

BEA (MPF) Industry Scheme Fund Fact Sheet

東亞（強積金）行業計劃基金概覽

As of 截至 31/03/2026

IMPORTANT :

- BEA (MPF) Industry Scheme offers different constituent funds (i) investing in two or more approved pooled investment funds and/or approved index-tracking funds which invest in equities or bonds; or (ii) making direct investments. Each constituent fund has a different risk profile.
- BEA (Industry Scheme) MPF Conservative Fund does not provide any guarantee of the repayment of capital.
- You should consider your own risk tolerance level and financial circumstances before investing in the MPF default investment strategy ("DIS"). You should note that the BEA (Industry Scheme) Core Accumulation Fund and the BEA (Industry Scheme) Age 65 Plus Fund under BEA (MPF) Industry Scheme (collectively the "DIS Funds") may not be suitable for you, and there may be a risk mismatch between the DIS Funds and your risk profile (the resulting portfolio risk may be greater than your risk preference). You should seek financial and/or professional advice if you are in doubt as to whether the DIS is suitable for you, and make the investment decision most suitable for you taking into account your circumstances.
- You should note that the implementation of the DIS may have an impact on your MPF investments and accrued benefits. You should consult with the trustee if you have doubts on how you are being affected.
- Investment involves risks. You should consider your own risk tolerance level and financial circumstances before making any investment choices. In your selection of constituent funds, if you are in doubt as to whether a certain constituent fund is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and choose the constituent fund(s) most suitable for you taking into account your circumstances.
- You should not invest based on this document alone. Investments inherently involve risk and the unit prices of the constituent funds may go down as well as up. Past performance stated in this document is not indicative of future performance. For further details including the product features, fees and charges, and the risk factors involved, please refer to the MPF Scheme Brochure of the BEA (MPF) Industry Scheme.
- Important - If you are in doubt about the meaning or effect of the contents of the MPF Scheme Brochure and this document, you should seek independent professional advice.

重要事項：

- 東亞（強積金）行業計劃提供不同的成分基金：(i) 投資於兩個或以上的核准匯集投資基金及 / 或核准緊貼指數基金（投資於股票或債券）；或 (ii) 直接投資。各成分基金有不同的風險承擔。
- 東亞（行業計劃）強積金保守基金並不提供任何退還資本的保證。
- 投資強積金預設投資策略前，你應衡量個人可承受風險的程度及財務狀況。你應注意東亞（強積金）行業計劃的東亞（行業計劃）核心累積基金及東亞（行業計劃）65歲後基金（統稱為「預設投資策略基金」）不一定適合你，且預設投資策略基金及你的風險取向之間或存在風險錯配（即投資組合之風險或會大於你的風險承受能力）。如你就預設投資策略是否適合你有任何疑問，你應徵詢財務及 / 或專業人士之意見，並因應你的個人情況而作出最適合你的投資決定。
- 你應注意，實施預設投資策略後或會影響你的強積金投資及累算權益。如你就你或會受到之影響有任何疑問，你應向受託人查詢。
- 投資涉及風險。在作出投資選擇前，閣下必須衡量個人可承受風險的程度及財政狀況。在選擇成分基金時，如閣下對若干成分基金是否適合閣下（包括該成分基金是否符合閣下的投資目標）有任何疑問，閣下應諮詢財務及 / 或專業人士的意見，並因應閣下的個人狀況而選擇最適合閣下的成分基金。
- 閣下不應只根據此文件作出投資。投資附帶風險，成分基金單位價格可跌可升。此文件所載的過往表現不能作為日後表現的指標。有關詳情，包括產品特點、收費及所涉及的風險因素，請參閱東亞（強積金）行業計劃的強積金計劃說明書。
- 重要通知：若閣下對強積金計劃說明書及本文件內容的涵義或意思有疑問，應諮詢獨立專業意見。

BEA (Industry Scheme) Growth Fund

東亞 (行業計劃) 增長基金

Investment Objective 投資目標

To achieve long-term capital appreciation within a controlled risk/return framework through investing mainly in global equities with some exposure in global debt securities/money market instruments.
透過以全球股票為投資對象，亦有部分比重投資於全球債務證券/貨幣市場投資工具，在波動程度備受管理範圍內，儘量為投資提供長期資本增值。

Portfolio Allocation¹⁰ 投資組合分佈¹⁰

Equity 股票 72.7% Bond 債券 18.0% Cash & Others⁴ 現金及其他⁴ 9.4%

Commentary 評論

U.S. fundamental data suggests the market is cooling, but remains resilient. Middle East tensions pushed up oil prices and reignited stagflation concerns, weighing broadly on global fixed income as markets repriced the rate outlook. The Federal Reserve left policy rates unchanged in March and signaled that rates are likely to stay higher for longer. Europe's 2026 GDP growth forecasts were revised lower, reflecting weak consumer confidence. Higher energy prices, supply-chain disruptions, and subdued demand dragged the composite PMI down to 50.7 in March. The European Central Bank kept rates unchanged in March. Japan domestic growth remained moderate, with core inflation rising to 1.8% in March. The Bank of Japan ("BOJ") expects higher energy costs to add upside pressure to inflation. The BOJ left the short-term policy rate at 0.75% and maintained an accommodative policy stance. China's first quarter GDP grew 5%, while March Consumer Price Index rose 1% and Purchasing Price Index increased 0.5% year on year, turning positive for the first time in years. With policy support, a manufacturing recovery, and firmer industrial prices gradually becoming more visible, China's deflationary pressure appears to be easing, though stronger domestic demand is still needed. Higher oil prices pushed up inflation expectations, weighing broadly on global fixed income as markets repriced the rate outlook.

Commentary 評論

Asian equities ex-Japan has recorded its worst performing month in March since October 2008 on the back of heavy profit taking and de-grossing following U.S. and Israel military attack on Iran. The market pullback was led by South Korea and India. The disruption of the Strait of Hormuz drove oil prices up, sparking fear of possible stagflation. South Korean equities were broadly weak, as rising Middle East tensions, higher oil prices, and macro uncertainty, together with Korea's sensitivity as an energy importer, triggered heavy profit-taking, deleveraging, and rotation into defensive names. Indian equities also posted broad-based declines, led by Financials. As an oil importer, India's macro outlook was pressured by Middle East tensions and higher oil prices. Indian rupee weakness, continued foreign investor outflows, and concerns that inflation could hurt corporate earnings added to the market weakness.

受美國和以色列對伊朗發動軍事攻擊後，投資者大量獲利回吐和拋售的影響，亞洲股市 (日本除外) 於3月創2008年10月以來的最大跌幅，主要由南韓及印度帶動。霍爾木茲海峽的交通中斷推高了油價，並引發了市場對滯脹的擔憂。受中東局勢緊張、油價上升及宏觀不確定性，加上南韓作為能源進口國的結構性因素影響，南韓股市表現疲弱，市場出現大幅獲利回吐、去槓桿及資金轉向防禦性股份。印度股市亦錄得廣泛跌幅，金融板塊領跌。作為石油進口國，中東局勢及油價上升對其宏觀前景構成壓力。同時，印度盧比走弱、外資持續流出，以及通脹影響企業盈利的憂慮，均加劇股市調整。

BEA (Industry Scheme) Greater China Equity Fund 東亞 (行業計劃) 大中華股票基金

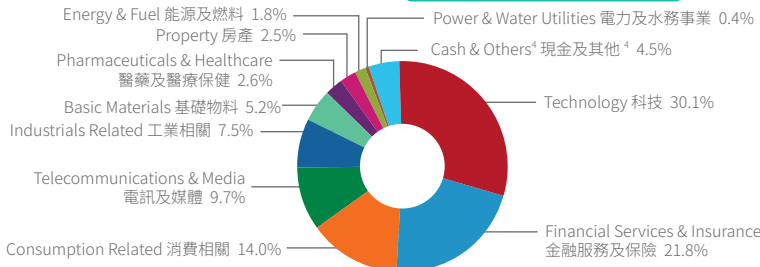

Investment Objective 投資目標

To provide investors with long-term capital growth within a controlled risk/return framework through investing mainly in listed securities of companies that derive or are expected to derive a significant portion of their revenues from goods produced or sold, investments made or services performed in Greater China, which includes the People's Republic of China (PRC), the Special Administrative Regions of Hong Kong and Macau and Taiwan (the "Greater China Securities").

透過主要投資於在大中華區 (包括中華人民共和國 (中國)、香港特別行政區、澳門特別行政區及台灣) 進行產品生產或銷售、投資或提供服務, 以作為或預期作為其主要收入來源之公司的上市證券 (「大中華區證券」), 在波動程度備受管理範圍內, 為投資者提供長期資本增值。

Commentary 評論

China's macro backdrop remained stable in 1Q26, with export resilience and a strong trade surplus continuing to offset cyclical weakness in domestic demand. 1Q26 GDP grew 5% year on year, while March Consumer Price Index rose 1% and Purchasing Price Index increased 0.5% year on year, turning positive for the first time in years. With policy support, a manufacturing recovery, and firmer industrial prices gradually becoming more visible, China's deflationary pressure appears to be easing, though stronger domestic demand is still needed for a more balanced recovery.

Hong Kong equities delivered a mixed performance in the first quarter. Although trading activity remained robust, the main indices still fell by about 3% over the quarter, mainly due to weaker risk appetite and sector rotation. Hong Kong's IPO market was a standout, with about HK\$110 billion raised in Q126, ranking first globally by funds raised.

Taiwan equities experienced broad-based sell-off amid Middle East tension, with rotation into defensive sectors such as Telecoms and Consumer Staples. High-beta sectors such as Information Technology and Materials remained among the top performers, supported by still-strong demand for AI infrastructure.

中國第一季度宏觀經濟整體保持穩定, 出口韌性及強勁貿易順差持續對內需周期性壓力。第一季國內生產總值年增5%, 3月消費者物價指數較去年同期上漲1%, 而生產者物價指數較去年同期上漲0.5%, 多年來首次轉正。隨著政策支持、製造業復甦和工業價格走強等因素的逐步顯現, 中國的通脹壓力似乎正在緩解, 但要實現更均衡的復甦, 仍需更強勁的內需支持。

香港股市第一季表現不一。儘管交易活躍, 主要指數當季仍下跌約3%, 主要原因是風險偏好減弱和板塊輪動。香港首次公開招股市場表現突出, 第一季募資約1,100億港元, 以募資額計算位居全球第一。

受中東緊張局勢影響, 台灣股市遭遇全面拋售。資金轉向電訊及消費必需品等防禦性板塊。受惠於人工智能基礎設施的需求依然強勁, 資訊科技與材料等高啤打系數板塊表現依然居於領先位置。

Commentary 評論

China's macro backdrop remained stable in 1Q26, with export resilience and a strong trade surplus continuing to offset cyclical weakness in domestic demand. 1Q26 GDP grew 5.0% year on year, while March Consumer Price Index rose 1% and Purchasing Price Index increased 0.5% year on year, turning positive for the first time in years. With policy support, a manufacturing recovery, and firmer industrial prices gradually becoming more visible, China's deflationary pressure appears to be easing, though stronger domestic demand is still needed for a more balanced recovery.

Hong Kong equities delivered a mixed performance in the first quarter. Although trading activity remained robust, the main indices still fell by about 3% over the quarter, mainly due to weaker risk appetite and sector rotation. Hong Kong's IPO market was a standout, with about HK\$110 billion raised in Q126, ranking first globally by funds raised.

中國第一季度宏觀經濟整體保持穩定, 出口韌性及強勁貿易順差持續對內需周期性壓力。第一季國內生產總值年增5%, 消費者物價指數較去年同期上漲1%, 生產者物價指數較去年同期上漲0.5%, 多年來首次轉正。隨著政策支持、製造業復甦和工業價格走強等因素的逐步顯現, 中國的通脹壓力似乎正在緩解, 但要實現更均衡的復甦, 仍需更強勁的內需支持。

香港股市第一季表現分化, 雖然成交維持強勁, 但主要指數季內仍錄得約3%跌幅, 主要受風險偏好回落及板塊輪動所影響。香港在首次公開招股市場表現突出, 第一季集資約1,100億港元, 全球排名領先。

Commentary 評論

Offshore RMB strengthened against the U.S. dollar in a challenging external environment, appreciating about 1.2% in 1Q26 to around 6.89. The move was driven by Fed rate cuts, broad USD weakness, and stable domestic activity, while the People's Bank of China also managed volatility within the 2% intervention range. HK dollar rates outperformed U.S. rates during the month of March. The Hong Kong Monetary Authority's aggregate balance remained stable at HK\$54 billion. The HK dollar remained in the weak band, reflecting the interest-rate differential and the lack of strong inflows. It is expected that HK dollar rates to remain range-bound and underperform U.S. rates after the recent period of relative strength. It is also expected HK dollar to stay in the weak band.

離岸人民幣匯率在充滿挑戰的外圍環境下走強，第一季兌美元匯率上漲約1.2%，升至6.89水平。這一走勢主要受美聯儲減息、美元普遍走弱以及國內經濟穩定所帶動，而人民銀行亦在約2%的波動區間內進行調節以維持匯率穩定。港元掉期利率3月表現優於美元。香港金融管理局總資產餘額維持穩定，為540億港元。受利差影響，且港元流入資金不多，港元匯率仍處於弱方區間。港元掉期利率預期在經歷了近期的相對強勢期後，將維持區間波動，表現並遜於美元利率。我們預期港元匯率將維持在弱方區間。

BEA (Industry Scheme) MPF Conservative Fund ("MPF Conservative Fund") does not provide any guarantee of the repayment of capital. Commentary 評論

U.S. fundamental data suggests the market is cooling, but remains resilient. Middle East tensions pushed up oil prices and reignited stagflation concerns, weighing broadly on global fixed income as markets repriced the rate outlook. The Federal Reserve left policy rates unchanged in March and signaled that rates are likely to stay higher for longer. Europe's 2026 GDP growth forecasts were revised lower, reflecting weak consumer confidence. Higher energy prices, supply-chain disruptions, and subdued demand dragged the composite PMI down to 50.7 in March. The European Central Bank kept rates unchanged in March. Japan domestic growth remained moderate, with core inflation rising to 1.8% in March. The Bank of Japan ("BOJ") expects higher energy costs to add upside pressure to inflation. The BOJ left the short-term policy rate at 0.75% and maintained an accommodative policy stance. China's first quarter GDP grew 5%, while March Consumer Price Index rose 1% and Purchasing Price Index increased 0.5% year on year, turning positive for the first time in years. With policy support, a manufacturing recovery, and firmer industrial prices gradually becoming more visible, China's deflationary pressure appears to be easing, though stronger domestic demand is still needed. Higher oil prices pushed up inflation expectations, weighing broadly on global fixed income as markets repriced the rate outlook. Higher energy prices, supply-chain disruptions, and subdued demand dragged the composite PMI down to 50.7 in March. The European Central Bank kept rates unchanged in March. Japan domestic growth remained moderate, with core inflation rising to 1.8% in March. The Bank of Japan ("BOJ") expects higher energy costs to add upside pressure to inflation. The BOJ left the short-term policy rate at 0.75% and maintained an accommodative policy stance. China's first quarter GDP grew 5%, while March Consumer Price Index rose 1% and Purchasing Price Index increased 0.5% year on year, turning positive for the first time in years. With policy support, a manufacturing recovery, and firmer industrial prices gradually becoming more visible, China's deflationary pressure appears to be easing, though stronger domestic demand is still needed. Higher oil prices pushed up inflation expectations, weighing broadly on global fixed income as markets repriced the rate outlook. Reason(s) for Material Difference between the Annualised Return and Reference Portfolio⁹: N/A

美國基本數據顯示市場正在降溫，但仍具韌性。中東衝突推高油價，引發滯脹憂慮，環球固定收益資產全面受壓，市場對利率前景全面重新評估。聯儲局於3月維持政策利率不變，並表明利率將在更長時間內維持高位。歐洲2026年國內生產總值增長預期被下調，反映消費者信心疲弱。能源價格飆升、供應鏈中斷和需求疲弱，3月綜合採購經理人指數降至50.7。歐洲央行在3月維持利率不變。日本國內增長保持溫和，3月核心通脹上漲至1.8%，日本央行預期能源成本增加，將為通脹帶來上行壓力。央行於3月會議維持短期利率於0.75%，並表示政策保持寬鬆立場。中國第一季國內生產總值年增5.0%，3月消費者物價指數較去年同期上漲1%，而生產者物價指數較去年同期上漲0.5%，多年來首次轉正。隨著政策支持、製造業復甦和工業價格走強等因素的逐步顯現，中國的通脹壓力似乎正在緩解，但仍需更強勁的內需支持。

年度回報與參考投資組合的重大差異理由⁹：不適用

Source : BEA Union Investment Management Limited and Bank of East Asia (Trustees) Limited
資料來源 : 東亞聯豐投資管理有限公司及東亞銀行 (信託) 有限公司

- 1a The fund risk indicator shows the annualised standard deviation based on the monthly rates of return of the fund over the past 3 years to the reporting date of this fund fact sheet. Constituent funds with performance history of less than 3 years since inception to the reporting date of this fund fact sheet are not required to show the fund risk indicator. The annualised standard deviation of the constituent funds are provided and reviewed by BEA Union Investment Management Limited quarterly.
- 基金風險標記是以年度標準差表示，數據是根據截至該基金概覽匯報日，過往3年之按月回報率計算。如成分基金由成立日期至該基金概覽匯報日的表現期少於3年，則無須列出基金風險標記。成分基金的年度標準差由東亞聯豐投資管理有限公司每季提供及覆核。
- 1b The risk class is to be assigned to each constituent fund according to the seven point risk classification below based on the latest fund risk indicator of the constituent fund. 每個成分基金均須根據該成分基金的最新基金風險標記，劃分為以下7個風險級別的其中一個風險級別。

Risk Class 風險級別	Fund Risk Indicator 基金風險標記	
	Equal or above 相等或以上	Less than 少於
1	0.0%	0.5%
2	0.5%	2.0%
3	2.0%	5.0%
4	5.0%	10.0%
5	10.0%	15.0%
6	15.0%	25.0%
7	25.0%	

The risk class is prescribed by the Mandatory Provident Fund Schemes Authority according to the Code on Disclosure for MPF Investment Funds and it has not been reviewed or endorsed by the Securities and Futures Commission. The above is for reference only, while the risk class of the fund may change from time to time. For further details including the product features, fees and charges, and risk factors involved, please refer to the MPF Scheme Brochure of the BEA (MPF) Industry Scheme.

風險級別由強制性公積金計劃管理局按照《強積金投資基金披露守則》所規定，並未經香港證券及期貨事務監察委員會審閱或認可。由於成分基金的風險級別或會不時變動，上述只供參考。有關詳情，包括產品特點、收費及所涉及的風險因素，請參閱東亞(強積金)行業計劃的強積金計劃說明書。

- 2a Performance information of the constituent funds will be presented only if they have investment track records of not less than 6 months. 成分基金必須有最少6個月的投資往績紀錄，方會呈列業績表現資料。
- 2b If the fund performance is less than 1 year, the calendar year return will be calculated from the launch date to that calendar year-end. 如基金表現少於1年，該基金曆年回報會以推出日至該曆年年底計算。
- 3 The Fund Expense Ratio ("FER") is up to 31st March, 2025. It is not necessary to show a FER for a constituent fund where the period between the reporting date of the fund fact sheet and the inception date for the fund is less than 2 years. 基金開支比率截至2025年3月31日。如成分基金的基金概覽匯報日與基金的成立日期相隔不足兩年，則無須提供該基金的基金開支比率。
- 4 The term "cash and others" should be used to denote cash at call, and operating items such as account payables and account receivables (where relevant). "現金及其他"一詞應指通知現金，及類似應付款項和應收款項的營運項目(如適用)。
- 5 This constituent fund is denominated in HKD only and not in RMB. Its investment in RMB deposits and RMB debt instruments will be subject to additional currency risks. In particular, RMB is currently not a freely convertible currency and is subject to foreign exchange controls and repatriation restrictions imposed by the Chinese government. Also, its investment in offshore RMB debt securities will be subject to additional market / liquidity risks. There is currently no active secondary market for offshore RMB debt securities and therefore, this constituent fund may need to hold investments until maturity date of such offshore RMB debt securities. In addition, although the issuance of offshore RMB debt securities has increased substantially in recent years, supply still lags the demand for offshore RMB debt securities. As a result, new issues of offshore RMB debt securities are usually oversubscribed and may be priced higher than and / or trade with a lower yield than equivalent onshore RMB debt securities. Currently, most of the offshore RMB debt securities available in the market may not meet the requirements under Schedule 1 to the Mandatory Provident Fund Schemes (General) Regulation and therefore, the offshore RMB debts securities available for investment by this constituent fund may be limited which may result in concentration of credit risk.

此成分基金只以港幣及非以人民幣計值，其於人民幣存款及人民幣債務投資工具的投資，將須承受額外的貨幣風險。尤其是，人民幣目前並非自由兌換的貨幣，須受制於中國政府所施加的外匯管制及資金調限制。另外，其於離岸人民幣債務證券的投資將須承受額外市場流動性風險。目前，由於離岸人民幣債務證券並無活躍的二級市場，此成分基金可能需持有投資直至到期日。此外，儘管離岸人民幣債務證券的發行近年來已大幅增加，惟離岸人民幣債務證券的供應仍落後於需求。因此，新發行的離岸人民幣債務證券一般出現起碼認購，而相比同等的非離岸人民幣債務證券，新發行的離岸人民幣債務證券訂價可能較高及/或以較低收益率買賣。目前，市場上可提供的離岸人民幣債務證券大多數可能不符合《強制性公積金計劃(一般)規例》附表1所載的規定，因此，此成分基金可投資的離岸人民幣債務證券可能有限，或會導致信貸風險集中。

6. Fees and charges of an MPF conservative fund can be deducted from either (i) the assets of such fund or (ii) member's account by way of unit deduction. Before 1st April, 2022, BEA (Industry Scheme) MPF Conservative Fund uses method (ii) and, its unit prices and net asset value quoted did not reflect the impact of fees and charges. From 1st April, 2022, the fees and charges deduction method has changed from (ii) to (i) and, therefore, its unit prices and net asset value quoted have reflected the impact of fees and charges for the period starting from 1st April, 2022.
- All of the fund performance figures of BEA (Industry Scheme) MPF Conservative Fund as set out in the Fund Fact Sheet have been adjusted to reflect the fees and charges. The fund performance figures of BEA (Industry Scheme) MPF Conservative Fund in the Fund Fact Sheet are not affected by the change on the fees and charges deduction method from 1st April, 2022.

強積金保守基金的費用及收費可(一)透過扣除資產淨值收取；或(二)透過扣除成員賬戶中的單位收取。於2022年4月1日之前，東亞(行業計劃)強積金保守基金採用方式(二)收費，所列之基金單位價格及資產淨值並未反映費用及收費的影響。由2022年4月1日起，東亞(行業計劃)強積金保守基金的收費及費用扣除方法已經由方式(二)更改為方式(一)，故由2022年4月1日起所列之基金單位價格及資產淨值已反映費用及收費的影響。

東亞(行業計劃)強積金保守基金於基金概覽上所有基金表現數據已作出調整以反映收費及費用在內，因此，基金概覽上的基金表現數據並不受由2022年4月1日起收費及費用扣除方法的轉變影響。

7. Prescribed savings rate is a rate prescribed by the Mandatory Provident Fund Schemes Authority monthly. The prescribed savings rate is the simple average of the interest rates offered by the three note-issuing banks in Hong Kong on Hong Kong dollar savings account with deposit amount of \$120,000. 訂明儲蓄利率指強制性公積金計劃管理局每月定期公佈的利率。該利率是三家香港的發鈔銀行港幣儲蓄戶口12萬元存款的利率水平之平均數。
8. Default Investment Strategy ("DIS") is a ready-made investment arrangement mainly designed for those MPF scheme members who are not interested or do not wish to make an investment choice, and is also available as an investment choice itself, for members who find it suitable for their own circumstances. Members who do not wish to choose an investment option do not have to do so. For those members who do not make an investment choice, their future contributions and accrued benefits transferred from another MPF scheme will be invested in accordance with the DIS.
- DIS is not a fund - it is a strategy that uses two constituent funds, i.e. the BEA (Industry Scheme) Core Accumulation Fund (the "Core Accumulation Fund") and BEA (Industry Scheme) Age 65 Plus Fund (the "Age 65 Plus Fund") to automatically reduce the risk exposure as the member approaches retirement age. Core Accumulation Fund will invest around 60% in higher risk assets (higher risk assets generally means equities or similar investments) whereas the Age 65 Plus Fund will invest around 20% in higher risk assets. Switching of the existing accrued benefits among Core Accumulation Fund and Age 65 Plus Fund will be automatically carried out each year on a member's birthday from the age of 50 to 64 and according to the allocation percentages as shown in the DIS de-risking table.
- To invest in DIS, member's instruction must be an instruction to invest 100% of: (A) existing accrued benefits and/or (B) future contributions and accrued benefits transferred from another scheme in the DIS.
- De-risking mechanism will not apply where the member chooses these constituent funds as standalone investments (rather than as part of the DIS). However, the funds with same name under DIS and non-DIS have the same unit prices.
- For further details, including the product features, de-risking mechanism and table, fees and charges, investment rules and procedures, and the risk factors involved, please refer to the MPF Scheme Brochure of the BEA (MPF) Industry Scheme.

預設投資策略是一項主要為無意或不希望作出投資選擇的強積金計劃成員而設的現成投資安排。成員若認為預設投資策略適合自身情況，亦可把預設投資策略作為投資選擇。成員如不想作出投資選擇，可無須這樣做。對於沒有作出投資選擇的成員，其未來供款及從其他強積金計劃轉移之累積權益將根據預設投資策略投資。

預設投資策略並非基金，而是一種透過使用2個成分基金，即東亞(行業計劃)核心累積基金(核心累積基金)及東亞(行業計劃)65歲後基金(65歲後基金)，自動在成員逐步達到退休年齡的不同時候降低風險的策略。核心累積基金將其資產淨值中約60%投資於風險較高的投資產品(風險較高的投資產品一般指股票或類似的投資項目)，而65歲後基金則將投資約20%於風險較高的投資產品。核心累積基金及65歲後基金之間的現有累積權益轉換將於成員50歲至64歲期間每年生日當日，根據預設投資策略風險降低表中載明之分配比率自動進行。

如投資於預設投資策略，成員的指示必須就以下部分作出全數投資：(A) 現有累積權益和/或 (B) 未來供款及從其他計劃轉移之累積權益。

風險降低機制並不適用於主動選擇此成分基金作為獨立投資(而非作為預設投資策略的一部份)的成員。然而，預設投資策略與非預設投資策略的同名基金，其單位價格相同。

有關詳情，包括產品特點、風險降低機制及列表、收費、投資規則與程序，及所涉及的風險因素，請參閱東亞(強積金)行業計劃的強積金計劃說明書。

9. For the Core Accumulation Fund and Age 65 Plus Fund, a brief explanation should be provided for any material difference between their returns and that of the relevant recognised reference portfolio over any period of 1, 5, 10 years and since launch as constituent funds of the DIS. Material difference means a difference in annualised performance of a constituent fund of the DIS that exceeds 2.0 percentage points either side of the annualised performance of the recognised reference portfolio where the reporting date of the fund fact sheet falls after 30th June, 2019.

就核心累積基金及65歲後基金而言，如基金與相關的獲認可參考投資組合在1年期、5年期、10年期及自推出成為預設投資策略成分基金以來任何一段期間的回報有任何重大差異，須闡述差異理由。就此：如基金概覽的匯報日為2019年6月30日之後，重大差異指某預設投資策略成分基金的年率化表現，高於或低於獲認可參考投資組合年率化表現，而兩者的差距超過2.0個百分點。

10. Due to rounding, the total allocation may not add up to exactly 100%. 由於四捨五入關係，分佈的總數可能不等於100%。

The Fund Fact Sheet is published on a quarterly basis. Members can obtain quarterly Fund Fact Sheet by visiting www.hkbea.com or by calling the BEA (MPF) Hotline (Operated by Bank of East Asia (Trustees) Limited).

基金概覽會定期以季度形式出版。成員可登入東亞銀行網頁www.hkbea.com下載或致電東亞(強積金)熱線(由東亞銀行(信託)有限公司運作)索取每季基金概覽。

Fund performance is calculated in HK\$ on NAV to NAV basis, with dividends reinvested. 基金表現是以港幣為計算單位，按資產淨值作為比較基礎，而再投資的股息亦計算在內。

You may, at any time and without charge, request Bank of East Asia (Trustees) Limited ("BEA Trustees") to stop using your personal data for direct marketing purposes. To do so, please send an email to BEAMPF@hkbea.com, or send a written request to BEA Trustees' Individual Data Protection Officer by post to 32nd Floor, BEA Tower, Millennium City 5, 418 Kwun Tong Road, Kowloon, Hong Kong. BEA Trustees will follow up on your request immediately.

你可隨時要求東亞銀行(信託)有限公司(「東亞信託」)停止使用你的個人資料於直接促銷用途，而無須支付任何費用。如你欲提出此要求，請電郵至 BEAMPF@hkbea.com，或致函東亞信託個人資料保障主任(地址：香港九龍觀塘道418號創紀之城五期東亞銀行中心32樓)，東亞信託會隨即跟進你的要求。
