Remarks:

1. An APR is a reference rate which includes the basic interest rates and other fees and charges of a product, such as each instalment and handling fee (as applicable), expressed as an annualised rate. The APR is calculated according to the standard method set out in the Code of Banking Practice and is rounded up or down to the nearest 2 decimal places. Due to differences in the monthly flat rate paid by individual cardholders, their actual APR may vary. To find out your actual APR, please refer to the promotional materials and the BEA website or call the BEA customer service hotline.
2. If the Late Charge is posted to the BEA Credit Card account, the Returned Cheque /Rejected Autopay Charge for the same Statement Cycle will not be levied.
