Important Notice:

Investment involves risks. The prices of securities may move up or down, and may become valueless. There is an inherent risk that you may incur losses rather than gain profit as a result of buying and selling securities. It is possible that you may lose some or all of your investment as a result of conducting securities transaction. Information contained herein is for reference only. It does not constitute any offer, solicitation, or recommendation for the purchase or sale of any investment products or the provision of investment services.

The value of your investment portfolio or your foreign currency or USD deposit will be subject to the risk of exchange rate fluctuation. If you choose to convert your investment portfolio or your foreign currency or USD deposit to other currencies at an exchange rate that is less favourable than the exchange rate in which you made your original conversion to build that investment portfolio or foreign currency or USD, you may suffer loss in principal.

Investing in foreign market securities carries foreign exchange risk and additional risks not generally associated with securities in the domestic market. The value or income (if any) of foreign market securities may be volatile due to the fluctuation of exchange rate and adversely affected by changes in many factors. Investors should read in detail the relevant Risk Disclosure Statements before making any investment decision.
