In addition, BEA will continue to focus on enhancing the Group’s data analytics capabilities, strengthening the insights into customer behaviour and preferences, and building customised fintech solutions. BEA (China) also reallocates its resources to the construction of its online infrastructure, in alignment with customer trends. The Group aims to continue the strategy of developing innovative and user-friendly services and tools to best serve its customers, furthering its business focus on being a customer-centric financial services provider.

Organic Growth and Partnerships

BEA aims to grow organically, by providing one-stop financial services to customers, and through partnerships, by establishing partnerships to generate new business across the Group. BEA will continue to take a disciplined approach to partnerships and investments, as well as capture new business opportunities and enhance service quality by tapping into the strength and expertise of its shareholders and strategic partners.

The Group maintains a close focus on creating value for customers and investors, providing high quality financial services and seeking investment opportunities that generate favourable returns. In particular, BEA’s corporate banking has been repositioned as a total solution service provider and has set up capacity to serve small-to-medium-sized enterprises and mid-market segments. BEA’s corporate banking business will further collaborate with a wide range of partners on commercial data, customer experience integration and new payment and financing solutions.

BEA believes that the Group will benefit from the Distribution Agreement with AIA by further developing the Group’s strong distribution network and expanding its client base in Greater China. In addition, the Blue Cross Disposal, when completed, is expected to expand the scope of the Group’s life bancassurance partnership with AIA.

BEA will continue to conduct periodic reviews on its business portfolio, business lines and investments in order to ensure optimal allocation of its resources.

Focus on Enhancing Operational Efficiency

BEA aims to further enhance efficiency and market competitiveness. The Group will continue to maintain strict control over costs throughout the Group and maintain cost discipline while investing in areas that offer good growth potential. The Group will also continue to enforce and explore technological innovation to streamline the selling, servicing and operation processes. A selection of banking products will be sold with the transactions processed via a wide range of e-channels. The Group will focus on growth across its operations and implement strategies to optimise its asset and portfolio mix, as well as remaining vigilant in managing its risks and striving to enhance efficiency and productivity. In addition, the Group will continue to allocate more resources to proactively manage its credit risk control and protect asset quality. The Group also conducts strategic workforce planning from time to time to enhance its staff capacity and capability.

BUSINESS OVERVIEW

BEA has long been known for the comprehensive range of corporate banking, personal banking, financial services and insurance services that it provides to its diverse customer base. BEA's products and services include syndicated loans, trade finance, deposit-taking, foreign currency savings, remittances, mortgage loans, consumer loans, credit cards, Cyberbanking, retail investment and wealth management services, private banking, Renminbi services, foreign exchange margin trading, brokerage services, MPF services and general and life insurance.

Home Mortgages

As at 31 December 2019, 2020 and 2021, home mortgages (including loans for the purchase of flats in the Home Ownership Scheme (“**HOS**”), Private Sector Participation Scheme (“**PSPS**”) and Tenants Purchase Scheme (“**TPS**”) and loans for the purchase of other residential properties) in Hong Kong represented one of the most significant segments of the Group’s total loans and advances to customers, accounting for approximately HK\$90,443 million, HK\$88,895 million and HK\$92,869 million, respectively, or approximately 17.8 per cent., 17.3 per cent. and 16.9 per cent., respectively, of the Group’s total loans and advances to customers. The majority of home mortgages are extended to buyers of housing units in Hong Kong who intend to occupy the premises, which include advances guaranteed by HKSARG under HOS and TPS to assist lower income families in purchasing homes. Other home mortgages are extended to individuals purchasing residential units for investment purposes and refinancing.

All home mortgage advances are secured by a first legal charge on the property and, in certain circumstances, the Group may also require personal guarantee as additional security. The Group provides various mortgage plans, including floating Prime-based rate and floating HIBOR-based rate

mortgage plans which are repayable by instalments. For a discussion of the Group's loan-to-value lending limits applicable to home mortgage advances, see "*Selected Statistical and Other Information — Risk Management and Credit Policies*". For a discussion of the Group's lending rates applicable to home mortgage advances, see "*Selected Statistical and Other Information — Advance Portfolio — Advance Analysis*". The Group maintains close relationships with most property developers in Hong Kong, which has enabled the Group to source a significant amount of home mortgage and commercial mortgage advance business.

Trade Finance

For example, in October 2018, BEA, together with six other banks, jointly launched a digital trade finance platform, eTradeConnect, being the first trade finance platform leveraging blockchain technology in Hong Kong.

The trade finance sector in Hong Kong is well developed and, consequently, the Group is seeking to capitalise on its network in Mainland China to market its trade finance services to the increasing number of cross-border customers.

Bilateral Advances and Syndicated Advances

The Group's corporate lending activities include financing general corporate funding requirements, property development, property investment and M&A activities as well as project financing. The majority of borrowers are medium to large-sized Hong Kong companies as well as state-owned and private enterprises in Mainland China, which use the funds to support general working capital and funding requirements in Hong Kong and Mainland China.

The Group acts as arranger or participating bank in the Hong Kong syndicated loan market. The majority of the Group's syndicated advances are extended to Hong Kong and PRC companies engaging in property development and investment, local conglomerates and large private or state-owned enterprises in Mainland China. The Group also acts as co-arranger in club deal facilities.

The majority of the project financing in which the Group participates is extended on a recourse basis and is secured by the underlying project. Typically, the average maturity of BEA's corporate advances is up to five years and that for construction loans is extended up to completion of the construction project. Loan-to-value ratios are determined on a case-by-case basis in compliance with the regulatory requirement. For project financing, the advance is generally secured by the underlying property and charge over all receivables derived from the property projects. The Group has been targeting at medium-sized to large-sized borrowers to pursue better risk-justified return.

As at 31 December 2019, 2020 and 2021, the Group's total outstanding bilateral and syndicated advances amounted to approximately HK\$107,518 million, HK\$115,733 million and HK\$120,991 million, respectively, which accounted for approximately 21.1 per cent., 22.5 per cent. and 22.0 per cent. of the Group's total loans and advances to customers, respectively.

Striving to become a leading private bank in these areas, BEA continues to expand its salesforce and product suite to meet the demands of high net worth customers in Mainland China. It is expected that the contribution from Mainland China customers will continue to increase given the strong and leading position of the

Group's business and know-how in Mainland China. The Group will continue to explore new avenues to drive more businesses and provide value-added services to its customers.

As at 31 December 2021, the assets under management of BEA Private Banking amounted to HK\$73.18 billion.

To strengthen its advisory services and capacities, BEA's Investment Products and Advisory Department introduced the publication "BEA Insight", which provides monthly investment reports on thematic hot topics to customers. Stock Broking

In addition to the range of traditional banking products and services offered by the Group to its customers, the Group also provides equity and futures stock broking. Stock broking activities and dealings in Hang Seng Index futures, options and other derivative products are conducted through BEA and its wholly-owned subsidiaries, namely, East Asia Securities and East Asia Futures Limited, on an agency basis for the execution of customers' orders.

Debt Capital Market

In October 2018, the Group commenced its fixed income capital market business that involves origination, execution and distribution of offshore public and private bond transactions for, mainly, corporations in Mainland China and Hong Kong.

MAINLAND CHINA

As at 31 December 2021, BEA's wholly-owned subsidiary, BEA (China), headquartered in Shanghai, operated 30 branches in Shanghai, Beijing, Tianjin, Harbin, Dalian, Shenyang, Qingdao, Shijiazhuang, Zhengzhou, Urumqi, Hangzhou, Nanjing, Suzhou, Chengdu, Chongqing, Wuhan, Hefei, Xi'an, Shenzhen, Shenzhen Qianhai, Guangzhou, Zhuhai, Xiamen, Changsha, Kunming, Ningbo, Jinan, Fuzhou, Nanning and Nanchang as well as 39 sub-branches in the PRC. BEA (China) operates 20 outlets covering all nine Mainland cities in the Greater Bay Area.

In order to expand its presence in the Mainland China market, the Group has been expanding the range of products and services it provides in Mainland China and will seek to capitalise on the opportunities arising from the liberalisation of the banking sector and from the CEPA between Hong Kong and Mainland China. BEA (China)'s strategy is to increase the growth of RMB deposits in order to maintain stability in its source of funds and to minimise costs associated with interbank lending. However, there are many factors affecting the growth of deposits such as economic and political conditions, interest rate liberalisation, the availability of alternative investment choices (including but not limited to securities issued by governmental or corporate entities, unit trusts and mutual funds, investment-linked assurance schemes and structured investment products) and retail customers' changing perceptions towards savings.

BEA (China) aims at optimising the allocation and utilisation of its resources to better develop its retail banking in areas with business potential by strategically repositioning some of the business outlets. Selected existing outlets provide both corporate and retail banking services, while the rest of the existing outlets and newly established outlets focus on corporate banking services supported by basic retail banking services.

As at 31 December 2019, 2020 and 2021, BEA (China)'s RMB-denominated lending amounted to approximately HK\$118,912 million, HK\$111,949 million and HK\$128,959 million, respectively, accounting for approximately 90.5 per cent., 88.1 per cent. and 86.0 per cent. of the total customer advances of BEA (China), respectively. Borrowers comprise companies registered to do business in Mainland China and individual customers including local residents. BEA (China) expects to further expand its RMB-denominated lending business with a prudent approach and has more appetite for loan growth in selected industries stemming from emerging pillar industries such as green energy, auto, healthcare, technology, media and telecommunications.

LITIGATION

The Group is involved, from time to time, in legal proceedings arising in the ordinary course of its operations. See "*Investment Considerations — Considerations Relating to the Group — Legal, Litigation and Regulatory Proceedings*".

Disputes with Elliott International, L.P. (“Elliott”), The Liverpool Limited Partnership (“Liverpool”) and Others

On 18 July 2016, BEA was served with a sealed copy of an unfair prejudice petition presented by Elliott, Liverpool and certain other entities affiliated with Elliott and Liverpool (together, the “**Petitioners**”) to the Court of First Instance of the High Court of Hong Kong pursuant to Section 724 of the CO (the “**Petition**”). BEA and the relevant directors were named as respondents in the Petition.

On 4 March 2020, BEA announced that in conjunction with its plan to carry out the comprehensive review of its portfolio, Elliott Management Corporation and certain of its affiliates including Elliot would apply for a stay of the proceedings of the Petition. Consequently, these proceedings are permanently stayed and BEA considers that the Petition will not have any material adverse impact on the normal business and operations of BEA.

Disputes with China Medical Technologies, Inc (“China Medical Technologies”)

In February 2017, BEA was served with a statement of claim filed by China Medical Technologies (which has been liquidated and delisted in the United States) at the Court of First Instance of the High Court of Hong Kong.

China Medical Technologies’ claims arose from the payment of funds: (i) to the bank accounts of Supreme Well Investments Limited maintained with BEA (among others) between November 2006 and December 2009 purportedly for the acquisition of technology that allegedly did not exist or was purchased by China Medical Technologies at a gross overvalue; and (ii) to other accounts maintained with BEA between March 2007 and June 2011.

China Medical Technologies alleged that payments of over U.S.\$180 million were made from the accounts of Supreme Well Investments Limited and other related entities maintained with BEA to parties connected with and/or controlled by directors and/or executives of China Medical Technologies, with the aim of misappropriating the funds for their personal benefit and in breach of trust and/or fiduciary duties.

BEA subsequently filed a set-aside application which was successful pursuant to the judgment of the High Court of Hong Kong and given that the appeal had been withdrawn, this action was dismissed in March 2021 (the “**Dismissed High Court Action**”).

China Medical Technologies filed a new action and a summons against BEA at the Court of First Instance of the High Court of Hong Kong in August 2018 and August 2020, respectively, which China Medical Technologies relied on substantially similar facts and sought substantially similar relief against BEA as per the Dismissed High Court Action. The new action and summons have been consolidated (the “**Consolidated Action**”) and BEA is in the course of preparing the relevant court documents for the application for striking out the Consolidated Action. Based on publicly available information and given the Consolidated Action is based on substantially similar facts and is seeking substantially similar relief, BEA considers that the Consolidated Action will not have any material adverse impact on the normal business and operations of BEA.

Please refer to BEA’s announcement on the HKSE entitled “Legal Proceedings” and dated 6 March 2017 for further information.

Investigation in Relation to CaixaBank, S.A.

On 3 October 2018, the National Court in Madrid opened a criminal investigation in relation to certain transactions undertaken by CaixaBank, S.A., including, among others, the transfer by CaixaBank, S.A. to Criteria Caixa, S.A. Sociedad Unipersonal of its stake of approximately 17.2 per cent. in BEA and its stake of approximately 9.0 per cent. in Grupo Financiero Inbursa, S.A.B. de C.V. (the “**Investigation**”).

The Investigation arose out of a petition by two individual shareholders of CaixaBank, S.A. and the allegations include alleged market abuse, insider trading, misrepresentation of financial statements, mismanagement of the firms and unfair treatment of shareholders. The Investigation is not directed at BEA and has been brought against CaixaBank, S.A., Criteria Caixa, S.A. Sociedad Unipersonal, Dr. Isidro Fainé Casas who was a Non-executive Director of BEA (resigned with effect from the conclusion of BEA’s

Annual General Meeting held on 24 April 2020), five other executives/directors of CaixaBank, S.A. and Dr. the Hon. Sir David Li Kwok-po.

Dr. Isidro Fainé Casas and Dr. the Hon. Sir David Li Kwok-po resigned as directors of CaixaBank, S.A. on 30 June 2016 and 23 October 2014, respectively.

Please refer to BEA's announcement on the HKSE entitled "Announcement pursuant to Rule 13.51B(2) of the Listing Rules" and dated 16 October 2018 for further information.

Save as otherwise disclosed in this Offering Circular, neither BEA nor any of its subsidiaries is involved in any litigation or arbitration proceedings relating to claims or amounts that are material in the context of the issue of the Undated Capital Securities, and BEA is not aware of any such litigation or arbitration proceedings pending or threatened against it or any of its subsidiaries.

EMPLOYEES

As at 31 December 2021, the Group had a total of 8,824 employees as set forth in the following table:

	No. of employees
Hong Kong.....	5,057
Mainland China.....	3,211
Macau and Taiwan	130
Overseas	426
Total	8,824

Management believes that BEA maintains a good relationship with its employees and has not experienced any material employment disputes. Other than all local employees of BEA (China) and other Mainland China subsidiaries and certain local employees at its Singapore branch, none of BEA's employees are members of a trade union. BEA provides attractive remuneration and benefits packages to its employees including medical health care plans, group life insurance, various paid leave, staff housing loan with preferential interest rate, staff account with preferential deposit interest rate and retirement benefits under either the MPF Scheme or the MPF exempted ORSO Scheme. In addition, BEA operates share option schemes under which options to purchase ordinary shares of BEA have been granted to members of senior management and executive directors. As at 31 December 2021, approximately 36,336,128 shares, representing approximately 1.23 per cent. of BEA's issued capital on a fully diluted basis, were issuable upon the exercise of options (including vested and unvested options) granted under BEA's staff share option schemes adopted in 2011 and 2016.

In addition to benefits packages, BEA continues to provide career advancement opportunities and a healthy and positive working environment to its employees. BEA offers a wide range of training courses to support its employees' ongoing professional development.

PROTECTION OF DEPOSITORS

BEA is a member of the Deposit Protection Scheme, which was launched in September 2006. Accordingly, all eligible depositors of BEA are automatically protected under the Deposit Protection Scheme. As part of its measures to maintain the liquidity of, and confidence in, the Hong Kong financial markets, HKSARG introduced in 2006 a Deposit Protection Scheme to provide a level of protection to depositors with deposits held with authorized institutions in Hong Kong. An enhanced Deposit Protection Scheme with an increased protection limit of HK\$500,000 and expanded coverage including deposits pledged as security for banking services, came into effect on 1 January 2011. On 24 March 2016, the 2016 Amendment Ordinance came into effect. Amongst other things, a gross payout approach is adopted for the determination of compensation under the Deposit Protection Scheme in case the scheme is triggered. Under this approach, any compensation paid to depositors is determined on the basis of their aggregate protected deposits held with a failed bank (up to HK\$500,000 per depositor) without deducting

the amount of liabilities owed by those depositors to the same bank. The gross payout approach enables the affected depositors to have faster access to their deposits.”

As at 31 December 2019, 2020 and 2021, approximately 80.6 per cent., 77.7 per cent. and 78.1 per cent. of advances made by the Group were at floating rates of interest, respectively. See "— *Asset and Liability Management*". The current rate offered by the Group for home mortgage advances in Hong Kong generally ranges from 1.3 per cent. to 1.5 per cent. above the 1-month HIBOR. The interest rate for Hong Kong dollar consumer finance advances offered by the Group is typically calculated on the initial principal amounts of such advances and typically ranges from 1.6 per cent. to 33.35 per cent. per annum flat for fixed rate products and from 5.75 per cent. The interest rate for project finance lending and syndicated lending is typically a margin over HIBOR. As at 31 December 2019, 2020 and 2021, approximately 52.8 per cent., 52.9 per cent. and 51.8 per cent., respectively, of advances made by the Group were denominated in Hong Kong dollars, approximately 14.1 per cent., 16.0 per cent. and 15.8 per cent., respectively, were denominated in U.S. dollars and approximately 23.8 per cent., 22.2 per cent. and 23.9 per cent., respectively, were denominated in RMB. Rates which are lower than the above rates may be offered by the Group under appropriate circumstances subject to internal approvals.

An important component of the Group's asset and liability policy is its management of interest rate risk, which is the relationship between market interest rates and the Group's interest rates on its interest rate sensitive assets and interest rate sensitive liabilities. See "— *Asset and Liability Management*".

Derivatives, such as interest rate swaps and interest rate futures, are used by the Group to manage interest rate risk in the banking book exposure. The Group enters into hedging either against individual transactions or on portfolio basis. Hedge accounting treatment under HKFRS is actively applied to avoid fluctuation of profit and loss arising from mark-to-market of the hedging derivatives.

As at 31 December 2019, 2020 and 2021, approximately 60.9 per cent., 59.2 per cent. and 56.1 per cent., respectively, of the Group's total loans and advances to customers were covered by collateral.

The extent of collateral coverage over the Group's loans and advances to customers depends on the type of customers and the product offered. Types of collateral include residential properties (in the form of mortgages over property), other properties, other registered securities over assets, cash deposits,

standby letters of credit and guarantees. All forms of security taken as collateral against credit facilities are monitored by the respective departments which extended the advances. In general, the collateral is periodically valued by an independent valuer to determine whether any additional collateral is required.

RISK MANAGEMENT AND CREDIT POLICIES

The Group's lending policies have been formulated on the basis of its own experience, the Banking Ordinance, guidelines or policies issued by the Monetary Authority, the Hong Kong Association of Banks and other statutory requirements (and, in the case of overseas branches and subsidiaries, the relevant local laws and regulations). BEA believes it has a history of, and reputation for, prudent lending practices. The majority of the Group's lending is on a secured basis, and the Group has established loan-to-value lending limits based on the appraised market value of the relevant collateral.

Risk Management

The Group has established an effective risk governance and management framework in line with the requirements set out by the Monetary Authority and other regulators. This framework is built around a structure that enables BEA's Board of Directors and management to discharge their risk management-related responsibilities with appropriate delegation and checks and balances. These responsibilities include defining risk appetite in accordance with the Group's business strategies and objectives, formulating risk policies that govern the execution of those strategies, and establishing procedures and limits for the approval, control, monitoring, and remedy of risks.

The Risk Committee stands at the highest level of the Group's risk governance structure below the Board of Directors. The Risk Committee provides direct oversight over the formulation of the Group's risk appetite, and sets the levels of risk that the Group is willing to undertake with regard to its financial capacity, strategic direction, prevailing market conditions, and regulatory requirements.

The Risk Committee also ensures that the Group's risk appetite is reflected in the policies and procedures that BEA's management adopts to execute its business functions. Through the Group's management committees at executive level including the Crisis Management Committee, Risk Management Committee, Credit Committee, Asset and Liability Management Committee, and Operational Risk Management Committee and with overall coordination by the Risk Management Division, the Risk Committee regularly reviews the Group's risk management framework and ensures that all important risk-related tasks are performed according to established policies with appropriate resources.

The Risk Management Division is headed by the Group Chief Risk Officer and General Manager, who reports directly to the Chairman and Co-Chief Executives and is responsible for overseeing the Group's risk management issues which include, but are not limited to, the risk management infrastructure, strategies, appetites, culture, and resources. The Risk Management Division assesses regulatory requirements, in particular the requirements under the Supervisory Policy Manuals issued by the Monetary Authority, and is responsible for:

- (i) formulating risk management policies and guidelines and performing regular reviews in order to ensure that such policies and guidelines are kept up to date;
- (ii) monitoring risk exposure and compliance with the risk management framework using a risk-based approach that incorporates independent risk assessment, independent review of regular reports, independent review of new products/specific issues, and coordination of risk-related projects; and
- (iii) reporting at pre-determined schedule the monitoring results and significant risk related issues to the specialised risk management committees, and/or the Risk Management Committee, and/or the Risk Committee and/or the Board, where appropriate, so as to assist them to discharge their duty of oversight of risk management activities. The scope of BEA's risk management framework covers major types of risk, including credit risk, interest rate risk, legal risk, liquidity risk, market risk, compliance risk, operational risk, reputation risk, strategic risk and technology risk.

The Asset and Liability Management Committee ("**ALCO**") sets the strategy and policy for managing interest rate risk and the means for ensuring that such strategy and policy are implemented. Interest rate risk is managed daily by the Treasury Markets Division, while the Risk Management Division is responsible for monitoring interest rate related activities to ensure compliance with the related bank

policies, rules and regulations. The Internal Audit Division performs periodic review, to make sure the interest rate risk management functions are effectively carried out.

For the interest rate risk in the banking book, gap analysis is carried out on the maturity and repricing characteristics of the Group's both on-and-off balance sheet positions in the banking book. Repricing gap position controls and sensitivity limits from both earnings and economic value perspectives are set to control the Group's interest rate risk exposure in the banking book. The ALCO monitors the results thereof and decides remedial action if required.

In addition to the above, the ALCO sets the strategy and policy for managing liquidity risk. Funding projection is regularly conducted and reviewed to ensure BEA can meet all cash flow obligations.

The stock of HQLA is maintained and can be used to fund unexpected and material cash outflows in case needed. Liquidity ratios are closely monitored to ensure all liquidity regulatory requirements are being met.

Credit Policies

The Group's primary credit approval body is the Credit Committee, which comprises two Deputy Chief Executives, Group Chief Risk Officer, Head of China Division and Co-Head of Credit Risk Management Department. The Credit Committee has overall responsibility for the Group's credit policies and oversees the credit quality of the Group's advance portfolio. BEA has also established an Approval Centre, which comprises Co-Head of Credit Risk Management Department and other experienced senior managers of Risk Management Division, acting as an independent unit to approve credit according to the delegated lending authority. Under the oversight of the Credit Committee, Approval Centre and other officers of the Group are authorised to approve credit based on the size of the advance, the collateral provided, the credit standing of the applicant and other prescribed credit guidelines. The following table sets out the credit approval limits for various types of advances in Hong Kong:

	Hong Kong
	(in HK\$ millions)
Credit Committee.....	Any amount
Approval Centre.....	Up to 600
Other lending officer	Up to 400

The Credit Risk Management Department under the Risk Management Division is responsible for reviewing credit applications for significant loan amounts. When a customer fills out an advance application or requests a credit line, the branch or lending department account officer collects information through customer interviews, documentation requests and feasibility studies as well as other sources. After a thorough evaluation, the application is submitted to the appropriate person having sufficient lending authority for approval.

The Group has adopted lending policies with loan-to-value limits which apply to advances secured by a legal charge over an asset or property. Loan-to-value ratios on owner-occupied residential mortgages in Hong Kong (excluding loans for the purchase of flats in HOS, PSPS, TPS and the Mortgage Insurance Programme) are limited to 50 per cent. (for property value at or above HK\$10 million); 60 per cent. (for property value below HK\$10 million, and maximum loan amount being capped at HK\$5 million). Loan-to-value ratios on non-owner occupied residential mortgages and commercial / industrial mortgages are limited to 50 per cent. Lower loan-to-value limits will be applied to applicants whose income is mainly derived from outside Hong Kong. Underlying property values are based on the lower of the purchase price and the independently appraised value of the property.

Besides, the Group's lending policies limit the maximum customer debt servicing ratio to 30 per cent. to 50 per cent. on base scenario, while stress test on the borrower's repayment ability by assuming a rise in interest rate of 3 per cent. is imposed for property mortgages.

Meanwhile, for property mortgages under the approach of assessment by net worth of the borrower (with the asset-to-total debt obligation ratio of the borrower of at least 100 per cent.), the loan-to-value ratio is limited to 40 per cent.

Hong Kong has adopted the Basel II Accord capital adequacy standards from the beginning of 2007. In December 2007, BEA received the approval from the Monetary Authority to adopt the advanced approaches under the Basel II Accord, namely the Foundation Internal Ratings-based (“**IRB**”) Approach for credit risk, the Internal Models Approach for market risk and the Standardised Approach for operational risk. Since 31 December 2007, the Group has used the IRB Approach to determine its credit risk weighted assets for calculating the CAR. The business benefits of adopting these advanced approaches are significant, including enhanced risk management, more efficient use of capital and higher transparency in the disclosure of risk-related information.

In December 2010, the Basel Committee issued the final Basel III regulatory framework presenting the Committee’s reforms to strengthen capital and liquidity standards in order to promote a more resilient banking sector.

In line with the international implementation timetable set by the Basel Committee, the Basel III rules pertaining to capital standards have been enacted into local banking regulations and implemented in Hong Kong on 1 January 2013.

ASSET QUALITY

Overview

The performance of the Hong Kong economy is heavily dependent on the property sector, and, as at 31 December 2019, 2020 and 2021, loans for the purchase of other residential properties and advances for property investment and development (excluding loans for the purchase of flats in HOS, PSPS and TPS) in Hong Kong together accounted for approximately 32.3 per cent., 32.3 per cent. and 32.1 per cent., respectively, of the Group’s total loans and advances to customers. As a result, the Group’s asset quality is vulnerable to deflation in property prices. The ability of borrowers, including homeowners, to make timely repayment of their advances may be adversely affected by rising interest rates or a slowdown in economic growth. See “*Investment Considerations — Considerations Relating to the Group — Hong Kong, PRC and Global Economies*” and “*Investment Considerations — Considerations Relating to the Group — Interest Rate Risk*”. As at 31 December 2019, 2020 and 2021, home mortgage advances (including loans for the purchase of flats in HOS, PSPS and TPS and loans for the purchase of other residential properties) in Hong Kong amounted to approximately HK\$90,443 million, HK\$88,895 million and HK\$92,869 million, respectively, or approximately 17.8 per cent., 17.3 per cent. and 16.9 per cent., respectively, of the Group’s total loans and advances to customers and was one of the most significant segments of the Group’s total loans and advances to customers. See “*Investment Considerations — Considerations Relating to the Group — Concentration Risk — Exposure to the Property Market*”.

The Group is committed to expanding its business and operations in Mainland China and remains susceptible to risks associated with lending in Mainland China, which could lead to an increase in the Group’s classified advances. As at 31 December 2019, 2020 and 2021, the Group’s Mainland China exposure was approximately 25.8 per cent., 24.7 per cent. and 27.3 per cent., respectively, of the Group’s total advances and its Mainland China impaired advances accounted for approximately 3.8 per cent., 3.1 per cent. and 1.5 per cent., respectively, of its total Mainland China exposure. See “*Investment Considerations — Considerations Relating to the Group — Exposure to the Mainland China Market*”.

Advance Classification

The Group classifies the advances into the following grading:

- Grades 1 through 15 — pass;
- Grade 16-17 — special mention;
- Grade 18 — sub-standard;
- Grade 19 — doubtful; and

- Grade 20 — loss.

In classifying the individual borrowers into one of the 20 gradings, the Group considers relevant factors including: (i) estimation of probability of default from the internal rating systems comprising statistical measurement and expert judgment with consideration of quantitative and qualitative elements such as the borrower's financial condition, the management and operation of the borrower's business, market conditions affecting the borrower's industry and demographic characteristics; and (ii) the payment history of the borrower.

BEA believes that its advance classification policy is in compliance with the Banking Ordinance and the applicable guidelines of the Monetary Authority.

Recognition of Impaired Loans

The Group's impaired loans are sub-divided into three categories: "sub-standard" (Grade 18), "doubtful" (Grade 19) and "loss" (Grade 20). When the repayment of an advance is uncertain (for example, there is a past-due record of 90 days or more), the Group downgrades the advance to sub-standard. If full recovery of the advance is in doubt and the Group expects to sustain a loss of principal or interest, the Group classifies the advance as doubtful. Loss advances are those which are considered non-collectible after exhausting all collection efforts, such as the realisation of collateral and the institution of legal proceedings, and the liquidator or official receiver has ascertained the relevant recovery ratio.

Impairment of Loans and Receivables

Commencing 1 January 2018, HKFRS 9 has been adopted for impairment assessment. Stage 1 or stage 2 impairment assessment is applied to non-impaired credit exposures while stage 3 assessment is applied to impaired credit exposures.

Stage 1 financial assets are comprised of all non-impaired financial assets which have not experienced a significant increase in credit risk ("**SICR**") since initial recognition. The Group recognises 12-month expected credit losses ("**ECL**") for stage 1 financial assets. In assessing whether credit risk has increased significantly, the Group compares the default risk as at the reporting date, with the default risk as at the date of its initial recognition.

Stage 2 financial assets are comprised of all non-impaired financial assets which have experienced a SICR since initial recognition. The Group recognises lifetime ECL for stage 2 financial assets. In subsequent reporting periods, if the credit risk of the financial assets improves such that there is no longer a SICR since initial recognition, the financial assets will be transferred back to stage 1 and the Group will recognise 12-month ECL.

Stage 3 financial assets are those that the Group has classified as credit-impaired. The Group recognises lifetime ECL for all stage 3 financial assets. The Group classifies financial assets as impaired when one or more events, which have a detrimental impact on the estimated future cash flows of the financial assets have occurred after its initial recognition. Evidence of impairment includes indications that the borrower is experiencing significant financial difficulties, or a default or delinquency (i.e. past-due record of 90 days or more) has occurred.

Top Ten Impaired Loans

As at 31 December 2021, the Group's ten largest impaired loans accounted for approximately 0.85 per cent. of its total advances and approximately 78.0 per cent. of its gross impaired loan portfolio. The majority of the borrowers of such ten largest impaired loans were engaged in property investment business and accounted for approximately 52.3 per cent. of the aggregate exposure relating to such ten largest impaired loans as at 31 December 2021. As at 31 December 2021, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$130 million to approximately HK\$1,040

million per impaired loan, and amounted to approximately HK\$4,662 million in the aggregate. As at 31 December 2020, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$126 million to approximately HK\$1,253 million per impaired loan, and amounted to approximately HK\$4,919 million in the aggregate. As at 31 December 2019, the Group's exposure under its ten largest impaired loans ranged from approximately HK\$147 million to approximately HK\$949 million per impaired loan, and amounted to approximately HK\$4,592 million in the aggregate.

Impaired Loans That Have Been Restructured

The Group's classified advances/impaired loans are restructured on a case-by-case basis, subject to the approval of the appropriate lending parties for both the restructured limits and recovery measures. BEA believes that the Group maintains a prudent reclassification policy. For example, if payments under an advance are rescheduled, that advance will not be reclassified and will remain under adverse classification (either as a "sub-standard" or "doubtful" advance) and may only be upgraded to a special mention advance if the revised payment terms are honoured for a period of six months, in the case of monthly payments (including both interest and principal), and 12 months, in the case of non-monthly payments.

As at 31 December 2019, 2020 and 2021, the Group's impaired advances to customers including those that have been restructured through the rescheduling of principal repayments and deferral or waiver of interest were as follows:

	As at 31 December		
	2019	2020	2021
	(in HK\$ millions, except percentages)		
Gross impaired advances to customers	6,189	6,465	5,977
Specific provisions/Individual impairment loss allowance	2,752	2,976	3,177
Net impaired advances to customers	<u>3,437</u>	<u>3,489</u>	<u>2,800</u>
Gross impaired advances to customers as a percentage of total advances to customers.....	1.2%	1.3%	1.1%
Net impaired advances to customers as a percentage of total advances to customers.....	0.7%	0.7%	0.5%

In addition, there may be circumstances when a rescheduled loan is taken up by a new obligor. Under BEA's credit policy, if a rescheduled loan is taken up by a new obligor, BEA may regard it as a new loan (i.e. no longer a rescheduled loan) provided that (a) it is restructured with the new obligor on commercial terms; (b) the agreed haircut, if any, has been fully written off upon completion of restructuring; and (c) it is a genuine restructuring and not merely a transfer of an overdue loan among the borrower's group or related companies. Before entering into the restructuring, BEA must be satisfied with the creditworthiness and repayment ability of the new obligor. For example, the new obligor must have sufficient assets that can generate adequate funds to repay the outstanding debt.

The Group's measured-at-amortised-cost debt securities included listed and unlisted debt securities. As at 31 December 2019, 2020 and 2021, the book value of these securities were approximately HK\$18,305 million, HK\$15,721 million and HK\$16,546 million, respectively, which represented approximately 11.2 per cent., 10.9 per cent. and 11.2 per cent. of the Group's total investments securities, respectively. These debt securities included both Hong Kong dollar and U.S. dollar denominated bonds and notes. See "*Asset and Liability Management*".

ASSET AND LIABILITY MANAGEMENT

The Group's objective on asset and liability management is to maximise its net interest income and return on assets and equity while providing for liquidity and effective risk management. Recommendations to management on liquidity, interest rate policy and other significant asset and liability management matters are made by ALCO, which consists of Co-Chief Executives, two Deputy Chief Executives, Group Chief Risk Officer, Group Chief Financial Officer and Head of Treasury Markets Division. A representative from Asset & Liability Management Department acts as the secretary of ALCO.

One of the key components of the Group's asset and liability management is the management of market risk, interest rate risk and liquidity risk. The Group's policies regarding the management of these risks are formulated, and their implementations are coordinated, by ALCO. ALCO meets on a bi-weekly basis to formulate the asset and liability strategies, such as the deposit rates and advance pricing strategies. The Treasury Markets Division is responsible for the daily operating management of the discretionary portion of the Group's assets and liabilities within the approved internal limits. The derivative transactions entered into by the Group are substantially in response to customer demands, in addition to BEA book hedging, and no significant proprietary trading positions are maintained by the Group.

Interest rate risk primarily results from the timing differences in the repricing of interest rate sensitive assets, liabilities, and off balance sheet items in the banking book. In determining the level of interest rate risk, assessments are made for the gap risk, basis risk and option risk. The Group manages the interest rate risk in the banking book primarily by focusing on repricing mismatches. Gap analysis provides a static view of the maturity and repricing characteristics of the Group's interest rate sensitive assets, liabilities, and off balance sheet positions. Repricing gap position limits are set to control the Group's interest rate risk.

Sensitivity analysis in relation to the impact of changes in interest rates on earnings and economic value is assessed regularly through a number of hypothetical interest rate shock scenarios prescribed by the Monetary Authority. Sensitivity limits are set to control the Group's interest rate risk exposure under both earnings and economic value perspectives. The results are reported to ALCO on a regular basis.

The following table sets forth the interest rate shock impact to the Group according to the Monetary Authority predefined scenarios as at 31 December 2021:

Liquidity pertains to the Group's ability to meet obligations as they fall due. To manage liquidity risk, the Group has established a liquidity risk management policy which is reviewed by ALCO and approved by BEA's Board of Directors. The Group measures its liquidity through various risk metrics including but not limited to LCR, NSFR, loan-to-deposit ratio and the maturity mismatch ratio.

The Group monitors its liquidity position on a daily basis to ensure the Group's funding needs can be met and the statutory ratios for monitoring and managing liquidity risk are complied with. The Group's consolidated average LCR was approximately 182.4 per cent. for the fourth quarter of 2021, which is above the statutory minimum requirement of 100 per cent. As at 31 December 2021, the Group's consolidated NSFR was approximately 115.6 per cent., which is above the statutory minimum requirement of 100 per cent.

As at 31 December 2019, 2020 and 2021, approximately 80.6 per cent., 77.7 per cent. and 78.1 per cent., respectively, of the Group's advances were made at floating rates of interest. The Group's interest-earning assets have floating interest rates fixed by reference to BEA's best lending rate, prime rate and interbank rates, and the Group's interest-bearing liabilities have floating interest rates by reference to interbank rates and savings deposit rates. ALCO continuously monitors the gap between HIBOR and the prime rate and, consequently, the impact on Group's net interest income. If the Group's net interest income declines due to the squeeze of the spread between BEA's prime rate and HIBOR, ALCO may recommend the adjustment of BEA's prime rate charged on advances and/or the expansion of higher-yield lending business.

The following table sets out the Group's average balances of interest-earning assets and interest-bearing liabilities, interest and related average interest rates for the years ended 31 December 2019, 2020 and 2021. Average balances of interest-earning assets and interest-bearing liabilities for the years ended 31 December 2019, 2020 and 2021 are based on the arithmetic mean of the respective balances at the beginning and the end of such period.
